Bond issue vitally affects elementary schools

Forty members of a 110-member citizens committee which worked on the 1966 school bond issue drive got a detailed look last week at the progress of the building program—and why additional money is needed to finish it up.

The problem, school administrators pointed out, is that building costs have run about \$250,000 above what had been anticipated in the original bond issue of \$5.4 million.

The school board has scheduled a special election for Nov. 20 at which time they are asking voters to approve a \$250,000 bond issue so that the original plan can be completed. It would cost taxpayers an additional three-quarters of a mill for 10 years.

ABOUT HALF THE ADDITIONAL money—\$124,200, to be exact—would be used to buy furniture and equipment for the new rural neighborhood elementary schools and additions. When the elementary construction bids came in higher than expected (after being re-bid once), the board elected to use money originally allocated for furniture and equipment to pay for the building, rather than to chop features off the buildings that could never be replaced.

They hoped to be able to make up the overage later in the building program, but when high school bids came in about as originally anticipated, those hopes disappeared. The only alternative left, the board decided after lengthy discussion and deliberation, was to return to the voters and ask for additional money for the equipment.

In addition to the furniture and equipment for the rural elementary schools, another \$14,000 of the \$250,000 would be

used for blacktopping the play areas, providing fencing at all schools and for seeding and landscaping.

THE BALANCE OF THE \$250,000 would be used for several purposes, including site development at the high school, capitalized interest and bonding costs, contingencies and a bus storage shelter (which wasn't involved in the original bond issue).

The high school site development portion of the new bond issue is \$60,000—the same figure that was included in the 1966

bond issue. School officials pointed out that higher-than-expected costs in the development of sewers (storm and sanitary), street blacktop and curb and gutter and sidewalk, on Sickle Street and the school sharing in the cost of renovation of a city sewer on Railroad Street has already taken about \$52,000 of the original \$60,000.

If more money is not available, the \$52,000 will of necessity come from the original \$60,000 allocated to the high school site

development, leaving little or nothing for landscaping and finishing the lawn and play areas.

The bus storage shelter would cost about \$17,500, school officials said. It would consist of two facing three-sided and covered shelters in which the school's 36-bus fleet would be parked when not in use. The shelter buildings would be built where the buses are presently parked.

Indecision apparent on city income tax

His birthday's Monday

Ed Craun, at 91, looks 71, moves around like it, too

By LOWELL G. RINKER
Editor

Ed H. Craun will be 91 years old Monday, but he could more easily pass for a man in his 70s, and his house and grounds are kept neat and clean to the point it looks like someone younger yet is living there.

Craun lives at 305 E. Baldwin Street in St. Johns. He's probably one of the most active people you'll ever find at the age of 91. He still drives a car occasionally, he just finished picking the tomatoes in his small garden, and Monday he was out cleaning up his rose gardens and other flower beds at the side of the house.

He does his own cooking and is proud of his boiled dinners and the fact he roasted a large turkey last Christmas. He was an interior decorator by trade in the days before he retired, and he views as natural the fact he still washes and paints the walls of the interior of the house and keeps it clean.

CELEBRATION OF HIS 91st birthday started last weekend when a friend took him out to dinner at Corunna. "I've got a hunch there are more shenanigans up this weekend," he said.

His birthday will be Monday. He was born Oct. 30, 1876, on a farm in Riley Township. "They've got my birth certificate up here as Oct. 31, but my mother always told me my birthday was on the 30th, and she ought to know," he chuckled.

For a man 91 years old, Craun would fool almost anyone. His hair is only greying and is not grey. His eyes have a sparkle behind his glasses. He moves around the house, up and down stairs and about the yard unhesitatingly and even with a brisk step.

The fact he enjoys sitting in a rocking chair at a dining room window has nothing to do with his age. It's a nice place to sit. The window looks out to the west beyond a fir tree, a bird feeder, his flower garden and across neighbor Bill Bechler's lawn at the busy Oakland-Baldwin intersection.

IT WAS WHILE SITTING there Monday afternoon that Craun reminisced a bit about his 91 years and some of the experiences he had during that time.

Craun worked on farms and in the lumbering industry in his early days, but while working at Ellendale, N.D., at about the age

of 20, he did his first painting. "I came back to St. Johns the year they built the (Clinton) national bank (1906)" he recalled, "and I helped build it. It was built in the winter. We had an open winter that year, with the weather just about like this. Then it would freeze up and snow a little, then thaw and be nice again."

That was his first job here, but in the 60 years since then he has done a whole lot of painting, and at one time he employed six to eight men in his business. "There aren't very many houses in this town I haven't worked in," he said.

"I PAINTED THE OLD courthouse on the outside three times. And I had the painting contract on the high school here when they built that. That wasn't any small job. When they built the high school at Ovid I had that contract, too."

His last major amount of painting on contract was done only five years ago.

The first year in St. Johns Craun joined the St. Johns Volunteer Fire Department, and he was a fireman 17 years. "That was when we had the two-wheel

Only handful tell objections

A city income tax ordinance for St. Johns got over its first big hurdle—introduction—last Tuesday night, but whether it will get any further than that or not isn't certain.

After its introduction the ordinance was tabled. In response to a question from the audience, Mayor Charles Coletta promised that the ordinance would be on the agenda for the commission's Nov. 7 meeting, but "I don't know if it will be taken from the table."

Commissioner Rex Serrine, who said he had been taken by surprise by the autumn Municipal Report which first broached the income tax question, told the mayor Nov. 7 would be too fast for him to make a decision.

The Nov. 7 meeting would be the last at which the commission could pass a city income tax if it were to take effect Jan. 1.

THERE WAS A GREAT deal of consternation at the meeting over whether or not the city commissioners even knew about the income tax question before it appeared in the Municipal Report. Attorney Tim Green, one of 20 persons in the audience last Tuesday night, brought the subject up when he asked commissioners if they had read it.

Commissioner Serrine and Mrs Jeanne Rand said they had not seen the report prior to its being published, although Mrs Rand said she may have overlooked it. City Manager Ken Greer replied that he could prove a rough form of the letter had been submitted to the commission at the last meeting in September.

Ormston to head FB board

Lee Ormston of 4151 E. Walker Road, St. Johns, was elected new president of the Clinton County Farm Bureau by the new board of directors last Tuesday night.

Nell Harte of R-4 St. Johns was elected vice president, and James Becker of West Walker Road was chosen as the third member of the executive board.

Ormston succeeds E. J. Bottom, who has been president for the past several years. Ormston and his father, Frank, operate a 324-acre farm with a 65-cow all registered Guernsey dairy herd. The Ormston farm was one of those toured during the State Farm Management Tour in Clinton County Aug. 1.

Named delegates to the Farm Bureau's annual state meeting were Bruce Mehney, Dennis Phillips, Ormston, Harte, Andrew Cobb and Bottom.

Other members of the board of directors are Cobb of Elsie, Ken Gelsenhaver of Bath, Lawrence Maier of R-4 Lansing, Daniel Thelen of rural Portland, Glen Whitford of rural St. Johns, Robert Kissane of R-3 St. Johns and Dennis Phillips of R-1 St. Johns. Kissane and Phillips were elected to the board at the county annual meeting Oct. 17.

Bath man dies of gun wound

BATH — Chancellor Davis, 32, of 12812 Webster Road, Bath, died at St. Lawrence Hospital Tuesday, with a gunshot wound suffered in a hunting accident Sunday evening.

Davis was reportedly trying to finish the kill on a pheasant with the butt of his 12-gauge shotgun when the weapon went off, wounding him seriously in the left side of the stomach. He was hunting with his father-in-law, Raymond Eschtruth, and two brothers-in-law at the time of the accident.

Davis and his wife Betty and 2-year-old daughter live with the Eschtruths at the present time. He only recently returned from Army duty.

Bath Township firemen were summoned to the scene, a half-mile into rough terrain on the west side of Webster Road (on Eschtruth property) to help carry the victim out to a waiting ambulance.

Fiscal situation dims talk of new street lighting downtown

The city commission made some out-loud plans for new street lighting in the downtown area of St. Johns last Tuesday, but they quickly admitted it won't be this year and maybe not next.

"We don't have enough money now for new police cars," one commissioner said. Commissioner Mrs Jean Rand said she thought the commission should consider new lighting in the budget for next year, but no further indication of action was given.

The lighting discussion, brief though it was, began after City Manager Ken Greer told the Commission that it was necessary to turn down a Chamber of Commerce request for additional circuits on the light poles in order to handle more Christmas lighting.

Christmas lights are hung on the poles, and Consumers Power Co. refuses to allow any larger fuses (See FISCAL, Page 2-A)

First Nighters on stage again with comedy, 'Goodby, Charlie'

The St. Johns First Nighters will return to the stage tonight (Thursday) and Saturday with a three-act comedy, "Goodby, Charlie," that will introduce some new faces to the theater group's cast. Curtain time will be 8 p.m. both nights. There will be no performance Friday because of the home football game. "Goodby, Charlie" features Leon Luke as the friend of a bouncer, just deceased, and Sandra Riggs as the feminine reincarnation of the bouncer, whose name was Charlie. Charlie had been a demon lover, a superb connoisseur of wines and the possessor of a fine backhand until he met his end trying to escape through a porthole on a friend's yacht. The hilarity of the play concerns the change of Charlie's male personality to that of a female to match his reincarnation as a girl.

How They Run," "The Man Who Came to Dinner," and "Never Too Late." He'll play Irving in "Goodby, Charlie." Glenn Hill will play the role of Gregg Morris in the play; he's making his second appearance with the First Nighters. "Goodby, Charlie" will mark the start of the fourth season for the First Nighters. They have had "a good measure of success," according to President Foster, in the first seasons, and as a result have turned over part of their proceeds for a scholarship program for high school juniors. For the past two years they have sent students to a comprehensive summer drama course at Olivet College; last summer two students from St. Johns and one each from Fowler and Ovid-Elsie were awarded scholarships. The First Nighters now have their headquarters in rooms donated by Robert Conn above the E.F. Boron Co.

EUGENE LIVINGSTON, who has appeared as an actor in most of the First Nighter productions, will be backstage as the director of "Goodby, Charlie." Wayne Hicks, an experienced actor, director and producer, will be the producer of this play. Newcomers to the First Nighters stage will take the lead roles in "Goodby, Charlie." Leon Luke will play George Tracey, "Charlie's friend; he has had considerable acting experience in Lansing. Sandra Riggs as Charlie has stage experience, too, having played Red Riding Hood for the Junior League Children's Theater in Lansing for the past three years. Dorien Foster as Franny Saltzman is making her first appearance as a First Nighter; she is the wife of the group's president, Terry Foster. Also new will be Tom Knight as Mr. Shriver, and Mrs. Brandon (Annette) White as Rusty Mayerling.

THE CAST IS LACED with some First Nighter experience, however, led by veteran actor Henry Dellar. He's been in the First Nighter productions of "See

Democratic committee meets

The Clinton County Democratic Committee held its regular monthly meeting Oct. 16 in the community room of the Central National Bank in St. Johns. Sanford Volker gave a talk on the progress of a political course being held in Shiawassee County. The course is "Action Course of Practical Politics," held under the direction of the Owosso Chamber of Commerce. This course is sponsored by the National Chamber of Commerce and held under the direction of a local Chamber of Commerce. It is a non-partisan course and could be very beneficial to every voter.

There was a discussion on the possibility of starting a course in Clinton County. Regular monthly meetings are held the third Monday of each month in the community room of the Central National Bank in St. Johns. The meetings are open to the public and everyone is welcome, especially young adult voters.

Bath egg throwers get tip: Don't!

BATH—Bath area youths who might be inclined to throw eggs and tomatoes at automobiles this Halloween season were given a friendly tip by township Police Chief Gaylord David this week: "Don't do it. You could be arrested." A special effort will be made by police to make such arrests. About 15 complaints of such egg- and tomato-tossing have been made in the last month, and incidents could become more frequent with Halloween at hand. David pointed out the eggs and tomatoes ruin paint on cars.

on the poles. The commission, too, was reluctant to invest any more money in the present lighting than is necessary for maintenance. In other business last Tuesday night:

*Mayor Charles Coletta proclaimed Nov. 5-11 as American Education Week in St. Johns and urged "all citizens to examine more closely the existing and projected programs of our schools, as well as their own individual efforts to ensure the highest quality education for all."

"One of the primary duties of an enlightened citizenry must," he said, "be knowledge of, interest in and responsibility for the quality of our schools."

*The commission referred to the city planning commission a request from Saylor-Beall Manufacturing Co. to rezone 12 lots 150 feet deep along the north side of East Walker Street from light industrial to residential.

*THE COMMISSION decided to ask aid from the Chamber of Commerce in locating an agency for the North Star Bus Lines, which wrote a letter to the commission advising them buses would stop at St. Johns only when flagged on US-27 after Nov. 6 and until a suitable agency can be found.

*The commission discussed briefly the expiration of fire contracts with surrounding townships next July and indicated some interest in a joint board with the townships to work out fair apportionment of the cost of operating the department. Mayor Charles Coletta said the fire department operation costs about \$39,000 a year; the eight townships which are serviced wholly or in part by the St. Johns department pay \$8,900 a year total, he said. The commission hopes to do some serious talking on new fire contracts in mid-January.

*Mayor Coletta and City Clerk Don Clark were authorized to sign a deed for the sale of about 6.5 acres of land near the park to the St. Johns School District.

Green Holstein bull wins honors

Gold Medal Sire recognition—the highest attainable by a Registered Holstein bull—has been awarded by the Holstein-Friesian Assoc. of America to Pinehill Meteor 1424022 (VG), owned by Duane and Velmar Green of Green Meadow Farm, Elsie.

Only those Registered Holstein bulls having daughters that meet exceptionally high standards in milk production and body conformation are qualified for Gold Medal Sire honors.

Pinehill Meteor joined the Gold Medal ranks after being simultaneously named a Silver Medal Type Sire under the national Holstein organization's new plan of daughter-dam comparisons for type and a Silver Medal Production Sire on the basis of similar comparisons of milking ability.

Bond issue vital . . .

elementary schools which the board is asking money for does not include all of that which was cut out when the school board decided last January to go ahead with the original building.

The \$124,200 which would be allocated for furniture and equipment should the Nov. 20 bond issue pass would buy the following equipment for the schools:

Chalk board and bulletin boards for all schools; 16 wardrobe units at all schools; nine sink units for all schools; tables and benches for the all-purpose rooms at all schools; 18 cabinet units for the project areas at all schools; three cabinet units for the kindergartens; 20 book trucks; book cases for all the libraries; kitchen equipment, utensils and dishes; library furniture; office and clinic furniture; teachers' lounge; tables and chairs for conference rooms; incinerators at all schools; basketball backstops; restoration of kindergarten toilet at East Essex; darkening shades and wall-mounted screens; and repainting of existing rooms at East Essex and Eureka schools.

If the bond issue is defeated, the schools would be left without those items, the board said.

As part of their briefing last Tuesday night, the members of the citizens committee were also given a breakdown on how the original \$5.4 million bond issue was proposed to be spent prior to bid-taking and how things worked out after bids were taken.

Of the original bond issue, \$1,374,700 was allocated for construction of the rural elementary schools at East Olive and Riley and the additions at East Essex and Eureka. The low bids on the work, however, totaled \$1,671,292. Since this was nearly \$300,000 over the amount allocated for construction, the board approved a number of deletions, which reduced the total contract for the elementary schools to \$1,535,968.

In addition to the deductions for construction, all bids for equipment and furnishings were tabled. The total then committed for the elementary schools was \$1,647,110, including \$100,028 for architect's fee and \$11,114 for the purchase of two sites. This compared to a total allocation of funds, prior to bid opening, of \$1,434,700 for the elementary schools.

ON THE HIGH SCHOOL PROJECT, THE original bond issue included \$3,250,000 for construction. Low bids totaled \$3,401,778. Architect's fees and purchase of land have added another \$183,500 to the cost.

Also allocated for the high school was \$450,000 for furniture and equipment, \$60,000 for site development and landscaping, and \$15,300 for remodeling the shop to a cafeteria in the present high school building. Only science equipment has been bid so far, and about \$52,000 has been used or committed from the site development money.

In total, the board has committed \$5,778,137, just a few thousand dollars over what the original bond issue and its estimated income from investments of the principal will amount to. The board is figuring on an income of \$370,000 from the investments, but this could be reduced if the building construction proceeds faster than expected and the school has to draw the original bond money out of the investments to make payments.

This total commitment, the school board emphasized, is without the equipment and furniture for the rural schools or the other items involved in the current \$250,000 bond issue. Last Tuesday night's meeting of the citizens' committee will be the only one prior to the Nov. 20 special election. Only about 40 of the 110 persons on the citizens committee were able to be present.

High school close-up - Part 1

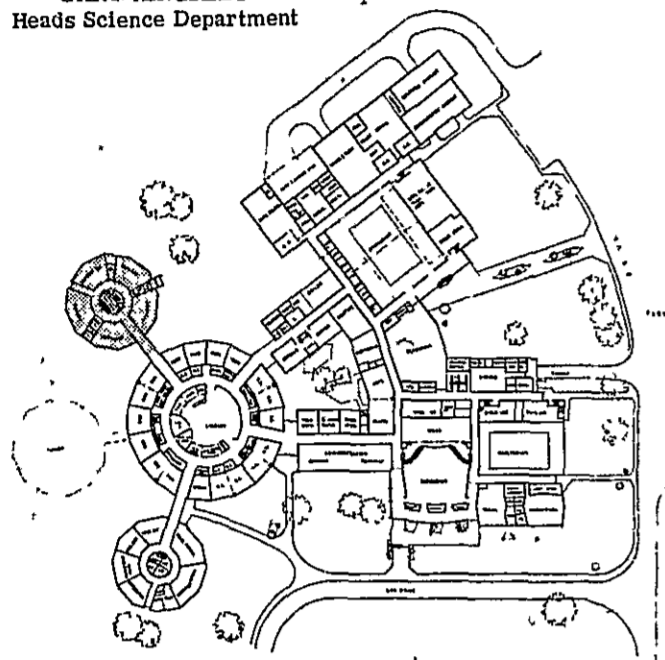

New high school science wing versatile unit

GARY KINGSLEY Heads Science Department

St. Johns High School science students will be able to create their own weather, to a certain extent, when they occupy their "wing" of the new high school now under construction.

THE CLIMATARIUM is one

Drawing shows the science wing (shaded) in its location and relation with other parts of the new high school building.

of several innovations which will be featured in the bio-work center in the biology rooms. Another item will be a freezer-oven-refrigerator combination in one cabinet where students can conduct experiments.

The new equipment will be great, but what Kingsley is looking forward to is the use of the new building, with more space available and a better room layout indicated in the plans.

The science wing of the new high school will be a generally circular cluster extending out from the main academic cluster on the southeast corner of the building complex. It will contain five classrooms for 10th, 11th and 12th graders, compared to three science classrooms now available for those three and the ninth grade.

While the science cluster is generally circular, the walls will not be rounded. The cluster will actually be 12-sided. The radius from the center will be 59 feet. At the interior of the cluster will be a science project area for individual and some small-group instruction, a darkroom for use by the journalism department and science clubs and material storage areas for the individual classrooms.

THE CENTRAL AREA will be surrounded by a nine-foot wide corridor providing access to the classrooms. The main corridor into the cluster will be 12 feet wide and will feature a small lobby and seating area just outside the walls of the cluster. Lockers will be located in the walls leading into the science wing core.

Skylights in the roof will provide some of the lighting for the corridors. An eight-foot-wide corridor will lead from the center to an exterior exit on the east side of the cluster.

Two of the five classrooms are designed for biology. The others will be for physical science, physics and chemistry. The rooms will be about 33 feet deep, 60 feet across the back and 20 feet across the front.

Two storage areas of about 150 square feet each will be provided for each room. In some cases, both storage areas are immediately adjacent to the room; in other cases, one storage spot is adjacent and the other is across the hallway in the center core.

