

St. Johns man scheduled for kidney transplant

By SHIRLEY KARBEN
News Staff Writer

Richard Shupp of St. Johns is scheduled for kidney transplant within three to six weeks at University Hospital in Ann Arbor. His brother, Bill, will be the donor.

Shupp was a local TV serviceman in St. Johns prior to his illness. He and his wife Phyllis and four daughters, Debbie, Terry, Renee, and Diane, live at 504 W. Park Street. They have lived here since his discharge from the Air Force three years ago.

Shupp has been ill with nephritis for the past six years, but his condition became more serious three years ago when he and his family returned home from Japan. He caught a severe strep-throat infection and when they failed to kill all the streptococci infection it gradually caused an enlargement of the heart and destroyed the blood vessels going through the kidneys.

He was in Great Lakes Naval Hospital in Chicago two years ago, and since that time he has spent more time in the hospital than he has out. Shupp had a nephrectomy (removal of both kidneys) and other repair work done in a four-hour operation on Oct. 28. Because of his weakened condition the doctors are now trying to build him up for the transplant operation.

BILL SHUPP, 29, of Nashville, Mich., Richard's brother, will donate one of his kidneys. A donor must have the same blood type, be under 55, and all organs of the donor must be in excellent condition. It also helps if they are related. Doctors have found patients will accept relative tissue better. It doesn't matter if the donor is a male or female. A kidney donor is usually out of the hospital in two weeks and can then lead a normal life with one kidney. The operation requires a trained team of doctors, and surgery is performed simultaneously in adjoining rooms. Richard Shupp will be in surgery for only about 30 minutes to receive his brother's kidney. The new kidney will sometimes function on its own.

possible for a period of five years.

At present the kidney machine is doing the job for Shupp's kidneys. He uses it for approximately six hours at each session. This involves a "shunt hook-up." They place two needles in the arm and as the blood is drawn off it runs through a tube thousands of times in a saline (salt water) solution, and purified, it then is returned to the patient. At this time if the blood indicates a deficiency (iron, protein, etc.) the doctors can place it in the blood supply. This helps build-up the patient's strength.

This type of machine is also used for patients who have taken overdoses of medication or poison to purify the blood.

At University Hospital they now do an average of two transplants per month. Patients are selected by doctors to be candidates for a kidney transplant. Some patients use the kidney machine while others have the transplant.

Shupp has also been hospitalized for heart failure three times. Through all these difficulties Mrs. Shupp says "He has a strong will, and his spirits are good." Family members take turns caring for the children so she can spend as much time as possible with her husband. Mrs. Shupp says "We sure hope he can make it home in time for Christmas."

DeWitt charter township plan fails by 99 votes

VALLEY FARMS—A proposal for DeWitt to become a charter township with the status of a municipality was turned down by a 99-vote margin last Tuesday as 76 per cent of DeWitt Township's eligible voters cast their ballots.

The proposal lost by a total of 1,223 votes in favor and 1,322 votes opposed. The municipality status would have given charter township residents a larger representation on the township board and the board wider taxing powers.

The township also had a contest for two township board trustee seats, with Republicans William A. Johns and Theodore L. Powell winning out over Democrat Milton J. King. Johns had a total of 1,757 votes, Powell 1,813 votes and King 1,331 votes.

Running uncontested, Oliver S. Angell, a Republican, was re-elected township clerk with 2,039 votes.

Here's the precinct by precinct vote on the charter proposal and the candidates: (figures are for Precincts 1, 2, 3, 4 and 5 and absentee voters, in that order): Charter proposal: 239-345; 197-194; 339-316; 180-190; 215-226; 53-51. Trustee King, 302, 275, 279, 208, 242, 25; Powell, 454, 235, 476; 243, 325, 80; Johns, 438, 235, 449, 228, 318, 89. Township clerk: Angell, 506, 277, 510, 280, 366, 96.

NEIGHBORING BATH Township had two proposals before

the voters and both passed. An additional one-mill tax for five years, to be used for fire equipment and a fire building and site fund, passed 727-599, and a proposal legalizing sale of liquor by the glass squeaked through 689-688.

The fire tax passed in both precincts and was OK'd by absentee voters. In precinct 1 the county (Story continued on Page 3-A)

ROBERT H. WOOD

Wood new mayor

Newly elected city commissioner Robert H. Wood was named mayor of the City of St. Johns Monday night by fellow commissioners as the city fathers held their organizational meeting.

Mrs. Jeanne Rand was named vice mayor. Wood, local attorney who lives at 107 N. Lansing Street, was elected to the commission last week along with John W. Hannah. The names of Wood and Charles Coletta, mayor for the past two years, were submitted for the mayor position, but only Wood's reached the formal nomination stage, and commissioners then named him mayor unanimously.

Several other items on the agenda pertained to reorganization. Wood's resignation as associate municipal judge was accepted, and St. Johns attorney James Moore was appointed to that position effective immediately.

Coletta and former Commissioner Rex Sirrine were appointed to serve on the county board, along with City Clerk Tom Hundley and City Atty. William Kemper, both of whom are appointed by the city charter because of the offices they hold. The four have only one more meeting to serve before the new board of supervisors takes effect Jan. 1.

The commission established the second and fourth Mondays of each month as the date for regular commission meetings. They'll normally take place at 7:30 p.m. in the municipal building commission room.

In a bit of action pertaining to the last city commission, commissioners' pay for the past year was approved for payment for their year of service through Oct. 31. Rex Sirrine will receive \$47 (he drew the rest of it in advance); Gerald Irzer, Charles Coletta and Mrs. Jeanne Rand will get \$72 and Dr. Herb Oatley will receive \$15. Oatley was only a recent appointee to the commission. Commissioners are paid at the rate of \$3 per regular meeting.

Varsity Night this Saturday

The St. Johns Redwing Marching Band will present its eighth annual Varsity Night program this Saturday, Nov. 16, at 8 p.m. in the high school gym. The band will present many of its favorite marching and concert numbers in a concert-type of program.

A final feature will be the exciting spiritual, "Battle Hymn of the Republic," performed by the concert choir and the marching band. The vocal department will have a part in the program, and there will be individual acts.

Wrapping up the election

18-mill fixed millage 4-3 loser

The Clinton County proposal for an 18-mill tax limitation with fixed amounts for the schools, townships and county got a rude set-back from voters last week by a roughly 4-3 margin.

The final tally was 6,234 vote in favor and 8,636 votes opposed.

Only five out of 30 regular and absentee voters precincts failed to turn the proposal down. DeWitt City voted for it by a 13-vote plurality, Ovid 2 passed it by four votes, it passed by two in the Duplain absentee voters precinct, and it was passed by 40 in the St. Johns absentee voter precinct. In the Bath absentee voters precinct, the proposal got 20 votes for it and 20 against it.

Had it passed, the new millage figure would have been three mills higher than it is at present, but the county tax allocation board would have been shelved for at least two years.

This was the single big advantage, proponents of the new millage tried to point out, because recent years have seen quite a squabble on the allocation board over what unit gets what millage out of the present 15-mill limitation.

The new proposal wouldn't necessarily have meant any increase in taxes, particularly for the schools, because with a higher allocated tax, the extra voted school tax would have been lower (all other school operational factors being equal).

SCHOOL AND COUNTY officials would also have been better able to plan their budgets, proponents said, because they would have known in advance how much millage would be allocated in a given year.

The defeat of the proposal means the allocation board will reconvene again next spring and try to thrash out some fair method of dividing 15 mills among the county, schools, townships and intermediate school districts.

Here's how the vote on the fixed millage went in each of the precincts last Tuesday (yes-no):

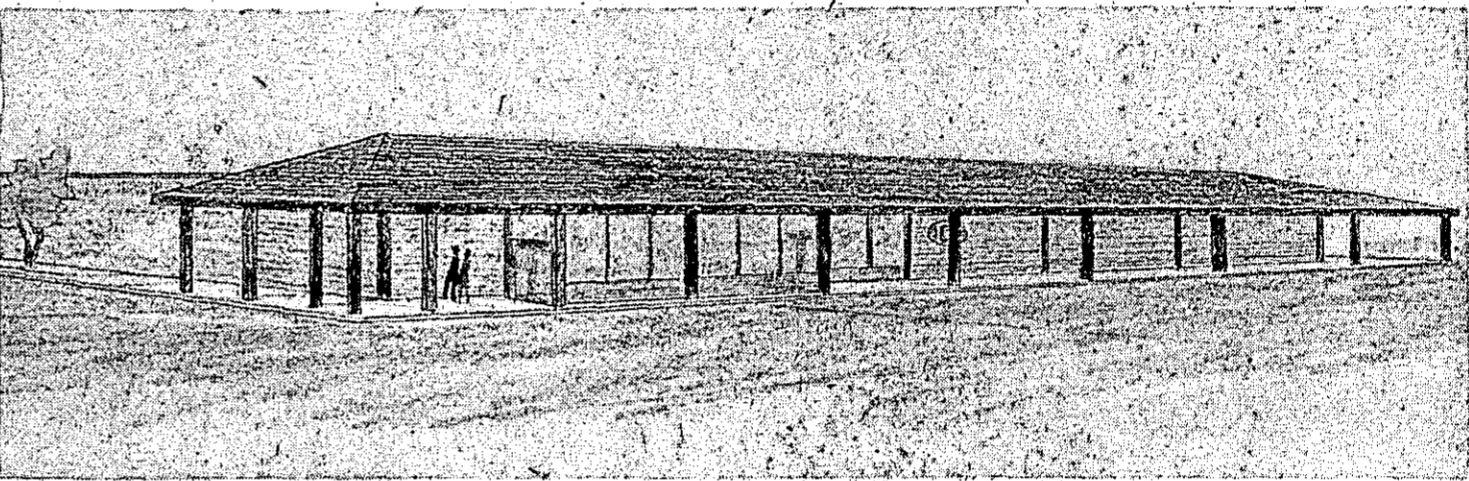

- Bath 1, 236-357; Bath 2, 248-331; Bath absentee voters 20-20;
- Bengal 131-236; Bingham 245-306; Dallas 292-394; DeWitt 1, 239-378; DeWitt 2, 147-245; DeWitt 3, 279-380; DeWitt 4, 140-244; DeWitt 5, 187-282; DeWitt absentee voters 50-57; DeWitt City 294-281; Duplain 299-416; Duplain absentee voters 30-28; Eagle 215-389; Essex 284-293; Greenbush 249-289; Lebanon 71-139; Olive 275-385; Ovid 1, 276-317; Ovid 2, 226-222; Riley 122-239; Victor 223-233; Watertown 1, 274-341; Watertown 2, 235-270; Westphalia 255-424; St. Johns 1, 314-492; St. Johns 2, 260-441; St. Johns absentee voters 137-97.

ANDY'S IGA STORE GETTING NEW LOOK ON NORTH US-27

4,500 square feet added

Andy's expansion nears completion

The third major expansion of Andy's IGA Shopping Basket store on North US-27 is nearing completion, owner Dorr M. Anderson reports, and a grand opening will be held in the near future.

A 4,500-square foot addition had been made to the building, and the front of the store has been turned around to now front on the southwest side toward the Redwing, Fane's and a spacious parking area.

The new store will feature automatic-opening sliding glass doors, five new check-out counters, more and brand new frozen food cases and produce and meat coolers and carpeting on the floor in the front one-

third of the building.

"This is the third time now that we've put money back into St. Johns for the benefit of St. Johns and the customers who have helped us make money through the years," Anderson said this week. "We're doing this so people can enjoy a first-class market."

Anderson has been in the grocery business since 1923 and has been in St. Johns since 1937 when he purchased the Burk Food Market. Five years later, in 1942, he bought the Smith Shopping Basket.

THE HIGHWAY SHOPPING Basket on North US-27 was built in August 1948. The original

building contained 3,000 square feet of space, and since 1953 two additions had been made to it, bringing space up to 6,400 feet.

The new addition of 4,500 square feet enlarges the store again by more than one third. Of the total 12,900 square feet now in the building, 2,800 feet of it is "back room" storage and working space.

Son Rick Anderson, 20, and a graduate of Michigan State University, will be manager of the St. Johns store, and the elder Anderson will take a supervisory role in this and his IGA store at Ithaca.

Considerable work remains to be done before Anderson's pro-

ject is fully completed, but the swung-around store has been in use by customers for a couple of weeks. Carpeting in the front of the store was put down over the weekend, and new tile floor along the west side of the addition has been put in.

Anderson said he expects most of the final detail work will be completed in time for his Thanksgiving sales promotion starting Nov. 18. He said a new pricing scale is going into effect and will continue throughout the year and throughout his line of foods and merchandise.

