Recall backers fight CORE

By BUDDY MOOREHOUSE

The Watertown Township Board did in effect vote to approve the dumping and storing of hazardous waste at the Granger landfill, and for that reason should be recalled from office. So say the members of the Watertown Citizen's Recall Committee, who have organized to help insure that Supervisor Vaughn Montgomery, Clerk Mildred McDonough and trustees John Fox and Forest Shipman are removed from office in the recall election Jan. 18.

In a statement signed by Recall Committee chairman Nancy Doell and members Barbara Boughton and Janice Case, they contend: "Watertown Township Board members were in full knowledge that dumping of hazardous waste would continue if Granger was issued a Special Use Permit by the county. The board voted to settle out-of-court and abandon its opposition to the Granger landfill.

"The board's surrender gave the green light to the county's Zoning Board of Appeals to reverse its decision and award the Special Use Permit. The zoning board's only reason was the township's agreement.

"This agreement allows (landfill developed Jerry) Granger to receive 35,100 cubic yards each year. This 35,100 cubic yards is as big as a football field piled 23.4 feet high. The types and quantities may be increased upon application. Township board members Montgomery, McDonough, Fox and Shipman broke faith with the citizens of Watertown Township."

The Recall Committee is also in disagreement with Citizen's Opposed to the Recall Effort (CORE), which said the statement on the recall petitions is false and misleading. The statement read: "(The board member) voted to approve the dumping and storing of hazardous waste within our community against our wishes."

"I don't understand why they would say that," Ms. Boughton said. "The statement on the petition is very clear. When we circulated the petitions, we also handed out a sheet detailing the case. I can't see how anyone could say they didn't fully understand the statement."

The main disagreement between the Recall Committee and CORE, however, is that the committee says the board did vote to approve the dumping of hazardous waste, while CORE says that wasn't what the vote was about.

"The township board knew that by settling with Granger (on Sept. 23, 1982), that would give the green light to the ZBA to grant him an SUP," Ms. Boughton said. "That was the only reason he was granted the SUP. So the board did vote to approve the dumping and storing of hazardous waste. The statement on the petitions is true."

As for CORE's contention that the board showed farsightedness by settling with Granger before a pending state law took effect, Ms. Boughton said, "They should not have acted on that presumption. Judge (Randy) Tahvonen did not act on that presumption when he decided on the SUP, so the board should not have, either. The action they took was not their only recourse."

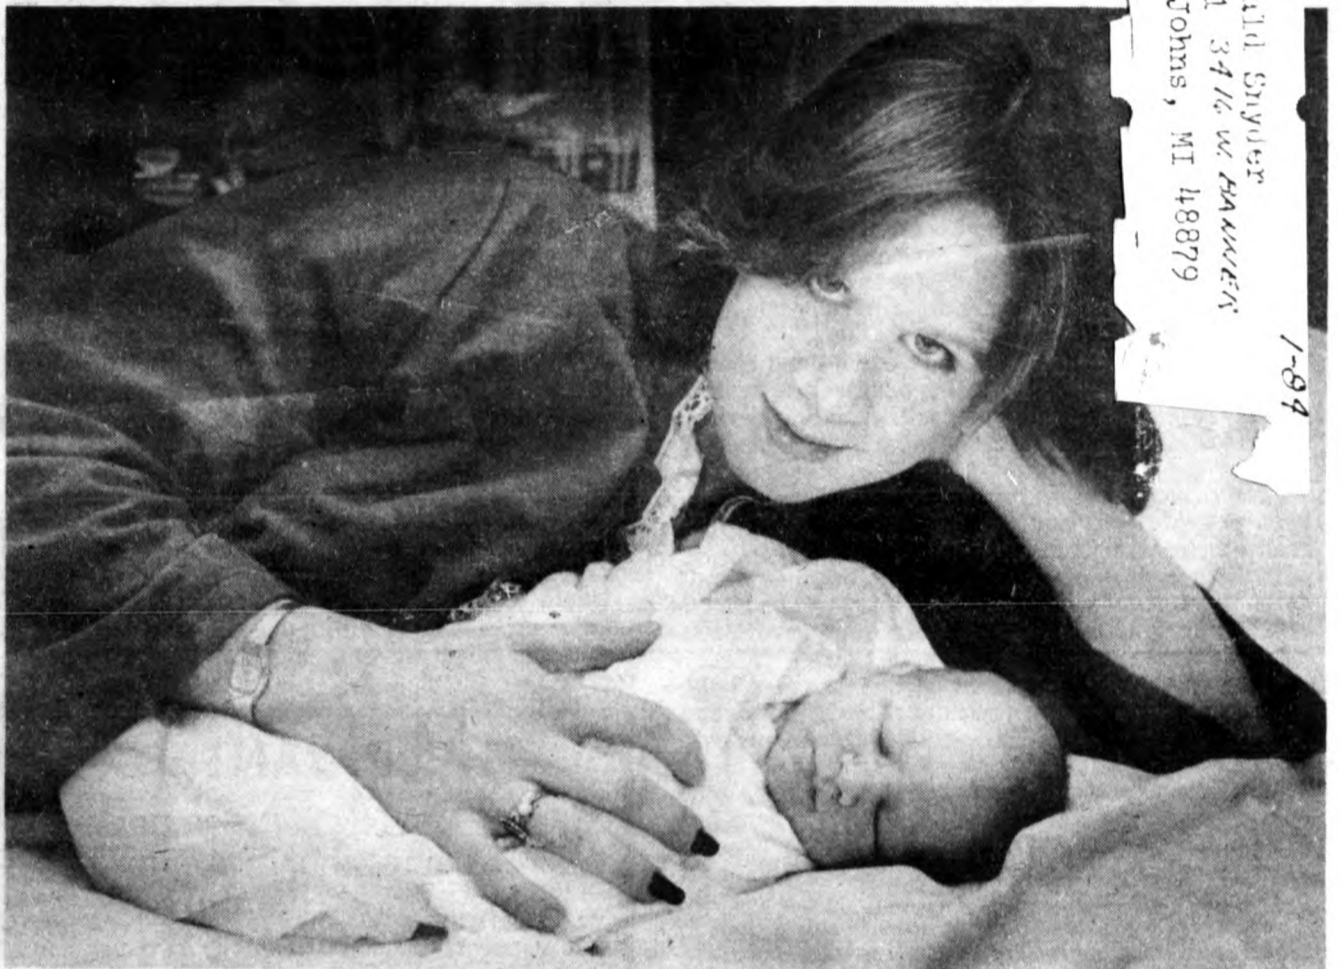

The Recall Committee is also upset about the Motion to Intervene in the case of Granger versus People's Action League (PAL) and the ZBA, which was filed Sept. 3, 1982 by the township's attorney.

"He intervened on behalf of Granger in that case," Ms. Boughton said, "saying the township was friendly with Granger and that Judge Tahvonen should allow Granger to operate past the deadline and then grant him an SUP. Somebody told the attorney to do this, but it wasn't mentioned in the minutes of any board meeting."

The Recall Committee had voiced disapproval of Elizabeth Houghtaling, who was chosen to be the impartial special deputy for the election. Ms. Houghtaling's name was printed on CORE's official stationery as a supporter of CORE, thus making her partial, said Ms. Boughton.

After the Recall Committee formally requested that Ms. Houghtaling be removed, Clinton County Clerk Jane Swanchara decided to replace her as special deputy. Absentee ballots can be obtained from Ms. Swanchara at the Watertown Township Office on Tuesdays and Thursdays.

"All we're hoping for is that we can have a healthier government," Ms. Boughton said. "The board acted for Granger's benefit and not the benefit of the community."

