Notes History

ST. JOHNS The Paine-Gillam-Scott 1860 Historic House is celebrating Michigan Museums Week, Oct. 5-11, with "A Wealth of Clinton County History". The Paine-Gillam-Scott Museum will be open on Oct. 5 from 1-5 p.m., Oct. 8 from 2-8 p.m., and Oct. 10 from 1:30-4:30 p.m. as part of the statewide observance.

Fire Dept.

ST. JOHNS The St. Johns Fire Department will host an open house at the fire hall on Oct. 4.

There will be demonstrations of the proper use of fire extinguishers at 10 a.m. and 2 p.m. There will also be rides for the kids and free cider and donuts, compliments of Beck's farm.

The event will begin at 10 a.m. and last until 4 p.m.

The open house is part of National Fire Prevention Week, Oct. 5 to 12.

Democrats

EATON RAPIDS Yes, Virginia, there is a Democratic Party in Clinton County. There will be a fundraiser for the Clinton County Democrats and the Eaton County Democrats on Saturday, Oct. 11.

The fundraiser will feature a bonfire, hayrides, beer and cider, food, and a country western band.

The event will be held from 7 p.m. until midnight at the Wagner Stoney Acres, 11394 E. Columbia Rd., Eaton Rapids.

Tickets are \$7.50. Call 669-9626 or 646-6929.

Airstream

ST. JOHNS The Wally Byam Caravan Club International, a group of Airstream Trailer enthusiasts, will hold a rally Oct. 9-12 at Smith Hall at the Clinton County Fairgrounds.

Hosts for the event are Lewis and Delmas Moldenhauer of St. Johns and Ralph and Velma Clark of Owosso.

The program for Oct. 9 will include performances by high school musicians; on Oct. 10 there will be a talent show; on Oct. 11 there will be a Christmas Dance in keeping with the "Christmas in October" theme of the rally.

There will be a hospitality room and fresh coffee available all three days. The public is invited.

4th Friday

ST. JOHNS The Fourth Friday count of students attending St. Johns schools revealed no surprises.

State education department officials conduct the count each year on the fourth Friday of classes at all public schools. The count is significant because the number of students attending school on the fourth Friday affects the amount of state aid the district will receive for the year.

The total number of students in school on Friday — including Community Education students — was 3414.

"We're just about where we thought we'd be," said Superintendent Earl Gabriel.

School AIDS policy adopted

The St. Johns Board of Education on Sept. 22 adopted a policy for the control of communicable diseases in the schools.

Communicable diseases considered of serious concern to the community or the afflicted individual will be referred to a Communicable Disease Review Panel (CDRP). Such diseases include AIDS and related diseases, Hepatitis B, and other diseases that pose potential public health threats.

The panel will consist of the superintendent of schools, a doctor

with experience in the disease at hand, the doctor treating the individual who has the disease, the health department doctor, the school nurse, and the parent or guardian of the student. Adult staff persons who have a disease or a representative appointed by them, will sit on the panel.

The CDRP will review the specifics of the case and then make recommendations regarding how the case should be handled. The recommendations will address the issue of whether the student should attend

school or be provided with home delivery of educational programs. The recommendations will also state often the case should be reviewed.

If the recommendations of the CDRP are unanimous, the panel will notify the involved individuals of its decision.

If the decision is not unanimous, a summary of each individual CDRP member's position will be provided to the superintendent. The superintendent will then make a decision.

If the affected parents or guardian

of the student do not accept the superintendent's decision they may appeal to the Board of Education.

Time limits ranging from 24 hours to several days are placed on each step of the procedure such that the maximum time it could take to reach a decision would usually be ten to 16 days.

The policy also requires those involved in the proceedings to observe federal and state privacy laws.

Other highlights of the policy:

- Children who have not been properly immunized according to public

health requirements will not be allowed to attend school.

- Communicable diseases will be reported to the Mid-Michigan Health Department as required by law and administrative regulations.

- The decision to close schools due to the outbreak of communicable disease is at the discretion of the school administration. Consultation is available from the health department.

- Mandatory screening of employees or students as a condition of attending school shall not be required.

Parents question Dr. Tooker about AIDS

By RICH WERTZ
Editor

Three days after the St. Johns Board of Education adopted a communicable disease policy, parents of school children and other area residents gathered Thursday evening to discuss the disease AIDS with Dr. Richard Tooker, the medical director of the Mid-Michigan District Health Department.

Tooker began his presentation to an audience of about 80 residents and 15 news reporters and television cameramen by saying St. Johns had responded constructively to the news the previous week that a school-age child of the district had contracted AIDS.

"I've just been real impressed with St. Johns," said Tooker. "There's a lot of integrity, there's a lot of maturity, and there's a lot of caring and concern in this community."

Tooker then repeated a presentation about the disease that he had made earlier in the day for about 350 employees of the school district.

Tooker said AIDS is one of several different ways the immune system of the body can be damaged. Radiation poisoning and some types of cancer can also leave the body defenseless against disease, he said.

Tooker also repeated something often stated in literature about AIDS — that there is a second epidemic associated with the spread of AIDS. The second epidemic is an epidemic of fear of the disease, he said, adding that the "AFR-AIDS" is "sometimes more difficult to deal with than the disease AIDS."

He also said:

- AIDS is believed to have entered the United States in 1978. The disease is believed to have originated in Africa. A disease that affects a certain type of monkey there has a similar chemical structure. The disease could have been contracted

Photograph by Rich Wertz

QUESTIONS — About 80 St. Johns area residents had questions about AIDS at an informational meeting at Rodney B. Wilson Middle School last week.

by humans who were bitten by the monkeys or who ate the meat of the animals.

- By 1981 a handful of AIDS cases had occurred in the U.S.

- There are currently about 25,000 cases of AIDS in the nation. The majority of those cases are in New York and California. Of the AIDS cases in Michigan, the majority are in Detroit. Clinton County has one case of AIDS.

"We will have more, no question about it," he said. "Everybody will have more before we see this taper off."

- Of those individuals who have been exposed to the AIDS virus, about ten percent have the AIDS disease. Another 30 percent have AIDS Related Complex — a condition in which the affected individuals suffer from prolonged weakness and disease but do have some immune

system response to infections. About 80 percent of these patients will eventually develop AIDS.

The remaining 60 percent of those exposed to the AIDS virus are in near-normal health.

- Co-factors to AIDS — the reason some people exposed to the virus contract AIDS and some do not — include alcohol and drug abuse and infection by other diseases. Drug abuse and infection tax the body's immune system, leaving it less able to fight off the AIDS virus.

Generally good health, a healthy diet and a healthy lifestyle may play a role in fighting off the disease.

- The single most important factor in determining who is exposed to the AIDS virus is behavior.

"If you engage in certain behaviors you are likely to get AIDS," said Tooker. "If you don't, you won't."

Those behaviors are sexual inter-

course with someone infected with the AIDS virus and the use of illicit drugs in which needles are shared between users.

Blood and the semen of males are where the highest concentrations of the AIDS virus are found. Rectal intercourse, or any other behavior that allows access by the virus to the bloodstream (such as sharing needles), are the surest way to contract AIDS.

Nearly three-quarters of the victims of AIDS are currently male homosexuals. The disease can be transmitted by heterosexual contact and the disease is expected to be contracted by a larger and larger percentage of heterosexuals in coming years.

Drug abusers are the area of the population in which the spread of AIDS will be most difficult to arrest.

"They don't listen to reason," said Tooker. "All they worry about is getting their next fix."

- In the past the AIDS virus was contracted through the transfusion of blood or its components. In the majority of pediatric AIDS cases (AIDS in children 13 years and younger), the disease was contracted by a children in the womb or through transfusions.

All donated blood is now screened for the virus. However, because of the long incubation period of the disease, it is expected to appear for the next several years in individuals who had transfusions before the screening began.

- The AIDS virus is sometimes found in the tears and saliva of people with advanced cases of AIDS. Such patients are invariably bedridden.

"Casual contact has never been shown to cause AIDS," said Tooker.

The AIDS virus can not survive outside the human body and it can not be transmitted through the air, by way of toilet seats or by casual physical

Dr. Richard Tooker

contact such as hugging.

"You can't get it from kissing," said Tooker. "We've never had a case where it was spread by mouth-to-mouth contact."

- Anyone who wishes to be tested for AIDS exposure may contact their doctor or area health department.

RESIDENTS asked Tooker a number of questions about the disease. One woman asked if AIDS could be spread by mosquitoes.

Tooker said there has never been a case discovered of mosquito-transmitted AIDS. He said this is probably because the sample of blood drawn by the insects is too small to have a probable chance of containing the virus — and even if it did contain the virus it would not be enough to overpower the body's ability to fight it off.

"Even if you got 100 mosquito bites, it wouldn't be enough," he said.

Police discover a \$25,000 marijuana field

By RICH WERTZ
Editor

Clinton County Sheriff's deputies last Wednesday confiscated 89 mari-

juana plants from a field near South Parks Road.

Photograph by Sharon Maybick

CONFISCATED — Clinton County Sheriff's deputies confiscated 89 large marijuana plants growing near Parks Road last week. The plants had an estimated street value of \$25,000.

The deputies removed 89 plants ranging from six feet to 11.5 feet high, said Deputy Mike Winn.

Winn said the street value of the marijuana was about \$500 per pound — for a total street value of \$25,000.

The plants were discovered by a Clinton County Drain Commission employee in the course of his duties, said Winn.

He did not reveal the identity of the owner of the land. He did say, however, that the owner had been cleared of involvement in the planting and that the owner is not believed to have known the marijuana crop was on his land.

Police have no suspects in the case, Winn said.

The marijuana was planted along a ditch one-half mile from the road, said Winn. He said it is believed the plants were transplanted from another location and not grown there from seed because the plants were not there in mid-June.

"We run into this every year," said Winn. "We'll discover the plants but never make an arrest. The only satisfaction we get is that we get it out of circulation before it hurts someone."

Most of the marijuana grown locally is sold locally, he said, adding that growers have become more secretive about their planting in recent years.

Group formed to give support to family

To the Editor:

In the past week we have been inundated with publicity about a local child with AIDS. Although the identity is not known to the public, we are all influenced by this illness, as it effects "one of our own." No matter how remote we believed the possibility of this happening in St. Johns to someone we know, we are suddenly thrust into the center of fear, speculation and controversy.

Whatever feelings you have about the AIDS scare, there is, first of all, the well-being of a child and a family at stake. Imagine having to face the terminal illness of a child along with state-wide publicity which is threatening to force us all to take a stand.

The school board, I believe, has acted wisely in its handling of this situation. By not disclosing the child's name or any other identifying information, it has protected the family as much as possible from unwarranted curiosity brought on by fear of the unknown.

We believe that this family needs to know of our caring and concern — not only for his physical well-being, but his emotional and mental well-being. I think St. Johns residents should respond to this need. We are asking that you let this family know that we share their hurt, sorrow and anguish by sending a card. Mr. Earl Gabriel has consented to see that they receive any cards or notes that you care to send. Please mail to:

Letters

Friends
c/o Earl Gabriel, Supt. of Schools
PO Box 230
St. Johns, MI. 48879

Letters should be marked "Personal-Confidential." Any monetary donations would also be greatly appreciated as we don't know what kind of medical expenses they will face. Remember, this is a child — perhaps a friend or neighbor, who is paying a terrible price for a disease he couldn't have prevented. Please let this family know that you care.

Caring friends
St. Johns
(Names withheld by request)

EDITOR'S NOTE — Clinton Bank in St. Johns has agreed to donate its services to administer a trust fund of contributions from the community to the family.

Let's provide support, not negative news

To the Editor:

An open letter to our community:
To head off criticism of one kind, let us establish that as of this date we have no knowledge of the identity of the AIDS-infected child in our town. This means that this child could be assigned to our child's classroom, just as he/she could be to yours.

With that aside, let us address the issue of the news coverage of this reality. We deeply resent attempts on the media's part to make the suffering of a family in our community "an event." Rather than looking at the human tragedy involved, we find reporters here asking

ing questions and seeking to polarize people in our town.

We are asking that all people in St. Johns offer the same respect and compassion to this family as you would to any family whose child was gravely ill. Let's give new meaning to "Friendly St. Johns," and give the people in Detroit something to really talk about.

RAVE will intervene in domestic assaults

To the Editor:

In one out of every three homes in this county someone may be abusing another family member. Many of us would like to think that this only happens in the ghettos or the inner city. It is, however, happening right here, right now.

When someone is abusing another, the whole family and even the larger community suffer. The emotional and physical damage can never be measured. Still, we do know that children who suffer or witness violence are likely to become abusers and victims throughout the rest of their lives.

In the past this community has been reluctant to admit that the problems exists here. We preferred to say that a man's home was his castle and that what went on there was nobody else's business.

For the past two years Relief After Violent Encounter (RAVE) has been facing this problem of domestic violence head-on. If you are the victim of another's abuse, let RAVE help you. If you are abusing another, RAVE wants to help you too.

None of us should close our eyes to this situation any longer. Please support RAVE financially and as a volunteer. RAVE can be reached 24 hours a day at 224-6990.

Vision of a team bus

To the Editor:

Thank you so much for sending your photographer, Sannie Montgomery, to take pictures of the Big Brothers/Big Sisters softball game on Saturday. Sannie did an excellent job and the Lansing team and ours, commented on the fact that we could get our papers to send a photographer to cover this event.

This year the score was not to our teams advantage, but it was definitely a success which will be repeated next year! (I have visions of a team bus, cheerleaders, etc!)

Thanks again.

Jody Smith
Executive Director
Big Brothers/Big Sisters

Thank you all for the cards, gifts, cares, and prayers you sent while I was recovering. Words just can't say enough!

Love,
Connie Feldpausch

"It's in the Bag"
by Bob Beck

When was the last time you said somebody didn't know "beans" about something, or described a fog as being thick as "pea soup," or called a political speech a lot of "applesauce?"

It probably wasn't very long ago, because we Americans excel when it comes to using foods in our everyday figures of speech. For example, when things go right, they are in "apple pie" order, and life is a bowl of "cherries." But when they go wrong, it's a fine kettle of "fish," or a pretty "pickle."

If a man is important, he's top "banana." If he is tall, he is a "string bean." If he's clumsy, he's "butter" fingered. If he's cowardly, he's "chicken-livered." If he's poised, he's cool as a "cucumber." If he talks too much, he spills the "beans," and if he doesn't talk enough, he "clams" up.

Moreover, he doesn't earn money, he earns "dough," or he brings home the "bacon." And if he's working for "peanuts," his wife may "egg" him on to "butter" up the boss.

If something is good, it's a "peach." If it's bad, it's a "lemon" — and that may lead to a "rhubarb." But someone will say it's just sour "grapes."

You may think you deserve an "egg" in your "beer," but if you're not worth your "salt," you may wind up eating humble "pie" — and that would be getting you just "desserts."

