ST. JOHNS, MICHIGAN Thursday, October 22, 1964

3 SECTIONS — 34 PAGES

TEN CENTS

Bill Robertson (standing), former manager of Federal-Mogul's St. Johns plant, has words of greetings to teachers at the BIE Day luncheon Monday at St. Joseph School before introducing the main speaker, Frank Churley, at his left. Others at the speaker's table are Father Edwin Schoettle of St. Joseph

Church; Earl Lancaster, superintendent of schools and master of ceremonies at the dinner; Robertson; Churley; Bernard Feldpausch; Basil Deibert; Dr Herbert Oatley; Don Gilson; Jack Irish; and B. Stanley Pocus. Over 200 persons heard Churley speak.

City won't kill liquor balloting

Propositions on the sale of liquor-by-the-glass in St. Johns and Olive Township will apparently reach the voters Nov. 3, despite threats of legal action to remove them from the ballot.

In St. Johns, the city commission Tuesday night decided to leave the question to the courts. In Olive Township, Clerk Hilary Simon has done the same thing.

In each case, the clerk acted upon his recommendation in not removing the proposal from the ballot.

"A VALID petition was filed," Green said, "and there was no alternative but to proceed and submit the question to the electorate." He said that if there was any action taken after the election to challenge it, then as attorney for the board he would go into the matter more deeply.

GOVERNOR ROMNEY
Coming Next Wednesday

Romney coming here Wednesday

Gov. George Romney will lead a Republican campaign blitz through 34 southern Michigan cities next week. He will be in St. Johns for a Clinton Avenue appearance Wednesday, Oct. 28, at 2:15 p.m. for an approximate half-hour stay.

House Speaker Allison Green, Republican candidate for Secretary of State, and Meyer Warsawsky, Republican candidate for Attorney General, are scheduled to accompany the Governor.

OTHER statewide Republican candidates and local Republican nominees are expected to join the blitz caravan as it makes its way through the 34 cities in a three-day tour.

The caravan is to start from Detroit at noon Tuesday, traveling through the Thumb and winding up for an evening rally at Caro. The blitz will begin at Saginaw at 7 a.m. Wednesday and then head south through central Michigan for an evening rally at Charlotte.

The final day will be spent in southwestern Michigan.

The letter to St. Johns officials was signed by James R. Boyce of 705 N. Oakland. The letter to Simon was signed by (Mrs) Mary M. Lietzke of R-2, DeWitt.

THE LIQUOR - by-the-glass proposal will be voted on in four places in the county Nov. 3 — St. Johns, Bingham Township, Olive Township and Bath Township. Only the elections in St. Johns and Olive have been challenged. An organized effort to defeat the proposal at the polls is reportedly being made in Bath.

St. Johns City Atty. Harold Reed advised the commission Tuesday night that "whether or not this question is left on the ballot or taken off is a judicial question and should be decided by court, not the city."

REED ADVISED that the city commission remain impartial on the matter, and the commissioners did.

A bigger than usual crowd of interested persons attended the meeting.

Attorney Timothy Green, representing Olive Township, said

THE IDENTICAL letters claimed proper notice of the election was not given. Clerks are given, by law, 10 days after the filing deadline for petitions to publish a notice of election, they contend. The notices did not first appear until Sept. 17, a week after the apparent Sept. 11 publication deadline.

Red Cross chairman speaks at Rotary

The importance of the Red Cross blood bank to Clinton County people was explained to St. Johns Rotary club members at their Tuesday noon meeting. Speaker was Richard Newman, chairman of the Clinton County Chapter of the Red Cross.

To illustrate his talk, Newman showed a new French film, "River of Life," which demonstrated the numerous new developments in medical technology.

May ask court to stop Ice Pond cost spread

The City of St. Johns is considering going to court to stop the county drain commissioner from apportioning the accumulated costs of the now-defunct Ice Pond Drain to those in that drainage district.

The city would be billed for about \$1,700 as their share of the costs—about 28 per cent. Roughly \$6,000 in costs of the drain accumulated before a court injunction stopped work on it. Interest continues to grow on that amount.

CITY representatives on the county board of supervisors announced that possibility at the supervisors' meeting Friday. CITY Atty. Harold Reed said Tuesday the city is still considering the suit and that it is a "good possibility" they'll go ahead with it.

The suit would be filed in circuit court within a week or so if the city decides to go ahead.

BACK IN AUGUST, when the county board voted to spread the costs to the district, the city representatives led the fight against it. Supervisor Ken Greer said then he thought the signers

of the petition should be held liable for the cost.

The vote in August to spread the assessment to the district was a narrow 10-9 in favor. It authorized the drain commissioner to proceed along those lines.

THE CITY representatives—Greer, Reed, Charles Coletta and Lorenz Tiedt, with Greer and Reed leading the way—made a legal attack on the apportionment of the costs. They said the court injunction prevented "any further action" on the Ice Pond Drain.

The claimed that "any further action" would include the assessing of any tax against any of the parties." Attorney Timothy Green, appearing on behalf of Drain Commissioner Dale Chapman, said he thinks the spreading of the assessments is not further work on the Ice Pond Drain.

REED TOLD the supervisors the city was objecting for two primary reasons: 1) there was no valid hearing on the assessments because the city was not properly told about the hearing; and 2) the statutes say apportion-

ment should be made in proportion to the benefits derived.

The city derived no benefits, Reed said, and should therefore not be assessed.

THE DISCUSSION came up during talk on the new county budget. The budget was approved, with only the city representatives voting against it. (See additional story.)

Reed said Tuesday the city would have to pay the \$1,700 from the general fund, if the costs are allowed to be apportioned. The city, he said, instead wants the costs spread on the county at large.

The cost to city residents then would be about \$800 or so in county tax, about 16 per cent of the cost.

REED SAID the hearing of the suit in circuit court would be complicated somewhat by the need of a visiting judge. The resident judge, Leo Corkin, sat in earlier legal consultations concerning the Ice Pond Drain and thus could not hear the case.

Rally scheduled at Elsie School

Third District Congressman August E. Johansen will be the principal speaker at a Republican rally sponsored by the Duplain Township Republican Committee at the E. E. Knight Elementary School in Elsie Tuesday, Oct. 27, at 8 p.m.

The Battle Creek Congressman has served the district since 1955. Under the new congressional apportionment, he represents all of Clinton County except Bath and DeWitt townships.

AUGUST E. JOHANSEN
To Speak at Elsie

CLINTON Republican Women are holding their October meeting in conjunction with the Duplain rally. They are inviting their husbands to attend the affair.

In charge of arrangements for the rally is Robert Moore, chairman of the Duplain Township Republican Committee.

Jailed for driving on suspended license

Michael E. Purtil, 18, of 12322 Greenfield Drive, Lansing, was given a two-day jail term and was fined \$5 plus \$10 costs after his arrest last Monday for driving with a suspended license.

He was arrested by state police and fined by Justice of the Peace Gordon Willyoung. Failure to pay the fine would have resulted in an extra eight days in jail for Purtil.

Urges closer relationships between business, schools

A plea for more informal lessons in economics and for more frequent meetings between educators and businessmen was made Monday by the public relations director for Federal-Mogul.

Frank Churley of Detroit told about 200 persons attending a Business - Industry - Education Day luncheon at St. Joseph School cafeteria that more BIE days are needed.

"I THINK people in education should keep businessmen better informed of their needs," Churley said. "And the same goes for businessmen."

9th traffic fatality recorded

A Haslett woman became the ninth Clinton County traffic fatality of 1964 Saturday when she was killed in a three-car crash at Clark and Chandler Roads in southeastern DeWitt Township.

She was Mrs. Daisy Springer, 65, of 5870 Edison Road, Haslett. She was a passenger in a car driven by her husband, William, 70, who suffered a head cut and bruises.

STATE POLICE investigated the crash. They said Springer's car collided at the intersection with one driven by Gilbert Feneis, 59, of 121 Diehm Road. Feneis was thrown to the pavement and suffered forehead cuts and bruises and scrapes on both arms.

The impact shoved Springer's car into a third, which had halted at the intersection. That car was driven by Edward M. Wedley, 27, of Holt. He suffered chest bruises.

Feneis was later charged with negligent homicide by state police. He appeared before Justice of the Peace Gordon Willyoung Tuesday and waived examination.

He was freed on \$500 bond pending arraignment in circuit court Monday.

THE accident happened shortly after noon Saturday. Mrs. Springer died at 2:30 p.m. at St. Lawrence Hospital. Coroner Jack B. Holmes said death was due to multiple fractures, a crushed chest and shock.

"We need to discuss our problems, and the best way to do it is through meetings with educators."

HIS TALK was the keynote of the luncheon which ended a morning tour of the St. Johns Federal-Mogul plant and preceded an afternoon of informal tours of 10 city business places.

In his remarks, Churley said the nation is faced with far-reaching sociological and economic changes that will take the cooperation of business and education if they are to be met. One way, he said, is to teach youngsters the economics of business.

HE SAID NOT as many students today know what makes a business tick. Churley said one survey showed 42 per cent of the US businesses exceeded wage payments.

"Don't propagandize," Churley warned. "But let them know the truth. I'm not pleading for students and teachers to become economic geniuses. But informal economic lessons in the course of your other teaching activities can work wonders."

"MOST PEOPLE have confidence in the educational work you are doing," Churley told the teachers, "and they have confidence you will continue to keep pace with the changes."

Churley was introduced by

Bill Robertson, one-time manager of Federal-Mogul in St. Johns. Earl Lancaster, superintendent of St. Johns Public Schools, was master of ceremonies.

The luncheon was served by the St. Joseph Altar Society. The cost of the meal was paid for by Federal-Mogul, which during the morning conducted tours of its plant and explained the business and its growth to the teachers.

DURING THE afternoon, the teachers were divided into 10 groups, each of which visited a St. Johns business.

This was the first half of BIE Day plans. Next Thursday, teachers will be hosts to businessmen at the school. Classes were in session for the Monday event, but they will be Thursday when businessmen visit the schools.

Greer to attend assessors meeting

Ken Greer, St. Johns city manager, will attend a three-day workshop session of the Michigan Assessors Assn. at the University of Michigan Monday through Wednesday next week.

Greer is president of the association this year, but will step down next week when new officers are elected. While at the workshop, he will lead a discussion Monday on the organization of a small assessor's office.

2 bond issues face Ovid voters

OID — Ovid residents will vote on two issues Monday in a special election.

One is the approval of a bond issue for a new water treatment plant. The other is a bonding proposition for the construction of a new public works building.

ONLY THE public works project would cost taxpayers extra money. It would add \$2 per year per \$1,000 valuation, an increase from 17 to 19 mills for village tax.

The water treatment plant would cost \$56,000 and the bond issue would be paid off, with interest, in 10 years from water department revenues. There would be no increase in taxes to take care of it, but the village council wants approval of the taxpayers before going ahead with it.

THE TREATMENT plant would remove iron deposits from the water, and, according to R. W. Petrie & Associates of Benton Harbor, the engineers, would provide clean, rustless water.

Ovid has reportedly had difficulty with water taste and color for a decade, and chlorinating of the water has not provided a permanent answer.

THE PROPOSED public works building would replace an old brick building near the railroad tracks on Gratiot Street. It was constructed many years ago to house Ovid's own electric plant and water pumping station. It is now in a state of decay.

Cost of erecting a new public works building is estimated at \$32,000. A two-mill increase would pay off the cost over a 15-year period.

Stock split by Sealed Power

A 3-for-2 stock split was declared by the board of directors of Sealed Power Corporation during its regular Oct. 14 meeting. This announcement was made by Paul C. Johnson president.

Johnson also said that new shares to be issued will be distributed on Dec. 3 to shareholders of record on Nov. 19. The split will increase outstanding shares to 1,275,558 from 850,372.

THE DIRECTORS also declared a regular quarterly dividend of 25¢ per share to be paid on both the present shares outstanding and the additional shares to be issued. This cash dividend will be paid Dec. 10 to stockholders of record on Nov. 19.

The directors indicated their intention, providing business conditions warrant such action, to continue the 25¢ share rate on the increased shares. "Sales and earnings in the third quarter of 1964 were at an all-time high for this three-month period and for the 14th consecutive quarter rose above the corresponding period of the previous year," Johnson said.

ALLISON GREEN
On Campaign Visit

GOP candidate visits St. Johns

Allison Green, Speaker of the Michigan House of Representatives, was a visitor in St. Johns Tuesday. He is campaigning for the office of Secretary of State on the Republican ticket at the Nov. 3 election.

Green is a former school teacher and a veteran State Representative from Tuscola County. He lives in Kingston.

In his two-hour visit here Tuesday he attended a meeting of the St. Johns Rotary club and called at offices and business places in the Clinton Avenue area.

10 hurt as 7 cars crash at 3 sites in 90 minutes Sunday

An accident on US-27 just north of Marshall Road Sunday afternoon touched off a series of events that kept sheriff's deputies hopping for over an hour.

Altogether, there were three.

The first, at 4:15 just north of Marshall Road, involved cars driven by James A. Welsh, 16, of 801 E. McConnell, St. Johns, and Bernice G. Doll, 46, of Lansing.

WELSH was unhurt, but five persons in the other car were injured. The most seriously hurt was Shirley Koster, 35, of Grand Rapids, who was still hospitalized Monday evening with facial lacerations.

Others were treated as outpatients at Clinton Memorial Hospital with cuts and bruises. They were the driver, Mrs. Doll, and Michael Razzoog, 46, Stewart Lapham, 39, and Orrin Purvis, 54, all of Grand Rapids.

BOTH CARS were going south on US-27, according to Deputy Sheriff Bruce Wilcox. He said

Welsh apparently pulled onto the highway in front of the Doll car.

Welsh was ticketed for failure to yield the right-of-way.

The resulting confusion and slowed-up traffic was blamed for two other crashes.

JUST NORTH of the accident scene reported above, a pickup truck driven by Charles J. Martin, 52, of Eaton Rapids, and a car driven by Roger P. Tiedt, 19, of R-2, St. Johns, was stopped at the rear of a line of traffic backed up by the accident.

At 4:45 p.m. a car driven by Craig Moore, 20, of rural Claysville, Pa., hit the rear of Tiedt's car, pushing it into Martin's truck.

MOORE AND his passenger, Leslie Huntoon, 50, of Ithaca, were taken to Clinton Memorial Hospital by Osgood Ambulance where they were treated for cuts and bruises and released.

Tiedt complained of pains, as did Richard Hilliard, 25, of Eaton Rapids, a passenger in Martin's

truck. Neither required treatment, however, Deputy Wilcox reported. Neil T. Jones Jr., 28, of Lansing, another passenger with Martin, was not hurt, nor was Martin.

MOORE WAS ticketed for failure to stop in assured clear distance ahead.

Another half hour passed. Then at 5:15 p.m. at US-27 and Hyde Road, two more cars collided. They were driven by Michael D. Murdock, 21, of Middleton, and Edwin A. Klenke, 63, of Saginaw.

Klenke complained of pains but refused aid. His passenger, Rosemary Klenke, 53, of Lansing was unhurt. Eulalia Trevino, 20, of Alma, riding with Murdock, also escaped unhurt.

WILCOX again investigated. He reported Klenke was sitting on Hyde Road waiting to get into traffic on the highway when Murdock's southbound car skidded off the highway into his (Klenke's). Murdock said he was trying to avoid hitting another vehicle on the highway.

70 to take aptitude tests

On Saturday, Oct. 24, about 70 juniors and seniors from Rodney B. Wilson High School will be taking the Preliminary Scholastic Aptitude Test. This two-hour-and-20-minute test will be given in the study hall of the high school starting at 8 o'clock.

This PSAT contains multiple-choice questions designed to measure the verbal and mathematical abilities. The report will show the student's score and his percentile rank based on a national sample of all students in the same grade.

THE RESULTS of the PSAT can be used for a limited number of scholarships as well as a good guidance instrument to help students make decisions about College. Because the PSAT measures the same verbal and mathematical abilities as the SAT, the results of the PSAT are good predictors of the SAT score.

Last year, more than 11,000 schools administered the PSAT to approximately 745,000 students. The cost of the test is 75 cents per student which is forwarded to Educational Testing Service to cover the cost of providing test materials.

Dr Robertson to speak for Federation meet

Dr G. Wallace Robertson, pastor of the People's Church in East Lansing, will be one of the featured speakers at the West Central District meeting of the MSFWC in Grand Haven, Tuesday, Oct. 27.

Dr Robertson has chosen "Is the Price Right?" as the title of his address. A native of Wisconsin, he came to Michigan, 11 years ago from New York City. He accepted a call to the interdenominational church at East Lansing, which services Michigan State College.

Dr Robertson, a Kiwanian and civic leader in the Lansing area was recently appointed as regional chairman of the 1965 Michigan Week for the five counties of Ionia, Clinton, Shiawassee, Eaton and Ingham. He is the first clergyman to serve as a regional chairman of Michigan Week.