DeWitt Council considers plan

Law allows taxes in summer

A new state law which would allow twice-yearly collection of school taxes is being considered by DeWitt City Council, and other district's in the county may follow suit.

DeWitt has made no decision yet, but Deputy Clerk Marge Lotre says a summer tax collection would be easy. "As far as the city goes, it wouldn't really be any problem," she said. "Some communities don't have a summer tax disbursement, but we do, so it wouldn't be any problem."

DeWitt council members discussed the plan at their Monday night meeting, and other local units of government in the county may do likewise soon. The new law is intended to make it easier for school systems to pay

their bills on time.

With a single annual tax collection, most school systems have been forced to borrow money in anticipation of tax revenues, forcing them to pay interest rates with tax dollars.

But some farmers in St. Johns said they were opposed to the change during meetings of the St. Johns School Board last year. They also criticized the school board for membership in the Michigan Association of School Boards, which lobbied on behalf of the new law.

They say two tax collections would cripple their own budgets, which depend on sales after harvests.

DeWitt's school board has made no recommendation to the council yet.

Parkers get a vacation

Motorists parking in downtown St. Johns are getting an extended vacation from enforcement, until the city commission meets next Monday to decide the fate of the city's parking system.

"Until the commission decides, there is no enforcement in any of the lots or streets," City Clerk Rick Coletta said. "The only thing being enforced now are the meters."

The parking board voted at its meeting last month to recommend the city continue with the current time-limit parking system downtown with a few minor changes. The board recommended the time limit on State, Walker and Higham street spots be increased from one to two hours. The city commission will vote on the recommendation Monday.

Two people hurt in separate automobile crashes

Two people injured in two separate accidents were among the incidents reported by Clinton County law enforcement agencies during the past week.

• As he was northbound on Shepardsville Road in Ovid Dec. 30, a car driven by Thomas L. Hughson,

1404 N. Shepardsville Rd., Ovid, crossed the roadway and hit a tree, Clinton County Sheriff's Deputies said. Hughson said he lost control after looking down on the seat for something, deputies said. He was taken to Clinton Memorial Hospital.

• A car driven by a 15-year-old was eastbound on Parks Road in St. Johns Dec. 30 when it ran a stop sign and hit a car driven by Pamela Sue Karber, 2355 W. Taft Rd., St. Johns, Clinton County Sheriff's Deputies said. The juvenile was cited for careless driv-

ing, deputies said. • Darin Scott, 6105 Wight St., St. Johns and Leroy Goerge, 14411 N. 2nd St., Fowler were rabbit hunting Dec. 31 near Fowler when Goerge shot at a rabbit and accidentally hit Scott, Clinton County Sheriff's Deputies said.

The injuries to Scott's knees were minor, deputies said.

• Three CBs, a car stereo and speakers, all valued at more than \$400, were taken Jan. 2 from the 78 Truck Stop, 7149 E. M-78, Bath, Bath Township Police said.

• Rare currency and coins were among the \$800 worth of items taken in a breaking and entering Jan. 1 at the Dutch Hills Trailer Park, Bath, Bath Township Police said.

• Ten dollars worth of items were taken in a breaking and entering at the Bath Township Hall

Dec. 29, Bath Township Police said. Entry was made through a window, police said.

• Tools valued at \$150 were taken Dec. 28 from a combine belonging to Gary Loren Chant, 6952 S. Airport Rd., DeWitt, Clinton County Sheriff's Deputies said.

• Two kegs of beer were taken Jan. 1 during a party at the VFW Hall, US-27, St. Johns, Clinton County Sheriff's Deputies said. The beer was taken from the back door of the hall by someone exiting the party, deputies said.

Hauling trash could drain cash

By ELEANOR JACOBS

State regulations enforced upon landfills, the Nov. 18 decision by the Clinton County Zoning Board of Appeals that allowed the Granger Land Development Company a 92-acre expansion, the price of gas and citizens' action groups combine to affect the cost of rubbish removal in the tri-county area.

Throughout the area, small independent and county landfills are closing. When this happens, refuse haulers will have to either haul garbage farther, adding increased gas costs and/or deal with one large landfill, meeting its costs.

Even though local refuse haulers are attempting to keep prices down, customers will in the next year realize an increase in costs.

"When the number of landfills gets down to a half dozen in the state, the cost to get to them will be a lot," said Mr. Herrguth of Allied Disposal Company in Bath. "The further we haul, the more gas we use."

Herrguth, who services St. Johns commercially, owns a small landfill. The actions of citizens' groups and Department of Natural Resource's regulations will close it in a year's time.

"I'm in favor of protecting people, but there has to be an end somewhere. Regulations do not have to go so far. I'm small but have to do the same things for five acres as someone does for an 105-acre landfill. But, I don't get the volume to operate," Herrguth said.

Presently two-thirds of Herrguth's business goes to Granger at a cost to Allied of \$25,000-a-month.

The Watertown Township agreement dictated that Granger pay 7 cents per cubic yard to a trust fund for upkeep, improvements and monitoring at the landfill.

Even though Granger pointed out the 7 cents shouldn't increase the cost for haulers, Herrguth said that the money will come from the users and eventually will mean a hike in the cost to customers.

Other area haulers are feeling the affects of regulations and price increases. To deal with these, they are either making changes in service or keeping prices the same until they get a clearer idea of increases.

Mrs. Duces, spokesperson for Hampton's Rubbish Service that covers Grand Ledge and the surrounding area, said that the price of gas and a July 1, 12-percent increase in dump fees meant a 50-cents increase to Portland residents as of November.

When the Eaton County Landfill closes Dec. 31, Hampton's will use the Granger facility exclusively.

"The 7-cents surcharge will be passed on to the haulers. I don't know how we'll absorb that, but it won't have an immediate effect on the customer," Duces said.

Hampton's uses 2,000 gallons of gas each month. A proposed 7 cents gas tax increase can only bring about increases to the consumer.

After next April, when the coupons to Grand Ledge customers expire, Duces pointed out, changes in their service will result depending upon gas prices and increases at Granger's.

Duces also sees that the closings of small and county landfills hurt small haulers. Hampton's dipping fees will increase 50 cents a cubic yard when Eaton County closes.

Two other area haulers, Pick-a-dilly of Portland and Lussmyer of Charlotte, are responding by converting some of their business to recycling.

Recycling programs, according to Grace Lussmyer, will cut customer costs and the expense of dumping.

It will mean, too, a change in the way people dispose of refuse. Both Lussmyer and Nancy Dilly of Pick-a-dilly said people will have to do some sorting of their garbage.

"The way we dispose of things will not be so convenient. People have to realize only so much can be dumped and there are not many places left to dump," Dilly said.

Lussmyer plans within the next two weeks to begin recycling. At the same time she is trying to sell container and bag accounts to cut hauling costs.

With the closing of Eaton County Landfill, Lussmyer's two choices are to use Granger's or the Turkeyville Landfill near Battle Creek. These would add to Lussmyer's \$1,000 a month fuel costs.

"In two years you're going to see a lot of differences. The DNR says that by 1984, Potterville, Eaton Rapids, Perry and Allied Land Development will have to close. Then everything will go to Granger," Herrguth of Allied Disposal said.

Even though Granger is already in compliance with state regulations, which should mean no increase in his costs, independent rubbish haulers see hauling and dumping costs and further local landfill closings causing hikes in consumer costs.

Whatever the causes—gas tax increases, state regulations or a Granger landfill monopoly—the cost of rubbish removal will signal a change in the 'throw-away' society.

Then came Bronson

All right, now you've gone too far. I've been told I have "unmitigated gall," called "shortsighted" and indirectly accused of being pro-slavery, anti-union and an advocate of black lung disease.