And since "dessert" is the final course, I'll close this week by saying you may think what I have said is a lot of "applesauce," but as friends and customers, you are great. In fact, you take the "cake." Thank you for shopping Beck's.

Editor's notes

Pushy press?

Rich Wertz

Is the press too pushy?
I know there are a lot of people around town right now who think so. The number of television crews wandering around town in the last two weeks did seem to be reaching a level of absurdity at times.

Still, the way I see it they were just doing their job. That is not, of course, a license to behave unethically or irresponsibly. But I didn't actually see anything on television that looked irresponsible or unethical. Of course, I hardly watched any television news. I prefer newspapers.

Also, I am not a parent. I'm not going to feel quite as strongly about a television news team poking around the neighborhood as, say, a parent who is still wondering what to tell the children about AIDS — and then hears the children are discussing the disease with strangers while the cameras roll.

I can understand why parents would resent that. Still, I am in my little old country editor sort of way a member of that vast and shaggy animal called the news media. I feel rather strongly that the press has an obligation to report beyond the surface of the story. The best way to do that is to talk directly to the people who are affected by whatever is going on. I think the views of young people and children are important.

That's not to say anybody has a right to corner unwilling children on the way home from school and badger them about what they know, think, feel or have heard about AIDS. It's only to say I don't think there's anything wrong with talking to children to see what the story looks like from their perspective. If they are scared to death we should know that. If they don't take the danger of AIDS seriously, we should know that.

Photograph by Rich Wertz

PUSHY? — Where do you draw the line?

All adults should recognize that they are more powerful than children and that we have a responsibility not to abuse that power. I would worry more about manipulative television commercials aimed at children than I would a news reporter. Those commercials are trying to tell children what to want. The news reporter is only asking a few questions. That's what I think. What do you think?

Remembering when

By RHONDA WESTFALL
20 Years Ago

A \$1,073,000 project for the construction of two new additions to Clinton Memorial Hospital and the updating of existing hospital facilities was approved by the hospital's board of trustees.

The new, two-story addition, will extend west from the present structure and will house the obstetrical

department and nursery on the second floor. The ground floor will be occupied by a lobby and waiting room, administrative offices, central supply room, and physicians' conference room.

The addition of 15 new patient beds will increase the hospital's capacity to 92 beds.

Card of Thanks

We wish to express our appreciation to all who remembered us with cards, flowers, gifts, and other acts of kindness at the time of the death of our dear mother, Frances Duchi. Your thoughtfulness will be an enduring comfort.

Ellen and Marvin Way

Way-Witteveen Reside in Grandville

The First Congregational Church in St. Johns was the setting of the Sept. 6 wedding of Ellen Leslie Witteveen and Marvin Anthony Way. The Revs. Jay Terbush and Hugh Banninga officiated at the double-ring, 2 p.m., ceremony performed before 225 friends and relatives of the couple.

The bride is the daughter of Maurice and Diantha Witteveen of St. Johns. The groom is the son of Marvin Way of Shelby, Mich., and Sandra Way of N. Muskegon.

Garlands of springerl, with nosegays of pink Gerbera daisies, white daisy mums, and babies breath graced the choir screen. The altar flowers and flowers circling the Unity Candle were Gerbera daisies, pink and white carnations, white daisy pomps, babies breath, and blue statice.

Special music was provided by Tina Trefil, who sang "The Gift of Love," and "You Made Us for Each Other." The Chancel Choir, under the direction of Don Valentine, sang "O Lord Support Us All the Day Long," accompanied by Jeff Richards, pianist. Kevin O'Connor was organist.

For her wedding the bride wore a gown of white taffeta, with a bateau neckline, dropped waist, and long sleeves. The bodice and sleeves were made of white lace and seed pearls. Her fingertip veil was one that was worn by the bride's mother at her wedding twenty-five years ago.

She carried a cascade of phalaenopsis orchids, white roses, babies breath, and eucalyptus.

Serving as maid of honor was Sarah Witteveen, sister of the bride from Inkster. Bridesmaids were Melissa Martis and Heidi Munger, friends of the bride from St. Johns; Beth Sanford, college friend from E. Grand Rapids; and Tammy Way, sister of the groom from N. Muskegon.

They wore tea length dresses of periwinkle blue crepe-de-chine and carried baskets of shell pink Gerbera daisies, Sonia roses, springerl, eucalyptus, daisies, alstermeria, and babies breath.

Best man was Scott Collins, college friend from Grand Rapids. Groomsmen were Steven Jekel and Stephen Keizer, college friends from Grand Rapids; Kevin Gaffney, from Shelby; and Peter Witteveen, brother of the bride from St. Johns.

Ushers were David Witteveen, cousin of the bride from St. Petersburg, Fla., Paul Lundin, cousin of the bride from White Plains, N.Y., Daniel Dunn, friend of the couple from Grand Haven, and Richard Osterhout, friend of the couple from Mt. Clemens.

An outdoor reception was held at the home of the bride's family following the wedding. Tables were decorated with pink, blue, and lavender balloons which the guests released when the couple departed. Music was provided by pianist Jeff Richards, and dinner music was provided by a string quartet.

Special guests included relatives from Fla., Calif., N.Y., as well as several Michigan cities.

Following a honeymoon trip to Traverse City, the new Mr. and Mrs. Way will be at home in Grandville, Mich.

Marcella and Loyd Seifert

The Seiferts Celebrate Silver Anniversary

Loyd and Marcella Seifert will celebrate their 25th wedding anniversary on Sept. 30. An open house will be hosted by their children on Oct. 4 at the Ashley Sportsman's Club, Hollister Rd., beginning at 6 p.m. Friends of the family are invited to attend.

Womans Club's first meeting held at Crystal Sailing Club

Members of the St. Johns Womens Club held their first meeting of the year with a pot-luck salad luncheon at the Crystal Sailing Club on Sept. 24.

Dee Morriss, president, welcomed three new members: Virginia Sanchez, Mrytle Parker and Bea Frechen.

Morriss gave a short talk about Girls Town, a home for disturbed girls at Bellville, Mich. Morriss is a member of the state board which governs the home as a project of the Michigan Federation of Women's Clubs and local Federated Clubs throughout the state.

The next meeting will be held at the home of Virginia Sanchez. Plans will be made at this meeting for the West Central District meeting of the Michigan Federation of Women's Clubs which will be hosted by the St. Johns club on Oct. 14 at the First

Woman educators meet at Uncle Johns Cider Mill

A chapter of the Delta Kappa Gamma Society International, composed of women educators from Clinton and Shiawassee counties, met recently at the Beck farm, Uncle John's Cider Mill, north of St. Johns.

President Sally Boron conducted the business meeting and was in charge of the initiation ceremony.

Ricki Dean of St. Johns and Lois Boone of Henderson were initiated and became members of the

Alpha Eta Chapter. The chapter has 42 active and reserve members composed of outstanding women educators in the two counties.

The purpose of the September meeting was to make plans for action around the national theme, "The Evolving Learning Environment: Problems, Promises, and Prospects."

Members also received their committee assignments and booklets for 1986-87.

Fowler student designated qualifies for Merit program

Michael Pohl, a Fowler High School student, has been designated a commended student in the 1987 National Merit Scholarship Program. He will receive a letter of commendation in recognition of outstanding academic promise.

Participants entered the current Merit Program by taking the PSAT/NMSQT in Oct. 1985.

Family focus

Drinking decaf

Dawn Harris

Decaffeinated coffee has been on the market for several years now. But some people still worry about the possible health risks associated with the decaffeination process.

A common process involves the use of a chemical called methylene chloride. This chemical, a popular industrial solvent, is a chlorinated hydrocarbon that is chemically related to other, demonstrated cancer-producing agents. Some hairsprays contain methylene chloride, which has caused cancer in animals when inhaled.

According to Mark Uebersax, associate professor of Food Science and Human Nutrition at MSU, the use of methylene chloride in the decaffeination process is safe.

Inhaling methylene chloride and using it in decaffeination are two different things. Inhalation of methylene is a direct exposure. In the decaffeination process, methylene chloride removes caffeine but doesn't remain in the finished coffee product. The low methylene chloride residues left from the decaffeination process are virtually insignificant.

According to the Food and Drug Administration, the decaffeination process leaves residues below .1 part per million (ppm), far less than the permitted level of 10 ppm. The FDA says such low residual levels have a risk of less than one cancer per million people over a lifetime of consumption, or virtually no risk to the public health.

A company's first concern is the safety of its products. Though the methylene chloride decaffeination process is essentially safe, many companies are putting consumers at ease by using the water process to decaffeinate coffee, even though it's not any safer. A disadvantage of the water process is that it removes more of the flavor compounds in coffee than the methylene chloride process.

The concept of food safety, as viewed by both scientists and government regulators, includes a constant comparison of risks and benefits. One must weigh the risks against the benefits when considering whether to consume or use something that may be harmful to health. It should be clear, however, that zero risk or absolute safety in any area, including food, is unattainable.

Food and diet-related areas with variety and moderation in food intake is most important. For people who are concerned about their health and are also confused and bombarded with a constant flow or new and updated information about food products and chemicals they come into contact with, variety and moderation are probably the best guidelines available.

Financial focus

Compounding

By Chuck Dicken

In grade school we learned the magic of compounding. Remember when the teacher explained how \$10 in the bank earning eight percent for one year would grow to \$10.80? The next year that amount, earning the same eight percent, would be worth \$11.66 and on and on. The point was we were earning interest on interest by letting it accumulate. It sounds simple now, but then it was a bear to understand.

The fact is some investors today have forgotten the magic of compounding even though it's still one of the most valuable tools in the accumulation of wealth. If you can manage to defer receiving income from investments and instead allow that income to accumulate and compound, your estate will benefit from that same magic of earning interest on interest.

To illustrate the power of compounding, consider a \$10,000 investment with no fluctuation in the value of principal. With monthly income reinvested at 10 percent, that original \$10,000 nearly triples in 10 years to \$27,070. The same \$10,000 at simple interest only grows to \$20,000 in the same 10 years — over \$7,000 less without the power of compounding.

Over 20 years the numbers are more dramatic. Compounding the same \$10,000 monthly at 10 percent yields a whopping \$43,281 more than you'd receive by

earning simple interest. The point is, an investment from which all income is withdrawn yields only simple interest each year. In our example, if the \$1,000 annual interest is withdrawn, the following year there remains only the original principal to earn interest. By allowing the interest to be reinvested and compounded, you see the dramatic effect it has on the accumulation of wealth.

Another important lesson is the selection of the highest available yield compatible with your safety requirements. Ten thousand dollars compounding monthly for 20 years at 12 percent grows to \$108,926. That's more than double the value of the same investment compounding at 8 percent — \$49,268. So, when investing serious money for retirement or education, it's vital to prudently investigate your investment opportunities available to meet your objectives.

When you do invest, remember the importance of high interest, but, above all, don't forget the magic of compounding.

Price tag switching and shoplifting would have stiffer penalties under bill

Shoplifting and price switching would become retail fraud and would carry stiffer penalties under a three-bill package currently being considered by the House Judiciary Committee, reports 89th District Representative Gary Randall.

Under House Bills 5591, 5592, and 5593, a first offense less than \$100 would be considered second degree retail fraud, a misdemeanor. Subsequent offenses or any offense more than \$100 would be considered first degree retail fraud, and would be considered a felony by the prosecutor.

In addition, the merchant may bring the charged person into small claims court to recover the loss plus \$100. A criminal prosecution could result in even higher fines.

Legislative interest in this package of bills has been promising. Committee testimony has demonstrated the need for upgraded laws in this area.

Under present law, price switching is difficult to prosecute, and the retailer is unable to detain the suspect until police arrive. The new bills would simplify the law, provide for pre-arrest detention by the merchant and discourage repeat offenders.

Price switching and shoplifting are serious offenses, and should be treated as such. Shoplifting and price switching cost retailers millions of dollars every year. Those losses contribute to higher prices for consumers.

DeWitt tanning clinic opens

Tom and Lynley Terranova hope residents of the DeWitt area want to keep their summer tans as winter approaches: she's just opened the Solar Salon, a beauty salon in downtown DeWitt.

The salon at 209 S. Bridge offers haircuts, manicures, and acrylic and solar nails. The shop is open Monday through Thursday, 9 a.m. to 8 p.m.; Friday and Saturday, 9 a.m. to 5 p.m. Terranova says the hours and services will eventually be extended.

Village Carpet opened in Elsie Sept. 22

Village Carpet, Ltd. opened for business in Elsie on Sept. 22.

"We have everything from indoor-outdoor to the most luxurious livingroom carpet," said Manager Donna Smith.

The floor covering store offers a choice of 1,000 samples from two

distributors. It also offers vinyl flooring by Tarkett, ranging in price from \$8.99 to \$29.99 per yard.

Carpet pads and installation is also available. Additionally, the store offers free in-home estimates.

"We are carrying only quality," said Smith. Smith said the small size

of the business makes possible low prices and a great deal of personal attention to customers.

For the next two weeks Village Carpet will offer a \$2 per yard discount on selected orders as a grand opening special.

Village Carpet, 114 E.

Main, Elsie, is open Monday 9:30 a.m. to 3 p.m.; Tuesday through Friday 9:30 a.m. to 5 p.m.; and Saturday 9:30 a.m. to 4 p.m. Hours will be extended by appointment.

Moore begins work at Federal Reserve

Anne Moore, of St. Johns, has begun a semester long internship with the Detroit Branch of the Federal Reserve Bank of Chicago.

Moore is a 1984 graduate of St. Johns High School. She is currently majoring in the field of economics at

Albion College. The Detroit branch of the Federal Reserve Bank provides financial services to the U.S. government and depository institutions.

Moore will work in the customer services department of the bank during her internship.

Kurt's Appliance Center Inc.

SERVICE 224-6567

10 disaster area centers are open

Disaster application Centers opened in ten locations across central Michigan on Wednesday, Sept. 24, to begin taking applications from persons who were affected by the recent flooding. The disaster aid is the result of a request by Governor James Blanchard to President Reagan.

The declaration designated 22 counties in central Michigan eligible for individual assistance. They include persons living in the counties of Bay, Clare, Clinton, Gladwin, Gratiot, Huron, Ionia, Isabella, Kent, Lake, Mason, Mecosta, Midland, Montcalm, Muskegon, Newaygo, Oceana, Osceola, Ottawa, Saginaw, Sanilac, and Tuscola.

The initial DAC locations include Vassar; Bay City, two centers in Saginaw, St. Charles, Midland, Alma, Big Rapids, Belmont, and Scottville. Additional assistance centers opened Sunday, Sept. 28, in Huron, Sanilac, Caro, Mt. Pleasant, Baldwin, Evert, Montcalm, Newaygo, Muskegon, and Hart.

Persons affected by the flooding may apply for assistance from the various federal and state agencies at the one-stop centers.

The DACs will be open from 10 a.m. to 7 p.m. daily.