THE BIOLOGY ROOMS and physics room are designed for 32 students; the physics and chemistry room will comfortably handle 24 students. Each room will have two exits; these will be into the corridors, with the exception of the two biology rooms where one of the exits in each room will be through a "greenhouse" which extends slightly from the southwest side.

In the physical science room, all furniture will be movable, except for sinks along the outer edge of the room. The other rooms in the science wing will have anchored tables. All rooms will have an eight-foot demonstration table, eight-foot fixed chalk board and a six-foot by six-foot pull-down screen.

Department Chairman Kingsley anticipates greater and better use of audio-visual aids in the new building because of the considerably smaller amount of window area to each room. There will be two eight-foot-wide windows in four of the rooms and just one such window in one of the biology rooms. The smaller window area will enable the rooms to be darkened to a much greater extent than is now possible in the "glass house" rooms at the present building.

IN THE CENTRAL core of wing, the darkroom will feature nothing new in the way of equipment, but the room size will be larger and cabinetry will be new. It will be used by the journalism students and science students alike. The project area will have no equipment other than cabinetry and hookups for electricity and gas. In addition to the preparation and storage areas for biology, physics and chemistry, there will be a small custodian's room.

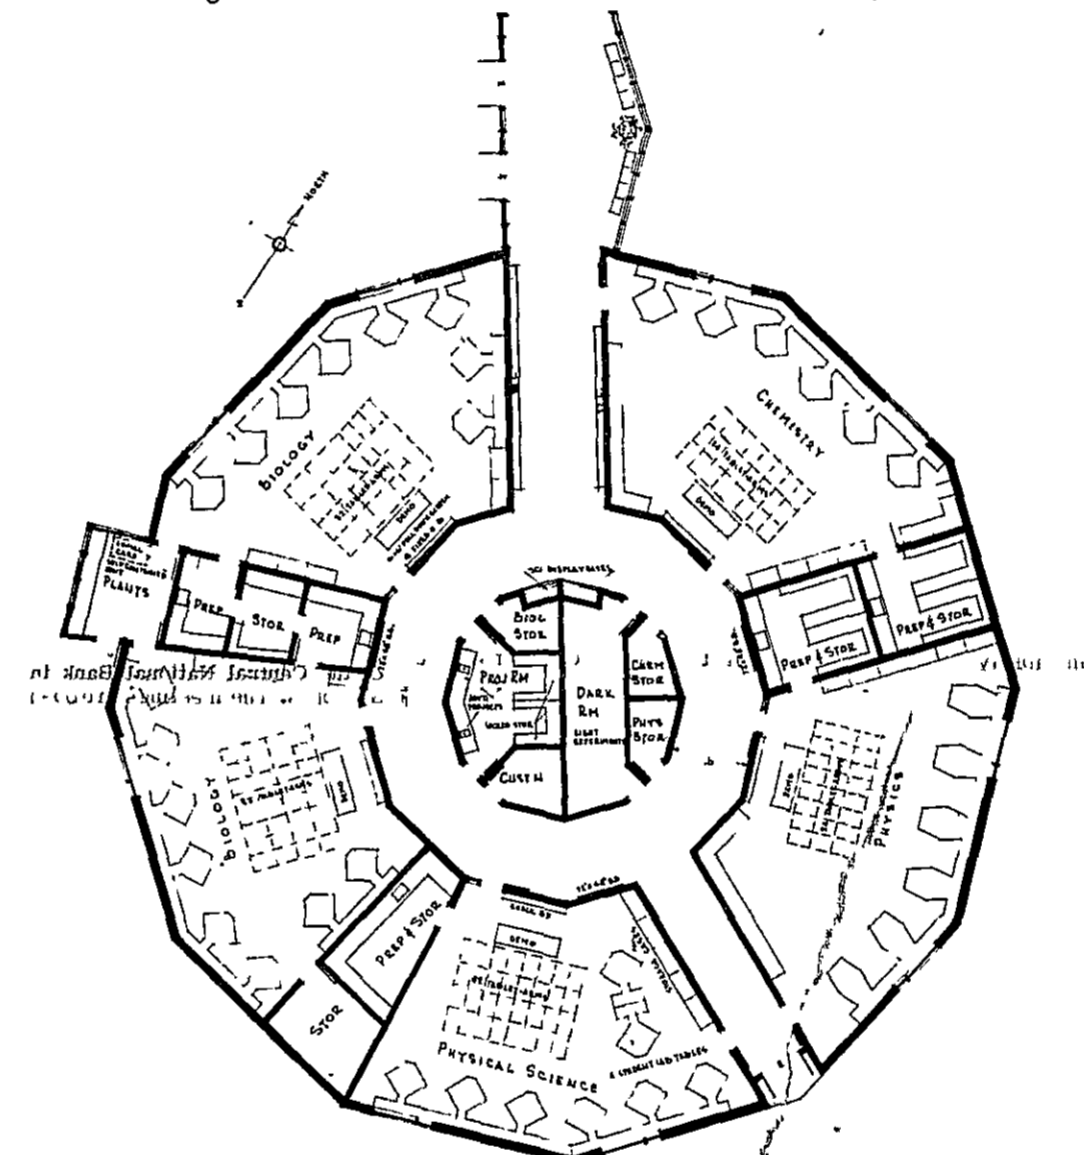

On the wall of the central core facing the main corridor will be located science display cases where projects can be displayed for the public.

There will be no rest rooms in the science wing.

Ironically, the science department is the only one which has already placed its order for equipment in the new building, and at the same time the science (See SCIENCE, Page 4-A)

Construction worker Neil White, with the Andy J. Egan Co. (plumbing) heating and ventilating contractors, digs out a perimeter tunnel at the east edge of the new St. Johns High School science wing. The concrete floor of the wing will be poured as soon as final plans arrive and plumbing and electrical conduits can be installed. At right in background is the curving wall of the main academic cluster, while going up in the center background are walls for the home economics area.

Architectural drawings by Guido Binda & Associates of Battle Creek provide some detail as to the layout of the science wing at the new St. Johns High School now under construction. Chemistry and physics areas have been switched with each other, however, since the drawing was made.

cars with the hose on. The streets weren't paved and when they were muddy we had to go on the sidewalk," he recalls. "There were times when these streets were knee-deep in mud. I can remember when Clinton Avenue was that in the spring of the year. A team could hardly get up through there with a lumber wagon."

CRAUN'S ACTIVE life may be what's keeping him active now. He worked around the farm at home as a kid, "and when I was 7 or 8 years old I was doing a man's work on the farm." There came a winter when a flu epidemic hit—"It was called the grippe then"—and Craun did chores for several neighbors. A family by the name of Jones enticed him to work through the summer. "I got \$11 a month doing man's work," plus room and board, he said. "The next winter I stayed there and went to school across the road. That's where I got my degree—South Riley School," he chuckled. The Joneses wanted him the next summer, and even raised his wages \$1.

Craun then made up his mind to work by the day around the Riley neighborhood, and he also helped his dad build and paint houses. One June, "George Bond and I made up our minds we were going to go west," he recalled. "We rode our bicycles down to Grand Haven, took a boat across

to Milwaukee and rode across Wisconsin to LaCross."

While in Wisconsin, they got bogged down between towns on muddy roads, and they stopped in at a farm house to see if they could spend the night in the barn. Craun found out, the people knew some people in Ovid whom Bond also knew, so the two cyclists wound up sleeping in the house rather than the barn.

CRAUN WAS ABOUT 17 years old then. He and Bond went up the Mississippi to Redwing, Minn., where they helped build barns, and Craun also did some threshing. When Bond returned to Michigan, Craun went into northern Minnesota where he worked in timbering for a winter. He then went into Dakota and lived at Ellendale for three years.

When the Spanish American War broke out, Craun and a friend tried to enlist in the Army; they found they were too young. "When the next war came along, I was too old. So I missed getting into the Army."

It's almost natural that Craun would be involved in Halloween pranks, since his birthday and Halloween are almost simultaneous. Craun admitted to the fact Monday and recalled one instance.

"Out there in the country was an old fellow—he was a mean old bug, anyway—and he had a windmill with a dinner bell up in the tower. We got a lot of cord, and one of us climbed up there and tied the cord on the clapper of that bell. Then we went down the road and pulled it—wham! "BOY, HE CAME OUT and went all around the house, but he didn't find anybody, of course. He'd just get back in the house and, wham, she'd go again. We did that about a dozen times, I guess, before he discovered what was up."

Craun said he had a lot of things to be thankful for, and one is the interest in him displayed by his neighbors and relatives. After his second wife passed away four years ago (after 25 years of marriage), "every Saturday my cousins would come in and we'd go out to dinner somewhere. They kept that up. They never stopped, and they still do it."

His cousin, John Craun, and his wife live out in Riley. "Instead of going out to dinner so much we'll have it here now," Craun said of the Saturday get-togethers. "I do a lot of the cooking which I learned from my wife. I generally make a mince pie or pumpkin pie or apple pie. And I can bake those just as good as anybody can, you know." That's not hard to believe.

THE NEWS IN BRIEF

The First Baptist Church's Young Adult and Ambassador Class Halloween masquerade party will be at the Ken Sneider home at 306 S. Baker . . .

St. Johns firemen answered two alarms Monday afternoon and evening. Monday afternoon they were called out to the Wheel Inn where the city's street sweeper caught fire. The brushes on the rear sweeper were blazing. Monday night an old shed filled with refuse burned on W. Price Road west of Grove Road. Firemen were called as a precaution against fire spreading to wooden shingles on a nearby house . . .

wing has barely been started in construction. Concrete floors have not yet been poured; contractors are awaiting final working drawings from the architect, Guido Binda and Associates of Battle Creek. Changes were made recently in some of the plans, and conduit for electricity, water and gas must be placed before concrete is poured.

WHILE THE SCIENCE Department's occupation of the building is still a year or so away, Kingsley and the school administration have already made some changes in the science curriculum to prepare for the changeover to the new high school.

High school freshmen are now being given a general science course, and the biology course previously available is not open now until the sophomore year. When the new high school is occupied, it will be by sophomores, juniors and seniors only, and ninth graders won't have the facilities available for biology instruction. Instead they'll have general science to lay the groundwork for biology as sophomores.

Curriculum changes after occupying the building haven't been worked out yet, but Kingsley visualized possibly an advanced course in biology being offered. The physics and chemistry rooms at the new high school will actually be smaller in size than the present room, but Kingsley emphasized that each will be able to be used strictly for the one purpose, whereas physics and chemistry now have to share one room. The total class size will be reduced, so the change will still be beneficial.

The location of the Science Department in its own cluster has some definite advantages in Kingsley's way of thinking. In the science study there is more inherent danger of fire or explosion, and the cluster isolates the department from other areas of the school more than the more-conventional designs. It will also be beneficial where odors are concerned, and high school science experiments have been known to produce some repugnant odors.

Part of the attentive crowd at the St. Johns Chamber of Commerce annual meeting last Thursday as they listened to Robert L. Van Ausdall, Michigan district manager of the United States Chamber of Commerce.

85 attend chamber meet

Approximately 85 businessmen and their wives attended the St. Johns Chamber of Commerce annual meeting held at Daley's Restaurant last Thursday evening.

Chamber president, Bob Dittmar introduced the chamber board of directors and the speaker of the evening, Robert L. VanAusdall, Michigan District manager for the United States Chamber of Commerce.

Although VanAusdall related in length his ability to lose or forget his hat on most of his travels, he amazed and entertained those present with a number of fetes of memory. In a more serious vein, VanAusdall pointed out that all phases of any community must tie in together to make a better community. Retailers, services, industry are all tied together in a community, thus they must work together for a better community with the chamber of commerce as the nerve center.

Winners in the door prize drawings were: Robert Thompson, Walter Pierce, Ed Schmitt, Wes Hathaway, Catherine Rumbaugh, Marge Cowan, Margaret Antes, Herbert Houghten, and Roger Hammondtree.

Rev. Eldon Raymond of the St. Johns church of the Nazarene gave the invocation.

Wilson Torch wins award

The Wilson Torch, student newspaper at Rodney E. Wilson High School in St. Johns, has received a first-class honor rating in the 77th All-American Newspaper Critical Service of the National Scholastic Press Assn.

More than 1,000 newspapers were judged. The Torch missed the top honor rating, all-American, but the first-class rating means the newspaper is an excellent one, according to contest officials.

Entries were judged in all areas of production from news coverage through writing and makeup.

Hearing in suit against city delayed

A show-cause hearing scheduled for last Wednesday in a suit against the City of St. Johns by Mrs. Juanita O'Leary was postponed because of the illness of her attorney, Mrs. O'Leary is charging unfair assessments against her property in a special assessment district formed last spring for the installation of sewer and water. She contends levies over \$5,000 against her property are unfair.

Safety-minded motorists never ignore signs, or signs of life along streets and highways.

So much more car

'68 CHEVY II NOVA COUPE

The day of the plain Jane economy car has come and gone. Chevrolet has something far finer to offer.

LONG HOOD, SHORT DECK

You get your economy now under Nova's new swept-back roof. You get your engine dependability under Nova's new long hood. You get your rust prevention beneath Nova's new rounded fenders and larger body.

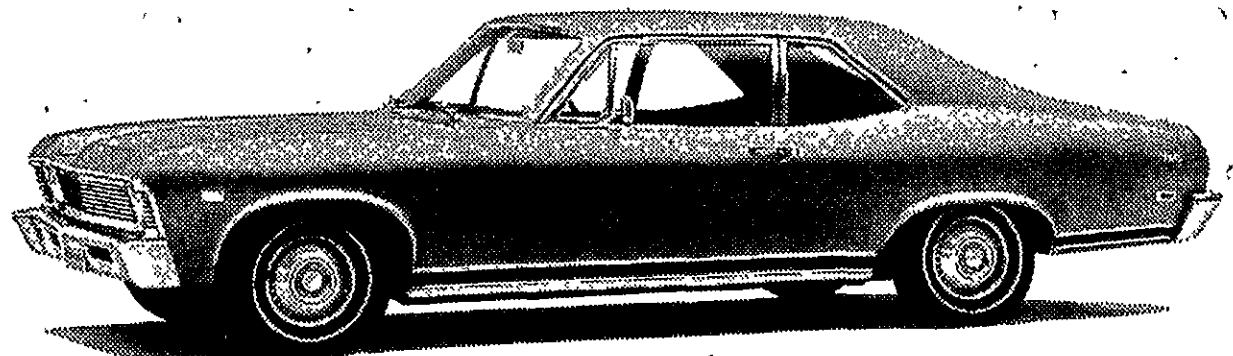

SUPERLATIVE RIDE

You get the smoothest in handling, too. The wheel stance is wider, the rear suspension has been redesigned, and there is a new cushion-mounted front end. Nova feels like it's a thousand pounds heavier. It rides with amazing silence and smoothness.

NEW ALL OVER

The grille is new. The interior is new. (There's even a special custom interior you can order, the likes of which no economy car has ever offered before.) The standard V8 is bigger, more powerful. So is the standard Six with its new Monojet carburetor that contributes to greater efficiency, economy and performance. There are many new safety features, including energy-absorbing front seat backs to go along with the proved GM-developed energy-absorbing steering column. And when you equip a Nova with the SS package, you look out over a special hood and black accented grille, housing a 350-cubic-inch Turbo-Fire V8.

Front to back, Chevy II Nova's now a driving enthusiast's kind of car but, fortunately for you, it still comes at a saving enthusiast's kind of price. Very low.

For so little: \$2261⁰⁰

Manufacturer's suggested retail price for standard Six Chevy II Nova Coupe shown above includes Federal Excise Tax, suggested dealer delivery and handling charges. Model shown above equipped at additional cost with Custom Exterior \$84.30, White Walls \$31.35, Wheel Covers \$21.10. Transportation charges, accessories, optional equipment, state and local taxes additional.

Be smart! Be sure! Buy now at your Chevrolet dealer's.

MISS KATHY J. SMITH

Francis Fleglers feted Sunday

About 75 were present to help Mr and Mrs Francis Flegler of 600 N. Clinton Avenue, St. Johns, observe their silver wedding anniversary.

The family dinner was held at the home of Mr and Mrs Herman Pasch Sunday, Oct. 22 and was hosted by the Fleglers' children Maureen Flegler and Mr and Mrs Robert Votek.

In attendance were the brothers and sisters of the honored couple and their families.

THE FORMER Edna Luecht and Francis Flegler were married Oct. 22, 1942. They have one grandchild.

MISS JAMES M. WILKIE

Wilkie-Worrall vows repeated October 14

Miss Linda Marie Worrall of St. Johns and James Marilyn Wilkie were married Saturday, Oct. 14, at the First Congregational Church of St. Johns. Rev. Gerald Churchill officiated at the double ring service.

Mr and Mrs Richard Worrall of 801 N. Clinton Avenue, St. Johns and Mr and Mrs Ralph Wilkie Sr. of Stanwood are the parents of the couple.

The bride is a graduate of Rodney B. Wilson High School and her husband was graduated from Gaylord High School.

FOR HER 7 p.m. wedding, the new Mrs Wilkie chose a floor length satin gown with pearl centered brocade flowers on the attached train as well as the gown. It was fashioned with long sleeves. Her veil fell from a cabbage rose headpiece and she carried an arrangement of pink tea roses and small white chrysanthemums.

Mrs Judith Hackett was her sister's matron of honor and the bridesmaids were Mrs Barbara Worrall, sister-in-law of the bride, of Buffalo, N.Y., and Miss Betty Howell of Lansing. Sheila Wadsworth was the flower girl.

They were attired in floor length empire styled gowns of

green with blue trim. Their headpieces were of matching green cabbage roses and they carried bouquets of white and green chrysanthemums.

FOR HER DAUGHTER'S wedding, Mrs Worrall wore a three-piece burnt orange ensemble with dark brown accessories. The mother of the bridegroom chose a baby blue dress with black accessories. Their corsages were of bronze daisies and white chrysanthemums.

The best man was Ralph Wilkie Jr. of St. Johns and the groomsmen were Edward Wilkie of Tecumseh and Wendall Wilkie of Lansing, all brothers of the bridegroom. Seating the guests were Ray Wilkie, brother of the groom; Douglas and Dennis Worrall, brothers of the bride and Dean Moeckel of Holland, brother-in-law of the groom. Douglas Wilkie, brother of the groom, was the candle lighter.

A RECEPTION followed the ceremony in the church parlors. Mr. and Mrs. Richard Worrall, were host and hostess for the affair.

Assisting were Mrs Pat Munger, Mrs Susie Stevens, Miss Nancy Worrall, Miss Donita Butler, Mrs Brenda Worrall, Janet Wilkie, Marilyn and Carolyn Wilkie, Sue Ann Clark, Peggy Worrall, Barbara Nowak and registering the guests was Lisa Wilkie, sister of the groom. Wilbur Worrall of St. Johns, the bride's grandfather, was the honored guest.

Recent bride feted

Miss Anne Marie Shinabery of rural St. Johns, who became the bride of Larry L. Purvis Oct. 14, was the guest of honor at several showers recently.

Mrs James Koenigsmecht of St. Johns, sister of the groom, gave a miscellaneous shower for the bride Sunday p.m., Sept. 17, with relatives of the groom attending. The hostess decorated with yellow and white, the bride's colors.

Thirty-five friends and neighbors of the bride attended a kitchen shower Sept. 27 given by Mrs Don Bast and daughters, Penny and Lonnie, at their Essex township home on N. Lowe Road.

MRS WAVA ROBERTS, aunt of the bride and Mrs Win Warren, the bride's cousin, both of St. Johns, gave a linen shower at the home of Mrs Roberts, Sunday evening, Oct. 8.

The bride's relatives presented her with many gifts. A special guest in attendance was Mrs Edgar Purvis, groom's mother, of 600 W. Higham Street. The hostesses served a decorated cake, coffee and mints from a table centered with yellow and white chrysanthemums and lighted tapers.

