## Plan Chest Funds for Child Guidance Work

Planning together on how to help a child who is waiting treatment at the Lansing Child Guidance Center are these Clinton people: left to right, seated, Mrs Gertrude Buehler, St. Johns school nurse, and Mrs Luella Canfield, county health nurse; standing, Ann Wintermute, St. Johns visiting teacher, and Margaret Vollbracht, county child social welfare worker.

## Pageant to highlight Episcopal centennial

A pageant written by Mrs Manning Bros of St. Johns will highlight the centennial celebration at St. Johns Episcopal Church. The celebration is only a week away.

It will consist of two afternoons and evenings of events. The pageant, which traces the history of the church and tells of the church's stained glass windows, will be given both Saturday and Sunday evenings, Oct. 17 and 18.

THE PAGEANT will be directed by Mrs R. J. Williams, and narration will be by Ralph Lynam, Mrs Leo Corkin and Kathleen Corkin.

The cast will include Sam Serrell, Henry Dellar, Mrs Franklin Smith, Mrs Jessie Finch, Wendy Ward, Mark Jones, Dr Frank Smith, Fred Ferris, Mr and Mrs Alan Baron, Robyn Hudson, Bruce Campbell, Lyn Smiley, Jeff Pouch, Brian Campbell, Gordon Smith and Carol Morriss.

THE SENIOR choir will sing during the pageant, and Dr Manning Bros will be guest soloist. W. J. Morriss is in charge of production for the pageant and will be assisted by the Rev Hugh Banning, pastor of the church.

The pageant will be given Saturday and Sunday evenings following the 7:30 prayer services. The prologue of the play traces the history of the church, starting with the Indians. The pageant itself will explain the stained glass windows and will tell who each was given by.

SPOTLIGHTS will be shown onto the windows from the outside so that their beauty will show to those inside.

The Rev G. Moore Morgan, a former pastor of the church, will assist Father Banning at the evening prayer services both days.

Earl Haas is general chairman for the centennial celebration. He will be assisted by Mrs Williams,

pageant committee; Morriss, physical properties committee; Miss Florence Dexter, invitations committee; George Brenner and Mrs Tom Corkin, hospitality committee; Mrs Charles Lynam, receptions committee; and Ink White, publicity.

EACH committee chairman has additional help picked by themselves.

Mrs Earl Haas is also assisting with general plans.

Invitations have been sent to at least 150 former parishioners the committee has been able to locate.

A reception will be held in the

## Mercury hits freezing, but crops 'over hump'

The Clinton area took on the definite look, feel and smell of autumn this week.

With nighttime temperatures reaching down into the 40s and 30s, trees in the area are rapidly losing their green coloring and taking on the brighter colors of fall.

SKIES HAVE been mostly fair the last week, and some pleasant days were experienced. But there were periods of dull, gray overcast and too much rain to suit farmers.

Daytime temperatures ranged from a high of 72 Friday to a low of 55 Monday. Nighttime temperatures Friday did not go below 55 degrees, but Tuesday morning's low of 32 degrees was the coldest of the season so far.

THE low temperatures haven't hurt crops at all this week, County Extension Director Earl Haas said Tuesday. Bean damage, which is fairly extensive, was all

church undercroft after the pageant each evening. Father and Mrs Banning will hold an open house both Saturday and Sunday from 1 to 5 in the church rectory.

A CHURCH school essay contest, entitled "What My Church Means to Me," is being held for all grades, kindergarten through high school. The younger entrants will draw pictures, and the older ones will write. The winning essay will be published in the monthly Episcopal Newsletter.

An order for centennial plates and tiles, carrying a picture of the church on them, will be available in the church undercroft as souvenirs of the centennial.

done during earlier periods of local frosts.

Beans have had a tough year. After shaking off some insect damage during the summer, the beans have been kept in the fields by lengthy periods of rain during the last month.

HAAS SAID the harvest is now perhaps a little over half completed. Beans are still wet to a great extent, but are drying out. He said the frost and freezing Tuesday morning may even help the beans to dry up. The bean crop will not be nearly so good as was expected earlier.

The year's first snow fall came Tuesday afternoon, with plenty of good-sized flakes coming down for several minutes, but none staying. Several persons reported a few flakes Tuesday morning.

## Chest campaign at \$5,000

Nearly \$5,000 has already been donated to the Clinton County Communities Chest as the drive toward the \$29,000 goal begins to pick up steam.

A luncheon this noon (Thursday) at Walkers will kick off the out-county phase of the campaign, and next Tuesday captains of the St. Johns residential drive will meet for breakfast at 9 a.m. at Walkers.

THE \$5,000 figure was posted on the Communities Chest "thermometer" at the courthouse square Monday after tabulation of returns from business, industrial and professional canvassing. More contributions will likely be received from these groups.

The various chairmen of the out-county drive will pick up their solicitation cards, stickers, pins and other campaign material today at the dinner. Residential captains will do the same Tuesday.

RESIDENTIAL captains working under Mrs Jerry Stone are Mesdames Richard Tonnemacher, George Pierson, Paul Roof, W. F. Stephenson, Steve Hopko, Horace Howell Jr., Kenneth Munger, Charles Wood, Allen Houser and William Richards Jr. Some tactical planning was done last week for one of the agencies benefiting from the Clinton County Communities Chest drive. The Lansing Child Guidance Clinic will get \$700 if the \$29,000 goal is reached.

EIGHT PER cent of the children seen at the clinic are from Clinton County. It offers services to children with emotional problems.

The clinic is financed by state funds which must be matched by local donations such as Chest funds, United Fund, individual donations and school and county help.

GERTRUDE Buehler, St. Johns school nurse; Luella Canfield, county health nurse; Ann Wintermute, St. Johns visiting teacher; and Margaret Vollbracht, Clinton County child welfare social worker, met last week. They discussed how best to help children waiting for treatment at the Child Guidance Clinic.

A child often must wait for possibly a year to receive the service. The waiting list can be eliminated by the hiring of more staff members, but more money is needed for this.

# Sabin polio clinics in county called off

## Music training for citizenship, says director

Building citizenship through music was the keynote of a talk by Walter Cole, St. Johns public schools music director, to the Rotary Club here Tuesday noon. Cole described the school music curriculum in the public schools for grades 1 through 12.

He gave special credit to his associates on the music teaching staff — Mrs Myron Humphrey, Robert Cox, Gordon Vandemark and Robert Barnard.

COLE SAID that both vocal and instrumental music training are geared to teach coordination, cooperation and discipline. Developing potential musical ability and improving community cultural standards are incidental to the program, he said.

The speaker was introduced to the St. Johns club by Dale Robinson, program chairman for the meeting.

## Mrs Romney to speak Tuesday

More than 200 Clinton County people are expected to greet Mrs Lenore Romney, Michigan's first lady, when she comes to St. Johns next Tuesday noon, Oct. 13, to speak on the topic: "Politics and Principles."

Caterers have been engaged to serve a \$1 box lunch for the occasion at Smith Hall in the City Park. Accompanying Mrs Romney here will be Mrs Wendell Hobbs, Ann Arbor, vice chairman of the Republican State Central Committee, and Mrs Ella Koeze, Grand Rapids, Republican National Committeewoman from Michigan.

IN CHARGE of general arrangements for the affair is Mrs S. K. Thingstad of Watertown township. Mrs Robert Miller of St. Johns is ticket chairman.

Her Oct. 13 engagement here will be Mrs Romney's only speaking appearance in central Michigan during the current political campaign.

The public is invited to the luncheon. Those who plan to attend are urged to get tickets in advance or make reservations with the ticket chairman, Mrs Miller, phone 224-2264, St. Johns.

Mass immunization against polio through use of the Sabin oral vaccine has been postponed for the time being in Clinton County by the county Medical Society.

The action was taken late last Wednesday morning following the group's discussion of a US Public Health Service report recommending that use of the vaccine be limited to persons 18 years old and under.

Health officials in Gratiot County also postponed clinics planned there this Sunday. Montcalm County is going ahead with theirs.

THE CLINICS were to be held this Sunday at nine sites around the county. These plans have been called off, but Dr Paul F. Stoller of St. Johns, president of the Clinton County Medical Society, and County health officer, pointed out plans for the clinic have not been canceled.

The Society recommended, in the meantime, continuation of the Salk polio vaccine, particularly by women in pregnancy.

THE NEARLY complete immunization of county residents by the Salk vaccine figured in the Society's decision to postpone the Sabin clinics. Dr Stoller pointed out that well over 90 per cent of the county's school children have received Salk vaccinations, and in some school districts the rate is nearly 98 per cent, he said.

Most adults also have had the Salk vaccine, Stoller said.

IN A STATEMENT issued last Thursday, Stoller said:

"The oral polio vaccine clinic has been temporarily postponed following the report of the surgeon general last week. In this report, US Surgeon General Luther Terry announced that oral polio vaccine, which is a live virus, should be given adults only when an unusual situation develops.

"The use of the virus vaccine is not advised," Stoller said, "but if used should be given to only those 18 years of age and under."

"IN OUR county we are exceptionally well immunized with the Salk vaccine, the 'shot' form.

## Local proposals on City ballots

St. Johns voters will ballot on three local proposals at the coming Nov. 3 general election. Submitted to the city's electors will be:

Proposition No. 1—Providing for the establishment of a Municipal Court in St. Johns to replace the present Justice of the Peace court system.

Proposition No. 2 — To increase the compensation of the city's five Commissioners from the present \$3 per regular meeting attended to \$10. The City Commission has 26 regularly scheduled meetings each year.

Proposition No. 3— To permit the sale of liquor by the glass in approved establishments.

THE THREE proposals will appear on voting machines in the city's two precincts, but voters will use paper ballots for the election of the one City Commissioner whose term expires this year. Candidates for the post are Charles Coletta, incumbent, and Richard G. Tonnemacher, local service station operator.

Also on the paper ballot will be write-in spaces for the choice of two city Justices of the Peace. No candidates have filed nominating petitions for the posts. Incumbents are Alta F. Wert and Robert Wood. Those elected by write-in at the November vote would serve only if the Municipal Court proposal is defeated.

## Burglars get \$200 at drive-in

The Dog and Suds Drive-In at North Clinton Avenue and North US-27 was broken into early Thursday morning and a safe containing \$200 was taken.

The entry occurred sometime after midnight Wednesday. E. J. Tupper, owner of the drive-in, told police the small 24-inch safe contained \$100 in currency, mostly \$1 bills, and \$100 in change. There were no other papers in the safe.

TURKEY DINNER—Thursday, Oct. 8, First Methodist Church. Serving at 5, 6 and 7. 24-1

## Drunk Driver of Truck-Car "Caravan" Fined \$90 Following Accident

Earl H. Mitchell, 52, of San Angelo, Tex., was arrested for driving under the influence of liquor Friday after this truck he was driving hit another auto on North US-27. The truck was hauling one car and tow-

ing another when Mitchell rammed the rear of a car driven by Louie F. Sipkovsky, 42, of R-6 St. Johns. Neither man was hurt. Mitchell was fined \$75 and paid \$15 court costs to Justice of the Peace Robert Wood

Commercial Club Gives TV to School

The Ashley Community School Commercial Club last week presented the school with a portable television set purchased by the club with funds they raised. Supt. Maurice G. Carmany (right) accepts the TV from, left to right, Karen Blanchard, secretary; Barbara LaClair, treasurer; Louis Tody, commercial teacher and club sponsor; and Judy Goldman, club president. Mike Tody, with back to camera, is giving the set a once-over. Last year the club bought an adding machine for use in the commercial department.

# February production of steel aim at Ashley

Hopefully sometime in February a new steel fabricating plant employing upwards of 200 persons will begin production at Ashley.

Projected employment figures reach as high as 500. Ashley, 16 miles north and east of St. Johns on M-57 in Gratiot County, has a population of 400.

PLANS FOR the \$400,000 fabricating plant were announced last week by Gilbert Innes, president of the Paragon Bridge and Steel Co., Inc. of Novi. Preliminary surveying has already been done, and earthmoving is expected to start soon.

The plant will be located on a 15-acre site in the northeast section of the village. It will reportedly front on the Ann Arbor Railroad near the intersection of the Grand Trunk Western Railroad.

ASHLEY WAS selected for the plant because it is at the junction of the two railroads. The initial work force will be about 200 persons, but eventually 400 to 500 are expected to work there.

According to Village President Wayne Barnes, the obtaining of a work force should not be much of a problem. He pointed

out there is a good supply of labor in the Ashley area already commuting to work in factories in Owosso, St. Johns, Alma, Ithaca and Saginaw and Midland.

PAUL BECK, Ashley hardware store operator, Dr William Berndt and the Ashley village council have worked about two years in an effort to bring the plant to Ashley. Beck said last week it is hoped the plant will be in production sometime in February.

Groundbreaking ceremonies will be held soon, he said, although probably after the start of construction.

BECK AND DR Berndt have been heading up the village's work on the project, but the interest and work of Councilmen Robert Kent, Joseph Liska Jr., Ivan Osborne, Kenneth Boeskool and Wayland Buckingham was also instrumental in the final success.

Innes, the Paragon president, is also president of the new Ashley Corp., developer of the factory project. It was incorporated Sept. 10, with the first board of directors consisting of three members of a Detroit law firm.

THE PARAGON officials will

provide Ashley Corp. with experience in the steel fabricating field. Paragon fabricates specialized railroad equipment, material handling racks and pneumatic and hydraulic dock levelers.

The firm also operates as structural steel fabricators and erectors, producing structural steel members for highway bridges and all types of commercial and industrial construction.

INNES SAID the Ashley plant would produce specialized railroad equipment.

### Palo man fined for drunk driving

Samuel J. Stowell, 43, of Palo paid a \$75 fine and \$15 costs Sunday after his arrest in St. Johns for driving under the influence of liquor. He was fined by Justice of the Peace Robert Wood. The arrest was made by St. Johns police Officers Lyle French and James Stiffler.

### Get fire truck rides

Firemen gave free rides on the St. Johns fire trucks to city children Tuesday as one phase of their observance of Fire Prevention Week.

## Polio

(Concluded from Page 1-A)

THE recommendation to limit use of the vaccine stemmed from its association with polio in a small number of persons, mainly adults. The Health Service urged the vaccine be given adults only when unusual exposure to polio might be anticipated.

Three New York state counties, planning to immunize 100,000 people, postponed their plans "indefinitely." A spokesman there commended, "When the program was originally contemplated and during its entire elaboration the official position of the surgeon general's office was closely followed."

"IT WOULD seem to be the proper position . . ." he said, "to postpone the program in the interest of giving the public the best possible immunization program."

This is what the Clinton County Medical Society had in mind, too, Dr Stoller said. He said the Society would study the situation further and that they hoped to be able to start the Sabin series yet this year.

"IN CLINTON County there will be an oral vaccine clinic at a future date when the safety and value of the vaccine has been cleared by the surveys of the surgeon general," Stoller said.

"But in the meantime," he said, "we are recommending that Salk

vaccine be used, especially by pregnant women. For some reason women are more susceptible to polio when they're pregnant. They should get a polio booster shot with each pregnancy."

## Charge 2 men with DeWitt B & E

Two Charlotte area men were arrested by police last Thursday on charges of breaking and entering in connection with a theft from the Crag and Son Gravel machine shop in DeWitt Township.

The men are Jay W. Graham, 22, of R-3, Charlotte, and Daniel R. DeBarr, 17, of Diamondale.

BOTH men demanded examinations when they appeared before Justice of the Peace Robert Wood. They were to have appeared Wednesday.

Bond was set at \$3,000 each. DeBarr's bail was paid, but Graham was still in the Clinton County Jail Monday night.

## Pumpkins, corn damage mailboxes

Vandals threw pumpkins and corn to damage mail boxes in DeWitt Township Sunday.

Rural mailboxes at the homes of Clarence Bauerle, 3080 Clark Road, and Melvin House, 11501 Airport Road, were knocked over by pumpkins. A name plate on a mail box at the home of Clarence Ross, 2984 W. State Road, was knocked off by corn cobs.

# NFO picketing, withholding of livestock ends

Activity at the Wolverine Stockyards in St. Johns returned closer to normal last Friday on the first day after the NFO livestock withholding action ended.

The National Farmers Organization had been striving for 43 days to halt the marketing of livestock in an effort to raise the prices farmers are paid for the animals.

THE END of the withholding action came Thursday night on the eve of the weekly livestock auction in St. Johns. NFO national President Oren Lee Staley of Rea, Mo., said it was only a recess in the farm group's effort to gain bargaining power on prices with meat processors.

Pickets were absent from the entrance to the Wolverine Stockyards for the first time in six weeks. Truck loads of livestock were coming in at an almost normal pace. Some trucks bearing NFO stickers were in the lines.

POLICE Chief Everett Glazier said he made routine checks every hour or two Friday to be sure nothing happened to disturb the peace. There was no sign of picketing or NFO signs.

With the exception of one day, NFO picketing was orderly and quiet. The withholding action began in 23 states Aug. 19, but the first picketing at the St. Johns yards was by a few NFO members Aug. 28.

ON SEPT. 4 a crowd of pickets estimated at 175 persons blocked the entrance. When three of them were arrested by city police during the morning and early afternoon, three dozen state police troopers were called in to prevent further disturbances.

State police were on hand the next week, too, in smaller numbers, but the number of pickets was also smaller and there was no recurrence of the disturbance of Sept. 4.

The last two Fridays were even more quiet, and two city policemen on duty there all day were the only law officers present.

CLINTON County NFO President Roy Westendorf has claimed all during the withholding action that it was successful. He said many farmers have signed as

NFO members and that many others were withholding their animals in sympathy with the NFO cause.