A toll-free disaster hotline has been established for persons to call and receive information about disaster aid programs. The number is 800-992-2585. The hotline number will operate from 10 a.m. to 7 p.m. daily.

Insurance agent as soon as possible.

Government-provided assistance is normally not

available for damage or loss that is covered by an individual's insurance.

Programs which may be made available to disaster

Federal and state officials urged people to take advantage of the information available at the Disaster Application Centers. "It's important for people to be aware that disaster assistance is not a form of welfare," said Federal Coordinating Officer Ronald Buddecke. "Disaster aid is paid for by all taxpayers, and it's available whenever the President issues a disaster declaration such as the one now affecting Michigan."

However, Federal Coordinating Officer Ronald Buddecke cautioned that disaster aid only covers losses which are not covered by insurance or other aid programs. "People should be aware also that disaster aid does not ensure a person's total recovery," Buddecke added. He also said disaster applicants should not expect immediate aid from the various federal and state programs. "Losses must be verified and damage inspected before assistance can be provided," he added.

Persons visiting the Disaster Application Centers will receive information about all available assistance programs. Eligible persons may submit application forms for specific programs.

Disaster officials said the DACs will be open as long as necessary to accept applications and that those persons who do not have immediate needs might want to wait a day or two before visiting a center. They emphasized that it is important for anyone who sustained damage or losses from the storm to contact their in-

victims include:

- Temporary Housing Assistance, administered by the Federal Emergency Management Agency, may be available to individuals and families whose homes were destroyed or made uninhabitable as a result of damage from the flooding.

People who are currently living in housing provided by Red Cross or other agencies, or who are staying with friends or relatives are urged to visit the Disaster Application Center nearest them.

A program to provide minimal home repair may also be available to assist homeowners in making essential repairs to their residences.

- Low-interest loans from the Small Business Administration (SBA) will be available for homeowners, renters, and business owners who suffered property damage. These loans will be available to eligible applicants for reconstruction of dwellings and replacement of contents and personal property.

Homeowners may borrow up to \$100,000 for structural repairs and up to \$20,000 for personal property. Renters may borrow up to \$20,000 for personal property, while up to \$500,000 may be loaned to businesses.

- Red Cross representatives will be available at the Disaster Application Centers to provide any additional assistance for persons or families with immediate needs.

- The Internal Revenue Service (IRS) will assist disaster affected taxpayers in computing casualty loss deductions and amending tax returns, which could

result in a prompt refund.

- Grants may be made to individuals and families who have serious, immediate needs which resulted from losses from the storm which cannot be met by other government assistance programs or insurance.

- Information regarding assistance from the Veterans Administration and Social Security Administration will be available. Such assistance may include the replacement of lost Social Security checks or helping with VA loans and benefits.

If possible, persons applying for assistance should bring to the center personal identification and be prepared to answer questions on insurance coverage. Persons who have flood insurance are asked to bring their policy numbers with them when visiting the DAC. Other documentation or photographs of damage are not necessary for the initial visit to the DAC.

The initial Disaster Application Centers will open in the locations listed:

The following centers will operate until further notice. Bay City, Bay City Community Center, 800 Kennedy Dr.; Saginaw, St. Mary's School, 621 Hoyt St., and Saginaw Township School, 3465 N. Center Road; St. Charles, Bridgeport Township Hanlon Hall, 4190 Brown St.; Midland, Midland Community Center, 2001 George St.; Alma, Alma Community Center, 301 State St.

The locations for the follow-on Application Center locations will be announced later for Huron, Sanilac, Isabella, Lake, Osceola, Muskegon, and Oceana counties. Individuals may make application at any of the centers.

Two US-27 accidents result in close calls

Seatbelts probably saved the lives of motorists involved in an accident on US-27 north of St. Johns last Friday, said Clinton County Sheriff Deputy Mike Winn.

Winn said a car driven by Rodney Taylor, 21, of 9038 Maple Rapids Rd., Maple Rapids, was in the median of US-27 near Marshall Road at 2:49 p.m. Taylor pulled onto the southbound lane into the path of a car driven by Isaly Butters, 19, of Farmington Hills. Butters' vehicle struck Taylor's car.

Both drivers and two passengers in the Butters' vehicle suffered bumps and bruises in the collision, Winn said. Taken by Clinton Area Ambulance to Clinton Memorial Hospital was a passenger in the Taylor vehicle. Debrew Andrews, 19, 8319 N. DeWitt Rd., St. Johns, was treated at the hospital and released.

Taylor was issued a ticket for careless driving. Both drivers and all passengers involved in the accident were wearing seatbelts which probably saved some of their lives, said Winn, who witnessed the accident. "You better believe it," he said. "The potential was for a fatal there if it had not been for seatbelts."

IN A SEPARATE Perrinton man sustained minor injuries in an accident on US-27 on Thursday.

Timothy A. Colvin, 21, of 2709 Roosevelt Rd., was traveling southbound through a construction area one-half mile south of Parks Road at about 1:30 p.m. when he slammed into the side of a Clinton County Road Commission truck that was making a left turn onto the road, said Winn.

Colvin was taken by Clin-

ton Area Ambulance to Clinton Memorial Hospital where he was treated and released.

Colvin said he was traveling at 60 miles per hour, said Winn. The legal speed limit in a marked construction zone is 45 miles an hour.

Colvin was issued citations for "basic speed" violation and for failure to wear a seatbelt.

The driver of the Road Commission truck, Leon Nurenberg, 38, of 2420 W. Centerline Rd., St. Johns, did not require hospital treatment following the accident, Winn said.

CACS Board to be elected Oct. 6

Election of representatives to the Capital Area Community Services Board of directors for Clinton County will take place on Oct. 8 at 1 p.m. Persons interested in voting and/or serving should plan on attending the meeting at

Capital Federal Savings and Loan Community Room, 301 N. Clinton, St. Johns.

Community Services provides services to the low-income residents of Clinton County. Funding for the services comes

from state and federal funds. The representatives elected will serve on the governing body of these funds allocated to CACS. The representatives should be low-income, meeting the 125 percent poverty index guidelines and a Clin-

ton County resident. Transportation and mileage will be provided, as will babysitting fees.

For questions or transportation information, contact 224-6702. Persons should not park in the bank parking lot.

Oct. 6 last day to register for Nov. General Election

Secretary of State Richard Austin reminds Michigan residents that Oct. 6 is the last day to register for the Nov. 4 general election.

"Almost 855,000 adults have not registered," Austin said. "Residents who have not registered to avoid jury duty should know that the voter registration lists will no longer be used to select

jurors. Beginning in 1987, these lists will be drawn from Michigan driver license and personal identification card files."

Persons who are 17 years old, but will be 18 by election day, are also urged to register.

To vote in Michigan, a person must be a United States citizen, reside in the city or township for at least 30 days before the election,

and be at least 18 years old. Persons who have moved in the last few years should check their voter registration card to see that they are registered at their new address.

Registration applications can be completed at any Secretary of State branch or at the local city or township clerk's office through Oct. 6.

Very good year for the 1986 Capers

TOP — Bill Roll, having just performed the song "I Need Music," takes backstage while Carol Warren Murray sings "The World."

BELOW — A crew of 13 sang and danced their way through a spirited medley number called "Movin'." They were Emma Khavari, Dorothea Daley, Carole Walker, Heather Pero, Carol Duguay, Renee Turcotte, Gerry Nichols, Anne Beauchamp, Mel Warren, Barbara Wiseman, Cheryl Arens, Boll Roll and Brandon White.

Photograph by Rich Wertz

The Clinton Memorial Hospital Auxiliary and friends staged a freewheeling, high kicking show last weekend.

The 1986 Clinton Capers played to full houses each night of its Thursday to Saturday run — and the audiences were enthusiastic.

Carl Schmehl, of the Jerome H. Cargill Producing Organization in New York City, brought out the best of local talent with his staging and direction.

Among the cavoring Caperers were:

- A crew of Big Wheel Waitresses, who sang a bluesy number about a "man of distinction, a real big tipper" who was eventually offered a cinnamon roll.
- Members of the St. Johns Community Choir, led by St. Johns Chamber Director Joann Martis and Lesley Damon, who were anything but staid when they sang an optimistic and spirited song called "Lovely in the Morning."
- St. Johns City Manager Randy Humphrey and wife Melanie, who waltzed to Don Valentines rendition of "Dance a Little Closer."
- Everyone else too numerous to mention, who

performed like pros in a production that was at times romantic, at times

nostalgic, often funny and that swelled to a triumphant finish with the whole

company singing America the Beautiful and America.

PUBLICATION NOTICE

Notice is hereby given that 3-J, INC., a Michigan corporation, has been dissolved pursuant to Section 804 of the Michigan Business Corporation Act. All persons who are creditors of said corporation shall file any claims against the corporation that may exist with JOSEPH, WOLF & ENDEAN, P.C., 5090 State Street, C-201, Saginaw, Michigan, 48603, on or before March 10, 1987. As used herein, the term "creditor" means a person to whom the corporation is indebted, and any other person who has a claim or right against the corporation, liquidated or unliquidated, matured or unmatured, direct or indirect, absolute or contingent, secured or unsecured. A creditor who does not file a claim as required by this Notice and all persons claiming through or under said creditor, are forever barred from suing on the claim or otherwise realizing upon or enforcing it.

Clinton County News 224-2361

Calendar

WEDNESDAY, OCTOBER 1

Bath Shootin' Stars Square Dance Club will sponsor square dances on Wednesday nights for beginner couples, and for those who wish a refresher course, at the elementary school gym in Bath. Registration is Oct. 1 and 8 at 8 p.m. Oct. 1 is a free night. Wendell Law will instruct.

The Euchre Club meets at the Senior Citizens Center. Cake and ice cream will be served at the special party.

THURSDAY, OCTOBER 2

"Lucky Thursday" at the Clinton County Senior Citizens Center. Two free meals given away.

The Congregational Christian Church in Maple Rapids will have their annual turkey supper and bazaar. Serving for the family style supper begins at 5:30 p.m. Cost is \$5 for adults, \$3 for children under 10, and pre-schoolers are free. The bazaar opens at 4 p.m.

Meijer luncheon at 12 noon at the First Congregational Church sponsored by Findlay Manor volunteers. Tickets are \$3 each and must be purchased in advance. Contact Jean Ormsby at 224-8289, Judy Price at 224-3085, or Findlay Manor at 224-8936. Proceeds to be used to purchase wheelchairs.

SATURDAY, OCTOBER 4

Ithaca Kuntry Kuzins Square Dance Club will dance at the S Elementary School from 8-11 p.m. Roger Nichols will be the caller, Flossie Saurman will call rounds. All square dancers welcome.

Second Annual Fallfest Arts and Crafts Show from 10 a.m. to 5 p.m. sponsored by the Wacousta OES 133 at the Wacousta Masonic Temple. Lots of arts, crafts, special gift, refreshments. To find Wacousta, go 5 miles west of Airport Rd. on Grand River Ave. to Wacousta Rd., then north 2 1/2 miles.

MONDAY, OCTOBER 6

MARSP will hold its next meeting at the Victor Township Hall (1/8 mile west of the corner of Shepardville and Alward Lake Roads). The furnished brunch begins at 10 a.m.

St. Johns Maple Twirlers Square Dance Club will sponsor square dances on Monday nights for beginner couples, and for those who wish a refresher course, at the Munciple Building in St. Johns. Register Oct. 6 at 8 p.m. Wendell Law is the instructor.

Clinton County Senior Citizens will serve a public lunch featuring soup, sandwiches, homemade pies and a luncheon special for \$2.50 including beverage. All proceeds go to building maintenance.

THURSDAY, OCTOBER 9

Flu shots given at the Clinton County Senior Citizen Center between the hours of 1:15 and 3:15 p.m.

FRIDAY, OCTOBER 10

A family style fish supper will be served by Wacousta Masonic Lodge 359 serving from 4:30 to 7:30 p.m. Take out dinners at reduced price. To find Wacousta, go 5 miles west of Airport Rd. on Grand River Ave. to Wacousta Rd., then north 2 1/2 miles.

GOOD WORK — Hazel Findlay Manor Administrator Mark Stapelman presents the Employee of the Month Award to Lisa Wren.

Lutherans hold drive for hospitals

Residents of St. Johns can help patients in area hospitals by donating blood at St. Johns Lutheran Church, 511 E. Sturgis Street, on Oct. 6. The blood drive, chaired by Jim and Doris O'Connor, will be held from noon until 6 p.m.

Blood consists of four major components, red cells, white cells, plasma, and platelets. Because of modern component therapy, 95 percent of all blood is transfused as components rather than as whole blood.

The Red Cross hopes to collect 100 units of blood at the drive. Donors must be in good health, between the ages of 17 and 69, and weigh at least 110 pounds.

For more information, call the O'Connors at 224-2525.

Normal School Class of '86 enjoys Fiftieth reunion day

The Clinton County Normal Class of 1936 held their 50th reunion at Cornwell Catering on Sept. 21. Those present represented 280 years in the teaching profession.

Present were: Margaret Ashley Wyrick, Ruby Warren Smith, Carolyn Otto Safford, Theda Redman Wing, Esolda Hosking Sills, Elaine Gardner Nelson, Helen Settrington Corp, Dorothy Westbrook Bird, Elizabeth Kingsbury Phillips, Helen Sturgis Hobart, Bernita Cook Fedewa, Doris Robinson Nichols, Etta A. Smith, and six guests.

Those who sent regrets were Leona Palmer Phillips, Marie Krathwohl Hockey, and Ruby Peck Stewart.

There were 20 in the

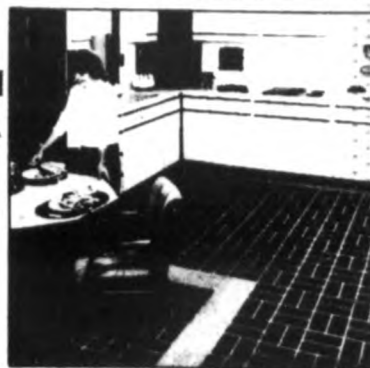

class of 1936. Clinton County Normal closed in 1937. Its classes were held in Rodney B. Wilson.

The reunion was planned by Margaret Ashley, assisted by Ruby Stewart and Etta A. Smith.

October is wildlife

New exhibit at Gallery

An outstanding array of Wildlife Art in all media from some of Michigan's finest wildlife artists will be on exhibit at the Clinton County Arts Council Gallery and Gift Shop during the month of October.

An artists' reception is planned for Oct. 12 from 1-5 p.m. Many of the artists will be available to answer questions.

Included in the exhibit are stained glass, hand-tied fishing lures, painted vignettes on minerals and wood, photography, paintings in oil, gouache, watercolor, works in pastel, pencil pen and ink, framed and unframed prints (remakes available), woodcuts, note cards and stationery — a full array of art forms presently being explored by today's wildlife artists.