"We have quite an investment here, and in order to get the volume necessary, we'll have to sell groceries on a highly competitive basis," he said. "We've adopted a pricing level that will be the lowest in the area, and it's a discount program all the way down the line."

A GRAND OPENING of the new store will be held after all the details of construction are wrapped up, but Anderson said it would be "soon." Special prices, prizes and manufacturer's demonstrations will be featured. The new addition to the building was designed by Anderson's eldest son, Dorr Anderson Jr., who's an architect with the consulting engineering firm of DeLew and Cather and is in charge of the firm's Northwest office in Seattle, Wash.

AUCTION CLEARS \$300 — An auction sale last Saturday resulted in a profit of about \$300 for the improvement of the Rhuobottom Center building at Krepps and Alward roads.

Citizens asked to help

Gutter cleaning planned

St. Johns city fathers are soliciting public cooperation in an effort to get street gutters cleared of leaves, mud and other debris before winter sets in.

The city commission Monday night instructed its small city crews to pick up such debris whenever residents along a block one side of the street can gather the debris from the gutters into a single pile.

Charles F. Bensinger, St. Johns Department of Public Works superintendent, indicated city crews should be able to pick up the piles within a couple of days of being advised by the residents.

The commission asked residents of the city to work together with neighbors on the block to clear out the gutters along the streets. When a block is cleaned up on one side of the street, one of the residents should call the city offices and leave word that they have a pile of debris ready to be picked up.

CITY COMMISSIONER Dr. Herb Oatley called the current conditions in the gutters around town "a serious situation." He introduced the subject for consideration, pointing out the problems the choked gutters will cause when there is ice and snow in them and when these winter elements melt.

St. Johns has not maintained a street cleaning program during the past summer because of an acute financial crisis. Several city employees were laid off because of finances, and for the same reason some pieces of city equipment could not be main-

tained to do the work.

With no sweeping program during the year, sand and dirt — and now leaves — filled the gutters and is now becoming solidly packed. Dr. Oatley said the oncoming winter with its freezing and moisture make the situation all the more serious.

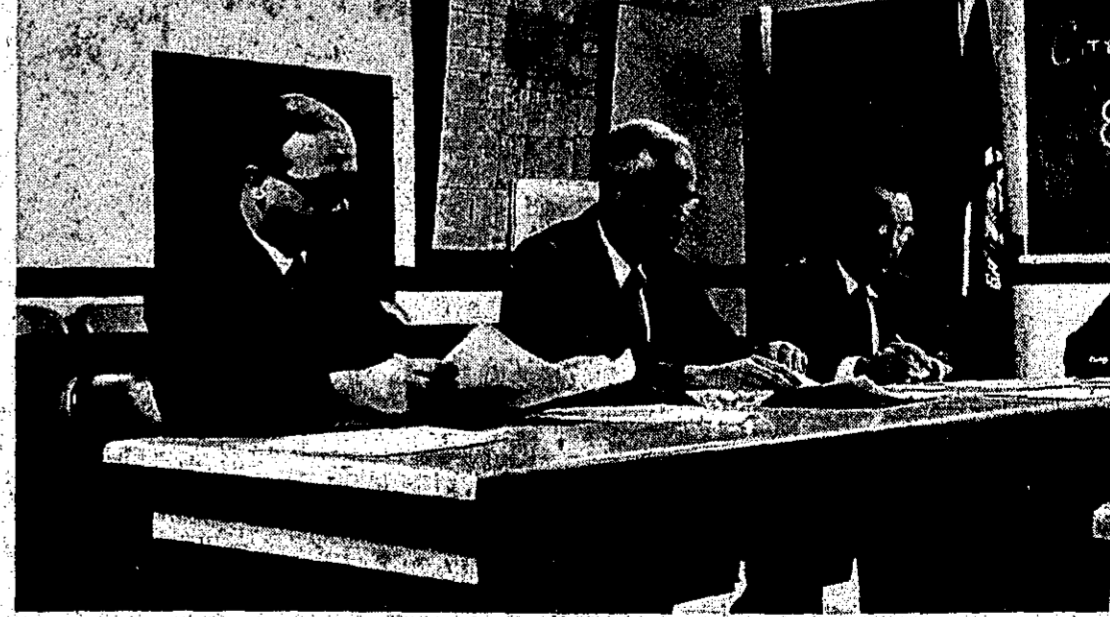

He inquired of the other commissioners and of City Manager Harvey Weatherwax what might be done under the circumstances. Couldn't some special arrangements be made to clean the gutters before?

Weatherwax said the city's end loader, the only piece of

equipment that can be used on city streets and that can do the job of cleaning the gutters, is presently down for repairs, and repairs aren't expected to be completed for about 10 days.

He said the only other piece of city equipment that could push the debris along the gutters and into piles would be a small tractor used at the city sanitary landfill, but it is a crawler type tractor whose steel treads would tear up city streets.

There was a suggestion made concerning possible rental of necessary equipment, but this solution was quickly passed over.

New City Commissioners Robert Wood (left) and John Hannah (right) were seated at Monday night's commission meeting. At center is Dr. Herb Oatley, appointed commissioner only a couple of months ago. Wood was elected by the commission as mayor of the city.

This is what neighbors are for

What are neighbors for if it isn't to help out? That's how the neighbors of Gene Pettigrew of 1493 E. Hyde Road feel, and that's why a group of them got together last weekend to pick some 60 acres of corn for Pettigrew, who is ill with cancer.

Picking the corn were Jim Graham, Ronnie Hubbard, Carl Burk, Fred Barton, Ron Hartinburg, Roy Glnky, Keith Grubaugh, Roy Winner, Dale Dumond, Larry Dumond, Robert Taylor, Gary Lambert and Carroll Clark.

They picked 35 acres of corn Saturday, working from around noon until after dark, and some of them came back Sunday to finish another 25 acres. George Crowell stood by at Gower's Elevator in Eureka to take the grain.

Other people have been a big help, too, Mrs Pettigrew gratefully acknowledged this week. Duane Bunce combined beans for the Pettigrews a couple of weeks ago, and Richard Taylor has been milking the 23-cow dairy herd on Friday evenings so son Mike Pettigrew can play in the St. Johns football games.

The elder Pettigrew recently underwent surgery for cancer at University Hospital in Ann Arbor, and he'll be there for about nine weeks yet while taking cobalt treatments.

"Everybody has done so much for us," Mrs Pettigrew commented Tuesday, "and we can't tell you how much we appreciate it."

Award contracts on school equipment

Equipment bids totaling \$59,142.88 were awarded by the St. Johns Board of Education last Wednesday evening, aiming toward completion of the new St. Johns High School.

Ideal Seating Co. of Grand Rapids had bid \$21,355.74 for 704 auditorium seats, fully upholstered, along with 60 fold-away desk tops so the auditorium can be used for study purposes. Ideal got the contract.

Don An-Way Co. of Waupun, Wis., was awarded the contract for 2,454 bleacher seats and aisle treaders for the new gym with a bid of \$27,355.74.

Henry T. Hutt Co. of Portage bid \$3,481 for six basketball backstops with motor-driven lifts and was awarded the contract.

Broad-Head-Garrett Co. of Cleveland, Ohio, will supply equipment and furniture for the drafting room on a bid of \$6,950.40.

THE NEW, HIGH school is getting a gift from the architect and a tile supply firm, the board learned last week. It will be the "Redwing" emblem set in mosaic tile at the entrance to the gymnasium.

The school board had discussed the emblem some time ago but had decided against it because of the cost involved. Wednesday

architect Guido Binda told the board his firm and the Grand Rapids Tile and Mosaic Co. wanted to give the mosaic emblem to the school.

The school board set Dec. 7 at 2 p.m. as the time for a public auction at which will be sold school bells, furnaces, toilet fixtures, pumps and other miscellaneous equipment removed from the rural schools no longer in use. The auction will be held at the school bus garage on West State Street in St. Johns.

The board will begin holding two meetings a month, starting next Thursday, to discuss school construction progress and equipment needs.

The liquor by the glass proposal carried on the strength of a 389-281 vote in Precinct 2, whereas Precinct 1 voters turned it down by a 281 yes to 379 no vote and it lost on absentee ballots by a 19 yes to 26 no count.

Republicans Richard A. Bragdon and Ernest Trofatter were reelected as Bath trustees, beating out Democratic challenger Daniel A. Carleton. Bragdon had a total of 749 votes, Trofatter 782 and Carleton 712. Bragdon got 397 votes in Precinct 1, 318 in Precinct 2 and 34 absentee votes. Trofatter got 403 in Precinct 1, 346 in Precinct 2 and 33 absentee votes. Carleton had 311 votes in Precinct 1, 383 in Precinct 2 and 18 on absentee ballots.

OLIVE TOWNSHIP voters narrowly gave approval to a liquor by the glass proposal, too. It passed by a vote of 347-334, a 13-vote margin. Mrs. Agatha Simon received 488 votes for township clerk, and Gale Boron received 477 as trustee. Mrs. Simon reports 692 votes cast out of a registered voter number of 762—a 90 per cent turnout.

The county canvassing board has taken charge of the voting record books, and no report was immediately available on votes for other townships' candidates for various offices. There were no contests, other than the ones in Bath and DeWitt Townships, for any of the offices, and no other township had proposals before the voters.

Co-op gutter cleaning proposed

(Continued from Page 1-A)

when Weatherwax pointed out such equipment rents for between \$20 and \$30 per hour.

DPW SUPT, BENSINGER said that once the end loader was back in service, it could certainly be put to use cleaning the gutters, but he said it would take at least three weeks using the loader and four trucks to get the job done on all streets.

It was City Atty. Bill Kemper who suggested an appeal to the public and a cooperative venture to possibly solve the problem. While commissioners admitted that many blocks will not be taken care of because of lack of individual and block cooperation, they said any improvement in the present picture will be worthwhile.

Weatherwax pointed out that the city's backhoe tractor could be used to pick up piles of debris and load them onto trucks, but he said it did not have the power nor is it designed to push leaves, dirt and gravel along the street and into piles. That's why the job of making the piles will have to be done by individual and groups of citizens.

Weatherwax indicated there must be only one pile on each side of the street along a block. He said the city crew, small and with many other jobs to do, too, would not be able to stop in front of each individual home to pick up small piles.

IN OTHER BUSINESS Monday night, the city commission formally approved a fire contract with Victor Township providing for a \$200 a year stand-by fee and a \$170 charge per fire run made into Victor Township. At their Oct. 28 meeting the commission had adopted agreements with Bengal, Greenbush, Riley, Essex, Bingham and Olive townships to provide fire protection for varied specified amounts.

City Manager Weatherwax reported only one bid had been received pertaining to operation of the city sanitary landfill north of town, and he asked that action be delayed pending clarification of one of the figures in the bid which he thought contained a typographical error. The commission table s sev-

eral items on their agenda of business. Included were an application for an SDM license from Arnold's Pay - Less Discount Store and action on proposed Ordinance 220 which would rescind licensing of electricians. They also delayed until the next meeting appointments of one member to the board of review, two members to the board of appeals and four members to the planning commission.

The tabling was done at the suggestion of City Atty. Kemper. Kemper said that although he felt holding of the meeting on a federal holiday (Monday was Veterans' Day) was perfectly legal, he suggested that business with a possible long - range effect should be delayed just in case there should be some legal turmoil over holding the meeting on a holiday.

THE COMMISSION did, however, send to the city planning commission a request from William Kirby for rezoning part of block 105 of the original plat (located on US-27 north of street) from industrial to regular commercial.

voiced a complaint about full and overflowing trash baskets on Clinton Avenue but admitted that the messes he's seen around some baskets may have been unusual instances. Commissioner Oatley called the street a "mess" too.

City Manager Weatherwax and DPW Supt. Bensinger said the baskets are emptied every Monday, Wednesday and Friday morning, and unless the weather prevents it, the street is also swept by the city's sweeper. (Weatherwax said the sweeper is another piece of equipment that is operable only part-time, and Hannah got a laugh when he asked whether the city has anything that's working real well. Weatherwax said no.)

Hannah said he thought the three-times-a-week pick-up of trash from the litter baskets should be sufficient. Weatherwax said it would be done more often except for the time-manpower squeeze.

The commission also Monday night approved a request from the Payamo-Westphal schools for permission to solicit advertising for their high school year-book.

Lawsuit against city dismissed

A 5 1/2 - year - old lawsuit against the City of St. Johns was dismissed Friday in circuit court here by visiting Judge Michael Carland of Shiawassee County. But an appeal to the dismissal is expected.

The suit was brought by Bruce Grubaugh and revolved around a March 14, 1963, auto accident at Ottawa Street and Floral Avenue on the north side of town. Grubaugh, 20 at the time, was critically injured and lost the sight of both eyes. He is seeking \$650,000 in damages from the city.