State hospital looking ahead to Christmas

Traverse City State Hospital again this year is making early plans in order to provide a happy holiday season for its almost 3,000 patients.

Early preparations are necessary so that Christmas gifts will be received in time to be sorted, selected, wrapped for individual patients and delivered to the wards in time for Christmas morning.

Churches, civic clubs, school groups, professional organizations and individuals are invited to have a part in the state hospital's outstanding Christmas activities.

THROUGH THE GENEROSITY of groups and individuals, the hospital has been able over the past 10 or 12 years to provide gifts for every single patient who would not otherwise receive them. A great many of the patients have no friends or relatives who correspond or from whom Christmas gifts would be received.

Gifts need not be expensive but they must be new. Such things as inexpensive cosmetics, games, puzzles, books, items of clothing, jewelry, billfolds, harmonicas, gloves, ties and many, many other items too numerous to mention are very acceptable. Gifts should be received by Dec. 1, if at all possible.

Clubs and civic groups and other such organizations are invited to make Traverse City State Hospital's Christmas program one of their projects for this year.

Further information can be obtained by writing or calling the Community Relations Department, Traverse City State Hospital, Traverse City, Mich. The hospital will furnish gift suggestion lists, delivery or shipping instructions and even gummed mailing labels for the convenience of donors.

MISS SUZANNE M. SCHNEIDER

Mr and Mrs Leo Schneider of rural St. Johns announce the engagement of their daughter, Suzanne Marie, to Pfc. Charles Blackmer, who is stationed with the US Army in Germany.

He is the son of Mr and Mrs David Blackmer also of rural St. Johns.

DeWitt snaps 29-game losing streak with tie

DeWITT—The DeWitt Panthers chose homecoming 1967 as the appropriate time to snap a 29-game losing streak Friday night, and although it didn't count as a

win, their 6-6 tie with Laingsburg was a big moral victory. The Panthers scored mid-way in the first quarter and then hung on through one Laingsburg score in the third period and another TD that was called back.

Witt and Maple Valley tied 20-20 in the 1964 season opener that DeWitt hasn't been on the losing end of the score. The last time they won was 26-6 over Pewamo-Westphalia Nov. 1, 1963, but now Coach Gary Roberts can see some glimpses of a victory starting to show through.

DeWITT PLAYED to win, and they almost did in the final plays of the game. The Panther defense had Laingsburg with their backs to the wall at the one-yard line, and then almost caught quarterback Gene Smith in the end zone for a safety. Smith completed his pass, but the receiver himself

barely got out of the end zone. The Panthers "borrowed" a play that beat them a week before to score their lone touchdown in the first quarter. It was a sleeper end play which Bath had used to score on DeWitt Oct. 13. DeWitt used it this time, and quarterback Joe LaMaccia hit end Mike Dolby

with a pass that carried 50 yards for the touchdown. Both boys are sophomores.

The 6-0 score held up through halftime and until midway in the third quarter when Laingsburg tied the score. They took advantage of a DeWitt fumble on the

DeWitt 30 yard line and drove down to the 1, from where quarterback Smith slipped into the end zone.

BOTH LAINGSBURG and DeWitt scored other touchdowns during the evening, but both had them nullified by penalties. De-

Witt's was a 15-yard pass play from LaMaccia to Bill Ballard that was nullified by a holding penalty.

DeWitt had a total offensive output of 200 yards, including 100 yards in passing. They picked up nine first downs.

Eagles nip Pirates 6-0

Blocked punt turns tie into Fowler victory

FWOLVER—The Fowler Eagles blocked a P-W punt in the end zone and recovered for a touchdown in the last minute and 40 seconds Friday night to defeat Pewamo-Westphalia 6-0.

It was the first break of many during the evening that the Eagles could take advantage of. Four other times they had the ball inside the P-W 10 yard line but had been unable to crack it into the end zone.

The big break came with 1:40 left in the game, which at that point was a scoreless tie. Pewamo-Westphalia's Jim Bengel dropped back into the end zone to punt on fourth down (P-W was at the 2 yard line), but Stan Pohl swept through the blockers to block the punt. Bud Conley fell on the ball just inside the back end zone line for a Fowler touchdown.

year, and one of those six was in the first period of Friday night's game. Mark Feldpausch got in front of the ball then and it set up Fowler's first scoring threat of the night on the P-W 10.

But the Pirates held, aided by a couple of Fowler penalties. And the Pirates held on other occasions, too, as Fowler threatened. In the third quarter the Eagles' Gary Schueller broke loose on a 56-yard run but fumbled the ball on the one-yard line as he switched hands to stiff-arm the last tackler. P-W recovered.

Quarterback George Goerge, playing in his first game since an injury in the season opener, ran 15 yards for a touchdown in the third quarter, but it was nullified by a penalty.

BLOCKING PUNTS is a favorite pastime for the Eagles. They've done it six times this

DESPITE THE FACT Fowler applied all the pressure during the evening, Pewamo-Westphalia put on the best offense, statistic-

ally speaking. They compiled a total of 134 yards rushing compared to Fowler's 84 yards. One hundred thirteen of those yards came in the second quarter when they also picked up most of their eight first downs.

Despite the rushing advantage, the Pirates weren't able to mount any threat at all, and the closest they got to the Fowler goal line was about the 33 yard line.

In passing yardage, Fowler held an edge of 39-15 yards. Fowler intercepted two P-W passes. Both teams fumbled the ball consistently, Fowler miscuing six times and losing the ball twice, and P-W fumbling three times and losing it each time.

P-W found itself with its back to the wall several times, each time because of Bud Conley's 40-yard-average punts which three times went out of bounds or were downed inside the 10 yard line.

O-E stays in 'B' race with 25-6 win over Corunna

OVID-ELSIE—The Ovid-Elsie Marauders proved they are still much alive in the Mid-Michigan B Conference race by defeating Corunna Friday night 25-6.

Marauder Jerry Gazda scored the first touchdown on a fine eight-yard run in the first quarter. The extra point attempt was "kicked" but failed to pass through the uprights.

In the second quarter Corunna's Joe Kincaid scored on a two-yard power play. The extra point conversion failed.

point attempt was no good. Dane Flegel brought in the final TD of the game, rambling 15 yards for the score. Dennis Barrett kicked the extra point good.

Total yardage gained for Corunna was 10 yards rushing and 102 yards passing, while Ovid-Elsie gained 295 yards on the ground and 315 yards in the air.

Larry Randolph, Don Wilson, Jerry Guysky, Tony Bocek, and Tom Maron all played an outstanding game defensively according to Coach Mark O'Donnell of Ovid-Elsie.

It was Ovid-Elsie's game the rest of the way. In the third quarter L.D. Jones ran nine yards for a TD. The attempt for the extra point was no good. Then in the fourth quarter Jerry Gazda again scored, this time on a nine-yard sweep play. The extra

Ovid-Elsie JVs beat Corunna

OVID-ELSIE—The Ovid-Elsie junior varsity football team rolled to a 25-0 win over Corunna last week, with three players figuring in the scoring.

Frank Winkler went 62 yards for Ovid-Elsie's first touchdown on the third play of the game. Dave Long later hit Terry Plowman on a pass covering 50 yards for the second touchdown. Then Long scored the third TD on a quarterback sneak.

Freshman Mike Magg set up the final O-E touchdown by intercepting a Corunna pass on the 50 yard line and returning it to the 15, from where Plowman scored again.

Coach Russ Pope complimented his defense on another great game. Charlie Heinze led the team with 11 tackles, and Ben Sloat had 10.

The JVs played their last home game on the Ovid field tonight Thursday.

Redwings down Charlotte 41-31 as Ionia leads league

***** Clinton County News SPORTS *****

Bath trips St. Pat's to knot CMAC

O-E harriers win 2 meets

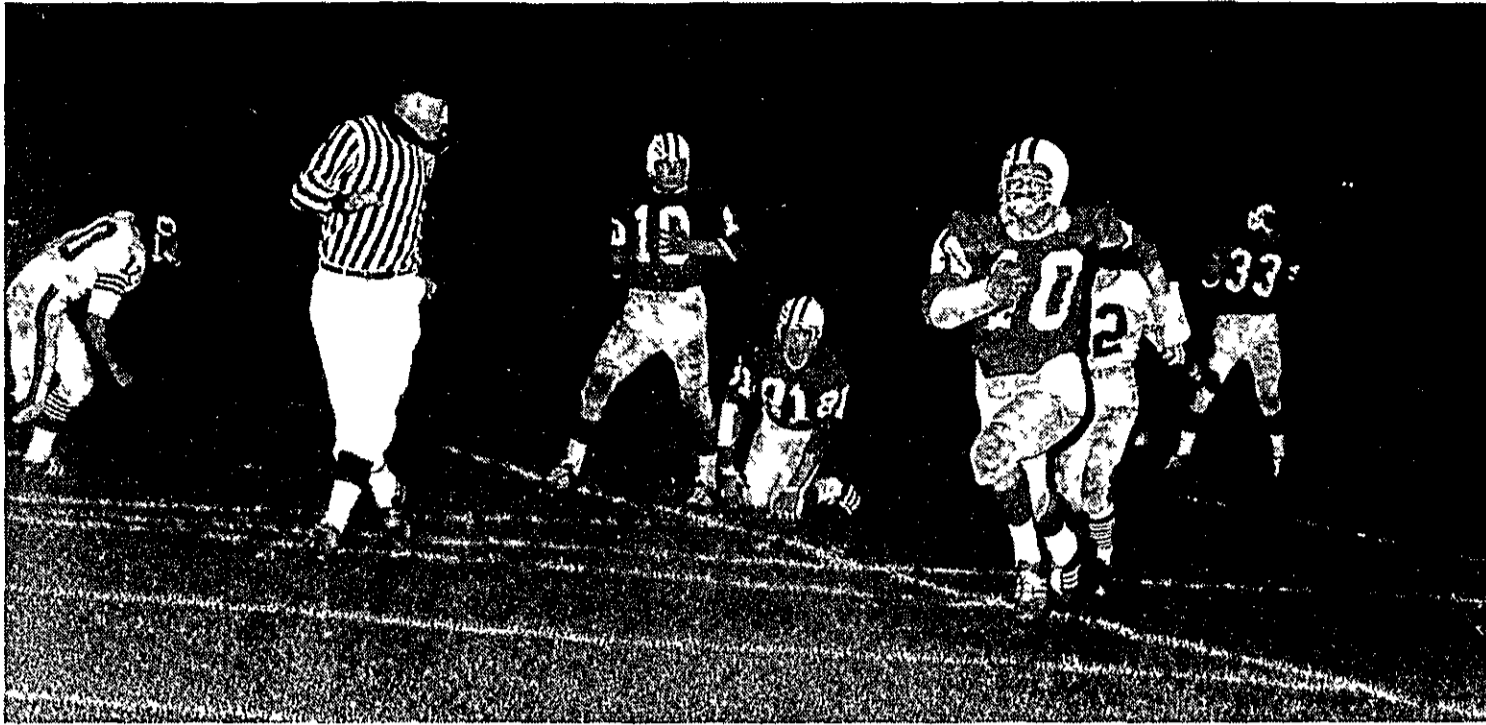

The St. Johns Redwings traveled to Charlotte last Friday and the tempo of the game was set in the first few minutes of play. On the opening kickoff, Rochester of Charlotte gathered in the kick and rambled 94 yards to put the Orioles into a quick, 6-0 lead. St. Johns came right back following the Charlotte kick. On the second play from scrimmage, Redwing fullback Mike Green hit the middle and went 83 yards to tie the score at 6 all.

THE REDWINGS scored again a short time later when Kurt Hildorf went five yards, with Chuck Romig running for the extra point to give the "Wings" a 13-6 lead. Charlotte wasted no time following the Redwing score as they came right back with Chuck Pabst going the last 15 yards to score. Craig Olmstead added the extra point to make it a 13-13 ballgame with only about seven minutes gone in the first quarter.

Neither team slacken off in the second quarter, but St. Johns made the most of it as Hildorf romped 38 yards to score with John Salemi running the extra point to make it 20-13. Shortly after this, Romig went 11 yards for another Redwing touchdown. Salemi again ran the extra point and the "Wings" extended their lead to 27-13.

CHUCK PABST helped Charlotte's cause again late in the second quarter when he scored from the 11 yard line to finish out the scoring in the first half with St. Johns in the lead 27-19. In the third quarter Green lead the way to start with a 12 yard run to paydirt. Hildorf ran the extra point and the Redwings took a commanding 34-19 lead. But Charlotte came right back with Pabst going 34 yards for another Oriole score, cutting the Redwing lead to 34-25.

ST. JOHNS CAME back for their final touchdown on a run by Romig. A Tim Durner to Jeff Nobis pass was good for the extra point and a 41-25 lead. The Orioles' Chuck Pabst finished the scoring with a two yard smash for Charlotte, to

Redwing fullback Mike Green scores his second TD of the evening untouched. Redwing players shown are Norm Love (10), Jon Berkhausen (81), and Kurt Hildorf (33).

make it 41-31 St. Johns. The Redwings had another scoring opportunity late in the fourth quarter with a first down on the Oriole two. Two plays lost 11 yards and on third and goal a Redwing pass was intercepted in the end zone to kill the threat and the game ended with Charlotte in possession of the ball. The Redwing win kept them in a tie for second place in the league race. Ionia with its 26-18 win over Grand Ledge moved into the league lead all by itself.

IN OTHER LEAGUE action, Greenville upset first place Hastings with 13-0 win while Alma ran its winning streak to two with a 20-7 win over winless Lakewood.

After last Friday's games the lead standings have Ionia in first with a 4-1 league record. Tied for second with 3-2 records are St. Johns, Hastings and Grand Ledge. Charlotte dropped into a tie with Alma for third. Both have 2-3 league records. At the

bottom of the standings is Lakewood, winless in five league games.

THIS WEEK COULD bring another shakup in the standings as first place Ionia travels to late-starting Alma. St. Johns will take on Lakewood at home. Hastings travels to Charlotte and Greenville takes on Grand Ledge at Grand Ledge. The Redwings will need a victory over Lakewood this week to stay in contention in the league race. For the following week they journey to Ionia for the final game of the league race. Ionia who faces Alma this week must win if the Redwings do, to stay in contention.

ALL IN ALL THE West Central League race this year has been a close one and will, in all probability, stay this way until the final game. With the right combination of wins, seven of the league teams have an outside chance to, at least, tie for the championship.

JVs tromp Charlotte 45-13

The St. Johns JVs showed Charlotte who was the better team last Thursday night, defeating them 45-13.

Chuck Green of St. Johns put the first TD on the scoreboard with a two-yard power play. Jeff Silm scored the extra point on a run.

Ron Waggoner scored the second touchdown on a 20-yard run. The extra point attempt was no good. Waggoner again scored on another fine run. The conversion for the extra point was good on a run by Silm. Rich Stoddard then scored, running 20 yards for the TD. The attempt for the extra point was no good. Then with three minutes left to play in the half, Dave Gaffney scored a touchdown on a 20-yard pass from quarter back Dan Rademacher. The extra point attempt

by Ron Waggoner was good on a run.

This TD. ended the half with the score St. Johns 33, Charlotte 0.

EARLY IN THE third quarter, Chuck Green of St. Johns again scored on a connecting pass from quarterback Randy Atkinson. After catching the pass Green ran 20 yards for the TD. The extra point attempt was good.

Then the fourth quarter Charlotte got in the scoring column after a run by number 23. Charlotte kicked the extra point good. With three minutes left in the game, Jeff Silm scored on a 60 yard run. The extra point was attempted by Silm but failed. Charlotte scored in the final seconds of the game, but the attempt at the extra point was no good. Scott Bennet received the best defensive player of the game award.

TWIN CITY LEAGUE (Oct. 16) - High team game and series: Clinton National Bank 875 and Strouse Oil 2434. High individual game and series: Dick Cornwell 238 and Keith Penix 572. Other 200 games: Paul Pung 204, Frank Siphovsky 220, Dick Saby 202, Keith Penix 222 and Bert Hiller 202. Strouse Oil is hanging onto a one-game lead over Bob's Auto Body and a 1 1/2-game edge on third-place Clinton National Bank.

PORTLAND—The Bath Bees forced themselves back into the Central Michigan Athletic Conference title race Friday night by handling league leaders and state-ranked Portland St. Patrick a 19-6 upset defeat. Bath's win threw the race into a three-way deadlock between Bath, Potterville and St. Pat's. All have 4-1 records. St. Pat's has beaten Potterville, but Potterville triumphed over Bath, and Bath defeated St. Pat's. The resulting tie has turned all eyes on the remaining scheduled for the three teams. Bath has home encounters with defending champs Fowler and a rugged Laingsburg team. Potterville has a way games at Pewamo-Westphalia and Fowler. St. Pat's plays at Laingsburg this Friday and then is at home against Webberville. Friday night's Bath victory over St. Pat's was credited to the defense. The Bees kept the Shamrocks' rambling halfback, Terry Morrison, contained all night, and he managed to score only the one touchdown, that from

a yard out. Morrison had had 15 touchdowns in the previous five games. Taking Morrison's place as the standout performer of the game was Bath's Bill Harris. Harris scored two of Bath's touchdowns, one on an 84-yard run and the other on an 11-yard dash. Warren Balrd got the other Bath touchdown on a four-yard run, and he also accounted for the one extra point.

'Twas a poor contest week

It was not a good week last week for picking football game winners. There were several upsets and three tie games among the listings in the Clinton County News football contest. Out of it all, however, emerged a winner—Julie Goebel of 203 W. Court Street, Ovid. She had an unenviable record of six incorrect selections, but everybody else was worse off than her. There were three tie games that gave everybody fits—Laingsburg-DeWitt, Iowa-Wisconsin, and Holt-Mason. And with Hastings, St. Patrick's and Purdue getting upended, only those contestants with pure luck picked any more than 10 right. Nobody had pure luck. A check for \$20 was mailed to the winner Monday.

Miller resets record in O-E harriers' victory

OVID-ELSIE—The Marauder cross country team defeated Corunna Monday night by a 21-44 score, with medalist Jim Miller of Ovid-Elsie reestablishing himself as the holder of the course record.

Miller had held the Ovid-Elsie course record of 10:27 until last Thursday when Slocum of Perry broke it with a 10:14.5 time. Monday night against Corunna, Miller churned the two miles in 10 minutes, 10.5 seconds to re-take the record.

Other top finishers for Ovid-Elsie were Gary Hrnchark second, Les Reed third, Mark Saxton sixth and LeRoy Thomas ninth.

The Marauders will participate in the Mt. Pleasant Class B regionals this Saturday and next Tuesday will run in the Mid-Michigan B League conference meet at Bullock Creek.

NITE OWLS LEAGUE (Oct. 12)—High team game and series: Richards Dairy 845 and McKenzie Insurance 2390. High individual game and series: Lillian Tiedt 188 and Rosie Nuser 519. McKenzie Insurance is coasting along with a seven-game lead over their nearest competitor in the league, American Legion. The Legion's footing is not too sure, however, with Richards Dairy pressing close only a game behind the Legion.

At the meet in Ovid-Elsie, top Marauder harriers included medalist Gary Hrnchark with a time of 10:59 and Jim Miller coming in with a time of 11:04, good for second place. Other place winners for Ovid-Elsie were Les Reed third, Mark Saxton fourth, and Dave Evans finished fifth for the two mile run. The Marauders now have a season record of nine wins and four losses.

Income tax

(Continued from Page 1-A) sons was considerably smaller than what commissioners admitted they were looking for after the Municipal Report came out. The audience was made up primarily of persons in the medical and dental professions, several attorneys, industrialists and about a half-dozen citizens.

Much of the criticism was directed at the Municipal Report as much as at the income tax. Attorney Green called it "highly prejudicial and unfair" and a "definite attempt to seek support" for an income tax. "Is it fair to use tax money to ram something down people's throats?" he asked. "It is the height of 'yellow journalism,'" he said, referring to the color

of the paper of the mailed report.