Pays \$90 in fines for drunk driving

George O. Stough, 44, of Solon Road, DeWitt, paid \$75 fine and \$15 costs Monday before Justice of the Peace Robert Wood on a charge of driving under the influence of liquor.

Name new counselor for blind

George Eberhard, supervisor of the Clinton County Bureau of Social Aid, announced this week that additional services are now available to the blind in the Clinton area with the appointment of a rehabilitation counselor, Carl Cook, who will devote his full time to the services for the blind.

Such service has been and will continue to be an important part of the Michigan State Social Welfare program available through the local Bureau of Social Aid. These services include vocational rehabilitation as well as nonvocational aids.

WITH THE added counselor more time can be given to improving those services now being given, and to a widening of the scope of services as well as to the number of persons served.

It is believed there may be blind persons in the county who are not aware of the available services. Anyone who knows of a blind person is urged to contact the Bureau of Social Aid, 1003 S. Oakland Street, St. Johns, (224-3857) to arrange an appointment with Cook. He'll be available on a regularly scheduled basis.

EBERHARD emphasized that eligibility for the services is based on a lack of vision which is defined as legal blindness and does not need to be a total lack of sight. He gave as examples of services now being given—scholarships in college, job training, occupational and personal counseling plus teaching of Braille, travel and distribution of recorded material.

City wrong-way crash hurts 2

A Montrose man who drove his car north in the southbound lane of US-27 was fined for drunk driving Tuesday following his release from the hospital.

Another man remains in Clinton Memorial Hospital as a result of a crash caused by the antics Monday evening.

ACCORDING to city police Officer James Stiffler, Alton W. Padget of Montrose was driving north in the southbound lane of US-27 just south of Baldwin Street.

In front of the Hoag Funeral Home, his car hit headon one driven by David C. L. Gosling, 31, of White Pigeon.

GOSLING WAS unhurt, but his passenger, Arthur Veldey, 37, of Kalamazoo, was injured, as was Padget. Both received lacerations. Padget was released from the hospital Tuesday morning, but Veldey was still there Tuesday afternoon and pronounced in "fair" condition.

Padget was ticketed for driving under the influence of liquor, and Tuesday he pled guilty to the charge and was fined \$75 and \$19.90 costs by Justice of the Peace Robert Wood.

2 cars bump; no one injured

Two cars collided on Clinton Avenue Friday evening in front of MacKinnon's store. No one was hurt.

The cars were driven by George E. Jorae, 25, of R-6, Avery Road, St. Johns, and Archie D. Hoebecke, 16, of R-1, St. Johns.

Riding with Jorae were Frances, 22, Elizabeth 1 1/2, and Mary Jorae, 11 months old.

BOTH CARS were driving south on Clinton. Jorae was stopped for traffic ahead and was hit in the rear by Hoebecke's car.

Hoebecke was ticketed for failure to have his car under control. Officer Lyle French investigated.

Stitch and Giggle is new 4-H name

The first meeting of the new Stitch and Giggle 4-H Club was held Oct. 15. Jeanette Henning, eight girls and two co-workers were present.

Election of officers was held and the group decided to meet every two weeks. The project before the next meeting will be pinning and basting practice cloth.

Crash puts 2 in hospital for a day

Two persons were hospitalized for a day, and another was treated for minor injuries received in a two-car crash on M-21 at DeWitt Road just west of St. Johns Saturday.

The cars were driven by Cameron L. Nickerson, 24, of 120 E. Main Street, Lansing, and Wilbur F. Worrall, 43, of R-4, St. Johns.

NICKERSON was treated as an outpatient at Clinton Memorial Hospital. He had lacerations. Betty M. Nickerson, 20, and Gergory Nickerson, eight weeks old, both of 1703 Robertson, Lansing, were admitted as patients but were released Sunday. Both had cuts and bruises.

Both cars were traveling west on M-21. Worrall was stopped to make a left turn onto South DeWitt Road and claimed he had his turn signals on. He said another car passed him and then Nickerson's car came up from the rear and struck his auto.

NICKERSON SAID he saw no turn signal. His car skidded 61 feet before the impact. He was ticketed for failure to stop in assured clear distance ahead. Deputy Sheriff Stanley Kajdas investigated the 10:30 a.m. accident and issued the ticket.

Dragoo, Ewing attend traffic safety conference

Les Dragoo and Don Ewing of the Clinton County Road Commission attended the Governor's Regional Traffic Safety Conference held at the IMA Annex in Flint, Friday. They were among 200 persons interested in safety on Michigan's highways, who joined with Gov. George Romney and co-chairman Robert P. Briggs of the Governor's Special Committee on Traffic Safety (SCOTS) to study the committee's report.

The report was the result of hundreds of man-hours of consideration by traffic safety professionals and lay-leaders made during the past summer. Eight study committees of SCOTS made 29 recommendations for the improvement of highway traffic safety in the state.

BRIGGS said, "The predictable increase in the number of motor vehicles and drivers in the near future makes the proper education of present and future drivers one of the most vital subjects considered by the Governor's Special Committee on Traffic Safety. Truck drivers, bartenders, housewives and business men were among the authors of the hundreds of letters received by Gov. Romney's office pleading for more attention to this subject.

The Special Committee after weeks of consideration commended the training now given youth in high school and recommended that suitable training be given to all drivers regardless of age.

GOV. ROMNEY and Secretary of State James M. Hare spoke at the luncheon.

Tot toys campaign under way

The St. Johns American Legion Post's second annual Toys for Tots campaign will be getting underway about Nov. 1. Bob Brock is chairman of the committee arranging the drive.

The Legion is seeking used or new toys which can be distributed at Christmas time to children of persons who cannot afford to buy toys.

LAST YEAR area residents responded wonderfully, even though the drive was late in starting, and Brock said this year could be even better with the earlier start.

Four pickup stations have been arranged for in St. Johns. Toys for the Toys for Tots program can be left at the following places: Neller's Sinclair service station at North Clinton Avenue and US-27, Hutton's Gulf service station on West State Street, Schaefer's Texaco Service at US-27 and M-21, and the Legion Post on East Walker Street.

BROCK said the Legion would appreciate getting toys as early as possible so members can have time to make any repairs and do any painting that's necessary.

Man beaten up by pair, but won't help law

The county sheriff's department has had to stop investigation of an alleged beating on Williams Road just south of Taft Road Sunday because the victim won't sign charges.

No one was arrested, but the victim, Levies E. Morgan of 909 Williams, Lansing refused to cooperate in the investigation.

HE TOLD officers Sunday night, however, that two men had beaten him up. He said he met them in a bar in Lansing and took them to a party. They all left the party together, and Morgan said he thought they were taking him back to the tavern.

Instead they drove north of Lansing at a high rate of speed and told him they were going to shoot him and that they had a shotgun in the car trunk.

ON WILLIAMS ROAD just south of Taft, he said, they took him from the car at the point of a 45 caliber pistol taken from the glove compartment. He said one man held the gun while the other took off his shirt and beat him (Morgan).

The men left when another car came along the road. Witnesses saw the men get back into the car, and they also found Morgan lying beside the road.

He was treated at a Lansing hospital.

New county budget shows decrease

For the second year in a row, the Clinton County board of supervisors has adopted a budget lower than the previous year.

The board Friday approved a total appropriation of \$578,219.95 for fiscal year 1965, some \$20,819 less than the 1964 budget.

Money for the appropriations will be raised mainly with a tax levy of 5.5 mills on a total state-equalized valuation of \$105,130,900 for the county.

THE APPROPRIATION report and equalization report both were passed over the objections of the four representatives of the City of St. Johns. Supervisors Ken Greer and Harold Reed of St. Johns carried the fight against a \$75,000 appropriation of the County Road Commission for use with matching funds.

They (St. Johns) contended the \$75,000 appropriation should be isolated from the budget, and spread as a separate road tax. He pointed out that none of the money could be spent on roads inside the city and it was unfair to tax city residents for it.

GREER AND REED also pointed to a letter from Auditor General Billie S. Farnum challenging the appropriation last year on the grounds that it was in one lump sum and no projects for its use were designated. Greer said this year's request from the Road Commission was not properly submitted because it didn't give all the information the auditor general needed.

Supervisor Derrill Shinabery, chairman of the committee on appropriations and finance, said the request from the commission listed the bridge projects for which the money would be used and gave necessary information about the bridges.

Other members on the appropriations committee besides Shinabery are Greer and Almond Cressman of Olive.

THE \$75,000 appropriation was broken down as \$45,000 for the Island Road bridge crossing the Maple River, and \$10,000 for each of three identical bridges crossing the North Swagart Drain on Colony Road. Matching federal funds will be used to complete the bridges costs.

This information, along with additional details about the bridges, was added to the appropriations report before its passage.

11 people unhurt as 3 cars hit

Three cars were involved in a rear-end collision on North Clinton Avenue just north of Higham Street in St. Johns last Wednesday evening.

Eleven persons in the three cars were unhurt. Stephen C. Jorae, 16, driver of the third auto was ticketed for failure to have his car under control.

IT STRUCK the rear of another auto driven by Douglas H. Ley, 19, of 302 S. Traver Street. Ley's car was pushed ahead into the rear of one driven by Ronald W. Every, 19, of 105 Floral Avenue.

Every and Ley had stopped their cars waiting for another car to back out of a parking space.

PASSENGERS IN the cars included: Rick Medina, 20, of 511 W. Gibbs, with Every; Shella Ley, 17, and Dennis Ley, 15, with Ley; and Camilla Jorae, 17, Terry Ordway, 17, and Jim Ordway, 14, both of R-5, St. Johns, and Roy Piine 17 and Bruce Piine 14, both of R-6, St. Johns, with Jorae.

Officer Lyle French investigated the crash.

2 cars crash at Clinton, Park

Jasper G. Burnham, 50, of 1008 S. Clinton Avenue, was ticketed for failure to yield the right-of-way to another car in an accident at Clinton Avenue and Park Street late Monday afternoon.

The other car, driven by Elwood C. Kirkpatrick, 27, of 207 S. Morton, St. Johns, was going east on Park and hit the left side of Burnham's northbound car.

Signs at the intersection tell Clinton traffic to yield the right-of-way. Officer Russell Doty investigated.

Jailed 10 days on drunk charge

Stuart L. Swift, 28, of 2919 N. Cedar Street, Lansing, was fined a total of \$124.35 and will spend 10 days in jail as a result of his conviction last Thursday on a charge of driving under the influence of liquor.

The fine was handed out by Justice of the Peace Robert Wood. If the \$100 fine and other costs are not paid, he will sit in jail for 60 days.

SWIFT PLED guilty to the charge, 10 days after he failed to show up for a justice of the peace trial he had requested after his arrest Sept. 13. When he failed to show at the trial Oct. 6, his bondsman, William Couch of Lansing, had him arrested and brought back to court.

Took eyes off road, car hits another in rear

A driver took his eyes off the road for a few seconds too long last Wednesday and it resulted in an accident and a traffic ticket for him.

The accident occurred at the corner of East State Street and Spring Street about 4 p.m. last Wednesday. Larry L. Forbes, 23, of 1500 S. Lansing, told police Officer Lyle French, he took his eyes off the road and when he looked back it was too late to avoid a collision.

HIS CAR hit the rear of one driven by Don H. Trotter, 20, of 303 E. State Street, who was stopped preparing for a left turn onto Spring Street. Both were going east on State.

Forbes was ticketed for failure to have his car under control. Neither driver was hurt, nor was Walter Knickerbocker, 19, of 1311 E. Kinley Road, a passenger in Trotter's car.

St. Johns members attending DAC meet at East Lansing

Several members from St. Johns attended the luncheon given for the Coureurs de Bois Chapter of the Daughters of American Colonists, Lansing, when Mrs Arnold M. Sargeant was hostess at her son's home in the White Hills Estates at East Lansing on Saturday.

Following luncheon, served in the garden and opening by Mrs Tom Hancock, a business meeting was held. It was voted to buy a History of Ingham and Livingston Counties which will cost \$25 and present to the library.

MRS HUBERT E. Caskey of Williamston, state regent, presented a list of gifts suitable for veterans in the hospitals for the members to bring to the next meeting on Nov. 14, when the DAC Day of Remembrance will be observed.

The next meeting will be Nov. 14 at the home of Mrs Victor H. Noll, of East Lansing.

Blue Star Mothers to be guests of Greenville Chapter

Chapter 88 of the Blue Star Mothers will be the guests of the Greenville chapter Tuesday, Oct. 27. There will not be a meeting at home.

A letter from Margaret Hartnecke, representative of Veterans Facility Hospital of Grand Rapids thanked the St. Johns mothers for the dinner and entertainment they had furnished.

MOTHERS that can work on quilts will meet at the home of Mrs Lysie Stevens on Monday, Oct. 26, for a potluck.

Approval was voted to hold a baked goods sale Friday, Nov. 12, at Borton's Store.

Mrs Bernard Barrett received the mystery package at the Oct. 13 meeting.

MRS GERARD C. BECKER

400 attend reception for the G. C. Beckers

FOWLER—Approximately 400 guests attended the wedding breakfast that followed the nuptial ceremony in Most Holy Trinity Church that united Loraly Jean McKenzie and Gerard C. Becker.

A reception followed in the hall. Mrs Billy Reavis of Lansing, and Miss Linda Lou Huhn of Portland served the bride's table. Mrs James Becker of Fowler and Mrs Gerald Thelen of Westphalia, cut the cake.

BRONZE AND yellow mums adorned the altar for the double ring ceremony performed Saturday at 10:30 a.m. by Rev Joseph Bohr of Wyandotte, uncle of the

bridegroom. Music was furnished by the Most Holy Trinity Choir.

The bride is a daughter of Mrs Howard Hiatt of Fowler, and Paul Valjean of Lansing. The bridegroom's parents are Mr and Mrs Edwin Becker of Fowler.

The bride designed and made her own gown and those worn by her attendants.

HER FLOOR length, sheath gown of candlelight delustered satin was fashioned with a matching jacket edged in wide Swedish imported lace, and with a detachable chapel train and floating side panels. Her shoulder length veil fell from a crown of pearls and she carried an orchid on a missal with a rosary. She was given in marriage by her stepfather, Howard Hiatt.

Mrs Donald Thelen, sister of the bridegroom, was matron of honor. Her street length princess styled gown was of gold delustered satin. Mrs William Thoma of Fowler and Miss Patricia Bashore of Lansing, were bridesmaids. Their gowns were designed like that of the matron of honor, in burnt orange and avocado. Their bouquets of baby pompons and mums in fall colors were complemented by matching streamers. Lori Becker of Fowler, was flower girl.

JAMES BECKER of Fowler was his brother's best man. Clark Becker of Fowler, Carl Stump of St. Johns, Candler Blake of Lansing, and Gerald Thelen of Westphalia, were groomsmen and ushers. Timmy Thelen of Westphalia was ring bearer.

Mrs Hiatt wore a beige dress with burnt orange accessories. Mrs Becker was attired in a gold dress with avocado accessories.

Following a honeymoon in Florida, the couple will reside in Lansing.

Mrs Becker is a graduate of Eastern High School in Lansing. Her husband graduated from Fowler High School.

St. Rita Guild hears talk on teen problems

Rev Edwin Schoettle was guest speaker at the meeting of St. Rita's Guild of St. Joseph Altar Society Thursday evening at the home of Mrs Floyd Barnes with Mrs Neil Harte as cohostess.

Speaking on the topic, "Teen-agers," he discussed some of their problems and stressed the important role parents play in their up-bringing.

PLANS FOR a card party and style show to be sponsored by the Altar Society to be held Tuesday evening, Nov. 10, were discussed. Mrs James McKeone was selected as the model from St. Rita's Guild. The Christmas bazaar, scheduled for Dec. 8 was also discussed.

The door prize was won by Mrs Tony Slanka.

The November meeting will be held at the home of Mrs Wayne Beaufore with Mrs Floyd Barnes as cohostess.

Diane Crowley is honored by 3 showers

Three pre-nuptial showers have been given for Miss Diane Crowley recently.

Mrs Lawrence Heibeck and Mrs Edith Ormes entertained relatives and friends at the former's home with a miscellaneous shower. Bridal games and bride bingo were played during the evening.

MRS JUSTIN Eaton honored her with a pantry shower at the Price church with 31 guests participating in bridal bingo.

A gold and green decorated cake placed on the lace-covered table covering with gold candles on either side was cut and served by Miss Mildred Ashley. Mrs Albert Gillison poured coffee and Mrs Kenneth Fricke served punch.

THE THIRD event was given at the home of Mrs Arthur Howard and was a personal shower.

Bridal games were played after which Miss Crowley opened gifts placed on a table decorated with an umbrella and candles. A salad course was then served.