The suit charged the city with negligence in not posting the T-shaped intersection and in not properly grading the then-graveled street.

Atty. Timothy M. Green, who has handled the case for the city since it was taken to court, informed the commission by letter of the dismissal of the case. He told them in person Monday night, however, that he expected an appeal to the Michigan Court of Appeals because the dismissal had been on a technical point.

He also urged the city to study and upgrade its liability insurance, because, he pointed out, the amount Grubaugh is seeking is in excess of the amount of insurance the city now carries.

It's always the results that count—not plans or promises.

Woman's Club gets peek at Mrs Rasey's antiques

Peg Rasey, collector of antiques and owner of the Banner Grange, hosted 30 members and guests of the St. Johns Woman's Club Nov. 6 at 1:30 p.m. As each arrived, they were warmed at the huge fireplace and invited to the kitchen where they were seated at the trestle table for refreshments of old fashioned sugar, molasses and oatmeal cookies, served with tea or coffee from antique tin cups. The committee for arrangements were Mrs Oliver Montague, Mrs Floyd Robinson, Mrs Lloyd Harris and Mrs Lyle Fenner.

Mrs Winchell Brown, chairman of the day, introduced Mrs Rasey who presented her primitives of wooden antiques. Her "Junk to Treasures" were displayed with comments as to how they could be used for home accessories, telling the club women to use their imaginations. "Know the value of antiques," she said, "and with the excellent books and price listing available, you'll know what you are buying or selling." Club members enjoyed reminiscing in viewing the many "treasures."

Prior to the business meeting Mrs Goldie Brooks accompanied the club members as they sang America, Star Spangled Banner and The Battle Hymn of the

Republic.
The business meeting opened with Mrs Marlon Walling, president, leading the members in praying the club collect. Mrs John Rumbaugh, home life and religion chairman, gave a reading, "Those 1778 Rabble-Rousers."
Comments and information were related to members by those having attended the West Central District Convention in Ovid, Oct. 24. Mrs Zalo Woodford Schroeder spoke at the luncheon on the General Federation of Women's Clubs Crusade for Morality in Mass Media. Her address, titled "Obscenity and Pornography," revealed the need for the commitment of the club women of America who believe these situations have undermined the social structure of our society and are concerned over the justification and glamorization of illicit sex as depicted in motion pictures, the emphasis on immorality of all types and the profanity, all of which present dangerous examples to our young people; and we are concerned over the surf of crime and violence depicted in television and radio programs which often portray the criminal in an appealing manner, and also show specific criminal acts so that these can be (and are) duplicated by criminally inclined viewers; and we further are concerned over the indecent sex magazines filling the newsstands which are available to any sub-teen or teenager who has the purchase price.

Members also voted to give their annual scholarship to send a girl to Girls' State in Ann Arbor next summer. This project is in cooperation with the American Legion Auxiliary.
The next meeting Nov. 20 will be hosted by Mrs Lawrence Fish, Experiences of their "trek" to British Honduras will be related by Mrs Charles Hazle, Mrs James Cornell and Mrs Eugene Friesen.

The bride selected a sleeveless street-length dress of white satin accented with rhinestones around the neckline and front bodice. Her headpiece was fashioned of white satin cabbage roses with a short veil. She carried a bouquet of white and yellow mums.
Neil Rossow, nephew of the bride, and Cris Gibson, nephew of the groom, acted as ushers.

DeWitt man finds hydroplane ride to Denmark fast, curious

DeWITT—Jim Nichols, son of Mr and Mrs Mahlon Nichols of West Chadwick Road, R-2, DeWitt, spent the month of October touring Sweden, Finland and Denmark while on a European trip to visit friends in Sweden and Germany.

He left Sept. 28. He writes he has met some wonderful people in the European countries, and in a letter last week he described some of his experiences, including a hydroplane ride.

"I crossed the water from Malmo, Sweden, to Copenhagen, Denmark, by hydroplane. The trip took approximately 35 minutes, whereas it takes 1 1/2 hours by boat. To walk about inside the boat you just had to hang on to something because the deck was continually heaving. "When I arrived in Copenhagen, my first thought was to jump a train and make for Germany. I nearly forgot I would have mail at the express office. Thanks to everyone for writing me.

While in Copenhagen I went down to the harbor to see the Little Mermaid, and while there I saw a boat loaded with dock workers coming across the harbor in my direction. When it docked I gestured to the deck hand that I wanted to come aboard. When he nodded his head, I jumped aboard and so found myself on the other side. I planned on getting a close look at a Russian ship, only a fence prevented me from doing so.

"AFTER WALKING around I came to a dining hall for the dock workers. I think it could hold over a thousand men. I had a very good meal there.

"My train trip to Germany was great. I seem to have left all the bad weather behind me in Sweden. I traveled through

Denmark by night and arrived in Germany just as the sun was coming up. The countryside here is by far the most beautiful I have seen. There is so much to see I couldn't take it all in—the vineyards, canal boats, castles, and the trees turning color, and much more.

"I'm staying at Hans' home now, and from my bedroom window I can see a castle setting on a small mountain. Mountains form a half circle around the village Hans lives in. I've explored one castle and a ruin today. I spent half the day walking up the mountain to the castle."

Rev. Hanover and Buddy give Bible stories

A week of special services at Salem United Methodist Church closed Sunday evening, Nov. 10, with Rev. Marion Hanover of Benton Ridge, Ohio, and puppet Buddy Woodenhead as evangelist. Each evening Rev Hanover and Buddy gave a story from the Bible with Buddy portraying the part of a Bible character. Mr Oliver Beck was song leader and special numbers in song were given by Miss Betty Shinnberry, Miss Coral Johnson, Mrs Gayla Phillips, Mrs Dottie Snyder, Miss Sharryl, Terrie and Patty Conline. Mrs Mary Schlarf was organist with Mrs Mary Phillips and Mrs Harriet Schmidt at the piano.

Rev Hanover and Buddy were guests on Monday for assembly at the rural St. Johns schools. Salem United Methodist WCS will hold election of officers at their regular monthly meeting Thursday evening at 7:30 at the home of Mrs Theodore Purves. Thank offering boxes are to be brought to this meeting. The program "Gratitude and Responsibility" will be presented by Mrs Mary Schlarf. Mrs Dorothy Moon is co-hostess.

The Ovid-Elsie Band Boosters held their annual smorgasbord at the High School Sunday with a record crowd of 865 registered to eat. The cafeteria was decorated in the school colors of blue and gold. The theme that was used was "Vote for your Band." Mrs Frank Winkler decorated a large cake for a centerpiece on the serving table. The cake was very timely with an election ballot inscribed on the top.

Due to the efforts of Mr. Don Thayer and Mr Iseler, band directors, Mrs Orlo Mead Sr. of the hot lunch program, and the fine cooperation of the band booster committee members and all who assisted in the work, the smorgasbord was a great success. The general committee was composed of Mrs George Keck, Mrs Francis Johnson, Mrs Lawrence Peters and Mrs Jack Miller.

Trees to brighten Yule for area men serving in Viet Nam

Thanks to the personal efforts of a St. Johns mother, many area servicemen in Viet Nam will have a Christmas tree to brighten their Yule season a little.

Mrs. Donald (Pauline) Powers of 404 W. Cass Street, St. Johns, sent some trees to Viet Nam last year and they were so well received that she wanted to send more this year. The packages will be distributed to men from the St. Johns area.

Each package sent will contain a two-foot collapsible tree, one box of icicles, bulbs, some as-

sorted candy, popcorn, a can of food powder, a pair of white socks, stationery and pre-sweetened Kool-Aid.

Beck's Farm Market has donated the Kool-Aid, and 2 brothers Foods, Inc., is giving a discount on the candy.

Area residents are invited to contribute toward the project, but Nov. 19 is the deadline for getting the packages ready. Contributions should be sent to Mrs Powers. Mrs Powers would also appreciate volunteers to help wrap the gifts and the addresses of servicemen who would like to receive a tree.

Kelly polls 763 as prosecutor

Pat Kelly, young St. Johns attorney, received a total of 763 votes from around the county last Tuesday to easily win the job of county prosecuting attorney on a write-in campaign.

Kelly was a write-in candidate in the August primary, too, but he got only 378 votes then, not enough to qualify him for a printed spot on the ballot Nov. 5. But he drew write-in votes in almost every regular and absent voters' precinct last Tuesday to win the election.

This is how his 763 votes breaks down precinct by precinct: Bath 1, 4; Bath 2, 1; Bath absent voters 0; Bengal 20; Bingham 124; Dallas 27; DeWitt 1, 2; DeWitt 2, 1; DeWitt 3, 11; DeWitt 4, 0; DeWitt 5, 7; DeWitt absent voters 5; DeWitt City 65; Duplain 14; Duplain absent voters 1; Eastport 13; Greenbush 13; Lebanon 3; Olive 40; Ovid 1, 2; Ovid 2, 1; Riley 18; Victor 6; Watertown 1, 1; Watertown 2, 0; Westphalia 15; St. Johns 1, 206; St. Johns 2, 98; St. Johns absent voters, 69.

Kindness is a good sideline—a switch that clears the way for the main line.

Life is a quarry, and out of it each man must mold and chisel his own character.

Faith is the life-blood of any endeavor—it lingers when everything else is gone.

BROWNIES GET THEIR PINS AND STARS

Troop 44 celebrated becoming Brownies in an investiture ceremony Nov. 11 in the Episcopal Church basement. Fifteen members received Brownie pins, and eight members from last year received their stars. A special cake was served for refreshments.

Elsie

By MRS. NEVA KEYS, Correspondent

Mrs Stanley Loznak opened her new home to the November meeting of the Women's Society of Christian Service of the United Church Wednesday. Mrs Gene Stouffer presided for the business meeting with Mrs Ralph Stull, leading the opening prayer.

The Charter Membership Book of the WSCS was signed by those not present for the regular Charter Night. Payment of pledges and money-making projects were discussed. The members reported 42 cards sent to shut-ins and 48 calls made.

Mrs Charles Kridner gave the devotions "Offer Thanks Unto God" in keeping with the Thanksgiving season. They were reminded that each should give thanks for all modern day conveniences, to show appreciation for our freedoms and to pray that these freedoms do not slip away.

She closed with the thought, "We owe a great debt to God for our many blessings—but what are we doing to pay that debt?"

Mrs Shower introduced the guest speaker, Mrs B. Stanley Poulos of St. Johns and also Mrs Shower's daughter, Mrs Gordon Vandemark of St. Johns. Mrs Poulos reviewed the book by Dorothy Clarke Wilson "The Handicap Race".

It was the story of Roger Arnett, of special interest since many of the group knew that Mrs Roger Arnett is the sister of Mrs Eldred Waters of rural Elsie.

His story is one of almost unbelievable faith and he has a deep belief in God. His life has been a traumatic experience with innumerable operations, in and out of the hospital many times.

He graduated from Owosso High School in 1927 and his love of music took him to Chicago where he soon found a musical career was not for him. He became interested in track and had an intense desire to be in the Olympics.

A terrible automobile accident caused a paralysis of his lower body. Later a leg was amputated. Though he temporarily lost his spirits, he quickly came back and had for the rest of his life an overwhelming desire to work with the handicapped. At the age of 22, he wondered what he could do with his life.

He graduated with honors but had no job and some seemed to think he was not qualified to teach. LaVerna Bowen, herself a former polio patient, tutored him. A romance developed and the couple were married. They

adopted three children. Some years were spent in the raising of gladiola but they later found it too big a business for them and they moved to Indiana, a locality better suited to the raising of glads. His interest in helping the handicapped persisted. He was offered a job as assistant minister and he continued to work under tremendous physical handicaps.

He campaigned to make public buildings accessible to all with the construction of ramps. He then learned he had TB but some miracle disclosed it had left the body. He is at present in Belleville, Michigan and is preaching.

Many thanks were expressed to Mrs Poulos for her fine presentation of this book. Mrs Mag Goodrich quoted from "High Lights" relative to the need for supplies at the Methodist Community House in Grand Rapids. It was decided to follow Mrs Shower's suggestion that the December meeting be set aside to bring things for the home.

Some needed articles are table toys, trading stamps, paper plates and cups and toilet tissue, crackers, soups, cake mixes and tin canned goods.

Mrs Stull announced she still had envelopes for the Week of Prayer and Self-Denial available for use. After adjournment, refreshments of cider and doughnuts were served by the assistant hostesses, Mrs Lawrence Hess, Mrs Robert Bloomer and Mrs C.H. Sills.

Mrs George Ellis was taken to the Owosso Memorial Hospital a week ago following a fall in her home Saturday afternoon. She sustained a broken hip.

Mr and Mrs Alex Dunay, Mr and Mrs Archie Moore and John Hall were guests of the Chesaning Chapter No. 151 for the installation of the new worthy matron, Mrs Ruth Morse and her officers, Friday night.