GREEN AND OTHERS leveled a blast at a particular paragraph in the Municipal Report which singled out "mail order houses, lawyers, dentists, doctors and other professional persons who now pay only a very small personal property tax who would, because of their relatively high incomes, pay more of their share of the cost of operations of the city government."

Mayor Coletta publicly apologized for that particular paragraph, but he defended the commission's handling of city affairs against charges of "gross mismanagement." "This is a good commission," Coletta said. "It has been a well-managed city. I'm proud of the job this city has done."

Green's "mismanagement" charge was aimed at the water department, and he said he believed the water department was at the bottom of the current fiscal crisis. "Why should the general fund have to subsidize the water fund?"

ON THAT SAME topic, he charged that a Municipal Report reference to raising the water bills "at least double" in lieu of an income tax was also an attempt to gain sentiment for an income tax. He said the whole report contained a lot of "gross misstatements."

Commissioner John Furry pointed out to the audience that these were just opinions, and even though he agreed with some of them it didn't necessarily make them right. City Manager Greer again defended the Municipal Report, saying that commissioners had been sent a rough form of the report before it was printed. He said he was directed to prepare the report. Two of the commissioners, however, said they hadn't seen it.

With the attacks on the report over, the rest of the discussion settled down to arguments against the income tax itself. They came mostly from the professional people and the industrialists.

Some excerpts from the arguments:

ATTORNEY Tim Green: He said a city income tax would be "grossly unfair to those living outside of town"; he said it could drive employees who live outside the city limits away to work outside the city, too.

Robert Gay of F. C. Mason Co., Seventy-five per cent of F. C. Mason employees live outside St. Johns, he said, and he felt another one-half per cent income tax on them could drive some of the employees away.

Dr. James Grosz: An income tax would not help the general atmosphere of likeability for the city, "and the image of this city is not very good now," he said.

Lawrence Sexton, plant manager at Sealed Power Corp., Sexton said he was on a community committee seeking to bring additional doctors to St. Johns. He noted that a lot of money was being spent at the hospital for better facilities which would help interest doctors in St. Johns, but he said an "income tax would be just one more thing to discourage them from coming here to start a practice." Concerning industry, he commented that an income tax "would certainly not encourage other industry to locate here."

ED IDZKOWSKI, plant manager at Federal Mogul: He said 60 per cent of Federal Mogul's employees live outside St. Johns, and a lot of them have been discussing the possible income tax. "A lot of them feel that 'if this is the way St. Johns feels about us, then we'll go to work somewhere else.'"

Sexton again: "It would be an advantage to not have an income tax when others have it," he said. "I would like to see St. Johns the last city around to have an income tax."

LaRue Spittler: Spittler defended the commission and asked

the others in the audience why they never come to the meetings with suggestions for solutions to the problems rather than attacking decisions the commission does make.

Ross Downing: "Why has the commission given up on getting the 20-mill limitation?" he asked. "This concerns a charter amendment which voters have turned down twice this year and which the city says is the root of the current financial squeeze." "Certainly there are ways to raise money other than an income tax."

MAYOR COLETTA pointed out that the commission is still considering other methods of raising revenue, but that income tax seemed to be the best one so far. There was some difference of

opinion on the commission about the advisability of putting up the millage limitation issue to a public vote again; this could be done after Jan. 1.

The result of the lengthy discussion seemed to be, despite the relatively small number of objectors, further indecision on the commission concerning the income tax than there was when it was introduced an hour earlier last Tuesday evening.

The only concrete action taken regarding the discussion was a resolution that would make an agenda item out of all future municipal reports.

3 Ovid, Elsie lads win zone PP&K

Three Ovid-Elsie youngsters emerged as zone winners in the Punt, Pass & Kick zone contest in Lansing Saturday, and they'll

now advance to district competition this weekend.

The big winners were Joey Seybert, 8, who compiled 156 points; Rodney Love, 11, who had 229 1/2 points; and Tom Pontack, 12, who had 330 points; higher even than the zone 13-year-old winner.

It was the third PP&K victory for Love over the past few years, and he was a zone winner last year. He and the other two boys will battle it out with seven other zone winners from around the state in each age group this Saturday, starting at noon at the Lansing Sexton football field.

Love's 229 1/2 points edged out a St. Johns boy, Kevin Knight, 11, who had led up to that point with 224 1/2 points. Knight was the only St. Johns boy to come close to victory.

In the other contests, 8-year-old Bill Nelson had 106 1/2 points compared to the winner's 156; Ed Gurski, 9, had 125 points and the winning total was 181; 10-year-old Lee Thelen had 183 1/2 points and the winning total was 251; 12-year-old Kevin Wigen had 186 1/2 points compared to Pontack's 330; and 13-year-old Burnell Grieve had 247 points compared to the winner's 319.

The Ovid and Elsie entries were sponsored by Clark Ford Sales of Elsie, and the St. Johns boys represented Egan Ford Sales.

All smiles with their PP&K zone winners trophies are Rodney Love (left), Tom Pontack and Joe Seybert of the Ovid and Elsie area. They'll compete in district PP&K this Saturday at Sexton High.

If you feel there is more to man's abilities than the world yet realizes, search further into the spiritual origin of man. You begin to see that every real ability anyone can have flows from man's basic, inseparable relationship to God. Knowing this, you begin to really find yourself for the first time. Helping out your neighbor was very much in evidence the past weekend when a group of men gathered at the Fred W. Pasch residence Saturday morning and began putting the siding on the house. Some of the same group finished the job Sunday afternoon.

Mrs Pasch, Mrs Edna Watamaker and Mrs Paul Graf, Sr. prepared the dinner for the men. All materials and labor were donated from friends, relatives and neighbors of Fred and Eleanor Pasch. Fred became a patient at the Ingham Medical Hospital at Lansing in May and everyone hopes that he will soon be well enough to come home.

Mr and Mrs William S. Ernst and Karen and Ronald of Battle Creek spent the weekend with Mr and Mrs William Ernst and Maxine.

Of special interest in this neighborhood was the entertainment put on by a group of Barbershop Quartets at Lansing's Eastern High School on Saturday evening. Among the quartets who sang was the "Fowler Four," Alvin Thelen of S. E. Dallas and the Schmitt Bros., Herman, Hilary, and Donald comprise this group. The Schmitt boys are the sons of Mr and Mrs Louis Schmitt. A large group from this area and the Fowler area were in the audience Saturday evening.

Mrs Edna Watamaker and Mrs Fred W. Pasch spent Thursday with Mr and Mrs Angelo Renos of Alma.

A son, Kevin, was born to Mr and Mrs Herman Schmitt of Fowler at the Carson City Hospital Sunday, Oct. 15. Kevin is the 31st grandchild of Mr and Mrs Louis Schmitt.

Mr and Mrs Paul Graf of Lebanon spent Wednesday evening with Mrs Edna Watamaker and Mrs Fred W. Pasch.

Richard Rossow, who attended the Lutheran College at River Forest, Ill., was a weekend guest of his parents and brother, Rev and Mrs H. E. Rossow and David and his grandmother, Mrs Herman Rossow.

Mr Louis Moritz had dinner Wednesday with her parents, Mr and Mrs Clarence Damon of St. Johns.

Mr and Mrs Clark Jeffers and family, and Mr and Mrs Michael Jeffers of Milford were Sunday visitors of their mother and grandmother, Mrs Edna Watamaker.

The visitors from this vicinity, who called on Fred W. Pasch at the Ingham Medical Hospital this past week were Mr and Mrs Louis Schmitt, Mrs Marvin Evlits and Mrs Fred W. Pasch.

Mr and Mrs Rudolph Tiedt attended their card party which consisted of a dinner and an evening of cards at the home of Mr and Mrs Alfred Mohnke of Bengal Center Saturday evening.

Mr and Mrs William Ernst and Maxine spent Sunday evening with Mrs Edna Watamaker and Mrs Fred Pasch.

Don't expect a train of thought to help unless you work up enough steam to operate it.

Rheubottom folks mark 1st birthday of community center in old school

RHEUBOTTOM — October marks the first anniversary of the Rheubottom Community Center at Krepps and Alward Roads in Olive Township, and the event was celebrated Saturday with a hayride, bonfire and refreshments.

Just a year ago, the neighbors in the old Rheubottom School District saved the building from being sold, and they organized as the Rheubottom Community Center on Oct. 28, 1966.

The group filed corporation papers with the Department of State of Michigan in February, and the Community Center signed a lease with the St. Johns Public Schools to obtain the building.

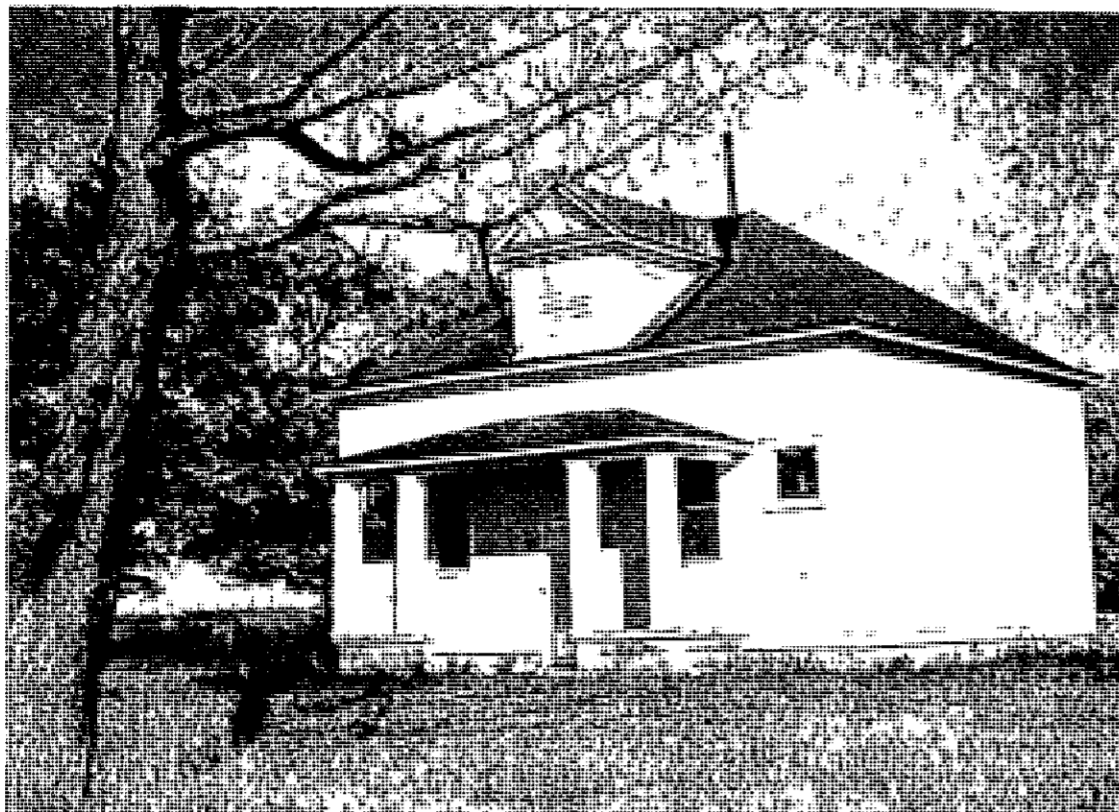

Last winter meetings were held in the homes of members until a furnace was purchased and installed and broken windows were replaced in the school. After extensive cleaning and yard work, the first meeting in the school was held on April 8.

EACH FAMILY joined the group by purchasing two shares of stock for \$5 a share. The treasury was used to purchase a furnace and paint and to pay electric bills.

During the first year of existence, the Rheubottom Community Center members greatly improved the school building and yard which had been vacant for 12 years. The purpose—to build neighborhood togetherness—has been achieved through many hours of work.

The biggest project was the painting of the exterior on July 23. At other meetings the group has had picnic potlucks, square dancing, played cards, a weler roast, and now a hayride.

Officers of the group are: Darwin Parks, president; Allan Boron, secretary; and Mrs. Thelma Weismiller, treasurer. Leslie Botmer, Henry Repphun, and John Szarka are trustees. The membership includes 12 families and a total of 54 adults and children. The families are: Mr. and Mrs. Howard Blasen and family; Mr. and Mrs. Leslie Botmer and family; Mr. and Mrs. Allan Boron and family; Mr. and Mrs. Gale Boron; Mr. and Mrs. Louis Boron and family; Mr. and Mrs. Harry Leavitt and family; Mr. and Mrs. Darwin Parks and family; Mr. and Mrs. Henry Repphun; Mr. and Mrs. Virgil Richardson; Mr. and Mrs. John Szarka and

The Rheubottom Community Center stands out strikingly now on the southeast corner of Alward and Krepps Roads following a fresh coat of paint by neighbors earlier this summer.

family; Mr. and Mrs. Russell Wagonenschutz and family; and Mr. and Mrs. Loyl Weismiller and family.

THE NEIGHBORS OF the community are keeping alive history that dates back to 1883. In that year the Rheubottom School District (School District No. 6 of Olive Township) purchased an acre of land at the corner of Krepps and Alward roads from John Austin for \$100. The name Rheubottom comes from a family of that name living in the area in the 1800s.

The first school built on this land burned in April 1924 while school was in session. The fire was discovered by George Miller, a student, as he was leaving the building. The bell rope burned and fell at his feet. The 14 children fled with their books.

A general ring was given on the 10-party phone line to summon help but the building was destroyed despite a bucket brigade. Little was saved.

The Rheubottom Community Club purchased and donated chairs, tables, and school supplies for school to be continued for grades four to eight at the

Lloyd Carpenter home. A new school was built for about \$1,600 and it still stands today as the Rheubottom Community Center. Olive Sanford Conklin was the teacher at the time the school was built.

IN JUNE 1954 THE school was

141 get free immunizations

One hundred forty-one persons received 197 immunization shots last Wednesday at the free clinic in St. Johns sponsored by the Mid-Michigan District Health Department.

The numbers of immunizations given were: DPT 34, DT 18, measles 17, small pox 38, TB skin test 21, oral polio 66, and typhoid 3.

The health department will sponsor the presence of a TB x-ray unit in St. Johns Nov. 8 for food handlers and teachers who had a positive reaction on their skin tests. The mobile unit will be parked on the courthouse parking lot from noon to 2 p.m. and 3-5 p.m. Nov. 8. The health department should be called for appointments.

closed, and the 35 students attended the Lingsburg schools the next year. Jean Temple was the last teacher. Rheubottom was the first school district to be annexed to the St. Johns Public Schools in 1955. The school had been unoccupied since then, except for one year when it was used by the Mennonite Sunday School until the present time.

Two member families had several generations of students attending the school. In the Weismiller family there were three generations: Ethel Flynn Weismiller; Loyl Weismiller; and Jerry Weismiller. Those in the Boron family were: Mary Austin Boron; Willie Boron; Gale and Louis Boron; and in the 4th generation Marilyn Boron Kinsane; Carolyn Boron Conklin; Ruth Boron Kingsley; Jeanette Boron Beck; and Allan Boron.

In the future, members of the community club intend to use the school for their meetings, family reunions, continuation of 4-H meetings, and community and family activities. This winter's project is to build a kitchen.

Fete pastor, wife Sunday

Sunday, Oct. 22, a special business and fellowship meeting was held after the 8 o'clock services at the Elsie Bible Baptist Church.

It was decided to buy a typewriter and a mimeograph machine. Mrs. Marian Orweller was elected church clerk and it was decided to give the pastor expenses to cover his church work.

Following the meeting 30 members and friends enjoyed refreshments. Oct. 22 marked Pastor and Mrs. LaDuke's anniversary. A cake in the shape of a Bible and a love offering were presented to them.

Guests were from Owosso, Detroit, St. Johns, Bannister and Elsie.

Mrs. Charles Higbee

Mr. and Mrs. Clifford Leonard accompanied Mrs. Leonard's sister, Clover, on her return trip home to California by plane. They will visit their brother, Frank Partow. He plans to show them various places of interest while they are there.

Ethel Simmons and Albert Cook accompanied Rev. and Mrs. Royal Burnett to the Grand Rapids 4 Square Church convention Saturday.

Albert Cook, Merl Avery and Ethel Simmons went to St. Johns Sunday to visit Ann Jackson and from there to Owosso to visit Mr. and Mrs. Tony Hudcuk Sunday.

Mrs. Hazel Shaddock attended an open house at Kalamazoo in honor of her granddaughter, Marilyn Smith, who is leaving for California to work there for two years.

Mr. and Mrs. Kenneth Wilson has just returned from Florida where they visited her mother who has been very ill.

The North Eagle cemetery will serve a ham supper at the Town Hall Thursday, Oct. 26, at 6 p.m. Note the new serving time.

Mr. and Mrs. William Havens from Evert visited Mr. and Mrs. John Cooper this past weekend.

This community wishes to extend its sympathy to the family of Boyd Strong who passed away Saturday night, Oct. 21.

Seniors plan comedy

BY MARCIA FELDPAUSCH

FOWLER—The senior class will be presenting a play entitled "The Little Dog Laughed" on Nov. 16, 17, 18. The cast consists of Brenda Fox, Dave Sillman, Sharon Frechen, Steve Nobis, Priscilla Fox, Marcia Feldpausch, Joe Koenigsnecht, Marilyn Weber, Bob Fox, Paul Wieber, Karen Blergans, Linda Thelen, Lana Upton, Vonnie Becker and Susie Fox. Tickets will be made available by the students.

The government class is busy composing a constitution which is to be submitted to the Student Council Constitution Committee. The class is displaying posters and campaigning to get the committee to take some action. A general assembly will be held concerning this matter Friday.

Ten more girls have volunteered to be candy-strippers. They are: Diane Fox, Linda Thelen, Louise Thelen, Mary Ann Schrauben, Rosanne Smith, Betty Schomisch, Janet Fox, Rita Koenigsnecht, and Mary Jo Haliman.

Homecoming memories still float at Ovid-Elsie

By CATHY ROBINSON

OVID-ELSIE — If homecoming is a symbol of a beginning of the school year, then the students of O-E are off to a good start. Ovid-Elsie's first homecoming queen was crowned Oct. 6, at the brand new stadium.

Joe Vostrizansky, student council president, was master of ceremonies, and he presented Queen Karen Hawley with a bouquet of red roses on behalf of the student council. Dave Latz, representing the varsity club, gave each of the girls on the court a bracelet to remember the night by.

Following the game a "Royal Escapade" was held in the school cafeteria. Music for the dance was provided

by a live band from Owosso. During the dance Queen-Karen crowned Jerry Gazda homecoming king for 1967.

In the Ovid-Elsie school they have many various organizations which are run by the club officers. Some of the clubs and their officers are as follows:

In the F.T.A., senior Ken Saxton is the president, with Fran Fowler as vice president, Linda Tomesek as secretary, Suzy McCreery as treasurer, and Paula Onstott as historian.

LEADING THE student council this year is Joe Vostrizansky as president. Pam Darling is vice president, Juya Wilkins is secretary, and Dave Williams handles the money.

Senior Rich Easlick holds the office of president of the Journalism Club. Dave Latz is his right-hand man as vice president. Sharry Seward is the secretary, Raclene Loznak is the treasurer, and Dave Williams is the editor.

The Varsity Club is being led this year by a slate of all senior officers. Jerry Gazda is in charge as president, Rich Easlick is vice president, Larry Kindel is secretary, Dane Flegel is the treasurer and Don Wilson is the sergeant of arms.

Nov. 7 should prove to be one of the most exciting, or extraordinary days of the O-E school year. The Ovid football field will be a "picture of youth" as the senior girls go against the junior girls in the Powder Puff football game put on by the Varsity Club.

The senior girls are being coached by Dane Flegel, and the juniors are being led by Bob DuPont. Twenty-six juniors learned different plays and how to block in a blood-thirsty scrimmage last Sunday. And, not far away, 25 seniors did calisthenics and learned new plays and formations. The out-come of the Powder Puff game will most likely separate the "men from the girls?"