Readers from Grand Ledge to DeWitt have alleged that my thought processes have been tampered with by a "mysterious power," and that I've been brainwashed.

I thought perhaps Santa had given me more coal in my stocking than I deserved, but I was ready to take my lumps — along with a few that must have been meant for someone else — and chalk up the rare flood of letters to what must have been a very thought-provoking editorial.

But then I was accused of being a modern day Neville Chamberlain. That did it!

To be compared with one of the most hopelessly naive and deluded statesmen of all time, "The Great Appeaser" who lost Europe piece by piece while trying to bargain for peace with a double-crossing Adolph Hitler... well, that lump was hard to swallow.

First of all, I'd like to point out I have never carried an umbrella. I challenge anyone to find a picture of Chamberlain without his handy bumbershoot. Everyone knows appeasers are sissies, and sissies carry umbrellas. I'd rather get wet.

Secondly, contrary to what some members of the People's Action League may believe, Jerry Granger is not Adolph Hitler. He wouldn't even make a good Mussolini. He doesn't wear a mustache, jackboots or a bunch of funny ribbons and swastikas — all of which are usually found on Great Appeasers. I don't think he's trying to build a master race, he's just trying to run a landfill — which is about as welcome a neighbor as Stalag 17.

Furthermore, as Chamberlain might have said upon his return from Munich, "That's just not cricket."

I am concerned about the water in Watertown Township and Granger landfill. I just think it would be smarter to make landfills as safe as possible as soon as possible instead of trying to close them and hoping mountains of waste will just go away.

Sure, I've heard about exciting new methods of disposing of waste, and some sound like they could work for us soon. While we're waiting, why don't we all just pile our garbage up in the garage? There must be a million things you can do with used milk cartons. And don't forget to put those coffee grounds on your plants.

As for heavy metals and industrial sludges, I'm sure it's only a matter of time before some creative homemaker comes up with a really nifty recipe to turn toxic wastes into tuna casserole.

Dream on.

We have a big problem and it's getting bigger with every milk carton and newspaper we throw away (please, not this one yet). We need to monitor waste disposal closely and upgrade methods constantly. That's what we suggested in our editorial. We also said efforts to close landfills only delay improvements, meanwhile exposing our environment to needless risks as dangerous wastes are dumped in obsolete landfills.

If that doesn't make sense, it's probably because I just had my brain washed and can't do a thing with it.

Letters

Local landfill is the pits, neighbors and others say

To the editor:

Where do you get the unmitigated gall to suggest that those unfortunate people who live in the vicinity of Granger landfill should not fight the burying of toxic wastes in said landfill? Especially with the knowledge that "no landfill is leak-proof forever," and "once these substances find their way into the environment, it's too late," as stated in your editorial.

How can you smugly say to these unfortunate people that they stand in the way of progress, as you and others with your thinking reside safely miles away from the site?

It is short-sighted thinking like yours that stands in the way of progress — the progress of outlawing landfills and applying existing technology to destroying dangerous waste and recycling others.

Why not use superfund money to to prevent toxic pollution rather than promoting it and spending millions to clean up? The answer to this may be that landfills are VERY LUCRATIVE BUSINESSES FOR THE OWNERS, but very costly to citizens living near them.

The people who are fighting the landfill have the same right to clean, unpolluted water and air as the rest of us, and only a fool would believe that the presence of the landfill won't affect their property values.

Jeanne Bewersdorff
Portland

To the editor:

Telling the people of Eagle and Watertown townships that they should just grin and bear it, while the rest of the people of Clinton, Eaton and Ingham counties quietly destroy the watertable, via the Granger landfill, is outrageous.

I'm sure if we turned back the pages a hundred and fifty years, we would see the same logic being used to tell the Abolitionists that it would be economic suicide for the southern plantations to do without slave labor. It was the same logic that spawned opposition to the forming of labor unions earlier in this century. And it is also the same logic that owners of coal mines give workers that they should learn to live with black lung disease. In the case of landfilling vs. recycling and incineration, it is the economic tail wagging the environmental dog.

Maps and graphs of leachate collection systems cannot conceal the fact that there is NO SUCH THING AS A SECURE LANDFILL. Perhaps the editorial staff should have spent time researching the health effects of these pesky little contaminants. Wouldn't it be shocking if some found they ran higher than normal risks of certain types of cancer or permanent brain and/or liver damage because of chemical poisoning — which is why those contaminants are considered a hazard. Yes, government agencies are slow to research the long term effects of low-level exposure to chemical contaminants. But common sense should clear away much of the fog.

It is said that an ounce of prevention is worth a pound of cure. Yes, doing things right might initially carry a higher price tag, but that cost isn't as high as the cost of a clean up, plus the cost of extensive medical treatment, plus the loss of wages to the victim or the cost of someone's life.

People may scream that PAL cannot be their friend because necessary preventive measures (incineration and recycling) cost more today. But somebody will pay. We can either pay now or later. I would rather have it done right the first time. If it takes a PAL to accomplish that, then we should thank them and support them for their work to get things done right for all of us.

Jean L. Walters
Grand Ledge

To the editor:

From your obvious turn-about in editorial attitude regarding the Granger landfill, one wonders if you, also, have come under the influence of that mysterious power that has worked its magic on county, townships and state officials.

Your editorial comments echo the same tune sung by Mr. (Don) Witt and Mr. (Ray) Yerke of the zoning board of appeals. Both of them stated that they wouldn't want a landfill in their backyard, but gave the okay for it to be in Watertown.

It's difficult to have peace of mind when from past experience there was an attempt to cover up the fact that the landfill was taking hazardous waste. The DNR quickly gave an oral permit. The landfill was proclaimed to be the best natural site in Clinton County. When this was challenged, the statement was changed to "it's the best engineered site in Clinton County." Why is there such resistance to (convening) a site review board?

Another frightening fact is that Mr. (Jerry) Granger is buying more property in the vicinity of the landfill. If landfilling isn't outlawed, he probably will be able to operate for another fifty-plus years and likely will add more toxic waste pits to the additional acreage. This cancer in our community must be stopped.

A statement made by Dr. Aust of the Toxic Substance Control Commission keeps haunting me. In essence it

was that we have got to find alternatives to landfills — we can't go on burying these chemicals in the ground.

It is obvious that Mr. Granger's and his associates' plan for defeating the people is to wear them out emotionally and break them financially. Let it go on record that each turn of the knife only makes us more determined to fight for what is right — and we will never give up!

Gloria Miller

To the editor:

On Dec. 23, your article on PCB in the Granger landfill quotes various Granger and DNR officials who say the PCB-tainted soil dumped at the landfill is not hazardous. If this soil, which is Shiawassee River sediment, is not considered hazardous, why wasn't it disposed of in Shiawassee County instead of being hauled to Clinton County. Everywhere you go you see signs requesting clean fill dirt.

This is just another confirmation that the recall of four Watertown Township officials is necessary and just. The approval of any landfill to exist is the approval of the dumping of hazardous wastes. It is impossible to keep them out. Allowing the continuation and expansion of a landfill this close to a residential area is unforgivable. This landfill could potentially contaminate the water supply of hundreds of homes in the Wacousta area worth tens of millions of dollars. The seven cents per yard settlement our elected officials are so proud of couldn't compensate even 10 percent of these property owners if a catastrophe occurred.

Adventures in paradise

To the editor:

We are Americans who have made our home in Latin America for seven years. Lately, we are seeing much distorted news about the Americas coming out of the U.S. and would like to set the record straight for News readers.