Prices paid on the auction market did not increase appreciably, and certainly not to what the NFO is striving for.

THAT appeared to be the same on the major terminal livestock markets. Except for a flurry during the early days of the boycott, the terminals reported little effect on receipts or prices.

But Staley charged, much the same as Westendorf did on the last day of picketing in St. Johns Sept. 25, that "reported receipts figures tabulated by processors and marketing interests during the holding action have been ridiculous."

## 4 bruised up in 3-car crash

Four persons suffered bruises Sunday in a three-car smashup at US-27 and Round Lake Road.

The cars were driven by Thomas E. Tobey, 56, of Okemos; Donald W. Seyfried, 40, of R-2, Cutler Road, DeWitt; and William K. Lee, 78, of 14660 Francis Road, Lansing.

Lee was ticketed by state police for failure to yield right of way. Tobey's wife, Elenore, and two passengers in his car, George Williams, 60, of Okemos and his wife, Merle, and a passenger in Lee's car, Ralph Throop, 79, of R-4, Lansing were treated at Sparrow Hospital in Lansing.

Second class postage paid at St. Johns, Mich.

Published Thursdays at 120 E. Walker street, St. Johns, by Clinton County News, Inc.

The big bucket of a crane takes a big bite out of the former funeral home at the northeast corner of Spring and Walker streets. The building was razed Saturday morning by the Central Wrecking Co. of Lansing, a firm owned in part by Jack Smit of St. Johns. A new building for the new Central National Bank will be constructed on the site. The old home was torn down in 4 1/2 hours.

## Old home makes way for new bank

A solid chunk of St. Johns history gave way to progress Saturday when the old Ebert Funeral Home on the northeast corner of Walker and Spring Streets was demolished.

The site will be used for construction of a modern building for the new Central National Bank.

A LARGE crane and bucket moved in early Saturday morning and by noon had razed the building. The wooden structure was hauled away in trucks.

The house was one of the oldest in St. Johns, and was the first funeral home established in the

county. The house was over 100 years old, according to Clarence Ebert of 501 S. Oakland Street.

EBERT AND his wife came to St. Johns in 1923 and established a funeral parlor in the building now housing DePeal's Clinton Music Center on Clinton Avenue. In May 1927, the Eberts bought the house at the corner of Spring and Walker and established the funeral home there.

They operated the mortuary until 1951, when it was sold to Van Hoag. He ran the business there until 1961, Ebert said, when Hoag had a new funeral home building constructed on South US-27.

THE BUILDING has been empty since that time, except for some use of an apartment on the upper floor. There were four rooms on the upper floor and

## Central Safety patrol captains, aids elected

The Central School Safety Patrol elected Douglas Parks as sixth grade captain and Richard Zapoli as fifth grade captain last week. Lieutenants are Ronald Moon and Dean Eberhard.

Girls Service Squad captains elected were Jean Peterson in the sixth grade and Kathleen Beagle in the fifth grade. Lieutenants elected were Judy Keyes and Stephanie Waber.

Patrol Boy of the Month was Craig Irish, while Erna Hiltz was selected as Service Squad Girl of the Month.

## Bond reduced Flint women out

The two Flint women accused of shoplifting merchandise from Becker's Dept. Store in Fowler Sept. 25 were free on bond this week.

They were released from Clinton County Jail last Friday after their bond was reduced from \$2,500 each to \$750 each, and bond was paid. They were to appear before Justice of the Peace Robert Wood Wednesday afternoon for formal examination.

The women are Ann Taylor, 23, and Katherine Lewis, 21, both of Flint.

Mrs Wilbur Brandt and Miss Birdaline Smith of St. Johns, Miss Joanne Langfeldt of Alpena and Mrs Leona Hutchings of Ortonville returned Sunday from a week's vacation in the New England States.

## Flames destroy car in Lebanon

An automobile was totally destroyed by fire late Sunday evening in Lebanon Township.

Louis L. Hendershot, 18, of R-1, Fowler, told Deputy Sheriff Hilary Hafner he was going west on Maple Rapids Road a half mile east of Hubbardson about 11:30 p.m. when the motor started to smoke.

WHEN he stopped, he reported, flames shot out from the motor area. The entire car burned before help could arrive.

Hendershot was unhurt, and his two passengers, Connie Hendershot, 14, and Lynda Hendershot, 16, also escaped.

Bath loses 1st game, 18-0

PERRY—The Bath Bees fell victims of the Perry Ramblers Friday night 18-0 in a Central Michigan C football game. It was Bath's first loss; they have won twice.

Injuries and bad breaks cost them the game. Jerry Polmouster of Perry recovered a Bath fumble in the first quarter, and the Ramblers rolled 42 yards, with Dave Shanski going in from the three.

BUMP LARDIE scored the second TD on a run of 15 yards, and Shanski tallied the final touchdown in the fourth quarter.

Several key players were lost for the game by injuries, and Bath was never able to recover.

Saturday's night for PP&K

More than 140 boys in the St. Johns area are eagerly awaiting the opening gun at 6:30 p.m. Saturday when the 1964 St. Johns Punt, Pass and Kick competition gets under way.

Bruce Fowler of Egan Ford Sales Inc., sponsors of the St. Johns event, also announced judges for the competition.

MYRON (Mike) Humphrey, junior high school athletic coordinator, will be the chief judge and will be assisted by members of the Jaycees, personnel from Egan's and members of the high school coaching staff.

The 140 boys include 21 eight-year olds, 32 nine-year olds, 36 ten-year olds, 25 eleven-year olds, 15 twelve-year-olds and 11 thirteen-year-olds.

EIGHTEEN OF the boys—three in each of the age groups—will be awarded prizes. Boys 8, 9 and 10 will get Detroit Lions warmup jackets for first prize and place-kicker outfits and autographed footballs for second and third prizes.

Boys 11, 12 and 13 can win gold, silver and bronze trophies.

FWLER POINTED out that the six first-place winners here will not automatically advance to the district competition in Lansing. Instead the winners, scores here will be compared with winners from 15 other Ford dealers in this zone.

Other towns in the zone include Lansing, Mason, DeWitt, Brighton, Howell, Owosso, Durand, Perry, Fowlerville, Webberville, Williamston, Stockbridge, Portland, Grand Ledge and Elsie.

The boys with the best scores in the zone will advance to district competition in Lansing Oct. 31 on the Michigan State University campus. Winners from nine zones will compete there.

COMPETITION AT the district level will determine winners in

each age group in the 14 NFL game areas—areas set up in line with television coverage of the 14 National Football League teams.

Area winners will compete during halftime of the NFL games, and 12 national finals will compete at an NFL championship game in Miami, Fla., after a trip to Washington, D.C.

ALL BOYS competing are asked to report to the west side of the football field at the city park Saturday night. They'll participate

by age group, with eight-year-olds starting at 6:30, nine-year-olds at 7, etc.

Competitors will punt pass and place-kick, being scored with a point for each foot of distance the ball travels on the fly, minus a point for each foot the ball lands to the left or right of the center line. Distances will be measured to the half-foot, and half-points will be awarded or subtracted.

THE PUBLIC is invited to watch the competition.

Ovid rallies to whip P-W 33-12

PEWAMO - WESTPHALIA—Pewamo - Westphalia outscored Ovid in passing yardage and 9-7 in first downs Friday night, but that was about all. Ovid exploded for three touchdowns in the second half to win going away, 33-12.

Both teams scored twice in the first half, and quarterback Bob Gazda's extra point run after the second Ovid touchdown gave the Romans a 13-12 halftime lead.

OVID OPENED the scoring in the first quarter with a drive of 57 yards for a touchdown, with Steve Leonard going the final 15 yards for the score. A poor snap from center set up the second Ovid TD early in the second period, and Leonard went in again from three yards out, with Gazda adding the extra point.

Pewamo - Westphalia bounced back fast with two touchdowns before the half ended. The first came at the end of a 58-yard drive, with Jim May running three yards to pay dirt. The second touchdown drive took only seven plays, but it covered 70 yards. Jim May passed to Ron Fox for nine yards and the touchdown.

OVID ROARED back with two touchdowns in the third quarter

and one in the fourth. The first one covered 60 yards in five plays, with Gazda running the final 27 yards for the score. Leonard picked up the next touchdown with a run of eight yards, and Gazda added the extra point.

Gazda got his second touchdown of the night with a run of 29 yards in the fourth quarter. Tom Salters ran the extra point.

GAZDA WAS the big offensive gun for Ovid, picking up 143 yards rushing on 11 carries — a 13-yard-per-carry average. Leonard scored three touchdowns on offense and had 14 defensive tackles.

Pewamo-Westphalia had nine first downs for the game to Ovid's seven, but they all came in the first half. Ovid shut the door on the Pirates in the second half, limiting them to three yards rushing and eight yards passing.

OVID HAD 275 yards rushing to the Pirates' 102; Pewamo-Westphalia passed for 76 yards, Ovid for 21. Ovid was penalized four times for 50 yards and Pewamo-Westphalia three times for 25 yards.

Tait to hunt elk in Otsego

Joy W. Tait of Essex Township, only person in the Clinton-Gratiot area eligible to participate in the special Dec. 5-13 elk hunting season in Otsego County, was made an honorary member of the "300 Club" at a meeting in Gaylord last week.

Tait was one of 300 Michigan nimrods whose name was drawn from 24,000 applicants who wanted to take part in the elk hunt. He has been assigned to hunt in Region 5, the area generally east of US-27 in Otsego county.

HE PLANS to spend the week at a cabin southeast of Vanderbilt, owned by Ray and Gerald Eisler of St. Johns.

He is permitted to invite others to hunt in his party, but only he may carry a high-powered rifle. Mst Tait will accompany him, and he also has asked Rex Redman of Essex, a longtime deer-hunting companion.

The Otsego area elk herd is presently estimated at 4,000 and has grown from an original 20 released there a couple of decades ago.

Horak scores 4 times as Elsie buries DeWitt

TRAMPED — Elsie's Big Reds trampled DeWitt 64-0 Friday night in a Central Michigan C league game.

Four of the Elsie touchdowns were scored by senior halfback Jim Horak. He also added two points by conversions.

HORAK'S longest run was 68 yards on the first play from scrimmage in the second half. His other touchdowns came from 2, 16 and 3 yards out, all in the second quarter.

Also in the scoring parade were Mike Cole on a pass interception; Tom Ebert on a 16-yard run; Kerry Reed from eight yards out; Tom Bakita; and two touchdowns by Herm

Kaufman from three and two yards away.

ELsie USED second stringers and reserves freely, but still managed to roll up 426 yards rushing and passing, compared to a total 33 for DeWitt.

**A Parade to Touchdowns:**

St. Johns ballcarriers got lots of chances Friday to stretch their legs against Hastings. In picture at left, Dave DeGeer runs 26 yards for a TD while Hastings' John

Newton makes futile chase. At center, Lee Hill winds up a seven yard push through practically every defenseman for a touchdown in the fourth quarter. At right, Bill

Sirrine sprints downfield with an intercepted pass, while teammate Lee Hill races to get in blocking position. The interception set up a touchdown for the Wings.

Here are the St. Johns High School Redwings. Left to right are: front row, Mike Zigler, David Hamer, Gary Price, Jerry Kubica, Gary Becker, Ken Love, John Vitek, Lee Hill, Roger Beebe, Tom McKenzie and Dave DeGeer; second row, Dennis Henderson, John Hospodar, Doug Salters, Jack McCurry, Ron Bond, Gene Rademacher, Jim Pope, John Sickles, Darryll Kelly, Dave Hill and Rod Hayes; back row, Asst. Coach Frank Rosengren, Bill Sirrine, Les Warner, Al Koenigsknecht, Don Hungerford, Roger Parsons, Steve Jorae, Al Werbish, Bob Krumm, Ted Rahl, Jim Leonard, Gary Crawley and Head Coach Bill Smiley.

**Redwings trample Hastings 39-7; passing game sparkles**

There wasn't much that went wrong last Friday night for the St. Johns Redwings. They were assessed an almost unbelievable number of yards in penalties, but otherwise they had little trouble in thrashing the Hastings Saxons 39-7.

It was the Redwings' third win of the season and their second in West Central Conference play. Hastings is now 1-2 for the year.

THE WINGS scored in every quarter Friday, and by the time it was all over they made the game of football look easy. They played such a good all-around game that Coach Bill Smiley couldn't find any one player he could call the best of the game.

"(Gene) Rademacher looked good at quarterback," he said, "and so did Bob Krumm and Al Werbish and Gary Becker and

"OUR defense was real sharp, too. I'm afraid we're going to have to issue a lot of stars after we see the films on the game," he said Saturday. (Players are given small stars to wear on their helmets for exceptional acts, such as pass interceptions, touchdowns, most tackles, recovered fumbles, etc.)

Fumbles plagued the Redwings in the opening minutes of the game. Lee Hill fumbled the opening kickoff and Hastings took it on the St. Johns 21. But they couldn't go anywhere. St. Johns moved out to the 36, but then Gary Crawley fumbled, and the Saxons recovered again.

WITH THAT out of their system, the Wings went to work. Al Werbish twice chased and dropped Hastings quarterback Carl Peterson for big losses, and when St. Johns took over the ball again, they were on their own 38.

A pass and a run failed to get anywhere, but then Werbish caught a Rademacher pass and went to the Hastings 46. Then Krumm caught one for another first down to the 35. Hill ran over the left side to the 20, and after a penalty, Rademacher carried to the 15 on a roll-out option.

THEN HILL got the ball again on a draw play, found a good hole and ran for the touchdown. Werbish's kick for the extra point was blocked.

Three touchdowns were scored in less than three minutes midway through the second quarter. St. Johns got the first one at 6:32 on a beautiful catch of a pass from Rademacher to Bill Sirrine.

IT COVERED eight yards and Middleton man wins easy \$20

Had he picked Lakewood over Greenville, instead of the other way around, Tom Bowen of Middleton would have had a perfect score on last week's Clinton County News football contest.

He missed only that one game, but he won the contest and the \$20 prize. Five other persons came close by missing only two winners.

Entries in the third contest again showed a considerable increase over the previous weeks. Another 21 games are listed on this week's contest page, Page 1-B. By picking out the most number of winners from that selection, you could win the \$20 this week.

climaxed a drive of 29 yards in three plays. Sirrine set up by intercepting a Hastings pass on his own 40 and returning it to the Hastings 29. Crawley battled for eight yards and then caught a 13-yard pass to set up the TD. Werbish's kick was again blocked.

Hastings recovered fast. On the first play from scrimmage, full-back Dave Will broke through the middle and went 68 yards for a touchdown. John Newton ran the extra point.

THAT TOUCHDOWN came at 5:45. At 3:44 St. Johns put their third touchdown on the scoreboard. It came spectacularly, too. Lee Hill got behind the secondary to take a 42-yard pass from Rademacher to the Hastings' 26. Then Dave DeGeer, on the draw play, went 26 yards for a touchdown. Werbish's kick was wide, and the score stood 18-7 at the half.

HILL MADE a nice punt return to the Wings' 42, thanks to a Sirrine block, to set up another touchdown. Krumm made a nice pass catch and John Vitek ground out some good yardage, and then Lee Hill bulled his way to his second touchdown from

seven yards out. Dave Hamer booted the extra point.

Coach Smiley emptied the bench with 10 minutes left in the game. It was quarterback Gary Becker who engineered the last touchdown. He ran and passed, and Crawley ran. The 79-yard drive was climaxed when Becker threw 30 yards to end John Hospodar for a touchdown. Hamer's extra point kick was good.

PENALTIES were tough on St. Johns. They lost 160 yards because of them, and the penalties nullified 97 yards of gains by St. Johns. The Redwings—overzealous, according to Coach Smiley—have drawn 265 yards in penalties in the last two games.

Smiley couldn't say enough about the Redwings' defense, and defensive Coach Frank Rosengren was all smiles over the job. The Wings held Hastings to 112 yards rushing and 27 yards passing. Newton, the Saxons' big gun with five touchdowns in the first two games, was held to -7 yards rushing until 2:08 in the game, and he ended up with only 15 net yards for the night.

TO TOP the evening off, the Wings' first string made a goal-line stand in the last minutes of the game, stopping Hastings on four plays inside the four yard line.

**Fowler wins first game, 27-6**

FOWLER — Fowler won its first game of the football season Friday night when it opened league play by beating Ashley 27-6.

Fowler is defending champion for the Central Michigan D League.

THE EAGLES of Coach Larry Churches used the passing game effectively. Paul Hufnagel and Jim Koenigsknecht combined for two touchdown-pass plays. The first came in the opening period and covered 10 yards. The last was a 15-yarder in the third quarter.

Hufnagel also ran for a touchdown, and Jon Thielen ran eight yards for the other Eagle score. Extra points were scored twice by Thielen on runs and once by Bruce Thielen on a kick.

ASHLEY'S touchdown came on an eight-yard run by Dan Follett.

**Laingsburg loses, 33-0**

LAINGSBURG — Undeclared Portland rolled to a 33-0 win over Laingsburg in a Central C game at Laingsburg Friday night.

Laingsburg has yet to score a touchdown this season. They have lost by scores of 26-0, 26-0 and 33-0.

PORTLAND quarterback Fred Realm sparked the Raiders from Portland. He tossed first half touchdown passes to Dick Agostini and Bill Nowak to give Portland a 13-0 lead at halftime.

Realm scored in the third period on a 40-yard roll-out run. Sophomore fullback Denny McCrumb wrapped up Portland's scoring with touchdown runs of 12 and 29 yards in the fourth quarter.