Drama activities in forefront as Rodney B. takes on busy hum

BY MIKE GALVACH

St. Johns High

The Drama Club is really swinging into action this year, promising to be one of the most active clubs ever. A one-act children's play is being planned by the club for sometime in January. The play chosen for production is "The Canterville Ghost."

During the last meeting Sandy Masarik explained to the members just what she had learned while attending the workshop at Olivet College this past summer. She informed them as to what courses she had taken and gave a talk about improvisations.

Learning how to apply stage make-up is one of the future projects for the next meeting. The club will illustrate how much they have learned when the forthcoming junior play is produced.

THIS YEAR'S JUNIOR play will be "The Mouse That Roared," directed by Mrs. Joanne Osborne.

Leads for the play will be Patty Zuker and Gregg Foote. Thirty-five juniors tried out for various parts in the play, but except the leads none of the other players are known to date. The public on Nov. 17 and 18.

Richard Kramer will advise the Business Club again this year as the club celebrates its second year in existence. Various field trips are being planned to many interesting places, including a business school and some of our local business establishments. A new unannounced project is in the works to raise money for the club.

The juniors at Rodney B. are all smiles this week as they flash their newly acquired class rings "around the school." The juniors received their rings two weeks ago but after all the fuss was over many discovered they didn't fit. As a result a few are still patiently waiting for the right ring to come.

A MARCHING BAND is a decided asset to the colorful panorama of any football game and Rodney B. is blessed with one of the finest in the state. The

St. Johns Redwing Marching Band again is an abundance of excellent musical and marching skill. The band this year has three pretty majorettes and they include Lyn LeBlond, Jane Wieber, and Cathy Cronkrite. Lyn wears a flashy red velvet outfit and is called a "strutter" and she has been featured in many routines so far this season.

Even though this is their first year, Jane and Cathy have al-

ready proven that they are more than capable to show fine form and quality as they do their routines on the field. Scot Heibeck, "our man up front," is doing a fine job again this year as he leads the band through its many routines. Director Walter Cole and Asst. Director Gordon Gillett are proud to say that these people are the finest drum major and majorettes they have ever had.

Homecoming spirit outlasts rain at Bath

BY MARILYN SIDEL

BATH HIGH SCHOOL

BATH — The homecoming events Oct. 13 were rather soggy this year, but the rain didn't dampen the spirits of the student body. The bonfire was built by the seniors and was held Thursday evening, Oct. 12. It was featured with free doughnuts and cider and the movie "Cinderella."

The class floats were scheduled to be presented at the game Friday night, Oct. 13, but the field was too muddy to be driven on so the judges just judged the floats at the places where they were made.

They awarded the \$25 to the junior class which entered the competition with a black paper mache panther and a yellow paper mache bee stinging the panther. The theme for the float

was "The Beat Goes On". The dance was held Saturday evening, Oct. 14, from 8 to 11 p.m. and it featured the Bent Scepters, a Lansing group.

The queen, Rose Ann Day, was crowned by last year's homecoming queen, the former Marie Howe. Queen Rose Ann was escorted by Dennis Smith and her court consisted of Evle Ballard escorted by Jack Hagerman; Marilyn Wright escorted by the homecoming King, Terri Barnard; and Jean Watson escorted by Rex Schumslser.

The class representatives were: Carol Dunaway, junior; Gayle Giesenhaver, sophomore; and Debbie Defeyer, freshman. All of the homecoming activities were sponsored by the Student Council co-sponsored by the Alumni Club.

Pewamo

By Mrs. Irene Fox

Members of Lorine's Tavern bowling team of Pewamo enjoyed a chicken dinner at the Country Kitchen Sunday. They were Mr. and Mrs. Lorine Haney, Mr. and Mrs. Erwin Freund, Mr. and Mrs. Clement Kramer, Mr. and Mrs. William Heckman, Mr. and Mrs. Edmund Miller, Arthur Fox and friend, Mr. and Mrs. Clare Pung, Mr. and Mrs. Carl Walter and Mr. and Mrs. Carl Geller.

Mr. and Mrs. Jay Egan of St. Johns were guests at a salmon steak dinner by Mr. and Mrs. Clement Kramer Friday evening.

Ladies of the Altar Society met Tuesday evening, Oct. 17, at the parish hall. A prayer given by the president, Mrs. Bernita Cook, opened the meeting. Quilt blocks have been handed in so the quilt will soon be ready for quilting. A savings account has been opened and will be used for a new altar later. Mrs. Joseph Bower is chairman of the nominating committee for new officers and plans are being made for the Christmas potluck party which will be Dec. 19, at 6:30 p.m. after the business meeting a social hour followed.

Mr. and Mrs. Tom Fox and son, Michael, left early Monday morning for Florida where they will be building their new home. Mr. Fox spent last week in Florida returning the later part of the week.

Honora O'Connell of Rochester was a Sunday guest of Mrs. Pauline Hauck.

All reports of Leo Cook at Droste-Ferguson hospital where he underwent surgery last week are good and he expects to be

home some time this week.

Mr. and Mrs. Joseph J. Fox attended the funeral of Mrs. Fox's uncle, Anthony J. Pung, 88, of R-3, Portland, at St. Patrick's Church in Portland. Mr. Pung died Thursday in Eaton County Medical facility in Charlotte. Funeral services were at 9:30 a.m. Monday and burial was in Portland Cemetery.

Mrs. Louise Holm spent the weekend with her sister, Mrs. Bertha Winnicki, at Lansing.

Peter Ludwick received the first certificate of merit as part of the Michigan Civil service suggestion award program at Ionia State hospital. Ludwick was awarded the certificate and a \$15 check from the institution for a suggestion he made to improve services in the packaging department, Thursday afternoon, Oct. 19, the check and certificate were presented to Peter Ludwick by D.A.A. Birzgalis, medical superintendent at the hospital. Peter Ludwick has been employed at the Ionia State hospital as a security attendant the past ten years.

Mr. and Mrs. Huey Miller were callers of their mother, Mrs. Martha Miller, Sunday at St. Johns.

Mrs. Norman Cook of R-1, Pewamo, was admitted at the Ionia County Memorial hospital Thursday, Oct. 19, as a surgical patient.

Saturday overnight guests of Mrs. Mildred Fox were her son and daughter-in-law Mr. and Mrs. Tom Fox and son, Michael, of Royal Oak.

The 19th annual Thanksgiving Clothing Drive will be Nov. 12-18. Bring usable clothing to St. Johns' hall starting now. In charge of sorting and packing are Oscar Cook and William Simon.

4 more from St. Johns win Jr. Symphony spots

Four string players from St. Johns—Pat Courser, Ann Davis, John Eldridge, and Edna Feighner—were accepted as members of the Lansing Junior Symphony recently.

Players are selected on the basis of an audition which consists of sightreading and a solo. At the present time, there is a waiting list of those who would like to play.

Two other string players from St. Johns will be playing again with the Symphony this year. They are Andre Lewis, violinist and concertmistress, and Sue Smith, cellist.

THE LANSING JUNIOR Symphony is affiliated with the Fed-

eration of Music Clubs, which makes it possible for any member of the Symphony to audition for scholarships on both the local and national levels. Each year two local scholarships are given: 1) A scholarship for \$75 to be used for further private study; 2) a scholarship for the summer music program at either Interlochen or Michigan State University.

The Symphony draws its players from grades 7-12 of public and parochial schools in areas of Lansing, East Lansing, Grand Ledge, St. Johns, Williamston, Vermontville, and Dimondale.

Opening this season's program, the Lansing Junior Sym-

phony will perform at the Fine Arts Festival at the civic center in Lansing on October 29.

Another performance is planned in conjunction with the Youth Talent Exhibition.

IN FEBRUARY, a special Young Musician's Concert will be given for all fifth and sixth grade instrumentalists in the Lansing area.

Plans are being made for a television performance sometime this year.

In addition, three regular concerts have been scheduled for November, February, and May. The Lansing Junior Symphony rehearses each Monday evening.

These St. Johns high school and junior high students were named recently to the Lansing Junior Symphony Orchestra. At left is Andre Lewis, concert mistress for the symphony again this year. Talking over the experience of the orchestra with her are Edna Feighner, first violin; Ann Davis, second violin; Pat Courser, first violin; and John Eldridge, second violin. Absent from the picture was Sue Smith, cello.

LOOKING FOR IDEAS FOR CHRISTMAS?

Mrs. Ruth Mehney, a council member from the B & B Extension Group, and Mrs. Vera Rowland look over some of the hand-made items which extension groups will have on display at Smith Hall Nov. 1 in a Christmas idea workshop. The items include both decorations and gifts. There will be displays of such items and demonstrations on how to make many of them. Five outside groups will have display tables at the workshop, as well as 13 extension groups. The B & B Extension Group is in charge of the workshop this year. It will be open to the public from noon to 9 p.m. Nov. 1.

North Victor

By Mrs. Elsie Exelby

Thirty-seven relatives and friends met at the Exelby home Sunday, Oct. 22, to congratulate Otis Balcom on his 91st birthday. He received many nice gifts and a chicken dinner was enjoyed by the immediate family. Guests were present from Lansing, East Lansing, Ovid, Grand Rapids and St. Johns. Saturday evening he enjoyed a telephone call from a nephew in California. He now makes his home with Mr. and Mrs. Clarence Bauerle of DeWitt. He has one son, three daughters, three grandsons, two great-granddaughters and seven great-grandchildren. All were present to help him celebrate the occasion.

Mr. and Mrs. Arthur Curtis returned home Friday evening after spending several days at Michigan State Grange in Sturgis, Mich. Grange will meet at the Exelby home Friday evening. Each member is to bring their own wieners and marshmallows if desired.

Mrs. Harold Maag is recovering from a serious knee injury which she received in an auto accident one day last week.

VFW MAKES CONTRIBUTION TO BAND UNIFORMS

The St. Johns Veterans of Foreign Wars Auxiliary No. 4113 presented a check for \$100 to the St. Johns Band Boosters last week to apply toward payment of the new band uniforms being used for the first time this year. Mrs Hazel Worral, community service chairman for the Auxiliary, turns the check over to Band Director Walter Cole outside Central School. Looking on are Mrs Eloise Hambleton (left), president of the Auxiliary, and Mrs Dorothy Salter, youth-activities chairman.

"Let's talk dry cleaning"

by Dana Antes

Many of the new synthetic and combination fabrics in use today are labeled "washable." But for those of you who are perfectionists about your appearance, these labels leave a great deal to be desired.

Many articles so labeled are washable, it's true, but the amount of care that must be exercised to make sure the water is below a certain temperature, and to see that special soaps and detergents are used, makes the end result hardly worth the trouble.

Professional wet dry-cleaning does not risk the shrinkage and color fading which often occurs during laundering by ordinary methods.

Next to being thoroughly clean, a garment must be expertly finished to look its best. Our fine finishing helps you wear every garment in your wardrobe with that special feeling of knowing you look your best.

Schools recruit string players

A music aptitude test was given recently to all fifth graders in the St. Johns school system. Its purpose was to determine those students who have ability in music.

Letters will be sent this week to the parents of those fifth grade students who achieved outstanding results on the test. These students have been selected to play a stringed instrument primarily on the basis of test results. Other deciding factors were teacher's recommendations and academic grades.

The selected students will be fitted to the correct size of instrument by the string teacher, Miss Jean Wilson. Appointments will be made by phone.

This year's string program has been expanded with the addition of a Junior high orchestra. In order to maintain such a balanced group, the students will have the opportunity to choose one of three instruments—violin, viola, and cello—instead of just violin.

Parents are asked to contact Miss Wilson if they have any questions.

Road Commission Weekly Report

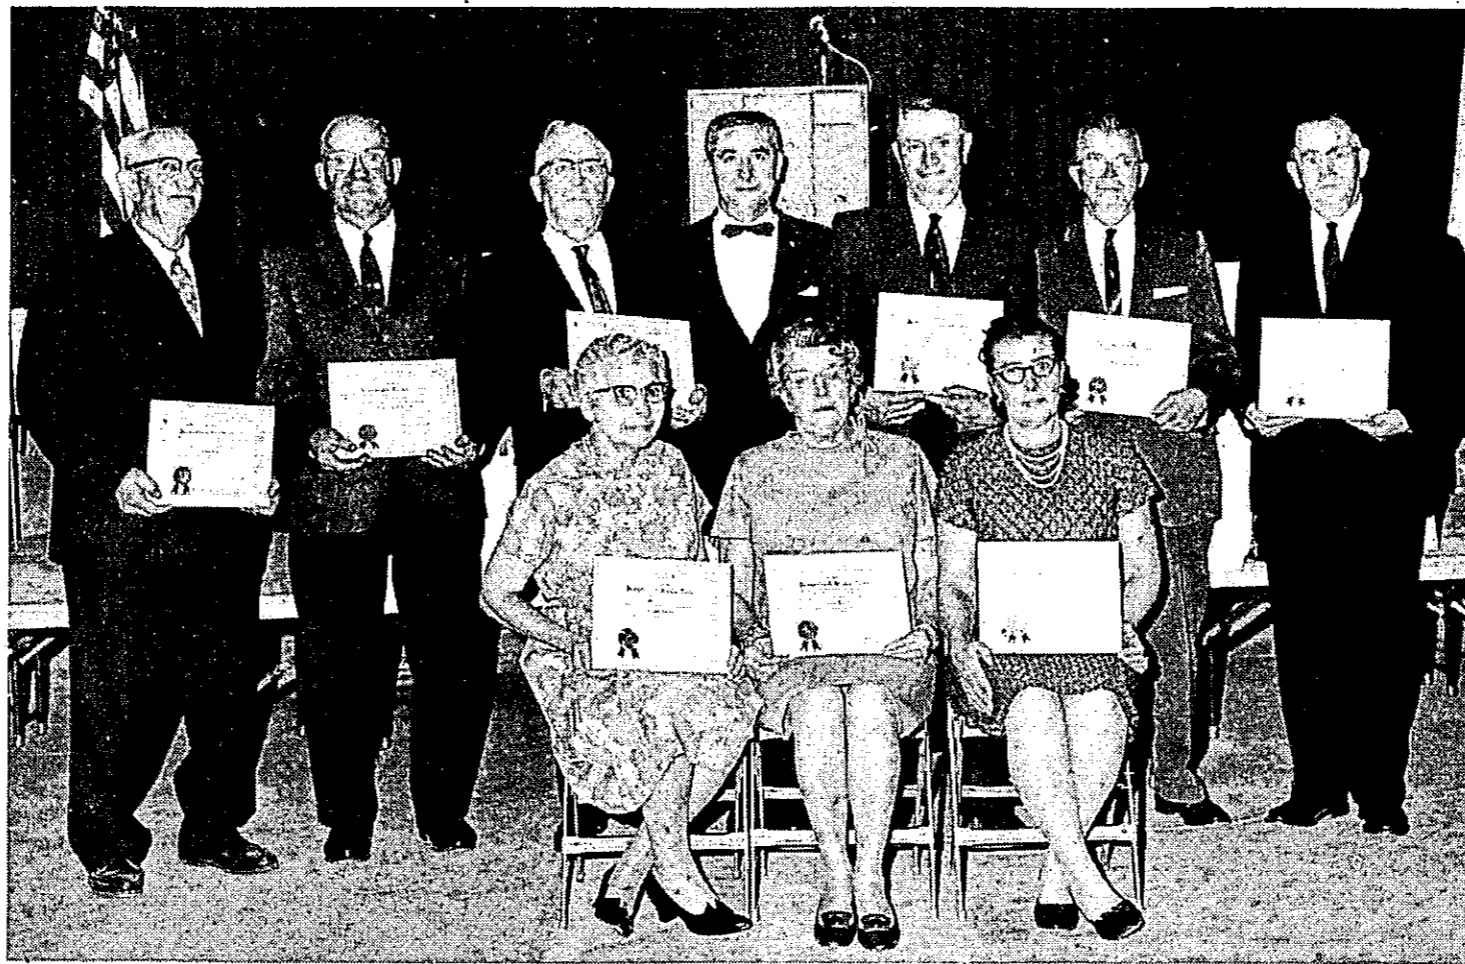

Getting through the lengthy agenda of last Wednesday's regular meeting of the county board of road commissioners was a full day's work. Probably a dozen different items of varying importance were considered and decisions made on them during the day.

The most important matter and the one requiring the most time was a reading and discussion of the proposed new Plat Act which will no doubt eventually govern the future planning and building of subdivisions and plats within the county.

THE BOARD discussed those provisions relating to streets, roads and drainage within such projects. The County Health Department and the Zoning Commission will also have regulations to be incorporated in the act, and then it will be presented to the board of supervisors.

If adopted by the board it will constitute the sole guideline at the county government level for the laying out of plats and subdivisions in the future. Two new radio units, one for the engineer's assistant's car and the other for one of the two new tandem trucks purchased some weeks ago were approved for purchasing at the Wednesday meeting. The purchase of still another new snow plow to use on either of the big tandems was also approved. With this addition, the commission should be better prepared for snow removal than in past years.

The heavy rains of these past two weeks have made roads in many parts of the county extremely rough and muddy. We have received many calls reporting exceptionally bad spots. With clearing weather now and ideal grading conditions, it is hoped most of these roads can be made more passable in the very near future.

Township officials cited for distinguished service last Thursday evening were, back row, left to right: Warden Keyes of DeWitt; Ellsworth Stockwell of Greenbush; Clifford Squiers of Ovid; Joseph Parisi, executive director of the Michigan Township Association; Stanley Welton of Greenbush; Elmer Martens of Riley; and Willard Krebel of Riley. Seated left to right: Gladys Hankey of Greenbush; Mrs Clyde (Nellie) Waldo of Watertown; and Mrs James Graham of Greenbush who accepted for her husband. Not shown: Fred Culy of DeWitt.

10 honored at township meet

Ten township officers were awarded citations for distinguished service at the 14th annual meeting of the Clinton County Township Officials Association meeting held at Smith Hall in St. Johns last Thursday evening.

Leon Garlock, president of the Township Officials Association was master of ceremonies. Garlock has been an official of Watertown township for the past 11 years. Three years as justice of the peace and the past eight years as trustee.

GARLOCK introduced Joseph Parisi, executive director of the Michigan Township Association who gave the address and awarded the citations.

In his address Parisi noted that, today our society is quick to indict our youngsters for their

so-called many faults, but that in his opinion our young people of today are "OK."

"IF IS NECESSARY to recognize those who have devoted many years of service to their communities, but we must encourage our youth of today to be more interested and to become a part of local government," he stated.

Parisi noted that, "our times are moving so quickly and our leaders must be able to adjust to these changes. And, that it will take young, aggressive people to accomplish it."

PARISI AWARDED citations to: Warden Keyes of DeWitt Township for 36 years as clerk and treasurer; Elmer Martens, Riley Township for 21 years as clerk; Gladys Hankey, Greenbush Township for 20 years as clerk; Clifford Squiers, Ovid Township for 18 years as clerk; Ellsworth Stockwell of Greenbush, 14 years as treasurer; James Graham, Greenbush Township, 14 years as trustee; Stanley Welton, Greenbush Township, 12 years as highway commissioner; Mrs Clyde (Nellie) Waldo of Watertown Township, 12 years as clerk; Fred Culy, DeWitt Township for 10 years as treasurer; and Willard Krebel of Riley for 13 years as trustee and supervisor.

All those honored have retired with the exception of Mrs Hankey of Greenbush.

22 attend NFO State meeting

Twenty-two Clinton County farmers and their wives attended the state convention of the National President Oren Lee Staley talk.

Staley called for a mobilization of the NFO to increase its strength by calling on every farmer to participate in collective bargaining. "Collective bargaining is the only answer to lead us to just farm prices," Staley said, "and the NFO is the only organization which has the structure to bargain."