The United Methodist Church will hold its annual turkey dinner and bazaar in Fellowship Hall Wednesday evening, Nov. 13 with serving from 5 to 7:00 p.m. Tickets may be secured from Mrs Harold Hehrer, Mrs Merle Baese or Howard Peltier.

Mrs Anna Dunay and daughter, Patricia attended the Schulz and Andersen wedding at Marlon Springs Saturday afternoon and the reception at the Conservation Club.

Proceedings of the Clinton County Board of Supervisors

MONDAY, SEPTEMBER 16, 1968

The Clinton County Board of Supervisors met on the above date at 10:00 A.M. Prayer was offered by Supervisor Nelson. A Pledge of Allegiance was given to the Flag. Roll was called and a quorum reported. Minutes of the last session were read. Chairman Nobis, offered an addition or correction to them, they were then approved as corrected.

A notice from the State Tax Commission giving notice of a hearing on appeals to be held at the Courthouse, September 27, 1968 at 3:00 P. M. E.D.T. was read. The meeting will be held in the Supervisors Room.

A billing in the amount of \$1164.72 for 1968-69 Membership Dues in the Michigan Grand River Watershed Council was read and referred by the Chairman to the Committee for a recommendation in the P. M. Session.

A communication from Roland Duguay, Prosecuting Attorney, pointing out the need for further work by the Airport Authority Study Committee. He also listed the names of the House and Senate Committees and encouraged interested parties to contact them.

A first quarterly billing from the Clinton County Soil Conservation District in the amount of \$800.00 was presented.

It was moved by Underhill, supported by Shepard, to pay this billing. Voted and carried. A billing for 1968 membership dues in the amount of \$1,000.00 from the Michigan State Association of Supervisors was on motion by Shepard, supported by Underhill, Voted and carried.

Sheriff, Patterson, appeared and suggested adding four additional men to the present Patrol force, which he feels is needed and will improve the Patrol situation. He also mentioned the need for Salary adjustment and pointed out the differential between the present County pay scale and that of the City of St. Johns.

Dale Chapman, County Drain Commissioner, appeared and spoke on Proposal No. 3, relating to Bonding to abate Water Pollution in the amount of \$335,000.00.

Lawrence MacLaren, Chairman of the Mid-Michigan District Health Board, and at present its acting Director, appeared and spoke of the problems facing the County and especially this Department. He stated that if a personnel change was necessary that it would be made but he asked for a reasonable period of time in order to correct the situation. He also spoke of the Board's action in reducing the County's appropriation to the Health Department by the sum of \$9,000.00 at the August 5, 1968 meeting. He asked that the Board reconsider its action in the matter that otherwise it would require the laying off of several employees as all participating government's appropriations would be reduced by the same amount. Considerable discussion followed.

It was moved by Shepard, supported by Underhill, to approve Supervisors expense accounts as presented. Voted and carried.

A communication from Department of Treasury A. L. Westol, Director of Audit Division on Act 107 P. A. 1968 which permits County Boards of Supervisors to create and appropriate funds for a "Delinquent Tax Revolving Fund" was read, no action was taken.

MULTIPLE SCLEROSIS

It's different from high school

Pressure factor in college football, MSU's Boyce says

How does it feel to kick for Michigan State University?

"It's a real thrill. Every game is exciting, especially the Notre Dame game," says Gary Boyce, sophomore at Michigan State University from St. Johns.

Boyce is 19 years old, weighs 175 pounds, and is five feet seven inches tall. He says the biggest difference between high school and college football is the pressure. "When you kick in college, much more depends on the result; it's something you just don't jump into."

"The team starts practicing on Aug. 25, and the game demands much of your time and energy. You must have speed, agility, and a desire to overcome any physical handicaps. You need a tremendous amount of enthusiasm and a love of the game to ever be successful at it."

Other needs would include a dedication and a willingness to sacrifice personal things to achieve a goal, and what you're sweating for now will pay off later both in personal and team benefits. "Personal sacrifices refers to your social life and learning to budget your time so that your grades don't suffer."

THE AMOUNT OF sleep required is left to the discretion of the player. The team eats a regular diet during the day but at supper time they eat at the training table where steak is served every night.

The equipment used by each player is the best available and compares almost identically with that used in the St. Johns High School, except for a slight difference in the helmets. Boyce feels that "St. Johns has excellent equipment for their players."

Traveling is a rewarding part of football. He loves to travel, and the team flies a great deal.

St. Johns' Gary Boyce shows his form at place-kicking in this file photo from Michigan State University. Boyce is the Spartans' regular kickoff, extra point and field-goal kicker this season.

He feels Duffy Dougherty is an excellent coach and says "He uses humor and understanding with the players, plus his vast knowledge of the game to make the players feel at ease."

Boyce is presently majoring in physical education and minor-ing in Spanish. Some day he would

like to either coach or play professional baseball or football. Baseball is his first love and the team at State will start winter drills in January.

As for the pressure involved with the game, Boyce says "It's something you learn to live with and accept."

County bucked state trend on time issue

Clinton County voters bucked the trend on only one of the state issues on the ballot in last week's election—that of the daylight savings time issue. While daylight savings time was favored on a state-wide basis, county voters turned it down by a count of 9,082 to 6,688.

On all other proposals, county voters were in line with others around the state. They soundly rejected proposal 1 for a graduated income tax, they approved proposals three and four for the water pollution and recreation bond issues and they turned down proposal five which would allow present office holders to seek another office during their current term.

400 watch as football teams, coaches honored

St. Johns football players at the freshmen, JV and varsity levels were honored Sunday evening as about 400 persons turned out for an awards dinner at Smith Hall.

Eight of the varsity players were singled out for special honors voted by team members, and they received trophies as well as their letters like the other players.

Mike Green was named the Redwings' most valuable player for the season. Although he didn't play the last three games because of illness, the St. Johns fullback carried 120 times during the year for 760 yards (6.3 yards per carry average) and led the team in scoring with 54 points.

Given the 101 per cent award

for effort beyond the call of duty was guard Ed Moinet, a 6-foot, 180-pound senior. Awards for the best offensive lineman and back went to tackle Doug Thurston and halfback Chuck Romig. The best defensive back voted by the team was Terry Maier and the best defensive lineman was 285-pound tackle Fred Moore.

VOTED AS THE MOST IMPROVED player during the course of the season was 245-pound guard Jerry Feighner, and the oil can award (for the most humorous guy on the team) was won by Dave Paksi, a senior guard.

Senior captains Jon Berkhausen and Craig Bartholomew were each awarded a football autographed by their teammates, and third captain, Dick Vitek, elected at the end of the season, received a similar award.

Fred Green, who played as a senior on the St. Johns championship football team of 1948, made a presentation of his football letter to his senior son, Mike.

Dr. A. N. Saunders, who tends to the team's big and little hurts during the course of the season, had his turn in front of the crowd when the team presented him with a certificate and an autographed football. Quarterback Tim Durner presented a scroll of thanks from the team, to Athletic Director Dwane Wirick, and varsity captains Bartholomew and Berkhausen presented individual trophies to Head Coach Jeff Smith and Asst. Coach Tom Wilson.

Coach Wilson presented varsity football letters to the following juniors, along with appropriate comments about each player: Walt Alles, Brian Ballinger, Scott Bennett, Roger Davis, Tim Durner, Dave Gaffney, Chuck Green, Russ Hicks, Eddie Johnson, Greg Kirby, Bob Knight, Terry Martin, Mike Pettigrew, Jeff Slim, Bob Smith, Rich Stoddard, Dan Rademacher, Dick

Rademacher, Larry Zuker and Ron Waggoner.

COACH SMITH did the same for seniors Terry Maier, Dave Feldpausch, Chuck Romig, Phil Knight, Mike Keilen, Mike Green, Ken Eldridge, Craig Bartholomew, Dave Paksi, Dick Vitek, Ed Moinet, Mike Rasdale, Doug Thurston, Jerry Feighner, Gale Crawley, Jon Berkhausen and Fred Moore.

Also receiving awards were football managers Lynn Wager and Jim Wierman.

Like the Redwing varsity which went 8-1 for the year and won the West Central Conference trophy, the junior varsity Wings, coached by Doug Japling and Asst. Coach Mike Young, won their league championship with a 7-0-1 record. Members of the team were given numeral "71" (for the year they will graduate) and a chevron for their sweater shoulder.

The potluck dinner was based around a main course of beef prepared in the kitchen by Mr. and Mrs. Bob Sirls, Ralph Lyman and Coaches Smith and Wilson. Bob Dittmer was master of ceremonies for the program.

Nick Hatta does it

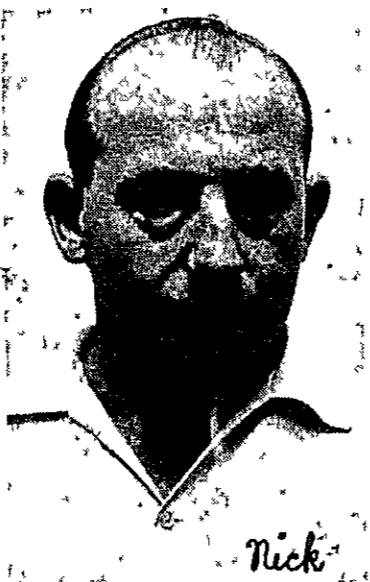

What do you say to a guy who just rolled a 299 game?

What can you say to a guy who has just rolled a 299 game on the bowling alley? Congratulations would be a little hollow because the guy just missed a perfect bowling score by one pin, and he's probably more disappointed than happy. You can't really say, "Tough luck," because he's had the pins falling his way throughout the game.

Nick Hatta of 3008 N. Williams Road, St. Johns, is in the center of that dilemma. Last Wednesday night at the Tri-Ami Bowl in Ovid, Hatta rolled a 299 game, leaving only the 4-pin on his last ball in the 10th frame.

How does it feel?

"I was tense and I felt like rubber," Hatta said in recalling standing on the approach for his last throw. Everybody else in the bowling alley had stopped bowling to watch and root. Hatta's ball hooked right into the pocket and everything but the 4-pin went down. It didn't even wiggle.

Both the game and the series were the highest scores bowled by Hatta, who's been at it for about 26 years. He had a 701 series in 1953 and "a long time ago" he bowled a 289 practice game, but it wasn't sanctioned. The last 300 game bowled at Tri-Ami was two years ago when Wayne Waite of Owosso got the perfect score.

Hatta has a 225 game to start the series, then his 299 and he wrapped it up with a 180 in the final game even though he started out with a double. He had a 704 series total.

During his 299 game, Hatta

a 199 average there, although his average in the St. Johns City Classic League at St. Johns is only in the 170s.

GENE RADEMACHER ... Area Bronco

Rademacher, a 5-11, 171-pound sophomore, is one of the Broncos' top defensive halfbacks, who also plays quarterback. The son of Mr. and Mrs. Norman Rademacher, he graduated from Rodney B. Wilson High School in 1966, where he lettered in football and baseball. He was selected as an all-conference and all-state quarterback, and also was elected captain of the football squad during his senior year.

Explosive first quarter carries St. Johns to 32-12 win at O-E

Daryl Melvin (21) of Ovid-Elsie sizes up St. Johns Redwing tackler Terry Maier just before he was brought down during Friday night's game at O-E. In the background are Marauders Dennis Barrett (22) and Dennis Nethaway (82). St. Johns won 32-12.

OVID-ELSIE — An explosive first quarter, explosive touch-down plays and lots of passes were crowd-pleasing factors Friday night as St. Johns defeated Ovid-Elsie 32-12 in the final football game of the season for both teams.

Thirty-one points were put on the scoreboard in the first quarter, 25 of them by St. Johns and six of them by Ovid-Elsie when Don Mulder returned a kickoff 78 yards for a touchdown.

The middle two quarters were comparatively dull, but then both teams punched across touchdowns in the last 12 minutes, St. Johns on an 18-yard pass play and Ovid-Elsie on a 64-yard run by sophomore Ron Lover.

Both teams filled the air with passes during the night, St. Johns passing 25 times and Ovid-Elsie 13. St. Johns had a wide advantage in yardage gained on passes, 226-47.

Redwing quarterback Tim Durner passed on the first three plays of the game, and it caught the host Marauders by surprise. He connected with Dave Gaffney for 14 yards on the first play, then had an incomplete pass before passing to Chuck Green who broke a tackle and ran down the left side of the field for 58 yards and the first touchdown. Jeff Silm's kick for the extra point was wide.

OVID-ELSIE WAS forced to punt on their first series of plays, and St. Johns struck for paydirt again. Chuck Green had a 10-yard pickup, Durner passed to Silm for 22 yards, Chuck Romig ran up the middle for 17 and then Durner passed to Jon Berkhusen for 17 more yards and the second touchdown. Silm's kick was blocked and the score was 12-0 with 6:45 yet left on the clock.