When we first moved to Costa Rica — bag, baggage, grandmother, teenagers and pets — we spoke no Spanish and knew little about the country. But soon our rural neighbors accepted us and graciously taught us their language, culture and how a city-bred family could enjoy ranch life in a foreign land. Truly, our delightful adventures there merit a book, at least.

My husband's love for the sea (Pearl Harbor survivor, retired Navy) prompted a further move two years ago, to Columbia's Caribbean coast. We found a lovely old coconut plantation on the Pan American Highway near Santa Marta, the oldest (457 years), most fascinating city in all of the Americas.

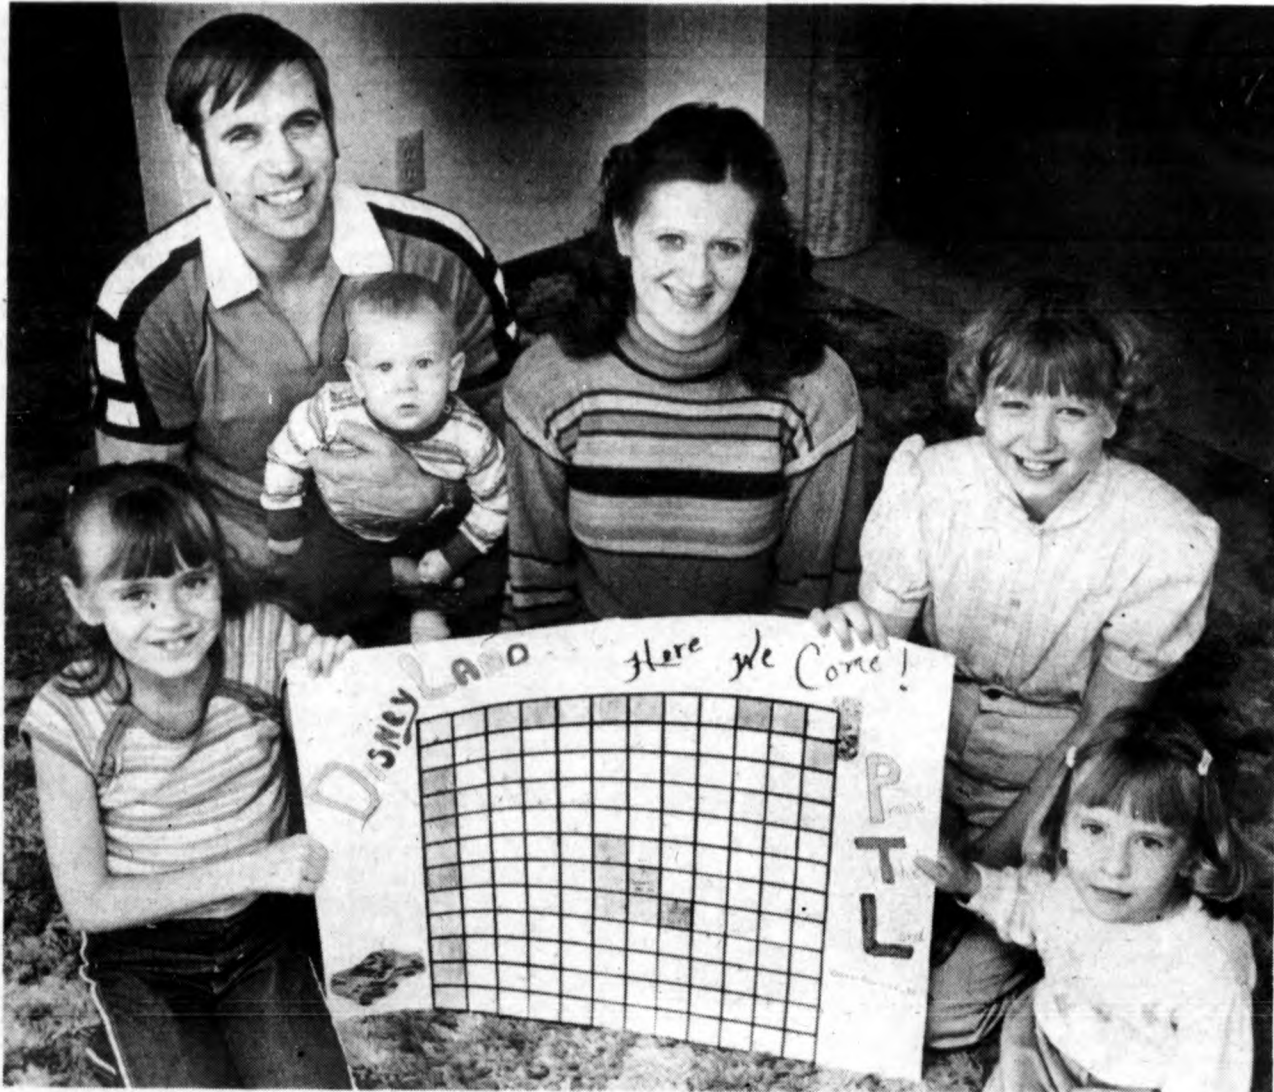

Imagine green palms waving in gentle ocean breezes, blue sea and sky, pounding surf and golden sand and, towering 19,000 feet over all and snow-capped year 'round, majestic Mount Colombus. We feel we have found... incomparable beauty, fine neighbors, perfect climate, a stable, democratic government and a satisfyingly low cost of living.

Like Colombus, we have discovered a new frontier with a vast potential and, being human, are driven to tell others about our dream-come-true. If you are interested in the future of the Americas — and the Birds — write us by international air mail (35¢ per half-ounce) at Post Office Box 5222, Santa Marta, Colombia. It may take a while, but we promise to answer.

Now, from beautiful Santa Marta, we wish you salud (health); pesatas (wealth), amor (love) and the time to enjoy them all!

News owners announce sale

Lansing Suburban Newspaper Network, publishers of weekly newspapers in eight communities in the Lansing area, announced the sale Monday of three of its newspapers.

The Towne Courier, Ingham County News and The Williamston Enterprise were purchased by a private group of investors, called Ingham Newspaper Company. The newly formed group is headed by John E. Chambers, publisher of the Macomb Daily and vice president and general manager of SEM Newspapers.

Roderick Brown, advertising director of LSNN, has been named general manager of the new three-newspaper group, and Kurt Madden, editorial director of LSNN, will serve in a similar capacity for the Towne Courier, Ingham County News and Enterprise, Chambers said.

"Several of our investors are residents of the area and are most interested in the publication of quality community newspapers," Chambers stated.

Chambers has served as publisher of the Mining Journal in Marquette and was regional coordinator for

Panax publications in Escanaba, Iron Mountain and Houghton.

William C. Sliger, general manager of LSNN, said the new owners would take over the Towne Courier offices in East Lansing and The Enterprise office in Williamston beginning Thursday.

LSNN will continue to publish the Grand Ledge Independent, Portland Review & Observer, Charlotte Republican-Tribune, Clinton County News and DeWitt-Bath Review.

Green Sheet classifieds will remain in the five-newspaper LSNN group. Main offices for LSNN will remain in Grand Ledge, as well as the offices in Charlotte and St. Johns.

Klein, Gonzales named top athletes

Fowler's speedster can hurt you in three sports

By BUDDY MOOREHOUSE

Believe it or not, Fowler's Becky Klein *does* have a fault when it comes to athletics.

"She's only 5-foot-5," said Eagle basketball coach Denny Smith.

Work on it, Becky.

Aside from that, though, the Fowler senior standout would seem to be as near-perfect as they come. For her accomplishments in 1982, Klein has been selected our Clinton County Female Athlete of the Year.