Members attending from Clinton County were Mr and Mrs Elmer Smith, Mr and Mrs Darwin Smith, Mr and Mrs Paul Love, Mr and Mrs Harold Bracey, Mr and Mrs Elmo Giffels, Mr and Mrs John Miller, Mr and Mrs Leonard Schneider, Mr and Mrs Roy Westendorff, Mr and Mrs Don Miller, Mrs Robert Staley, Henry Repphun, Jim Graham Sr. and Stan Welton.

McGonigal Corners

By Mrs John McGonigal

Mrs Cleo Friend of Bath village is caring for her sister, Anna (Mrs Ted Ellis), in her sister's home in Charlotte.

Mr and Mrs Hollis Tischer and son Timothy of Drummond Island motored to Potoskey, late Friday afternoon to attend the football game between the Potoskey team and the Red Raiders of Detour of which, their youngest son is a player. It rained all during the evening game and as the Tischers headed south, their destination, the home of their parents, Mr and Mrs John McGonigal, and brother Mr and Mrs Chester McGonigal of Bath, the rain had turned to sleet and ice, and this condition lasted until south of Clare. The Tischers arrived at 3 a.m. Saturday, to hunt pheasants.

After a Bohemian dinner Sunday for everyone at the home of Mr and Mrs Chester McGonigal, they were homeward bound to the North Land.

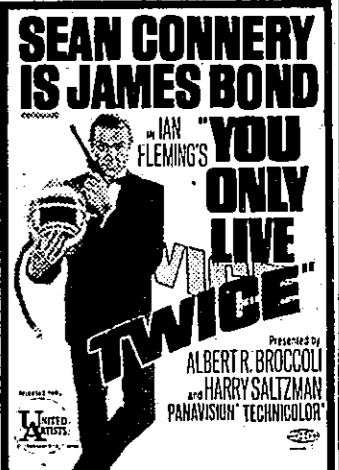

The Tischers have a son, Blaine, a senior at MSU taking physical education and teaching. Their eldest son, Patrick, graduated from MSU four years ago and is now in the U.S. Navy.

Mike Rhynard, son of Mr and Mrs Cecil Rhynard of Watson Road, Bath, returned home from the service several weeks ago, and is now in Denver, Colo., attending college. The Rhynards have an older son living there.

Where a series of color dots form the boundary, phone service along that particular stretch of road is a mixture of the two exchanges involved.

New toll circuits in 1968 budget

Better long distance service Gen Tel aim in '68

General Telephone Co. has budgeted \$195,300 in 1968 for the completion of additional long-distance circuits in the St. Johns Telephone Exchange.

Thousands of dollars in other service improvements, including reduction in parties per line in rural areas, are also planned in other exchanges in the Clinton area.

General Telephone outlined their 1968 program last Thursday night at a press conference at the Owosso Country Club. In all, they have earmarked \$4.5 million for expansion and improvement of both local and long distance service in the company's central Michigan service area.

THE ST. JOHNS district, headed by Bill Graef of St. Johns, will spend a total of \$259,200 in new construction, most of that coming in long distance service improvements in the St. Johns exchange.

Scheduled for completion in 1968 are additional long distance circuits from St. Johns to Pom-

pell, Owosso, Grand Rapids, Muir and Carson City. These add up to \$195,300 for 1968. These particular additions were begun this year.

Also starting in 1968 and planned for completion during 1969 will be additional long distance circuits to Ashley and Pompell. Also starting and scheduled for 1969 completion will be additional pole lines and local service cable construction to provide for a reduction in parties per line in the urban areas.

Preliminary engineering will start in 1968 on several projects scheduled for 1970 work in the St. Johns exchange. These include engineering for central office dial equipment (900 lines and 400 terminals) addition to provide for exchange growth, a reduction in parties per line, and additional one-, two- and four-party service.

ALSO SCHEDULED for 1970 is the introduction here of "touch calling"—the use of a panel of

buttons instead of a dial to place calls. This service will be offered but will not be widespread.

Here's what GenTel has in store in the other exchanges in the St. Johns District in 1968:

Ashley: \$30,600 budgeted for a building addition to provide for future growth and expansion.

Carson City: Preliminary engineering for exchange growth, reduction in parties per line, additional one-, two- and four-party service and the addition of 100 lines for touch calling, all planned for completion in 1970. Starting in 1968 will be projects for extended area service (no toll) with Hubbardston and additional long distance circuits to Vickeryville; these are planned for completion in 1969.

FOWLER: PRELIMINARY engineering will start for central office dial equipment (100 lines) to provide for exchange growth, a reduction in parties per line and additional one-, two- and four-party service in 1969.

Hubbardston: Preliminary engineering for a new community

dial office building to provide for future growth and expansion, the project scheduled for completion during 1969.

Middleton: The completion of a project begun this year—central office dial equipment (100 lines and 100 terminals) addition to provide for exchange growth and some reduction in parties per line in the Middleton area—is planned in 1968.

Muir: Preliminary engineering for a 1970 completion target for central office dial equipment (100 terminals) addition to provide for exchange growth and some reduction in parties per line in the Muir area, plus specialized central office equipment to provide for the addition of 100 lines for touch calling. Scheduled for completion this year will be a 200-line addition to provide for exchange growth, a reduction in parties per line and additional one-, two- and four-party service.

THAT SUMS UP the exchanges in the St. Johns district. Scheduled for other exchanges in

Clinton County are these projects in 1968:

Bath: A \$26,000 building addition and the start of additional pole lines and local service cable to provide for a reduction in parties per line in the rural area.

DeWitt: Scheduled for completion this year is central office dial equipment (200 lines and 600 terminals) addition to provide for exchange growth and some reduction in parties per line in the DeWitt area. Some \$53,000 has been budgeted for that project this year. Also included is the start on more dial equipment for future growth, specialized equipment for touch dialing and additional pole lines for a reduction in parties per line in the urban area; all of these projects are scheduled for completion in either 1969 or 1970.

Grand Ledge: Several large projects to be completed in 1968 include additional pole lines and local service cable to reduce parties per line in the Grand Ledge area, additional lines for exchange growth, and completion of central office dial equipment (600 lines and 900 terminals) addition to provide for exchange growth and some reduction in parties per line in the Wacousta area.

LAINGSBURG: The big project will be additional long distance circuits to Lansing, and there

will be some reduction in parties per line in the area.

Elsie: Scheduled for completion in 1968 will be central office dial equipment (200 lines and 100 terminals) addition to provide for exchange growth, a reduction in parties per line and additional

one-, two- and four-party service.

Ovid: A big \$226,700 budgeted item for the Ovid exchange in 1968 is additional pole lines and local service cable to provide for a reduction in parties per line in the rural areas and an

extension of the base rate area.

Owosso: Among other items will be additional long distance circuits to Elsie and Ovid.

exchanges of the county is as follows:

St. Johns \$197,900; Muir \$14,400; Carson City \$2,900; Fowler \$500; Hubbardston \$5,000; Mid-dieton \$7,900; Ashley \$30,600; Ovid \$227,500; Elsie \$16,800; Laingsburg \$30,100; Grand Ledge \$104,400; DeWitt \$53,800; and Bath \$26,200.

On a central division basis, the division's \$4.5 million budget will bring the company's two-year expenditure for improvements and expansion in the area to nearly \$10 million, Trezise said.

"We're going to continue our efforts to provide even better local service by expanding our exchange central office facilities," Trezise said. "We're also planning to place additional long

distance facilities in service in many areas."

In addition, the General Telephone manager pointed out that the company will continue its program to reduce all party lines to a maximum of four parties, a goal expected to be realized in 1972.

TREZISE SAID a major portion of the 1968 expenditure is slated for local service improvement.

"We're planning an expenditure of over \$1,797,500 for local pole line and underground facilities and for our central office switching equipment," he said.

Long distance cable and related facilities will require an additional \$713,800, Trezise said. Building additions to house the expanded facilities will cost \$103,400.

"Routine budget" expenditures, which include the replacement of worn out or outmoded vehicles, tools, furniture, telephone instruments, lines, cables, and poles, will be \$1,940,000, he said.

"OUR 1968 PROGRAM represents an average expenditure of more than \$56 for each of the 79,585 telephones in the central division," Trezise said.

General Telephone's central division is bounded by its exchanges of Woodland, Grand Ledge, and Williamston to the south, Lakeview to the west, Barryton and Mt. Pleasant to the north, and Linden to the east.

The company's present investment in central division land, buildings, and equipment stands at \$41,914,573.

General Telephone serves 468 Michigan communities located in 57 of the state's 83 counties and has more than 382,500 telephones in service.

26 at St. Johns TOPS meeting

Twenty-six members of the St. Johns TOPS met Thursday night to hear a weight report of a 24 pound loss by 12 TOPS and an 11 pound gain by eight Pigs. Also present were two Turtles and one KOP.

The highest loser for the month was Mrs. Edith Kaufman, with Mrs. Adaline Dershem and Mrs. Alice Argersinger as runners-up.

Members are asked to remember that next week the meeting will begin at 7:45, with everyone being weighed by 7:30. These times will remain in effect through the winter months.

Next week will be the Halloween party and everyone is to come in costume.

The past and present are closely related to the future.

Push-button telephoning available here by 1970

St. Johns and some other area telephone exchanges will be able to use buttons instead of dials to place their phone calls by 1970, but it will be longer than that before the full potential of "touch calling" will be realized.

"Touch calling" utilizes buttons in an arrangement, similar to the keyboard of an adding machine. Instead of dialing, a customer placing a call merely punches the buttons of the number he wishes to reach.

This sort of service will be available in the St. Johns exchange by 1970, according to present plans, Bill Graef, St. Johns district manager said. It will be available to those cus-

tomers who want it, and there will be a charge for it—so much per line rather than phone.

But Graef said the touch tone phones won't speed the calls until electronic switching can replace mechanical switching which is done in the exchange offices now.

"Calls won't go through any faster" Graef said, "but a person will be able to place the call faster. In addition to the speed, touch calling will also improve the accuracy of numbers called."

Electronic switching will open up a new world of uses for the telephone, GenTel officials summarized at a press conference in Owosso last week, including the sending of data over the phone by tapping out numbers on the buttons of the phone.

DONATIONS HELPED HIM HEAR

Nearly 400,000 Michigan residents have a hearing loss. A fourth of these could have full hearing restored by simple measures. Those with a more serious hearing loss, such as this little boy, can often be materially helped. He was aided by the Michigan Association for Better Hearing and Speech. Contributions to the Clinton County Communities' Chest help support this kind of work through the United Fund.

Plan Halloween party at Fowler

FOWLER—The Fowler Jaycees will sponsor a Halloween party for youngsters of the community next Tuesday evening, Oct. 31, at 7:30 p.m. at the Holy Trinity School Hall.

Chairman Casper Feldpausch says there will be cartoons shown, games, prizes and candy. Prizes will be awarded for the best costumes in different categories.

Four central Michigan banks, including Clinton National Bank and Trust Co. of St. Johns, are participating in the erection and equipping of Computer Center, Inc., a new data processing establishment now under construction two miles east of Alma.

Bank here joins 3 others in new data center to process accounts

Clinton National Bank & Trust Co. and its customers will soon be served by a data processing center now under construction near Alma.

To be known as Computer Center, Inc., the facility is a joint venture of four mid-Michigan banks—Clinton National Bank & Trust Co. of St. Johns, Isabella County State Bank of Mt. Pleasant, Commercial National Bank of Ithaca, and Bank of Alma.

The center is among the first bank-sponsored computer firms to be organized in Michigan. The four incorporating banks have combined resources of nearly \$100 million. They are inviting other banks in the area to make use of the facility when it opens

in January of next year.

INITIALLY checking accounts of customers of the cooperating banks will be processed by the computer. In subsequent months savings accounts, loans and other accounting procedures will be programmed for processing. Participating banks are also planning to offer computer service on a fee basis to their individual customers.

A new 50- x 72-foot one-story building to house the center's offices and equipment is being erected at 5244 N. State Road, two miles east of Alma. Sullivan Construction Co. of Alma is contractor for the brick and cement block structure.

A specially-designed 24- x

48-foot computer room will accommodate the installation of data processing equipment which includes a new third generation 360/30 IBM computer with three-disc drive.

There will also be offices for the center's manager and programmer, a reception area, employees' lounge, storage and mechanical rooms. Two air-conditioning systems will be required for the structure. Automatic controls will regulate humidity and temperature within the building.

RICHARD BENFIELD, associated with computer operation at the Detroit Mobile Homes Company in St. Louis, Mich., for seven years, has been named

manager of Computer Center, Inc. He has been working with the new corporation since Aug. 1 of this year and has taken additional training at IBM data processing schools in Detroit and Flint.

Officers who will guide the policies of the new center have been chosen from the executive staffs of the four incorporating banks. Wilbur D. Collison of Commercial National Bank, Ithaca, is president of the corporation. J. Elmer Graham of Isabella County State Bank, Mt. Pleasant, is vice president. Secretary and assistant treasurer in Donan V. Froh of Bank of Alma, John A. Rumbaugh of Clinton National Bank & Trust Co., St. Johns, is treasurer and assistant secretary.

Sealed Power notes brighter picture in 3rd quarter finances

Paul C. Johnson, chairman of the board of directors, announced today that improved operating results were recorded by Sealed Power Corp. during the third quarter of 1967.

Sales volume reached an all-time high for this quarterly period, while sales for the first nine months also established a new record. At the same time, earnings rose above the same period last year and were higher than either of this year's two preceding quarters.

Johnson reported that third quarter sales volume totaled \$11,765,000, an increase of less than 1 per cent over the corresponding period in 1966. The nine months sales reached \$35,711,000, a slight increase over the \$35,589,000 recorded in the same period last year. September sales this year were adversely affected by a work stoppage at a major automotive producer.

JOHNSON STATED that net earnings for the third quarter

amounted to \$790,000, compared to \$755,000 earned last year, a 5 per cent improvement. The nine months earnings totaled \$2,148,000, a decrease of 14 per cent from the preceding year's total of \$2,450,000. The year-to-date earnings were equivalent to \$1.51 per share based on 1,418,113 shares outstanding on Sept. 30, 1967, and \$1.73 per share based on 1,417,133 shares outstanding a year earlier.

Johnson noted that the improvement in third quarter earnings in the face of continuing increases in labor and material costs largely reflected better operating efficiency.

Johnson stated he viewed the period ahead with confidence. However, he noted that a degree of uncertainty presently prevails in the automotive industry where operations are being conducted at reduced levels due to production interruptions associated with labor contract negotiations. He said this situation has affected Sealed Power operations, and until such time as normal operating levels are resumed in the industry, Sealed Power will continue to be adversely affected from both a sales and earnings point of view. Over the long range, however, he expects improved operating results.

Johnson announced that in recent months careful consideration had been given to the development of a program to broaden Sealed Power's operating and marketing base. To achieve this

objective, the board of directors approved a program of acquisition through which Sealed Power will diversify its activities in the areas on technology, products and markets.

This program will be implemented by a manager of corporate development, a newly-created position within the organization structure. He stated that while projections indicate steady growth for Sealed Power's existing products and the markets it now serves, he is confident that growth can be accelerated through a planned and aggressive program of diversification.

At their October meeting, the board of directors of Sealed Power declared the regular 25 cents per share quarterly dividend to be paid Dec. 11 to shareholders of record on Nov. 20.

Area Holsteins get new lactation credits

A report of mild production levels attained by dairy cows in area herds has been received from Holstein-Friesian Association of America. The actual food production output, under official testing rules, by these local Registered Holsteins is:

Levellance Royal Rag Apple Inez 6569040, a three-year-old, owned by Duane and Velmar Green of Green Meadow Farms, Elsie, produces 15,810 pounds of milk and 570 pounds of butterfat in 334 days.

Valleyrest Coffeydale Martha 5031764, a six-year-old, owned by Floyd H. Koerner Jr. of Laingsburg produced 18,690 pounds of milk and 682 pounds of butterfat in 365 days.

These new production figures may be compared to the estimate annual output of 8,513 pounds of milk and 315 pounds of butterfat by the average U.S. dairy cow, notes the national Holstein Association.

Michigan State University supervised the sampling, weighing and testing operations in cooperation with the Holstein organization's herd and breed improvement programs.

Circulation of the median-size dairy is about 10,000 and of the median-size weekly, 3000.

Employment by newspapers averaged 353,800 during 1966, a 2 per cent increase over 1965 and an increase of 42 per cent since 1947.

THE NEWS IN BRIEF

Another stretch of new freeway has been opened in Michigan. Nearly 25 miles of southbound, 1-96 is now open from Mt. Pleasant near Tekonsha to the Indiana state line, while 22 miles of northbound I-96 is open to traffic. Michigan now has 1,310 miles of freeway—828 miles of Interstate freeways and 482 miles of state freeways.

Daryl Peck of R-2 DeWitt has been named to junior membership in the American Milk-Whorl Shorthorn Society.

Arthur P. Bergman of 9407 W. Henderson Road, Elsie, has been named district representative in this area for Aid Association for Lutherans, America's largest fraternal life insurance society. Bergman is an associate of the Ernest L. Krieger Agency of Saginaw.

FORGOTTEN SOMETHING?

Have you been forgetting something lately? Have you been forgetting yourself?

Let's be completely selfish, for the moment, about this matter of going to Church. Let's look at it solely from your own point of view.

Will the Church offer you an escape from reality? Will it lead you into some kind of a rosy dream world? Will it be your own, personal panacea—a kind of spiritual crutch?

Emphatically no! What the Church will do is give you Faith. It will help you find the courage and strength to meet life's tests. It will bring you complete realization of one

**Bussing costs
told to PTA**

The Elsie PTA meeting was held Monday night at the school with Mrs Ray Canfield presiding. It was voted to purchase a fish aquarium to be placed in the room with the most parents present for the month.

The next meeting will be Nov. 13 with Joe Thering in charge of the program on basketball rules and plays.

Earl Seybert presented the program on bus transportation stating the cost of many parts of our bussing students to school. It was also suggested that the bus policy for students be revised. Also that parents listen to the radio in case of inclement weather for school announcements instead of calling school personnel. This is carried on WJLS, WJR, WOP and the Alma station.

Refreshments were served by Mr and Mrs Walter Miller.

Ten-year-old Helen Blakely, daughter of Mr and Mrs Norman Blakely underwent major hip surgery Tuesday at the University Hospital in Ann Arbor and is expected to be in a body case

for six months. This is not a new experience for Helen as it is just one of many operations and casts she has endured in her lifetime. She has been attending the Elsie Elementary Schools. Helen would appreciate hearing from her many friends. The address is 10 West-University Hospital, Ann Arbor.

Mr and Mrs James Dorman have just received word of a new grandson. The parents are Mr and Mrs Darrell Dorman of Ridgefield, Conn. The baby is David James. The Dormans have two other sons, Mark and Todd.

**Rev Raft
at revival**

Rev Fredrick Raft pastor of the Aurelius Baptist Church will be the guest speaker of revival meetings from Oct. 30 through Nov. 1 at 7:30 p.m.

Rev Raft came to the United States from Greece in 1950 and graduated from Northern Seminary in 1958. He is also active in the ministry of sacred music. He is a dramatic baritone soloist and has made himself available for services in churches of different denominations in sa-

cred music concerts and evangelistic campaigns.

Rev Raft will bring his family with him Monday Oct. 30 and they will also sing. Two long playing records have been released by him, one an album of children's trios, quartets and quintets featuring the entire family.

ENGAGEMENT ANNOUNCED

Mr and Mrs Paul C. Brown of 9124 W. Henderson Road, Elsie, announce the engagement of their daughter, Paula Mae Brown of 2608 E. Glenn, Tucson, Ariz., to James R. Lightfoot of Williamston, Michigan.

The bride-elect is a graduate of Elsie High School and Michigan State University and is currently working on master's degree at the University of Arizona. She was a teacher at the Michigan School for the Blind for five years.

The prospective bridegroom is a graduate of Williamston High School, Michigan State University and has a master's in urban planning from MSU. He is affiliated with Theta Chi Fraternity. He is senior planner at Tucson City Planning Division, in Tucson.

A wedding is planned for June of 1968 at the Elsie First Baptist Church.