Berkhusen blocked Dave Dubois' punt on Ovid-Elsie's next series and Dick Vitek recovered for St. Johns at the Marauder 17. Durner passed three times on the next four plays, connecting on the last two for 10 yards to Berkhusen and the final four to Gaffney for the touchdown with 3:52 left in the quarter. Silm's kick this time was low.

The Marauders had had enough of that monkey business, apparently, and they struck back in dramatic style. Coach Mark O'Donnell's well-rehearsed boys cleared a path down the eastern sidelines for Ron Mulder on the kickoff, and Mulder went 78 yards for a touchdown, running in the clear after avoiding a last-ditch tackle effort by Chuck Green at about the 35 yard line.

St. Johns, however, was to score once more before the quarter was over. After taking the kickoff, Chuck Romig turned in runs of 12, 17, and 5 yards before Durner passed to Berkhusen for 17 yards. Two plays later Romig sprinted for 10 more to the five yard line and on the second play after he scampered in for the TD with 16 seconds left in the quarter. This time, Silm's kick was good, breaking an unusual streak of six straight misses over the last two games.

THAT ENDED THE scoring, but not the excitement for the half. After stopping St. Johns at their 38, Ovid-Elsie staged a drive of their own in the second quarter, paced by runs of seven and eight yards by Ron Lover and Daryl Melvin and a 14-yard pass play from Dave Long to Dennis Nethaway. But Melvin fumbled and St. Johns recovered at the 11 yard line to end that threat.

Ovid-Elsie penetrated deeply twice in the third quarter, losing the ball on downs at the St. Johns 20 once and then fumbling it away again later at the 19. St. Johns was held at bay until midway in the fourth quarter when they threatened only to be pushed back. Chuck Romig started the drive with a 17-yard run, and then Durner hit Berkhusen with a 22

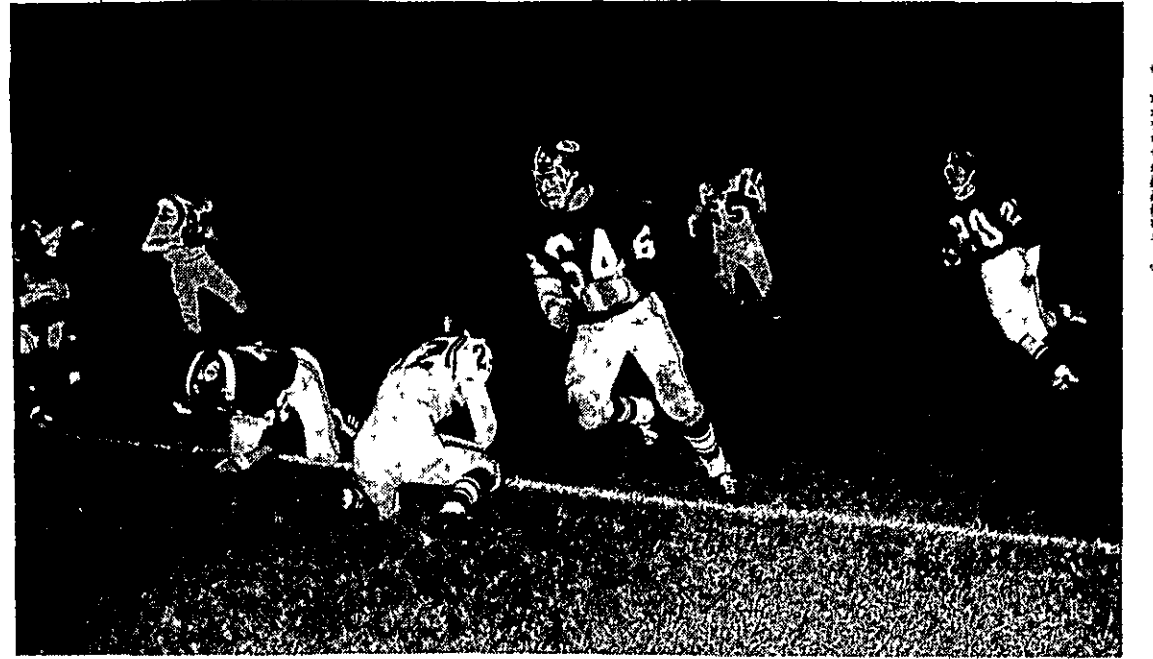

yard pass that ended at the 4 yard line when Berkhusen slipped and fell on wet grass. Dave Feldpausch, 126-pound senior back, slammed into the line three times, finally getting into the end zone but having the TD nullified by a penalty. Ovid-Elsie then pushed St. Johns back to the 31 yard line and took over on downs.

St. Johns wanted that touchdown, however, and they got it. After dropping Dubois at his 31 on a fake punt play, Durner hit Berkhusen and Gaffney with passes for 24 and 18 yards, respectively (after an initial running loss), with Gaffney's grab being good for a touchdown. Doug Thurston kicked the extra point.

Ovid-Elsie fans, thinned out by a downpour of half-rain, half-snow during the middle part of the quarter, had some cheering to do when sophomore Lover broke three tackles and churned 64 yards around right end and down the sidelines for a touchdown with 3:12 left on the clock.

THE MARAUDERS then threatened again. Frank Winkler intercepted a pass thrown by end-turned-quarterback Berkhusen, and Ovid-Elsie ground out two first downs and made it to the St. Johns 25. Two passes into the end zone by center-turned-quarterback Jerry Weir were broken up to end the game.

The game was the finale of the year for both teams. St. Johns finished with an 8-1 mark and won the West Central Conference championship with a 7-0 record. Ovid-Elsie wound up with an over-all 4-5 record and were 2-3 in the Mid-Michigan B League.

"Follow me, Chuck," Ed Moinet (64) of St. Johns hollers as he clears a path for Chuck Green (20) against Ovid-Elsie Friday night. Other St. Johns players are Jeff Silm (43) and Doug Thurston (72). Ovid-Elsie defenders are Dennis Bolton (85), Dennis Barrett (22), Jerry Winans (65) and Terry Latham (84). St. Johns won 32-12. a path for Chuck Green (20) against Ovid-Elsie

Origin of Name

Actually, the barber got his name from trimming beards, since "barba" is Latin for beard. When men began to get their hair cut instead of their beards, the barber shifted to this job without changing his name.

It's no trick to meet expenses. The tough job is avoiding them.

Maple Rapids fan wins grid contest

Clifford Halsted of Maple Rapids proved to be a good prognosticator last week, where football games are concerned, and he won \$20 as top prize in the Clinton County News football contest.

Halsted missed only two selections. He picked Williamston to beat Haskett, but the game ended in a tie. And he picked Purdue to win but they were upset by Minnesota. Everybody else seemed to miss those two games, too, and then some.

Robert J. Boettger of 6748 W. Walker Road, St. Johns, missed only the two that Halsted did, but his tie-breaker was just a little wider of the actual score of the Indiana-MSU game than Halsted. The score totaled 46 points; Halsted had 45 for his tie-breaker, and Boettger chose 48.

The News' football contest has been extended this year and will run for four more weeks, giving area fans a chance at an extra \$80 in prize money. College and professional games will be used as selections now that the high school season has been completed.

DeWitt spills Morrice to end winning year

By JIM SOULE
DeWitt High School

MORRICE — The DeWitt Panthers came through here Friday night to bring home their first winning season in seven years. They did it with a 5-4 mark by defeating Morrice 18-0 in both teams' final game of the season.

Ed Fosnight, a junior who will not be able to play next year because he will be too old, bowed out of DeWitt football by scoring all three of their touchdowns. One was from three yards out and two were 20-yard scores. Ed picked up 125 yards in 18 carries. The three touchdowns made him

his team's leading scorer with seven for the season.

Coach Gary Roberts will probably replace Ed with this year's freshman back, Ron Brown, who picked up 90 yards in 10 carries in Friday's game.

Roberts also named defensive standouts as Roger Wardell, Mike Ashley, Mike Botke, and seniors Jeff Tews, Jim Soule, and Rick Cole.

You need one-seventh of a second to wink your eye on purpose. However, when an insect darts toward your eye, reflex action will snap your eye shut in one-third of that time.

3 LEAVE FOR SERVICE

These three men left Nov. 4 at 3:55 p.m. for induction into the service. They were Roger E. Smith, Peter Guigelaar, and Clark Durfee. The Selective Service Office reports there are no physicals scheduled for November.

DeWitt reelects Smith

DeWITT — Mayor Elden T. Smith was reelected for his second term in that office by DeWitt city voters in last Tuesday's general election. Smith polled 421 votes compared to challenger Marshall C. Warren's 160 votes.

There were races for four city council seats. In one, Councilman DuWayne Ziegler lost his bid for reelection to Paul Mulford by a vote of 323 for Mulford and 237 for Ziegler. Ziegler had been appointed to fill an unexpired term.

Elected to three-year council seats were incumbent Lawrence Keck with 466 votes, John H. Hiatt with 359 votes and Roger A.

Overway with 301 votes. They defeated Andrew K. Traxler who had 198 votes, Paul Hartwigson with 115 votes and Jack Scott with 182 votes.

A proposal to approve sale of liquor by the glass was beaten by five votes, 303-398.

Muscular dystrophy drive here Nov. 19

The pressing need to halt the progress of muscular dystrophy was stressed this week by Mrs. Paul A. Maples as she urged St. Johns residents to give active support to the March for Muscular Dystrophy.

The annual house-to-house canvass—conducted by volunteers in the area on behalf of Muscular Dystrophy Association of America, Inc.—will take place in St. Johns on November 19.

There are more than 200,000 victims of the mysterious, crippling disease in the United States. Declaring that it is "an act of humanity to help these terribly afflicted persons," Mrs. Maples pointed out that most victims are children for whom the disease means increasing disability and an early death.

No cure or effective treatment has yet been found for the malady.

Baptists await special speaker

Rev. Carl C. Hart, Michigan representative for International Students, Inc., will speak at the First Baptist Church of St. Johns this Sunday, Nov. 18, at 7 p.m.

This organization sponsors informal discussions and Bible study with foreign students on U.S. college campuses. It attempts to show what Christianity is and present the truths of the Gospel to them. Rev. Hart is currently working on the Michigan State University campus.

Campaign Interlude

Frolicking with Jerry Lewis is every child's dream, and it's quite obvious that Holly Schmidt is enjoying herself thoroughly. She's the national poster child for Muscular Dystrophy Association of America, the voluntary health agency of which the famous comedian is national chairman. Separately and together, they're doing everything they can to win support for MDA's fund raising drive, the March Against Muscular Dystrophy, now under way throughout the nation. The drive finances world-wide research and an extensive program of services for patients and their families.

11 supervisors elected

Voters endorse county board make-up

The make-up of Clinton County's new board of supervisors was approved by voters last week when they elected 11 men to represent 11 new districts of the county. All 11 men ran unopposed, and there were only a few writings thrown in to prevent anything from appearing unanimous.

The new supervisors will take office Jan. 1 and will represent population districts on the new county board. Some are members of the current board of supervisors as well as supervisors in their individual townships. New township supervisors will have to be named in those areas, because state law prevents the men from holding both township and district supervisor positions.

In the case of Ovid and Bath townships, the boundaries of the new population districts coincide with the township lines. In the other areas of the county, townships are either combined with others or split to form districts that have an average population of 3,452 persons on the 1960 census. The population, according to that census, varies from a low of 2,795 persons in the Ovid district to 3,781 in District 10 in the southeastern part of DeWitt Township.

All of the new supervisors with the exception of Roy (Jack) Andrews, in District 10 ran as Republicans; Andrews is a Democrat.

Here's how the unopposed candidates got their votes:

DISTRICT 1 — Andrew Cobb, supervisor, 895 votes total; Duplain 615, Duplain absent voters 58, Greenbush 380.

DISTRICT 2 — Walter Nobis, supervisor, 869 votes total; Lebanon 159, Essex 421, Bengal 289.

DISTRICT 3 — Maurice Gove, supervisor, 869 votes total; Bingham Township 454, portion of St. Johns 2,415.

DISTRICT 4 — Rex Shirrine, Supervisor, 1,274 votes total; St. Johns 1,808, portion of St. Johns 2,247, St. Johns absent voters 219.

DISTRICT 5 — Duane Chamberlain, supervisor, 775 votes total; Ovid 1,411, Ovid 2, 364.

DISTRICT 6 — Claude Underhill, supervisor, 1,083 votes total; Olive 469, Riley 300, Victor

314.

DISTRICT 7 — William Hufnagel, supervisor, 1,161 votes total; Dallas 590, Westphalia 571.

