Administrative Services Memorandum

To: Public Safety Committee
 From: Craig Longnecker
 Date: July 17, 2020
 Subject: Child Care Fund Budget Update

Below is a summary of projected child care fund expenditures for 2020:

CHILD CARE FUND

	Original <u>Budget</u>	Amended <u>Budget</u>	Projected <u>Expenditures</u>	<u>Variance</u>	County Cost <u>(Over)Under</u>
Juvenile Agency Court Wards	100,000	100,000	50,000	50,000	25,000
Juvenile/DHHS State Wards	125,000	125,000	12,449	112,551	112,551
Subtotal	\$ 225,000	\$ 225,000	\$ 62,449	\$ 162,551	\$ 137,551
Intensive Home & Community Based Services	\$ 293,654	\$ 293,654	\$ 293,654		
Green Haven	\$ 461,953	\$ 461,953	\$ 461,953		
DHHS Court Wards	\$ 300,000	\$ 300,000	\$ 81,277	\$ 218,723	\$ 109,362
DHHS In Home Care	75,200	75,200	75,200		
DHHS Social Welfare	8,000	8,000	8,000		
Subtotal	\$ 383,200	\$ 383,200	\$ 164,477	\$ 218,723	\$ 109,362
TOTAL	\$ 1,363,807	\$ 1,363,807	\$ 982,533	\$ 381,274	\$ 246,913

Note 1: More detailed information will be provided by DHHS & Juvenile Court at the meeting. Please also note that the projected expenditures only account for current placements, actual costs may be higher depending upon the number of additional placements.

Note 2: The budget for DHHS Court Wards will be reduced in the future once the new State pays first policy for this category has been reconciled.

2018 -20 COMPLAINTS BY AGENCY

Keep Them Here – Serve Them Here

The Michigan Juvenile Code, Act 288 of 1939, 712A.1, Section 1 (3), clearly states the vision and mission of legislators for serving juveniles in Michigan. It states, in part:

(2) Except as otherwise provided, proceedings under this chapter are not criminal proceedings.

(3) This chapter shall be liberally construed so that each juvenile coming within the court's jurisdiction receives the care, guidance, and control, preferably in his or her own home, conducive to the juvenile's welfare and the best interest of the state. If a juvenile is removed from the control of his or her parents, the juvenile shall be placed in care as nearly as possible equivalent to the care that should have been given to the juvenile by his or her parents.

In keeping with this vision and mission (and legislative authority), this court in partnership with the county and state has developed programming for neglected, abused, and delinquent youth. These service components are funded through the Child Care Fund (50% state and 50% county funded). They are designed for youth who are at greatest risk of out-of-home placement. Youth are assessed for risk and needs using the YLS/CMI – Youth Level of Service/Case Management Inventory and a Case Management Plan is developed for each youth.

Child Care Fund

In-home Care – Intensive Home and Community-based Services (IHCBS) - From April 1, 2020 to June 30, 2020, there have been 18 youth served through this program component. In-Home Care (IHC) program expenditures are restricted to new or expanded programs that are alternatives to out-of-home institutional or foster care. IHC funds may not be used to duplicate services.

Green Haven Usage – From April 1, 2020 to June 30, 2020, a total of 4 separate youth have resided at Green Haven for a total of 15 days of either secure detention or residential care in the open setting. This reduction from past report periods is due to the restrictions for use of juvenile detention facilities during the Covid-19 pandemic. As a result of these restrictions, no non-resident youth received day treatment and educational services at the facility.

Institutional Care

- **Court Operated Detention**– From April 1, 2020 to June 30, 2020, no youth were placed in another court, county, or tribe operated facility for a total of 0 days.
- **Private – In-state Residential Care** - From April 1, 2020 to June 30, 2020, no youth were placed in residential treatment programs.

Community Connections Making A Difference

Community Service Programs

A part-time Compliance Officer is funded through the IHCBS program component. He meets with youth to ensure compliance with the youth's court orders, Consent Agreements, and treatment plans. "Community service programs bring needed volunteer resources to communities; hold the potential to increase the public's knowledge of, and involvement with, the juvenile justice system; and can build strong bonds between youth and community that will enhance public safety." This program component allows youth to build new strengths and engagement in special interests; it assists youth and families in identifying positive community resources and activities; and it encourages youth to participate in purposeful activities that provide physical, social and/or emotional benefits. Non-profit and service groups benefit through volunteer labor. Community service also helps develop more positive attitudes between victims, offenders, communities, and the court. Due to restrictions as a result of the Covid-19 pandemic, Clinton County Juvenile Court has implemented creative at-home alternatives for youth to earn community service hours and make a positive impact on the community and themselves. These include: completing Question/Persuade/Refer (QPR) training for suicide prevention through CMH and various competency development classes through the MSU Extension along with reflective writing or art projects; sending uplifting letters/artwork to service men and women; sending uplifting letters/artwork to elderly residents of care facilities; making friendship bracelets for children in foster care; and making blankets for dogs and cats in adoption agencies. After reaching SCAO's requirements for level 2 reopening protocol, youth have also engaged in additional outdoor community service activities, including yard work for elderly residents and cutting branches and brush along the public trails in Dewitt Township. These types of activities will continue and additional activities will be provided as the county progresses through the levels.