Many carvers will have work displayed. Those include: **Thomas Penrod** of Bath with duck decoys; **Bill Fried** of Stanton, duck decoys and wildlife carvings; **Dick Corr** of Stanton, award winning decoy carvings and other wildlife; **Zan Harrington** of Haslett, who will demonstrate carving as well as having pieces on exhibit; **Bob Robbins** of Bath, decoys and carvings; **Chuck Ruble** of DeWitt, animal carvings and decoys; **Jim Wicks** of Lansing, president of the Waterfowl Preservation and Decoy Club of Michigan, carvings and 1/2 and 1/4 size ducks done in decorative style; and **Steve Fedewa** of Fowler, owl and duck.

Paintings in the exhibit will include work by **Theodore Lotze**, of Lansing.

"He enjoys international stature," says Gallery director **Kaye Pilmore**. "I don't know how we got him but we did."

Other painters are **Leah Lynn Taylor** of Mason with MUCC Competition originals and prints, plus note cards; **Tim Widener** of Lansing exhibiting work which will be entered in the Leigh Yawkey Woodson Competition; **James Payne** of Holt, rock, mineral, and wood paintings; **Ona Boersma** of Laingsburg, wildlife master in watercolor, gouache, pen and ink; **John Feising** of Mason, past staff artist for the Michigan Natural Resources Magazine; **Gijsbert (Nick) van Frankenhuisen** of Bath, art director of the Michigan Natural Resources Magazine; **Catherine McClung** of Dexter, original watercolors and prints; **Susan Siegrist** of Burton, famous for her Canada Goose painting and swan painting; **Pat Powers** of East Lansing, graphic artist who has sketched for the Lansing State Journal; **Larry Hayden** of Plymouth, prints; **Bonnie L. Marris** of Ada, prints of gouache paintings; **Gary David Hoffman** of Ovid, contemporary swans; **Maxine Strahle** of St. Johns, wildlife oils; **Jean Coelius** of St. Johns, two-by-two oil ducks; and **Gerald Tomlinson** of Elsie, pen and ink, watercolor and note cards.

Also featured will be hand-tied fishing lures by **James Horn** of Elsie; etchings and embossed work by **Lynn**

Meiners of East Lansing; photography by **Paul McKinley** of Carson City and **Roy Bleisch** of Lansing; stained glass by **Chris Duncan** of Lansing; and blowglass hummingbirds and sun catchers by **Carolyn and Michael Evans** of Matherton.

The Clinton County Arts Council is grateful to have as co-sponsors of the wildlife exhibit the **Ducks Unlimited** organization, **Buckhorn Wildlife Art Gallery** owners **Gale and Art Baker**, and the **Michigan Wildlife Habitat Foundation**. They will also co-host the artists reception.

The Gallery and Gift Shop is located on US-27 and N. Clinton Ave. in St. Johns, Tuesday through Sunday, from 1-5 p.m.

October classes are baskets and fly tying

Classes in basketry and fly-tying will be sponsored by the Clinton County Arts Council during the month of October. All classes will be held at the Gallery and Gift Shop, US-27 and N. Clinton Ave. in St. Johns.

Alice Smith of St. Johns will instruct the basketry classes which are planned for 7 p.m. on Oct. 7, 8 and 14. A mini-wall basket will be the project for the Oct. 7 class with a cost of \$6 for all materials included and keepable pattern. Cradles will be made on Oct. 8, with a smaller cradle as the project for beginner students, costing \$6 for materials and pattern, or a larger cradle for more experienced students for \$12. Small, round baskets will be made on Oct. 14 at a cost of \$7.

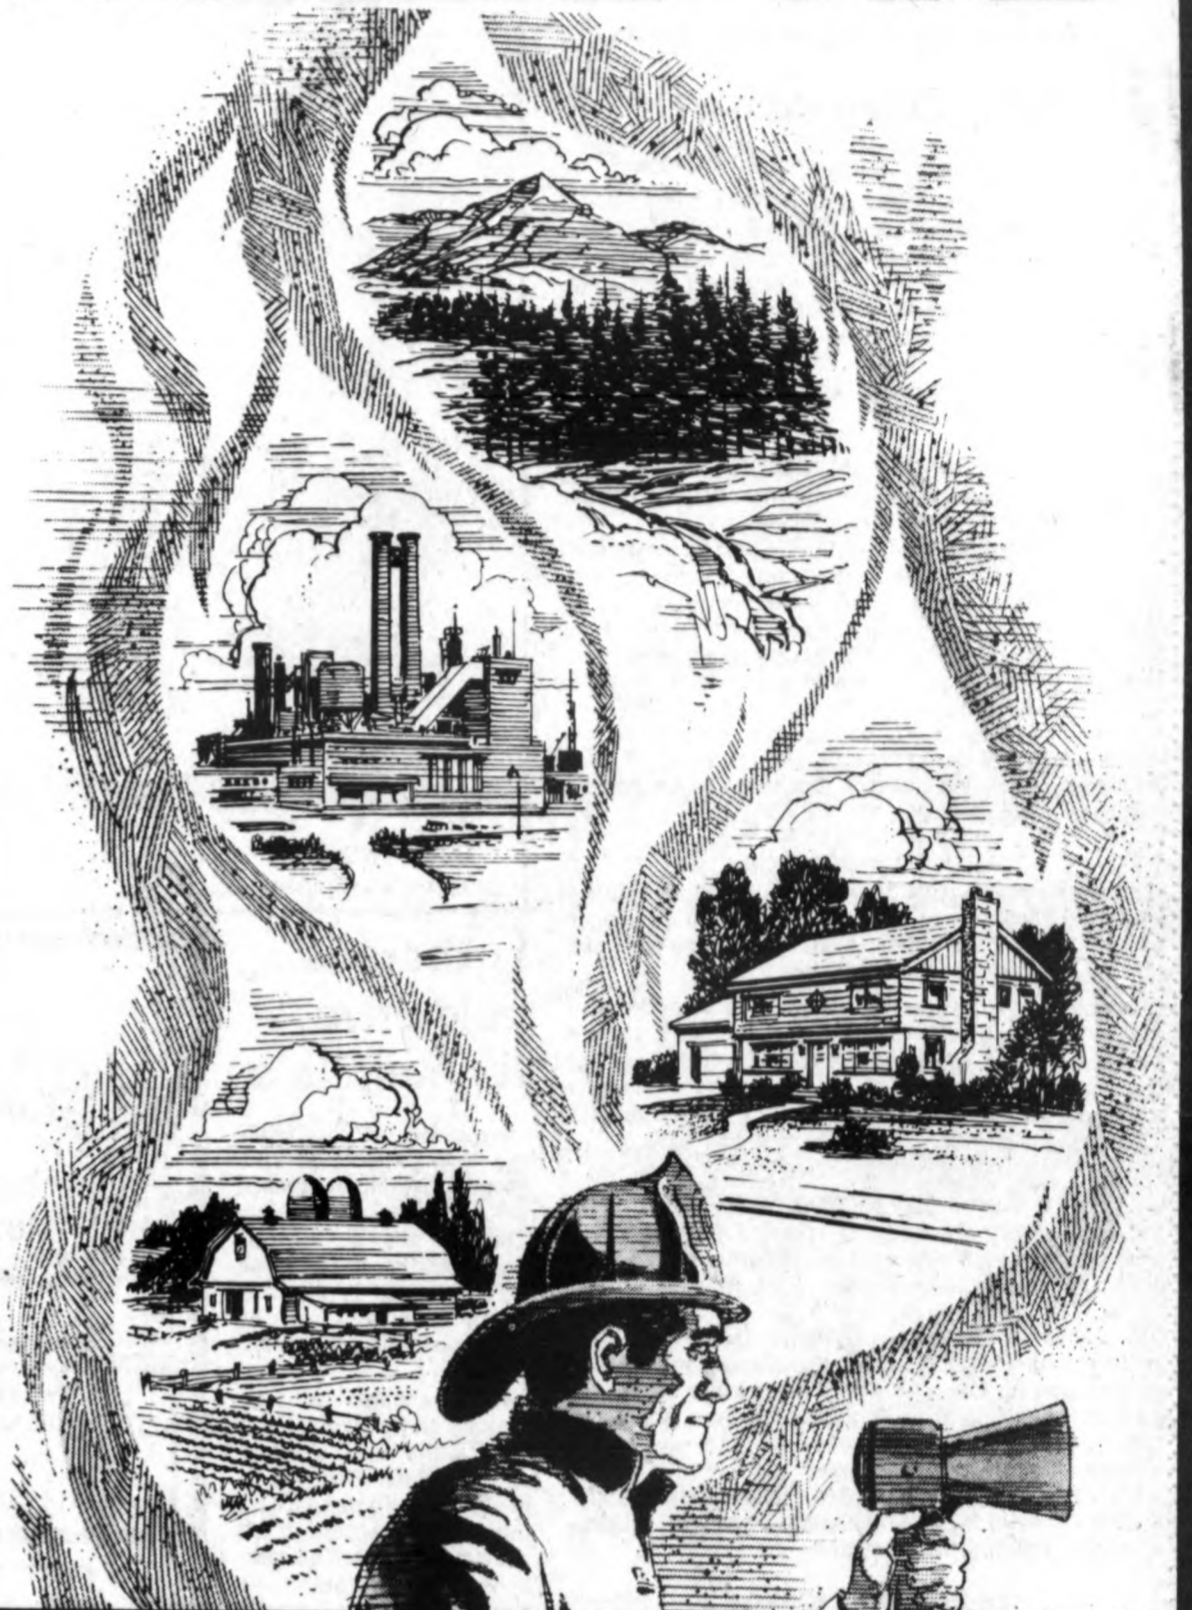

Students need to bring a small basin, measuring tape, scissors, and 12-15 spring-type clothespins.

James Horn of Elsie will instruct the fishing lure fly-tying class in a series of four classes on Oct. 13, 20, 27 and Nov. 3. All classes begin at 7 p.m.

Students will learn to tie flies for pan fish, salmon and trout fishing. Cost of the series including all materials is \$18. Fly-tyers need to bring a fly-tying vise (call the Gallery for assistance) and a small pair of pointed, sharp scissors.

For additional information and registration stop in or phone the Gallery at 224-2429, Tues. through Sun., 1-5 p.m.

PREVENT FIRE

There are two lifesaving steps you can take to avoid the tragedy of fire. First, you can learn to prevent fires by keeping areas around the home, farm and business uncluttered. Storing chemicals carefully. Keeping matches away from children. The second step is to know what to do in case you're caught in a fire. Plan fire drills. Install smoke detectors. Learn escape routes. Because careless fires can cost lives, knowing what to do can save lives. It's that simple ...and that smart.

REDWING TANKERS — Linda Strickland took first place in the diving competition in St. Johns meet last week with Alma. A number of St. Johns swimmers posted im-

Redwing tankers post good times in losing home opener with Alma

The Redwing girls swim team gave it their all in the first home meet of the season last week with Alma, but came up short 94-88.

"The girls gave a very good performance in a losing effort," said Coach Fred Meyers. "A number of our swimmers had much improved times in the meet."

First place finishes were

turned in by Linda Strickland in diving with 154.70 points, Kim Bauer in the 100 butterfly at 1:09.3, Lisa Sabo in the 100 freestyle at 1:00.26, and the 200 medley relay team of Chris Welch, Jennifer Giesecke, Erin Masarik, and Sabo at 2:05.6

The relay team was just one of the "improved" times posted by the Redwing tankers. Also improved

were Bauer in the 200 individual medley and 100 butterfly, Jane Cooper in the 200 and 500 freestyle, Molly Cooper in the 200 freestyle, Dawn Cressman in the 100 freestyle, Kara Scranton in the 500 freestyle, Chris Welch in the backstroke, and Jennifer Baatz and Nicole Freed in the 100 breaststroke.

Turning in second places

finishes were: Sabo, 50 freestyle, 27.30; Erin Masarik, diving, 108.60; Carla DuDash, 100 butterfly, 1:11.47; Scranton, 500 freestyle, 6:11.19; Welch, backstroke, 1:10.94; and

the 400 freestyle relay team of Masarik, Welch, Cooper, and Bauer, 4:13.1. The Redwings will swim at DeWitt tonight (Sept. 30). They play host to Corunna on Oct. 9.

Marauders net big b-ball win over St. Johns

The Ovid-Elsie girls basketball team claimed a 50-49 victory over MMB rival St. Johns last week, with Sheila Platner taking on the role of game-saver for the Marauders.

Platner's free throw with 1:25 on the clock tied the game, and her shot with 20 seconds remaining gave the Marauders their one-point win. She scored nine of her 12 game points in the decisive fourth quarter.

The Redwings held a 11-6 lead after the opening period of play and played even with Ovid-Elsie in the second quarter to take a slim 26-21 lead into the lockerroom at halftime.

St. Johns widened the scoring margin to 43-36 in the third period.

A combination of turnovers, cold shooting, and a strong Marauder rally saw the game turn around in the final period. The Redwings turned the ball over 11 times in that quarter and Ovid-Elsie capitalized on the errors. St. Johns made just 2 of 11 shots from the field, while the Marauders tallied 19 total points.

Platner led Ovid-Elsie with 14 points, Cheryl Batora added 10 points, Jami Martin was good for 8, and Courtney Schneider and Kristin Gibbons chipped in 6 points apiece.

Anne Brocker was the leading scorer of the game with 15 points and cleared the boards of 13 rebounds. Kerry Porter had 14 points for the Redwings, Karen Simon added 11 points and had 11 rebounds, and Monica Vasquez netted 7 points for St. Johns.

The loss gives the Redwings a 4-3, 1-1 record.

In a game played last Thursday, the Marauders lost to Hemlock in non-conference action 51-36.

Batora had 15 rebounds and 7 points to lead Ovid-Elsie, Schneider and Gibbons had 6 points each, and Carrie Darling added 5 points to the Marauders' total. The Marauders are currently 2-5 overall and 1-1 in the MMB.

St. Johns plays host to Chesaning tonight (Sept. 30) and travels to Corunna this Thursday. Both are league games for the Redwings.

Ovid-Elsie faces Ionia tonight in a conference game and will play at Montrose on Thursday.

The Marauder junior varsity bested St. Johns 32-29, and were also winners over Hemlock 40-38.

proved times in a variety of events including Lisa Sabo who took first place in the 100 freestyle.

Fowler rolls to 27-0 win in mud and rain

By RHONDA WESTFALL Sports Editor

Mother Nature did her best to halt the proceedings in the Fowler/Laingsburg football game last Friday.

But neither rain, nor hail, nor dark of night could keep the Eagles from their appointed task — that of blanketing the Wolfpack 27-0 for another Fowler victory.

When severe thunderstorms rolled through the area early in the evening, it appeared as though the game would have to be rescheduled, as were so many other area games.

However, as kick-off time approached, officials and coaches agreed to play the game with the provision that the officials could make the decision to halt play at any time in the contest should they see fit to.