OES matron rewarded for accomplishment

Mr and Mrs Harold Burk, worthy patron and worthy matron of Radiant Chapter 79 OES attended the Grand Chapter "Open Heart Session" held in Grand Rapids, Oct. 13, 14 and 15. Mrs Emerson Barrone, associate matron was also a delegate. Others attending were Mrs Charles Fowler, grand representative to the District of Columbia, who was introduced by the grand worthy matron, Mrs Carl Ludwick, Mrs Jack Lyon, Emerson Barrone and Charles Fowler.

On Tuesday evening Mr and Mrs Burk and Mrs Barrone attended the Open Heart Banquet.

THE GRAND worthy matron, Anne Joyce, presented Mrs Burk, with a certificate of recognition for outstanding accomplishment in the promotion of attendance and visitations, which will be hung in the local chapter room. Radiant Chapter was one of 25 out of 476 chapters to receive this certificate.

Distinguished guests present were the most grand worthy matron of Eastern Star and Mrs George Romney, who both gave speeches.

It was voted to hold the 1965 grand chapter session at Grand Rapids.

Missionaries speak at 3-day church convo

The St. Johns Assembly of God Church will host three missionaries for a three-day missionary convention. David W. McCulley of Nigeria, Roy Armstrong of the Philippines and Leslie Bedell of Korea will represent their respective mission fields at the convention, Oct. 22, 23 and 25.

Rev David W. McCulley will speak and show pictures and curios Thursday at 7:30 p.m. He will tell of the work of the Assemblies of God among the Nigerian people.

Jaycees Turn Punkin' Pickers Prior to Sale this Saturday

This is one of five piles of pumpkins St. Johns Jaycees will be selling house to house this Saturday along with candy, to raise funds for their community service projects. The pumpkins were picked Sunday from the Jaycees own one-acre patch northwest of St. Johns. Doing the picking were Jaycee members (left to right) Lee Cobb, Bill McCarthy, Jack Hart, Leroy Hansen and Don Bast. Helping were youngsters Kathy Rinker, left, Brian McCarthy, Wayne Bast and Gary Bast. The pumpkins will be sold from starting at 9 a.m. Saturday. Donations are all that is asked.

Senior Citizens feel loss of their leader

Guests from Williamston, Webberville, Lansing and Bannister brought the attendance at the Senior Citizens meeting on Oct. 13 to 83.

The sudden death of Mrs Helen Tatroe, who had done so much for the organization, was keenly felt but as she had planned this meeting it was carried out according to her wishes.

SEVERAL members of the Kitchenette Band put on a comic skit and the entire band played several numbers. Keith Bauerle of Lansing sang three numbers. He and Mrs Beatrice Rivard sang "Perfect Day," dedicated to the memory of Mrs Tatroe. Mrs Elzie Exelby was the pianist for the musical program. Readings were given by Mrs Rivard and Mrs Exelby.

Plans are rapidly taking shape for the bazaar on Nov. 6 at the Drop-In Center. Several committee chairmen were appointed, each to get her own helpers. Mrs Herbert Estes Sr. will be in charge of fancy work; Mrs Roy Ormsby will have the apron booth; Mrs Ben Gillison is chairman of baked goods and candy; Mrs A. B. Crane gifts and Mrs Robert Hathaway will be in charge of refreshments. Elzie Exelby volunteered to make posters.

The Williamston group invited Clinton County Senior Citizens to visit them on Wednesday, Nov. 24, and bring the Kitchenette Band.

Turning auto hit in rear

No one was hurt Sunday when two cars collided on Wright Road just north of Dexter Trail in Dallas Township. Five persons were riding in the two cars.

Deputy Sheriff Hilary Hafner was told that Jane M. Martin, 26, of 2610 Blake Avenue, Lansing, signaled for a right hand turn into a driveway on Wright Road. Her car was struck in the left rear by one driven by Earl D. Avery, 79, of Eagle, who said he did not see the other car in time.

He was ticketed for failure to have his car under control. Riding with him were Bert Avery, 77, of Lansing, and Mr and Mrs Claude Lyon, of Perry.

Eureka

By MRS. GORDON WAGGONER, Correspondent

The topics for the Eureka Congregational Christian Church for next Sunday are "Suburbs of Christianity," for the sermon and "Putting the Shine On," for the sermonette. The Scripture reading is Mark 12:28-34.

Thirteen members of the Greenbush birthday club enjoyed a chicken dinner at the home of Mrs. Emma Mundell in Fowler on Sunday. The honored guests were Mrs. Mundell and Mr. and Mrs. Frank Russ.

Twenty-one persons held a day's outing in the north woods on Sunday, roasting wieners and walking through the woods. On the outing were Mr. and Mrs. Hub Meadows of Perry; Mr. and Mrs. Dale Randolph and Larry, Mr. and Mrs. Duane Witt, Bill, Mark, Dawn, and Miss Candy of St. Johns, Mr. and Mrs. Wendell Waggoner, Ronnie and Rusty, Mr. and Mrs. Gordon Waggoner, Gloria and Linda and Mr. and Mrs. Howard Waggoner of Houghton Lake.

Mr. and Mrs. Frank Russ spent Friday and Saturday at the home of Mr. and Mrs. C. E. Fisher in Kalamazoo.

Mr. and Mrs. A. G. Reynolds spent the weekend in Detroit.

Miss Mary Gower from Ferris College, Big Rapids, spent Friday evening and Saturday here with her parents and attended the St. Johns homecoming football game.

Vera Bryant and Reta Gower spent last Tuesday with their sister Leta Fisher at the Borgess Hospital in Kalamazoo where she underwent surgery.

Last week Friday's dinner guests of Mr. and Mrs. Frank Russ were Mr. and Mrs. Bud Drury and Mr. and Mrs. Clarence Russ and family.

Mr. and Mrs. Ronald Hankey and children from Litchfield spent last weekend here with his mother, Mrs. Peter Hankey and visited his father at the Clinton Memorial Hospital where he is a patient.

Recently Mr. and Mrs. Frank Russ took a color tour in Upper Michigan. They traveled to Copper Harbor and Wisconsin.

Many persons attended the 50th wedding anniversary of Mr. and Mrs. Glenn Davis at the Bingham Church Sunday, Oct. 11. The Davises' lived here for several years.

Weekend visitors of Mr. and Mrs. Roy Hyke were Mrs. Laina Hyke and Mrs. Grace Campbell of Largo, Fla., Mrs. Alice Neltz of Birmingham; Mrs. Ethel Winter of Allen Park and Rev. and Mrs. Harry Kellogg of Ann Arbor.

Mr. and Mrs. Roy Hyke called on Mrs. Flora Wood of Fowler, Mr. and Mrs. John Setterington of Maple Rapids and Mr. and Mrs. Miron Post of rural St. Johns on Sunday.

Mrs. Wallace Huggett and children spent time last week with her parents, Mr. and Mrs. J. D. Robinson. Mr. Huggett is on a hunting trip in Wyoming.

Mr. and Mrs. J. D. Robinson spent Sunday with their daughter, Barbara Waggoner, at the University of Michigan in Ann Arbor. They took a color tour of

the Irish Hills in the afternoon. Mr. and Mrs. John Martin and Eunice were Saturday evening callers at the J. D. Robinson home.

Mrs Morrison is honored at shower

McGONIGAL CORNERS—Mrs. Marion Foote entertained at a bridal shower Friday evening in her home, honoring the newlywed, Mrs. Rodney Morrison.

Mrs. Morrison is the former Miss Linda Smith of Harrison, daughter of Mr. and Mrs. Cecil Smith. Her marriage to Rodney Morrison, son of Mr. and Mrs. Marvin Morrison, was solemnized last week at Harrison.

ABOUT 30 guests were in attendance at the shower. Mrs. Foote was assisted by Mrs. Charlotte Smith and Mrs. Margaret Baker with refreshments.

Morrison is with the US Navy, and will soon be stationed at a Navy base in San Diego, Calif.

Mr. and Mrs. Harry Fletcher visited Mr. Fletcher's aunt, Mrs. Mary Hubbard of Boyne Falls, who is in the hospital there, having suffered a broken leg, due to a fall. Mrs. Hubbard is 92 years young.

Mr. and Mrs. Bruce Fletcher are vacationing this week in the southern part of the state.

Mr. and Mrs. Larry Johnstone have a new baby girl, Carla Kay, born at Sparrow Hospital, Oct. 13, weighing 7 pounds.

The Mary Ann Circle of Bath Baptist Church will meet in the Church basement at 12 noon for potluck with devotions, business meeting and work shop following.

Willis Hettler Jr. (left) and Paul Heller, both of St. Johns, display three geese which they shot a week ago Sunday southeast of St. Johns. The Canadian honkers were the first geese they had brought down. The dog, Jill, did the retrieving. The birds were shot five miles south and 3 1/2 miles east of town.

BOWLING St. Johns Area Leagues

Clear-cut leaders are still missing in all but a few of the bowling leagues which reported standings and activities during the last week.

In the Westphalia Woman's League, the Rose Johnson, Seamstress, team still holds the lead with an 18-6 mark, but Frankmuth Beer and Town and Country both have 17-7 records. High team game last Tuesday was by the league leaders with a 773. Altes Lager with a 2135 series was high in that category.

Woman hunter bags big moose

Mrs. Hazel Harte, of 5887 Clark Road, a mighty huntress in her own right, bagged a 1,200-pound moose 60 miles north of Sudbury, Ont., last week.

The antlers of the moose measured a 45-inch spread. The animal was thought to be five or six years of age. Mrs. Harte has brought down white-tail, antelope and mule-deer.

and 481 had the high individual game and series. Audrey Cassel picked up the difficult 4-7-10 split.

The Industrial Mixed League continues to have a real close race. Two teams are tied for first place, three for fifth and three for eighth positions. The 4 K's had high games and series Friday night with scores of 709 and 1906. K & R also had a 1906 series. Ken Powers rolled 222 for high game, and Mike Hatta had 588 for a series high. Ethel Kuhns with 209 and Donna Kurpila with 400 were high for the women.

THERE'S A three-way tie for the Ten Pin Keglers League lead. Clinton National Bank and Trust Co., Rhynard's and Allaby's each have 16-8 records as of last Wednesday. Parr's Rexall Drugs had high team game and series with 794 and 2273. D. Kurpila for Carlings had a 202 game and 525 series. Evie Kuhns had a 200 game and also picked up a 5-7-9 split.

The Bowlettes hold a slim margin lead over the Hillbilly 4 in the Coffee Cup League. The Bowlettes are 15-1, the Hillbilly 622 team game and a 1720 series to be high in that category last Thursday. Grace Masarik had the high individual game with a 175. Doris King and Loretta Munro each had a 426 series.

MORE DEFINITE trends begin to show up in the other leagues reporting.

Beck's Farm Market holds a two-game edge over Bled Oil in the Night Hawk League as of last Tuesday. American Legion Club had the best team game and series with scores of 873 and 2589. F. Glowacki had a 231 game, and J. Geller and J. Greer each had a 542 series. Other 200 games were reported by D. Root 203, B. Cole 207, L. Karber 201 and J. Green 200.

THE CENTERLINERS have opened up a three-game lead over the KP's in the Mixed League after Friday night's bowling. They had a 651 team game and a 1852 series. Dolores Zipoli had a 176 game and a 459 series for the women, while Duane Bunce had a 198 game and William Kolehneier had a 541 series for the men.

The Five Mrs have a four-game bulge in the Tea Time League, with Federal Mogul No. 1 in second place. Connie Cronkrite had a 192 game, and Irene Hill had a 487 series. The Tigers were best team bowlers with a 773 game and a 2184 series. Alma Bashore converted the 6-7 split.

COMPROMISE Difference of opinion is no problem to people who know enough to split the difference.

Fulton tops Carson City for 1st win

PERRINTON — Fulton High School won its first game of the football season Friday with a homecoming victory over Carson City. The score was 38-7.

Fulton took command of the game early and before it was over had rolled up 410 yards rushing and 50 yards passing. They had 15 first downs, Carson City six. Carson had 78 net yards rushing and 45 yards gained in passing.

FULTON DIDN'T score in the first quarter, but they tallied three times in the second period. Left halfback Chris VanSickle went 50 yards on an end sweep and later 65 yards on a similar play. Halfback George Conklin ran eight yards off tackle, and VanSickle added the extra point to give Fulton a 19-0 halftime lead.

Carson City scored their lone touchdown in the third quarter, with halfback Larry Zimmerman punching in for a touchdown from the three-yard line. He ran the extra point.

FULTON STAYED on the attack. Quarterback Terry Thomas sneaked in for a touchdown from one yard out in the third quarter, and VanSickle scored again on a 15-yard end sweep.

In the fourth period, Thomas passed to right halfback Rick Chick for 35 yards and the final touchdown. Thomas wrapped up the scoring with a pass to John Roberts for the extra point.

Outstanding games were turned in by Thomas, fullback Terry Proho and VanSickle, Coach Barney Schultheiss said.

Another tie in contest

There was a football contest tie this week—for the second week in a row. This was just between two entries, however, and each winner has been sent a check for \$10.

They were Mrs. Gayla Krzak of 501 S. Lansing Street, St. Johns, and Lance L. Ives of R-4, Lansing.

THEIR ENTRIES were as identical as they could be. They picked the same 18 winners correctly, and they both missed on the Michigan State-Indiana and the Michigan-Purdue games.

Their tie-breaker scores were both 38. St. Johns beat Alma 28-7 in that tie breaker game for a point total of 35.

THE TIE-BREAKER score eliminated two other persons from one family who missed only two choices out of the 20. They were Daniel Wright and Don Wright, both of R-2, St. Johns. Don had a tie-breaker score of 44 and Daniel had 45.

This week's football contest is on Page 1-C. All readers of the Clinton County News are invited to join in the fun and pit your knowledge of football teams against the others. There's \$20 waiting for the person who can pick the most winners.

Symphony's 1st concert set for next Tuesday

One of the highlights of the opening concert of the Lansing Symphony Orchestra season Tuesday will be the world premiere of a composition by Dr. James F. Niblock, chairman of the department of music at Michigan State University.

Niblock composed the music, "Symphonic Overture," especially for the Lansing orchestra. Gregory Millar will conduct.

THE OCT. 27 concert will be the opening of the Lansing Symphony's most complete concert season, a season which will introduce to Greater Lansing the Philharmonic Series of the orchestra as well as the regular concert offerings.

Included in the expanded program will be such prominent guest artists as the Dave Brubeck Quartet; Henry Mancini; and the 300-voice Lansing Symphonic Festival Chorus.

THE Women's Symphony Assn. is in charge of ticket sales. Further information on tickets or the year's program can be obtained by calling the Lansing Symphony Assn.

Nearly 200,000 permits are being offered for antlerless deer hunting in these 67 areas during Michigan's November firearm season. Highlighting this year's any-deer program, which is expected to produce a fall harvest of 66,400 surplus antlerless animals, is the addition of twelve areas in the southern third of the state where whitetails have caused greatest damage to farm crops and private nursery stock. Before applying for permits in these areas and Area 23 of the northern Lower Peninsula, sportsmen should make sure they will have places to hunt. These areas consist largely of privately-owned lands. Those applying for areas 64-67 are reminded that Livingston county is closed to Sunday hunting. Permit applications are now available with the purchase of firearm and archery deer licenses at local dealers and the Department's Publications Room in Lansing. They must be postmarked by Oct. 9 for return mailing to the Department. Later that month, a machine drawing will be held to select successful applicants for areas where entries outnumber hunter quotas.

Unscored-on Elsie blanks Romans 27-0; 'C' showdown Friday

ELSIE—The Elsie Big Reds took one of their biggest hurdles of the year in perfect stride Friday night when they shut out the Ovid Romans 27-0.

had been tied with Elsie and Portland for the Central Michigan C league lead, lost its first game of the year.

Journey to Portland. The Raiders and the Big Reds are still tied for the lead with 4-0 conference records.

Fowler drops key 'D' contest 35-12

POTTERVILLE—Fowler had a nine-year record of football domination over Potterville — until Friday night.

THE SECOND big hurdle, and likely the last, for the Big Reds will be this Friday night when they

Comparing the two in the teams they've played, Elsie would appear only slightly stronger, but Portland's home field advantage could erase that. Both teams have played Pewamo-Westphalia, Elsie winning 46-0 and Portland victorious by 41-0. Elsie beat DeWitt 64-0 and Portland beat DeWitt 47-0.

PORTLAND has yielded only one touchdown this year—to Sarnac in the season opener.

Plan 'coon hunt for trophies

THE SECOND quarter was a bad one for Fowler. Potterville's Vikings exploded for four touchdowns that period. The first came on a blocked punt, with Bob Bowers falling on in the end zone.

The Eagles, then trailing 35-0, went to work. Paul Hufnagel threw long to Jim Koenigsnecht for one touchdown in the third quarter. In the last period, Jon Thelen ran eight yards for a TD to end the scoring for the night.

Elsie's victory Friday night over Ovid was smooth and sure. They scored one touchdown in each quarter and outplayed the Romans in every statistical category.