LAINGSBURG never penetrated further than Portland's 30-yard line.

**Grand Ledge opponent Friday**

If ever there was one game the St. Johns Redwings were pointing to, it's the next one. The Redwings this Friday will travel to Grand Ledge to meet the Comets in what could be the deciding game of the West Central Conference championship.

Last year the two teams tied for the league title, even though St. Johns defeated Grand Ledge in their encounter 33-20.

GRAND LEDGE no doubt wants revenge as well as the title outright this year. They have a good fast team built around speedster halfbacks Harold Olds and Zana Easton.

Olds scored four touchdowns against Alma last week, giving him 10 for the three games of the year. He is touted as the top threat on the team, but Redwings Coach Bill Smiley believes

Easton at right halfback is just as good.

GRAND LEDGE will have a bigger and quicker line than St. Johns, with 230-pound tackle Jim Richardson as the foundation. The Comet defense is tough, Smiley said. And their punt return combination has Smiley concerned.

Besides their victory over Alma, Grand Ledge has beaten Lansing Gabriels 20-6 and Charlotte 35-6. They are a class A school and are rated in the top 10 "A" football teams in the state.

BUT SMILEY has counted his boys "in" the game. They have been gearing for the Comets for some time. Capt. John Vitek got bumped around in the Hastings game, but he should be back for action Friday. Some of the other players were also nursing bruises the first of the week, but they should be ready, too.

"We still have not put together the football game we're capable of," Smiley said Saturday, and he indicated he felt that with the team "up" for the Grand Ledge game, they could pull off a win.

"WE'RE DEFINITELY the underdog for this game," he said, "but that's the best way for it to be."

**Jr. Wings trip Hastings 21-6**

By GARY BECKER

The St. Johns Junior Varsity found it rough sledding for three quarters in Hastings last Thursday night, but they exploded in the final stanza to win 21-6.

Randy Humphrey set up the first touchdown on a reverse play, and Gary Boyce scored it. Boyce also kicked the extra point.

WITH EIGHT minutes left, the Junior Wings came to life. With good blocking in the front lines, Boyce was able to break loose for two more touchdowns, to which he added both extra points.

Hastings scored their only touchdown with 12 seconds left in the game.

THE REDWINGS were tough on defense. Fifty-five of the 60 boys on the team saw action.

# Bishop Green reports Ecumenical Council pace is faster this session

(The Most Rev. M. Joseph Green of St. Johns, Auxiliary Bishop of Lansing, is in Vatican City attending the third session of the Ecumenical Council. A series of articles from him will appear in following issues of the Clinton County News.)

BISHOP GREEN

One thing that can be said so far about this Third Session of the Vatican Council is that it has a faster pace. One senses an air of determination "to get things done." This is evident not only from the fact that the number of speakers on the various topics are fewer but also from the fact that there is not the repetitious speaking that plagued the first two Sessions of the Council.

Of course, the revised drafts of the various topics are more precise as well as concise. They show the tremendous amount of work that the various Commissions have done during the past several months. The complete nature of the final drafts make comments less necessary for they do incorporate the mind of the Bishops through the countless written recommendations sent to the Commissions since the close of the last Session.

ALL THIS augurs well for this Third Session. It is safe to say that all the Bishops are pleased—not only with the rapid pace but, in the many votes taken thus far, with the result of this Session's work during the first week.

This new pace has kept me on the run so much that I regret that I could not even begin preparing the article until today, Sept. 20. While I cannot promise weekly articles, I'll try to get back in line and have the articles in on time so that they will not be too far behind Council activities.

THIS NEW pace was set on the opening day by the historic act of Pope Paul VI. His Holiness offered the Opening Mass of this Session as a Mass of Con-celebration with 24 Cardinals and Bishops from the five continents of the world.

I regret immensely that I was unable to be present for this Mass. Time was short for me in getting to the Council and I planned on spending a few days in Ireland with my relatives on my way to Rome. It was only after I arrived in Ireland that I learned of the plans to open the Council with the Mass of Con-celebration.

BY THEN it was too late to change my plans and hurry on to Rome. A couple hundred of my relatives were expecting me for Mass and a gathering of the clan at Tinehly, my mother's birthplace, on Sunday, Sept. 13. This was the day before the Council opened. I could not disappoint them by changing my plans and going on to Rome—especially this year when they had all been looking forward to my mother returning to Ireland this fall. With me, they accepted God's will as best when my mother died last spring. But I did not wish to have them suffer another disappointment—so I carried on my plans and spent the day with them at Tinehly.

But all said the Mass of Con-celebration was as beautiful and impressive as it was historic. A large altar stone had been placed over the Altar of the Confession. Around it, six to a side, the

work of the Bishops of the Church.

IT IS THIS chapter which Pope Paul says "will certainly be what distinguishes this solemn and historic synod in the memory of future ages." I need not tell you, therefore, how thrilling, and yet humbling, it is to be a part of this important and historic action.

Yes, the pace of this Session of the Council is up-graded. It has a challenging and demanding rhythm which, each day, requires more and more of our time, study and prayers. But each Bishop feels the impetus of the Holy Spirit as the Council moves along. And he is conscious of the fact that what it is doing here is important not only for the uni-

versal Church but, also, for his own "Diocese, his own priests, religious, Sisters, laity. And he is strengthened in his actions by the knowledge that all of those for whom he is acting are behind his actions by their sacrifices and prayers.

THIS knowledge buoy's his spirits, confirms his doubts, answers his problems and enables him to keep abreast of the faster pace of the Council. The more rapid pace is consoling, too, for it enables each Bishop to know that more quickly, more effectively, the problems and the needs and the challenges of the Church are being met, the up-dating of the Church so desired by beloved Pope John and by Pope Paul is being realized.

MRS THOMAS M. GLENNON

# Kea Estelle Mathena is now Mrs Glennon

White chrysanthemums decorated the altar of St. Joseph Church in St. Johns Saturday noon for the double ring service that united in marriage, Kea Estelle Mathena and Thomas Michael Glennon, both of Lansing. Rev Edwin Schoettle performed the ceremony that united the daughter of Mr and Mrs Donald Stebbins of 401 E. Townsend Road, St. Johns, and the son of Mr and Mrs Charles E. Glennon of East Lansing.

The wedding Mass was sung by Mrs Paul J. Glennon of Gary, Ind., aunt of the bridegroom. She was accompanied by Mrs Herman Smith, organist.

THE BRIDE placed a bouquet of flowers at the altar of the Blessed Mother as "On This Day, Oh Beautiful Mother" was being sung.

Her gown of silk taffeta and Alencon lace was designed with a scoop neckline, long sleeves, a bodice adorned with seed pearls, and a bell-shaped skirt that terminated in a cathedral train. Her veil of French illusion fell from a swiss crown of Alencon lace petals and pearls and she carried an arrangement of white roses with floor length ivy.

MRS KATHY Slagh of Elsie was maid of honor. Miss Joanne Micka of Bannister, Miss Gail Wohl-schied of Lansing and Miss Joyce Thelen of St. Johns, were bridesmaids.

Alternating colors of emerald green and gold were worn by the maid of honor and bridesmaids. Their gowns were street length sheaths with three-quarter length sleeves and taffeta overskirts. They wore rose-shaped headpieces with pearls and they carried arrangements of autumn colors.

CLAUDE Fournel of Lansing, was best man. Groomsman were Timothy Glennon of Lansing, Victor Post of St. Johns, and David Zoph of Lansing.

Mrs Stebbins wore a gown of pink brocade with a matching jacket and pink and white accessories. Mrs Glennon was attired in a rose colored suit with rose and navy accessories. White orchids were their corsages.

A RECEPTION for 400 guests

was held in the VFW Hall in Ovid. The wedding cake was cut by Mrs Susan Fournel of Lansing, and served by the bridesmaids, Roberta Panesside of Lansing, and Jean Valyer of St. Johns, and attended the guest book and the bridesmaids opened the gifts.

Following a honeymoon to Montreal, Canada, the couple will reside at 300 S. Pennsylvania Avenue in Lansing.

Mrs Glennon is employed by St. Lawrence Hospital. Her husband is an employee of Michigan State University.

## A 'Shocking' Lesson in Fire Prevention

Junior Fire Marshal Stanley Livingston, holding frayed electrical cord, gets a lesson in fire prevention from his TV dad, Fred MacMurray, star of ABC-TV's popular "My Three Sons." Stanley, who plays the role of "Chip" in the series, is one of 4.5 million boys and girls who will qualify as Junior Fire Marshals by inspecting their homes for fire hazards such as this one during National Fire Prevention Week (Oct. 4-10). The year-round school Junior Fire Marshal program is a public service of The Hartford Insurance Group and its agents across the country.

"John doesn't think this nation has much chance to survive. We're moving to some South Sea island if the government will forward his Social Security check each month!"

## Closed Hunting Areas

Michigan waterfowl hunters are reminded that these two shaded areas have been placed under no-shooting restrictions in a move to let their local goose flocks increase and draw in migrating birds. The area shown at the top (about 140 sq. mi.), taking in parts of Luce and Chippewa counties, will be off limits to all waterfowl hunting during the next two seasons. Lands in and around the Shiawassee Flats wildlife management area of Saginaw county (about 102 sq. mi.) will remain open to duck shooting, but goose hunters must hold their fire here from this fall through the 1966 season.

Culling aid to herds in Wisconsin

Wisconsin dairymen are doing an excellent job of upgrading their herds through culling— if the 44 herds studied by the University of Wisconsin are typical of all herds.

In a study of dairy scientists over a period of three years, 1,238 cows led the experimental herds. About 41 per cent of these were selected by the farmer for removal. The other 59 per cent left for such obvious reasons as old age, disease and injury.

The 40 per cent that farmers chose to cull were poor cows compared to their herd mates. They were 1,100 pounds lower in milk production and 50 pounds lower in fat production per year than cows that stayed in the herd.

The 60 per cent that had to leave the herd, but not by the dairyman's selection, were not much different from their herd mates. They were only 215 pounds lower in milk and 10 pounds lower in fat than their herd mates.

MANY dairymen still say, "I give every heifer a second lactation to prove herself if her first lactation is low." The University study proves that cows that produce poorly in their first lactation probably aren't worth a second try.

When farmers were able to cull females from the herd, their main reasons were low production, but some were culled because of disease, injury and lack of space. Cows which, in effect, "culled themselves" were removed from the herd because of udder injury, low fertility, other disease and old age.

In the same experiment the dairy scientists studied what happened to the calves that were born in the 44 herds. Of the 5,218 calves born in the herds during three years, 48 per cent were heifers, 48 1/2 per cent were bulls, and 3 1/2 per cent weren't identified as to sex.

The researchers selected the 794 heifer calves born in 1959 and checked what had happened to them 2 1/2 years later. They found that 45 per cent of them had freshened into the milking herd. About one-fifth were sold as dairy replacements, 10 per cent were raised but not yet milking, and the others were sold or died.

Salt of the Earth Ah, for the days of old-fashioned, glittery, salt beads. Well, why not "cook" up some? They can be fashioned into any shape and in colors to suit any fancy.

Mix together 1 cup salt and 1/2 cup cornstarch. To this mixture add 1/2 cup boiling water and a drop or two of food coloring to attain desired shade.

Cook until thick, stirring constantly. When mixture is cool enough to handle, form into beads of desired shape and size, and string on hat pins or thin knitting needles, until dry.

Combine finished product with other beads, or use alone. They're just the thing for a bazaar donation.

Call sewer certification reason for clean streams

Within six miles of where you are— anywhere in Michigan— chances are you can find a lake or stream, clear and clean, which sparkles with the promise that it will shine forever.

And so it may, for Michigan leads the nation in the control of water pollution. Many agencies and organizations are responsible for this remarkable record, but among the more unsung and unseen heroes of the pollution war are the State Department of Health and the Michigan Water Pollution Control Assn.

THESE TWO— one a state agency, the other an independent organization—have spearheaded the quarter-century battle to require performance ratings and state certification for the operators of sewage treatment plants. It has been an uphill struggle, which really began in the 1930's, culminating in 1953 legislation setting forth training and educational requirements for wastewater treatment plant engineers.

"It was a logical step," said Donald M. Pierce, sanitation engineer for the Department of Health and a member of the board of directors of the MWPCA. "This is where pollution control begins."

"BUT IT TOOK us a few years to convince the people of the state that, having spent billions of dollars on wastewater treatment equipment, they should not settle for less than the best in operating personnel to get the most out of these expensive facilities."

"There was resistance," he said. "Some local communities felt the state was poking its nose into things which did not concern it; other had favorite sons—local boys, of course—they wanted to hire, regardless of qualifications; still others were convinced that pollution was imaginary in the first place and if they didn't talk about it, it would go away."

"BUT THE mandatory certification program now has been accepted by treatment plant operators and employees alike, and it has paid tremendous dividends for both."

The Michigan law gives the Department of Health the authority to classify sewage treatment plants according to size, location, etc., and also according to the skill, knowledge and experience

TODAY'S Meditation from The World's Most Widely Used Devotional Guide

Neither is he that planteth anything, neither he that watereth; but God that giveth the increase. (1 Corinthians 3:7)

THE WIFE of a young pastor sat at a conference vespers service only half listening to the speaker. She had come tired and worn out after a particularly strenuous year working with her husband, in the small city parish he served. She was discouraged and disillusioned; they worked so hard, it seemed, and accomplished so little.

Suddenly, the words of the speaker broke through her train of thought. "This parable of the sower is what I call 'The Parable of the Disillusioned' he said. "It offers a word of encouragement for those who feel that what they are doing isn't achieving any results."

The speaker went on to say that ours should be the business of sowing—sowing among the rocks, sowing among the thorns, sowing everywhere. The results are not for us to worry about. Those we should leave to God. Ours is the job of sowing.

PRAYER: O God, keep me from becoming discouraged because I see no results. Keep me sowing, sowing and trusting to Thee to bring forth the harvest to Thy glory and for Jesus' sake. Amen.

THOUGHT FOR THE DAY: When we are diligent in sowing the seed, we can trust God to bring the harvest.—Florence H. Wayman (Wisconsin)

necessary to operate them. The Department also makes the rules regulating the classification, as well as the examinations given for certification.

"THUS," Pierce said, "we now have operators classified as A, B and C, and established educational requirements for each group. But if we are to set such standards of performance, we must develop an educational program easily available to anyone interested. Actually it developed in reverse. We were offered training programs back in 1934, long before certification was required by statute."

Instruction is provided by Department of Health experts at regional meetings throughout the year and by on-the-job instruction during regular or special visits to the treatment plants. The Water Pollution Control Assn., to which most of the operators now belong, also sponsors technical meetings as part of its contribution to the scheme. The State Department of Public Instruction offers extension courses in such

subjects as mathematics and chemistry, as they are applied to the business.

THE PROGRAM lends itself well to the development of incentives and pride of profession on the part of the operator, and improved performance of treatment plants resulting from the program provides self-winding public relations.

"The real test has been the voluntary subscription of our program by private industry which is not bound by the certification law," Pierce said. "These people recognize that conservation is no longer a distant concern of the rural areas, but a problem facing every person and every community in the state."

"WATER pollution control is everybody's business, and is accepted as such by the people of Michigan," he said. "Otherwise the state could not be the tops in the nation in water pollution control, regardless of how effective a program is offered."

GOVERNOR ROMNEY REPORTS

It has long been my belief that all citizens should have a healthy respect for the law. Laws apply to all people alike. Laws do not exempt some and apply to others, nor are laws meant to favor some and discriminate against others.

I believe in applying the laws heartily, without fear or favor, to all groups. This belief has been a part of my state administration from the beginning. I do not believe in applying the laws recklessly, then sitting back and letting the chips fall where they may. I have applied the laws fairly and honestly.

THE IMPARTIAL application of the laws was evident in the Essex Wire Corporation strike in Hillsdale earlier this year. I favored neither side in that dispute. But law and order had to be maintained, and the property rights of those not involved had to be protected.

Recently, several incidents have arisen involving efforts by the National Farmers Organization (NFO) to discourage non-member Michigan farmers from delivering livestock for sale at various stockyards and livestock auctions.

I HAVE instructed the Michigan State Police to honor requests from local law enforcement agencies for whatever assistance is necessary to maintain law and order at stockyards and livestock auctions anywhere in the state.

The NFO has several national chapters, and is organized in several Michigan counties as well. Incidents involving NFO members have been reported in Owosso, St. Johns, Charlotte and in some other Michigan counties.

These two points must be remembered:

(1) MEMBERS of the National Farmers Organization certainly have the right to peacefully picket stockyards and certainly may pursue peaceful persuasion to tell their story; but they must also respect the rights of others.

(2) Farmers desiring to take stock to market certainly have the right to travel public roads without obstruction, and certainly have the right to be safe from attacks on either their persons or their property.

I HAVE ASKED the State Police to apply the law to everyone alike, without fear or favor. Any infringement on the personal and property rights of anyone in these incidents will be met by strict enforcement of the law.

## Constitution guarantees right to trial by jury

For centuries the common-law right to trial by jury has been regarded as a safeguard of life and property. It has even been suggested that the number 12 has a special significance.

The late English Lord Coke said: "It seems to me that the law justly delighteth herself in the number of 12 jurors for the matter of fact, for is that number not much suggested in Holy Writ, as 12 apostles, 12 stones, 12 tribes, etc."

THE RIGHT to trial by jury in Michigan is guaranteed by the state constitution. In a criminal case the right is absolute; however, in a civil case trial by jury is deemed to be waived unless it is demanded by one of the parties.

