**Clinton County
Public Safety Committee
Juvenile Court
3rd Quarter 2022**

Child Care Fund

In-home Care – Intensive Home and Community-based Services (IHCBS)

In-Home Care (IHC) program expenditures are restricted to new or expanded programs that are alternatives to out-of-home institutional or foster care. IHC funds may not be used to duplicate services. From July 1, 2022 to September 30, 2022 there have been 18 youth served through this program component.

Green Haven Usage

From July 1, 2022 to September 30, 2022 a total of 8 separate youth have resided at Green Haven for a total of 98 days of either secure detention or residential care in the open setting. One additional youth from out of county was housed for one day but was not included in the IHC numbers. A total of 4 non-resident youth also received 10 days of day treatment and educational services at the facility.

Institutional Care

- **Court Operated Detention/Residential Care** – From July 1, 2022 to September 30, 2022 one youth was placed in another court, county, or tribe operated facility and was billed for 91 days.
- **Private – In-state Residential Care** – From July 1, 2022 to September 30, 2022, no youth were placed in residential treatment programs.
-

Triple P (Positive Parenting Program)

Triple P is an evidence-based parenting program that Juvenile Court has implemented and been approved to receive Child Care Fund reimbursement. One youth and her parents participated in the Level 4 Standard Teen Triple P program during this report period. One Teen Triple P Discussion Groups was held during this period.

Additional Programming/Services/Assessments

Youth Level of Service/Case Management Inventory 2.0 (YLS/CMI)

All youth who are opened for services with Juvenile Court are given the YLS/CMI risk/needs assessment to determine their level of risk to reoffend and to assist in program planning. The instrument is administered prior to disposition, and a case management plan is developed. The youth and plans are then reassessed every 90 days thereafter to determine if areas of risk have been reduced, and progress toward goals has been made. Between July 1, 2022 and September 30, 2022, 44 youth were open for services with Juvenile Court; 11 finished their terms of probation successfully, and one was terminated unsuccessfully. 30 youth were administered at least one assessment, and 19 were reassessed once or twice. Of those youth reassessed, the latest assessments showed:

- 13 reduced their risk levels from the initial assessment
- 3 had their levels remain the same
- 3 raised their risk levels

Community Service Programs

Juvenile Court coordinates community service activities with various organizations such as the Knights of Columbus, Happy Feet Pet Rescue, Lions Recycling Center, Goodwill, Clinton County Parks and Recreation, Sharing and Caring Family Life Services, Habitat for Humanity, St. Johns City and Police Departments, DeWitt City, the Bath Public Library, Ovid Healthcare Center, and Capital Area Community Services. During the 3rd quarter of 2022 Juvenile Court youth completed 220 hours of community service.

Y.E.S. Program

Clinton County Juvenile Court facilitated the Youth Empowered to Succeed (Y.E.S.) program during the summer. Utilizing the WhyTry Curriculum, 8 youth were enrolled and attended two days per week for 7 weeks at Green Haven, including five days of Challenge Residential Camp at Eagle Village.

Teen Court

Youth who have been placed on the Consent Calendar and take responsibility for their actions may be offered the opportunity to go before the Teen Court for disposition. No Teen Court hearings were held during this reporting period.

Victim/Community Awareness Program

Juvenile Court utilizes the “Victim/Community Awareness Program: An Orientation for Juveniles” curriculum. One group was held during the report period.

Truancy Intervention Program (TIP)

Juvenile Court partners with Community Mental Health to conduct mental health screens for pre-adjudicated youth. A licensed CMH therapist determines the need for services, links them with services both in and outside CMH and completes further assessments as needed to ensure timely provision of services. Youth going before a referee on the consent calendar as well as youth going before the Court on Truancy petitions receive screenings. From July 1, 2022 to September 30, 2022 9 youth under court jurisdiction received mental health screenings through the TIP program.

Criminal Responsibility to Stand Trial

Due process requires that a juvenile must be afforded the right to counsel during court proceedings. This right to counsel means little if the juvenile is unaware of the proceedings or unable to communicate with counsel because of a psychological or developmental disability. No Juvenile Competency Evaluations were conducted during this report period.

PA 389 of 2020 (Previously SB 700 of 2020) – Limiting the use of detention for Status Offenders

SB 700 was introduced on January 8, 2020 and came into effect April 4, 2020, coming into compliance with federal laws regarding limiting the use of secure detention for status offenders with an alleged violation of a court order. Clinton County Juvenile Court has used Green Haven’s detention cells for status offenders when they have violated the court order, but our detention cells are limited to 48 hours. More often those youth are placed on the open, or non-secure, side of the facility where they are able to stay longer to stabilize, support, and assist them with their needs. Zero youth on probation for status offenses were placed in secure detention during the report period. None have been detained in another county’s facility or in residential placement.

Raise the Age

As of October 1, 2021, Juvenile Court began providing services when the court exercises jurisdiction over a juvenile who is 17 years of age, but under the age of 18 at the time of the offense. 9 youth who were 17 years of age or older at the time of their offense have received services through Juvenile Court between July 1 and September 30, 2022. One RTA youth is in the In-Home Care program.

Additional Data for 3rd Quarter 2022

Restitution: \$405.00 in restitution was collected.

Counseling Services: 17 youth received counseling services through various community agencies.

Skill Building: 7 youth participated in skill building activities or programming

Employment: 5 youth obtained/maintained employment.

Trends and Updates

Juvenile Justice Reform

The Michigan Task Force on Juvenile Justice Reform completed its report and recommendations and submitted it to Governor Whitmer in July 2022. A comprehensive review of juvenile statute, court rules, and administrative policies was conducted. In addition focus groups, interviews with stakeholders, and meetings with juvenile justice agencies and associations were held to understand juvenile justice system functions. Following a thorough qualitative and quantitative assessment and analysis, 32 key findings with recommendations were developed and submitted.

Critical Lack of Juvenile Beds in Michigan

Michigan is experiencing a crisis with regard to a severe lack of short-term local detention, out-of-home residential, and short and long term psychiatric hospital beds for youth. The shortage of beds has led many courts to go without proper placement for our highest risk delinquent youth, many of whom are also suffering from mental health challenges. Numerous professional organizations and associations, including juvenile justice, law enforcement, courts, and mental health, worked together to draft a letter to the Governor and Director of DHHS outlining their concerns and urging legislators and policy makers to address the crisis. A number of factors and short-term and long-term recommendations were also provided.