"The lightning was our big concern," said Fowler Coach Steve Spicer. "The officials would have stopped play if it had become a problem, and then decided if, or when, to resume the game."

As it turned out, the game proceeded without any undue delays. Although, the Wolfpack may have wished

the game could have been played at a different time.

The Eagle defense held Laingsburg to zero yards passing, completing 1-8 passes, and an amazing 10 yards rushing overall.

"The weather wasn't really conducive to the type of offense Laingsburg likes to run," said Coach Spicer in what surely has to be somewhat of an understatement.

The game was scoreless throughout the opening quarter, but Fowler got things rolling in the second period. A 15 yard run by Curtis Feldpausch with 5:30 to go in the period put the Eagles on the scoreboard. The extra point pass was no good, and Fowler led 6-0.

Rex Thelen added six more points for the Eagles before halftime with a 10 yard scamper, and his extra point run put the score at 14-0.

Scoring followed much the same pattern in the second half. Feldpausch broke loose in the third quarter with a 40 touchdown run, the extra point pass was again no good, and Fowler was up 20-0.

Thelen countered with a 15 yard run of his own in the final period and then connected with the point after attempt to give the Eagles their final points, 27-0.

Overall, Fowler had 207 yards on the ground, and 20 yards in the air, completing 2-4 passes. Feldpausch gained 100 yards on 18 carries, and Thelen rushed for 60 yards on 13 carries.

The Eagles will take their fourth place state Class D ranking into Pottsville this Friday in what could be one of Fowler's more difficult outings in the Central Michigan Athletic Conference.

"Pottsville is just the kind of club that could give us problems," said Coach Spicer. "They've been averaging 30 points a game, are undefeated at 4-0, and have an all-league quarterback in Steve Lichti back this year. They're kind of a dark horse in the league."

Add to that the fact that Pottsville will be observing their Homecoming, and things could be interesting for the undefeated Eagles.

As Coach Spicer says, "On any given night, one of the top five teams in our conference could knock the other one off."

Fowler will take on the Fulton Pirates in their Homecoming contest set for Oct. 10.

SJ bests O-E in crosstown rivalry

By RHONDA WESTFALL Sports Editor

The St. Johns Redwing football team went "across town" so to speak, to take on the Ovid-Elsie Marauders in what is always a hard-hitting, never-say-die, pigskin contest.

Last Friday was no exception, with St. Johns coming home with a hard-fought 23-7 win in the game played under less than ideal conditions.

The rain which has become an everyday event in the mid-Michigan area, came down steadily throughout the first half, making footing unsure and footballs almost uncatchable.

"I have to give Foreback (Ovid-Elsie Athletic Director) or whoever deserves it credit for getting the field in such good shape prior to the game," said St. Johns coach Bart Kjolhede. "They really did a good job."

Not that it looked pretty for too long. Both teams managed to take their share of bounces off from the soggy turf during the course of the night.

The Marauders opened the game by taking it right at the Redwing defense. Their 8 play, 52 yard opening possession march ended in a Neil Putnam score, and the ensuing extra point put Ovid-Elsie on top 7-0.

St. Johns came back with a quick touchdown of their own, marching 45 yards in 4 plays capped by an 11 yard, Dwight Pierson score. The extra point attempt was wide to the left, leaving the Redwings on the bottom end of a 7-6 first quarter score.

Six more points were put on the board in the second quarter by St. Johns when Pierson took the option into the endzone. That score came as the result of a 5 play, 27 yard drive highlighted by a 22 yard pass from Jerry Duwell to Archie Hoebecke.

The Redwings took a 12-7 lead into the lockerroom at halftime of the muddy contest.

The score stood for most of the third quarter before Bill Keenoy punched the all across from the 6 yard line following a 10 play, 79 yard St. Johns drive. The extra point pass from Duwell to Tom Penix upped the Red-

ings lead to 20-7.

Final scoring in the game came on a 27 yard field goal by Tom Bates which was set up off a pass interception by Kent Ley in the fourth quarter.

Offensively, St. Johns totaled 137 yards rushing and 127 in the air with Duwell completing 8-15 and Scott Alysworth going 1-1.

"On a night like that, you have to be pretty happy with that kind of pass percentage," Kjolhede said.

The Marauders had 151 yards on the ground and quarterback Bob Foreback was good on 3-15 passes for 26 yards. Neil Putnam rushed for 88 yards on 16 carries.

Pierson netted 89 yards on 15 carries and caught 4 passes for 51 yards to lead the Redwing offense. Keenoy rushed for 35 yards on 11 attempts. Penix caught two passes for 25 yards, Hoebecke had the 22 yard reception, Gary Zimmerman had a 22 yard pass completion, and Rick Arthur grabbed a 7 yard pass.

Defensively, Keenoy had 8 tackles and 6 assists for St. Johns, Terry Rossow had 7 tackles and 4 assists, and Alysworth had 5 tackles and 4 assists.

Jody Hodak led the Marauders in tackles with 11, while Joe Komora, Troy Loznak, and Troy Wooley each added 10 apiece.

"We had our chances," said O-E coach Dennis Baratono. "We're not a big play team — we just can't afford to make any mistakes."

"We had just three penalties called on us the whole night," he said. "We really did not play that badly. It gets frustrating to play that hard and lose, but these kids will bounce back — they're tough."

Things won't get any easier for Ovid-Elsie when they meet Ionia this Friday. The Marauders will be looking for a Homecoming victory to ease their pain.

St. Johns also celebrates Homecoming this Friday in their game with undefeated Chesaning.

"Chesaning is the best team in the league right now," said Coach Kjolhede. "They are very well-coached with a lot of senior talent and good offensive line. If we can beat them we'll still have a shot at the conference title."

"They have only given up six points in four games,

and are averaging 30 points a game," the coach said. "It will be a great opportunity for us to advance in the league and we're looking forward to it."

DWIGHT PIERSON was the leading ground gainer for the St. Johns Redwings in their 23-7 MMB victory over Ovid-Elsie last week.

Lottery in progress

Lottery tickets, being sold by the new St. Johns Athletic Boosters club, went on sale last week with the opening days' response termed "very good" by Booster president Chuck Hoyer.

The lottery is based on the three-digit daily lottery, with the \$25 tickets producing daily \$100 winners and a \$300 Saturday winner.

Revenue from the ticket sales will be used to maintain and support all 13 athletic programs at St. Johns High School. These include: gymnastics, basketball, tennis, softball, swimming, football, wrestling, cross country, volleyball, golf, baseball, track, and cheerleading.

A complete listing of ticket salespersons, lottery rules, and other information is printed on page 8A in this week's Clinton County News.

GRAB THAT BALL — Theresa Fabus manages to keep the ball in play for the Ashley Bears during a recent game with Fowler. Watching for Ashley are 42, Lisa Wingle, and 44, Lori Haruska. Teresa Feldpausch 41, and Kim Epkey 31 of Fowler also are pictured.

P-W, Potterville fight for first in CMAC game tonight

The Pirates from Pewamo-Westphalia kept their perfect conference record intact with a 55-53 final second win over Portland St. Patrick last week.

That win, coupled with a non-conference victory over DeWitt 67-55, gave the Pirates a clean sweep for the week in girls basketball. Their record stands at 7-1 overall and 3-0 in the CMAC.

Down by one point at halftime in the St. Pats game, 31-30, the Pirates' fine third quarter shooting gave them a 46-38 margin to begin the final period.

St. Pats tightened things up and eventually tied the game with 20 seconds remaining. A shot taken by the Shamrocks with just 10 second showing was no good and Brenda Martin rebounded for P-W.

Amy Hengesbach's 18 foot jumper with eight seconds remaining clinched the game for the Pirates.

"It was exciting," said Coach Carol Rademacher. "They don't get much more exciting than that."

Hengesbach led the Pirates in scoring with 19 points and 5 rebounds. Martin had 15 points, 6 rebounds and 4 assists, Sandy Simon added 10 points, 13 rebounds and 4

assists, and Shirley Thelen had 6 points, 4 rebounds, 5 steals and 7 assists for P-W.

The game with DeWitt was a quiet one compared to the St. Pat contest. The Pirates jumped out to an early 41-22 halftime lead and everyone saw action in the second half as P-W cruised to the win.

Shirley Thelen had 14 points, 10 coming in the first quarter, to lead the Pirates in scoring. Kerri Nurenberg had 12 points, Simon added 12 points and had 12 rebounds, and Rhonda Heckman came off the bench to provide the Pirates with 9 points.

The "big game" of the young season takes place tonight (Sept. 30) when the Pirates and Potterville clash in a CMAC game for first place in the league. The game will be played at Pewamo-Westphalia. The Pirates play at Carson City on Thursday in a non-conference game.

The Pewamo-Westphalia junior varsity got two more wins last week, upping their record to 7-1. They defeated St. Pats 31-28 with Sandy Martin netting 22 points, and were winners over DeWitt 42-37. Martin had 21 points in that contest.

Fulton girls take cage wins with best efforts of season

"Two of our best efforts of the year." That's the way Fulton coach Ron Merritt saw his Pirate girls' wins in basketball last week. Fulton defeated Laingsburg 65-51 and took a 51-33 win over Central Montcalm to up their record to 5-2 overall and make them 1-2 in the CMAC.

The Pirates tallied 23 points in the second quarter of the Laingsburg game to "turn things around," according to Coach Merritt.

Janice Kresge and Dee Gardner were a big part of the Pirate success, with the duo combining for 47 of Fulton's points, and netting 17 of the second quarter baskets. Gardner ended the game with 25 points and Kresge had 22.

The Pirates were up by just one point, 22-21, to begin the second half when they blitzed Central Montcalm 15-4

in the third period and 14-8 in the fourth quarter to take an easy win.

"It was probably the best game we've had so far in terms of everyone playing well," Coach Merritt said.

Lori Helman had 10 points and 11 rebounds for the Pirates, Kresge netted 11 points, and Michelle Weller and Sheila Miller each had 8 points for Fulton.

Fulton has a big CMAC match tonight (Sept. 30) when the Fowler Eagles come to play.

"It should be a good game," Merritt said. "It's important for us to go into the game with a positive attitude, and our wins last week will help in that respect."

The Pirates have a non-league game with Montabella this Thursday.

The Fulton girls junior varsity defeated Laingsburg 50-42 and were winners over Central Montcalm 58-32. The record stands at 5-2.

SJ frosh cagers are winners

The St. Johns freshman girls basketball team continued their winning ways claiming victories over East Lansing 38-27, Williamston 52-16, and Ionia 37-24 in games played last week.

"We were definitely happy with the wins," said Redwing coach Bernie Fox, "but will have to be more aggressive before our upcoming tournament at Ovid-Elsie on Oct. 4."

Michelle Harper was the leading scorer in the East Lansing outing with 9 points, followed by Lisa Kirby and Stacey Paseka with 8 points each. Paseka and Kim Van Amburg each had 6 rebounds.

Lisa Hartenburg took scoring honors in the Williamston game with 12 points. Sherrie McGlothen had 8 rebounds and Jenni Schwartz cleared the

boards 7 times in that game.

In the contest with Ionia, Kirby led the Redwings with 10 points followed by Harper with 8 points and 10

assists. Kirby also had 6 rebounds.

Ashley girl bears back on track with two b-ball wins

The Ashley girls basketball team was successful in two outings last week, defeating Byron 50-28, and besting Flint Holy Rosary 58-35.

"We're finally getting some scoring off our bench," said Coach Carl Wayer of his Bears' wins. "Everybody played extensively in the Byron game, and our subs played most of the fourth quarter against Holy Rosary."

Cold shooting in the first quarter of the Byron game turned into a second period blitz, as the Bears took a 31-10 lead into the lockerroom at halftime. It was no contest from that point to the finale.

Theresa Fabus led the Bears in scoring with 13 points, Lisa Wingle added 8, Amy Lytle had 6, Lori Haruska

was good for 5 points, 3 assists and 5 steals, Chaunda Shaw had 5 points, and Sherry Kral had 4 points and 7 assists.

Ashley opened up a 25-16 halftime lead in the Flint game to go ahead by 21 points in the third quarter. They outscored Holy Rosary 19-7 in the third period.

Fabus again led her teammates with 15 points and cleared the boards of 11 rebounds, Haruska added 12 points, Shaw was good for 9, Lytle had 6 points, and Karen Burlingame also had 6 points for the Bears.

The Bears face Morrice tonight (Sept. 30) in a Mid-State Athletic Conference game, and play Ithaca tomorrow in a non league contest.

Eagle harriers are first

The Fowler boys cross country team continues to prove why they deserve their number one ranking in Class D in the state. The harriers claimed yet another first place invitational trophy over the weekend at Carson City, winning handily 27-51 over Capac who was ranked number two in Class C in the state.

"It was a challenge to beat them (Capac)," said coach Kim Spalsbury, "and we were pleased to be able to."

The Eagles finished five runners in the top ten, with Steve Bierstetel breaking his own school record with a time of 15:34 on the three-mile course. He placed second overall in the invitational.

Other Fowler place finishers for the boys were: Mike Pohl (4th) 16:16; Troy Irrer (5th) 16:19; Darrin Feldpausch (7th) 16:32; and Tim Becker (9th) 16:40. Kevin Hafner who was the sixth man for the Eagles beat the fifth man from Capac with a time of 17:42.

The Fowler boys also took a double-dual win last week in a meet at Saranac against Lakeview and Saranac. The Eagles outscored Saranac 16-47, and defeated Lakeview 15-48.

Bierstetel broke the course record with a time of 16:54, in what Coach Spalsbury termed, "probably the best race of the year for him — it was an outstanding time."

Also placing for Fowler were: Irrer (2nd) 17:54; Becker (3rd) 18:01; D. Feldpausch (4th) 18:27; and Hafner (5th) 19:05.

The Eagle girls took forfeit victories from both Saranac and Lakeview, and placed sixth in the Carson City Invitational behind Class C schools who were all ranked in the top ten in the state.

That pleased Coach Spalsbury, as did the fact that the Eagles had seven people running for the first time this season.

"The girls ran good times, and it was encouraging for us to have just about everybody running," Spalsbury said. "Both Mary Feldpausch and Mindy Koenigsnecht ran and ran well."

Stacie Rowell was the highest place finisher for Fowler, 15th, with a time of 20:24. Sherri Schneider was 26th at 21:05, Lori Thelen finished 38th in 22:06, Rebecca Feldpausch was 39th in 22:08, and Lynette Feldpausch finished 44th in 22:32.

In the double-dual with Saranac and Lakeview, Schneider took top honors with a time of 23:06.

"The course is an extremely tough one to run, and it

P-W wins 34-6 in clash of Pirates

The Pewamo-Westphalia football team got their first CMAC victory of the 1986 season when they upended Fulton 34-6 in a game played on Sunday afternoon.

Severe weather caused the game to be rescheduled from last Friday to Sunday when tornado and thunderstorm watches swept through the P-W area.