It is no longer necessary in

Michigan that the jury be comprised of 12 persons in all cases, however. The new constitution provides that the jury may consist of less than 12 jurors in all courts not of record.

NEITHER is it necessary in all cases that the jury unanimously agree in order to return a verdict. While unanimity is required in a criminal case, the new constitution provides that in all civil cases tried by 12 jurors a verdict is possible when 10 jurors agree.

The procedure of the selection of jurors is established by law and provides that jurors are to be selected from persons assessed on the assessments roll of the township or ward for the same year who qualify as electors. The term of service is for one year.

THE following persons are excused from jury duty: Officers and employees of the United States; officers and employees of the state; county officers and their deputies; all judges of courts of record; all attorneys and counselors; all persons more than 70 years of age; and any person who has served as a juror during the 12-month period immediately preceding the term to which he is called to serve as a juror. In addition the court, for sufficient reason, may excuse any person from serving as a juror.

Once a person has been summoned to appear as a juror, he must attend. His failure to do so may result in a fine not to exceed \$25, or to be otherwise punished as provided by law.

### Mrs Rhynard notes 90 years

Mrs. James E. (Julia) Rhynard will celebrate her ninetieth birthday Sunday at the Pohl Countryside Home on Hall Road. Her birthday cake was a gift of Mr and Mrs Gerald Ranshaw and family.

Mrs Rhynard has 121 descendants. Her children are Cecil Rhynard of Bath, Ezra Rhynard of Farwell, Mrs Gladys Ackels of Cadillac, Mrs John Cott of Weldman, and Mrs Carl McGillis of Lansing. She has 26 grandchildren, 70 great-grandchildren and 20 great-great-grandchildren.

SHE WAS born Sept. 30, 1874 in Clinton County. In 1893, she married James E. Rhynard and went to live in Gratiot County. In 1912, they moved to Clinton County. Mr Rhynard died in 1940.

She has always lived on a farm. As long as her eyesight permitted, she did quite a bit of crocheting. In more recent years, she finds reading "the county paper" is about as much as she can do.

### Bath

By Mrs Alice Loomis

## Bath firemen have busy time

BATH— Thursday, Oct. 1, was a busy day for the Bath volunteer fire department. At 10:30 a.m. they were called to the rear of the Bath Elementary School to put out a grass fire. At 4:55 p.m., they were called to the Russell Burch home at 16721 Kaiser Road. The Burches' 7-year-old son had set fire to a mattress. Damage of \$250 was confined to the bedroom.

While returning from the Burch home, firemen found Homer Griffin of 7463 Howe Road, with his car ablaze at Clark and Webster roads. Damage to the car was set at \$50.

At 1:00 a.m. firemen from the inhalator squad were called to assist Charles McMillan in breathing while he was suffering from a severe attack of asthma.

### Bath homemakers collect winter garments for pupils

BATH— The Bath Homemakers Extension Study Group is sponsoring "Operation Bundle Up." The objective is to provide elementary school children with winter outer clothing.

Members are asking that anyone having clothing, coats, hats, mittens, boots, to donate, leave them at the all-purpose room of the Bath Elementary School building. Also to label the sizes on the clothing, if possible, as soon as possible. The group will see to sorting and repairing the items in time for the need.

Mr and Mrs Richard Bragdon and family of R-1, Bath, spent the weekend with friends, Mr and Mrs Lloyd Rosekrans and family of Sleight Road, Bath at Rosekrans cottage at Chippawa Lake, near Barryton. During the weekend the Bragdon's also visited their son, Brent, at Big Rapids, where he is attending Ferris Institute.

Three cooks from Bath Community Schools went to a food convention, sponsored by Gordon Foods in Grand Rapids, Wednesday after school. One of the cooks, Mrs Kenneth Gelsenhaber, won a prize, of a canned chicken while there.

Cub Scout Den 7, of Bath took advantage of there being no school on Oct. 1, and toured the state capitol building in Lansing.

### Congregational sets welcome for pastor

Highlighting the activities of the First Congregational Church of St. Johns Sunday will be a public Service of Recognition at 4 p.m.

The Service, formalizing the relationship between the church and its new minister, the Rev. Gerald Churchill, has historical significance, dating back to prevailing practices in Congregational churches in the 17th and 18th centuries.

DR BRUCE Masselink, minister of Mayflower Congregational Church, Grand Rapids, and Moderator of the National Association of Congregational Christian Churches will deliver the recognition sermon.

Of special interest to members and friends of the St. Johns church is the fact that three former ministers will participate. They are Dr. Clyde Wilcox of Marshall, the Rev. Earl Collins of Greenville and the Rev. Ray Caldwell of Newport, Ky.

OTHER participants will include the Rev. Ward Klapp of Merrill, moderator of the Western Michigan Assn.; the Rev. Howard Bull of Birmingham, moderator of the Michigan Congregational

REV GERALD CHURCHILL Conference; the Rev. Leonard Maunder of Vermontville; Dr. Malcolm Burton of Pontiac; Dr. Jesse Petre of Lansing; and Dr. Howard Smith of St. Johns.

The Rev. Mr. Churchill will pronounce the benediction. Organist for the service will be Mrs. Basil Delbert. The senior choir, under the direction of Robert Cox, will sing an anthem. Soloist for the occasion will be Mrs. Ronald Stison.

THE MEMBERS of the church have extended a cordial invitation to their friends in the area to join them in officially welcoming their new minister to the church and community. Following the service, a reception, sponsored by the Women's Fellowship, will be held in the church dining room.

### Revive early movie series

Great films from the early days of the motion picture industry make their way back to the screen again starting Sunday, Oct. 18, at Henry Ford Museum in Dearborn.

Greenfield Village's famous early movie series has become a regular Sunday feature for museum visitors from October through April. Both silent and sound pictures of the past are highlighted in this weekly program, now in its 14th year. Two showings are scheduled on Sunday afternoons at 2 and 4 p.m.

Douglas Fairbanks, Will Rogers, Ronald Coleman, Lillian and Dorothy Gish are just a few of the many stars of the silver screen slated for the series. Film titles include Beau Geste, David Harum, The Little Colonel, Rebecca and Ruggles of Red Gap.

The Black Pirate, a 1926 silent film starring Douglas Fairbanks Sr., will open the annual film festival Oct. 18.

### Slate missionary at Nazarene zone rally here

The Rev. Harry G. Flinner, Nazarene missionary to Peru, will speak at the St. Johns Church of the Nazarene Tuesday night when the church hosts the zone rally of the Nazarene World Missionary Society service at 7:30 p.m.

The Rev. Mr. Flinner and his wife are on their second furlough in the United States. They have been in Peru since 1955. The Rev. Mr. Flinner will present curios and customs of Peru and will use colored slides showing the life of the people and the work of the Peruvian Church of the Nazarene.

DURING HIS years as a missionary, the Rev. Mr. Flinner has served as pastor for two different churches and the director of the Nazarene Bible Training School in Chiclayo, Peru.

In the four years prior to this furlough, Rev. and Mrs. Flinner established a new mission station in a section of the Peruvian jungles where there had been practically no religious teaching before their arrival.

### 2 from Rivard earn awards

Two persons from the Rivard Nursing Home in St. Johns were among the more than 200 registrants who were awarded certificates of achievement in Cincinnati, Ohio, Friday.

The achievement awards were made at the Regional Institute on Nursing Home Care. Gladys I. Hetzel, LPN, and Beatrice M. Rivard, LPN, both from St. Johns, received certificates.

The Institute was sponsored by the Joint Council to Improve Health Care of the Aging. It is part of a nationwide education program designed to improve patient care in nursing homes.

### Area nurses hear MSU speech expert

The Capitol Area Nurses Assn.'s second 1964-65 season meeting will be held this evening Thursday, at 7:30 p.m. at the Union Building at Michigan State University.

Speaker will be Frederick Alexander, Ph. D., from the MSU Speech Dept. His topic will be "What Did You Say?" The faculty and the School of Nursing at MSU will be hostesses.

The Capitol Area Nurses Assn. serves Clinton, Eaton and Ingham counties.

### Fined, jailed for no driving license

Robert D. Cooley, 21, of R-3, Grand Ledge, was fined \$10, assessed costs of \$15 and sentenced to 10 days in jail last Friday on a charge of driving with no operator's license.

Cooley was arrested by state police. The fine and jail sentence were handed down by Justice of the Peace Gordon Willoughby of DeWitt Township.

### Blinding sun causes crash

Autumn sunshine caused a crash between a car and a light truck on Round Lake Road last Wednesday afternoon. No one was hurt, and only one of the vehicles suffered any damage.

Thomas S. Hall, 75, of 5912 Round Lake Road, Laingsburg, was backing his car around at Hemstead's Store and was going to pull onto the road to drive east to his home.

THE SUN was shining in his eyes and he did not see a truck approaching from the west. The truck was driven by Clifford G. Case, 52, of 309 W. Grand, Laingsburg.

Another car was sitting in the westbound lane waiting to make a turn into the store lot, and Case said he could not pull out to avoid hitting Hall's car. Hall's car was damaged in the left rear.

DEPUTY Sheriff Ramon Terpening investigated the accident which occurred at 5:30 p.m. just west of St. Clair Road.

### Finds 5-Legged Frog

The subject of much discussion in biology classes at St. Johns High School in recent weeks was this five-legged frog. It was found Sept. 6 in Baraga County in the Upper Peninsula by Bernard Newhouse, above, a 1964 graduate. The female pickered frog is about two years old, Newhouse said. When he caught it, the extra leg, coming out of the neck, stuck straight out and hampered the reptile in jumping. The leg and foot are not as well formed as the other four. The frog has been preserved in formaldehyde and was loaned to the high school for inspection. Bernard is the son of Mr. and Mrs. G. J. Newhouse, 5611 W. Townsend Road.

with Mrs. Mary Candler and Mrs. Thelma Black, cohostess. Mr. and Mrs. Harold Becker spent Sunday with Mr. and Mrs. James Becker and daughter of Muskegon. Mr. and Mrs. Paul Winegar and sons of Lansing spent Saturday afternoon with Mr. and Mrs. Fred Biergens. Mr. and Mrs. Andrew Kempf spent Sunday with Mr. and Mrs. Maynard Kempf at Morrison Lake. Mr. and Mrs. Charles Gillette of Florida called on Mr. and Mrs. D. C. Allen Thursday. Mr. and Mrs. Edd Ebricht were Saturday callers. The first new cartoon of "Uncle Sam" appeared in the New York Latern, a comic weekly, on March 13, 1852.

Former residents note anniversary in Tennessee home

A reception in celebration of the golden wedding anniversary of Mr and Mrs C. Howard Gee was held at the Tennessee Valley Unitarian Church in Knoxville, Tenn., on Sept. 27.

The wedding of Miss Ina Lucille Post and C. Howard Gee took place Sept. 22, 1914 at Ovid. In 1929 they moved to Knoxville, Tenn.

THEIR SIX great-grandchildren, twenty-six grandchildren and seven children joined in best wishes for the Gees. Their children are Robert Gee of Nashville; Edward Gee of Detroit; Mrs Carol Sunderland, of Lakeside, Calif.; Mrs Janie Chandler of Alcoa; Mrs Bette Thornton of Lapeer; Richard Gee and John Gee of Knoxville, Tenn.

Mrs Guta Barnes, a niece who was present at their wedding, was also a guest at the reception.

MRS PAUL R. BLEISNER

Priscilla Ann Walker now Mrs Bleisner

St. Paul Lutheran Church of Fowler, was the setting for the marriage of Miss Priscilla Ann Walker and Paul Raymond Bleisner.

The bride is the daughter of Mr and Mrs Edgar W. Walker of 2565 N. Wacousta Road, St. Johns. She was a graduate of Lansing

Business University in Lansing and was employed at Oldsmobile Division in Lansing.

THE BRIDEGROOM is the son of Mr and Mrs Matthew Bleisner of rural Chesaning and is employed in Chesaning.

For the ceremony, the bride chose a floor length gown of bouquet taffeta, with long pointed sleeves and a chapel sweep train, with four appliqued roses. The neckline and flat front princess panel were appliqued with Alencon lace. She carried a bouquet of two white arches centered in trailing ivy.

MISS MARY Beth Devereaux served as maid of honor in a floor length dress of gold bell satin with a bateau neckline, elbow length sleeves and was fashioned with full unpressed pleats in back with a satin bow. Matching satin roses with veils completed the costume. She carried bronze mums with sprigs of wheat.

Identically gowned brides-

maids in island green were Miss Mary Lee Irner, niece of the bride, and Miss Jean Bleisner, sister of the bridegroom, carrying bouquets of gold mums with sprigs of wheat.

WILLIAM Devereaux was best man and groomsmen were Robert Daniels and Jack Bleisner.

Seating the guests were Richard Walker, brother of the bride and William Bleisner, brother of the bridegroom.

The children's choir of the St. Paul Lutheran Church under the direction of Mrs Leo Fox, with Mrs Robert Boettger at the organ sang "The Lord's Prayer," as the bridal couple knelt at the altar.

A RECEPTION followed in the church parlors.

Mrs Dennis Irner, the bride's sister assisted by Miss Carol Bleisner, sister of the bridegroom cut and served the wedding cake. The groom's cake was served by Miss Joyce Bleisner, sister of the bridegroom.

Miss Karen Sommerfeldt of Grand Haven poured at the coffee service, and Miss Joan Pasch attended the punch bowl.

Miss Barbara Irner, niece of the bride, attended the guest book.

THE NEW Mr and Mrs Bleisner departed for a trip in northern Michigan and Canada following a supper and reception at the home of the bride's parents. They are now residing in Chesaning.

Special guests at the wedding were Mrs Dorothy Brainerd, grandmother of the bridegroom, and Mrs Emma Mundell and Mrs Arthur Burns, grandmothers of the bride.

THE BRIDEGROOM'S parents are Mr and Mrs Donald L. Smith of 603 S. Kibbee Street, St. Johns. He is also a 1962 graduate of St. Johns high school.

White gladioli adorned the chancel for the double ring ceremony performed by Rev Gerald Churchill in the First Congregational Church in St. Johns. Mrs B. A. Delbert, organist played traditional selections and accompanied the vocalist, Mrs Robert Sirtine.

The bride wore a floor length gown of Chantilly lace fashioned with a scalloped neckline accented with sequins and rhinestones, long tapering sleeves and four tiers of lace down the back. Her veil fell from a two-tiered crown of lace accented with sequins and rhinestones and she carried a cascade bouquet of white mums.

MISS JANET Schlarf served as maid of honor. Miss Judy Blake, Mrs Thomas Lewis and Mrs Michael Ludwick were bridesmaids. Their floor length, sheath gowns were fashioned of emerald green lace over satin with overskirts. Their headpieces were emerald green satin clusters with matching net veils and they carried bronze and yellow mums.

SEVENTEEN members responded to roll-call.

A decision was reached to send the servicemen and women, from St. John's congregation, serving God and country, fruit cakes as Christmas gifts.

Thank-you notes were received from the Albers and Steiter families. The guild served lunches to the members and friends of these two families after the funerals of their loved ones.

Mrs Alvina Strgar was appointed chairwoman for the fall dinner and bazaar to be held in the near future.

An invitation was extended to the Lutheran Womens Missionary League to attend the December meeting of the guild.

MRS DENNIS L. SMITH

Reside in Lansing after nuptial rites

DeWITT—Mr and Mrs Dennis L. Smith left Saturday following their wedding ceremony for a honeymoon in northern Michigan. When they return, they will reside in Lansing.

Mrs Smith is the former Connie Marie Baur, daughter of Mr and Mrs George Baur of 3020 Round Lake Road and a graduate of Rodney B. Wilson High School.

THE BRIDEGROOM'S parents are Mr and Mrs Donald L. Smith of 603 S. Kibbee Street, St. Johns. He is also a 1962 graduate of St. Johns high school.

Lutheran pastor probes the Fifth Commandment at meet

A prayer by Rev Frederick Rutkowski opened the October meeting of the St. John's Lutheran Ladies Guild and was followed by an inspiring letter from Miss Judy Flak, a freshman student at Concordia Lutheran College in Ann Arbor.

Pastor Rutkowski chose for his topic "The Fifth Commandment, and its meaning." In this discussion he described the many ways one can break this law of God.

SEVENTEEN members responded to roll-call.

A decision was reached to send the servicemen and women, from St. John's congregation, serving God and country, fruit cakes as Christmas gifts.

Thank-you notes were received from the Albers and Steiter families. The guild served lunches to the members and friends of these two families after the funerals of their loved ones.

Mrs Alvina Strgar was appointed chairwoman for the fall dinner and bazaar to be held in the near future.

An invitation was extended to the Lutheran Womens Missionary League to attend the December meeting of the guild.

ELSIE ---- ELSIE COUPLE -18

ELSIE— Mr and Mrs Glen Addison were honored at an open house Sunday for their golden wedding anniversary at their home north of Elsie.

About 125 guests from Toledo, Ohio, Monroe, Detroit, Flint, Lansing and the area towns called. A four-tiered wedding cake centered the serving table and was served by members of the family.

I would like to take this time to say . . .  
**THANK YOU**  
to everyone for a successful anniversary sale.  
BEN and Employees

Rev. G. T. Segtman of Corunna who performed the ceremony on Sept. 25, 1939. He was unable to be present.

The Geigers who also have four grandchildren have always lived in the Elsie vicinity except for two years in Midland.

The members of both families remained for a potluck supper.

### Elaine Goins October bride, feted at event

THE Addisons were married on Oct. 7, 1914 at the Methodist parsonage in Ithaca where they lived for some time. Later, they moved to Flint and Mr Addison was employed by the state highway department for several years.