Gary Bashore opened the scoring with a one-yard plunge for a touchdown in the first period, climaxing a 64-yard drive. Joe Guskysky got the extra point.

TOM EBERT hit Ross Carter with a pass good for 17 yards and a touchdown in the second quarter. The extra point was no good, and the score was 13-0 at the half.

Then, before the half was over, Al Almy ran 35 yards, Almy caught a 22-yard pass from Rick VanFossen, and Dave Guy ran 15 yards—all for touchdowns. Gary McNamara kicked all four extra points, and it was 28-0 at the half.

There'll be some competition 'coon hunting Saturday night at Fowler.

Ebert quarterback sneaked for a touchdown from one yard out in the third quarter, and Guskysky added the extra point. The final TD came in the fourth quarter when Bashore swung around end for 15 yards. Guskysky's extra point sewed up the scoring.

ELSIE'S STIFF defense, the ball handling of Jim Horak and the running of fullbacks Bashore and Guskysky helped Elsie to the victory.

Ebert passed five times and completed four during the evening for 70 yards. Tom Micka made 17 unassisted tackles and was the game's outstanding defensive player.

VanFOSSEN sneaked in for a touchdown from the two yard line in the third quarter, and McNamara

Elwood Reaume of Fowler said trophies will be given to hunters bringing in the most racoons by 11:30 p.m. The coons must have been killed in the three hours preceding that deadline.

THE "FINISH line" for competition will be Miller's Tavern. Owner Carl Miller is sponsoring the trophies, which will be given for the first time this year. A coon hunt has been held for several years by hunters in that community, but this is the first competition.

It is open to all hunters. Two can go together, but not more than four dogs per cast will be allowed. The coons must be killed within the three-hour limit and must be brought to the tavern by 11:30.

BETWEEN 20 and 30 hunters, and about as many dogs, are expected. Reaume said if the competition proves successful, it will be planned as a yearly event.

Dave DeGeer (32) swings around left end for some short yardage against Alma Friday night. Watching in background is quarterback Gene Rademacher (10). St. Johns thumped Alma 28-7. DeGeer picked up seven yards rushing in three carries during the evening.

Redwings take over 1st place with 28-7 victory over Alma

The St. Johns Redwings rolled up an early lead against Alma last Friday and then had a much tougher time holding onto it than the 28-7 final score might indicate.

LEE HILL

GARY CRAWLEY

The West Central Conference victory gave the Redwings sole possession of first place. Grand Ledge dumped Lakewood out of the tie for first with a 33-12 win at Lakewood.

THE REDWINGS looked less impressive than they have in any game thus far this season. They rolled to touchdowns the first four times they had the ball in the first half, but they seemed to lack the snap they've had previously.

This was not entirely unexpected, however. The team was expected to be "down" after winning the big game at Grand Ledge the week before. They definitely appeared that way the second half, although threatening to score once and having two touchdowns called back by penalties.

BUT EVEN while appearing dull, the Redwings were the better team on the field and their victory was never seriously jeopardized.

They went to work early. Starting on their own 31, the Redwings scored a touchdown in eight plays. A 36-yard run by Gary Crawley to the Alma 22 yard line was the highlight of the drive. Lee Hill then ran to the 14, and Dave DeGeer carried to the 9. Then John Vitek exploded up the middle for the touchdown.

DAVE HAMER then kicked the first of his four extra points.

After the kickoff, Alma immediately went into their shotgun spread offense, but three passes fell incomplete, and they punted to St. Johns.

The next Redwing touchdown drive covered 60 yards. John Sickle got it going with a 14-yard run and a four-yard run on a fourth-and-two situation. Then quarterback Gene Rademacher found the range on his passes.

HE HIT DeGeer on a 14-yard pass play to the 19 yard line, and then hit Lee Hill for a touchdown. Hamer added the extra point, and it was 14-0 with almost five minutes left in the quarter.

A fumble in the backfield by Alma set up the third St. Johns score. They started on the Alma 25, and on the second play, Rademacher hit Bill Sirrine with a pass, and he carried to the 4.

ALMA stiffened. But on the fourth down play, and the ball still on the 9 Rademacher rifled a pass to Bob Krumm for the touchdown. Hamer converted.

Alma, on the next to the last play of the quarter, gained two yards, and it was their first gain of the night. They continued to gain in the second quarter and they got their only touchdown on that drive.

QUARTERBACK Tom Waber threw, ran and handed off from the shotgun offense and appeared to have the Redwings baffled. The Panthers picked up five first downs in moving from their own 33 to the touchdown. Halfback Danny Miller scored it on the 3-yard line. Bassem Hussayni kicked the extra point to make it 21-7, St. Johns.

Sickle again got the Wings started toward the goal and their last touchdown. He picked up 16 yards up the middle to the Alma 48. An Alma penalty put the ball on the 33.

A PLAY later, Sickle electrified the huge homecoming crowd. He grabbed a short desperation pass from Rademacher on the 32, circled to the left and back to the right and ran to the Alma 3-yard line. Lee Hill then found a hole and scored the touchdown. Hamer added the extra point.

The second half was a defensive battle all the way. St. Johns twice in the third quarter nipped Alma threats to score. Using short passes effectively, Waber moved the Panthers to the St. Johns 5. But on a fourth-and-two, Waber himself got caught short of the first down, and St. Johns took over on the 5.

THEY couldn't go anywhere, and on the punt return, Alma came back to the 25. Halfback Ernie Clemence did the running this time and they moved to the 6. On a fourth-and-one play, Clemence fumbled, and Lee Hill

... scores 2 TDs

picked it up and ran it to the nine to end the second threat.

St. Johns threatened three times in the last period. Twice they had touchdowns called back because of backfield motion before the snap of the ball. On the first play of the quarter, with the line of scrimmage on the 28 end Al Werbish took a pass on his own 45 and rambled to the Alma 15. Three plays later he caught a pass in the end zone, but it was called back by a penalty. The Wings then lost the ball on downs on the 20.

THEY GOT the ball back on the Alma 27, and with Vitek and Crawley contributing some good runs, moved to the 3. Quarterback Gary Becker was hit for a one-yard loss and then two passes fell incomplete. Alma took over again on the 4.

On the third from the last play of the game, Rademacher hit end Jim Leonard with a short pass, and Leonard slid by his tackler

... top rusher

and raced 59 yards for a touchdown. It was called back by an in-motion penalty.

GARY CRAWLEY was the top runner of the game, picking up 44 net yards in four carries. John Sickle had 48 yards in five carries.

Gene Rademacher passed 15 times during the game and completed 10 tosses for a total of 200 yards. He completed four other passes for 124 yards and two touchdowns, but they were all nullified by in-1 motion penalties.

THE RADEMACHER to-Werbish pass which covered 58 yards in the fourth quarter was the longest pass play of the year for the Redwings.

Co-captain John Vitek, who picked up 32 yards in six carries Friday night, now has a career total of 1,442 yards gained in varsity competition. That's only 322 yards short of a mile. He has four games remaining.

ELEMENTARY SCHOOL

Because the American elementary school reaches the greatest number of our citizens for the longest time, it is responsible for laying the groundwork for healthy intellectual and personality growth.

Elementary school gives the child his first glimpse into the worlds of the social studies, art, science and literature — and it gives him an awareness of the vastness of information about these worlds. Here the child learns to read and use libraries. He learns to make judgments and identify fact and truth from fallacy and half-truth. He learns the power of his mind and becomes familiar with his talents and his shortcomings.

Elementary school helps the child develop his personality and teaches him to work and cooperate with others. It strives to give him independence and self-confidence.

The teacher is the child's idol during the elementary school years. Aware of this responsibility, the elementary school teacher works hard to set a good example for her students. She knows that everything she says and does makes a lasting imprint on the minds and memories of her pupils.

The young child is a delight. He is bold, and honest, and fun. The elementary school works to preserve these good qualities while it equips him with the tools for a satisfactory future life.

Ruth Circle of the First Methodist Church will meet with Mrs Gayle Vauconsant of 509 S. Baker Street, Tuesday, Oct. 27, at 1:30 p.m.

Elizabeth Circle of the First Methodist Church will meet with Mrs Jean Corkin of 108 E. Cass Street, Tuesday, Oct. 27, at 1:30 p.m. Co-hostess will be Mrs Henry Wood. The worship program will be conducted by Mrs Walter Thornton and the program by Mrs Nina Benedict.

New resolutions are cited for DAR

Mrs George H. Brooks and Miss Maralyse Brooks were hostesses to the members of the River Wabwasin Chapter of the Daughters of the American Revolution Tuesday evening.

The meeting was opened by Regent Miss Shirley Pouch. New year books were distributed.

MRS BROOKS reported on the resolutions adopted at Continental Congress in Washington, D.C. The hostesses served refreshments at the close of the program.

The November meeting will be held with Mrs E. O. Prince on Nov. 10.

SHERYL LYNNE JONES

Jones-Bashore nuptials slated for April 1965

Miss Sheryl Lynne Jones, of Waterford Township, will become the bride of Gary Edwin Bashore, son of Mr and Mrs Max R. Bashore of 201 E. Townsend Road in April of 1965.

The announcement of the engagement is made by parents of the bride-to-be, Mr and Mrs Duane R. Jones of Waterford Township.

Both are attending Oakland University. Her fiancé previously attended General Motors Institute.

Congregationalists have everything ready for the fair

Tickets for the St. Johns First Congregational Church turkey supper are now available. Mr and Mrs Charles Dickinson, chairmen, announced that all members of Women's Fellowship are selling them. Mr and Mrs William Barber have tickets at the Julie K Shop for the convenience of downtown shoppers. The dinner hours are 5, 6 and 7 p.m.

"Men about town" may drop in during their afternoon "coffee break" for homemade doughnuts and coffee. The doors of "Ye Olde Markette Stalles" open at 2 p.m.

MRS WILLIAM Richards Jr. has had several "Indians" and "Pilgrims" posing for her. The posters she had made will be displayed next weekend in downtown places of business. The Congregational Church members are all making sure that the whole town knows of the gala event. It's a date, Thursday, Oct. 29!

Mrs Carl Bancroft and Mrs T. A. Brooke have been called to Walton, Ind., because of the death of their brother, Elmer Layman.

Michigan needs men of stature on the NEW COURT OF APPEALS

Elect DOYLE and BURNS

Non Partisan Judicial Ballot

AUSTIN J. DOYLE

Austin J. Doyle, 53, is a graduate of Loyola University College of Law. Following service as a Special Agent of the FBI, he has successfully represented litigants in state and federal courts and administrative agencies as a trial lawyer for 29 years. Presently a Commissioner of the State Bar, Doyle has long been a leader in civic, church, and Bar Assn. affairs. He is an active member of the Knights of Columbus, Optimists, and B.P.O. Elks.

ROBERT B. BURNS

A life-long resident of Michigan, attorney Robert B. Burns, of Grand Rapids, was born in Gobles, Mich. He attended Western Michigan University and Wayne State University Law School. He served with the Canadian and U.S. Air Forces during World War II. Was judge of Grand Rapids Municipal Court from 1954 to 1959. Has served as head of G.R. Legal Aid Society and has been active in the American Legion, Elks, PTA, Cub Scouts, and the March of Dimes. Coached junior baseball.

Why the Court of Appeals is Important
This new nine-judge intermediate appellate court was created by the new State Constitution to provide faster, less costly settlement of appeals now clogging the docket of the State Supreme Court and lower courts. Most criminal, divorce case, and civil lawsuit appeals will be settled in this appeals court, leaving the Supreme Court freer to deliberate constitutional questions.

Vote DOYLE and BURNS for Court of Appeals Judges • General Election, Tues. Nov. 3

NEWS FROM THE Rivard Nursing Home

AGRICULTURE in ACTION

by M. L. Woell

For sheer shock reading, nothing can beat the set of statistics titled, "Accidental deaths involving tractors and other machinery--Michigan, 1963."

Paragraph after paragraph, page after page, of the kind of reading that makes your heart pound and your head spin...

"Age 16, Clinton county, acute traumatic shock, ruptured spleen and liver. Tractor tipped over while turning around in middle of road..."

"Age 15, Manistee county, suffocation, tractor overturned on school grounds, was to be used to pull hay wagon."

"AGE 15, Isabella county, crushing chest injury, four children playing on farm tractor which turned over."

"Age 15, Lapeer county, (a girl) fractured skull, fell from load of hay being hauled by tractor."

Not all of the tractor deaths (there were 33 last year) fall in the teenage category. Ages of the unfortunates ranged from 3 to 83; but six of the fatalities were in the teenage bracket.

Reading between the lines, it appears that lack of judgement is a big factor in all cases. In the case of youth, it is coupled with the common, unthinking "fooling around" that is tied to the exuberance of youth.

IN THE older cases, it is the same deadly carelessness, with over half of the total tractor deaths caused by the farmer somehow overturning his machine.

Although tractors are by far the number-one killer, a long list of Michigan residents managed to become mangled or crushed to death in other machinery.

"Caught head in release lever of hay baler."

"Clothing caught in hay-loading elevator."

"Killed by flying piece of corn-chopper driveshaft..."

So why this listing of gruesome events? Because farmers were killed. And because their survivors in official resolution session at the annual meeting of the Michigan Farm Bureau begged that "farm families be made more aware of the dangers inherent in farm machines, especially tractors and machines operated by younger children."

Auto crashes as mom reaches to aid child

A mother reached to keep her child from falling in the car last Friday morning, and the auto wound up off the road and against a house in St. Johns.

Mrs Judy E. Paksi, 21, of 307 N. Whittemore, St. Johns, told police Officer Robert Ott her daughter, Kelly, 13 months old, started to fall to the floor of the car as she was driving north on

Whittemore (US-27) at Cass Street.

WHEN SHE tried to catch her daughter, she lost control of the car. It jumped the curb on the east side of the highway, then crossed the highway and hit a house planter at the Alfred Wacker home at 110 S. Whittemore. The planter was 25 feet from the edge of the roadway.

Mrs Paksi was given a ticket for failure to have her car under control. Neither she nor her daughter were injured. The accident happened at 7:10 a.m.

Teachers to attend leadership conclave

Some 100 or more teachers from Clinton and six counties east of here are expected to attend a leadership conclave Oct. 24 in Lansing. It will be sponsored by the Michigan Education Assn.'s Department of Classroom Teachers and will be held at Lansing's Dwight Rich Junior High School. Michigan DCT President Florence Mason of Manistee will be the featured speaker at the all-day meeting.

TODAY'S Meditation

from The World's Most Widely Used Devotional Guide

Read Acts 9:17-28
BARNABAS TOOK him (Saul) and brought him to the apostles, and declared to them how on the road he had seen the Lord, who spoke to him, and how at Damascus he had preached boldly in the name of Jesus. (Acts 9:27-RSV)

ONE DAY a friend showed me a small box. Music immediately came from it when I turned a knob. "A miracle," I said. My friend laughed, "No miracle; just a transistor radio."

We are so clever today that we can destroy a whole city with one bomb, send rockets to the moon, produce fresh water from salt water. Few things appear to be miracles now.

The dictionary says that a miracle is caused by a supernatural agency. Now if everything we did were kind, if everything we thought were pure and good, and if everything we said were helpful and loving, would that not be a miracle?

Jesus works such a miracle. If we allow Him to rule in our lives, we begin to live with a purpose. If we give Jesus Christ the chance, He works His miracle in us.

PRAYER: Loving Father, today work a miracle of love in my life and give me the grace to think purely and to act lovingly, through Jesus Christ, Thy Son and our Saviour. Amen.

THOUGHT FOR THE DAY: Unless there is the miracle of redeeming love in my life, the world will not believe in my Saviour. — Eric R. Eastwood (New Zealand)

Members of the Gunnisonville Aid Society are busily completing a quilt and colorful knitted wool afghan which will be prizes for their annual Yule bazaar and chicken supper Nov. 6 and 7. They are, left to right, Mrs. Oliver Angell, Mrs. Walter Placer and Mrs. Lawrence Stampfly. On either side can be seen one of the knitting bags and an artificial floral arrangement which will be among the bazaar items.

Four of the members of the Ladies Aid show off some of the attractive articles that have been made for the event. Left to right, Mrs. Ernie Fritz, general chairman, holds a doll with a crocheted dress that she made; Mrs. Glen Baldur, a floral decorated mirror; Mrs. Alva Hartman, wall plaque and centerpiece; Mrs. Merl Trowbridge, small floral arrangement. Other items are arranged on the table.

Ladies Aid prepares for annual Christmas event

BY MRS LOUI E. FRITZ
GUNNISONVILLE — Many hands make light work, and also bring results. So think the members of the Gunnisonville Ladies Aid Society, as they are busy working and planning their annual Christmas bazaar and chicken pie supper to be held at the Gunnisonville Community Methodist Church Friday and Saturday, Nov. 6 and 7.

The church will be open for the bazaar from 10 a.m. through the evening of both days. The chicken pie supper will be served from 5 p.m. to 8 p.m. Saturday evening.