DISTRICT 8 — Robert Montgomery, supervisor, 1,213 votes total; Watertown 1,469, Watertown 2, 335, Eagle 409.

DISTRICT 9 — Gerald Lankford, supervisor, 1,216 votes total; DeWitt city 405, DeWitt 1, 506, DeWitt 4, 268, DeWitt absent voters 37.

DISTRICT 10 — Roy (Jack) Andrews, supervisor, 922 votes total; DeWitt 2, 294, DeWitt 3, 324, DeWitt 5, 277, DeWitt absent voters 27.

DISTRICT 11 — Gerald Shepard, supervisor, 905 votes total; Bath 1, 454, Bath, 2, 409, Bath absent voters 42.

51 attend Exchange's 4-H show

Fifty-one persons attended the annual 4-H Club Crop Show sponsored last Thursday by the St. Johns Exchange Club. The 4-Hers put on action exhibits, crop exhibits and showed movies for the Exchangeites and their 4-H fathers.

The program consisted of an action exhibit of an animated spear mint processing plant shown by Jack and Jan Woodhams, and movies of the Eastern United States 4-H Tractor Drivers contest shown by David Schwark. Dave represented Michigan in the contest in September at Richmond, Va.

George McQueen, Extension agricultural agent, evaluated crops which the 4-H members had grown and exhibited. John Aylsworth, Extension 4-H youth agent, showed a movie, "The Story of Corn."

Floyd Parmelee, president of the Exchange Club, was master of ceremonies. Program chairmen were Bill Smith and Les Jenkins. Bill Williams, Hankard of St. Joseph Catholic Church gave the invocation prior to a chicken dinner at the St. Joseph Social Hall, and Dr. R. L. Wolters led group singing following the dinner.

Vertical supports for the railing on the Tallman Road bridge over the Maple River are now all in place and the metal railing will be installed as soon as it is received. When this is in place the bridge will be opened to traffic. Considerable sodding, seeding and other right-of-way work needs to be done before the project is completed, but most of that will be done early next season.

This column is being written on Monday and tonight, the 11th, that is, the representatives of Local No. 794 and the road commission will hold the initial meeting in this year's round of contract negotiations. The union has submitted its list of desired changes in the contract to the commission and the commission has in turn brought up some points in the present contract that it feels need clarification and change. The meeting tonight will probably be spent in giving explanations of just exactly what each request on both sides means and coming up with definitions of terms that are mutually understandable. This is important, for there can never be a meeting of the minds in any negotiation without such understanding.

With the retirement of Jay Barrett and Clayton Fisher so close at hand, Mr. Haske announced some changes of foremen this past week. Bruce Woodbury is the new county road maintenance foreman and Robert Acker is his counterpart for state highways in the county. Arnold Rosekrans is the new stock clerk to replace Bruce, and Orville Jones will now devote his full time to construction work. Roy Pung is the superintendent of the entire operation. Ron Lear, formerly with the California Department of State Highways, started work this past week and will work directly under Mr. Haske on plans and permits. Lear is a former Portland area resident and has an engineering certification from California. Mr. and Mrs. Lear and their two small sons contemplate moving to St. Johns in the very near future.

Thanksgiving turkeys plentiful and plump

Imagine a flock of more than 1 million turkeys, plump and ready for plucking. The Pilgrims never had it so good. Their first Thanksgiving bird likely was a lean, scrawny one with a wild gamey flavor.

Again this year Michigan families can celebrate the Thanksgiving holiday with turkey for the traditional meal at which gratitude is offered for an abundant harvest.

That abundance includes 1,109,000 Michigan-grown turkeys, according to the tally of the Crop Reporting Service, Michigan Department of Agriculture. Less than last year's total, it's still a generous number.

Charles A. Hines, agricultural statistician, reports that heavy breeds account for 1,031,000, and light breeds for 78,000 birds. Total production, down about 5 per cent from 1967, has been declining gradually since 1962. For the United States as a whole, production is down 16 per cent below a year ago.

Declining production reflects a similar trend in prices, with the average per-pound price 20.5 cents in 1967, compared to 23 cents per pound the previous year.

Envious critics are always ready to tear down the person who has made a go of it. In sincerity is the worst evil anyone has to contend with.

CITY KIDS CAN GROW THINGS, TOO

John, Janie, and Jill Thrush display some unusual squash for this area. The seed was brought here from Kentucky and it's called "Cu-shaw" squash. Mrs Thrush reports they weigh about 17 pounds each and have a delicious flavor. The meat is a little lighter in color than other squash. The Thrush family lives at 810 Church Street.

HOW DO YOU GET IT IN THE OVEN?

Rudolph Meehling of R-1 Elsie grew a Hubbard squash almost heavier than he could lift. This one weighed 90 pounds. He had several other large squash that were grown in a sandy type soil.

Breeding kills rob farmers

Low milk production is often caused by cow breeding problems which rob dairymen of profits, contends F. Earl Haas, Clinton County Extension agricultural agent.

Research shows that about one-half of dairy breeding problems are caused by disease or infections that may be transmitted from one animal to another, says Haas. The other problems are caused by poor management.

A diseased animal can be a threat to the herd, so early diagnosis and treatment are very important to prevent the spread of disease and to protect against a decline in milk sales.

Infertility caused by poor management should be the easiest to control since this is under direct responsibility of the owner or herdsmen. Breeding and herd health records help farmers spot these problems on dairy farms.

"Individual cow records on milk production can also be helpful to good management and control of infertility," says Haas. "Now that a new testing year has started, it is a good time to get dairy herds in the production testing program."

He added that information on dairy herd testing programs and herd health records is available through the Clinton County Extension office.

ASC PROGRAM

ASCs programs help economy of our county

W. M. SMITH
County ASC Manager

Plans are being made for carrying out the 1969 Agricultural Conservation Program in Michigan.

Under ACP, the oldest of farm programs, the federal government shares the cost of conservation practices needed to assure in the public interest the wise use, protection and improvement of soil and water resources on farms throughout the nation.

The National ACP for 1969, approved by the Secretary of Agriculture, offers special aid to low income farmers in combating erosion of their land and improving their food supply through conservation measures for home gardens. Another type of special aid to low income farmers will be the cost-sharing of Christmas tree plantings for sale.

The Michigan ACP program has been developed by the State ACP Development Group. This group consists of the state ASC committee, director of Extension Service, SCS state conservationist, director of Farmers Home Administration, representatives of the Michigan Department of Conservation, Extension Service, State Soil Conservation Committee, farm organizations and others with conservation interests.

Representatives of these same agencies and organizations at the county level known as the County ACP Development Groups, will

meet in December and develop their own county program.

In 1968 WE HAVE 615 farmers earning cost-share assistance through ACP to establish conservation on their farms. This is the first year in a number of years that we have run out of funds to assist farmers in our county. The wet fall last year, along with the wet spring, has caused a lot of farmers to install more tile drainage; this has used up a large portion of our ACP funds.

I urge farmers to take soil samples this fall. The advantage of sampling in the fall enables the farmer to order his fertilizer early and get discounts. If lime is needed it can be applied

before spring crops are planted. If the land has a cover that will hold the lime from washing.

We urge farmers to complete their 1968 ACP practices as soon as possible and report performance to our office.

I want to remind corn and soybean producers that they do not have to wait 30 days to get a farm-stored loan as they did a few years ago, as soon as the commodity is put in storage the producer can make application for a loan. Our total loans for 1968 crops have more than doubled the 1967 loans.

Producers who are not familiar with our loan program should contact our office for more information.

Top Michigan dairy herds named by DHIA

Michigan's highest producing dairy herds belong to Howard Schlicker of rural Bay City and Michigan State University's W.K. Kellogg Farm at Hickory Corners.

Schlicker's 18-cow Holstein herd average 19,731 pounds of milk per cow, according to Michigan Dairy Herd Improvement Assn. records. Milk tested 3.59 per cent butterfat and averaged 708 pounds per cow.

The 55 Guernsey cows on MSU's Kellogg Farm produced 14,532 pounds of milk per cow but tested 4.93 per cent butterfat to produce an average 717 pounds of butterfat.

John Goudzward of Byron Center had a 19-cow Holstein herd on test last year and won top honors for both milk and butterfat production. This year, his herd of 21 Holsteins produced

17,723 pounds of milk and 656 pounds of butterfat to place fourth in the state.

Jack L. Kaufman of Sandusky, who has been at or near the top in state rankings, rated third with his '41 Holsteins, producing 17,421 pounds of milk and 660 pounds of butterfat.

Paul A. Wilkes, executive secretary of the Michigan DHIA, reports that more than 127,000 cows were being tested through the association in early fall. This represents a gain over a year earlier and marks a change from the trend established during the past years when many farmers quit their dairy operations, and fewer cows were being put on official test.

Michigan dairymen not in the DHIA production testing program may obtain information on how to enroll by contacting their county Extension offices.

Bill of sale needed to transport trees

Transportation of Christmas trees and evergreen boughs is illegal in Michigan without a bill of sale or proof of property ownership. But an exception to the law is made during the month of December when not more than two trees may be transported without any bill of sale if they are legally obtained.

Michigan residents planning trips to the north country before the holidays, such as deer hunters, were reminded of provisions of the Christmas tree law by Dean Lovitt, chief of the Plant Industry Division, Michigan Department of Agriculture. Lovitt said necessary legal forms are available from the department office, State Police posts, Conservation offices, county Extension offices and county sheriffs.

Sugarbeet growers in Michigan's Saginaw Valley have played a vital role in the agri-business economy of our state since the turn of the century. Their progressive efforts combined with those of the state's two processing companies have boosted the dollar value of the sugarbeet crop to nearly \$35 million dollars annually. In 1968 farmers in 17 Michigan counties harvested over 84,000 acres of beets. A crop that will produce nearly 350 million pounds of sugar for the Michigan market. If you live in the Saginaw Valley-Thumb area of Michigan, you no doubt know someone that helps fill Michigan's "sugar bowl" each year. It makes good sense to buy a Michigan grown product. Help yourself to Michigan Made Pure Sugar the next time you shop. Ask for it by name—Pioneer or Big Chief. Those brands in the red, white and blue bags represent the finest that Michigan agri-business has to offer.

Free Gift WITH A GEHL MIX-ALL Buy a new Gehl Mix-All and receive free a life-like, flame-proof, seven-foot Scotch Pine Christmas tree, complete with four strands of seven piece West Bond "Country Inn" tinsel cook-ware set in avocado or harvest gold. Value—\$39.95. Your biggest "prize" is still Gehl Mix-All's dependable day-after-day performance. Grinds and mixes any grain—plus hay! 66 hammers cut—never point ingredients thoroughly, uniformly. A high-joint auger reaches where it is needed and unloads quickly. An exclusive variable-speed swinging auger feeder adjusts to variations in ingredients and power. Mix-All performance... durability... versatility. All this and your choice of gifts, too! But hurry, offer ends December 1, 1968. Ask us for a demonstration soon. GEHL PHILLIPS IMPLEMENT CO. 313 N. SHORT OF A MIRACLE

THE CHURCH FOR ALL... ALL FOR THE CHURCH
 The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Rome's Coliseum, partly tumbled into ruin, is considered one of the wonders of the world. It was built in 80 A. D.—and that is a long time ago, to be sure. Yet it is but a second when measured against the ages that have passed since, God created the world.

The Coliseum—wonder that it is—is also visible proof of the limit of man's accomplishments. We consider it nothing short of a miracle that something built by man has endured that long. Yet those things created by God remain endless and eternal.

God's works should, indeed, fill even the wisest of us with wonder, with awe, and with gratitude. We tend to take them all too much for granted. We tend, at times, to forget them—and even to forget Him—entirely.

Discover God again, in the church of your choice and in the process, rediscover yourself.

THINK ON THESE THINGS

A devotional message written each week by a pastor of a Clinton County church

By JUSTIN SHEPARD
Minister
Diplomat Church of Christ

It seems trite to say we are living in an age of reckless conformity. For example, you may have heard of the yardmaster who called the "time-of-day" operator every morning between 11:30 and 11:45. After years of this procedure the operator finally asked why the man called at the same time everyday. He said, "I call so I can be sure the 12 o'clock whistle is on time." She chuckled, "Isn't that a coincidence? I always set my clock by the 12 o'clock whistle!"

We live in a vicious circle. Whether or not we are aware of it, the vast majority of our activities are done because of what others are doing. Traditionally we call this "keeping up with the Joneses." Our standards of right and wrong are often governed by what others do rather than by what is really right. We sing the same song—second verse; When in Rome do as the Romans do. This is fine as long as the Romans do what is right, but when they are wrong, you are twice as wrong for you have committed the sin of conformity as well as the sin of violating God's Word.