During recent years, they have made their home north of Elsie and spend the winter months in their home at Punta Gorda, Fla. They plan to leave again for the south about Nov. 1.

The Esther Circle of the Methodist WCS met Wednesday evening in the basement of Fellowship Hall. They spent the time hemming the new draperies for the windows of the Sunday school rooms. Mrs Charles Kridner served as hostess.

The Community Chest campaign is under way this week in the village with Stan Loznak as the drive chairman.

Mrs R. C. Conklin has been under treatment the past two weeks for a virus infection at the Owosso Memorial Hospital and will remain there another week.

The oral polio vaccine clinic scheduled Oct. 11 at Elsie has been postponed indefinitely according to an announcement by Dr Paul Stoller of St. Johns, director of the Clinton County Health Department.

The decor was pink and white. The serving table was centered with cup cakes and ribbon streamers. The gifts were displayed on a white tea cart with a pink umbrella.

GUESTS included Mrs Tony Goins and Mrs Douglas Henderson, the mothers of the bride and groom-to-be, Mrs Marvin Mann, Miss Dorothy Mann, Mrs Dorothy Mulder, Mrs Henry Wohliert, Mrs E. Ralph North, Mrs John Dodge, Mrs Dick Phillips, Miss Nancy Patterson, Mrs Wentzel Jorgensen, Mrs Thomas Placer, Mrs Gary Jorgensen, Mrs James Jorgensen, Miss Linda Coppiss and Mrs Fred North.

Sunday callers at the Henry Wohliert home were Mr and Mrs Jerry Grosnickle and children, Linda, Cristie and Paul from South Bend, Ind.

### Clifford Geigers are honored for 25 years

ELSIE— Mr and Mrs Clifford Geiger were honored Sunday on their 25th wedding anniversary in Fellowship Hall of the Methodist Church.

Their children, Mr and Mrs Robert Coleman, Mr and Mrs Norman Geiger, Glen, Joanne, Martha and Teddy were hosts for the occasion.

APPROXIMATELY 100 guests were present from Niles, Midland, Concord, Clarkston, Owosso, Lansing, Flint, Beulah and Custer.

The serving table was centered with a wedding cake made by Mrs Allan Oberlin and the groom's cake by Mrs Clarence Geiger. Both were presented as gifts to the honored couple who also received many pieces of silver.

AMONG THE special guests were the couple's parents, Mrs Hazel Geiger and Mr and Mrs R. C. Woodard and their attendants of 25 years ago, Mr and Mrs Ford Stinebower. They also received congratulations from the

### DeWitt Grange meets

DeWITT— DeWitt Grange will meet at the Veterans Memorial Building Friday, Oct. 9, at 8:30 p.m. Slides of the ox roast parade will be shown. Roll call will be, "What I Want to Accomplish This Fall." Members will bring table service and sandwiches, cake, or a gelatin dessert.

### Diane Sibley, 10, honored at party

DeWITT— Sixteen friends helped Diane Sibley celebrate her tenth birthday at a party held at her home. The party started with outdoor games, but the rain soon chased the merrymakers inside. Diane received many gifts.

Refreshments were served by Diane's mother, Mrs Russell Sibley. Special guests were Diane's grandmothers, Mrs J. Allen Stampfly and Mrs Alger Sibley.

## Scouting News

of St. Johns and Clinton County

Camporee Chief Ed Wells and assistant chief Sam Sampel took care of about 100 boys and 25 adult leaders and scoutmasters at Portland Camp Shimmecon over the weekend.

Competition included bed making, rope climbing, rope lashing and fire building. Camp sites were also judged.

THE POTLUCK trophy was won by Troop 58 of Portland, and Troop 71 of St. Johns and Troop 58 took blue ribbons for best camp sites. One hundred per cent perfect red and yellow ribbons were taken by troops 60, 76 and 67.

At the campfire, the boys gave

out with singing and skits. Scoutmasters and assistant scoutmasters were introduced, as were the following Chief Okemos Council officials:

ASST. SCOUT Executive Dick Paul, District Advance Chairman David Bills, District Commissioner Rudy Masarik and District Executive O. Haselett. Roger Kowalski was master of ceremonies for the evening.

"We'd like to thank the adult leadership, scoutmasters and Scout parents for making the camporee the best Boy Scout outing of District 5," Commissioner Masarik and District Executive Bob Arnold said at its conclusion.

## 6 Holsteins cited for production

New, officially recognized milk and butterfat records by registered Holstein cows in the Clinton area were underscored in a special report from The Holstein-Friesian Assn. of America, Brattleboro, Vt.

Eaton Acres Clyde Hill Jan, a four-year-old owned by Mark A. Eaton of St. Johns, produced 15,230 pounds of milk and 501 pounds of butterfat in 239 days.

RAG APPLE Sovereign Betty Lulu, a four-year-old, produced 16,900 pounds of milk and 696 pounds of butterfat in 344 days. Green Meadow Venus Kitty, a three-year-old, had 15,700 pounds of milk and 604 pounds of butterfat in 342 days. Karen Short Lane Frasea, a three-year-old, had 16,660 pounds of milk and 649 pounds of butterfat in 338 days. All are owned by Duane and Velmar Green of Elsie.

Island Road Lady Luck, a four-year-old owned by William H. Knight of Elsie, produced 21,727 pounds of milk and 666 pounds of butterfat in 365 days.

BLISS ACRES Alcatra Shawana, a four-year-old owned by Leon Miller of St. Johns, produced 13,580 pounds of milk and 541 pounds of butterfat in 305 days.

These new production figures may be compared to the estimated annual output of 7,500 pounds of milk and 275 pounds of butterfat by the average US dairy cow, notes the national Holstein Association.

MICHIGAN State University supervised the sampling, weighing and testing operations in cooperation with the Holstein organization's herd and breed improvement programs.

To get the calcium derived from one glass of milk, you must eat two cups of cream soup, have three custards for dessert, or four average servings of ice cream, or eat 1 1/2 cups of cottage cheese, two one-inch cubes of cheddar cheese, or one whole chocolate cake!

## News About Clinton County Service Personnel

Marine Pvt. I.C. EMIL F. KUS, son of Mrs. Mary Kus of 309 E. Higham Street, St. Johns, recently visited Cannes, France, as a member of Marine Battalion Landing Team (BLT) 2/6, in the Mediterranean.

Army Pvt. WAYNE J. THELEN, son of Mr. and Mrs. Alvin J. Thelen, 11040 W. M-21, Fowler, was assigned to Battery A, 1st Missile Battalion, 71st Artillery, a Nike-Hercules missile unit in Rockville, Md., Aug. 28.

This unit, part of the nationwide US Army Air Defense Command, provides air defense in the Washington, D. C., area.

Thelen entered the Army in June 1964 and completed basic training at Fort Knox, Ky. The 18-year-old soldier is a 1964 graduate of Fowler High School.

PVT EUGENE HIGGINS

Pvt. EUGENE HIGGINS, son of Mr. and Mrs. Thomas Bosquette of R-3, 6183 N. US-27, St. Johns, is in military training at Fort Sill, Okla., in the Airborne Control Survey System. He attended Rodney B. Wilson High School and graduated in June 1963.

WILLIAM A. SMITH

William A. Smith, son of Mr. and Mrs. Donald J. Smith of R-3, St. Johns, received a promotion to airman second class last Thursday, Oct. 1.

He is presently assigned as chief clerk, Medical Squadron Section of the 875th Medical Group at Clinton-Sherman AFB, Okla. Smith was one of four airmen promoted to second class rating during October's promotion cycle. He is a 1961 graduate of Rodney B. Wilson High School. He attended Lansing Community College before entering the Air Force in January 1963.

PERCY S. HELMS JR., radio-man third class, USN, son of Mr. and Mrs. Percy S. Helms Sr. of R-3, Livingston Road, St. Johns, has been awarded a letter of commendation by the Commanding Officer of destroyer USS Turner Joy for outstanding performance of duty during an attack on his ship by several high-speed North Vietnamese motor torpedo boats in the Gulf of Tonkin on the night of Aug. 4.

In ceremonies held on board the Turner Joy in Subic Bay, Republic of the Philippines, on Sept. 5, Commander Robert C. Barnhart, Jr., praised his coolness and efficiency under fire, "which contributed materially" to the successful conclusion of the over two-hour engagement in which Turner Joy sank two torpedo boats and damaged two others while sustaining no damage herself.

## State's new Historymobile to make stop in St. Johns

The history of Michigan will unfold in front of the courthouse in St. Johns Oct. 13 and 14 when the Michigan Historical Commission's Historymobile visits.

The 10 by 70 foot trailer will be parked on State Street at the head of Clinton Avenue. It will arrive Oct. 12, weather permitting, and will be set up then. It will be open to the public without charge for two days.

ALTHOUGH several states presently have historymobiles in

operation, Michigan's new unit is unique in that the 19 chronologically arranged exhibits it contains represent the combined efforts of 14 of Michigan's finest museums.

"It is the first unit of this type in the country to feature such a cooperative exhibit," said Nolan Weeks, director of the Michigan Historical Commission museum and coordinator of the project.

THE COLORFUL displays are designed to highlight the most important segments of Michigan's history, from prehistoric times to the present.

Participating in the cooperative project with the historical commission are: Cranbrook Institute of Science, Detroit Historical Museum, Dossin Great Lakes Museum, Fort Wayne Military Museum, Henry Ford Museum, Dearborn Historical Museum, the Exhibits Museum of the University of Michigan, Michigan State University Museum, Grand Rapids Public Museum, Kalamazoo Public Museum, Mackinac Island State Park Commission, Hartwick Pines State Park, and Manistee County Historical Society Museum.

THE Historymobile was dedicated June 26 this year and is taken to various cities and towns

free of charge on invitation of local historical groups.

"We want to use the Historymobile to promote an increased interest in and appreciation of Michigan history," said Dr. Lewis Beeson, executive secretary of the Michigan Historical Commission. "But we also hope it will help to stimulate increased interest in our local and state-wide historical groups."

"WE WANT these community leaders to feel they have a definite part in this new service," he said. "We intend to take the Historymobile to virtually every community of any size in the state."

Charles Carter, the curator, previously served 27 years with the Lansing Police Dept., retiring last summer. He and his wife will tour with the unit approximately eight months each year.

## Road Commission Weekly Report

The Board of Clinton County Road Commissioners held their regular meeting last Monday, Oct. 5.

The commission approved a new plat in DeWitt Township, and discussed a future meeting with the Ionia County Road Commission.

THE BOARD talked about the eight-county council meeting that is to be held in Clinton County Oct. 20. Topics for this meeting are the tree removal problems and the new liability law.

The dead trees came in for some discussion. This problem is even greater than was anticipated. Last winter we removed more than 1,200 trees and estimated that we had about 4,000 left.

PRELIMINARY figures from the survey we are making indicate that there are between 8,000 and 9,000 dead trees along Clinton County highways. We had help from many people last year who offered to take care of the wood from trees that we cut. We are going to need a lot of help like this if we hold our own in the coming winter.

Accident reports received from the Sheriff's Dept. and from Michigan State Police show 23 accidents on Clinton County roads in the latter part of September. There was 13 two-car accidents, one three-car accident and nine one-car (ran off roadway) accidents. One person was killed and 17 injured. Twenty-one violations were reported.

### Hold Nazarene revival series

The Pickering Musicalaires, an evangelist family from Allentown, Pa., are appearing in St. Johns for special revival services through Sunday at the Church of the Nazarene, 815 N. Lansing Street.

Services start at 7:30 p.m. nightly. The revival series began Tuesday night.

THE FAMILY includes the Rev. and Mrs. R. E. Pickering, Sharon, Max and Don. They play various instruments, including the cornet, accordion, guitar, bass fiddle, piano and organ.

The Rev. Mr. Pickering is a graduate of Allentown Bible College, where he received his theological training. He pastored at Lebanon, Pa., and served as assistant pastor and minister of music at Reading, Pa.

THE REV. Erwin A. Self is pastor of the St. Johns church.

### Enrollment at CMU at record 7,321

Central Michigan University's fall enrollment has reached a total of 7,321, an all-time high, according to George N. Lauer, registrar. This is an increase of 11.3 per cent over last fall's enrollment of 6,557. The largest increase is in the freshman class with a record of 2,253 enrolled.

The citation read in part: "His performance of duty in the face of enemy fire upheld the finest tradition of the United States Naval Service."

Pvt. JOSEPH C. JORDAN JR., whose parents live at 1821 N. Hollister, Ovid, completed an 11-week machinist course under the Reserve Enlistment Program at the Army Ordnance Center and School, Aberdeen Proving Ground, Md., Oct. 2.

Jordan was trained to manufacture, repair and modify parts for tanks, trucks, weapons and other combat equipment. Jordan, 22, is a 1960 graduate of Ovid High School.

# St. Johns Cooperative Co. finishes work on \$90,000 bean storage plant

With Clinton County's bean harvest beginning to come in, the St. Johns Cooperative Co. is utilizing for the first time its new bean plant and silo storage facilities on West Railroad Street.

The recent completion of the work marked the end of the current phase of expansion of the business that has been handling grain in St. Johns since 1921.

JOHN L. Hall, secretary-treasurer and manager of the firm, said the \$90,000 expansion will better enable the cooperative to handle beans and later other grains faster and more economically.

The expansion is indicative of the growth of St. Johns Cooperative from its start in 1921. Constant improvements and additions to facilities have been made over the years and were part of the reasons why St. Johns Business Unlimited honored the co-op last spring.

HALL ACCEPTED for the cooperative April 23 a distinguished service award "in recognition of their outstanding contribution to the agricultural progress of St. Johns."

About that same time, the Cooperative Co. was starting construction on its two new bean silos on West Railroad Street at the corner of Brush Street. The silos, 20 feet across, reach 80 feet into the air and will hold 35,000 bushels between them.

INVOLVED IN the same construction was a receiving station with a grain cleaner with a rated capacity of 3,000 bushels per hour.

A new dryer with a rated capacity of 1,000 bushels per hour was also erected for the drying of shelled corn. With the increased amount of shelled corn going to the elevators, Hall said the new machine was needed. It replaces one that had a capacity of 450 bushels per hour.

THE NEW bean plant and receiving station were built in connection with the old processing plant and the flat storage buildings. The storage building was originally built two years ago, and last October an addition was made to it.

The increased business shows no signs of leveling off. In the first five years of the organization—from late 1920 to 1925—the St. Johns Cooperative Co. handled 95,000 bushels of wheat, 67,000 bushels of oats and 25,000 hundredweights of edible beans.

BY COMPARISON, the following are figures for just one year—the fiscal year that ended this past June 30:

Corn, 300,000 bushels; soy beans 92,000 bushels; oats, 50,000 bushels; dry edible beans, 54,000 hundredweights; and wheat, 275,000 bushels.

Wheat handled since July 1 has already topped 213,000 bushels.

IN ITS EARLY years, the business was an association. It was started in late 1920 from an original cash investment of \$70,000.

That has all been repaid to the original investors with interest. The company has grown from retained profits derived from business done by its own members.

The president of that original group was H. B. Huey. George H. Brooks was secretary-treasurer. Others on the board of directors were August Fricke, Perry Teed, E. R. Munson, C. L. Shafley, C. I. Eaton and John Becker.

ON MARCH 19, 1929, the business was incorporated as a cooperative with these officers: C. L. Shafley, president; J. E. Crosby, vice president; George Brooks, secretary - manager; John Becker, treasurer; and A. H. Pope, Charles W. Halsey, Vern Hand and Perry Teed on the board of directors.

Brooks was the original manager of the Cooperative Co., and he served in that capacity until January 1959 when he resigned because of ill health. He was then also secretary-treasurer, and he continued to hold that position until November 1959.

JOHN L. Hall was hired as manager of the cooperative when Brooks resigned from that job in January 1959, and when the

secretary-treasurer position opened later that year, he was named to that job, too.

The present board of directors of the St. Johns Cooperative Co. includes: Warren Coffman, president; J. Lawrence Becker, vice president; Hall, secretary - treasurer - manager; and Kenneth Fricke, Don Puetz, Raymond Mayers, R. G. Hyde and Clyde Pearson, members of the board.

THE COOPERATIVE firm employs 17 persons. The company operates elevators along the railroad tracks on both the east and west sides of Clinton Avenue.

The bean harvest is just getting nicely started, Hall said last week. He expects to be able to process colored beans through the new facilities after they get the navy beans out of the way.

COLORED BEANS are being stored temporarily in the old silos next to the main office. The beans are still wet, Hall said, and farmers have been selling them early because market prices were up.

The new soy bean crop is beginning to come in, and Hall said these, too, will be stored for the time being in the older silos. He said this means quarters are still cramped, but it's the best way the company can handle the situation.

"OUR INTENT is to hold down the capital investment and utilize facilities to their fullest extent," he said.

### Librarians hear of new system

Bruce Barton of the Tri-County Planning Commission, discussed the Tri-County Library System at the meeting of the Clinton County Library Board Thursday.

He explained the advantages of the system to local libraries in economics and greater service.

Librarians and board members from public libraries at DeWitt, St. Johns, Maple Rapids, Elsie and Ovid, were guests.

Manager John Hall of St. Johns Cooperative Co. shows the certificate the firm received from St. Johns Business Unlimited earlier this year for their "outstanding contribution to the agricultural progress of St. Johns."