Jeff Wirth scored four of Pewamo-Westphalia's touchdowns and Tim Wieber added the fifth for the Pirates.

Fulton drops to 0-4 on the year, while P-W stands at 1-3.

The game was played at Pewamo-Westphalia's field. Fulton plays host to Laingsburg this Friday, and Pewamo-Westphalia will take on Portland St. Patrick in a home CMAC game.

BB/BS SOFTBALL — St. Johns catcher Jodi Smith readies herself to catch a strike against Lansing player Ellen Byerlein. St. Johns and Lansing Big Brothers/Big Sisters went at it in a closely matched game at the city park on Sept 14. Smith said she envisions a team bus in the future.

Eagles split pair in cage action

The Eagles girls basketball team split a pair of games last week, losing a tough CMAC contest to league-leading Potterville 42-36, before bouncing back to claim a 61-30 win over Carson City.

"We played three good quarters — and one bad one," Coach Tom O'Rourke said of his teams' loss to Potterville last Tuesday. "We were up by one point going into the fourth quarter when they put on a half-court press. We just didn't handle that too well for a couple minutes, and we were in trouble after that."

Amy Witgen was the leading scorer for the Eagles

with 12 points. Theresa Feldpausch had 7 points and 7 rebounds for Fowler, while teammates Kim Epkey had 8 rebounds and Mary Jo Simon had 7 rebounds, 4 assists and 5 steals.

The game with Carson City was somewhat of a strange affair. The Eagles opened up a big 16-4 lead in the first quarter, then went absolutely cold in the second, making good on just 2-14 shots taken from the field.

"I really don't know what happened in that second period," O'Rourke said. "We came back and played well for the rest of the game, however."

Theresa Feldpausch had a career high 20 points to lead her Eagle teammates.

"She played a very good game," the coach said. "Carson City had no one who could contain her."

Simon added 12 points to the Eagle tally, Witgen had 7 steals, and Epkey had 10 rebounds.

The Eagles take to the road for a big CMAC rivalry tonight, playing Fulton. They will be at home this Thursday (Oct. 2) for a non-conference game with Mt. Pleasant Sacred Heart.

The Fowler junior varsity lost their first game of the year to Carson City, 36-33. They are currently 6-1 on the season.

AT THE LINE — Mary Kay Jandernoa pops one in for the Fowler Eagles girls basketball team.

Panther netters sweep 2 in CCL

The DeWitt women's soccer team is undefeated after the first two games of its fall schedule.

The Panthers won their season opener by a score of 5 to 3 with single goals by Carol Reed, Sue Wright, and Linda Lotoszinski. Lillian Tucker kicked in two goals for the victory. Last week's score was 4 to 1 with two goals by Lotoszinski and one apiece by Tucker and Sharon Rice.

This is the second year that DeWitt has fielded a team in the Lansing Area Women's Soccer League. Coach George Baisley credits this season's victories to a year of dedicated practice by team members, most of whom had never played soccer before. Sharing coaching duties with Baisley are Ben Kinsey and Norm Robison.

DeWitt area women interested in playing soccer can contact Sharon Rice at 669-5409.

REDWING HARRIER — Corey Henningson is one member of the St. Johns boys cross country team who has been posting good finishing times for the Redwings this season. Both boys and girls squads placed second in the Chesaning Invitational which was run last week, with Sandra Terrell setting a new school record for St. Johns.

Redwing runner sets new school record at Chesaning

The Redwing cross country teams turned in some fine times on their way to taking second place at the Chesaning Invitational and defeating Mt. Pleasant and Bridgeport in dual competition last week.

Sandra Terrell set a new school record of 18:46 at the Chesaning Invitational, breaking the old record of 19:05 which had been held by Tina Simon.

"It was an outstanding performance," said Coach Bob Spencer.

Terrell's time was good for a first place finish overall for the girls. Kim Korienek placed fourth overall for St. Johns with a time of 20:41, and "good performances" were turned in by Colleen Bunn and Jessica Kluge, according to Coach Spencer.

Leading the way for the boys in their second place endeavor at Chesaning was Greg St. John who placed ninth overall with a time of 16:37. Other Redwings placing were: Correy Henningson (11th) 16:43; Jim DeBrabander (16th) 16:55; and Darrin May (17th) 17:04. Scott Terrell was the fifth man placing for the St. Johns squad.

In the meet last Tuesday with Mt. Pleasant, the Redwing girls took a 23-34 win, paced again by Terrell whose time of 20:47 was just four seconds off the course record. Korienek finished second with a time of 22:38. Other Redwing placers were Kluge, fifth; Bunn, sixth; and Lori Monry, ninth.

The boys trip to Mt. Pleasant ended in wins with both Mt. Pleasant and Bridgeport. They defeated Mt. Pleasant 18-37, and beat Bridgeport 22-37.

St. John led the way for the Redwings, completing the course in a time of 18:06. Henningson was third, DeBrabander was fourth, May finished seventh, and Terrell placed ninth.

"We were pleased with everyone's times and efforts in the meets last week," Coach Spencer said.

St. Johns has a busy week ahead with a scheduled home meet tonight (Sept. 30) versus Chesaning, the Mason Invitational on Oct. 2, and the Ferris Invitational on Oct. 4.

Need second try

The DeWitt soccer team faces Lansing Christian for the second time in as many weeks this Tuesday, at Lansing Christian.

The first time the two squads met, on Sept. 18, DeWitt put up a fight but lost 3-2. Several mental errors at the wrong time cost the Panthers a goal and the game, says Coach Randy Smith.

"But the team really played well. We had a good second half, which has been our weakness," he says.

Offensive player of that game was John Kinsey, who made DeWitt's first goal. Sern Chupikulchai chipped in the second point. Junior stopper Dave Dalton made the goalkeeper's job an easy one, limiting the number of

Lansing Christian scoring attacks.

Smith says the Christian players were quicker than expected, and it threw the Panthers off guard. However, they'll be able to anticipate that quickness when the two teams meet again Tuesday.

"It's going to be another close game. I think it will be a question of mental attitude," he says.

DeWitt's attitude could be positive or negative, he says, depending on how the team would fare against the two opponents before the Lansing Christian game.

After taking on Christian Tuesday, the soccer team packs up and heads to Western for an away game Thursday.

FOOTBALL CONTEST

TIE BREAKER

Select the team you think will win and estimate the total points you believe will be scored by BOTH teams. In the event of a tie in final winner determination, the prize money will be split evenly between the winners.

Tiebreaker Game:
Michigan at Wisconsin

CONTEST RULES

Join the fun! You can win \$20 cash, paid by The Clinton County News each week to the person who guesses the most winners of the high school and college football games listed on this page. Shop the ads and read the rules to find out how you can cash in!

1. Read every ad on this page. An important game will be listed for your selection.
2. On a separate sheet of paper, write the name of each merchant on this page and after his name, the name of the team you select as the winner of the game listed in this ad. List in sequence 1 thru 8.
3. Be sure and print your name and address plainly on your entry.
4. Mail your entry to Contest Editor, The Clinton County News, St. Johns before 6 p.m. Friday or deliver it personally to The Clinton County News office before 5 p.m. Friday. Mail must be post-marked no later than 6 p.m. Friday.
5. Contest winners will be announced each week in The Clinton County News.
6. Only one entry per person is allowed.
7. Remember - Your guesses plus the names of the merchants must be on a SEPARATE sheet of paper ...not on this page.
8. See copy below for tie breaker.

High school golf schedules changed thanks to weather

The unseasonably wet weather is playing havoc with high school golf schedules around the area, and St. Johns is no exception to that fact. Rain forced the rescheduling of the Redwings match with Alma last week to Oct. 7, moved their match with DeWitt from home to Prairie Creek last Thursday, and leaves play of the planned Conference Meet of Oct. 4 undecided.

REDWING COACH — St. Johns golf coach Paul Sternburgh is hoping his golfers will be able to complete their 1986 season.

St. Johns' lone match of last week resulted in a slosly 163-169 win for the Redwings over DeWitt. "We'll take a win any way that we can get one at this point," said Coach Paul Sternburgh. "We were just happy to get the match in."

The match was supposed to have been played at the Redwings' home course, the Clinton County Country Club, but heavy rains closed the course down for the week. That forced the rescheduling of the planned Tuesday meet with Alma to Oct. 7, and saw the Redwings playing on Thursday at Prairie Creek, DeWitt's home course.

Jeff Dean was low man for St. Johns, shooting a 37. Paul Hughes came in with 40, while Todd Kiem and Tom Lewis both shot 43.

The win gives the Redwings a 5-1 mark in dual competition and makes them undefeated in the MMB conference at 3-0.

The ability to play the conference meet, scheduled for this Saturday (Oct. 4) at Kimberly Oaks Golf Course in St. Charles, is in doubt due to the heavy rains which that area has experienced. An Oct. 6 rain date had been planned for the conference meet, but at last word, it was not known if either date would be possible.

Other St. Johns matches this week, tonight at home versus Chesaning, tomorrow (Oct. 1) at Owosso with Owosso and Ovid-Elsie, and Thursday at Royal Scot with Pewamo-Westphalia and Sexton, all are somewhat doubtful at last report.

Local teams are named in state girls b-ball poll

Potterville and Waverly are the two area schools that have been listed in this week's high school girls' basketball poll, conducted by the Basketball Coaches Association of Michigan.

Potterville sits at the top of Class D while Waverly is listed in the honorable mention category for Class A.

The top 10 in Class A are: Detroit Cass Tech, Detroit Martin Luther King, Plymouth Salem, Saginaw, Birmingham Marian, Farmington Mercy, Flint Northern, Traverse City, Flint Northwestern and Lansing Eastern.

Listed as honorable mention teams are: Clarkston, East Lansing, Garden City, Grand Rapids Ottawa Hills, Harper Woods Regina, Waverly, Mount Pleasant, Romeo, South Lyon, Sterling Heights Utica, Wall Lake Central, Waterford Kettering and Westland John Glenn.

In Class B, the top 10 teams are: Flint Beecher, Wayland, Okemos, Oxford, Stevensville-Lakeshore, Livonia Ladywood, Albion, Frankenmuth, Coldwater, Mason.

Earning honorable mention status are: Caledonia, Chesaning, comstock, Dearborn Divine Child, Eaton Rapids, Grand Rapids Christian, Grand Rapids West Catholic, Hudsonville Unity Christian, Lakewood, Ludington, Millington, Mount Morris, Muskegon Orchard View, Otisville-Lakeville, Plainwell, Sanford Meridian and Sturgis.

The top ten teams in Class C are: Detroit St. Martin dePorres, Lansing Catholic Central, Newaygo, St. Joseph Lake Michigan Catholic, Pewamo-Westphalia, Stephenson, Wyandotte Mount Carmel, Evart, Ann Arbor Gabriel Richard and Scottville.

Those in the honorable mention category are: Alcona, Centerline St. Clement, Detroit Country Day, Elkton-Pigeon-Bay Port, Harbor Beech, Maple Valley, Morenci, Sandusky, Stockbridge and Williamston.

The Vikings remain at the top of Class D with a 5-0 record (at the time of the voting), followed by Leland, Waterford Our Lady of the Lakes, Climax-Scotts, Peck, Webberville, Saugatuck, Ewen-Trout Creek, Ashley and Suttons Bay.

Those teams in the honorable mention category for Class D are: Akron-Fairgrove, Athens, Brimley, DeTour, Fowler, Grass Lake, Litchfield, Martin, McBain, Norway, Oakland Christian and Wakefield.

Volleyball tourney set

A co-ed volleyball tournament is scheduled for Saturday, Oct. 18, according to Sporer. "Both facilities are new, and we're anxious to have some teams take advantage of them as well as critique them." Cost per team will be \$40, with trophies and shirts being awarded as prizes. Entry deadline is Oct. 10.

Parents ask questions about AIDS

(Continued from page 1A)

He added that there may be other, as yet undiscovered, reasons why the disease is not spread by mosquitoes.

Tooker was also asked about a case in which a woman caring for her AIDS-stricken child was reported to have contracted the disease.

He responded by saying that the woman had repeatedly allowed herself to be exposed to blood and bodily secretions without properly washing it off. When caring for AIDS pa-

'It has to get into your blood stream and it has to get into your blood stream in large amounts.'

tients, extra precautions are common sense, he said. Such precautions include wearing gloves and washing the hands well, he

said. He also noted that the woman in the case cited had developed antibodies to the AIDS virus — indicating exposure — but

had not developed the disease and remains healthy today.

"It has to get into your blood stream and it has to get into your blood stream in large amounts," Tooker said.

Tooker was asked several times why children with non-fatal illness are kept out of school while some children with AIDS are allowed to attend school.

"On the surface it really seems strange, doesn't it?" Tooker said. "But you

have to think about the ease of transmission."

He repeated what he had said earlier — that it is certain behavior, not proximity to individuals stricken with the AIDS, that puts individuals at risk of infection.

"The classroom is not going to be a place where AIDS is spread," he said. "Neither is the workplace."

Tooker was also asked to explain why, given that the

disease is so hard to contract, the policy adopted by the school district calls for a panel to decide whether a child with AIDS will be allowed to attend school.

Tooker said some behaviors — biting is an example often used — if engaged in by AIDS patients could increase the risk to other children to the point that extra caution would be warranted.

He was also asked if he would feel comfortable if

his own children attended school with an AIDS victim.

"I would personally feel very comfortable..." he said.

Several parents asked how they should educate their children about AIDS.

Tooker said some educational materials are available through the Mid-Michigan District Health Department. He said the school district and parents will have also be able to

draw on the experience of other areas — such as Kokomo, Indiana, where a school child last year contracted AIDS — that have had to wrestle with that problem.

"I don't think we have to re-invent the wheel in St. Johns," he said.

NOTICE OF MORTGAGE SALE

WHEREAS, default has been made in the terms and conditions of a certain mortgage made by Charles J. Wichmann and Geraldine T. Wichmann, his wife, Mortgagors, to Guardian Mortgage Company, Inc., a Michigan corporation, Mortgagee, dated the 31st day of August, A.D., 1979, and recorded in the Office of the Register of Deeds for the County of Clinton and State of Michigan, on the 4th day of September, A.D., 1979, in Liber 306 on Pages 792-795, which said mortgage was thereafter on, to wit, the 6th day of September, A.D., 1979, assigned to the FEDERAL NATIONAL MORTGAGE ASSOCIATION, a corporation organized and existing under the laws of the United States, and said assignment was recorded on the 13th day of September, 1979 in the Office of the Register of Deeds for said County of Clinton in Liber 306 on Page 987, and

WHEREAS, the amount claimed to be due on said mortgage as of the date of this notice is the sum of Thirty Six Thousand One Hundred Fifty Three and 57/100 dollars (\$36,153.57), for principal and interest and

WHEREAS, no suit or proceedings at law or in equity have been instituted to recover the debt secured by said mortgage or any part thereof, and default having been made whereby the power of sale contained in said mortgage has become operative

NOW, THEREFORE, by virtue of the power of sale contained in said mortgage and pursuant to the statute of the State of Michigan in such case made and provided, NOTICE IS HEREBY GIVEN that on THURSDAY, the 6th day of November, 1986, at 10:00 o'clock in the forenoon, local time, said mortgage will be foreclosed at a sale at public auction to the highest bidder at the front steps of the Clinton County Courthouse in the City of St. Johns, County of Clinton and State of Michigan (that being the place of holding Circuit Court in said County), of the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due, as aforesaid, on said mortgage with the interest thereon at eleven and three quarters percent (11 3/4%) per annum and all legal costs, charges and expenses, including the attorney fee allowed by law, and also any sums which may be paid by the undersigned, necessary to protect its interest in the premises.