THE Gunnisonville Ladies Aid was organized in August of 1963 after the ground breaking for the new addition to the church in May, so the women could help with fund raising and furnishing the new rooms, just as they did back in 1885 when they organized the first Gunnisonville Ladies Aid. They had a dream and, in 1888, saw that dream come true—Gunnisonville had built a new brick church. The initial cost then was \$3,000 and the new addition cost in 1963 was \$6,000.

IN THE past three years, the sanctuary has been completely renovated with a new altar, windows and other appointments and

In the next two weeks, the old bricks on the outside of the church will be pointed up and repaired. Plans are completed to terrace and landscape the church yard.

The new cyclone fence surrounding the church yard was a gift from the Angell family in memory of their mother, the late Mrs. Fred Angell.

He's found guilty of drunk driving

Dale T. Atkinson, 29, of 221 1/2 N. Pennsylvania Avenue, Lansing was found guilty last Wednesday in a justice of the peace jury trial of driving under the influence of liquor.

Justice Robert Wood presided at the trial. He fined Atkinson \$100 and assessed court costs of \$34.65.

Atkinson was arrested by city Police Officer Russell Doty on Aug. 16. He pled not guilty when arraigned before Wood.

Atkinson did not appeal the jury's finding Wednesday.

Mrs. Ernie Fritz is general chairman of the bazaar, Mrs. Bill Placer and Mrs. Alva Hartman are chairmen of the kitchen committee. Mrs. Margaret Stampfly is chairman for the dining room.

Mr and Mrs Glenn Baldur and Mrs. Sadie Austin of Lansing spent four days with Mr and Mrs John Neller of Bellaire last week. Mrs. Neller is a cousin of Mrs. Baldur.

Mr and Mrs Alva Hartman and Nancy were Saturday dinner guests of Mr and Mrs Allen Cable.

Pageant highlights church centennial

Highlight of the Centennial observance this past Saturday and Sunday at St. John's Episcopal Church here was the "Pageant of the Stained Glass Windows" which was presented both nights following evening prayer services.

The pageant was an original work by Mrs. Manning Bross of St. Johns and was based on the numerous stained glass memorial windows at St. John's Church. Skillfully interwoven in the text was an account of the founding of the Episcopal church here 100 years ago and its subsequent progress.

Serving as narrators were Mrs. Leo W. Corkin, Miss Kathleen Corkin and Ralph Lynam.

EFFECTIVE lighting of the windows and lighting effects within the church during the pageant were in charge of William Morriss. Music was supplied by the senior choir of the church. Mrs. Donalee Williams is organist and directs the choir. Bass soloist for the pageant was Dr. Manning Bross.

Costumes were in charge of Mrs. Lenore Jones and Delores Ferris served as prompter.

Among the members of the cast were Mrs. Jessie Finch, Henry Dellar, Dr. and Mrs. Franklin Smith, Sam Serrell, Mark Jones, Wendy Ward, Fred Ferris, Allan and Sally Boron, Robyn Hudson, Bruce and Brian Campbell, Lyn Smiley, Jeff Pouch, Gordon Smith, Carol Morriss and the Rev. Hugh E. Banninga.

SCORES of former parishion-

ers joined the present congregation in observance of the Church Centennial which opened with the Saturday evening prayer service and continued through the final performance of the pageant Sunday night.

The Rev. Hugh E. Banninga, present rector, was assisted at the Saturday and Sunday services by the Rev. G. Moore Morgan, retired rector.

Receptions were held in the undercroft of the church Saturday and Sunday evenings. The Rev. and Mrs. Banninga were hosts to Open House at the rectory Saturday and Sunday afternoons.

2 cars crash at Cass, Lansing

Two cars collided at the corner of South Lansing and West Cass Streets last Wednesday afternoon, but the three people in the vehicles were unhurt.

Gloria J. Masarik, 16, of 2088 E. M-21, St. Johns, was ticketed for failure to yield the right-of-way. According to police Officer Lyle French, Miss Masarik was going west on Cass. She stopped for the stop sign and then pulled into the path of the other car.

It was driven by Beatrice A. Parker, of R-3, St. Johns. She was going south on Lansing, and her car left 33 feet of skid marks to the point of impact.

The accident happened at 5:40 p.m.

Harmons surprised at cradle shower

ROCHESTER COLONY — Mrs. Robert Harmon was honored Sunday evening at a party held at the Duplain Methodist Church. She was lured to the church on the pretext that there was to be a Membership Commission meeting. Upon arriving at the church, the Harmon's were greeted with surprise by the many friends who had gathered there.

An attractively decorated cake, inscribed with the names of the couple's four children, with a question mark for No. 5 centered the refreshment table. The honored guest was presented with a group gift.

The MYF of the Duplain Methodist Church will call on residents Sunday evening, Oct. 25, for the annual UNICEF drive.

Mr and Mrs J. A. Ebersol of Lansing visited Mr and Mrs Walter Kaufman, Sr. on Sunday. Rev and Mrs R. D. Marmon of Grand Rapids were Wednesday night supper guests.

HORTICULTURAL vermiculite is also an effective medium for bulb storage—it maintains moisture balance so bulbs won't dry or rot. Simply pour a layer of vermiculite in the bottom of a cardboard carton, place down the bulbs, and pour in more vermiculite to form another layer.

Before storage, Dahlia roots should be removed from the ground—after the stalks have been cut within two or three inches—and dried upside down for a week. Caladium bulbs should be cleaned and then dried for two weeks in a cool place. Store at 50 to 60 degrees.

Bath informs on liquor issue

BATH—A Citizen's Committee for Bath Township was formed Oct. 16 to present the facts to the people on the issue, "Liquor by the Glass," at the Nov. 3 election.

Members represent a wide cross section of citizens of the township. This committee has inquired into the tax aspect of the election and found that no new tax money will come to Bath Township.

IT WAS learned by the committee that the local community would receive only \$297.50 or 85 per cent of \$350 license fee a year. This would be only 25 cents per person per year, and it was further pointed out that the state law stipulates that liquor license money can be used only to enforce liquor laws.

Liquor by the Glass Proposal
"Shall the sales of spirits in addition to beer and wine be permitted for consumption on the premises within the City of St. Johns under the provisions of the law governing same?"
on
Tuesday, November 3
This is not and should not be termed a moral issue inasmuch as we are not seeking anything unusual or which sets a precedent. Spirits are now available to 87.3% of the American public and was endorsed by the people of Michigan in 1933 by a margin of almost 3 to 1. The public should be able to make its own choice of beverages under properly supervised conditions.
Positive control of the licensed establishments serving spirits by the glass will be supervised by the St. Johns City Commission, the community leaders you have selected. The Commission will determine who will be licensed to sell spirits by the glass and will exercise the enforcement of local and state regulations governing the sale of spirits.
No city in Michigan where spirits by the glass has been made available has ever reversed its stand on this issue!
In a poll of the St. Johns Chamber of Commerce members, the results were 3 to 1 in favor of spirits by the glass.

686 Michigan schools accredited by U-M

The University of Michigan was the first institution of higher learning in the United States to accredit high schools, says Kent W. Leach, director of the U-M Bureau of School Services.

"The bureau has been responsible for the accrediting of both public and non-public high schools in the state since 1871," Leach points out.

"Society has evidenced a real concern about what high school programs are being offered to all boys and girls—those who plan to go on to a college and those who desire to go immediately into the world and work," he says.

"AS A RESULT, current accreditation standards relate to all phases of the high school, such as curriculum, qualifications of staff, school plant, and guidance programs."

The University has assigned to its Bureau of School Services the supervision of the accreditation program. The bureau cooperates with an Accreditation Advisory Committee composed of three

representatives of the university and five members from the state principals' and superintendents' associations, and the office of the state superintendent of public instruction.

Advisory decisions of the Bureau and this committee concerning the accreditation status of schools are subject to the approval of an executive committee composed of university personnel appointed by the board of regents.

CURRENTLY, there are 686 high schools accredited by the U-M, of which 523 are public and 123 are non-public, says Leach. The program is a voluntary one.

Information about high schools is obtained by having each school submit a detailed annual report and by visiting the schools.

Accreditation visits are made to about 175 high schools each year and each accredited high school receives at least one visit every five years. Some are visited by accreditation teams composed of faculty members from the various schools and colleges on campus, Leach explains.

OTHERS are visited by university personnel and school administrators invited from various geographic areas of the state. Following an accreditation visit, a comprehensive report is sent to the local school authorities.

"The university's accreditation criteria for high schools attempt to emphasize high quality academic programs, to foster an appreciation and knowledge of the fine arts, industrial arts, and the humanities, to develop programs of physical education and health, and to encourage opportunities for prevocational experience in programs geared for employment bound youth," says Leach.

"PERHAPS one of the more valid reasons for a high school's being on the accredited list is simply that a list is available to the public and constitutes one way of notifying the public of those high schools that are considered to be good schools," Leach concludes.

Specialist tells teaching duties in the schools

Miss Ann Wintermute, visiting teacher for the St. Johns Public Schools discussed the special education program in the school and her responsibilities as a visiting teacher at the East Ward Parent Teachers Association meeting on Oct. 12.

Following introduction of the teachers and PTA officers Mrs. William Puetz, principal, reported on the progress of teachers and students.

Mrs. Lewis Moldenhauer announced that the Cub Scout Pack is starting the fall program and asked those interested to contact Jack Hudson, cubmaster.

REFRESHMENTS were served by Mrs. Arden Birdslee, Mrs. Allen Behow, Mrs. Michael Adamski, Mrs. Donald Henning, Mrs. Eugene Scott, and Mrs. Lewis Moldenhauer. Clean-up committee members were: Mrs. Gordon Beard, Mrs. Jack Davis, Mrs. Richard Brammer and Mrs. Gordon Iacovoni.

A man may get short measure in many things, but it's different with his peck of trouble.

Circuit Judge Donald E. Holbrook (left) visits a teenager assigned to his "probation farm recovery program" on the William J. Walter farm near Clare. With him are Anton Wedal, probation officer; Walter; and Jim, the probationer.

Nature's therapy reasoning behind probation farm

"Nature's therapy seems to be the best approach for delinquent teenagers," Circuit Judge Donald E. Holbrook of Clare has observed.

His philosophy is partially based upon and partially the reason for his "probation farm recovery program." It's been in progress since the early 1950s, quietly placing problem boys from 17 to 21 on farms in Clare and Isabella counties.

SOME 125 to 170 boys have been placed with about 80 per cent effectiveness in the past 13 years.

Most of the boys come from the big cities, where evidence has shown many young people participating in violence and rioting. Social and political leaders have long been searching for means to rehabilitate juveniles who become involved in crime.

"USUALLY VIOLENCE in big cities is caused by living conditions—the closeness and great numbers of people living in small areas," the judge observed.

"Much of the youth problem is caused by no jobs for these boys. They get into groups or gangs. Vandalism occurs. They have very little supervision. They're out all night and sleep all day. Use intoxicants on many occasions. Little adult interest is shown in them. If they're poor students, they drop out of school," the judge continued.

"A great number of all youths who become involved in violation of the law can be helped through this probation farm recovery program. It teaches the boy he can live a normal life. He sees rewards in being a good citizen. The program helps him to develop the proper attitude towards society."

"I THINK the success of the program is founded on the needs of the farmer, the needs of the youth and a desire to help each other," Judge Holbrook maintained.

Forty-two-year-old William J. Walter, whose 205-acre farm is on Brown Road northeast of Clare, has been in the probation

program about eight years and has had 10 probationers.

They have contributed to his farm operation and have even helped his own son "grasp a lot that he wouldn't have without our having these boys," Walter said.

"I BELIEVE if you'd put these delinquent boys on any type of farm they'd really develop and become good citizens," Walter maintained. "I think this one is one of the best programs that has come down the line."

"When these boys come out here they don't know anything about a farm. Mother Nature is a wonderful thing. You don't realize it. If a person needs to be rehabilitated, Mother Nature will do it."

Walter pointed out with pride that he'd never missed a dime from the boys he had had on his farm, although he had money around the house. Two years ago, he left the farm in charge of his son-in-law and his probationer hired man so that he and Mrs. Walter could make a trip to Florida.

"WHAT ABOUT having these city boys of different races?" he was asked.

"Race shouldn't make any difference in this program," Walter replied firmly. "I've had Indian boys here. I think Negro boys can be taken on farms. You have to develop the boys. They'll do about everything you tell them to do."

Probation Officer Anton Wedal believes Judge Holbrook's program is not necessarily the answer to all delinquent youth problems, but it has been quite successful for many.

"THESE BOYS have come from a situation where they are not accepted and they have nothing to contribute. In this farm situation they realize that they are needed by the farmer. They're doing work that is useful and the important thing is they know that it is useful. We're saving the boy from going to an institution."

Judge Holbrook has had an abiding interest in young people over the years. He has worked with Boy Scouts, DeMolay and Big Brothers. He is a candidate for the new Michigan Court of Appeals in the Third District (including Clinton and 65 other counties) and promises to maintain his interest in the problems of young people.

Efficiency saves more than tax cut

The new income tax reduction program will save Americans \$7.7 billion this year. But farmers' efficiency will save them twice that amount in groceries alone.

Researchers estimate that without improved agricultural technology during the past 20 years, the average American would spend \$285 more per year for food. With about 55 million families in the United States, this would total \$15.5 billion.

L. M. TURK, director of the Michigan State University Agricultural Experiment Station, points out that research has enabled the average Michigan farmer to produce enough food for himself and 28 other people. And studies are currently underway to improve this efficiency.

At present, about 350 projects are in progress on the MSU campus and 12 outlying substations. Studies include the development of new foods and feeds, improvement of human and animal health, soil and forestry conservation and management, pest and pesticide research, and a host of projects related to the economic and social improvement of Michigan's people and resources.

"MODERN PRODUCTION and management developments are giving farmers some dollars and cents relief from the cost-price squeeze," comments Turk. "At the same time, they give consumers high-quality products at relatively low cost."

The Experiment Station director points out that Michigan ranks 10th or higher in the production of 30 of the nation's vital food crops. These crops, plus related processing and production industries, contribute many jobs to support the state's eight million people.

"THESE FACTS help to emphasize that every citizen of the state has an important stake in the agricultural research program," concludes Turk.

Minimum tillage, heavy planting swell corn crop

3rd of a series

By GEORGE McQUEEN Extension Agent

Experience is the best teacher and has sure proved profitable for some Clinton County farmers.

Oscar Simon of Dallas Township decided to give minimum tillage a try on his heavy clay loam soil. In fact the first year he tried it he double disced the dead furrows to smooth them down. Never again. Where the field was worked the corn was weedy, had a poorer stand, showed early symptoms of nitrogen deficiency and he felt yielded considerably less. Ever since he plow-plants all his corn.

CORN CLUB experiences of numerous farmers support this. With high yields, every time the field is worked over, the first tillage reduced yield considerably.

Simon used to plant a typical 14,000 kernels per acre, feeling that any thicker would give small ears and lower yield. In 1963 he planted just twice as many. Not only did each plant have an ear but a good-sized one too.

Test plots produced 170 bushels of dry shelled corn per acre. The entire 18-acre field cribbed well over 160 bushels of dry shelled corn per acre.

WARREN Coffman of Bingham Township was convinced that his sandy loam could never produce 80-bushel corn consistently. He started by having his fields tested. He applied the recommended fertilizer. It was a very dry year, but his plots looked good all year and yielded well above the rest of the field.

The next year Coffman took the big step. He increased plant population to give 21,000 kernels. Another very dry year. By following all of the Corn Club practices, these plots shelled out 134 bushels per acre.

NOW IF these poor sand fields

Warren Coffman

Oscar Simon (top) with George McQueen

produce under 100 bushels, Coffman feels he has a failure.

He credits cover crops with a big assist in obtaining and maintaining high profit yields on his sandy soils. He says cover crops help his fields as much as on the heavy soils.

SOME problems have been encountered typical of changing to more efficient production. Old planters often don't put the fertilizer below and to the side of the seed or put on enough seed. Even new drills give problems on seed spacing until proper gears and plates are used. Weeds may start and require development of a weed control program best suited for each farm.

Then to top it all off most older corn pickers cannot handle the corn produced.

VERY DRY seasons have restricted many yields. As farmers have worked out the problems, however, their yields have increased substantially. Now the Corn Club member's silage is yellow with kernels and often new storage is needed to handle the increased production.

Farmers using the best production practices through the Clinton County Corn Club or on their own have doubled and even tripled former production with a minor increase in costs. Often they find yields of other crops increasing on the same fields following corn.

English preacher to visit Lansing

Bryan Green, world renowned preacher, lecturer, and author, will fly from England for a series of speaking engagements in Lansing and other Michigan cities during the first two weeks in November.

Said to be one of the most forceful, dynamic and learned speakers of our time, the distinguished visitor will conduct a six-day mission in the auditorium of Lansing's Sexton High School. Services will be held nightly at 8, Sunday, Nov. 1 through Friday, Nov. 6.