### Fowler Christian moms hear reports

FOWLER—Members of the Christian Mothers Society heard reports of the deaconry meeting held at St. Joseph Parish in Howell, at the last session. Reports were presented by Mrs. Edgar Thelen, Mrs. Amelia Feldpausch, Mrs. Ray Feldpausch, Mrs. Alfred Halfman, Mrs. Ronald Spitzley and Mrs. Linne Pohl.

Plans to start the Annette Program were discussed. This is a society composed of women who volunteer their help in time of sickness or other emergencies.

REV ALBERT Schmitt gave a talk on the new liturgy and lay participation at the Holy Sacrifice of the Mass.

Sister Regine Marie, school principal, spoke on the catechetics and liturgy. This is a new approach to teaching of religion in the school.

Dolls, rosaries, jewelry, and clothing will be sent to Rev. Albert Koenigsnecht, to be used in his mission work in Peru.

THE COMMITTEE for the October meeting includes Chairman Mrs. Mark Fox, Mrs. Urban Fox, Mrs. Arthur Fernholz, Mrs. Ivan Fink, Mrs. Arthur Fitzpatrick, Mrs. Alvin Fox, Mrs. Paul Fox, Mrs. Stanley Fox, Mrs. Earl Frechen, Mrs. Roman Geller, Mrs. Anthony George, Mrs. LeRoy George, Mrs. Robert George, Mrs. Roy George, Mrs. Vincent George, and Mrs. Bernard Hengesbach.

### 9-month death toll in traffic up 16% over '63

Michigan's traffic death toll at the year's three-quarter mark stands at 1,531, an increase of 215, or 16 per cent, compared with 1,316 in the first nine months of 1963, according to State Police provisional figures.

The accumulated count is second only to that of 1937 when 1,601 were killed.

THE TOLL includes 162 deaths in September which were one less than 163 in the same month a year ago. Delayed deaths, however, will increase this total and make the month another with an increase over the same month of the preceding year. September deaths averaged 151 for the last 10 years 1954-63.

Final figures for the first eight months included 1,369 killed and 88,816 injured in 175,210 accidents. These were respective increases of 19, 15 and nine per cent over the same period in 1963.

ESTIMATED mileage for the first seven months, the latest information available, was 21.7 billion, a rise of 7 per cent over this period last year, while the death rate of 5.2 per 100 million vehicle miles was an increase of 8 per cent on the same comparison basis.

**Romney Girls aid in GOP campaign in Clinton County**

A group of high school girls dressed in Romney blue may be seen at various political and civic functions in and about Clinton County, from now until election day.

Eleven girls from Clinton County are donating their time and effort with no pay to help further the Republican cause and further their own knowledge of the political wars first hand. These young women were present at the recent barbecue, pouring coffee and serving the many guests.

ON OCT. 13, they will furnish the official escort for Mrs. Lenore Romney at the "Salute Luncheon." They will also give the flag salute on this occasion.

They are Penny and Linda Sturges, Dotty Bloomer, Pamela Loznak, Kathy Melvin, Mary Beth and Carolyn Sexton, Linda Bled, Marie Rademacher, Cathy Matthews and Christine Zeeb.

THE CLINTON County Republican Women's Club, in recognition of the services rendered by this group of girls, will reimburse them for the cost of their impressive uniforms. Mrs. Virgil Zeeb is in charge of the girls.

## Experimental apple storage unit finished near Bath

Apples aren't the biggest agriculture crop Clinton County has to offer, but it's one that requires special care after harvest if the product is to be interesting to the consumer.

Toward that end, H. M. Jones and Sons Orchards on East Jason Road in Victor Township is putting the finishing touches this week on a new controlled atmosphere apple storage building. The construction is a new concept, and so the building is both experimental and practical.

LAWRENCE and Claude Jones, who operate the fruit farm, decided earlier this year to add on to their existing apple storage facilities. Because apples that are stored under controlled atmosphere keep better and command better prices, they decided to go into that phase of storage.

They consulted with Dr. Don Dewey of the Department of Pomology (fruit cultivation) at Michigan State University. At the same time, Dow Chemical Co. of Midland was considering the use of its Styrofoam-inert "sandwich panel" for CA (controlled atmosphere) storage buildings.

THE PARTIES got together, and Dow is paying for part of the cost of the new building because of its experimental value. They are maintaining instruments inside to measure temperature, humidity, pressure, oxygen content and carbon dioxide content. The Joneses also have their own instruments.

The new building is 24 by 60 feet on the inside. It is as nearly air-tight as is possible. According to Albert J. Palfey, Dow Chemical's representative on the job, the new building differs from conventional CA buildings in that a metal facing on the paneling is on the outside of the structure rather than on the inside.

THE METAL is used to prevent moisture from getting into the building. Palfey said Dow believes their new method of putting the metal on the outside is better. Under the usual method, he pointed out, moisture comes through the outer (plywood) layer and insulation before being stopped by the metal.

But this allows condensation to damage insulation. By preventing the moisture from ever

passing the outside layer, the insulation is preserved.

THE "SANDWICH panels" are four feet wide and 20 feet long for the walls and 24 feet long for the roof. They are locked together by cam locks. The metal is 15-mil embossed aluminum with baked-on enamel.

Even the floors are made airtight. On top of the normal concrete sub-floor was laid an asphalt felt vapor barrier. Insulation was put on top of this, and metal was run out over the footings and back in under the sandwich panels. Then the finished layer of concrete was put down.

APPLES in order to be certified as controlled atmosphere apples, have to be stored under certain conditions for certain lengths of time set down by the Michigan Department of Agriculture. Golden delicious and red delicious apples will be stored in the 24 by 40-foot cold-storage section of the building.

Claude Jones disclosed last week the conditions that 7,500 bushels of those apples will be stored under in the new CA room. It will contain only 2 1/2 per cent oxygen and under 5 per cent carbon dioxide. The temperature will be just about freezing.

UNDER THOSE conditions the metabolism of the apples will be slowed sufficiently that a high quality will be maintained.

The room will be sealed by an inspector of the Department of Agriculture, and the Joneses will keep records of the conditions in the CA room at all times. Should the oxygen or CO<sub>2</sub> content wander from what it should be, there are ways to correct them.

If more oxygen is needed, a blower will blow fresh air into the room. If the CO<sub>2</sub> content gets too high, the air will be pulled out of the room through pipes and into a lime scrubber box, where sacks of lime will absorb the carbon dioxide. The air will then be pumped back into the CA room.

TEMPERATURE is measured in several locations inside the room, including from an instrument stuck into an apple. The floor of the storage room is kept wet at all times, and the humidity there will always be between 93 and 95 per cent.

The building will handle about 3,000 bushels of apples in regular cold storage, as well as the 7,500 in CA. This building, along with the Joneses' others, brings their total capacity up to about 23,500 bushels.

Finishing touches on the building are being made now. Construction was started in late May. Refrigeration was handled by Willard Cable of Bath.

### Cut down trees at Central School

Several trees in the school yard at Central School were being removed early this week to make extra playground space.

Principal Walter Nickel said the space was needed to provide extra recreation and "stretch" area for 466 pupils at Central School this year. This is the largest number to attend Central and causes a shortage of classroom space as well as playground space, Nickel said.

## Farm Bureau sets annual meeting

Members and invited guests of the Clinton County Farm Bureau will gather at Smith Hall in St. Johns Tuesday, for the organization's annual policy development meeting.

County President Raymond Mayers will chair the all-important session. Other business to be brought before the members will be election of directors for the Essex-Lebanon and the Olive-Bingham districts, a proposed by-law change, election of delegates to the Michigan Farm Bureau Annual Meeting in November and consideration of proposed resolutions.

PRESIDENT Mayers will be assisted by vice-president E. J. Bottum and other members of the county board of directors and Mrs. John Flak, assistant county secretary.

David Morris of rural Grand Ledge, district director of the State Farm Bureau board, will speak to the group briefly as will Regional Representative Marlie Drew.

A POTLUCK dinner will be served at 7:30 p.m., and the business meeting is scheduled to get underway at 8:30 p.m.

Accordion Band at Baptist Church

The First Baptist Church will be host to Ann Schuitema's All Sacred Accordion Band from Muskegon, this Sunday. During the Sunday school hour and morning worship they will present the "Accordion Quartette" and numbers by teenagers. The regular Sunday morning message will be delivered by Pastor Peter Nieuwkoop. Then in the afternoon the entire accordion band will give a sacred concert from 2:30 to 3:30 p.m. There will be no admission charge for the concert and the public is invited to be guests of the church for this occasion.

### Answer savings bond questions

Question: I have been buying Bonds in my name, with my son as coowner, intending to use them to put him through college. I understand there could be a tax advantage if the bonds were in his name, with myself as beneficiary, and want to know if these bonds can be re-issued.

Answer: Yes, however you would be required to report and pay Federal income tax on interest that has accrued on the bonds up until the time of the change in ownership. From that point on, accrued interest would become income of your son for purposes of taxation. There would be no State or local income taxes.

Question: When is the most advisable or advantageous time to exchange E bonds for H bonds?

Answer: Whenever a need for current income arises, most commonly at retirement time. Through such an exchange, the principal is retained intact; accrued interest on the E bonds does not need to be reported for tax purposes until the H bonds are redeemed; and regular Treasury checks for interest on the H bonds are mailed every six months.

Question: Is it possible for a minor to redeem a Savings Bond issued in his name?

Answer: Yes, provided he is sufficiently competent to sign his name to the request for payment and understand the nature of the transaction. Generally, the fact that the request for payment has been signed, and certified by the paying agent, is sufficient proof of competency.

Hybrid grass with the vigor and leafiness of quackgrass and the drought resistance and better seed quality of crested wheatgrass may eventually become available to western ranchers and farmers, predicts the US Department of Agriculture.

# Rasey family finds fun in collecting antiques

BY MABEL M. OPPENHEER

Collecting antiques is a family project at the home of Mrs. Lawrence Rasey of 3293 Banner Road.

Her husband and two daughters, Mrs. Jerry (Dixie) Kosloski and Miss Bonnie Rasey, are interested, too. They have been collecting for 18 years.

Mrs. Rasey doesn't believe in having antiques as mere collector's items to be put on the shelf. "We live with them," she said. "I think everyone who buys them, should use them in their home and enjoy them."

SHE BUYS through want ads, auctions, private homes, or from people that she hears about having them.

"When I first started collecting," she told, "it wasn't unusual for me to go down the street carrying a table, a chair and anything else I could manage."

Mrs. Kosloski has many antiques in her home and Bonnie who is a student at Lansing Community College, has a keen interest in them.

WHEN DIXIE was asked if she could have her choice of any of the prized pieces which she would take, she chose a hutch that Mrs. Rasey has in her living room. The piece is not beautiful except to the eyes of a connoisseur who would be competent to appreciate its historic value. It is believed to be about 150 years old.

A child's "dry sink" that had belonged to a St. Johns family and used for holding a wash basin became a cherished piece when the coats of paint were removed and the finish restored. That is where Mr. Rasey comes in. "He does the hardest work of removing the paint," Mrs. Rasey said.

WHEN THEY returned from a trip to Canada where they had obtained many articles and Dixie again had her choice, she took an old wagon seat which she re-finished and uses now for a coffee table. Ingenuity and imagination are important in this business of antiquing.

Prized pieces may be any-

Mrs. Lawrence Rasey of 3293 Banner Road pours a cup of coffee from her prized coffee pot of porcelain and britannia into one of ironstone cups in the tea leaf pattern. On the wall are many kitchen utensils and below many, colorful canisters from an early era.

where. Mrs. Rasey, arrived late at an auction, picked up a table that was left unsold. Today, after a period of rejuvenation, the table is one of her most prized articles. She has had many opportunities to sell it but will not part with it.

A PIECE that she knew was old but did not know its function and bought anyway, proved to be a beaten biscuit crib from the 1865 era. It had been brought here from Las Vegas.

So many articles can be utilized for purposes that make real conversation pieces—like the all-wood grain scoop that she used in various seasons of the year filled with fruit or flowers.

STRIPPING and refinishing pieces take a lot of time. "While we both buy and sell, we couldn't

expect reimbursement for the time it takes to make a piece of furniture desirable," she said. But, the effort is rewarding when beautiful wood that is not to be obtained today shows up under coats of paint and varnish when removed.

She has a full set of rare ironstone dinnerware in the tea leaf pattern that she knows to be more than 100 years old. Although she has a fine cabinet in which to keep the dishes, she uses them when she has a family dinner.

SHE HAS a collection of dinner buckets which have been coveted by others but she says "I can't part with them."

She also has a large collection of porcelain coffeepots. She waited 11 years to finally persuade a woman to sell her a beautiful high

lustre porcelain and britannia coffeepot. This one she uses in summertime. She has another of equal beauty that seems more typical of fall and winter.

THE OLD homestead purchased by the Raseys some time ago makes a fine background for their antiques. The tenant house, which she uses for storage and show-room, was constructed by a carpenter for \$300 and he furnished the lumber. The woodwork is of solid chestnut.

"Antique dealers always ask 'What is the story behind this piece?'" she said. When she admits that she doesn't know the story they usually retort "Well, make up one then."

There are probably many unusual stories about every article that is antique but few of them are known any longer.

### Fire safety drills avert home tragedy

BY BETTY KETCHAM  
County Extension Agent  
Home Economics

School fire drills are accepted as necessary for the protection of your children when they are in school. But did you ever consider a fire drill at home for the protection of your family?

Fire killed 11,800 Americans last year, over half of them in their homes. And usually, the worst fires occur after midnight, when the family is asleep.

FIRES THAT begin downstairs shoot hot gases and smoke to the top floor very quickly. Even if there are no flames upstairs when you discover a fire, it may be too late for escape by the main stairway.

Home fire drills encourage you to plan how each member of the family can escape from his or her room without going into the main hall or without using the main stairway. It means you discuss the plan with the family and go through the motions of using that plan.

PRACTICE THE different escape routes you have planned. Be sure your family knows how to remove the screens, and the windows, get down to ground level, know how to use a ladder, etc.

If you actually go through these different escape routes you will have found the hazards and know how to prepare for them.

FIRST RULE in a fire is to get everyone out of the house—and keep them out. Then, call the fire department. Don't take time to

gather up belongings. Undetected gases can catch you.

Close doors behind you as you leave a room. This holds back the fire and fumes and protects you exist.

IF YOU smell smoke, don't rush into the hall. First, test the door to see if it's hot. Place your hand high on the door. If the door is hot, don't open it—you can't use the stairway.

If the door does not feel hot, open it cautiously. Hold your head away and brace the door with your foot. Put your hand across the small opening. If there is pressure from air, or if it is hot against your hand, slam the door.

If the hallway does appear safe, you can use it as an exit.

GIVE SOME thought to escape by window—it may be necessary. Perhaps you can keep a ladder in the garage so that someone could get to it quickly and help the children out of a window.

Or you might consider a rope-type ladder with wooden rungs, which is bolted to the baseboard under a bedroom window. This won't upset the decorating plans if you cover the safety ladder with a small wooden box and use it for a window seat.

YOUR PLAN should include a definite place for the family to meet outside, such as by the mailbox post or by a certain tree. This helps you check quickly on family members. How many times have you read about some one going back into the house to rescue someone that had already escaped?

You may never need to use an escape plan. But if a fire does occur, that plan may be the means of a safe escape for your family.

### Roast beef sandwiches star at fair

Hot roast beef sandwiches were the star attraction at the US exhibit of food products at the international food fair in Hamburg, Germany.

The US Department of Agriculture said demand for these sandwiches forced the US to expand its facilities almost immediately.

Other popular American foods offered included barbecued chicken and turkey, French fried potatoes, grapefruit juice, raisins, fruit salad, nonfat milk and chocolate milk.

### MSU artist to conduct art classes

Through sponsorship of the St. Johns Art Guild, James Dulemba, assistant professor of art at Michigan State University, will conduct a series of ten classes beginning Wednesday, Oct. 7.

The instruction will include representational painting and portrait work in oils. The class will be limited to 16 persons.

Mrs. Lester Jenkins is in charge of registrations.

### There are many ways to serve sweetbreads

Looking for a new flavor to change everyday menus into something special? Then serve sweetbreads. You'll find their flavor delicate and their texture entirely different from all other meats.

Sweetbreads offer unlimited menu possibilities. Because the variety meat is so perishable, it should never be stored without precooking and should be used within a day of purchase.

HERE ARE some of the ways the American Meat Institute suggests you serve sweetbreads: creamed with mushrooms and served in patty shells; browned in butter by broiling or pan-broiling and serve with tartar sauce or pickled orange slices; or use cold in a luncheon or supper salad.

### Most meats make wholesome salads

Meats make hearty salads—fine for summertime serving and good quickly prepared meals any time of the year. Almost any kind of cooked meat may be used, advises the American Meat Institute: fresh and cured pork, canned meats, cold cuts, franks, beef, veal, lamb and variety meats such as sweetbreads and tongue. Serve meat salads well chilled with hot breads as accompaniments.

### Protect that knife

A splendid way to ruin, permanently, the sharpness of a kitchen knife is to put the blade into a flame. Don't do it! It impairs the temper of the steel, makes it impossible to keep the blade sharp thereafter.

### Thrift for meats

If prices for juicy roasts and steaks are up in the sky, choose cheaper cuts. Experts say meat is meat—fancy cuts are no better for us than thrifty ones.

## English visitor finds school here interesting

There's an attractive new face in the senior class of Rodney B. Wilson High School this year. Pretty Anita Masterson, 16, of Wrayburg Buckinghamshire, England, who is making her home for a year with Mr. and Mrs. Earl Creese of 504 E. Walker Street, is learning American government there this year. She is also studying Spanish for the first time.