Smith calls her "the best female athlete Fowler has ever had." It would be hard to find someone willing to argue the point. In case you still have doubts, just consider what she did last year:

• **TRACK** — State champion in 440-yard dash and mile relay. Second place in 220-yard dash and 880-yard relay. Four first places in county meet and CMAC meet. Two firsts at State Journal Honor Roll meet. Team MVP.

• **SOFTBALL** — First team All-County. First team All-CMAC. Batting average of .460.

• **BASKETBALL** — First team All-County. First team All-CMAC. Fifth team All-State. Team MVP. Averaged 16.5 points a game and had 84 steals.

Not bad, eh?

"I've always been playing sports since I was a little kid," the soft-spoken Klein said. "I like basketball the best, because it's a team sport and it's played inside."

But her best sport is undeniably track. There is no question she's the state's best sprinter in Class D, and it would probably be hard to find someone from Class A, B or C who could beat her, either. And to think she almost didn't take up the sport.

"I started running track because my sister, Cindy, talked me into it my freshmen year," Klein said. "I was just going to play softball, but he was running track and she convinced me to go with her."

And thus was born a legend. Well, almost. She did hurt her knee as a ninth-grader, an ailment that pops up from time to time, but it's nothing serious. Just one question, Miss Klein: How do you manage to fit in both softball and track, since both are in season at the same time?

"I go half-and-half to the practices," she explained. "I go to half the softball practice and then half the track practice. At a small school like this, it's not really hard to do."

But isn't it hard to do so well in school (she carries a 3.4 GPA) and athletics at the same time?

"Being in sports has helped me in school," she said. "When I'm busy with sports, it's a lot easier to keep busy with studying. When I'm in-between sports, like now, I get lazy."

The most fun Klein has had in the last four years has come when the Eagles played Portland St. Pats or

"We had a good year in basketball, but I wish we had been able to go further," she said. "If we hadn't lost Judy (Goerge) with he injury during the year, we might have been able to do it."

Still, Fowler managed to finish at 18-4, not bad by any standards. Klein is now looking forward to the rest of her senior year and a college career which awaits. Alma College and Adrian College are the two schools which have shown the greatest interest in her — both for basketball.

"I'd probably try to play both basketball and track," Klein said. "And I'd like to go into computers in some way — I'm not sure which. I really like math."

Adding up her accomplishments has no doubt given her a lot of practice with that.

Small, but a threat in every sport he takes the field in

By BUDDY MOOREHOUSE

There might be a couple guys in the county who can play football better than St. Johns senior Steve Gonzales, if only because they're bigger. There might be a few people faster than he is in track. It's doubtful there's anyone better than he is in basketball.

But there's no one who has proven to be a better all-around athlete in 1982 than Gonzales, and for that reason, he has been selected as our Clinton County Male Athlete of the Year.

(Photo by Kemi Gaabo)

A high-quality year

With an abundance of fine athletes at Clinton County's high schools this year, the Clinton County News is announcing its first annual Male and Female Athletes of the Year. Each athletic director in the county recommended two people from his or her school, with the sports staff making the final selections based on 1982 performances. Becky Klein of Fowler will receive a special plaque commending her accomplishment at halftime of the Fowler-Pottersville basketball game Jan. 14. Steve Gonzales of St. Johns will receive his award at halftime of the St. Johns-Okemos game Jan. 18. Stories on the other athletes are below and on page 7.

The top athletes in the county

Sue Pearsall — St. Johns

As far as basketball goes, there really isn't anything Sue Pearsall didn't accomplish in her four years at St. Johns. As a four-year starter, she holds career school records for points (1,101), rebounds (564), assists (199) and free-throw percentage (58.9) as well as the single-season record for most points (423) and the single-game scoring mark (44.) Her accomplishments have not gone unrecognized, as she has been named to virtually every honor team around, including two years on the first-team All-State squad. The 5-10 senior guard was the captain of the team in 1982, leading the Redwings to the Mid-Michigan 'B' title.

Basketball may be her best sport, but Pearsall was also a standout in volleyball and softball in 1982. As the team MVP as a junior last year in volleyball, Pearsall garnered second-team MMB and honorable mention All-County honors. In softball, she earned first-team MMB honors for the second year in a row with her .507 batting average and .877 slugging percentage. She was also named to the All-County and All-Area first teams.

Several Division I schools are interested in Pearsall for basketball, so don't be surprised if she ends up at a major college this fall.

Dave Koenigsnecht — Fowler

In October of 1981, Dave Koenigsnecht was quarterbacking the Fowler football team. On a running play, he went to make a cut, but his knee didn't want to follow. He had to undergo surgery to repair the knee, and his athletic future was very much in doubt.

In spring of 1982, however, the knee didn't seem to

Despite a list of accomplishments a mile long, it hasn't always been easy for Gonzales, who is nicknamed Beaver for reasons no one can remember. To begin with, he's just 5-10 and 145 pounds. Even by normal standards, that's on the small side. By athletic standards, it's downright tiny.

As the Redwings' quarterback in 1982, Gonzales was the smallest member of the team. He managed to overcome the size problem with speed, agility and an aggressive attitude, however, earning team MVP honors.

"I've been contacted by several schools about playing football," Gonzales said, "but they are concerned about my size. If I play football in college, it will probably be as a wide receiver instead of quarterback."

Another thing hindering Gonzales along the way was the fact that his father, Joe Gonzales, is St. Johns' football coach. That high crime made Steve the object of some very nasty abuse in the past whenever he took the field.

"Sometimes that bothered me," Gonzales the younger said. "But you've just got to look the other way. And even though there were a lot of people saying bad things, there were more people saying good things, giving me encouragement. That really made the abuse easier to take."

So Gonzales has managed to overcome just about everything in his four years as a Redwings, and his list of accomplishments in 1982 metes that out. As a starting point guard on last year's basketball team, he averaged 11.2 points a game and had 119 assists as the team's co-captain, earning first-team All-County honors for his efforts.

Then in the spring, Gonzales decided to run track "to help with my speed and endurance for football." He set school records in the 440-yard relay and the mile relay and earned All-Conference honors along the way.

In the fall, Gonzales bulked up to 148 pounds and took to the football field. As a quarterback and defensive back, he scored nine touchdowns rushing, five passing and even caught one. He had 31 tackles and two interceptions on defense and then the honors started pouring in. He earned berths on the first team All-County (quarterback) and All-Conference (defensive back) squads, as well as honorable mention All-State honors.

Through it all, the biggest thrill for Gonzales has come when St. Johns competed against teams from Lansing and Grand Ledge.

"I remember when we played Waverly last year," he said. "We got off the bus and everyone was yelling at us and saying how bad we were. We didn't win the game, but we showed them we could play."

"I always like playing against teams from down there, because we're always looked at as the farmers."

Well, Gonzales and his fellow farmers managed to stop slopping the hogs long enough to acquire a 7-2 record in football in 1982 — better than any of them Class A city boys from Lansing.

Gonzales has played well enough this year to attract quite a bit of attention from the colleges, especially Alma College. He's going to wait until after basketball season to make his choice.

"I really like both football and basketball," Gonzales said. "It would be hard to decide between the two. I'll probably try to play both, as long as I'm still cutting it academically."

He's been cutting it academically in high school, carrying a 3.6 grade-point average as a member of the National Honor Society. In college, he is interested in studying sports medicine, "so I can stay around sports."

And if a roadblock or two pops up along the way, bet Steve Gonzales will clear it with no problem.

(Continued on page 7A)

Looking at Clinton County's best athletes

(Continued from page 6A)

hinder Koenigsnecht as he competed in track and field. In fact, he had a spectacular year, setting the state Class D record in the long jump with a 23-6 leap, finishing third in the state in the high jump at 6-5 and seventh in the 100-yard dash. He made the first-team All-State track squad for his efforts.