Y.E.S. Program

Clinton County Juvenile Court has begun an alternative Youth Empowered to Succeed (Y.E.S.) program for this summer as a result of the Covid-19 pandemic. In lieu of the traditional 8 week program held at Green Haven and Eagle Village that typically involves approximately 10 youth, both boys and girls, Juvenile Court is holding the program via Zoom with 3 girls. This change was decided to make it more conducive for each youth and the facilitators to participate fully. Field trips and experiential learning activities are being replaced with artistic activities to be facilitated by local artists and supplemental lessons geared toward girls facilitated by local providers. The girls in the program were chosen due to similar backgrounds and interests. A fourth girl was slated to participate; however, she was placed in a residential placement through DHHS shortly before the start of the program. The Y.E.S. program continues to utilize the WhyTry curriculum as the basis for each lesson. Juvenile Court is looking to possibly hold another Y.E.S. program during the winter months in order to impact more youth. If and how this program will be implemented will be

dependent on the status of the Covid-19 pandemic and any continued restrictions as well as possibly on school schedules.

Teen Court

Teen Court has been in existence in Clinton County since 2008, providing youth a hands-on approach to learning the basics of the juvenile justice system. The process provides an opportunity for the juvenile respondents to be judged by their peers which can aid in stopping patterns of negative behavior, promote self-esteem, and assist in developing a healthy attitude toward authority. Schools participating in the Teen Court program include Clinton County RESA Criminal Justice classes, Ovid-Elsie, Bath and DeWitt High Schools. Juvenile Court staff conduct training with each class emphasizing the importance of confidentiality and gathering the necessary background information related to the case to make an informed recommendation to the court for terms of probation. Teen Court was not held during this report period due to COVID-19 school closures and restrictions.

CCRESA Work-based Learning Project

Clinton County Juvenile Court participated in Clinton County RESA's Work-Based Learning Program along with several other community criminal justice and human service agencies during the 2019-2020 school year. The Work-Based Learning Program allows for second year Criminal Justice class students to shadow officers and staff from the various agencies in their daily functions on a weekly basis. Clinton County Juvenile Court was able to provide opportunities to the students to conduct visits and compliance checks with youth at school, at home, in the community and to observe court proceedings. Students were also given the opportunity to complete some documentation with the guidance of the probation officers, including writing case notes, scoring assessments, and developing case plans. Due to the Covid-19 school closures, no students participated in this program during this report period.

Truancy Intervention Program (TIP)

The Youth Intervention Program is offered to any pre-adjudicated middle or high school youth in Clinton County that may be in need of mental health services. Youth are referred by area schools and/or juvenile court and offered the opportunity to complete a MAYSI screening during a face-to-face appointment with a CMH Youth Intervention Specialist. The CMH Intervention Specialist then helps link the youth with the appropriate services to address various categories such as substance use, anger, depression, suicidal thinking, trauma, and signs of mental/emotional distress. This is a free service and it is a choice of the youth and his/her parent/guardian to follow the recommendations unless they are court ordered. Youth going before a referee on the consent calendar as well as youth going before the Court on Truancy petitions receive MAYSI screenings.

Trends and Updates

Criminal Responsibility to Stand Trial - Due process requires that a juvenile must be afforded the right to counsel during court proceedings. This right to counsel means little if the juvenile is unaware

of the proceedings or unable to communicate with counsel because of a psychological or developmental disability. No Psychological Assessments/Juvenile Competency Evaluations have been conducted during the reporting period.

MI Mental Health Court Grant Program – Juvenile – Clinton County Juvenile Court has decided not to apply for a Juvenile Mental Health Court Grant in 2020. This is due to significant changes in the types of petitions filed in Juvenile Court, specifically an increase in violent offenses and truancy cases and a decrease in non-violent offenses. Violent offenses and status offenses, including truancy, are not allowed to be accepted into a Juvenile Mental Health Court. Also, due to the Covid-19 restrictions, it was not possible to continue exploring the feasibility of the program and whether it would be a good use time and resources.