English government is not taught in her native school and she is finding the American school, fun. "I had to study harder at home," she said. But, her St. Johns teachers are not supposed to read that.

WHEN SHE returns home, she will return to a technical school for two years. She will be one of the graduates here next June but commencement will be an unusual experience for her because it is not a part of the scholastic procedure in her country.

Anita is studying here through the Youth for Understanding program, a plan designed to promote good will through better understanding between countries. Pat Creese, who is now a freshman student at the University of Michigan, spent the summer of 1963 in Anita's home on the program.

WITH PAT away at school, her brother, Dick, makes up for her absence. He and Anita share some of the same classes and many similar interests.

The English visitor says that teenager's activities are much more limited in her country and extra-curricular activities are less.

Dress is different in that shorts are not worn in public and tennis shoes are worn only for tennis. No Bobby socks are worn but she likes wearing them here.

SHE FINDS quite a difference in the way foods are served. And she does NOT like pizza!

She says that while Americans are speculating and campaigning for Goldwater and Johnson, her country is just as determinedly seeking to elect incumbent Doug-

las Home or Harold Wilson as prime minister. "Interest in elections is running much higher this year than for many years," she said.

"WE HAD difficulty in understanding Anita when she arrived," Mrs. Creese said, "but it's becoming easier all of the time." "One thing I have noticed," she continued, "is that she uses no slang and she is much more polite than most of our young people."

The only pangs of homesickness Anita has suffered came when she watched the Beatles on television. "The Beatles set a precedent for their haircut in England," she said. "But all the young men wear the same cut now. They are well-dressed, well-groomed, well-educated."

## Our doctors practice responsible medicine

It was not easy for Clinton County physicians this week to buck the trend and decide to postpone a scheduled countywide Sabin oral polio vaccine clinic. But it is another example of the responsible medicine that is practiced here.

While there has been a considerable clamor nationally favorable to the new-type immunization against polio, knowledgeable physicians have been somewhat apprehensive about its widespread use.

This apprehension was borne out to some extent last week when the US Surgeon General refused to endorse the use of the vaccine for persons over 18 years of age. The Surgeon General's statement was obviously based on conclusions reached after study of reports from use of the vaccine in clinics in many sections of the country.

PRINCIPAL objection raised against the vaccine is the fact that it is immunization with "living" viruses. Those who take it by mouth actually are infected with a mild case of polio. It is not necessarily harmful to the vaccinated person, but he or she can conceivably transfer the disease to another unprotected person.

It is this risk, particularly among the young who are most susceptible to polio, that Clinton County physicians seek to avoid. Here in Clinton we already have fully 98 per cent of our young protected against polio through Salk vaccine injection. This has been accomplished through school and pre-school clinics and inoculation by physicians in their offices.

In addition, our doctors estimate that 90 per cent of those adults of susceptible age are protected through the Salk injections.

IN POSTPONING the Sabin vaccine clinic scheduled for this coming Sunday, spokesmen for the Clinton County Medical Society have been careful not to condemn use of the vaccine here or elsewhere. But under the present circumstances, they want further information before they take responsibility for wide-spread oral immunization.

With nearly total protection against polio already accomplished here with Salk injection, they feel it is an unnecessary risk to administer the Sabin vaccine if its use is at all questionable. They urge that young people and pregnant women, in particular, continue to protect themselves against polio with Salk vaccine.

All of us who are concerned about community health salute the local medical profession for their caution in this instance. The possible risk involved seems to far outweigh the general good that might have been accomplished.

## Optimism is a reason for Baruch's continuing zest

On his 94th birthday, Bernard M. Baruch spoke some words that go far to explain his long years of good health and mental sharpness.

"Today and tomorrow," he said, "concern me more than yesterday . . . The future holds out infinite possibilities and promises for the perfection of democracy and for the improvement of life . . ."

BARUCH HAS not lost the precious gifts of curiosity and interest in life. He wants to know what the next turn in the road will reveal. He could look back and pine for the days that are gone, the days before income taxes and cold wars. He prefers to look ahead.

Those racked by longing for the past are captives of futility and regret. Those like Baruch, still stimulated by anticipation, are old only in years, not in influence and zest.

## 'Now If I Could Only Get Him to Take Care of the Yard!'

## RAMBLIN' with Rink

BY LOWELL G. RINKER

The bounteousness of agriculture this year has been amazing to me. Perhaps it's because my job here has brought me as close to agriculture as I have ever been. Maybe it's because I am hearing things about farm crop yields that I had never paid attention to before.

But maybe this isn't the reason, too. Everywhere I turn I read stories about what good yields people are getting on a certain crop, or people are telling about how many bushels a neighbor got out of a field.

I DON'T suppose in the overall picture, 1964 has been stupendously better than other years, but by and large people who grow things had a better than average year.

Wheat yields were average or a little over, and so were those of oats. Alfalfa cuttings were extremely heavy. Corn looks good, and beans were fair. Etc.

BUT THE farmers' crops were only one aspect of this year. We have gotten calls here at the paper from innumerable persons — nonfarmers—who were experiencing garden successes they never had before.

Back in early August, Fred Orson had sweet corn over nine feet tall in his garden on North Ottawa Street. Mrs. Clyde Swan-

son of near Maple Rapids had almost more prune plums on her one plum tree than the tree would hold.

MRS MITCHELL Hyler had tomatoes in her garden on Baker Street that were the size of small pumpkins. And just last week, John Hopp on North Lansing Street dug up the most potatoes he's ever had in his garden spot.

I know that the west side of the state had more cherries this summer than they knew what to do with. Mrs. Leon Budd told us last week in a letter about Paul Smith that "because of the tremendous crop (around Traverse City) and not sufficient marketing outlets, the trees, especially the sweet cherry trees, are brown and hanging full of decaying, unharvested fruit.

"EVEN THE birds have been unable to complete the harvest," she said.

I don't know that there's any meaning to this bountiful growing year or even that it is exceptionally good. I was in a rich agricultural area in Illinois, but I didn't really pay attention to the crops, and I don't know now how they were there this summer.

SO I'LL just let it suffice to say it's been a good year that we should all thank the Good Lord for.

—RINK

## Kipling— Up to date

BY W. E. DOBSON

"The East is East and the West is West," So Kipling once did say, And folks sort of let it go at that For want of a better way; The east and west were far apart, In fact as well as deed, But Kipling did not live in days Of super-sonic speed.

The East is East—up to a point But points are mobile things, And modern politicians All have Buck Rogers wings; They hover in thin atmosphere, With papers on their hip, To prove that they are residents Where'er they chance to dip.

The East is East—but easterners With missionary zeal Are quick to help in time of need, Some party wounds to heal; Adept at modern camouflage Their colors change in flight, They become old-residents Bona-fide—and overnight!

"The East is East and the West is West" And never the twain shall meet, So Kipling said, but Kipling Never had it quite so sweet; He was no opportunist, In a modern political way, Or he would know that votes are votes Wherever found today.

# Health is our greatest concern

IF YOU WERE TO ask me what one item is of greatest general concern to the community, I'm sure my answer would be — "health."

This is true today, I'm sure it must have been uppermost in the minds of those generations of Clinton County people who have preceded us.

Here at The News, we've made it our business to keep reasonably informed on matters of community health and to participate when we can in activities which give us a wider view of the whole spectrum of new developments in the health field.

LAST WEEK this interest occupied two days and a full evening of my time. The two-day session was in Ann Arbor, sponsored by the University of Michigan Press Club, and included a series of presentations by the research staff at the U-M medical center.

The evening meeting was at St. Lawrence Hospital in Lansing and involved interested health people from the Clinton-Eaton-Ingham area. Their concern is with voluntary hospital planning to meet tri-county needs.

Speakers included Robert Spencer, assistant to the director of the Detroit Area Hospital Planning Council; Joseph Homminga, Hill-Burton director with the state health department; Walter Averill, chairman of the Michigan Hospital Association's planning group; and D. Eugene Sibery, Blue Cross hospital consultant.

All of them stressed the importance of coordinated planning among all of the community's health agencies to provide proper medical care units. Emphasis is on economy through unnecessary duplication of expensive equipment and facilities.

BY FAR THE most dramatic experience of the week was a slide-illustrated lecture by Dr Paul W. Gikas, researcher at the U-M medical center, on fatal auto accidents. Dr Gikas and a fellow medic, Dr Donald Huelke, are making a continuing study of traffic deaths and they come up with these important statistics and observations:

1. At least 39 per cent of the 40,000 persons killed in auto accidents in the US last year could have been saved by seat belts.
2. Of the 126 persons killed by being thrown from their cars in Washtenaw County during their study, 32 could have been saved by seat belts.
3. More than half of the drivers involved in fatal accidents had been drinking and most drunk drivers get in trouble because they fall asleep.
4. Steering wheels and exposed knobs are lethal weapons in cars and auto manufacturers should do something about recessing them as much as possible to prevent fatal accidents.

DR GIKAS SAID the test of whether a motorist could have been saved by a seat belt was made by measuring the space available to him if he had been held in place by a belt, rather than thrown from

the car or into some other more seriously damaged section of his vehicle.

He pointed out that seat belts are most effective in and near towns where cars are not moving at top speeds. Most fatal accidents, he finds, happen within 25 miles of a driver's home.

He particularly recommends seat belts or harnesses for youthful passengers. "Children fly around cars like volleyballs during an accident," he said.

It was a most convincing presentation and the message was unmistakable: "Use seat belts if you have them. Get seat belts now if you don't have them." Barbara and I fastened our often unused belts on the way home from Ann Arbor Saturday.

THE UNIVERSITY'S exhaustive study of the history, living conditions and diseases of most of the 10,000 residents of Tecumseh was outlined by Dr Thomas Francis Jr. It is Francis who won renown for keeping records on the success of the Salk polio vaccine.

He said that the purpose of the Tecumseh study is to "find out who has what in the way of essentially irreversible disease and why in a normal community."

"We are on the threshold of new information and understanding the causes for prevention of such chronic troubles as coronary heart disease, diabetes, hypertension, chronic pulmonary disease and rheumatoid arthritis," Dr Francis said.

In the early stages of the study, researchers have discovered that many of these common maladies are interrelated. Interviews with Tecumseh residents reveal 20 per cent with coronary heart disease; that more women than men have rheumatoid arthritis; more men than women have chronic bronchitis; and about 40 per cent have one or more of the diseases.

Contrary to popular belief, the researchers have found no definite correlation between the cholesterol level and coronary heart disease. They do find that rise in blood sugar is closely associated with heart disease, and blood sugar levels tend to rise with age.

THE NEW two-year medical school at Michigan State University was the subject of considerable discussion and is of special interest to Clinton County people. Dr William N. Hubbard Jr., dean of the U-M medical school, suggested that the MSU facility might be expected to become a four-year school within a decade or so.

"Patient resources," the technical term for "hospital beds," will be the greatest limiting factor for the MSU school, Dr Hubbard said. He pointed out that the U-M school required 3,500 hospital beds in the Ann Arbor-Detroit area to provide teaching material for a class of 200 graduating medical students per year.

All of this suggests that nearby hospitals, like Clinton Memorial here, could provide clinical facilities for the MSU project.

Federal-Mogul officials said this week it is impossible to estimate accurately at this time the extent of damage suffered Saturday afternoon from trichlorethylene fumes. The toxic fumes spread throughout the plant from a degreasing pot containing the solvent. Apparently a gas unit used to heat the pot had been left burning.

Harvest Moon Signals Nearness of Corn Harvest

"Heap high the farmer's wintry hoard! Heap high the golden corn! No richer gift has Autumn poured from out her lavish horn!" So said poet John Greenleaf Whittier. The recent harvest moon silhouettes perhaps the most important crop from Clinton County's lavish horn, a good crop of corn which will be harvested within the next few weeks.

MICHIGAN MIRROR

State House, Senate getting new look for '65

BY ELMER E. WHITE Michigan Press Ass'n.

Legislative chambers of the State Capitol will be new to all in January, not just the many freshmen members of the House and Senate.

Both houses are undergoing major renovation this fall from the floors up. In the House, the torn and faded carpet which covered the floor nearly 35 years was removed to disclose the need for complete new flooring.

THE SENATE carpeting is a little newer than that in the House but will also be replaced while the Senators' desks are sent to the Ionia Reformatory for refinishing. House desks are getting the same treatment.

Improved electrical wiring for the House voting machine and both chambers' public address and telephone systems also are slated as part of the mammoth project.

WORK BEGAN early this summer in the 110-seat House, but desks were still in place in the Senate in mid-September, prompting some observers to question whether that chamber will be ready for occupancy early in January when the session begins.

A major argument for continued increases in state aid to higher education is seen in a comparison of public versus private college enrollments, say those in the field.

THE DEPARTMENT of Public Instruction notes that another increase was recorded this year in the percentage of students being educated in public institutions.

Michigan already ranked second only to California in this count before the 1964 school year began. Opening enrollment estimates were that 79.5 per cent of Michigan's college students were attending public institutions.

JUST THREE years ago public institutions provided educations for 77.9 per cent of the total state enrollments, while private facilities had 22 per cent of the students.

With 10 four-year degree-granting institutions publicly supported and 18 community colleges of a public nature, department spokesmen are preparing for an appeal to the 1965 Legislature to increase state support to higher education on a parallel with the enrollment growth.

\*REALIZING that the demands of society for college-trained youth are greater than ever before, we can ill afford to deny fully capable students the higher education and training that their potential warrants and industry demands of them," says Supt. Lynn M. Bartlett.

The value of "federal aid" projects frequently comes up for debate in an election year.

ONE PARTISAN, Don Kinsey of the Michigan Farm Bureau, says the benefits derived from federal aid should be considered in view of its origin.

Michigan receives an overall amount of \$176.3 million in federal funds for various purposes, says Kinsey. "Michigan people cough up \$233.8 million a year to the federal tax collector," he said, on the basis of 1963 US Treasury Dept. figures.

"This is a payment of \$1.33 for every dollar returned to Michigan so the question becomes 'Who aids who?'" said the bureau spokesman.

BOOMS in community expansion must be seen well ahead of their occurrence, according to a recreation planning expert.

G. Leslie Lynch, planner for the National Recreation Assn. in New York City, says planning and acquisition of land for recreation and school sites must be done five or more years in advance.

"The planning and acquisition of recreation lands and school sites should be at least five years ahead of the development," he says. "The planners, and not the developers, should determine the pattern of our urban areas."

COUNTRY FLAVOR

There's much meaning to month of October

HAYDN PEARSON

Colors flame on the heights and across the valley woodlands. Green that has clothed the countryside since last spring changes to a heartlifting scene of beauty. Chlorophyll drains from the leaves, and the reds and golds, wines and purples, browns and bronze paint a picture that resembles an Oriental rug.

This is the climax of Year's color. There was beauty in the spring and loveliness during the summer, but now for a brief, poignant interlude, all the glory of Nature bursts in one spectacular effort. Autumn in our climate is unique. Only one small region in Asia and another in North Korea can begin to equal the breath-stopping display.

THERE IS deep and fundamental meaning in this period. It means the fur is thickening on animals. The snowshoe hare begins to turn white and the sounds of insect life begin to fade into the silence of the cold time. Frogs burrow into mud banks of streams and ponds, and turtles hole in for the winter.

Street lights glow through the color of turning leaves, and home

TOO often, Lynch notes, community planners are hesitant to submit honest recommendations for community recreation because of apparent inadequacy of funds.

"The fact that there is no vacant land in the neighborhood must not keep us from declaring that 10 acres is needed for a recreation area," he said.

"We are standing on a firm foundation when we recommend the expenditure of large sums of money to provide public recreation services and facilities."

IN GROWING communities the advance planning is all-important, Lynch says, because lack of public open space is often one of the principal reasons for urban renewal needs in established cities.

The recreation spokesman contends that adequate recreational facilities are guaranteed by the constitution as a part of man's pursuit of happiness.

"Any nation that spends annually over \$50 per capita for alcoholic beverages and over \$30 per capita for tobacco, can well afford to spend \$6 or \$7 per capita each year for the operation of park and recreation services," he said.

County teacher at 3-day workshop

Eleanor LeFevre of the Clinton County school system has been invited to attend the 20th Annual Visiting Teacher Workshop at Boyne Falls Oct. 8, 9 and 10. Focus at this annual meeting will be on new trends of working with the emotional needs of school children.

Case studies will be presented in study groups during the three-day conference.

Bement Library Book Shelf

By Elizabeth Millman

Written in his own hand, and finished only weeks before his death, "Reminiscences," by General Douglas MacArthur covered more than a half century of modern history. He served under eight Presidents. He was honored as few men have been. His life span reflects this nation's military history, battlefield by battlefield. "Reminiscences" is the story of our times.

Six more volumes of the series, "The World and Its Peoples," have been received. These include two volumes each on Italy, Germany and Japan. Others in the series cover Great Britain, France, Spain, and Russia. The books are prepared by an impressive editorial staff. They include descriptions of the fine arts, literature, music and theatre of the countries as well as the history, topography and the people. They are beautifully illustrated in full color.

THE FBI, one of the most famous, and generally the most trusted, arm of the federal government, comes in for some criticism in the book "The FBI Nobody Knows." While crediting the bureau with many achievements, author Fred J. Cook cites many areas of FBI methods that

are questionable. Much of the material comes from interviews with FBI operatives, and much from documentary evidence collected over years of study. The book is a controversial portrait of a powerful branch of our government.

"Brahms Symphony No. 1" played by the Boston Symphony Orchestra is the latest addition to our record collection. Played by that aristocrat of orchestras, Brahms music refreshes as it weaves its spell. The Library has many fine recordings of classical music for loan.