His doctor advised him to skip football, so in the fall of 1982, he turned to the links, finishing second in the state Class D golf meet. Showing just what an outstanding all-around athlete he is, Koenigsnecht set a nine-hole school record of 33. The 5-11 senior is also an excellent student, carrying a 3.9 grade-point average. Several large schools, Stanford among them, have contacted Koenigsnecht about long jumping at their school.

Patty Theis — P-W

You just don't find many athletes around with the combination of strength, power and sheer ability that Patty Theis has. And the best news, at least for P-W fans, is that she's just a junior. In every sport she competed in during 1982, Theis made her mark.

In volleyball, probably her best sport and definitely her favorite, Theis used her powerful hitting to lead the Pirates to a 20-3 record, earning first-team All-County honors. In softball, she played outfield and earned another first-team All-County berth. As P-W's center in basketball, the 5-11 standout led the team in scoring, rebounding and blocked shots as the Pirates made it all the way to the state quarterfinals.

Jeff Spitzley — P-W

Aggressive might be the best word to describe Jeff Spitzley, although powerful, hard-working or talented would also be appropriate. The 6-2 senior earned All-County and All-CMAC honors in three sports — basketball, baseball and football — in 1982.

In basketball, his best sport, Spitzley averaged 10 points and 10 rebounds a game to earn first-team All-County honors. He was easily the best rebounder in the league. In baseball, the first baseman hit .357 and garnered first-team CMAC and All-County spots. In football, Spitzley played end and kicker, earning honorable mention All-County and first-team CMAC (as a kicker) honors.

Mary Perrien — O-E

She's only 5-5 and looks quite harmless, but sophomore Mary Perrien is one of the best athletes of either gender to play for the Marauders. As a freshman last year, she was a starter and one of the best players on the first O-E volleyball team in several years. In softball, Perrien earned second-team All-County honors as an infielder.

Hurst's 13 leads O-E

Marauders topple All Saints

Dec. 30 — Ovid-Elsie 62, Bay City All-Saints 50: The Marauders took a week off practice before this game, only leaving three days to prepare. As a result, said coach Bob Foreback, "We weren't sharp."

Sharp enough to record another W, though, and that's what matters. O-E used balanced scoring and good shooting to topple the home All-Saints squad. Pete Hurst led the way with 13 points, while Paul Horak and Wade Kioski each chipped in 12 and Jon Martin added 10. The Marauders shot an impressive 49 percent from the floor, despite losing big in rebounds, 36-27.

"Jon Martin came off the bench for us and had his best game of the year," Foreback said. "And Darrin Darling came in when we got in foul trouble in the first half and hit three quick buckets to keep us in the game."

Ovid-Elsie will travel to Chesaning tomorrow night to face the Indians. On Saturday, the Marauders will play host to Bullock Creek. "I prefer having two games in a

row like that," Foreback said. "I never really like Tuesday games. The guys get up for Saturday games better and there are better crowds."

Pete Hurst — O-E

Blessed with an arm that has made him a standout in baseball and football, Pete Hurst picked up the nickname "Pistol Pete." He proved to be equal to that moniker during the football season, throwing for 1,120 yards and 10 touchdowns (54 percent completions) on his way to team MVP and first-team MMB honors as a quarterback. It was the second year in a row the 6-1, 155-pounder earned those awards.

In basketball last season, Hurst garnered honorable mention All-County honors for his play as a guard for O-E. In baseball, Hurst put his arm to work as a pitcher for the Marauders.

Vaughn Svendsen — Bath

It was hard to find a better cross-country team in the area than the one at Bath, and one of the main reasons was senior Vaughn Svendsen. He finished 12th in the state meet, second on the team behind Brad Abendroth, leading the Bees to a fifth-place finish among all the Class C schools. He was voted the team's co-MVP.

Svendsen is also a standout in the classroom, carrying a 3.85 grade-point as vice-president of the National Honor Society. He was expected to be one of the stalwarts on last year's track squad as a middle-distance man until an injury sidelined him.

Therese Nugent — Bath

The Bees had a down year in basketball in the fall of 1982, but it was an up year for this 5-8 senior. Nugent averaged 14 points and nine rebounds a game, with a high of 21 points, on her way to All-County and All-Ingham County League honors.

A member of the National Honor Society with a 3.1 grade-point, Nugent was a starter on last year's volleyball team at Bath. In the spring, she competed as a high jumper on the track team, earning team MVP honors for her efforts.

Jenny Carey — DeWitt

When Jenny Carey graduated last summer, DeWitt's loss was Lansing Community College's gain. The multi-talented athlete was a standout in volleyball and softball in 1982, reaping numerous honors in each sport before moving on to LCC.

In volleyball, Carey was the mainstay of the Panther squad, earning first-team All-County honors. In softball,

she hit .546 as DeWitt's shortstop. That earned her a spot on the All-County team, as well as All-State honorable mention honors. She was the only county player named to an All-State softball team.

Gary Challiss — DeWitt

Big Gary Challiss was a standout in football and track for the Panthers in his senior year before departing for the Air Force Academy in Colorado and a chance to play collegiate football.

On the DeWitt track squad, Challiss hurled the shot put better than anyone in the county, recording a win at last spring's county meet.

Tim Deak — DeWitt

After a stellar four-year career at DeWitt, Deak accepted a scholarship offer from Eastern Michigan University, where he will play baseball this spring.

As a member of last spring's DeWitt team, Deak hit .392 on his way to All-County and All-State honors. He threw a no-hitter as a pitcher, although his regular position was shortstop.

EDITOR'S NOTE: DeWitt High School chose to nominate three of last summer's graduates instead of three athletes still in high school. In a vote among the school's coaches, there was a tie for best male athlete, so both winners are featured here.

Fowler couple married

Lois Koenigsknecht was wed to Tim Bengal at Most Holy Trinity Church in Fowler at 1 p.m. Oct. 2. The double-ring ceremony was conducted by Rev. Fr. Denis Spitzley to the accompaniment of music by Pam and Susie Schafer, with Susie Feldpausch on piano.

The bride is the daughter of Mr. and Mrs. George Keonigsknecht of Bauer Road, Fowler. Bengal is the son of Mr. and Mrs. Robert H. Bengal of Price Road, Fowler.

The bride wore a white wedding gown with a high neckline accented with pearls. The top featured English netting embroidered in Brussels lace. Her bishop sleeves were accented with scattered Venice lace, also featured on the gown. The gown had a chapel-length train and the bride wore a veil of crowned pearls. She carried a bouquet of white mums, yellow daisies and orange roses. The bouquet also included a momento rosary.

Maid of honor was the Bride's sister, Ruth Thelen of Fowler, who wore an

apricot colored dress with a lace jacket, featuring a high, ruffled collar and long sleeves. Her waistline was accented with a silk ribbon and full skirt.

Bridesmaids were sister of the bride Kathy Coletta, sister of the groom Theresa Bengal and friends of the bride Lynette Witgen and Judy Thelen.

Best Man was Ted Bengal, brother of the groom. Groomsmen were Tom Bengal, brother of the groom; George Koenigsknecht, brother of the bride; cousin of the groom Dave Bengel; and friend of the groom Scott Thelen. Ushers were Tim Keonigsknecht, a cousin of the bride; and Kurt Bengel, cousin of the groom.

A reception was held at 6 p.m. at Smith Hall in St. Johns. Assisting were Bets Simon, Beaner Weber and Lucy Klein, friends of the bride.