DESCRIBED AS a man of prodigious energy and magnetic personality, Canon Green has traveled throughout the world and his missions have drawn thousands in such cities as Boston, Philadelphia, San Francisco, Houston, Washington, and other cities in this country. During one seven-day appearance in New York City more than 42,000 people flocked to hear him.

While his services are evangelistic in character, Bryan Green shuns the sawdust-trail, Bible-banging, highly emotional techniques of religious oratory. Nonetheless he is said to be a speaker of extraordinary power and intensity, with a rare ability to express complex ideas in the simplest language.

BRYAN GREEN is presently Rector of St. Martin's Church, Birmingham, England and is

REV CANON GREEN

Canon of the Birmingham Cathedral.

Canon Green is visiting Michigan at the invitation of the Rt. Rev. Richard Emrich, bishop of the Episcopal Diocese of Michigan. In addition to his appearances in Lansing, he will conduct "Bishop's Missions" in Ann Arbor and Detroit, where he will appear at Cobo Hall.

Hosts for Canon Green's Lansing visit will be the clergy and parishioners of Episcopal churches in Lansing and surrounding communities.

Road Commission Weekly Report

The Board of Clinton County Road Commissioners held their regular meeting Monday, Oct. 19. The meeting with the Ionia County Commission scheduled for Monday was postponed until Oct. 20.

The commission discussed the dead tree problem, new equipment needed, right-of-way for new construction, the audit report and a new plat in DeWitt Township.

LES DRAGOO reported on the Governor's safety conference. The county road engineer and clerk attended this conference at Flint Friday.

The Ionia County Road Commission met with the Clinton County commission on Tuesday morning Oct. 20. The two commissions discussed County Line Road agreements.

FOLLOWING this meeting the Eight County Council met at Eyer's Steak House. Present were road commissioners and officers from Clinton, Eaton, Gratiot, Ionia, Livingston, Montcalm and Shiawassee counties.

John Jacoby, legal counsel for the county road association, spoke on the new liability law. A general discussion followed on the dead tree problem and road hazard liability.

THE BRIDGE projects are all on schedule. Walt Fry of Fry Construction said that the Wood Road Bridge across the Looking Glass River was scheduled to be blacktopped on Thursday of this week, weather permitting, and will be open to traffic this week.

State hospital plans Christmas gift campaign

Through the outstanding generosity of citizens, either as individuals or civic groups, church organizations, schools, and others, Traverse City State Hospital has in the past few years been able to provide a wonderful Christmas for patients.

Many of these patients have no relatives or friends who in any way correspond with them or who will provide gifts at Christmas time.

AGAIN THIS year Traverse City State Hospital is appealing to its 39 county committing area citizens, asking them to participate in order that Christmas of 1964 will be the happiest to date.

Individuals and groups, organizations, schools, both young and old, are invited to have a part in this program.

Gifts for patients need not be expensive, but they must be new. They must not be wrapped. They should be mailed to the Community Relations Department, Traverse City State Hospital, and, if at all possible, should be received by Dec. 1.

THERE IS always a shortage of gifts for men. However, gifts for women, boys and girls, as well as men, are being solicited at this time.

If clubs or organizations would like to have a part in this program of Traverse City State Hospital, and if you need additional information, please write to Community Relations Department, Box C, Traverse City, and a Christmas gift suggestion list will be mailed to you, outlining mailing instructions and other information.

By Mrs Ray Ketchum

Mr and Mrs Frank Odell who have spent the summer here with her parents, Mr and Mrs Jesse Perkins, have returned to their home at Whittier, Calif.

Mr and Mrs Gerald Barrett and Jesse Perkins attended the funeral of Mrs Artie Plowman in Lansing Tuesday.

Mr and Mrs Ray Ketchum spent Sunday with her sister, Mrs Bernice Schafer and family of DeWitt. Mrs Eda White and Ed Sleight

of St. Johns attended a birthday supper recently for their brother, Donald Sleight of Cedar Lake district.

Mr and Mrs Jesse Perkins and Mrs Herbert Bishop called on Bert Angles of Owosso recently.

Mrs Helen Weston of Lansing was a Sunday dinner guest of her mother, Mrs Eda White.

Mr and Mrs R. G. Plowman of St. Johns spent Saturday evening with Mr and Mrs Ray Ketchum.

Mr and Mrs Gerald Barrett and Mrs Lela Coleman and Lloyd Beckwith spent the weekend touring the north.

Seeding, feeding, planting, raking—the tasks for fall gardening are many. But on a beautiful autumn day, it can be fun to take care of the chores that will help make the family garden a source of pride and joy next spring. Enrichment of the soil, lawn care, the planting and transplanting of trees and shrubs are all part of the experience. Selections of bulbs and planting in all the spots that are to be brightened next spring by tulips, daffodils and hyacinths are some of the most pleasant parts of fall gardening.

Fall is time to plan next year's garden

Wise gardeners seize the chance Fall offers to take care of necessary chores for next Spring's garden. There are many things that simply must be done in the Fall—like planting Spring flower-bulbs—and there are lots more that can be done for more time to enjoy next Spring's joyful garden.

The sleepy winter months and bust into bloom next Spring. MAKE YOUR own check-off list for the tasks that should be done in the next few weeks. Then relax with the satisfaction of knowing that your lawn has been given the best possible start and that the trees, shrubs and bulbs have been planted. Finally, remember to protect and then store all tools and maintenance equipment with the best possible care for the winter idleness. First, regarding planting: fall

is highly advantageous as a planting time. Trees and shrubs planted now will be firmly established by Spring, ready to break into normal growth without having to establish themselves in the precarious Spring weather. IN THE FALL the warm sunny days and cool nights stimulate root action. Since the tops are not growing during autumn, the roots of trees and shrubs keep right on growing well into the holiday season, even after frost has arrived. Here, a word to the wise is in order to guard against that prevalent danger, winter kill. In order to protect trees and shrubs against water loss in winter spray this fall with an anti-transpirant. This modern coating protects trees and plants, checking the killing process and eliminating the use of old-fashioned burlap screens and ugly wrappings.

WHEN RESEEDING or starting a new lawn, remember that bargain seeds always prove more costly in the end because they are short-lived and usually cover far less square footage than a good, reliable seed from a reputable house. By selecting the proper seed and a quality fertilizer the health and beauty of next Spring's lawn are assured. Fall is also the time of the year to improve the soil of your property by mixing in vermiculite, plant food, top soil, humus, etc., all of which can best be done in the autumn, either by hand or with a tiller—prior to planting.

ALL THE foregoing may sound as though the job of garden maintenance is a never-ending one. But the Autumn cleaning is far more important than Spring cleaning—for garden health. If the garden is made spic-and-span for winter, the grass, trees, shrubs, and flowers are provided opportunity for full growth next Spring. With motorized maintenance equipment fall leaves and grass clippings, and "thatch" and debris, can readily be disposed of. By the application of weed-killer and insecticide this fall, next season's garden gets a better chance. If this is not done, the snows may provide a cozy incubator for these pesky pests and weeds to thrive and make early Spring garden work much harder.

WHILE ALL the garden work done carefully and expeditiously guarantees a lovely Spring, another phase of fall gardening will delight the homeowner by providing an indoor garden in mid-winter. The wonderful pastime of forcing flower-bulbs to early bloom and the ability to cultivate plants and shrubs for indoor use can all be done in red clay pots.

Ever since man mastered the ancient art of pottery, he has been fortunate enough to be able to garden indoors in winter climates, with the use of nature's own material, pots of ordinary clay. Bulb's planted this fall to blossom in mid-winter will cheer the bleak months with colorful displays of tulips, daffodils, and hyacinths. Indoor forcing can thus result in blossoms in January, February and March.

Urge early Michigan Week plan

Community programs highlighting Michigan's rapidly expanding world trade and the contributions of Michigan people to progress around the world will be expected of all towns, big and small, in their observance of Michigan Week next May 16-22.

That's because the 1965 Michigan Week theme is "Michigan—dynamic in World Progress."

THE CALL TO all communities to start planning such programs came jointly from General Chairman Woodward C. Smith of Mt. Pleasant and C. S. Harding Mott of Flint following Mott's appointment as chairman of the Michigan Week Program Board for the second year.

All state committees for Michigan Week are grouped in six activity boards. In the program board are the committees on the seven special days, the mayor's exchange and several other Michigan Week programs.

One of the major program committees of Michigan Week is the one which directs state-wide activities on the year's theme. The theme committee for 1965 will be appointed very soon.

THE STATEMENT by Smith and Mott said:

"We urge officials, business and organization leaders and school and administrators of every town to start planning together at once for lively community programs carrying out the 1965 theme. We hope that in rural areas agricultural groups will take a leading part in this planning.

"Today it would be difficult to find a community that doesn't have a stake in Michigan's world trade or one that doesn't have contacts and interests that add to Michigan's place and stature in the world, whether through student exchange, travel of its citizens or something else.

"CERTAINLY there is no community but can help show Michigan to advantage to the people of the world. We want to see all towns sparkle next spring with community programs along these lines. This requires a great deal of community planning this fall in schools, chambers of commerce, councils of social agencies, unions, service clubs and elsewhere.

"We are asking the regional and County Michigan Week organization to lose no time working with community representatives in follow-up to our appeal.

"IN ITS 11 years, Michigan Week has never had a theme better suited to dramatic educational activity in the community or one that would do more for promotion of the state than 'Michigan—Dynamic in World Progress.'

"All Michigan Week programs should reflect the theme in every way possible but especially there should be significant and interesting community programs built on the theme."

Air conditioning World's Fair house challenge

Air conditioning a conventional residence is a simple matter compared to the problems which confronted Lennox Industries Inc., the company selected to provide comfort for the House of Good Taste at the New York World's Fair. A report on the solution has recently been received by Ken Munger of R. E. Benson Plumbing & Heating, local Lennox dealer.

Although the House of Good Taste is comparatively large—4,000 square feet—the air conditioning would not have been a major problem except for the fact that provision had to be made not merely for cooling the house as it would ordinarily be occupied, but with more than a hundred people passing through the house every hour.

NOT generally known, Munger notes, is the fact that every human body is a small furnace that gives off a constant flow of heat. When people are active (and per-

spiring, as many certainly are at the Fair) they represent a heat dissipation problem that greatly multiplies the amount of air conditioning required.

Actually, Lennox engineers estimated that the house for ordinary occupancy would have needed about five tons of cooling capacity. For the steady stream of visitors through the house, that calculation had to be multiplied by five!

Again, just adding additional cooling was not a major problem except that as the cooling demand increases, so does the amount of circulating air. To avoid a hurricane of chilly air that would have been most uncomfortable for visitors, Lennox had to devise a distribution system that would keep the house comfortable, but at the same time would not have excessive air noise or drafts.

THE ANSWER was to apply the same method used to handle a similar problem at the Seattle World's Fair—multiple openings with each one delivering a moderately low velocity of conditioned air. Excessive noise in a residential air conditioning installation cannot be tolerated, Lennox engineers insist, pointing out that the greatest need for this comfort technique is at night when the absence of ordinary daytime sounds makes any mechanical noise particularly objectionable.

The House of Good Taste in which the Lennox equipment is installed was designed by Jack Pickens Coble of New York. Fair officials estimate that some 10 per cent of the 70 to 80 million visitors at the Fair will visit the House of Good Taste.

The only good that is good for one is the good that works for the good of all.

St. Johns police Officer Russell Doty looks over battered safe belonging to the Dog and Suds Drive-In. It was recovered last week in Victor Township, minus the \$200 that was in it when stolen Oct. 1. Two men have been charged with the burglary.

2 men being held for safe robbery

Two men are in Clinton County Jail after their arrest for the Oct. 1 burglary of the Dog and Suds Drive-In on North US-27 in which \$200 in cash was taken.

They gave their names and addresses as: Mitchell Makdon, 18, of 719 Broadway, Owosso, and Robert Alvin Tower, 21, of R-1, Elsie. They were arrested last week.

ARREST OF a third man—Gary Duane Presley of Owosso—is still pending. He has been located in Rolla, Mo.

Tower waived examination when he appeared before Justice of the Peace Robert Wood last Wednesday. Makdon at first demanded examination, but on Thursday appeared again to waive examination.

Both men were bound over to circuit court for arraignment Oct. 26. Bond was set at \$2,500 each.

THEY WERE arrested after a gasoline station operator near Owosso tipped off Shiawassee County sheriff's officers when the suspects reportedly tried to change \$100 in silver in Elsie State Bank Wrappers for bills.

The Shiawassee officers recalled the St. Johns safe job and were able to locate Tower through another tip from the station operator.

TOWER took them to a spot on

Jason Road a mile and a half east of Shepardsville Road. There the safe was recovered. Tower implicated Makdon and the third man.

Clinton County Sheriff Percy Patterson said Tower and Makdon are wanted in connection with a robbery in Saginaw, and he had a "hold order" to hold them for the state police at Bridgeport.

THE ST. JOHNS safe job netted the robbers just under \$200, E. J. Tupper, owner of the drive-in, told police the small safe contained \$100 in currency, mostly \$1 bills, and \$100 in change. Several coins were found lodged in corners of the safe when it was recovered.

Bridge classes postponed

Bridge instruction classes, under the St. Johns Recreation Dept. fall and winter program, have been called off for the time being.

Roger Kowalski, director, said only one person attended the first class, and only one other indicated attendance at the second class. Kowalski said about 16 would be needed for a good instruction class.

He said bridge instruction would be tried again after the first of the year.

Two city propositions merit your Yes vote

It appears to us that two city propositions presented to St. Johns' voters at the Nov. 3 election should be approved.

The No. 1 proposition calls for the establishment of a Municipal Court in St. Johns and would eliminate the present Justice of the Peace court.

The No. 2 proposition provides for an increase in the present compensation of City Commissioners—from \$3 to \$10 for each of their 24 regular meetings annually.

THE MUNICIPAL Court proposal is one which has been considered and recommended by various study groups here for a number of years. The new Michigan Constitution which provides for the elimination of the office of Justice of the Peace will eventually make a change in the local court system mandatory.

The proposal, which the City Commission is submitting to the voters for approval, provides for an elective Municipal Judge who would be an attorney and a salaried official.

The "fee system" for payment of judicial officers has never seemed equitable to us. While St. Johns has been well-served in most instances by this system, there are few valid arguments for its retention.

COST OF THE proposed court is not a major item. In fact, it is probable that new revenues accruing to the city from the court will maintain it.

The Municipal Court would have jurisdiction in civil cases beyond the limits of the present Justice Court and should help to expedite the handling of considerable litigation that must now go to the Circuit Court.

If the voters approve, the resolution setting up the new court gives the City Commission authority to name a Municipal Judge to serve until the next city election in 1966. Thereafter, the Municipal Judge would be elected for a term of six years. The resolution provides for a salary of not less than \$6,000 nor more than \$12,000.

COMPENSATION of City Commissioners has been ridiculously low in St. Johns for many years. The \$72 annual salary is a joke.

The No. 2 proposal to be presented Nov. 3 provides for a \$240 annual payment to Commissioners—still only a token amount for the tremendous amount of service they are called upon to render.

We don't think the additional payment will assure us of any better city government, but we think the compensation proposed is long overdue.

We straddle the fence on the booze matter

Liquor-by-the-glass will be an issue in four Clinton areas at the coming Nov. 3 election—in Bath, Bingham, Olive and the City of St. Johns.

In each locality the voters will be asked to indicate their approval or disapproval of the sale of spirits, other than beer or wine, for consumption on the premises. The matter has been brought to a vote by tavern owners who have circulated petitions among the electorate to place the proposition on the ballot.

WE HAVE no notion what the outcome of the election will be in the several areas affected and we don't intend to take a position in the matter. It's a decision which each individual must weigh for himself.

The editor is presently a teetotaler but he has no desire to force his abstinence on others. Booze is all right for those who can handle it. It's poison for those who can't.

Vote to suit yourself Nov. 3. We're comfortably astraddle the fence on this one.

RAMBLIN' with Rink

BY LOWELL G. RINKER

No more weather predictions for me. The return of Indian summer at such inopportune time leaves me a little flustered—but happy.

Indian summer is always a good time of the year. It's a kind of a refresher week or so when you can get yourself readjusted after the summer and before the winter sets in.

It's also almost an autumn spring fever.

SPEAKING OF predictions, there have been many many times when I have thought that the economy of our country would be better—with fewer or no slumps—if there weren't predictions about it.

I think the suggestion of a business slump is almost enough to bring it about. This little story I ran across several years ago is an example of what I mean.

"A MAN lived by the side of the road and sold hot dogs . . ."

"He was hard of hearing so he had no radio. He had trouble with his eyes so he read no newspapers.

"But he sold good hot dogs.

"He put up a sign on the highway telling how good they were.

He stood by the side of the road and cried, 'Buy a hot dog, mister.'