THE BOOK, "The Spy Who Came in from the Cold," by LeCarre continues to hold first place on the best seller list in the New York Times Book Review. This book is a real thriller.

Other books from the list include, "The Rector of Justin" by Auchincloss, "Armageddon" by Uris, "Julian" by Vidal, "This Rough Magic" by Stewart, and "Convention" by Burdick. These are all good reading, and they can be borrowed from the Bement Library.

O'Connor winner in DCPA contest

James O'Connor of R-2, St. Johns, has been declared one of the top winners in the Dairy Cow Protective Assn. contest at Chicago.

He won a 10-pound prime beef roast and an electric carving knife. To become a top prize winner, he accumulated bounty points in his sale of pipeline milking equipment and large vacuum pumps to dairy farmers in Clinton County.

The DCPA contest runs nationally among Surge dairy farm equipment dealers throughout the United States and Canada.

THE MORNING I PLAYED

Hooky...

THE CHURCH FOR ALL ALL FOR THE CHURCH This picture will always live in my memory. It was Sunday morning, and I was about eleven years old. I was on my way to Church School when I met Tom Snyder. It didn't take much urging for me to join him in a fishing expedition. I had always thought it would be fun to play hooky. It came as kind of a shock that it wasn't. I was downright uncomfortable, sitting there with my line dangling in the water. I kept thinking about how nice our Church School teacher had been to me, and about how my parents would be looking for me in Church. And pretty soon I found that inside me I was wriggling. I think that's the first time I ever realized I "ought" to do anything. I didn't catch a fish that morning, but I did learn a big lesson. I learned that there is very little honest joy in doing something you shouldn't be doing. I learned that we have a certain duty to God and to ourselves, and that we can't be happy when we turn our backs on it. From then on, my Church School attendance was 100%. Now that I'm older, I try to maintain that same record. Sunday means the Church to my family.

Table with 7 columns: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday. Rows for Acts, Romans, Corinthians, Galatians, Peter.

What's Different About The Baptist Church? The Baptist church is different because of the simple Gospel that is preached. If you attend the preaching services and compare what you hear with your Bible you will discover that we are still preaching the same Gospel that you find recorded in your New Testament. You will hear sermons on salvation, telling you how you can be saved. You will hear about the reality of heaven and hell. You will not only hear preaching against "sin", but you will be taught what sin is in the sight of God. You will hear of God's judgments in no unmistakable terms. Sinners will be urged to turn their backs on sin and place their faith in the Lord Jesus Christ. Invitations to accept Christ are frequently given, even in the Morning Service. Your messages will come to you directly from the Holy Bible. There will be no travelogues, book reviews, parroting of higher church dignitaries, no excerpts of conference highlights, but an understandable message from the Bible. MICHIGAN FARM BUREAU

There appears to be "fruit on every bough" in Michigan.

That, so far at least, is the story in our state where the apple blossom is the official flower and where those blossoms have turned into tons of fruit.

A good crop is always welcome even if it can mean big headaches for orchardmen.

Price and how best to get it, is the problem.

HOW MANY APPLES in Michigan? The official USDA estimate of the number of bushels hanging on trees of the state adds up to a gigantic 18.5 million bushel crop. This compares to last year's short crop of 12 million bushels.

Further, there is a saying among fruit farmers that "a small estimated crop grows smaller, while a big crop in the final count grows larger."

The big-crop story is much the same in apple-growing areas of the United States where with few exceptions, the crop is larger than most. Colliding head-on with the big new crop is a heavy "carry-over" of apple sauce, up by 24 per cent from last year.

ADDING TO THE price-pressure is this year's excellent cherry crop, largest in Michigan history. There were more cherries produced in Michigan this year than the total national crop last year!

Even though Michigan apple farmers face special problems natural to a highly perishable farm commodity, they have a background of success in promotion and sale of Michigan's "Flavorbest" apples. Leading in this effort has been the Michigan Apple Commission and private sales agencies.

AGAIN THIS year, apple growers are working together through the Apple Division of the Michigan Agricultural Cooperative Marketing Association (MACMA),—pledged "to direct our member's apples to their highest value use."

In other words, to market for the most money—a big job, and one that bears a multi-million dollar price tag in farm income.

Apple men take heart from last year's successful efforts which brought Michigan farmers processing-apple prices averaging second only to those of California, highest in the nation.

Mashed, Baked, Boiled or Fried?

John Hopp of 203 N. Lansing Street, St. Johns grows potatoes in a backyard garden as a hobby. This year he had a bumper crop—over six bushels out of the 42-by-21-foot garden spot. It's the best potato year he's had, with the 99 hills yielding up to 10 large potatoes each. Five of the large potatoes weighed over seven pounds. His investment was a half bushel of Irish cobbler last spring.

**Molybdenum helps  
spark some soils**

ON CERTAIN deficient soils, yields of some crops can show spectacular increases with addition of the element molybdenum. Most outstanding is the increase in red clover seed production.

University of Wisconsin soil scientists K. C. Berger and G. R. Hagstrom tested this trace element on two soils known to be low in molybdenum. Red clover seed yielded 15 times more when the trace element was added to the soil. Plots without molybdenum treatment produced only 3 pounds of seed per acre.

ON PLOTS where molybdenum was added, separately or with lime, yields were 45 to 55 pounds of seed to the acre. Untreated plots flowered poorly which accounts for the poor seed set.

Plants need molybdenum in very small amounts, and it can be a problem applying it evenly and at a low rate. Berger and Hagstrom soaked the seed in a one per cent solution of sodium molybdate before planting.

RESPONSE OF peas and sweet corn to molybdenum is not quite as spectacular as response of red clover, but it promises to be a worthwhile practice on deficient soils. Peas almost doubled in yield when two ounces of sodium molybdate per acre were applied to the seed. Nitrogen content of peas also went up when molybdenum was applied.

Sweet corn yields went up 40 per cent when 13 ounces of sodium molybdate per acre were applied.

When applying trace elements in small amounts, it's a problem to get the material on uniformly through the crop. The researchers used different methods, but found wet seed treatment to be the best, followed by leaf sprays and seed dusting.

SOIL SCIENTISTS believe that molybdenum is tied up in acid soils and can be released by reducing acidity with lime. However, on the soils used in these experiments, researchers found that lime alone didn't increase crop yields of corn, peas or red clover any significant amount. Molybdenum alone or with lime did the job.

Another problem with molybdenum is getting too much on the soil and causing a toxic effect on animals that eat the crop. The researchers say that none of the applications they used produced amounts of molybdenum that would be toxic to animals.

The average value of land and buildings per farm in continental US as of March 1 this year was \$47,950, ranging from \$14,300 in West Virginia to \$408,600 in Arizona. States above \$100,000 were Arizona, Nevada, California, Florida, Wyoming and New Mexico, in that order.

**New Extension

A number of new publications have been announced by the Cooperative Extension Service of Michigan State University. Copies of the new titles are available from the Clinton County Cooperative Extension Service office or by sending a postcard to the Bulletin Room, Box 231, Michigan State University, East Lansing.

The following titles have recently been printed:

E-466, UREA Corn Silage for Dairy Cattle; E-470, Control of Storage Scald of Apples; E-472, A Health Record System for Dairy Herds; E-473, Pre-Harvest Drop in Apples; E-459, How to Make Group Discussions Click; CMI-59, Buying Squash and Pumpkins; RR-17, Factors affecting the Number of Cracked Eggs on Michigan Poultry Farms.

A complete list of more than 500 publications dealing with farm, home and community topics is also available. Ask for a copy of "Available List of Michigan State University Publications" from the county Extension Service office or the address listed above.

Is saving that much per acre good enough reason for using our Anhydrous Ammonia this fall? We hope so. Particularly when you know that Anhydrous Ammonia from Dow is the most concentrated form of nitrogen you can buy—82%. You can save as much as \$6 to \$8 an acre by using a fertilizer program we can recommend. Apply it to soil now in the fall when you're plowing down summer crop stubble. It won't leach out over the winter. Come spring and it will release needed nitrogen into the soil. Crops will develop stronger roots with more resistance to drought. Have a higher protein content for feeding. Do right by your wallet and your crops with Dow Anhydrous Ammonia. We have it—all you need.

**CONCRETE  
MASONRY**

"Grade A" sanitation is easier. A concrete masonry barn is simple to keep spotless, ready to pass any inspection. Hard-surfaced walls wash down easily. The barn stays draft-free and dry in all kinds of weather.

More pigs per litter. A concrete masonry farrowing house is the modern pork producer's maternity hospital. It's easy to sanitize and keep disease-free.

Today's concrete masonry has new versatility. It is made with a variety of aggregates and, for decorative uses, there are new shapes and patterns. Construction is quick, too, with concrete masonry. Every time a block is laid, nine-tenths of a square foot of wall is built.

Moderate in initial cost, concrete masonry lasts a lifetime with little upkeep. It's easy to insulate. There is no rust, no rotting. Weather, rodents or termites can't hurt it. And there's extra fire safety.

**Continuous use of corn for silage is bad for organic matter in soil**

Michigan farmers who grow corn on the same fields year after year and continuously harvest the crop as silage are risking a shortage of valuable organic matter, reports E. J. Benne, Michigan State University biochemist. Benne and his colleagues recently completed a study of a field of mature corn plants to find out just how much organic matter is returned to the soil when different harvesting methods are used.

HE FOUND that crops that yielded 60 to 90 bushels per acre harvested with a picker or picker-sheller would help maintain an adequate organic matter supply if residue is plowed under.

But if the crop were harvested as corn silage, only about one-third to one-half of the required amount would be returned to the soil when the corn stubble is plowed under.

THE MSU scientist points out that about 1,000 to 1,500 pounds of organic matter has to be returned to mineral soils each year in order to maintain proper tilth, water holding capacity and support of micro-organisms which release nutrients for plant use.

Farmers who grow continuous corn and harvest it as silage each year have two alternatives for maintaining these desirable physical characteristics in their soil: (1) they can plant rye in the fall and plow it under before corn planting in the spring; or (2) they can put about 30 tons of animal manure on each acre.

THE HIGH application rate of cow manure is necessary because about 80 per cent of the manure is water.

Benne drew these conclusions after first estimating how much organic matter is lost from the soil each year under average conditions. He noted that an average plow acre—the total weight the 6 2/3-inch surface layer on an acre of land—weighs about two million pounds. About 5 per cent of this, or 100,000 pounds, is organic matter. And about one to one and one-half per cent, or 1,000 to 1,500 pounds of the total organic matter is lost from the soil each year.

THE MSU biochemist also noted that only about one-fourth of the corn residues plowed under could be considered "permanent" organic matter which would remain in the soil at least until the next season. In other words, two to three tons of corn crop residues per acre would have to be plowed under in order to obtain adequate soil physical characteristics.

If corn is harvested with either a picker or picker-sheller and then plowed under, a little more than a ton of organic matter would remain in the field for the following year. And this would be more than enough.

BUT, IF THE crop is harvest-

ed as corn silage which is cut about six inches above the ground only 434 pounds of organic matter would remain in the soil for the following year if the stubble is plowed under. In this case, additional organic matter would have to be added to the soil by plowing down a green manure crop or adding animal manure.

While these findings offer some good general rules of thumb, says Benne, they should not be considered as hard, fast specifications. For example, the rate at which organic matter escapes from the soil can be affected by temperature, rainfall, drainage, soil aeration, cultivation practices, soil texture and climate effects. And all of these can vary both locally and regionally.

CONSEQUENTLY, it is not possible to figure out exactly how much organic matter must be added to the soil each year in order to insure an adequate supply. But, comments Benne, farmers should start suspecting an organic matter shortage whenever they see that the physical properties of their soil are not up to par.

**FB women's committee has meeting**

Farm Bureau Committee Women representing 22 groups, met Sept. 22. Roll call was answered by "Something Special I Did This Summer."

President, Mrs. Kenneth Geishaver read letters she had regarding the termination of Mrs. Marge Karker from the state office as women's coordinator.

Mrs. Lewis Babbitt, county citizenship committee chairman, gave a report on "Know Your Candidate" meeting held at Smith Hall before the primary election.

MRS ANNA Simcox reported on the cancer committee, saying there are two new cases in the county requiring many dressings.

She told of a gift of \$7,000 to the cancer fund, but because the "will" did not specify it to be used in Clinton County especially, it could not be kept in the County fund. Anyone wishing to give such a gift should specify where it is to be used.

Mrs. Dorothy Ward gave a report of the Saginaw Terminal dedication Sept. 5. John Hall, St. Johns' Co-op manager, chartered a bus and 37 Farm Bureau and Farm Co-operative members made the trip to Saginaw together.

PLANS FOR District No. 5 meeting of Committee Women were made. Clinton County Farm Bureau Women are hostesses at Smith Hall Oct. 12. Registration and coffee hour will be at 10:00 a.m. Reservations should be made at the county office before Oct. 7.

State Equalized Valuation per membership student \$18,042

### STATEMENT

Increases in all phases of school operation were noted in the 1963-64 school year. The school census increased from 1127 in 1963 to 1209 in 1964. School membership increased from 425 to 463. A total of 597 elementary students were enrolled in parochial schools within the district.

Total general fund revenues increased from \$170,281.96 to \$176,300.34 and expenditures increased from \$164,360.97 to \$183,363.59.

Twelve school buses transported 825 students to and from schools in the school district. Two buses made extra kindergarten runs at noon hour. A total of 100,713 miles were traveled by all buses during the school year. The total state reimbursement for transportation for this year was \$21,114.12 and total expenditures amounted to \$23,208.51. A new 66-passenger school bus was purchased in the fall of 1963 at a cost of \$6,892.00.

The state equalization of the district dropped from \$8,790,879.00 to \$8,353,481.00, last year. This represented a loss of \$3,499.18 in operational tax monies.

Regular meetings of the Board of Education are held on the second Monday evening of each month at 8:00 p.m. in the library of the high school.

Lots of Jack-o-Lanterns Here

Lots of jack-o-lanterns and lots of pumpkin pie. Whichever you want, Warren E. Dobson on Wood Road in DeWitt Township has it. The County News' editorial page poet has a 30-acre farm, and one of his small fields is chock full of pumpkins, some small but most of them huge. He expects to harvest about five tons of pumpkins from the field this year.

# Do Your Part for FIRE PREVENTION

## FIRE PREVENTION WEEK Oct. 4 thru Oct. 10

## CHECK YOUR HOME FOR FIRE HAZARDS

Here Are Some of the Things You Can Do to Protect Yourself and Property

- ★ Keep matches out of the reach of youngsters and remember to use safety matches rather than the "strike anywhere" kind.
- ★ Turn off the stove before cleaning.
- ★ If frying meat catches on fire, cover the pan with a tight metal lid until fire is smothered. Baking soda can be used to extinguish the blaze when an approved fire extinguisher is not available.
- ★ Avoid placing paper or other flammable materials on the stove or near the pilot light.
- ★ Since many plastic materials are extremely combustible, avoid using them near fire. Take special care that children do not play near open flames with flammable toys.

- ★ Be sure there are plenty of ashtrays throughout the house.
- ★ Place metal screens in front of fireplaces and make certain that small children do not play too near the open flames at anytime.
- ★ Arrange articles in the basement a safe distance from heating units. Dispose of combustible waste promptly.
- ★ Select an approved iron with heating control and provide a metal stand for the iron.
- ★ Use a flameproof ironing board cover and avoid putting an iron flat on the board, even with a stand under it.
- ★ Turn off the iron if you leave, even though you may be gone just for a couple seconds.
- ★ Take special care of all electrical appliances and never buy an appliance without an approval seal of an authorized testing laboratory.
- ★ Make sure the furnace room is clean, especially near the heating unit. Ashes should be placed only in metal containers.
- ★ Faulty chimneys generally can be grouped as those which were not built properly and those which have become defective from lack of care.
- ★ Clean eavespouts and troughs. Dry leaves and other foreign matter tend to hinder good drainage and are fuel for stray sparks or a piece of burning soot.
- ★ Today's electrical living requires up-to-date wiring systems. Fuses are "safety valves." The normal household circuit requires only 15 ampere fuses or circuit breakers.
- ★ Never run extension cords under doors to adjoining rooms, or under rugs.
- ★ Never use gasoline or any other inflammable liquids for dry cleaning. The escaping vapor may linger in the basement or along the floor for days just waiting for a spark to set it off. It is wise to keep gasoline out of the home entirely.
- ★ Keep fire extinguishers handy, according to the type and size of the hazard. Keep them inspected and filled at all times, have them checked at least once a year.

Sparky says:  
**If Fire Strikes  
Your Home...**

GET OUT of the house the minute you discover it or smell smoke!  
**ALWAYS** be ready to use different escape routes from any room in your house!  
**TEST** doors before opening. If doors are hot, block them with furniture or wet mattresses to keep out smoke and gases. Get out another way!  
**NEVER** jump from upper-story windows except as a last resort! Wait for firemen.  
**HOLD** your breath if you have to make a dash through smoke and flame!  
**REMEMBER**, the air is usually better near the floor in a smoke-filled room!  
**CALL** the fire department at once! They know how to fight fire. Don't waste your time or your life trying to fight a fire, unless it's so small you're sure you can control it with the right extinguisher.  
**DON'T** ever go back to a burning building for any reason! Smoke and fire gases from even the smallest fire can be deadly.  
**GET** medical treatment at once, if you're burned or exposed to fire and smoke! Seemingly minor burns or smoke inhalation can have fatal results.

**DON'T GIVE FIRE A PLACE TO START!**