Special guest was Mrs. Leona Thelen, grandmother of the groom.

The newlyweds honeymooned in Kentucky and returned to their home on Price Road, Fowler.

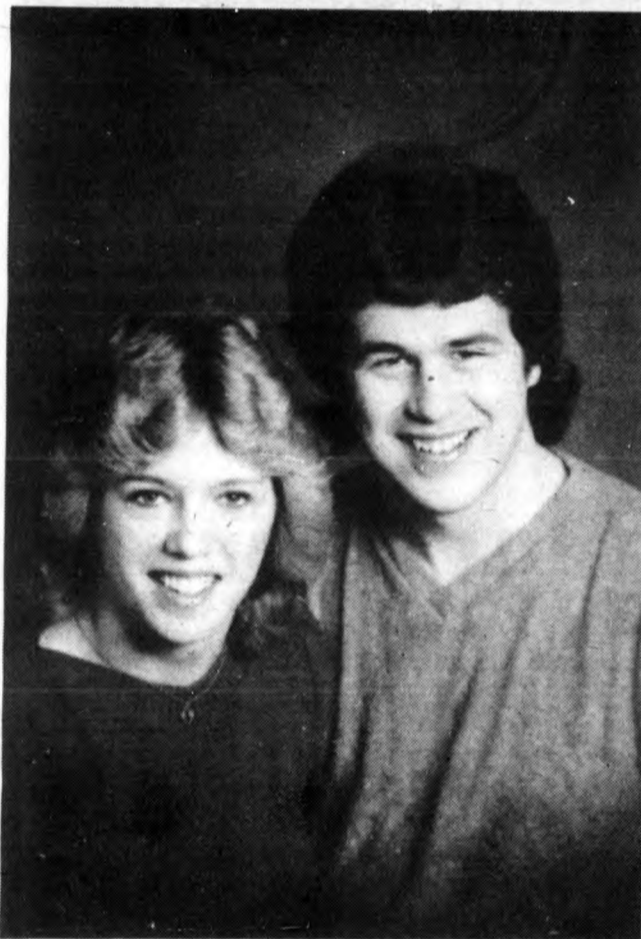

Stocking stuffers

□ Kenneth and Suzanne Halfman of Fowler are parents of twin boys born Dec. 14 at Carson City Hospital. Adam Richard weighed 7 lbs., 6.5 ozs., and Andrew Raymond was 7 lbs., 14 ozs.

The twins were dressed in Christmas stockings for their ride home to meet their brother Michael, 4, and sister Kimberly, 3.

Engagement

Cheryl Smith engaged

John and Loreen Smith of DeWitt have announced the engagement of their daughter, Cheryl, to William Barber of DeWitt. Barber is the son of Margaret Gabrion of DeWitt and William Barber of Deerfield Beach, Fla. Miss Smith is a 1980 graduate of DeWitt High School and is employed by Clinton Memorial Hospital. Barber is a 1977 graduate of DeWitt High School and is employed by Tom O'Brian and Associates of Lansing.

You can look good and feel good. You can be a more attractive, healthier you. You can begin the new year by signing up for Lansing General Hospital's Beyond Aerobics program.

Beyond Aerobics goes beyond the ordinary aerobics program. It combines the health and physical appearance benefits of exercise with the fun and vigor of dancing. It's a series of easy-to-learn dance and exercise routines.

It offers "High", "Medium" and "Low" intensity levels to meet your physical capabilities as well as a number of specialty sessions to meet special fun and exercise needs.

It is a comprehensive health and fun program offered by Lansing General Hospital at sites throughout the Greater Lansing area at times convenient to all.

The program, founded and now coordinated by Joan Barch of East Lansing, uses the "20-10-20-10 method" of Aerobics:

- 20 minutes of exercise routines designed to reduce the stomach, hips, legs and arms and to prepare the body for the next phase.
- 10 minutes of warmup dances to prepare the heart for the workout coming up next.
- 20 minutes of peppy dance routines designed to improve the heart, lungs and circulation system.
- 10 minutes of cool-down dance and stretch routines to get ready for the end of class.

Because Beyond Aerobics is non-competitive, self-improvement oriented, skill and technique aren't important — having fun while getting in shape is.

A nice feature of Beyond Aerobics is its punch card system. If you are unable to attend your usual class you can attend any other. Beyond Aerobics class offered elsewhere or use it for future class sessions at your usual site.

Cards can be purchased at any class session for \$20 for 10 sessions or \$40 for 20 sessions. Visitors can "drop in" on any single session for \$2.50. Fees can be paid at the first session you attend.

For additional information, call Beyond Aerobics, Lansing General Hospital, Monday through Friday from 9:00 a.m.-5:00 p.m. at 377-8719. Below is a listing of sessions which begin January 3, 1983. Sessions are continuous from that point. Participants can join or purchase additional punch cards at anytime.

The "H", "M" or "L" designations before most class listings refer to High, Medium or Low exercise intensity levels of that particular class.

Below is what that means so you can select a class which meets your needs and activities.

Low Intensity — (Beginner) time is spent slowly going over routines movements. Students will gradually work up their fitness level.

Medium Intensity — (Intermediate) time is spent going over only the more difficult steps of the routines. Students receive a good workout but not as intensive as High level classes.

High Intensity — for those who wish a hard workout with little time between routines. Time is not taken to go over routines.

Easy Does It — Mainly for the greatly out of shape, extremely overweight and for senior citizens. Routines consist of stretching and slower paced dance and exercise routines.

Why pick on the refs?

Take a guess. What profession gets the most abuse and least respect? Traffic cop? Meter maid? IRS auditor? Not even close.

Try basketball referee. Without a doubt, this is the most thankless job of all time. Think about it — in what other occupation do you have people constantly screaming at you that you don't know how to do your job? Not only that, but they constantly accuse you of being dishonest and of having a female dog for a mother.

Would you be able to work under such duress? If you were a waitress, could you take an order while 2,000 people were calling you incompetent, stupid and even ugly? I know it would be hard for me to write a story if someone was looking over my shoulder the whole time criticizing every word.

Yet the refs put up with this type of abuse from fans everytime they walk onto the court. The players and coaches will often add to the abuse, but the striped-shirts have a recourse against them — the technical foul. The trouble is, the refs can't call a technical on the fans.

And as a result, the fans are free to say just about anything. At last month's Fowler-Ashley game, one of the parents on the Ashley side loudly called the officials "two retards." Now there's a mature, rational thing to yell. Isn't this setting a wonderful example of sportsmanship for the kids?

And these are the same parents who chastise anyone who yells at a high school athlete. "They're just kids. They're trying their best out there." Right. So don't shower them with abuse if they miss an easy layup.

But the refs? If they make a bad call, let's form a lynch mob.

Officials in every sport are subject to this type of beating, but basketball refs are easily the most abused. That's probably because the fans are so close to the action in basketball. If you're sitting in the centerfield bleachers at a baseball game, it's hard to criticize an umpire for calling a ball that you thought was a strike. But in basketball, you're just a couple feet from the action, so you feel more justified in berating the officials.

And nothing a ref does ever satisfies everyone. Every call is going to be considered a bad call by one side or the other. There are no fouls in basketball, just a lot of bad calls.

I'll be the first to admit it, though, I used to be among the most vocal of all referee abusers. I've showered my share of profanities at refs, I'll admit. But I gained a

much better understanding of how they feel after I spent two years reffing in an intramural league in college.

I learned that players and fans often don't understand that you're doing the best you can. Every ref is bound to make a few mistakes, but everyone assumes those mistakes are being committed on purpose. Most of the time, they aren't. But if a controversial call goes to the other team, everyone assumes the ref is cheating.