"AND THE people bought.

"He increased his meat and roll orders. He bought a bigger stove to take care of his trade. He got his son home from college to help him.

"But then something happened . . ."

"His son said, 'Father, haven't you been listening and watching TV? If money stays tight, we are bound to have bad business. There may be a big depression coming on. You had better prepare for poor trade.'

"WHEREUPON the father thought, 'Well, my son has gone through college. He reads the papers and listens to the radio, so he ought to know.'

"So the father cut down on his meat and roll orders. And he no longer bothered to stand on the highway to sell hot dogs.

"And his hot dog sales fell almost overnight.

"You're right, son,' the father said to the boy. 'We are certainly headed for a depression.'"

An open letter to a young idiot

An unknown editorial writer in Illinois recently wrote an open letter to a kid in a car. He could have mailed it to any number of young Clinton County youngsters we constantly see screeching their cars through town, scaring the daylight out of everyone.

If you think one of these idiots might live under your roof, tell him to read this:—

Dear Kid:

I don't know your name, but if you read this letter, you will know it is you I'm talking about. You saw me Sunday afternoon while I was playing golf at the Waterloo Country Club—remember? You were tearing down the county road headed for Route 3 as our group was about to tee off on number 8.

You sped down the road with your defective muffler making it sound like you were going twice as fast as you really were. So you accomplished part of your purpose, didn't you?

You attracted a lot of attention with a lot of sound and fury signifying nothing but a reckless disregard for life—your life, the life of the girl you had your arm around, and the life of anyone else on the road that day.

LUCKY FOR YOU we couldn't note your license number as you sped by. Lucky, too, that some mother with a car full of kids heading for an afternoon of swimming wasn't heading for the club when you zoomed over that blind hill, right in the center of the road.

Lucky this isn't a story of a highway tragedy such as happened Sunday at Bowling Green, Mo., with eight persons killed instead of just an open letter to you.

THE ROAD YOU were speeding on is a well traveled public road—not your private drag strip. If someone had been coming over that hill as you sped over it with no way of knowing what was on the other side, probably more than one person would have been killed or terribly injured, and one of them would have been that girl you had your arm around.

How do you think her face would have

looked flattened against the dashboard of your hot rod, or cut to ribbons by the shattered glass of the windshield?

JUST WHOM were you trying to impress? The four golfers? Well let me tell you something about golfers, kid. The only way you can impress them is with a 3 on a 450-yard hole.

Maybe you were trying to impress the girl. Well let me tell you something else, kid. I'm sure she wasn't impressed one bit. She was probably scared to death, although she would be the last to admit it.

If she was impressed with your "bravery", a date with her isn't worth the price of the gasoline you used in that quarter mile dash.

KID, QUITE possibly you are not one bit "shook" by this letter. I know your kind. You think I'm a prude, a meddler sticking my nose in somebody else's business, and a frightened old fashioned square.

You think you are too good a driver to get creamed in the middle of the road, and that when your time is up you'll get it whether you're at home in bed or peeling rubber on the highway.

Well, let me tell you another thing, kid. I've taken pictures of the twisted gory bodies of drivers a thousand times better than you—most of them dead because they came up against a situation that all the driving skill in the world couldn't cope with.

AND AS FOR your warped, immature, fatalistic philosophy about "getting it when your time's up," I suggest that if you are going to participate in adult activity—and driving is strictly for adults—you better get an adult philosophy of life—you better start caring about somebody besides yourself—you better talk to a clergyman about the sanctity of life and get yourself straightened out, kid, before you kill yourself, your girlfriend, and a lot of other people.

In short—shape up. Nobody else can shape you up—except an embalmer, and sometimes even an embalmer can't shape up the results of fool driving like yours.

Newsman impressed with community

JIM SPOUSTA kindly sent me a clipping of your weekly column in which you mentioned my visit to your office. I was delighted that my trip to St. Johns recalled memories of earlier years when Guy and Fane Norton were up-and-coming young men in the community.

I APPRECIATE your thought of me and already I am looking forward to visiting St. Johns again next summer.

My wife and I enjoyed our trip through Michigan and it revived my memories of my earlier work in your state when Mike Gorman was the editor of The Flint Journal.

THIRTY-TWO YEARS is a long time and I was amazed with the great changes in state. I felt a little lost in Flint although years ago I knew every cranny in the city.

St. Johns is a friendly city and as I walked along the main street I was deeply impressed by the friendliness of the residents, and I enjoyed every minute of my trip. The merchants were exceedingly courteous and, indeed, it was a real pleasure to visit their shops.

I also felt a deep sense of civic pride in those with whom I spoke and the hospitality my wife and I received in the homes we were privileged to visit was overwhelming.

ST. JOHNS is a fine town and I hope that someday I shall be able to retire to a little white frame house on one of its tree-

He's enthusiastic about his water

OVER 100 YEARS ago when John and Harriet Ward first came to Michigan from New York state one of their first thoughts was of water. So they sought a cool, clear spring. They were natives of Lincolnshire, England.

They built the log house about 1855 and dug a spring hole, which was only a box about 10 feet square of rough-hewn planks of oak. It was about seven feet deep and had a board cover with a square hole in the center about two feet square.

The water was hauled out by a bucket and a rope. The cattle and oxen were watered in a log trough and later in a half barrel. This spring lasted for 75 years.

THAT SPRING served from 1855 to 1923 and seldom failed, wet or dry.

The first real well was near the cabin and I still remember the old well, a hole about 12 feet deep and 5 feet in diameter, stoned up without mortar. I suppose an occasional frog or mouse got in, but it was a little better than

the spring and close to the house at least.

About 1890 a new well was dug near where the new home was to be built in 1896. It was about 30 feet deep, dug by hand and plastered up as it was dug. It was about 2 1/2 feet in diameter when finished and is still there with water in it to within about eight feet of the top, but it never worked too well.

SO ABOUT 1900 a steel pipe well was driven down through the bottom of this well. This was two-inch pipe and went down 110 feet and washed by a quick-sand vein that after 62 years still gives that cool sweet water at about 50 degrees winter and summer.

The first casing lasted about 25 years and was replaced by a new one that used a well machine run by a Model T engine. For 30 years we pumped by wind power.

This well has been repaired several times since and now we use a Gould rotary pump and a jet system. This pump has been used since 1951 and still works fine. The pump is in the basement and the pipes go through a tunnel about 15 feet to the old well.

A SIMPLE VALVE, operated from the floor of a bedroom with a screw driver, allows water to flow to a tank at the barn 350 feet from the well. This pipe and tank were installed five feet below the surface 40 years ago and still work fine. The tank was made of concrete and is as solid as ever.

We have seldom used a tank heater and this winter and last

have had lots of ice in the tank, but seldom in 40 years have we failed to have water at this tank.

One time the well casing had a leak and we had sand in the whole system. It even pumped sand into the house plumbing and to the barn tank.

WELL, GOOD OLD H2O is the oldest and finest drink of all times and no one could live over a few days without it. There is no substitute for it, and no life can subsist without it.

It is the most abundant and necessary compound. It is one of the best fluids for the fighting of fire, but when broken down into pure oxygen and hydrogen, we have gases that are highly inflammable and dangerously combustible.

It's a strange and interesting world we live in.

MICHIGAN MIRROR

New board of education to be very powerful unit

BY ELMER E. WHITE
Michigan Press Ass'n.

Far down the list of officers on the Nov. 3 ballot will be a group of contestants for the new State Board of Education, a very powerful unit under the 1963 Constitution.

The Constitution makes the eight-member body responsible for "leadership and general supervision over all public education . . . except as to institutions of higher education granting baccalaureate degrees . . ."

"IT SHALL serve as the general planning and coordinating body for all public education, including higher education, and shall advise the legislature as to the financial requirements in connection therewith," the document continues.

Four short paragraphs of the Constitution gives this board control over about one billion dollars in state funds for various institutions.

With the exception of the 10 degree-granting public colleges and universities, the State Board of Education will hold tight control over the regular public schools, vocational training institutions, community and junior colleges, and facilities for special education.

THE PRESENT superintendent of public instruction will be replaced by an executive officer appointed by this board, serving a term to be determined by the board.

On the ballot this fall are candidates seeking to initiate the

first policies of the State Board of Education. They will serve staggered terms ranging from two to eight years, but eventually each member will be elected to an eight-year term.

Appointment powers of the board also extend to the creation of a State Board for Public Community and Junior Colleges, an advisory body designed to serve in this ever-growing area of higher education.

COMMUNITY AND junior colleges will remain under supervision and control of locally elected boards by dictate of the Constitution, but the State Board is given power of general supervision and planning for these institutions. State funds to these schools will go through the State Board.

The extensive powers given to this board by the Constitution requires close attention by the voters to the candidates this year and in the future.

THIS BOARD will be responsible for an area of public concern which is more important today than ever before and undoubtedly will continue to hold this importance as years pass.

Although nominated on a partisan basis at conventions, members elected to this board are being given a free hand with a valuable tool which requires non-partisan thought and action.

GOOD news for Michigan workers and businessmen alike was confirmed recently by the Department of Economic Expansion.

In case some had not been otherwise affected by economic growth and employment opportunities in the last few years, Department Director B. M. Conboy announced that state industries are expanding this year at a rate about twice that of 1963.

The total comparison of major construction during the first 8 months of the year showed contracts totaling nearly \$1.5 billion, or slightly less than twice as much as in all of 1963, Conboy said.

"EVEN more encouraging than the total comparison is a two-fold increase in construction contracts for manufacturing plants," he said.

A long range report on recent economic activity in Michigan also was favorable.

Conboy said Michigan had 2,226 "favorable moves" by industry in the past 7 1/2 years as compared with 511 "unfavorable moves." The department considers moves into the state, expansion activity, new starts and reopenings in the "favorable moves" classification.

BELOW normal temperatures and frequent intermittent rains in the past few weeks have brought to mind the perennial motoring problem of icy overpasses and bridges on highways.

Highway Department studies show there are about 2,800 overpasses which tend to become icy while adjacent roads remain dry. Cold winds circulating air over and under the bridges cool the surface and cause any moisture present to freeze into a thin layer of ice not always apparent to the eye.

One sign of freezing can be noted if metal signs near bridges and overpasses are frosted when the highway appears dry, highway experts advise.

ALL ATTEMPTS to insulate bridge decks against this early freeze driving hazard have been unsuccessful.

Strength of big beech sets example for man

HAYDN PEARSON

A massive, dignified gray beech stands on an open pasture hillside like an elderly patriarch who calmly surveys the scene and is both amused and tolerant of the foibles of fretful man kind. There is something solid and dependable about such a tree in a world of flummoxing tensions.

The gray beech is a handsome tree with its smooth, warm-gray bark flecked with bits of black. Leaves are paper-thin, sharp-pointed and narrow at the stem end. In autumn they change to a pale gold hue and often hang on the trees until late in winter. The staminate flowers develop on long drooping stems.

SINCE PIONEER days boys have gathered the four-sided small nuts, each with two meats. Early settlers let their pigs roam the woods for the nuts, and in the days of passenger pigeons, the birds fed on the "mast" in the fall.

In colonial days there were vast stands of the noble trees, and travelers in their journals described magnificent forests in the river valleys. From Nova Scotia to Florida and west to Wisconsin,

the beech has played an important role in the development of a nation. The close-grained wood has heated cabin fireplaces; it has been used for woodenware and shoe lasts.

NO LONGER are there stands of great trees where interlocked branches above woodland aisles reminded one of cathedral sanc-

tuaries. But here and there one can find groups of the gray beeches. One can see individual trees on pasture hillside or in valley woodlands. The gray patriachs are part of the countryside beauty. In their steadfast strength as they meet the blizzards of winter and the heat of summer, they set an example for man.

Do we really need a Medicare Tax ?

Health care is now available for "over 65's" who cannot afford to pay

If you are over 65, facing medical expense and can't pay for it . . . it's yours for the asking, already provided for by law. The Kerr-Mills Act offers a Health Opportunity Program for the Elderly with the federal and state governments sharing the cost.

In most states this care is far, far greater than that offered by Medicare proposals . . . and no additional tax is necessary!

If you are elderly, and without funds for needed medical care, ask your doctor about the Health Opportunity Program for the Elderly, or call your local medical society.

166,443 units of blood in Michigan

A total of 166,443 units of blood was collected from Volunteer donors in Michigan by the American Red Cross during the fiscal year ending June 30.

Most of the blood was obtained during bloodmobile visits in the 44 Michigan counties or communities participating in the blood program. Regional blood centers serving Michigan are located in Detroit, Lansing, and Muskegon, as well as Madison, Wis.

IN ADDITION to the community and private hospitals served by

the Red Cross Blood Program, the blood needs of six federal institutions located in Michigan are partly met through the Red Cross. These include veterans hospitals in Iron Mountain, Ann Arbor, Dearborn, and Saginaw; the Public Health Service in Detroit; and Selfridge Air Force Base.

The blood is distributed, without charge for the blood itself, as whole blood to the participating hospitals. When the whole blood is outdated, the plasma or liquid portion is drawn off, pooled, and sent to processing labo-

ratories where it is converted into medically useful blood derivatives.

THE BEST KNOWN of these products is gamma globulin, an infection-fighting blood element used to prevent or modify measles and infectious hepatitis. It is also given to patients whose deficiency of this blood fraction makes them highly susceptible to infections.

A special kind of gamma globulin, coccinia immune globulin, or VIG, is developed from blood

drawn from armed forces recruits recently vaccinated against smallpox. VIG is used to counteract rare but serious reactions to smallpox vaccinations.

ANOTHER important blood derivative is serum albumin, used to combat shock from burns and other injuries and to treat certain kidney diseases.

Also provided to hospitals and physicians was fibrinogen, a blood product used to control hemorrhaging, chiefly in childbirth cases.

Last year Red Cross supplied hospitals and physicians in Michigan with eight 5-milliliter units of VIG; 12,530 hundred-milliliter units of serum albumin; and 474 two-gram units of fibrinogen.

Poison prone

Children under five years old make up 86 per cent of the accidental poisonings in this county. More poisonings take place in the kitchen than in any other room.

Space problems happily solved here!

Families on-the-grow often create the need for more living space. Frequently this can only be obtained by moving into larger quarters. Best solution, in many cases, is to buy a new home of their own. If this raises the question of financing, we have the best answer to that. We'll arrange a Home Loan that can be repaid just like rent. Cost of the loan is low. Service prompt. Come in, talk it over.

In other cases, the necessary extra living space can be developed right in the family's present home by finishing off extra rooms in attic or basement, enclosing a porch, converting an attached garage. The necessary funds can be obtained on a low-cost Home Improvement Loan from us.

Miss Lowell teaches 39 years, finds retirement a lot of fun

BY MABEL OPPENNEER

Anyone who has qualms about having doldrums, consequently unhappiness, in retirement, should talk to Miss Helen Lowell of 13500 Francis Road.

After a 39-year teaching career, she retired in 1960 and she says "I am having a ball. Never had so much fun in my life."

MISS Lowell continues to live in the home where she was born—among her many memories and family heirlooms. She has five rooms charmingly furnished with attractive antiques but she does not collect.

She started her career by teaching in rural and small town schools. She taught English five years in Pattengill Junior High School in Lansing, and 25 years in West Junior High School. The last five years, she was the coordinator of the guidance program at West Junior.

ONE GOAL she had when she entered retirement was "keeping busy." "I think the key to happiness in retirement is keeping busy, having many interests, and having friends in many groups."

One of the first things she did was to re-join the Starr Aid Society which her mother helped organize years ago in their neighborhood. "I wanted to become a better resident of my community than I had been able to be while working," she said. "This is a wonderful neighborhood and I am enjoying the associations with my neighbors." Last spring, she worked on the fund raising campaign for the American Cancer Society and met many of her neighbors that she had formerly had infrequent contact with.

SHE IS a member of Phi Beta Kappa honorary society of the University of Michigan, and of Delta Kappa Gamma at Lansing. She is serving for the fourth year as co-chairman of the Lansing branch of the scholarship committee of the University of Michigan Alumnae Club and recently gave a report of the state scholarship committee for the Alumnae Council at Ann Arbor. She is a member of the board of directors of the Lansing Area Retired Teachers Association, and she served two terms on the board of directors of the Michigan Education Association. She is a member of the National Education Association and of the Farm Bureau.

MISS LOWELL prepared financially for retirement by having expensive remodeling and repainting that she desired completed in her home before her regular paychecks stopped.

"I think sometimes people worry unduly about finances when they are faced with the retire-

Miss Helen Lowell admires an "original" in oil on black velvet by Frank Schirman that she bought while traveling in Honolulu, Hawaii, last summer. She is wearing a mandarin jacket of hand embroidered white silk on black satin which she bought on the open market in Mexico. On the table is a folded "robozo" or large stole woven with a geometric pattern in blue on white wool. The ends are of tied fringe in a pattern.

ment age," she said. "It's a little difficult to imagine living comfortably without working. But, it definitely can be done."