WOODARDS HONORED
Family night at the Duplain Church of Christ Saturday evening will begin with a potluck dinner featuring fried chicken at 6:30 p.m. Following the meal, a program will be presented in the church sanctuary.

The family night will honor Mr and Mrs Ralph R. Woodard, who have served the Church of Christ for 10 years, coming here in 1957. Mr and Mrs Woodard have spent their entire life in the Christian ministry serving churches throughout central Michigan. Woodard was one of the original founders of Great Lakes Bible College of Lansing and served as its president at the time it was founded, prior to coming to the Duplain church to minister.

During the Woodards' ministry here, the church has grown steadily, more than doubling its membership; erecting a parsonage in 1960 and a new church building in 1967. The new church building is nearing completion at this time and will be ready for occupancy in the near future.

Mr and Mrs Woodard plan to retire to their cottage at Rock Lake near Vestaburg.

Carland News

Shepardsville

By LUCILLE SPENCER, Correspondent

Religions of the world discussed

The Berean Circle of the Shepardsville WSCS met at the home of Mrs. Heine Hettinger Thursday evening, Oct. 19, with eight members and two guests present. Mrs. Dale Squiers, presided over the business meeting. It was voted to have the apron project again. There will be a Chinese auction at the November meeting and a silent auction of aprons at the December meeting.

Mrs. Lucille Spencer and Mrs. Grace Baker of the Afternoon Circle presented the program and devotions. Mrs. Baker gave the devotion, the text being the love chapter of the Bible, 13th chapter of 1 Corinthians. Her meditation was on love. Mrs. Spencer presented the program. Her topic was world wide religions of the world as compared with Christianity. Four religions were discussed; Hinduism, Buddhism, Islam, and Judaism. She told something about each of them. She was assisted by Mrs. Dale Squiers, Miss Donna Hettinger, Mrs. Charles Swender, Mrs. Lucille Pellow and Mrs. Clare Alderman. Before the discussion began, Mrs. Spencer asked all to repeat the Golden Rule, then she read the interpretation of it from four of the religions of the world. After the close of each religion, a reading was given from the great writers of these religions.

MRS. SQUIERS THANKED Mrs. Baker and Mrs. Spencer for presenting the devotions and program.

The next meeting will be Nov. 16 at the home of Mrs. Clare Alderman.

The Men's Club of the Shepardsville Methodist Church met last Monday evening for their

first meeting of the year. After a short business meeting, Sam Sherwood told about his trip to England this past summer.

Sunday morning at the Shepardsville Church was Laymen's Day. About 30 laymen and laywomen took part in the service. This included both the Junior and Adult Choirs. Francis Ferden gave the invocation, Mrs. Charles Swender read words of assurance, followed by the Lord's Prayer. Miss Carol Squiers led in the reading of the Psalter and Robert Henderson gave the scripture reading. The Pastoral Prayer was given by Mrs. John Spencer, Mrs. Clarence Mead led in the Reading of the affirmation of faith, Karl Smith read the announcements and also had the Benediction. Dale Squiers gave the sermon. His topic was "What Must I Do?", based on the story of Nadman the leper and the rich young ruler.

Friday afternoon, Oct. 20, was trip day for the Ovid-Duplain Library Club. About 21 members and their guests enjoyed the afternoon at the Consumer's Power Circle Kitchen. Mrs. Roberta White demonstrated. After explaining the use of some of the newer appliances in the kitchen, the foot was placed on a table and we all had a chance to taste it. The president, Mrs. Charles Walker, presided over an informal business meeting. The amount of money left after purchasing the supplies for the Bloodmobile was placed in the general treasury. West Central District Federation of Woman's Clubs will meet in Byron Oct. 26. Mrs. Charles Walker, Mrs. Ray Miller, Mrs. Hubert Hilton, Mrs. Clayton Sherwin and Mrs. Christine Snyder expect to attend. The next meeting will be Friday evening, Nov. 3, at the Shepardsville Church for a family night program. Mr. and Mrs. George Craig will show pictures of their Alaskan trip. There will be a potluck supper at 7 p.m. It was also announced that the clubs of

Clinton county will be entertaining the WCDF next October at Ovid. Also, the Clinton County Federation will be meeting in Ovid in 1969.

Mr. and Mrs. Mickael Robitaille of Union Lake were guests of Mrs. Effie Wilson Monday afternoon.

Mrs. Beulah Holland of Ovid, Mrs. Oliver Darling of Elsie and Mrs. Effie Wilson spent Wednesday afternoon with Mr. and Mrs. Bary Fruchey and family of Greenville.

Mr. and Mrs. Robert Rademacher and sons have moved to Hubbardston where he has purchased some property.

Mrs. Charles Olson Sr. returned home Thursday from Kalamazoo where she had spent the past week with Dr. and Mrs. Douglas Leonard and Susan and Mrs. J.C. Leonard.

Lee Hawley, husband of the late Lulu Gates, died Sunday morning in his sleep. Houghton Funeral Home of Ovid has charge of the arrangements. The funeral will be at 1 p.m. Wednesday.

Mr. and Mrs. George Stahl and baby of Gary, Ind., were weekend guests of Mr. and Mrs. Max Walasek.

Steve Komives returned home last Tuesday from Clinton Memorial Hospital, where he had recent surgery.

Mr. and Mrs. Lyle Acre and Dick were in Philadelphia, Pa., last week to attend the wedding of a relative Oct. 14. They returned home last Monday afternoon. Mrs. Delille Howe of Grand Forks, N.D., came back with them and spent a couple of days.

Mrs. Michael Flegel and infant daughter left Saturday evening by plane to Denver, Colo., where Flegel is taking jet-flight training for the next few weeks.

Mr. and Mrs. Jerry Rankin of Saginaw were weekend guests of her parents, Mr. and Mrs. Clare Alderman. Miss Karen Alderman was also home for the weekend from Ferris State College of Big Rapids. Mrs. Anna Alderman of Midland also spent a couple of days last week with her son and family.

Sunday afternoon was the closing program of the Week of Prayer and Self-Denial by the WSCS of the Shepardsville Church. The worship service topic was "Feed My Sheep." The meeting was in charge of Mrs. Dale Squiers, secretary of Spiritual life of the WSCS. Two talks were given by Mrs. Heine Hettinger and Miss Donna Hettinger. Mrs. Hettinger's talk was on how the women in other parts of the world are being trained to carry on the work of Christianity. She cited several instances where women of exceptional ability had been chosen to head colleges and one who became ambassador-at-large of her country. Miss Hettinger's topic was on home for children and youth. Some of the homes for these children need to be remodeled and some need to be built. The offering today goes into this fund and also into the Leadership training of women around the world. Mrs. Squiers read two meditations which dwelt heavily on the topic "Feed My Sheep." It means that all women

must sacrifice something to help in this work.

The following events will be happening in the Shepardsville area during this week: The Junior Choir will have their rehearsal Saturday at 1 p.m.; Thursday, Oct. 26, a family-styled fried chicken supper; Saturday, Oct. 29, the MYF will have a Hal-low'en Hayride along with the Price MYF, at the home of Mr. and Mrs. Russell Ormsby, beginning at 7:30, every member is to bring their own wieners and buns; Sunday evening, Oct. 29, the MYF will be having their UNICEF drive. Please plan to be home with your porchlight on to welcome the youth of our church or hand them your contribution if you are planning on being gone that evening.

WCS HEARS OF JAPAN

"Japan, a Land of Change" was the title of the lesson presented to the Bannister Woman's Society of Christian Service at their meeting Wednesday evening. Mrs. Thomas Moore, assisted by Mrs. Richard Moore, Mrs. Edna Nowlin and Mrs. Wayne Peck, presented the program.

The parts were written by Japanese people and told of the changes and new customs in Japan. Mrs. Ivan Hofferbert explained the worship center which included a beautiful seed picture painted by the late Pearl Mead.

The business meeting was conducted by President Mrs. Richard

Moore. It was decided to increase the total supply askings by one-half.

Mrs. Moore announced that an executive meeting will be held Nov. 13 to make plans for the bazaar to be held Dec. 15.

Hostesses for the evening were Mrs. Ivan Scott, Mrs. Ray Canfield and Mrs. Robert Valentine.

The Senior MYF, of the Bannister Church, heard a recording by Billy Graham for their Sunday evening program. Billy Graham answered teenagers questions via the record. Discussion was held after listening to the record. Vicki Valentine and Elizabeth Ensign were in charge of the program. Following the program the senior group joined the junior group for refreshments.

The Bannister MYF will sponsor a roller skating party Friday evening beginning at 7:30 at Fenmore.

The Junior and Senior Methodist Youth Fellowship will go Trick or Treating for UNICEF Sunday, Oct. 29, beginning at 6:30.

Robert Valentine has been a patient at the Carson City Hospital recently. He returned to his home Monday.

There's more to Wide-Tracking in a '68 Pontiac than meets the eye.

- Wide-Tracking is performance.
- Wide-Tracking is handling.
- Wide-Tracking is security.
- Wide-Tracking is one of the great American sports.

Driving a new LeMans may be even more satisfying than looking at one. The standard engine is an Overhead Cam that delivers 175 hp from regular gas. You can order a 215-hp high-compression version.

Or go up to 265- or 320-hp V-8s. See your Pontiac dealer for a test drive and learn the difference between Wide-Tracking and plain ordinary driving.

Last Year Hogmen Started Over 9 Million Pigs on Purina... WHY?

Results... that's the best answer we know. Folks everywhere, and folks especially around here are finding out that pigs start, grow and finish fast on Purina. Hogmen know they can depend on Purina Research to keep them and approved formulas coming. And from feeding experience they know that Purina's Hog Program pays off in the feedlot with fast growth and low-cost gains.

Join the trend to Purina. We'll be glad to help you keep records so you can see for yourself why hogmen in the U.S.A. started over 9 million pigs on Purina last year. Pigs love Purina Baby Pig Chow, Early Weaning Chow and Purina Pig Startena. Feed out your next bunch of pigs the Purina way.

4-H Club Chatter

By JOHN AYLSWORTH
Extension 4-H Youth Agent

The Lucky Riders 4-H members are planning to meet year round so they will have the opportunity to learn more about their horse project. Guest speakers will be secured for several of their meetings. The members discussed the club's new point system where the person with the highest number of points at the end of the year will receive some award. Officers for the new year include: President Warren Barren, Vice President Cathy Jubb, Secretary Susan Kimball and Treasurer Dawn Owen.

The Flying Hoofs 4-H Club members learned about different grains and feeds, what to feed and what not to feed their horses. Each member brought two or three grains in different forms to the meeting. Janice Carn will show the members how to make a bowline knot at the next meeting. The members will go caroling in December.

The Happy Hustlers 4-H Club members have elected Martha Mihalyi as their new president for the winter program. Other officers include Vice President Charles Kehr, Secretary Kathy Schaefer, Treasurer Anne Kurnez, and News Reporter Dorene Bauer.

The club will hold a family potluck supper and meeting on Monday, Nov. 13. Bill Mihalyi gave a report on his fish conservation project. An initiation committee of Martha Mihalyi and Dorene Bauer will set up plans for the initiation of the new members.

Gloria Waggoner is the new president of the Country Club Corners 4-H club. Other officers include: Vice President Bernadette Jorae, Secretary Kathy Eastment, and Treasurer Debbie Howard. The club will meet the second Tuesday of each month at the home of their leader, Mrs. Guy Snyder, starting at 7:30 p.m. The 22 members taking sewing and knitting projects and eight mothers met last Tuesday evening to discuss the projects, meeting places for project meetings and meet the leaders.

Ever wonder what you looked like four years ago? The members of the Victor Pathfinders 4-H Saddle Club saw movies taken of their horse show four years ago and were amazed at the change. The members discussed what they would do this

ings and make plans for the coming year.

Six clubs were announced as honor clubs and will receive a gavel for their honor. The clubs were: Fowler Busy Bees, Friends and Neighbors, Victor 4-H, Olive 4-H Projects, Nimble Fingers and the Willing Workers.

Any leader who did not pick up the club's certificates, pins, 4-H leader's handbook should stop by the office for their material.

Last Wednesday and Thursday, Anabel Peck of Elsie and Ethel Plegler of St. Johns attended the leaders conservation workshop at Camp Kett. We will be counting on these two leaders to share their ideas and suggestions with the other conservation leaders in the near future.

Future leader workshops at Camp Kett for 4-H leaders include Nov. 1 and 2 for archery and gun safety, and Nov. 3 and 4 for weather, plastic and metalcraft. Any leaders interested in attending these workshops should contact the office for more details.

The youth dance previously scheduled for Saturday, Nov. 25, has been rescheduled for Saturday evening, Dec. 2 at Smith Hall to avoid a conflict with a dance sponsored by the St. Johns High School Band. The dance on Dec. 2 is open to any youth and all proceeds will be given to the building fund for building a new horse barn at the county fair grounds.

Any 4-H member who is a senior and interested in attending Michigan State University in 1968 should contact the Extension office for an application for 4-H scholarships. The application must be in at the university by Dec. 15. Don't put it off if you are interested in a 4-H scholarship.

Lois Miller, president of the Fowler Busy Bees 4-H Club, will be presiding over the largest 4-H club in the county this fall with 80 members. Total attendance at their last meeting included 80 members, 27 guests and 19 parents for a total of 124 people. The club members voted to hold two roller skating parties this winter but no date was set. An initiation committee consisting of Joy Weber, Beth Fox, Connie Wieber, Maureen McKean, Julian Harr, and Rose Goerge will set up the plans for the newly enrolled members.

The 4-H Wonders 4-H Club have elected officers for the coming year with Roger Knickerbocker selected as president. Other officers include Vice President Jack Woodhams, Secretary Janice Woodhams, Treasurer Diane Schomisch, News Reporter Barbara Jean Penix, and Songleader Gloria Bond. The club will hold a hayride on Friday, Nov. 3. Several members are interested in a new project called ceramics. Other projects include weather, clothing, knitting and handicraft.

The IDEAL WAY To Harvest high moisture Corn and Silage!

FARMHAND

CORN BLURR BLOWER BURR MILL

THE "CORN BLURR" is a unique combination of blower and burr mill, designed to process ear or shelled corn and blow it into a silo. It has proven especially adaptable for handling high-moisture corn at high capacities.

The advantages of being able to process high-moisture corn with the "Corn Blurr" are many: lower harvesting and field losses, reduced weather losses, higher feeding value, increased labor savings. The Farmhand "Corn Blurr" belongs on your farm now!

ASC PROGRAM

April 21 tornado disaster relief funds still available

We still have funds available for cost share assistance to help farmers remove debris from cropland deposited by the April 21 tornado.

This assistance includes those farms which the ASC County Committee determines requires the removal of fallen trees and other tornado deposited debris to return the land to its normal productive capacity.

Cost share assistance requests must be filed in our office at 100 S. Ottawa Street,

St. Johns, and requests must be made before starting to remove the debris.

ALL DEBRIS must be removed by Dec. 31 to be eligible for cost share. To date we have made cost share payments amounting to \$5,000.

The cost share assistance has been well below what we had estimated because of the amount of volunteer labor used to remove the debris. Donated labor was not eligible for cost share assistance.

Farmers who still have cropland with debris deposited on it by the April 21 tornado and wish assistance must make request before removing the debris. Remember cropland must be cleared before Dec. 31, 1967 to be eligible for the cost share assistance.

THE RAINS WE have been getting the last week have prevented soybean harvest. A lot of soybean producers have been seeding their soybean ground to winter cover crop.

We have just one seeding that can be seeded this late in the

W. M. SMITH
County ASC Manager

fall and that is rye. The last date to make a rye cover crop seeding is Nov. 1 to be eligible for cost share assistance. The seeding can be made by airplane if the soil is too wet to use a drill.

If cost share assistance is desired a request must be made before the winter cover crop is seeded.

We have mailed out the annual cropland adjustment program payments. Anyone participating in the program who has not received his payment should contact our office.

Farm Bureau group met Tuesday

The Pioneers of French's Corners Farm Bureau group met last Tuesday evening, Oct. 17, with 14 members gathered at the home of Mr and Mrs Clarence Burk.

Discussion of the topic "The Role of Farmer-Cooperatives" was led by Melvin Smith, Mrs. Grace Stevens gave a reading entitled "The Old Oak Table."

The next regular meeting is scheduled for Friday evening, Nov. 10.

No federal subsidy for highways?

No subsidy for highways! That's right! Highways get NO SUBSIDY from the federal government.

As President Johnson put it, the present highway program "is not costing the general fund of the United States Treasury a single cent."

No matter what you read, no matter what you hear, no matter what you may have thought in the past, this is the truth of the matter.

"Federal-aid" highway program is a misnomer. Paying general fund money for this program went out the window years ago.

INSTEAD, CONGRESS worked

out a system in 1956 whereby we who use the highways pay for them in proportion to our use. We do not, of course, necessarily pay for just the highway or which we are driving at the moment. But the amount of our motor fuel and tire taxes naturally is in proportion to the amount of driving we do. Owners of trucks and buses pay a sizable share of these levies, and considerably more.

All these taxes have been levied by the Federal Government for the purpose—and solely for the purpose—of assuring us needed highway development.

They are use taxes.

They have no relation to any property we may own, any luxury

we may buy, any income or dividends we may receive.

They reflect only our use of the highways.

Because of their special nature and because they were levied for a special purpose, these taxes go into a special fund—the "Federal Highway Trust Fund."

Call the Federal Highway Trust fund a "fare box." It is where you put your motor fuel and tire tax money to pay for the roads on which you ride.

Here are the federal taxes which have gone into the "fare box" since 1956:

TOTAL HIGHWAY TRUST FUND TAX REVENUES, 1956-1966 (Dec. 31) (Net after refunds)

Gasoline (four cents per gallon)—\$22,645,403,350 Diesel, special motor fuel (four cents per gallon)—\$1,023,192,009 Tires (five and 10 cents per pound) \$3,211,271,250 Tubes (10 cents per pound)—\$189,300,628 Tread rubber (five cents per pound)—\$202,997,802 New trucks, buses, truck trailers (10 per cent of list price)—\$2,430,828,949 Highway use tax for vehicles over 26,000 pounds (\$3 per 1,000 pounds per year)—\$736,466,611 Parts and accessories, trucks and buses (eight per cent of wholesale price)—\$31,286,000 Lubricating oil (six cents per gallon)—\$77,129,000 Total—\$30,547,965,599

IF YOU READ or hear or are tempted to talk about the "billions the federal government is pouring into roads," stop and remember.

Our great highway program "is not costing the federal government a single cent."

Building these highways has no effect whatsoever on the federal budget.

The "billions" some people like to write and talk about come from the "fare box" into which we passenger car, truck and bus owners pay, our highway "fare" in special taxes.

The states, with the highway use taxes they levy, match this "fare box" money. They put up

10 per cent of the cost of the new Interstate system and 50 per cent of the cost of other primary and secondary highways.

SO YOU AND I—not the federal government—are buying and building:

-The safest roads engineering genius can devise.

-Convenient, nonstop highways that link all our cities.

-Highways on which it is less expensive to operate our vehicles, and which help to keep down the prices of goods and produce transported over them.

-Great moving windows to our nation's beauty, open not to the few but to the millions.

-Freeways whose improving designs are helping revitalize and rehabilitate many of our cities.

-The most flexible means of transportation a security-conscious nation possibly could build.

IN OTHER WORDS, our highway "fare" is buying and building the kind of transportation that so many millions of us prefer—individual, personal, convenient, comfortable, countrywide, untiring and UNSUBSIDIZED.

Isn't this just the kind you'd expect in the "land of the free"?