The plight of the referee really hit home with me when I was reffing a game between two fraternity teams. I didn't know anyone on either team, and I couldn't have cared less which side won. Late in the game, I called a foul on a guy whose team was losing. The guy whipped the ball at me and started to come at me, saying "I'm gonna kill you!"

Now here was a guy who actually wanted to see me dead because I called a foul on him, a capital offense if ever there was one. Granted, this guy probably had a card or two missing from his deck, but this type of thing happens a lot. Players and fans actually wish bodily harm upon a ref simply because they disagree with his call.

So the next time you're at a basketball game and you want to yell at a ref, just stop and think for a second. Do you really think he made a bad call on purpose?

And consider this: Did you ever think you might be wrong and he might actually be right?

ELECTION NOTICE

TO THE QUALIFIED ELECTORS OF WATERTOWN CHARTER TOWNSHIP: NOTICE IS HEREBY GIVEN, THAT AN ELECTION WILL BE HELD IN THE CHARTER TOWNSHIP OF WATERTOWN ON TUESDAY, JANUARY 18, 1983, At the place in each of the two precincts of said WATERTOWN CHARTER TOWNSHIP. PRECINCTS 1 and 2 Vote at:

WATERTOWN CHARTER TOWNSHIP OFFICES
12803 SOUTH WACOUSTA ROAD
GRAND LEDGE, MI. 48837

TO VOTE ON THE FOLLOWING PROPOSALS:

PROPOSAL A REASONS FOR DEMANDING RECALL OF WM. VAUGHN MONTGOMERY, TOWNSHIP SUPERVISOR

He voted to approve the dumping and storing of hazardous waste within our community against our wishes.

WM. VAUGHN MONTGOMERY'S JUSTIFICATION OF HIS CONDUCT IN OFFICE

I have never voted to permit dumping hazardous waste in the township. I have always been against the landfill and have voted to protect us from the effects of a landfill being forced on us by the county and state. Even though state law has forced the landfill on us, I have voted to shrink its size by 25% and give the township a free hand in monitoring and policing it.

I have also voted to set up a trust fund paid for by the landfill which will pay for any necessary water quality testing and any other monitoring of the landfill, thus saving the township and you thousands of dollars each year. This fund is the first of its kind in the whole state.

The decisions I have made regarding the landfill are supported by representatives of the Toxic Substance Control Commission. The controls they support, and which I voted for, are more extensive than those of any other township in the state.

RECALL PROPOSITION

Shall Wm. Vaughn Montgomery be recalled from the Office of Watertown Charter Township Supervisor?

YES

NO

PROPOSAL B REASONS FOR DEMANDING RECALL OF MILDRED F. MCDONOUGH, TOWNSHIP CLERK

She voted to approve the dumping and storing of hazardous waste within our community against our wishes.

MILDRED F. MCDONOUGH'S JUSTIFICATION OF HER CONDUCT IN OFFICE

The reasons given by organizers of the recall campaign are totally false. I never voted to permit the dumping of hazardous waste in the township. I have always opposed any such dumping. Those who seek this recall do not point out the fact that the state and county will not permit the closing of the landfill, or that PAL and their attorney helped work on this agreement. I ask that you examine the facts against the charges.

Present state laws supercede local control of the landfill but through the agreement reached by the township board and the landfill operator, the township has the right to monitor the operation and initiate legal action to close the landfill or force compliance of the agreement. This is more control than any other township has over landfills. The agreement also provides a trust fund for better monitoring of the landfill, tighter controls on dust and litter. It also allows the township closer supervision of the landfill. I feel I acted in the best interests of the township as a whole.

RECALL PROPOSITION

Shall Mildred F. McDonough be recalled from the Office of Watertown Charter Township Clerk?

YES

NO

PROPOSAL C REASONS FOR DEMANDING RECALL OF

JOHN FOX, TOWNSHIP TRUSTEE

He voted to approve the dumping and storing of hazardous waste within our community against our wishes.

JOHN FOX'S JUSTIFICATION OF HIS CONDUCT IN OFFICE

I did not vote to dump and store hazardous waste within our community as the recall petition stated. Instead I voted for an agreement which: 1) requires the landfill expansion to be 300 feet away from Grand River Avenue for future tax purposes 2) brings in approximately \$50,000 a year to be put into a trust that will be used for groundwater testing and to compensate homeowners for a drop in home values should they decide to sell; 3) includes virtually every change requested by PAL's attorneys.

This agreement does not permit dumping of hazardous wastes or toxic chemicals. It does not prohibit the Township from suing Granger landfill if it violates any state or federal regulations or fails to live up to conditions dealing with litter, dust, traffic on Grand River Avenue, set back and pollution. It does not affect the lawsuit brought by PAL. It does give the township an unlimited right to inspect the landfill, conduct independent tests of water and soil and waste samples.

I acted responsibly to get benefits and control for Watertown Township that no one else in the state has ever gotten.

RECALL PROPOSITION

Shall John Fox be recalled from the Office of Watertown Charter Township Trustee?

YES

NO

PROPOSAL D REASONS FOR DEMANDING RECALL OF FOREST R. SHIPMAN, TOWNSHIP TRUSTEE

He voted to approve the dumping and storing of hazardous waste within our community against our wishes.

FOREST R. SHIPMAN'S JUSTIFICATION OF HIS CONDUCT IN OFFICE

I have never voted to permit hazardous waste to be dumped in the township.

I voted to settle our lawsuit against the landfill because the state law has taken away our power to close it and because the settlement gets us more benefits and protections than any other township in the state. I do not like the landfill in Watertown Township, and if there was anything I could do to stop it I would, but as your representative I have a duty to recognize the law and where the law is bad, work for you to make the best of it.

Neither PAL, nor the township, nor the county can stop it. We can work to limit its effects and build in some protection for ourselves though. This I attempted to do in approving an agreement which representatives of the Toxic Substance Control Commission also support and recommend.

I ask that you not be misled by a false petition.

RECALL PROPOSITION

Shall Forest R. Shipman be recalled from the Office of Watertown Charter Township Trustee?

YES

NO

NOTICE RELATIVE TO OPENING AND CLOSING OF THE POLLS: Election Law, Act 116, P.A. 1954

Section 720. On the day of any election the polls shall be opened at 7 o'clock in the forenoon, and shall be continuously open until 8 o'clock in the afternoon and no longer. Every qualified elector present and in line at the polls at the hour prescribed for the closing thereof shall be allowed to vote.

THE POLLS FOR THE SAID ELECTION WILL BE OPEN FROM 7 o'clock A.M., and remain open until 8 o'clock P.M., of the same ELECTION DAY.

Three concerts slated

The Clinton County Arts Council is selling season tickets for the remaining three concerts of the "Cream of the Crop" concert series, co-sponsored by the CCAC and the St.

Johns Community Education Program.

The reduced series prices are now: Adult, \$6; family, \$18; student or

seniors, \$4.50. Individual admission to each concert remains \$3 for adults and \$2 for students or seniors. CCAC members can purchase tickets at a 40 percent discount.

The February concert stars the professional

Spanish dancer, Maria Mills, and her dance students from Lansing Community College. Mrs. Mills, who lives with her husband and children in DeWitt, came to this country not too long ago from her native Spain and has

worked in many ways to promote Spanish dance and understanding of the Hispanic culture in the Lansing area.

The Laurencia Pena Trio from Lansing, who play a range of traditional Hispanic music, will round

out this concert. The concert will be held Feb. 5 starting at 7:30 p.m. in the St. Johns High School Auditorium. Tickets may be obtained at the door or from the CCAC, P.O. Box 254, St. Johns 48879.