We live in a world of grays. Little distinction exists between right and wrong. Usually a man finds company in whatever he wants to do—fudge on income tax, take company time for personal business, accept bribes or gifts for winking at wickedness, or cheating on exams because "it's the only way you can get by the prof." One problem can't be avoided. The fact that lives are lived in the gray doesn't change the fact that God views things in black and white. Sin may be declared unmoderated but it can't change God's eternal attitude or His eternal Word. "All have sinned and fallen short of the glory of God." (Romans 8:23)

Remember: The best way to show a stick (your life) is crooked, isn't to argue about, or spend time denouncing it, but to put a straight stick (Christ) next to it.

Bath OKs new mobile home unit

BATH — The Bath Charter Township Board has approved construction of a new mobile home park—Merry-lee Estates—on Gary Lane south of Ann Drive.

The board followed the recommendation of the township planning commission in their action. James E. Cronk of Bath was granted the permission for the park.

Approval of other projects was also granted. Richard Wisner of Bath got permission to construct a landing strip for his plane off Herblison Road; property of Thomas Schulte was rezoned from agricultural to light industrial; and Jack H. Walker was granted a special use permit to sell snowmobiles at his home on Angle Road in Bath.

At their meeting the board also accepted "with regret" the resignation of Gerald Shepard as the township supervisor. Shepard was elected last Tuesday as the District 11 supervisor, serving Bath Township on the county board of supervisors. A new township supervisor will be named soon.

Four Clinton area students at Western Michigan University are getting practical classroom teaching experience this semester at schools throughout Michigan.

Constance Lynn Gates of DeWitt is teaching in the Oakdale Elementary School in Grand Rapids; Max J. Feldpausch of Fowler is at Harper Creek High School; Elizabeth L. Nobis of St. Johns is at Jonia High School; and Elaine Judi Blackman of St. Johns, is teaching special education at Way School in Bloomfield Hills.

Mistakes, recognized and analyzed, pay the highest dividends in the world.

Tips on buying your Thanksgiving turkey

By HELEN MEACH
Extension Home Economist

Just mention "Thanksgiving Turkey" and what a flood of thoughts come rushing in.

Grandparents have precious memories. Younger parents with growing families are creating traditions to build family unity and joys to remember.

Every homemaker knows that the Thanksgiving dinner has a way of growing to include the long list of family favorite foods. Often the dining room table is too small to begin to hold all this traditional feasting.

There was never a problem at Grandma's big farm dining table, but with the new smaller house—what to do?

A Thanksgiving buffet can be the answer. This way the full beauty of the golden brown turkey and all of the accompanying food can be enjoyed without crowding the table.

When the buffet plan is used, the guests and family do the walking instead of the passing. Each person can help himself to the amount of each food desired. Best of all no one notices the additional servings unless the hostess does and she is pleased.

Here are some questions frequently asked at holiday time, with answers based on research:

Are hen turkeys more tender than tom (male) turkeys? No, tenderness is primarily a function of the age of the live bird, and the aging and handling of the meat prior to cooking. When it took 8 to 12 months to grow a turkey, this may have been true. Tenderness is influenced by the method of cooking, the degree of dryness and to some extent the amount of natural fat.

Can turkey be roasted at oven temperatures below 300 degrees and does this have a tenderizing effect? This low temperature cooking is not recommended because, if present, bacteria will grow more readily during the initial cooking time. There is a very slight tenderizing effect, but other characteristics such as flavor and juiciness are decreased, resulting in lower overall palatability.

Are frozen turkeys apt to be held in commercial freezers from one season to the next? No, not generally. Commercial freezer storage is expensive and it is not economically sound to hold frozen turkeys for any length of time.

How much stuffing should you make for a 12-pound turkey? Count on about 3/4 cup of stuffing for each pound of turkey. Nine cups should do nicely for your 12-pound bird.

Thanksgiving Day is truly an American family holiday. It is truly a time for American families to count their many blessings, naming them one by one.

SMV emblems cut accidents

Those triangle-shaped reflector emblems on the rear of farm tractors and slow moving vehicles may be saving lives in Michigan.

That, of course, was the intent when the law became effective in March 1967. It requires vehicles designed to operate at 25 mph or less to display the sign on the rear.

Dr. Richard Pfister, Michigan State University Extension farm safety specialist, reports 21 per cent fewer car-farm machinery highway accidents from rear-end collisions.

Pfister's survey covered the first nine months the new law was in operation. Analysis was based on Michigan State Police records.

The safety specialist also surveyed 2,222 farmers in 10 counties and found that the average farm had 3.28 emblems on vehicles. Some had as high as 10. More than 90 per cent of those who use vehicles on highways or county roads said they "always displayed the emblem."

Sweaters, too, need TLC

By LORRAINE SPRAGUE
Extension Home Economist

It's sweater time. Sweaters need the TLC (tender loving care) that other fine garments in your wardrobe deserve. Those made from natural fibers such as wool, cashmere and blends containing a high percentage of wool, call for a little extra care. Some of the synthetic fibers require special handling while others can take a rougher treatment.

Now the fiber and consult—and follow—label instructions are available to assure long-lasting satisfaction. The market is full of sweaters of all kinds. In fact, some sweaters don't even look like sweaters, but like sweaters or act like sweaters, but sweaters they are! And they will serve you well if you follow a few basic rules for their care and use.

In spite of all the wonderful things science has done for the textile industry, no sweater has yet been developed that will stand up to the wear and tear of life. So—buy the correct size to start with and then maintain that size with proper care.

HANG TAGS AND yarn labels are put in garments and on balls of yarn for your information. Read, consider and follow information given to you.

A good bit of advice I recently read says "When you bring a new sweater home from the store, or proudly put the finishing touches on one you've knitted yourself, put it away as though you plan to wear it for a very important occasion in the very near future. I would add "continue to treat it this same way."

Sweaters should be stored in plastic bags or boxes or wrapped loosely in tissue paper and carefully placed in a drawer or on a shelf. Avoid overcrowding. When boxes are used for storage, each hang-tag can be tucked in with the sweater, not slotted in between the sides or corners. Labels will hold informative tags to paper wrappings.

Sweaters are always knitted, never woven. Therefore they can stretch easily so they should never be hung on a hanger.

Sweaters should be checked for spots or excess soiling on collars, neckbands or sleeves just as other garments before cleaning. A little extra attention on these areas results in really clean garments.

A pre-soak of the sweater will start the removal of soil and you'll not need to rub delicate fibers. Lukewarm water with mild detergent or a sweater wash with special cold-water products work fine for both soaking and washing. Gentle squeezing, no wringing or twisting, and rinsing with water from the washing par, and thorough rinsing are important points in laundering sweaters. Fabric softeners, especially for wool fibers, help make the clean sweater soft and lovely again. They also help reduce static electricity in both natural and man-made fibers. A careful shaping or blocking will produce a well-fitting sweater when it's dry.

MOST MAN-MADE fibers, especially the nylons and acrylics take well to machine washing. In fact, some are even better when washed in the machine. Again, hang tags will be your best guide. Some man-made fibers—especially nylon—are known color scavengers and absorb color from other garments if they are washed together. Better therefore to wash white and very light colors together, never with dark colors. Blocking improves the appearance of man-made fiber sweaters.

Weapons previously registered with the director of Alcohol and Tobacco Tax Division need not be re-registered.

A deadly hazard

On at least three occasions during the last month there have been serious automobile accidents on Francis Road...

A little over a week before, though, a mother and two children were killed at the spot.

All the accidents, including numerous others earlier in the year, have been one-car mishaps. Drivers have lost control on the little hill with its wavy and slippery-when-wet surface...

By considering the frequency of the accidents at this site, it can assuredly be termed a serious traffic hazard. We hope something can be done to improve the road surface through that section...

With a scandalous traffic accident death mark like we have this year, there should be no reason that we can't pull out all the stops to do away with these traffic hazards.

Girl Explorers

Nothing is sacred anymore. The stalwart Boy Scout organization has decided to let girls participate in its Explorer program come Jan. 1.

Larry Malec, Chippewa District scout executive, tipped us off to the plan several months ago, and then last week we received news release announcing the formal approval of the program.

It seems that girls can become participants in Explorer posts organized to pursue a special interest, but they will not be admitted to Cub Scout packs and Boy Scout troops. And only a certain percentage of an Explorer post's membership can be girls...

Currently there are some 22,000 Explorer posts for boys 14 to 18, and there might very well be many more in the future. About one-third of the present number are special-interest posts composed of boys with common scientific, technical, hobby and vocational interests...

Under the guidelines adopted by the executive board, the post sponsor would have to approve the admission of girls for their particular post. If the sponsor approves and the young lady concerned has a genuine interest in the post specialty...

How about that, fellas?

What--No Protest?

A reawakening spirit

By Ron Huard

Members of St. Johns business community this week received an informal letter from High Wallace, president of the Chamber of Commerce...

The letter, first to come from the Chamber office in some time, tends to typify a reawakening spirit of cooperation among St. Johns merchants...

Often times Chambers of Commerce are looked upon as agencies benefiting only business interests but, in fact, the goals of any such organization are those which ultimately benefit the entire area...

Chamber of Commerce is no different. While associate memberships are available, the bulk of operating income is derived from business support...

It was good to see a brisk and sharply written letter from the Chamber office. It is only unfortunate the missive could not be read by everyone.

The appalling number of deaths on Clinton County highways this year cannot help but arouse a general concern over contributing factors...

Speed is perhaps most often cited, but road conditions and obstructions in near proximity to county roads increase accident potential regardless of how fast a car may be travelling.

'IF IT FITZ ...'

'Really, how could Jackie do it?'

By JIM FITZGERALD

For all you busybodies who get excited about the wrong things, it would have been nice if Jose Fellicano had sung the Star Spangled Banner...

I hate to sound peevish. But I stood on a busy street corner in Detroit for eight straight hours waiting for a TV or newspaper reporter to ask me what I thought about Jackie's wedding...

What pushed me into the streets, with opinions hanging from my lips, was Mrs Walker L. Cisler. She is the wife of the chief kloutaw at Detroit Edison. The Detroit News asked Mrs Cisler what she thought about Jackie's marriage.

"I don't see what she sees in him," Mrs Cisler answered. "If she'd married Lord Harlech, I would have thought that would

going to bring up her children with that old man?" Isn't that lovely?

MRS CISLER knows Onassis will be a lousy father because, after all, darling, he's foreign and swarthy and squat and ugly and over 80 years old. Besides, Lord Harlech and Jackie made such a divine couple. Really, how could she?

Mrs Cisler's opinion is fairly typical of many heard from concerned Americans who think the widow Kennedy has disgraced Camelot. Mr Gallup has taken no poll to prove it, but I'd bet that the people rapping Jackie also think Jose Fellicano should be deported to Puerto Rico...

The mod adjective used to describe these wearisome worriers is "uptight." This means about the same thing as the old-fashioned "chip on your shoulder." These days there is a great quantity of twitchy-shouldered people who are certain the world is out to get them. When a bush moves, they want to bomb it. When a student says America is not always right, the uptights call him a traitor. When a Negro

shakes his fist, they call him an anarchist. And when a public idol makes a private decision, the twitches act as if their daughter has eloped with the town drunk.

Cool it, dear worry warts. You're sweating in phony ovens. If the inquiring reporter misdialed Mrs Cisler's number, and got me instead, I'd tell him this:

--If Jackie Kennedy wants to marry a two-headed piccolo player from Potsdam, that's her business. She's of age. And God knows she has suffered enough tragedy to deserve some happiness. Everyone should get off her back. I wish her well.

--Jose Fellicano sang the Star Spangled Banner beautifully and sincerely. His biggest sin was refusing to try for those impossible notes almost no one can reach (Egad, did you hear Mrs Red Schoendienst sing it before the World Series game in St. Louis?). Fellicano is a blind immigrant who has much more reason than most of us to love this country. So a woman calls one of those sound-off radio programs and says: "Couldn't they get one of our own people to sing our national anthem?" A lot of people should reread what it says on the Statue of Liberty.

--TRACKMEN Smith and Carlos may have staged the most peaceful protest in history as they received their Olympic medals. They raised their fists and bowed their heads. It was their harmless way of saying that, athletically, they gave their all for a racist country which gives Negroes the short end. It was a prick in a national conscience which needs stabbing. So the Olympic stuffed shirts sent them home, the greatest over-reaction since Mayor Daley unleashed his cops. Which gave me one more reason to be an angry, ashamed American. This will be a better world when more people get excited about racism and injustice--and less excited about Jackie Kennedy's marriage to an elderly Greek.

They Fly Our Flag

Mr and Mrs Maurice W. Nichols, of 14650 Center Road, Bath, fly the nation's flag every day. The service flag in the window is for their son, James W. Nichols, who is now serving his second tour of duty in Viet Nam.

