2017 -19 Complaints by Agency

Keep Them Here – Serve Them Here

The Michigan Juvenile Code, Act 288 of 1939, 712A.1, Section 1 (3), clearly states the vision and mission of legislators for serving juveniles in Michigan. It states, in part:

(2) Except as otherwise provided, proceedings under this chapter are not criminal proceedings.

(3) This chapter shall be liberally construed so that each juvenile coming within the court's jurisdiction receives the care, guidance, and control, preferably in his or her own home, conducive to the juvenile's welfare and the best interest of the state. If a juvenile is removed from the control of his or her parents, the juvenile shall be placed in care as nearly as possible equivalent to the care that should have been given to the juvenile by his or her parents.

In keeping with this vision and mission (and legislative authority), this court in partnership with the county and state has developed programming for neglected, abused, and delinquent youth. These service components are funded through the Child Care Fund (50% state and 50% county funded). They are designed for youth who are at greatest risk of out-of-home placement. Youth are assessed for risk and needs using the YLS/CMI – Youth Level of Service/Case Management Inventory and a Case Management Plan is developed for each youth.

Child Care Fund

In-home Care – Intensive Home and Community-based Services (IHCBS) - From October 1st, 2018 to June 30, 2019, there have been 29 youth served through this program component. In-Home Care (IHC) program expenditures are restricted to new or expanded programs that are alternatives to out-of-home institutional or foster care. IHC funds may not be used to duplicate services.

Green Haven Usage – From October 1, 2018 to June 30, 2019, a total of 16 separate youth have resided at Green Haven for a total of 334 days of either secure detention or residential care in the open setting. A total of 22 non-resident youth also received 62 days of day treatment and educational services at the facility.

Institutional Care

- **Court Operated Detention**– From October 1, 2018 to March 31, 2019, 3 youth were placed in another court, county, or tribe operated facility for a total of 37 days.
- **Private – In-state Residential Care** - From October 1, 2018 to March 31, 2019, no youth were placed in residential treatment programs.

Community Connections Making A Difference

Community Service Programs

A part-time Compliance Officer is funded through the IHCBS program component. He meets with youth to ensure compliance with the youth's court orders, Consent Agreements, and treatment plans. "Community service programs bring needed volunteer resources to communities; hold the potential to increase the public's knowledge of, and involvement with, the juvenile justice system;

and can build strong bonds between youth and community that will enhance public safety.” This program component allows youth to build new strengths and engagement in special interests; it assists youth and families in identifying positive community resources and activities; and it encourages youth to participate in purposeful activities that provide physical, social and/or emotional benefits. Non-profit and service groups benefit through volunteer labor. Community service also helps develop more positive attitudes between victims, offenders, communities, and the court. Since October, the Compliance Office has coordinated Community Service with youth and various organizations and activities such as the Knights of Columbus Fish Fry; New Hope Pet Rescue-Adoption Days; Lions Recycling Center, Headstart; CASA Headquarters, the C-I-S Trail System, and the Senior Center.

Y.E.S. Program

Eleven youth are gathering together for eight weeks this summer, two days per week at Green Haven and five days of Challenge Residential Camp at Eagle Village. Activities include: lessons from the WhyTry Curriculum; field trips and special events, and experiential learning/trust building opportunities.

Teen Court

Teen Court has been in existence in Clinton County since 2008, providing youth a hands-on approach to learning the basics of the juvenile justice system. The process provides an opportunity for the juvenile respondents to be judged by their peers which can aid in stopping patterns of negative behavior, promote self-esteem, and assist in developing a healthy attitude toward authority. Schools participating in the Teen Court program are Clinton County RESA Criminal Justice classes, Ovid-Elsie, Bath and DeWitt High Schools. Juvenile Court staff conduct training with each class emphasizing the importance of confidentiality and gathering the necessary background information related to the case to make an informed recommendation to the court for terms of probation.

CCRESA Work-based Learning Project

Clinton County Juvenile Court participated in Clinton County RESA’s Work-Based Learning Program along with several other community criminal justice and human service agencies during the 2018-2019 school year. The Work-Based Learning Program allows for second year Criminal Justice class students to shadow officers and staff from the various agencies in their daily functions on a weekly basis. Clinton County Juvenile Court was able to provide opportunities to the students to conduct visits and compliance checks with youth at school, at home, in the community and to observe court proceedings. Students were also given the opportunity to complete some documentation with the guidance of the probation officers, including writing case notes, scoring assessments, and developing case plans. The program has already been set up for the 2019-20 academic year.

Truancy Intervention Program (TIP)

The Youth Intervention Program is offered to any pre-adjudicated middle or high school youth in Clinton County that may be in need of mental health services. Youth are referred by area schools

and/or juvenile court and offered the opportunity to complete a MAYSI screening during a face-to-face appointment with a CMH Youth Intervention Specialist. The CMH Intervention Specialist then helps link the youth with the appropriate services to address various categories such as substance use, anger, depression, suicidal thinking, trauma, and signs of mental/emotional distress. This is a free service and it is a choice of the youth and his/her parent/guardian to follow the recommendations unless they are court ordered.

Trends and Updates

Raise The Age – Under House bills and Senate bills, seventeen-year-olds would be included in the juvenile justice system rather than the adult court system. The Legislature has been discussing “raise the age” policy for several terms. Uncertainty regarding the reimbursement rates and costs to counties and the appropriation process remains high. Conceptually, almost every stakeholder supports the concept but the main barrier is funding. If passed, the full impact on county budgets could be felt in 2022.

Criminal Responsibility to Stand Trial - Due process requires that a juvenile must be afforded the right to counsel during court proceedings. This right to counsel means little if the juvenile is unaware of the proceedings or unable to communicate with counsel because of a psychological or developmental disability. Four Psychological Assessments/Juvenile Competency Evaluations have been conducted during the reporting period.

MIP-ALCOHOL – Under 17 years of age, 1st Offense, Civil Infraction handled by District Court;
2nd Offense for Juveniles, Misdemeanor handled by Juvenile Court.

MIP-MARIJUANA (MRTMA) Under 17 years of age, 1st and 2nd Offenses, Civil Infractions handled by District Court; currently, there are no penalties or sanctions included for third violations for persons less than 18 years of age.

School Safety Information Policy – An agreement between schools, law enforcement agencies, and the Prosecuting Attorney has been adopted and distributed to address matters relating to school safety and the exchange of information affecting school safety.

MI Mental Health Court Grant Program – Juvenile – Grant funds are available for courts to establish problem-solving or specialty courts. Adult Drug Courts, Mental Health Courts, and Veterans Treatment Courts are already established. The feasibility of a Michigan Mental Health Court Grant Program for juveniles in Clinton County was explored and an application for a Planning Grant was submitted.