NATIONAL HIGHWAY USERS CONFERENCE

American foods are as healthy as they look

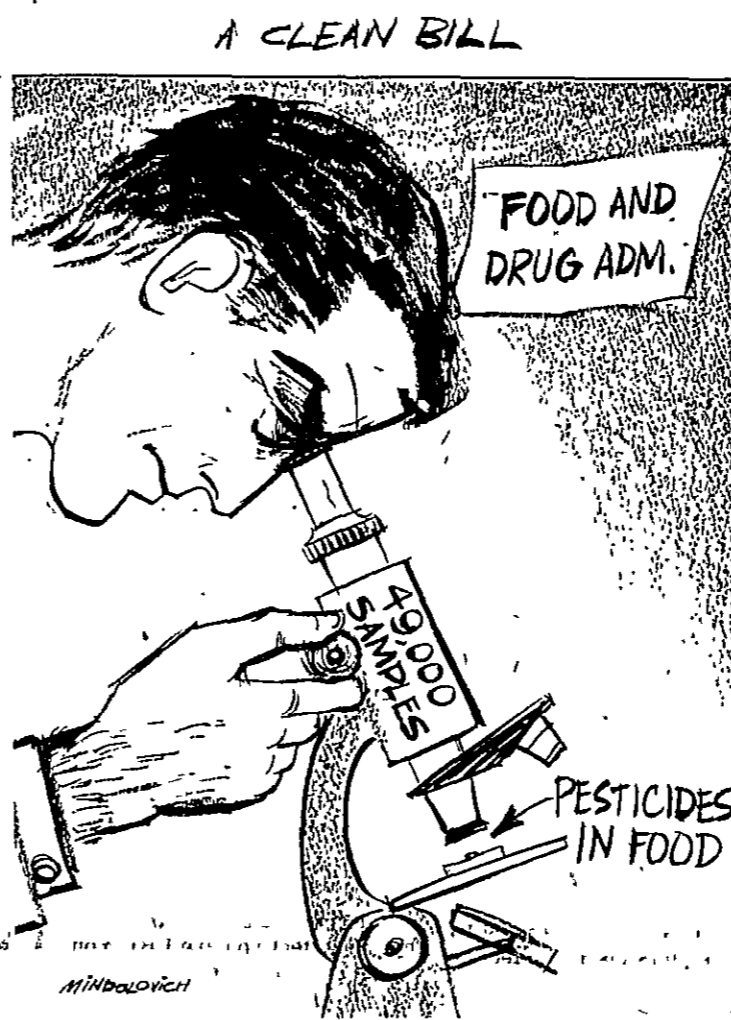

There is now positive proof that there is absolutely no conflict between proper use of pesticide chemicals and purity of the food supply. Following exhaustive analyses of samples of foods from all sections of the nation, the Food and Drug Administration in its publication FDA Papers reports, "American consumers of all ages may be confident that their foods are free from harmful amounts of pesticide residues . . . Analyses of raw agricultural products as well as total diet surveys show that pesticide residues are much lower than the amounts judged to be safe by (the) FDA and the World Health Organization."

Over a three-year period between July 1, 1963, and June 30, 1966, more than 49,000 samples of raw agricultural products were obtained from all parts of the United States. Testing procedures now permit the detection of minute residues of any one or combination of more than 54 pesticide chemicals. All samples cannot be tested for all of these chemicals.

But, extremely broad sampling of food

products assuring reliable results and inspection of growing areas prevents any chance of change in pesticide residues occurring without recognition and follow-up checks. In addition to random sampling of raw foods, a "market basket" selection of 82 foods in a quantity sufficient to satisfy a large appetite for two weeks is purchased in retail stores. Regular checking of such "market basket" food selections after preparation for the table has proven that the daily intake of traces of the most widely used pesticide chemicals by the average person eating a well balanced diet is far below accepted tolerances.

This all adds up to impressive good news for the American people. The vast and tempting displays of fresh fruits and vegetables, meats, canned and processed foods in the local supermarket are just as wholesome and pure as they look. Continued cooperation between all segments of the food industry, pesticide manufacturers and appropriate government agencies will assure the high quality, abundance and purity of food products available for the family dinner table in the years to come.

RAMBLIN' with Rink

By LOWELL G. RINKER

A little leaf floated to the ground Monday morning as I went out the back door to go work. It came from across the street and made a little rustling noise as it fluttered past my nose.

I mumbled something about it being too darn late in the year already and bent down to pick up the leaf. Every once in a while I take a close look at a leaf and marvel at the construction of it and the colors of it. There were far fewer spectacularly colored leaves this year than in the past, and this particular one caught my eye.

I KNEW IT WAS early in the morning and I wasn't really awake yet, but it sounded to me like the leaf spoke. I glanced around furtively, and then bent to pick up the leaf. I straightened up fast when the leaf suddenly twitched and stood up on its stem.

It must be the wind whipping between the garage and house, I told myself. But then came that crackly, little voice again. "Leave me alone. Let me lie here in peace."

I stepped back and looked for witnesses. "I've had a long summer of work and I'm tired," the voice said, and at the same time the tip of the leaf quivered as if it really were talking. I couldn't believe my eyes and ears.

"I'VE BEEN WORKING making oxygen every day," the leaf said (?). "I provide shade and give protection and resting spots for little birds. I'm bushed."

So absorbed was I with the little drama that I found myself replying to the leaf. "But this is the time of the year when you are really needed. You should . . ."

The leaf interrupted. "I know what you're going to say, and I disagree. It's October, man, almost November. Who do you think I am, Methuselah? "I've been hanging on that

tree over there for about six months—by me neck. I'm worn out. Done in, I hope I've done you some good this summer with the late afternoon shade and all, but you're expecting too much. Don't bowl me out now that I'm quitting for the year."

"SO, BIG DEAL," I said. "How a bout all your other friends up there on the trees. They're not giving up so early. At least they've got the stick-to-it-iveness to stand by and at least try to give us some better color than what they've done."

"They'll be along in a day or two," the leaf interjected, his crackling voice fading with every word. "And please, mister, don't think badly of us for not being too bright this year. It's not much fun hanging by your neck in day after day of cold rain with the wind yanking at you all the time."

"Most of the fellows gave up a long time ago. You would have, too, I bet, if you had to go through what we have to go through."

I've been thinking about that phrase ever since the little voice became hushed and the leaf fell back on its reddish yellow face. Our trees and their leaves do do quite a job for us, and we did have a pretty nice summer while it lasted. It's over now, and autumn's "finis" is upon us. Soon snow will fly and cold winds will whip through the bare branches, and we'll remember the warm days and the shade and protection the leaves on the trees brought.

And despite a lack of spectacular hues, autumn did walk across the land with a great amount of color, and the combinations of green, brown, red and yellow helped brighten and warm many chill, rainy days this fall. Maybe next year the colors will be brighter, and we can "oooh" and "aaaaawwwww" a little bit more than we had a chance to this year in tribute to our little leaf friends.

Treat for a well child means help for sick child

Approximately 550 kidney disease patients, mostly children, are living today with the help of modern miracle drugs supplied through the Michigan Kidney Foundation Drug Banks.

These people are victims of nephrosis. Nephrosis is a non-inflammatory degeneration of the kidney. This disease involves the membranes of the kidney and results in large quantities of water accumulating in body tissues. Nephrosis once meant death for 50 per cent of those afflicted. With the use of drugs, fatalities have been cut to 20 per cent.

Considering the fact that nephrosis in childhood may last from one to six years, and that the cost of drugs may be \$24-\$31 per month, the resulting financial hardship can be tremendous. Through its Drug Banks the Michigan Kidney Foundation provides direct service to families of nephrosis patients.

The sale of Trick or Treat candies each fall supports these Drug Banks. In the four county area of the Central Michigan Chapter, MKF, there are 25 kidney disease patients receiving the aid of these drugs. Your purchase of a treat for a well child will help provide treatment for a sick child.

from the HOPPER

By STEVEN HOPKO

The Viet Nam war protesters ate having a ball, as of late, in rallying everyone possible to protest the killing of American youth in a cause they believe unjust.

Whether they are right or not is not for me to judge, but everytime I hear these people protest about the hundreds of fine American youth who are being killed over there, I sort of wonder where their sense of value has gone.

A while ago I read that 158 Americans were listed as killed in action in Viet Nam. The following day, the same news media stated that there were over 500 fatalities on the American highways for the same week.

War is known to have taken the lives of many fine young Americans, and because of this we say "war is hell." I'll admit that "war is hell," but I'll say one thing for those who are dying in Viet Nam, at least, in my opinion, these boys are dying for a cause.

THIS IS MORE THAN we can say for the thousands of Americans who are being killed on our nation's highways every year.

For, when one starts adding the totals up, he finds that we, as Americans, have killed more people on our highways than we have lost in all our wars.

THE UNITED STATES has been fighting wars, off and on, for over 190 years. Total up the number of men who have died in these wars and the sum is quite awesome. Yet, it has been only about 60 years since we switched from the horse and buggy to the automobile. Now, if you total the number of people who have been killed on our highways and byways, it makes those who were killed in wars look like a measly sideline. Because when it comes

to killing people, we as Americans, on our highways do one hellava job, and yet we all sit back and think "war is hell."

Americans have been giving their lives for many years in our wars for freedom and liberty. Compare this to the thousands who have been killed on our highways for the cause of carelessness, drunkenness or recklessness. To me there can be no comparison.

BUT, WE AS AMERICANS, seem to think that it is worse to die for the cause of freedom and liberty, at least to hear us talk and see the way we react. We shudder at the hundreds who are dying for a cause, whether it is just or not, but we see no reason to be concerned over the slaughter on our highways.

This idea was expressed very well in a cartoon that ran about the Fourth of July. It pictured two Americans in a muddy foxhole with shells flying overhead. The caption beneath went something like this, "At least we don't have to worry about the traffic like they will at home."

I HAVE NO solution to offer, either on the war or on the highway slaughter here at home. But, I wish that all those who seem to be so concerned about the slaughter overseas would expend some of their energy on the slaughter problem we have here at home.

If one were a statistician, he could be able to prove that anyone serving in a combat area would be far safer where he is than on our American highways. I think we have proved this point over the years. If you are one who says, "war is hell" consider our highways, they are an even worse hell.

Don't look backward too much—you may head that way.

Lansing tax proposal draws fire

To Editor:

Are there people who read your paper that work in Lansing? Do they know that a law is under consideration to pass a Lansing city income tax of all people working in Lansing—whether they live there or not? Are they aware that we are not represented on the city council? If this law is passed, we will be taxed without representation.

If memory serves me correctly from school days, the American Revolution of 1776 was fought because of TAXATION WITHOUT REPRESENTATION, and this is what we will get if this law goes into effect.

We have a federal income tax, but we have a man in Washington representing us. We can vote for him. We have a state income tax, but we have a man in Lansing. We can vote for him. But there is no one on the city council we have voted for—no one to represent us except ourselves. Call city hall and ask for your representative from your district. Call collect if it is long distance. City hall won't accept. We have no one there.

We work there, yes, but we are not allowed to vote there. We also spend some of our money there. We do not have full use of the city library because we are non-residents. The city police are there if you have an accident. We do not get our trash picked up by the City of Lansing.

We are paying a portion of our wages to the City of Lansing just for the privilege of working there.

A petition will do no good. The residents of Lansing will vote against us because it will mean a raise in their own taxes.

I urge your readers to write, call or anything to let the city council know how we non-residents feel. We have no one but ourselves to look out for us. IS

TAXATION WITHOUT REPRESENTATION FAIR? If it is, we would now all be English subjects instead of Americans.

North Star Bus Lines report agency loss

To Editor:

We have been advised by Mr Roy Spicer, our present commission agent, that he intends to close his gas station the 6th of November 1967, necessitating our finding a new agent.

This has been a constant problem for both us and the other carriers who are serving, and who have in the past served St. Johns with bus service. We have spent many days and hours canvassing St. Johns to locate an agent, who is financially sound and can provide bus parking, which would not interfere with on-street parking meters; and through highway traffic, without success.

Effective Nov. 5, 1967 we will no longer have an agency to quote bus service or receive package express consigned to or from people or business firms in St. Johns, Mich. Our buses will operate on US-27 and will stop for passengers only when flagged. Our schedules will appear in the Clinton County News for the convenience of passengers desiring bus transportation.

We deeply regret this drastic action, but we are at the end of the road as far as a suitable location of US-27, which would serve us and the other carriers operating on M-21. It is necessary that all carriers use the same facility in order to interchange bus passengers and express.

Any help you can give us to remedy this situation, which will See LETTERS page 15-B

MICHIGAN MIRROR

WSU: it grew!

BY ELMER E. WHITE Michigan Press Assn.

These are the ingredients which produced Wayne State University:

A handful of students, five doctors determined to improve medical instruction, and a building leased from a newly created Harper Hospital.

In 1868 the school was called the Detroit Medical College. One year after its founding, degrees were awarded to a few students who had previously studied medicine at other institutions.

One hundred years later Wayne State University has 31,000 students enrolled in degree programs and another 26,000 affiliated through cooperative extension courses and programs.

Currently there are 476 medical students and 482 students enrolled in medically-related fields in the School of Medicine.

INCORPORATED WITH \$30,000 from contributions of 34 leading Detroit citizens and businesses, WSU's "book value" now exceeds \$95,000,000.

The institution has undergone five name changes during its 100 year growth. It began as the Detroit Medical College. In 1885 the name was changed to the Detroit College of Medicine. In 1913 it was renamed the Detroit College of Medicine and Surgery.

In 1918 the college became a publicly-controlled medical school, and responsibility was assumed by the Detroit Board of Education. In 1933 the college was made a part of the city's university organization known as the Colleges of the City of Detroit.

The name, Wayne University, was born when the separate city colleges of law, pharmacy, liberal arts, education and medicine were combined into one university named after the Revolutionary War hero Gen. Anthony Wayne.

At that time, the colleges of engineering and graduate school were also added.

FULL CONTROL BY the State of Michigan began in a three-year transitional period in 1956. In April 1959, a six man board of governors was elected to govern WSU.

Dr. William Rea Keast was inaugurated in 1966 as the fifth president of the university. Curricula on the mid-city campus encompass every major field of study in 10 colleges and schools.

More than 75 per cent of all students combine studies with employment to help pay educational costs. Classes are offered from 7:30 a.m. to 10 p.m. to make work-study arrangements easier for students. The campus now covers 173 acres, and WSU employs more than 6,000 pro-

fessional and skilled staffers.

CENTENNIAL OBSERVANCES during the 1967-68 school year will be keyed to the theme, "The Urban University and Urban Society." Symposiums, dedications, salutes, conferences, presentations and commencement programs will honor the university's 100 years of service to Michigan.

It will be interesting to follow progress during WSU's second century. Growth and accomplishments possible from such humble beginnings in 1868 should give Wayne State University a head start on the next 100 years.

PAYCHECKS ISSUED to Michigan workers now reflect the new state income tax and may cause citizens to wonder just where their tax dollars are being spent.

Latest figures show how Michigan compares with other states.

The "average" Michigan citizen pays \$447 per year for state and local government services. This compares with a \$423 per capita figure across the nation. The per capita tax in Alaska is \$923; in South Carolina it is \$268. In Ohio it is \$366; in New York it is \$530.

Biggest tax bite is for education. Michigan rates high on the

list, spending an average of \$206 per capita for state and local schooling. The U.S. average is \$170. In Ohio, only \$157 is spent for education. In Illinois, the total is \$162. California and New York spend \$219 respectively. Some of the less populated states have higher per capita averages, but these totals do not give a significant comparison.

HIGHWAYS TAKE the second big bite of the tax dollar, but Michigan, with \$53 per person, ranks below the national average of \$65. The national average is raised by large sums spent in sparsely populated states which are just beginning highway programs. Wyoming, for instance, spends \$229 per person on roads, and Arizona spends \$210.

Despite the unpleasantness of paying taxes and the outlook for more of them, there is some consolation in the fact that Michigan citizens are not taxed at a rate higher than others and that much of our money is invested in what should be the most productive place possible: education.

The problem is how to get more value for money expended and how to keep government programs limited to areas where it can be effective for public benefit.

cerning city income taxes and NON-residents.

Mr Webster defines TRIBUTE as a payment paid by one ruler to another as an acknowledgment of submission or as the price of protection; also the tax levied for such payment. An offering, gift or the like, manifesting gratitude.

This I think is a good description of tax approved by the group of people directly benefiting from it and imposing it upon others for questionable benefits, who have absolutely no voice in the enactment of, or the disbursing of funds raised by this tax.

This is contrary to the concepts that this country was founded on; it is TAXATION WITHOUT REPRESENTATION, even though, as I understand it, the state acts as a collection agency, making an imposing picture, but not until the tax is approved by the city.

I feel that non-residents are being taxed unjustly without representation and that just because this law has been written into the state constitutions, possibly as a compromise, it does not make it a just law. This I feel is a step in the usurping of our rights guaranteed us as a result of the Revolutionary War and that it should be the concern of everyone and protested vigorously.

Once a precedent is set, who knows; today, this tax; tomorrow NO PROTEST.

Truly yours, WILLIAM R. ALDRICH Maple Rapids

The "Low Down" From the Congressional Record

By Joe Crump

What would you do about S. Viet Nam?

Rep. Carl Albert (Okla.) ... I have often wondered what would be left of the acrimonious debate on Viet Nam policies, if all those who throw alternatives and criticism into the air suddenly had to trade places with Lyndon Johnson ...

"Some of the questions (are asked) by the editor-emeritus of the Sioux Falls, South Dakota, Argus-Leader, F. C. Christopherson in a column entitled, 'If Your Were L. B. J. What Would You Do?' ... and I insert it into the Record." (The condensed article follows):

Let's do a bit of assuming this morning. Assume that by some odd quirk of fate you-yes, you-are thrust into the White House with full authority to act on Vietnam.

NO LONGER CAN you say if you were LBJ you would do this, in effect you are LBJ. You can't erase what has been done in the past.

You may have been saying that either we should get out of Vietnam or hit harder. But that isn't the type of command you can give the military commanders in Vietnam. You must specify.

The decision is yours. Assume you decide we should get out. You telephone the military commanders to pack their bags, put their troops and equipment on ships planes and hurry home.

Now what happens? The South Vietnamese are no match alone for the combined forces to the north. In come the marauders to punish those who have been on the wrong side. The blood bath could be tremendous and perhaps would be despite some effort to exercise restraint.

And what of the reaction in Thailand? In India? In the Philippines? In Australia? In southeast Asia generally? What about West Berlin? What about other areas that have acquired a respect for American might and will?

A look into the past

ST. JOHNS FACTORY DISTRICT IN YEARS BACK

St. Johns had a factory district back in the early 1900s, just as it has now. This picture was believed taken shortly after the turn of the century and was reproduced on a postal card. In the left background, with smoke from a smokestack partially obscuring a water tower, is the former St. Johns Table Co., which later was taken over and used by the Hayes Wheel Co. At the right, in the place now occupied by Advance Castings and Burton Mixer, is the St. Johns Foundry Co. There were stockyards, too, in the same location now operating as Wolverine Stockyards.

Now we have aroused Red China more than ever. Russia is on the spot because it is regarded as the foremost defender of communism in the world just as we are appraised as the major supporter of democracy.

All right, then we decide to go all out to win the war. Our airplanes zero in on all of the military targets. They crack at Hanoi and the big harbor where many nations, including some who are supposedly our good friends, are unloading supplies. We sink ships, we kill literally thousands of people.

the attitude of the various nations whose ships we damage in the harbor.

DOES PRESIDENT Charles de Gaulle of France decide that this is the time to assert himself? With President Johnson, it isn't a matter of assumption. Instead of assuming, he has been doing what he and his primary advisors deemed wise.

The purpose of this review of the situation in Vietnam is not so much to present an answer as it is to emphasize the problem. "What would you do if you were LBJ?" My answer: "I don't

know. Perhaps I would do what LBJ is doing."

A GRASSROOTS COMMENT Critics complain that they can't offer suggestions without access to data available to the President. However, critics do have access to the numerous reports of those who have spent considerable time in South Vietnam. Few, if any, suggest withdrawal. Most report our progress, or lack of it, but no solution.

Your congressman welcomes any meaningful suggestions. Write him, -J. C.