The premises described in said mortgage are as follows: Property situated in the City of St. Johns, County of Clinton, State of Michigan, to wit:

The west 43 feet of the south 1/2 of Lot 9 and the south 1/2 of Lot 10, except the west 37 feet thereof, all in Block 49, Village (now City) of St. Johns, Clinton County, Michigan, according to the plat recorded on the wall in the Register of Deeds office in Clinton County, Michigan.

Take notice that the period of redemption, pursuant to M.S.A. 27A.3240 shall be six months from the date of said sale.

Dated: September 30, 1986.

FEDERAL NATIONAL MORTGAGE ASSOCIATION, a corporation organized and existing under the laws of the United States, assignee of mortgage.

LCC offers a program for aged

"As Parents Age," part of the family caregiver series of seminars given by the Center for Aging Education at Lansing Community College, is offered on Saturday, Oct. 11, from 9 a.m. to 3 p.m.

Participants will be shown how to better understand their older family members and how to cope with problems in relating to them. In an informal, comfortable atmosphere, topics discussed

include the normal aging process, sensory changes, improving communication, understanding "senility," common mental health problems, alternative living arrangements, community resources and services, roles as adult children, shared decision making with family members, and the dynamics of guilt.

Seminar leader, Irene Kazieczko, is assistant program director of the

Center. Kazieczko says that films and activities will be used to present their subjects and that those attending will find the support and information needed for their particular family situations.

For further information, call 483-1179. Registration should be made by Sept. 29; however, late registration can be accepted if there is space available.

NOTICE OF MORTGAGE FORECLOSURE SALE

Default having been made in the terms and conditions of a certain Mortgage made on the 21st day of November, 1983, between RICHARD L. BEACHLER and KYLA BEACHLER, husband and wife, Mortgagors, and CAPITOL FEDERAL SAVINGS BANK, formerly CAPITOL SAVINGS & LOAN ASSOCIATION, Mortgagee, and recorded with the Register of Deeds for Clinton County, Michigan, on November 22, 1983, in Liber 406, Pages 385-388, on which Mortgage there is claimed to be due at the date of this Notice the sum of \$19,170.39 principal and interest.

NOTICE IS HEREBY GIVEN that by virtue of the power of sale contained in said Mortgage and the statutes of the State of Michigan in such case made and provided, on Friday, October 24, 1986, at 10:00 A.M. o'clock in the forenoon at the main entrance to the County Courthouse, St. Johns, Michigan, that being the place where the Circuit Court for the County of Clinton is held, the undersigned will sell at public auction to the highest bidder, together with interest at 12% per annum and all allowable costs of sale and attorney's fees, the land and premises in said Mortgage described as follows:

LOTS 5 AND THE EAST 2 FEET OF LOT 6, BLOCK 18, VILLAGE OF OVID, CLINTON COUNTY, MICHIGAN, ACCORDING TO THE RECORDED PLAT THEREOF IN LIBER 21, PAGE 367, CLINTON COUNTY RECORDS, SUBJECT TO EASEMENTS, RESTRICTIONS AND RIGHTS OF WAY RECORD.

The length of the redemption period shall be one (1) month from the date of such sale, unless an Affidavit of Occupancy or Intent to Occupy is recorded in accordance with MCL 600.3241(d) (Stat. Ann. 27A.3241(d)) and given to the Mortgagee, in which case the redemption period shall be six (6) months from the date of such sale.

Dated: September 23, 1986.

Good news? We will tell the whole town

The Clinton County News welcomes all engagement, wedding, birth, anniversary, upcoming event announcements, and club news. We print them for free.

Here are some tips to follow when you send us an announcement.

Type or print clearly so we can get the correct spelling of all names and addresses. Please include a phone number where someone can be reached during the day.

Engagements: Include the engaged couples' names, parents' names and community. You may specify which high school and college the couple attended, current job, and proposed wedding date. Forms are available from our office, 117 E. Walker, St. Johns. You can also include a photograph.

Weddings: Give the couples' names, parents' names, community, wedding site, name of person officiating, site of the

reception, attendants, destination of wedding trip, and where the couple will reside. Forms are available from our office. You can also include a photograph.

Births: Give the name of the child, parents' and grandparents' names, community, where born, and date of birth. You can also include names and ages of brothers and sisters.

Anniversaries: Give the name of the couple, date of anniversary, children's and grandchildren's names, how many years and type of celebration to be held. You can also include a photograph.

Send announcements to the Clinton County News, 117 W. Walker, St. Johns, MI 48879. The deadline is 5 p.m. Thursdays. If you have any questions, call 224-2361.

St. Johns teacher completes a course in leadership training

Ted Slicer, teacher at St. Johns High School, recently completed a Developmental Economic Education Program (DEEP) Leadership Training Workshop held at the Flint Sheraton on Sept. 21-23.

Slicer was one of 30 teachers, supervisors and school officials from 23 school districts who were honored by being chosen to attend the workshop aimed at sharpening skills in economic education activities. He was selected to

take part in the program in recognition of his leadership ability and previous experience in economic education programs.

During the DEEP workshop, participants explored ways to help the community accelerate the growth of economic education through planning, training of local teachers, curriculum development, and evaluation.

Slicer will work with local teachers and supervisors as they assess their

needs and establish goals of economic education, develop appropriate programs, secure essential resources and services to carry out such programs, and gain commitments from community leaders.

The DEEP workshop was sponsored by the Michigan Economic Education Program and the W.K. Kellogg Foundation.

Weatherization available

Low-income, homeowners and renters in the state may be eligible for free home weatherization made available through

the Michigan Weatherization Program. The Bureau of Community Services, Michigan Department of Labor, ad-

ministers the program through local community action agencies and weatherization contractors. The program is funded by the Department of Energy, the Michigan Energy Administration and the State of Michigan.

Services offered in the program include: installation of storm windows, caulking and weatherstripping, insulation for ceilings, unheated basements, crawl spaces, and electric water heaters.

Persons interested in finding out about their eligibility for the program should contact Community Services at 224-6702 or the Senior Citizens Office at 224-7998.

Senior citizens have job hotline

Michigan residents, 55 and older, who are looking for jobs have a new service available to connect them with employers who are looking for prospective employees with a lifetime of experience and knowledge to offer.

The toll-free referral number to call from anywhere within Michigan is 1-800-922-HIRE. Staffers answering the hotline exclusively for older workers will refer the callers to cooperating job placement and training projects in their area looking for older workers.

Project ABLE (Ability Based on Long Ex-

perience), a program of United Community Services of Metropolitan Detroit, is funded by Job Training Partnership Act (JTPA) funds from the Governor's Office for Job Training and a grant from the C.S. Mott Foundation.

United Community Services is a Torch Drive-supported community service agency that directs its efforts toward community problem-solving through research, planning, community service and demonstration projects, coalition-building, public advocacy and promoting citizen involvement in community affairs.

ORDINANCE NO. 365

AN ORDINANCE TO VACATE AN ALLEY OR RIGHT-OF-WAY WITHIN THE CITY LIMITS OF THE CITY OF ST. JOHNS, MICHIGAN

THE CITY OF ST. JOHNS ORDAINS:
Section 1. Vacation of Street or Alley Right of Way. The City Commission of the City of St. Johns hereby vacates such portion of a public alley and right-of-way being more particularly described as follows:

Those alleys or right-of-ways, located in Block 3, original plat, City of St. Johns, running North and South adjacent to and West of Lots 1, 2, 3, 4, and 5, Block 3, City of St. Johns, according to the original plat thereof.

Section 2. Compliance with Charter. The City Commission, in adopting this Ordinance, certifies that a public hearing has been held after due notice to those persons, entitled to receive notice, and that a Resolution declaring the City Commission's intent to vacate said alley or right-of-way and other provisions of the City Charter relative to vacating streets and alleys have been complied with, that notice of said public hearing was, pursuant to Charter, served upon persons entitled to receive such notice.

Section 3. Easement Retained. Notwithstanding the vacation of said street or alley right-of-way, the City of St. Johns retains for and unto itself, for the benefit of the public, an easement under, over and across said vacated premises, for the installation, maintenance, and repair or any drain, sewer, water pipes, gas pipes, electric and telephone lines, and other essential public utilities, said easement being perpetual and unlimited unless hereinafter released and discharged by the City Commission.

Section 4. The effective date of this Ordinance shall be the 20th day after its passage.

Adoption of the Ordinance was moved by Commissioner Starck and supported by Commissioner Munger.

Yeas: Commissioners Arehart, Starck, Wiseman, Munger, Parr.

Nays: Commissioners None
Absent: Commissioners None
PASSED, ORDAINED AND ORDERED PUBLISHED THIS 22ND DAY OF SEPTEMBER, A.D., 1986, BY THE CITY COMMISSION OF THE CITY OF ST. JOHNS AT A REGULAR MEETING HELD ON SAID DATE.

Each of 6 Sixth place winners receive an Annin Deluxe U.S. Flag Set and 70 Seventh place winners will be awarded a \$100 gift certificate redeemable for merchandise at any Spartan store.
4. Limit one prize per family. All taxes will be the sole responsibility of the winner. Odds of winning will be determined by the number of entries received. This sweepstakes takes place in 220 of the Spartan member stores located in Michigan, Indiana and Ohio and is only open to residents of these states. Employees of Spartan Stores, Inc. and its subsidiaries, member retailers and immediate families are not eligible. Void where prohibited by law. All federal, state and local laws and regulations apply.
5. All prizes will be awarded. If an entry proves ineligible, winners will be advanced in order drawn. A list of prize winners will be posted at every Spartan store and made available after December 1, 1986 by sending a stamped, self-addressed envelope to Spartan's Great American Sweepstakes, P.O. Box 1002, Byron Center, MI 49315.

Cholesterol

Marilyn Loudenslager

Should we be concerned about cholesterol? As producers, consumers and promoters of red meats, eggs and dairy products the answer to the question is — Yes!

As producers of these products we have stood by for many years while the products have taken the blame for high blood cholesterol levels leading to increased incidence of heart disease and stroke. We have stood by and watched as the image of foods, once commended for their contribution of essential nutrients to the daily diet, have had their names marred by their association with cholesterol. But what can we do?

To start with, it is important to clear up the controversy and confusion in the minds of consumers about cholesterol. We can do this by sticking to the facts.

Cholesterol is a fat-related substance found in the cells and blood of every living animal. That includes you! Cholesterol is used by our bodies for the production of cell membranes and hormones. Therefore it is essential. However, cholesterol is also a major component in plaque. Plaque can build up in arteries if the blood level of cholesterol is too high. This build up can sometimes lead to complete blockage of an artery and therefore can lead to heart attack or a stroke. This is where cholesterol gets its bad name.

Blood cholesterol levels are determined by many factors. The primary factor is our genetic make-up. Approximately 80 percent of the cholesterol in our blood is produced by our liver. The remaining 20 percent is from dietary sources. So, although the diet con-

tributes only a small percentage of the total cholesterol found in our bodies, it is one of the only means of varying the blood level of cholesterol. The other alternative for lowering blood cholesterol levels is the drug, cholestyramine, that was used in research by the National Heart, Lung, and Blood Institute to lower blood cholesterol levels.

As promoters of products which do contain cholesterol it is important to realize that some people do need to reduce their consumption of cholesterol. The reduction of cholesterol should not have to eliminate the consumption of meat, egg and dairy products. We should develop ways of preparing foods that will reduce their cholesterol level, and then promote these ideas. For instance, trim the fat off of our meat before you cook it. Don't insist on prime meat. The marbling is fat. Develop recipes which include more egg whites and less egg yolks, the yolks are the part that contain the cholesterol, and use skim milks.

As for the people with normal blood cholesterol levels, it is still uncertain whether reduction of dietary cholesterol would be of benefit. Remember 80 percent of the cholesterol is produced by the body.

As producers, consumers and promoters of meat, egg, and dairy products we should be concerned with cholesterol. It is a real and very serious problem. But if we keep up to date with the facts about cholesterol and using this knowledge to inform the consumer, we can continue to sell our delicious, nutritious products. Marilyn Loudenslager is the agriculture agent for the Clinton County Cooperative Extension Service.

Roehl lines

Water damage

Giles Roehl

A special note to those who have damage caused by the recent high water and rains — help may be available.

Damage is listed as debris and sediment that washed into fields and ditches from roadways, erosion in fields and retention facilities. Those who have damage should contact Jim Squires, soil conservationist, at 224-4318 prior to Sept. 30 for information on cost sharing repair or debris removal. Cost sharing may be in kind such as tractor work, seeding, etc.

Under the emergency conservation program some similar assistance may be available to land owners for repair of other items such as farm tile or ditch banks. Remember to make contact as soon as possible.

Do we fit into agriculture? Although attendance was good at the workshop, some of you may have missed this excellent meeting so I thought a quick summary would be helpful to you.

Dr. Mike Kelsey and Jim Hilker, extension specialist from MSU, provided some very important considerations for those who want to stay in agriculture. The picture for the farm operator for the next three to five years is bleak unless good management principles are used. Some of those management principles were discussed at the session, and need to be used by all successful farm operators.

A quick summary of the main points discussed are:

1. We need to remember that we are in a world economy, especially in agriculture. The quicker we can improve the economy of foreign nations, the faster their consumption of food products will grow. A family earning less than \$600 per year (as families throughout much of the world do) does not have dollars to spend for our agricultural products. If they earn the equivalent of \$600 or more per month, more of their income will go for improved diets, possibly including some red meat or poultry, which needs our grain to grow and develop, reducing our surplus and increasing U.S. prices.
2. Every business person must understand good management principles before their operation can be successful. The farm manager who will survive the next three to five years will know his cost of production per bushel of crops, pounds of meat, or hundred

weight of milk produced. The successful manager will control these costs and will not be the one who is spending \$5.70 in variable cost to produce a bushel of corn if his neighbor (anyplace in the world) is spending \$1.70 per bushel to produce an identical product. Cost control knowledge is a must for success.

3. A successful operation will need to start now to develop a marketing plan for the 1987 crop. All marketing goals need to be developed using the cost of production as a tentative base. Once a set of goals has been developed it is very important they be adhered to and not changed based on a whim. More dollars can be lost to a faulty marketing plan or a plan not followed than to any other single item except weather.

