\* The total youth utilizes a quarterly average in order to eliminate double counts.

**Clinton County  
Public Safety Committee  
Juvenile Court  
3rd Quarter 2021**

**Child Care Fund**

**In-home Care – Intensive Home and Community-based Services (IHCBS)** - In-Home Care (IHC) program expenditures are restricted to new or expanded programs that are alternatives to out-of-home institutional or foster care. IHC funds may not be used to duplicate services. From July 1, 2021 to September 30, 2021 there have been 14 youth served through this program component.

**Green Haven Usage** – From July 1, 2021 to September 30, 2021, a total of 7 separate youth have resided at Green Haven for a total of 17 days of either secure detention or residential care in the open setting. A total of 2 non-resident youth also received 10 days of day treatment and educational services at the facility.

**Institutional Care**

- **Court Operated Detention**– From July 1, 2021 to September 30, 2021, two youth were placed in another court, county, or tribe operated facility; however, correct invoices were not received until after the end of the reporting period. These numbers will, therefore, be reflected in fourth quarter numbers.
- **Private – In-state Residential Care** – From July 1, 2021 to September 30, 2021, no youth were placed in residential treatment programs.

**Triple P (Positive Parenting Program)**

Triple P is an evidence-based parenting program that Juvenile Court has recently been implemented and approved to receive Child Care Fund reimbursement. One youth and his parents participated in and successfully completed the Level 4 Standard Teen Triple P program during this report period. Information was provided to school principals and counselors regarding the Triple P Discussion Groups during a TIPs meeting. The two trained facilitators are also in the process of scheduling individual meetings with principals and counselors to discuss the program in detail and answer any questions.

## **Additional Programming/Services/Assessments**

### **Youth Level of Service/Case Management Inventory 2.0 (YLS/CMI)**

All youth who are opened for services with Juvenile Court are given the YLS/CMI risk/needs assessment to determine their level of risk to reoffend and to assist in program planning. The instrument is administered prior to disposition, and a case management plan is developed. The youth and plans are then reassessed every 90 days thereafter to determine if areas of risk have been reduced, and progress toward goals has been made. Between July 1, 2021 and September 30, 2021, 35 youth were open for services with Juvenile Court and 15 of those finished their terms of probation successfully. 31 youth were administered at least one assessment. Of those 31:

- 13 reduced their risk levels from the initial assessment
- 2 had their levels remain the same (all were at a low risk to begin with)
- 1 raised their risk levels
- 16 have not been reassessed

### **Community Service Programs**

Juvenile Court coordinate community service activities with various organizations such as the Knights of Columbus, Happy Feet Pet Rescue, Lions Recycling Center, Goodwill, Clinton County Parks and Recreation, Sharing and Caring Family Life Services, Habitat for Humanity, St. Johns City and Police Departments, DeWitt City, the Bath Public Library, Ovid Healthcare Center, and Capital Area Community Services. During the 2<sup>nd</sup> quarter of 2021 Juvenile Court youth completed 183.25 hours of community service.

### **Y.E.S. Program**

Clinton County Juvenile Court facilitated the Youth Empowered to Succeed (Y.E.S.) program for the summer between June 29 and August 11, 2021. Utilizing the WhyTry Curriculum, 9 youth, ages 14 - 16, attended two days per week at Green Haven and five days of Challenge Residential Camp at Eagle Village. The group did very well with all youth participating in the lessons, engaging in activities, and enjoying themselves.

### **Teen Court**

Youth who have been placed on the Consent Calendar and take responsibility for their actions may be offered the opportunity to go before the Teen Court for disposition. Two Teen Court hearings were held during this reporting period.

### **Victim/Community Awareness Program**

Juvenile Court utilizes the “Victim/Community Awareness Program: An Orientation for Juveniles” curriculum. Two groups were held, with 8 total participants, during the 3<sup>rd</sup> quarter.

### **Truancy Intervention Program (TIP)**

Juvenile Court partners with Community Mental Health to conduct mental health screens for pre-adjudicated youth. A licensed CMH therapist determines the need for services, links them with services both in and outside CMH and completes further assessments as needed to ensure timely provision of services. Youth going before a referee on the consent calendar as well as youth going before the Court on Truancy petitions receive screenings. From July 1, 2021 through September 30, 2021 3 youth under court jurisdiction received mental health screenings through the TIP program.

### **Criminal Responsibility to Stand Trial**

Due process requires that a juvenile must be afforded the right to counsel during court proceedings. This right to counsel means little if the juvenile is unaware of the proceedings or unable to communicate with counsel because of a psychological or developmental disability. No Juvenile Competency Evaluations have been conducted during this report period.

### **Additional Data for 2<sup>nd</sup> Quarter 2021**

Restitution: \$1430.00 in restitution was collected.

Counseling Services: 17 youth received counseling services through various community agencies.

Employment: 6 youth obtained/maintained employment.

## **Trends and Updates**

### **PA 389 of 2020 (Previously SB 700 of 2020) – Limiting the use of detention for Status Offenders**

SB 700 was introduced on January 8, 2020 and came into effect April 4, 2020, coming into compliance with federal laws regarding limiting the use of secure detention for status offenders with an alleged violation of a court order. The Act requires prompt

notification to DHHS; an assessment to determine the needs of the youth, a Court hearing to be held to determine probable cause regarding the violation and need for detention, a written report to the court which references the specific order violated, a factual basis to determine whether the juvenile violated the order, and reasons why there is no appropriate less restrictive placement. The Act limits the number of days a youth can be placed in secure days to no more than 7 days and requires a plan for the juvenile's release. The order may not be renewed or extended. Clinton County Juvenile Court has used Green Haven's detention cells for status offenders when they have violated the court order, but our detention cells are limited to 48 hours. More often those youth are placed on the open, or non-secure, side of the facility where they are able to stay longer to stabilize, support, and assist them with their needs. Clinton County is fortunate to have the open side as it allows for youth to continue to attend their home schools, meet with their therapists as scheduled, and visit with their family members regularly. Use of out of county facilities for status offenders has been used very rarely by Clinton County, and some detention facilities have now opted not to accept status offenders at all. No youth were placed in secure detention during the 2<sup>nd</sup> quarter of 2021, and youth on probation for status offenses were detained in another county's facility or in residential placement.

### **Raise the Age**

In November 2019, legislation was passed in Michigan extending fund availability to juvenile justice youth who come under court/tribal jurisdiction at age 17. Beginning October 1, 2021, Juvenile Court will provide services when the court exercises jurisdiction over a juvenile who is 17 years of age, but under the age of 18 at the time of the offense. Public Act 114 extends the already existing Child Care Fund (CCF) Reimbursement Program to include reimbursement of juvenile justice services and/or placement for those youth. These expenditures will align with the types of costs normally eligible for CCF reimbursement. Raise the Age-associated expenditures under the CCF reimbursement program will be reimbursed 100% via the already-existing CCF monthly reimbursement process.

Public Act 97 establishes a Raise the Age Fund within the department of Treasury, which will be administered by MDHHS for reimbursement and auditing purposes through E-GrAMS. These will be expenses associated with exercising jurisdiction over juvenile justice youth who come under court at age 17 that would not be reimbursable through the already-existing Child Care Fund Reimbursement Program. Clinton County received \$131,670.00 in RTA Grant funds.