WINTHROP, Minn., NEWS: "Fulfilling a need is one of the compelling forces of the private enterprise system, a system under which U.S. business has excelled in finding ways to bring products services and customers together."

EVERETT, Wash., HERALD: "Although more than 500,000 students now are recorded as high school dropouts each year, a sizable number of them return to some form of formal education later. Some enroll in other schools, others go onto adult education programs--a significant number of whom graduate. Others earn their high school diploma during military service. This one finding alone indicates the shallowness of previous studies. Dropouts do not necessarily remain dropouts."

AZTEC, N. M., INDEPENDENT-REVIEW: "People should be warned not to get too excited about this talk of turning the Post office Department over to a 'private-enterprise-like corporation.' In the first place there isn't any such thing; either government stays in control with the resultant breakdown of service, or private enterprise is given an opportunity to show what it can do with no government strings attached. . . private enterprise can do anything government can do, do it better and at far less cost, at the same time contributing tax money to government instead of costing taxpayers for government operational cost."

RAMBLIN' WITH RINK

Election after thoughts

There are those who say American is sick and that its people no longer are concerned with its government. Balderdash! All you have to do is look at the percentage figures of those who voted in the general election last week or to have stood in the long lines at the polling places.

... And then you'll realize that Americans care.

Our upstairs office looks out on the municipal building across the street, and we couldn't help but be proud of the long lines of people who waited for their turn to cast ballots. Despite the fact the going was slow, complicated by the number of write-in offices this time, people were willing to put up with a little discomfort so that they could exercise their privilege to vote.

I guess I was one of the most fortunate. It took me only 55 minutes to go through the line and vote, but I was there at 7:10, shortly after the polls opened. People who couldn't get there as early

found themselves in lines that got longer as the day wore on. By the 8 o'clock deadline that night, the line for Precinct 1 stretched around the corner to the police station entrance, and it took the fail-enders over three hours to get their vote registered.

That's downright American. As long as people are willing to do that, there's not much doubt they have interest in their government and the democratic process.

Speaking of the election, tabulating the results last Tuesday night and early Wednesday morning was quite frustrating. St. Johns was not alone in its long lines of voters, and in the paper ballot precincts the job of counting the votes took a long time. We had intended to publish last week our usual chart

showing the vote in each precinct for each candidate. But by 2 a.m. Wednesday we had received only a couple of precincts from the county and decided to leave out the chart and go with just a summary story on what information we had.

Pulling a six-column chart off a page leaves a mighty big hole, but we did have enough other news and pictures to fill it up. We regretted that we only had reports on about 12 of the precincts by the time we had to go to press, but that's part of the game, I guess.

Anyway, the chart is running this week, and every column is full and finalized. Watching and writing about an election has its problems, but I get a deep sense of pride out of both aspects, too. --rink

That would put it back about 1904. The have slipped her mind, but she would be interested in knowing and would be happy to have any of those in the picture contact her at Eureka.

GRASSROOTS OPINION COMMENTS FROM OTHER PAPERS

HOMEDALE, Idaho, CHRONICLE: "Hunting can be one of life's great adventures, but the 'part-time' hunter who is out of condition, tends to rush into the season with only the forethought of preparing his camping gear and planning his hunting party. Little or no thought is given to the 'part-time' hunter's physical condition. Today's automated society robs him of the physical activity which would keep him fit for the strenuous exercise that the sport entails. Seasonal statistics report that . . . more hunters' deaths and casualties are caused by heart attack than by gun shot accidents."

TOWANDA, Pa., REVIEW: "Of all the manifestations of public ingratitude few surpass the growing practice of attacking firemen in the performance of their duty. This is no localized phenomenon. It occurs in cities across the country. Bronx and Brooklyn firemen in New York City have been the latest targets of bricks and bottles and occasionally bullets. Firemen willingly take the risks that go with their hazardous calling in order to save lives and property. What savagery prompts bystanders to attack them while so doing is a matter better left to the alienists."

GRASSROOTS OPINION COMMENTS FROM OTHER PAPERS

TOWER CITY, Pa., WEST SCHUYLKILL HERALD: "Savings must be set aside before spending begins, or there will never be any savings. And wouldn't we appreciate it if our federal and state governments were to observe that law! Today, everything seems to be under federal control except its budget. As a result, as someone has so aptly put it, 'Our government has now reached the place where the only additional source of revenue it can think of is a tax on taxes.'"

NOGALES, Ariz., HERALD: "If you . . . operated a business and were assessed enormous taxes, regulated by politicians, and forced to compete with others who were partially financed by government tax money, including your own, the chances are you would throw up your hands also and close shop. And still the government, and most of the people, blame the railroads, and we wonder how long it will take them to learn the bitter lesson. They say the railroads deliberately sabotaged the passenger trains by making them undesirable, but the stern truth is the people deserted them and the taxers continued to pour on more taxes."

Plaudits for color shot Dear Editor: That's an excellent photo on page one (color picture of pumpkins Oct. 31) and the fine reproduction of the NEWS does it justice. Keep up the good work. Sincerely, LOWELL D. KINNEY, Public Information Manager General Telephone Co. Muskegon

Teachers salaries

Final figures from 1968-69 contract negotiating sessions show Michigan teachers this year are among the best paid in the Midwest and the nation.

Only five years ago, a teacher armed with a bachelor's degree could expect to collect \$4,985 the first year on the job. This year the average beginning salary is around \$6,600.

Detroit claims the highest paid starting teachers in Michigan: \$7,500 per year. By contrast, Lake Linden in the Upper Peninsula starts its teachers at \$5,855.

The beginning salaries still fall short of the goal set by the 60,000-member Michigan Education Assn. It is striving for a starting point of \$8,000 a year.

The MEA also wants \$16,000 in 10 years for teachers with master's degrees. Presently Dearborn's District No. 8 pays the most in this maximum salary category, \$13,210 per year.

BUT MEA OFFICIALS say starting salaries aren't the only areas they're interested in. The big teacher organization says it also wants better compensation for experienced hands.

"We're trying to keep teachers in the profession," said Kai Erickson, assistant MEA secretary. "I'm sure the biggest gains this year will be in the middle levels."

Erickson said a large number of teachers are lost to industry and business in the third and fourth years because of the pay difference.

Figures show that Erickson is right about the salary boosts for experienced teachers. Van Dyke School District is an example of the move to retain teachers. Last year, teachers there with bachelor degrees could expect no more than \$10,600 a year. This year, they were given a \$816 raise, to \$11,417.

Throughout Michigan in 1967-68, experienced teachers were getting a maximum average of \$9,569 for a bachelor's degree. They can expect about \$10,100 on the average this year.

What gains this year will mean to next year's negotiating sessions is hard to say. A legislative study committee is delving into ways to prevent contract disputes in Michigan.

"OUTDATED, CONFUSING and unduly restrictive" is the way Gov. George Romney describes Michigan's housing code. He wants it revised and has appointed a 20-member blue-ribbon commission to do just that.

The commission includes local housing officials, architects, engineers, builders, trade unionists and attorneys. It also contains the state fire marshal, chairman of the board of plumbing, and chief of the environmental health planning unit.

Romney is hopeful the commission will come up with some recommendations for presentation to the 1969 legislature.

"A modern, uniform code oriented toward performance standards is necessary if we are to be receptive to the technological changes and improvements which

are rapidly occurring in the housing industry," he said.

SOUTHERN Michigan's Grand River, which snakes some 140 miles from near Jackson to Grand Haven, will be stocked with salmon next year, according to the State Conservation Department.

Fisheries officials say they will decide soon on exactly how many salmon will be planted and where the fish will be released.

They said it appears, however, that about 100,000 young salmon,

probably coho, will be stocked in the Grand upstream from the dam at Lyons.

They said this would provide just enough salmon for sport fishing in the stream itself and contribute to off-shore action in the Grand Haven area.

The releases would bring the first runs of "jack" salmon to the river next fall. The fish would weight about two to three pounds. The adult runs would follow in the fall of 1970, offering fishermen catches in the 15 to 20-pound category.

Says bright middle-class child gets best breaks

FOWLER—The bright middle class child from the affluent suburb will pay dearly for his education if it is gained at the expense of poor education for others.

So say the sponsors of American Education Week which is being observed in Fowler Nov. 10-16.

American schools are deeply committed to equal educational opportunity for all, but the commitment is not yet a reality. According to Gary L. Schray, president of the Fowler Education Assn., this year's theme of the annual visit-the-schools observance "America Has a Good Thing Going—Its Schools," will emphasize that some children are "haves" and some are "have-nots" as far as educational opportunity is concerned.

Even within a single system, Schray added, some schools are better than others.

In large metropolitan centers where both affluent suburbs and miserable slums exist within the city limits, parents in the wealthy areas fight for a bigger slice of the system's financial pie to be allotted to their schools—and frequently get it.

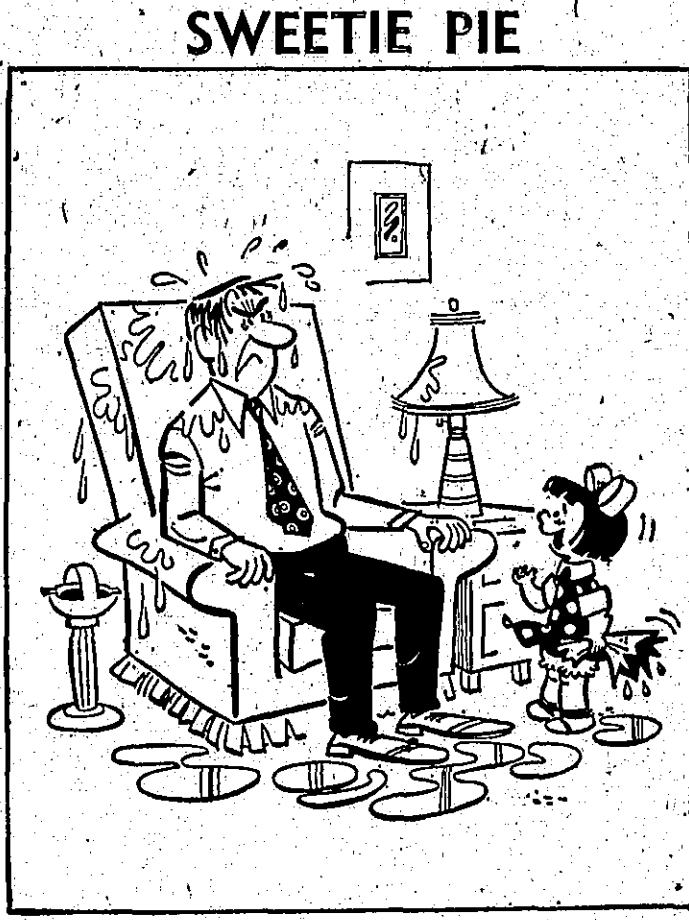

AS A RESULT some slum schools wind up with nothing redeeming and everything wanting.

The city slum child is not the only one, however, who is being educationally shortchanged. Rural schools, too, have an uphill struggle in bringing educational programs up to par, although district consolidation has helped.

Quoting a prominent education writer, Schray said, "In some poor Appalachia counties, the schools spend on four children what the suburbs spend on one; the son of a commuter earning \$30,000 a year gets his books free while the children of a jobless mountaineer must buy theirs.

A child's educational opportunity, Schray pointed out, should not be dependent on where he lives or how much money his father earns. Nor should he be cheated because of his academic ability... or lack of it.

The educational fashion in the late 50's was to concentrate on the gifted child; since the early 60's emphasis has swung to those of lower academic ability, especially the culturally disadvantaged.

Altar Society president watches over 13 guilds

Mrs George French has been president of St. Joseph Altar Society since last June. The society is divided into 13 guilds. Each guild has its own projects for the year. They function as a unit on large projects and have joint get-togethers, such as the mother and daughter banquet scheduled for May 5.

Their main function is the maintenance of the altar, the cultivation of the spiritual and social life of its members, and contribution to charitable activities or community projects. They keep the church clean and buy vestments, candles, breads and wines for the altar. When flowers are not available through contributions, they also buy them.

The next big event for the Altar Society will be their annual ham dinner on March 23.

Other officers of the society are Mrs Keith Rosekrans, vice president; Mrs Robert Purtil, secretary; Mrs Mark Pung, treasurer; and Mrs Francis Motz, corresponding secretary. Spiritual director is Rev William Hanckerd.

Mrs French lives with her family at 103 N. Lansing Street. They have three children, LuAnn 15, Lori Jeanne 12, and Patricia Ann 6. She has also been a foster mother to 13 children in the past eight years.

Her whole family helps with the smaller children and they all go camping and fishing together. Mrs French says she also enjoys "Sewing, playing cards and doing things with the kids."