4. Farm operators are going to need to find ways to gain financial independence, especially for a portion of the operating expenses. One way to accomplish this may be to utilize other sources of investment such as renting land at a reasonable share rate or a cash rental agreement that provides the landowner the cost of taxes plus up to four to seven percent of a true agriculture value of the land.

5. Keep farming enterprises diversified as much as possible. Don't put all your energy into one crop. Diseases such as the one that hit over 1986 wheat, can ruin a single crop enterprise. Remember it is important for a full time farmer to be fully employed (3,000 hours per year is considered full-time on farm employment).

6. Know where your family living and other funds are coming from. Don't start using farm assets for family living until you are ready to retire.

Garden corner:

Often when driving down the highway a person will see trees that have had their tops cut off parallel to the ground. The only purpose of the pruning is to reduce the height of the trees. Often large, fast growing trees, such as silver maple, are planted in subdivisions because they grow quickly, but soon get bigger than the home owner wanted them to be.

Thinning the crown to reduce the size without ruining the tree's natural shape, or removing the tree entirely and replacing it with a smaller tree less susceptible to storm damage, would be preferable to topping it.

Farmers warned not to jeopardize grain

Farmers are urged not to jeopardize their eligibility for the farm-stored loan program by removing grain without obtaining permission, says Pete LoDico from the Clinton County Agricultural Stabilization and Conservation Service.

"Farmers who plan to commingle their 1986 and 1985 harvests and request a loan also need to check with us first," LoDico said.

Removal of mortgaged grain before repayment of the loan, or receipt of release authorization, is considered unauthorized removal and subject to penalty. Farm

program regulations require that farmers notify ASCS if they intend to sell loan grain, or if the grain is out of condition and needs to be moved.

The ASCS price support and grain reserve programs authorize loans to farmers who hold their grain off the market in order to benefit from future price increases. The grain under loan is then stored in an approved facility, on the farm, or in a commercial warehouse.

"Before moving any farm-stored grain, producers should contact our office for specific details," LoDico said.

Soil Conservation Service carrying out nat'l program

By EILEEN GILLESPIE
Clinton Soil Conservation District

The Soil Conservation Service is responsible for carrying out a national program of soil and water conservation. A major part of this program is working through conservation districts to help farmers plan and apply conservation practices on their land — regardless of the size of the income from the operation.

MDA to provide flood services

The Michigan Department of Agriculture (MDA) is providing services in areas relating to animal health, dairy, grocery and food processing businesses, problems with pesticides, and farm and environmental concerns to persons affected by the recent flooding in the central Michigan area.

Persons in Clinton and Gratiot counties should contact the Michigan Department of Agriculture, 1615 S. Harrison Rd., East Lansing, 48823. Phone 517-373-8782.

In the service

Sally Beck

Pvt. 1st Class Sally Beck, daughter of Carolyn and John Beck, 8614 N. U.S. 27, St. Johns, has completed basic training at Fort Jackson, S.C.

SCS works with farmers, large and small, who are ready, willing, and able to apply a conservation system. Many of the low-income operators have soil erosion problems but very little extra money to apply the conservation measures that are needed. As a result, during the past several years, SCS has helped additional low-income farmers conserve

soil and water through the states' targeting of technical assistance.

Many low-income and limited resource farm operators have installed complete conservation systems with financial assistance provided by the Agricultural Stabilization and Conservation Service (ASCS) through the Agricultural Conservation Program. Cost-share funds

have also been made available by state and local governments. This is in ad-

dition to the technical assistance provided by the SCS.

Public Notice
Federal Mogul Corporation
Final Order of Abatement
NPDES Permit MI 002747

Date September 22, 1986

The Michigan Water Resources Commission and the Department of Natural Resources propose to issue jointly a Final Order of Abatement to Federal Mogul Corporation of St. Johns, Michigan. Sediments in the St. Johns Drain below the Company's outfall are contaminated with copper, lead, oil, nickel and zinc.

Federal Mogul Corporation has submitted and received approval of its clean-up plan.

The proposed Order directs the company to remove and properly dispose of contaminated sediments from the St. Johns Drain according to the approved plan and in accordance with the schedule contained in this Order.

Comments or objections to the proposed Final Order received by October 13, 1986, will be considered in the final decision. Persons desiring information regarding this draft Order, procedures for commencing or requesting a hearing, should contact: Surface Water Quality Division, Lansing District Office, Department of Natural Resources, P.O. Box 30028, Lansing, Michigan, phone 517-322-1687.

CITY OF ST. JOHNS
NOTICE OF PUBLIC HEARING
ORDINANCE NO. 366

Notice is hereby given that the St. Johns City Commission will hold a Public Hearing on Monday, October 13, 1986 at 7:45 p.m. in the City Commission Chambers, 121 E. Walker Street, St. Johns, Michigan for the purpose of hearing all persons interested in a proposed Zoning Ordinance Amendment which, if adopted, would revise Article V - District Regulations, to add a transitional zoning area to provide for uses other than those prescribed for the Central Business District or commercial districts when the same abut and adjoin R-3 High Density Residential Areas and when certain conditions and requirements are met.

Further, if adopted, the zoning map would be amended to reflect the transition area affected by the transition zone, which transition area is more particularly described as follows:

Original Plat, City of St. Johns, blocks 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 12, and that part of Walker Subdivision, Outlot B, South of Railroad Street and North of Higham Street, where R-3 high density residential areas are immediately adjacent to commercial or CBD Zones.

real estate

How will the new tax laws affect me?

By **DON G. CAMPBELL**

Huffing, puffing and breast-beating. That's the history of the '86 overhaul in the federal tax code. At the beginning of the year there wasn't one person in 10 who was willing to give even lip service to the possibility that any of the then radical proposals being batted around had a prayer of being written, much less passed into law.

As this is written, of course, it still hasn't been signed but, barring a miracle (always a possibility), the language of the law as of early September was still very much in place.

DEAR MR. CAMPBELL:

As a small real estate investor I have been watching the new tax legislation with some nervousness. I have a four unit apartment building that I bought about three years ago, quite frankly, as a tax shelter. So far, I just about break even or run a small loss, but hope that there will be a positive cash flow in time as I can raise rents and pay off some capital improvements.

I have a full-time job and can only look in on the apartments occasionally, so I've turned the whole thing over to a property management company.

The thing that bothers me about the tax law is that, as I read it, you can't write off any losses against other income unless you "actively participate" in the management. Does this mean that I'm going to have to fire the management company and take over the day-to-day operation of this building or lose the right to charge these losses off against my other income? — Mr. W.T., Allentown, Pa.

A: In any anthology of great literature you'll find very few tax codes included as examples of fine writing. Even those real estate experts who consider the new tax law the hottest thing since sliced bread regard that portion of it dealing with "active participation," "passive participation," "active income" and "passive income" both confusing and misleading.

But, according to Marvin B. Starr, who edits the prestigious Real Estate Tax Digest, the curious wording had a purpose: to head real estate syndicators off at the pass who were already planning to get around the "active participation" stipulation by changing the designation of all of their "limited partners" (who are "active" only to the point of investing money) to "non-managing general partners," which would suggest that they all have a hand in picking tenants, signing leases, etc.

For the small investor, Starr says, the "active participation" has little meaning as long as you, as the owner, have a material interest (obviously) in how the apartment is doing. Having a property management company doing the gut work for you doesn't get you into trouble.

As a matter of fact, the new tax law for the average, small real estate investor doesn't really change anything at all. If your adjusted gross income is \$100,000 a year or less you can have as much as \$25,000 a year in actual losses and still write them off against your other income. With better heeled real estate investors (over \$100,000 a year) things are played a little closer to the vest — you can still write off all the normal expenses, of course, but only up to the amount of income actually generated by the property.

Since most small real estate investors aren't in it for big tax write-offs, but for limited tax benefits, income, some appreciation and for the inflation hedge involved, Starr doesn't think deserving investors are going to be hurt at all.

DEAR MR. CAMPBELL:

I imagine you must be getting sick of questions about the new tax law and what it does to real estate. I hope you'll bear with me because, as I read this "simplified" law, I'm going to be in deep trouble.

Here's the deal: I bought my house for \$60,000 back in the mid '70s when prices were fairly low. Two years ago I went to refinance it to make another real estate investment and the appraisal came in at \$195,000 — not bad, right? So, I refinanced it for \$100,000 and have naturally been deducting the interest.

What's this business about how the new law limits the amount of this interest I can deduct? Is it limited to 80 percent of the appraised value of the house? Or 80 percent of what I borrowed, or what? — Mr. P.T., San Clemente, Ca.

A: Well, "sick of questions" is a little strong. Getting a little "green around the eyes" might be closer to the truth.

While the general consensus is that the tax law is likely to be signed pretty much as it stands now, there is always the possibility that Congress, during its recess, may be hammered by their constituents back home on some aspects of the law to such an extent that there might be some second thoughts when they reconvene. This refinancing angle that you mention could be one of the sensitive ones.

Right now, though, you might want to start doing some serious talking with your tax accountant because you could, indeed, have some problems. The general interpretation that tax

experts are now putting on this aspect of the law is that the deductibility of interest on refinancing is limited to the original purchase price of the home (that's \$60,000 in your case), plus the value of any improvements made to the house, although refinancing for the purpose of paying for educational and/or medical expenses or for additional home improvements would be exempt.

So, if you refinanced for \$100,000 and the

Expert says

Syndications must change with the law

Changing economic conditions and tax laws have forced investors to use new strategies that put real estate syndications back into the "hands of economics," a leading real estate expert told investment specialists.

"Major tax law revisions aimed at curbing tax shelters have made traditional real estate limited partnerships vulnerable," said Mark V. Kenny, president of Sierra Pacific Capital Co. Inc., a Newport Beach real estate syndication and development firm.

Kenny made his remarks to real estate industry experts attending the Crittenden Syndicators Conference at the Hyatt Regency in San Francisco.

"In spite of the new tax law, the real estate syndications industry will remain alive and healthy," he said. "But the emphasis definitely will be on economically viable syndications which make money for investors."

house was purchased for \$60,000, the way the law reads now means that the interest on \$40,000 of that refinancing can't be deducted — sticky business, there. (Of course, if you've added a bedroom, a swimming pool or other improvements to the house equal to that \$40,000 you're all right).

Without some sort of "grandfathering" clause built into it, this could be a bothersome and costly change in those parts of the country

where housing has sharply appreciated in value and subsequent refinancing has been based on new, much higher, appraisals.

Finding a home is only half the battle. Completely revised and expanded, the leaflet, "Who's Got the Money?" is now available to answer this sticky question. Send a long, stamped, self-addressed envelope and \$2 to cover costs and handling to Don Campbell, P.O. Box 39527, Los Angeles, Calif. 90039.

Traditional real estate limited partnerships are giving way to new types of syndications which rely on little or no leveraging of cash, strategies that add value to properties and short turnover times that increase profit, he continued.

"All cash investments coupled with new property development and a four to five year investment cycle offer real estate investors greater yields over other types of investments," Kenny said.

The types of limited partnerships that will emerge are those insulated from tax law changes, he explained. Nonleveraged, economically sound real estate syndications structured to make money for investors are emerging as competition for investors dollars builds.

"A nonleveraged real estate partnership eliminates the need to borrow capital to pur-

chase income property and uses the cash it raises to purchase the property outright," Kenny said. "The result is a protected investment for partners, immediate cash distributions from rental revenue, long term capital gain income and the flexibility to finance the property should economic conditions warrant."

Even greater benefits are available through investments which offer investors a chance to build the property without construction loans or permanent mortgages. Since properties typically cost 70 to 75 percent of market value to build, investors enjoy an automatic appreciation upon completion of construction, he said.

Finally, investors benefit most from a short investment cycle of three to five years. But most syndicators do not plan for the sale of properties Kenny told investment specialists. A key part of a syndicator's acquisition strategy must be a plan for the sale of the property within the desired investment cycle.

Call 224-2301 today for all of your real estate needs!

Obituaries

Norman Marten

DEWITT Norman Marten, 8387 S. Francis Rd., DeWitt, died Sept. 21, 1986, at his home. He was born in Riley Twp. of Clinton County on Oct. 5, 1916, the son of Christian and Anna (Rossow) Marten. He was married to Arlene Rossow in Riley Twp. on Oct. 8, 1947. He had resided all his life in Riley Twp. He graduated from the Pratt School. He was a farmer. He was a member of St. Peter Lutheran Church and the Clinton County Farm Bureau. Surviving are his wife, Arlene; one daughter, Mrs. Judy Johnson of DeWitt; two granddaughters, Patty and Jessica; his mother, Anna Marten of DeWitt; two sisters, Mrs. Lona Silm of St. Johns, and Mrs. Ivah Kleuckling of rural St. Johns. He was preceded in death by his father, one infant brother, and one grandson, Anthony Wick. Funeral services were held at St. Peter Lutheran Church on Sept. 24 with Pastor Peter Mueller officiating. Interment was made at St. Peter Cemetery. Arrangements were made by Osgood Funeral Home.

The family suggests contributions be made to St. Peter Lutheran Church or the Michigan Heart Association in his memory.

Alfred Ernst

ST. JOHNS Alfred Carl Ernst, 3914 County Farm Rd., St. Johns, died Sept. 23, 1986, at Clinton Memorial Hospital. He was born in Dallas Twp. of Clinton County on April 19, 1907, the son of John and Rose (Marten) Ernst. He had resided in the St. Johns area all of his life. He was married to Vivian Pierce in Fowler on Nov. 30, 1930. She preceded him in death in 1937. He was a member of St. Paul Lutheran Church in Fowler. He was employed by the Clinton County Road Commission. Surviving are one daughter, Mrs. Claude (Margaret) Moore; two grandsons, Frederick and Robin of St. Johns; two great-grandsons, Frederick Jr. and Michael; one great-granddaughter, Mandi; four sisters, Laura Bashore, Esther Ernst, Florence Marten, and Frances Burl, all of St. Johns; two brothers, John Ernst and Lloyd Ernst, both of St. Johns. Funeral services were held at St. Paul Lutheran Church on Sept. 25 with Pastor Charles Burhop officiating. Interment was made at DeWitt Cemetery. Arrangements were made by Osgood Funeral Home. The family suggests contributions be made to St. Paul Lutheran Church in his memory.

Jessie Beach

MALIBU, CALIF. Jessie Beach, widow of Allen O. Beach, formerly of St. Johns, died on Sept. 9, 1986, in Malibu, Calif.

Schuette to be at courthouse

A representative of Congressman Bill Schuette will be in St. Johns at the Clinton County Courthouse on Oct. 7 from 10 a.m. to 12 noon. Persons in need of Congressman Schuette's help with Social Security, Agricultural Stabilization and Conservation Service, Veterans Administration, or other federal programs are invited to stop by.