SHE DID not go into retirement burdened with debts which she thinks is unwise. And, with forethought, she has arranged a comfortable retirement program. She likes people and she enjoys travel.

Before retiring, she had visited most of the states of the nation, Central America and Mexico. Since retirement, she took a trip to South America and, only last summer went to Hawaii. Next spring, she plans to travel west with some friends. The trips she takes through the National Education Association are doubly enjoyable because the group is made up of teachers who have common interests. Travel gives her a good background for current news, too. She has brought back many interesting mementoes from her journeys.

SHE ALSO likes to entertain, cook, read, and she makes her own bread.

Companionship is as near as her telephone. She can always call Miss Camille Hammerberg or Mrs. Harriet Sandberg of Lansing, or Mrs. Ruth Waddell of East Lansing, when she has an urge to visit or go somewhere. They, too, are retired teachers, ready to go places and do things.

"One of my greatest blessings," Miss Lowell said, "is good health. I am never ill and I feel just great."

Good health plus many interesting friends and neighbors plus a comfortable retirement plan. Who couldn't be happy?

Keeping up with new ideas and turkey talk

By BETTY KETCHAM
County Extension Agent

Do you have a hard time keeping up with the latest? Well, I do. The other day, much to my chagrin, I found out I wasn't even keeping up with the past.

Now that baking chocolate is squeezed from a bag, I've found out how to melt it without getting a pan dirty. You simply melt it in the paper wrapper! Place the wrapped squares of chocolate in the double boiler, a pan over low heat or in the oven. Just open the wrapper and the chocolate runs off—no fuss, no mess—no dirty dishes.

IT'S TIME to talk turkey. This year's production is expected to exceed last year's by about eight per cent. More in cold storage, too. This should make the food shopper happy because the plentiful supply of turkey means bargains for her at the food store.

If you're up to date on turkey fact, you can even save more pennies for Christmas shopping.

TOM AND hen turkey prices differ. At least they always have, due to the belief that hens are more tender. This is not true! Today, Tom turkey is just as tender and rates equally in quality with his sister, hen.

Many food shoppers do not realize this change, so they demand hens—keeping the price higher on the hens.

Be smart—check and compare prices. Add a little extra to your pin money. Your family won't be able to tell if it is Tom turkey or Hen turkey they are enjoying.

Low-calorie salad is full of flavor

Here is a low-calorie salad that makes an ideal accompaniment for almost any meal—simple lunches, family suppers, or dinner parties.

You will find this vegetable salad mold low in calories, but full of flavor. Furthermore, it is easy to prepare.

VEGETABLE SALAD MOLD -12 (Serves 6)

- 1 envelope unflavored gelatin
- 1/2 c. cold water
- 1 c. very hot water
- 1/3 c. vinegar
- 1/4 tsp. salt
- 1/2 c. shredded cabbage
- 1/2 c. diced celery
- 1/4 c. cooked fresh green peas
- 1/4 c. cooked diced fresh beets

Sprinkle gelatin onto cold water to soften, then dissolve thoroughly in very hot water. Stir in vinegar and salt. Chill to unbeaten egg white consistency. Fold in shredded cabbage, diced celery, peas and diced beets. Turn into large 3-cup mold or individual molds. Chill until firm. Unmold and garnish with salad greens.

Grand Haven club to host federation

Final touches are being made by the Woman's Club of Grand Haven to host the West Central District, of the Michigan State Federation of Women's Clubs Tuesday, Oct. 27, at the First Presbyterian Church in Grand Haven for its annual convention. Mrs. Richard J. Krutzenga and Mrs. Jack G. Kulper of Spring Lake are chairmen.

An early coffee hour will precede the registration from 9:00 to 9:30 a.m. through the courtesy of the Grand Haven Woman's Club with Mrs. Foster Poe as chairman.

INVOCATION will be given by Rev. Albert G. Parker III and welcome by Mayor William Creason. Musical selections will be provided by the chorus of the Tuesday Musicals of Grand Haven under the direction of Alden Burgess and also by Donald Tague and Leon Langman.

Three addresses will feature the day's program: Mrs. James A. Quinn, MSFWC president, "May All Be One"; Mrs. Charles L. Rose, first vice president, MSFWC, "Education for Freedom and Growth"; and Mrs. Robert vanBlaricon, second vice president, MSFWC, "Clubwomen, A New Division."

THE EVENING'S program will feature Dr. Wallace Robertson of East Lansing, pastor of the People's Church. His topic will be "Is the Price Right."

The noon luncheon will honor district department and division chairmen and the banquet at Schuler's in the evening will honor state and district officers and past presidents of the district.

Mrs Hamer heads council of extension workers

"Give a busy woman a job to do and it will be done," 'tis said. That is exactly what the extension women of Clinton County did when they made Mrs. Ray Hamer of 2901 Watson Road, chairman of the Clinton County Home Economics Extension Council.

County members are joining in the celebration of the fiftieth anniversary of the Michigan Pioneer Off-Campus Education Program by striving for a goal of 50 new members this year. There are now 19 groups totaling approximately 300 members in the county.

THE PURPOSE of the home economics extension program today is to provide knowledge so that people can make wise decisions and to help people help themselves.

Mrs. Hamer has been a member of the Rochester Colony Extension Study Group for 22 years.

She is a member of the Rochester Colony Methodist Church, Rochester Colony Community Club, Duplain Farm Bureau and the Clintonaires.

HER extension group sponsors an annual fish supper in February to help maintain the park at Rochester Colony. It was set aside in the early history of the area by pioneers and was called The Commons. In recent years, it has been improved and now provides a picnic area, pavilion and ball field.

Mrs. Hamer is particularly interested in the area because her

Mrs. Ray Hamer, chairman of the Clinton County Home Economics Extension Council, and Miss Betty Ketcham, Clinton County extension agent, home economics, peruse some of the educational programs for the work this year.

great-great-grandparents were among the pioneers of Rochester Colony coming from New York.

SHE HAS a son, David, a senior student at Rodney B. Wilson High School; a daughter, Mrs. Eugene (Shirley) Farrier who resides on Townsend Road; and two grandchildren. Asked if she had a hobby, she replied "Let's call my grandchildren my hobby."

ing; slim and trim; when the family decides to travel; and parent relations with teenagers.

She will help with the display of inexpensive Christmas toys for recipients of donated foods Nov. 17. It will be held at the Clinton County Infirmary.

Many activities are being planned by extensionists this year. Give a busy gal a job to do. . . .

Macaroon recipe of Danish origin

Two young American women, cookbook authors, brought this recipe back from Denmark.

Coconut Macaroons

- 2 eggs
- 2/3 c. sugar
- 1/2 tsp. almond extract
- 1 pkg. (8 ounces) shredded coconut (about 2 cups).

Beat eggs slightly in a mixing bowl. Add sugar, almond extract and coconut; stir to mix thoroughly. Drop mixture by heaping teaspoonsful onto a well-greased baking sheet.

Bake in a moderate oven (350 degrees) for 12 minutes or until cookies are lightly browned. Remove to a wire rack to cool.

Turkeys seen in abundant supply now

Plump, tasty, turkeys are in abundant supply this month according to the US Department of Agriculture's Marketing Service. And a nice meaty bird will provide more than one meal for your family with little effort.

The trick is to plan simple meals, simply roast the bird, serve it hot, and then freeze the leftovers for a cool, light sandwich meal in the near future.

IF YOU have already frozen some turkey slices, chunks or chopped bits, get them out.

Both quality-wise and economy-wise, it is good practice to keep foods moving in and out of the freezer rather than holding them.

Further more, USDA home economists say frozen cooked poultry often fails to retain the flavor and texture of the freshly cooked products.

Chicken lets dieters eat big portions

In its role as a delicious low-calorie food, chicken really shines.

Of all the leading meats, chicken ranks lowest in calorie count. A three-ounce portion of broiled skinless chicken breast, without bone, contains only 115 calories. Even with the skin, the count is only 185 calories.

THAT'S a mighty gentle calorie count for a food that tastes so good.

And here's another point in the diet's favor: Because the flavor of chicken is so delicate, it combines well with a number of other low-calorie foods.

Chicken is most versatile, can be prepared by any cooking method, and even when it appears with frequency on the diet menu offers plenty of variety.

To use up cheese

Stale, dried-up cheese turns into a meatgrinder with chunks of raw onion.

Another new church! The newspaper article says the population in Bill's suburban neighborhood is growing so fast that even more churches will soon be needed. Bill thinks this is just great.

"A community is a better place when there are plenty of churches," he says. "It's good for the children and the young people... it's good for everybody! We all need some sort of anchor for our lives, and the Church is the best one I know of."

Bill's right. When people work together for their church... when people pray together for guidance... it can't help but lead to a greater spirit of tolerance, fellowship and cooperation in the whole community.

In order to play its full part, the Church needs you, your prayers and your support. In return the Church offers you a priceless gift... the Truth that shall make you free.

THE CHURCH FOR ALL • ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Supervisors' Proceedings

TUESDAY, SEPTEMBER 8, 1964

The Clinton County Board of Supervisors met on this date at 10:00 a.m. Prayer was offered by Supervisor Gove and the pledge of Allegiance to the flag was given. Roll was called and a quorum reported. Minutes of the last session were read and approved.

Communications were read from the Michigan Department of Conservation, the Water Resources Commission and from the Gratiot County Board of Supervisors in opposition of the Court Rules as they now pertain to Appeals in Criminal Court. The latter was referred by the Chairman to the Government Committee for further study and recommendation.

Charles Frost, as Civil Defense Director, spoke to the Board after which a motion was made by Supervisor Culy and supported by Supervisor Gove, that the Civil Defense Committee be given power to act on a decision as to whether or not the Civil Defense Director should attend a Conference to be held at Colorado Springs from November 2nd through November 6, 1964. Motion carried.

After the reading of and discussion of a letter from the Ovid-Elsie Area Schools, a question of the Health Nurses serving those students of the Ovid-Elsie District but actually attending school in Shiawassee County, was referred to the Education Committee by the Chairman.

Upon recommendation of the Building and Grounds Committee, by Supervisor Krebel its Chairman, a motion was made by Supervisor Moore and supported by Supervisor Culy, that the Consumers Power Company be authorized to erect and maintain a guy stub anchor pole, guy wires and anchor on, over and across county property in Outlot K of the City of St. Johns known as the Juvenile Home property. Also that the Chairman and Clerk be authorized to sign as easement for same. Motion carried.

A motion made by Supervisor Shepard and supported by Supervisor Hufnagel, that the reading of Supervisors expense accounts be dispensed with and they be paid as presented was voted and carried.

The Chairman then declared a recess until 1:30 p.m.

After recess, Earl Haas, County Extension Director, spoke to the Board and presented each member with a booklet showing a program plan of each of the units within that department for the period from July 1, 1964 to June 30, 1965.

After the reading of a letter from Harold Beardslee of Ovid, as a resignation from the Clinton County Library Board, a motion by Supervisor Moore and supported by Supervisor Settingington, that the resignation be accepted, was voted and carried.

A motion was made by Supervisor Austin and supported by Supervisor Shepard, that Mrs. Letta Parker of Ovid be appointed as a member of the Clinton County Library Board to fill vacancy caused by the resignation of Harold Beardslee. Motion carried.

Supervisor Tiedt, as Chairman of the Salary and Clerk Hire Committee, gave a summary report from an actuary audit as previously authorized by the Board of Supervisors for the purpose of determining the cost of a retirement plan for County employees.

A motion was made by Supervisor Culy and supported by Supervisor Carter, that this Board concur with the following resolution from Gratiot County. Motion carried.

GRATIOT COUNTY RESOLUTION

Supervisor Little, Chairman of the Circuit Court Committee, moved that the Gratiot-Clinton County Circuit Court Assignment Clerk be hired on a full time basis at the salary of \$4,800.00 and that the Gratiot-Clinton County Probation Office Clerk's salary be increased from \$3,100.00 to \$3,300.00, each salary to be paid one-half by Gratiot County and one-half by Clinton County, effective January 1, 1965. Motion was seconded and carried.

St. Clair Pardee, local architect, on behalf of the Building and Grounds Committee, spent some time in presenting plans for additions to the Court House.

After the reading and discussion of a letter written by Frederick M. Lewis, Prosecuting Attorney, a motion was made by Supervisor Shinabery and supported by Supervisor Settingington, that this Board accept the suggested offer of Settlement contained therein, and authorize to be paid to The Caldwell Company the amount of \$500 as full settlement of a claim now in the Wayne County Circuit Court in a case entitled W. E. Caldwell Company vs. Automatic Sprinkler Co. Motion carried.

Following a report and recommendation of the Public Relations Committee by Supervisor Thelen, as Chairman, a motion was made by Supervisor Shinabery and supported by Supervisor Nobis, voted and carried, that this Board concur with the following recommendations of the Committee and that the committee have power to act.

1. Secure abstract of Title to County Infirmary property.
2. Have survey made to determine boundaries adjoining Cemetery property and Church property.
3. Fence boundary with Cemetery and Church.

A motion was made by Supervisor Culy and supported by Supervisor Gove, that Clinton County underwrite the polio oral vaccine program to be given in Clinton County. Motion carried.

Chairman Coletta appointed Supervisor Shinabery to the Committee heretofore named to work with the re-appraisal program in Clinton County, to take the place of Supervisor Greer.

A motion was made by Supervisor Hufnagel and supported by Supervisor Tiedt, that an electric typewriter be purchased for the Abstract Department similar to one recently purchased for that department. Motion carried.

Native pastures can be renovated for farm profit

Michigan has over two million acres of unproductive permanent pasture that could be turned into profit-making forage land with a few simple renovation practices, according to a Michigan State University crop scientist.

"Best of all, increased production during the first grazing year will more than pay for the \$35 per acre cost of the renovation," reports Milo B. Tesar.

"THE RENOVATED land should increase production from one ton or less of low quality forage to three to four tons of good quality alfalfa and brome-grass. The added grass-legume production can be easily turned into profit by using it in a feeder calf or beef operation."

The MSU scientist notes that farmers wishing to renovate should select their more productive land, rather than that which is uncleared or stony. It will yield more profit, he comments.

TESAR OFFERS the following recommendations for an economic renovating job for unproductive pasture heavily infested with quackgrass:

1. Test the soil this fall and

add lime now or next spring to bring the pH to 6.5 or above.

2. Fertilize with 50 pounds of nitrogen in early spring to give a heavy growth which can be pastured off by June 1. By the same time, the grass will have produced about two-thirds of its normal seasonal production.

3. PLOW, IF possible, the deeper the better. Disk or field cultivate every week until August 1 to suppress or kill the quackgrass and other grasses.

4. Seed early in August with eight pounds of Vernal alfalfa since it is long-lived and will resist. Each week's delay in seeding after Aug. 1 reduces the yield the next year by one-fourth to one-third of a ton. Don't seed later than Aug. 20 in northern Michigan or Aug. 30 in southern Michigan.

TESAR WARNS farmers not to use oats in their summer seeding since oats take too much soil moisture and shade the seedlings. This often results in poor stands and low yields. He suggests adding four pounds of bromegrass, preferably the southern type, mixed with the

fertilizer as both are put into the drill.

5. Band seed by placing the alfalfa in a band above the fertilizer and brome drilled one-half to one inch deep. Use about 400 pounds of 0-20-20 fertilizer per acre. Tow a cultipacker be-

hind the drill, or preferably, use press wheels behind the drill.

6. DON'T GRAZE during the fall but wait until the following spring when the alfalfa is at least eight inches tall.

7. Graze rotationally (one field, then a second and a third and back to the first) to keep the stand productive as long as possible. Topdress annually with about 300 pounds of 0-10-30 per acre in the fall when resting the field between Sept. 1 and Oct. 15. Graze if desired after Oct. 15.

\$8?

Is saving that much per acre good enough reason for using our Anhydrous Ammonia this fall? We hope so. Particularly when you know that Anhydrous Ammonia from Dow is the most concentrated form of nitrogen you can buy—82%. You can save as much as \$6 to \$8 an acre by using a fertilizer program we can recommend.

Apply it to soil now in the fall when you're plowing down summer crop stubble. It won't leach out over the winter. Come spring and it will release needed nitrogen into the soil. Crops will develop stronger roots with more resistance to drought. Have a higher protein content for feeding. Do right by your wallet and your crops with Dow Anhydrous Ammonia. We have it—all you need.

**2 Clinton youths named
to national 4-H Congress**

Two youths from Clinton County have been chosen to attend the National 4-H Club Congress in Chicago Nov. 28 to Dec. 3. The Michigan delegation to the congress consists of only about 36 4-H members.

The Clinton youths are: Jean Mary Schaefer, 16, daughter of Mr and Mrs Albert Schaefer, R-6, St. Johns; and Dean Russell Ormsby, 17, son of Mr and Mrs Russell Ormsby, 3314 S. Watson Road, R-6, St. Johns.

IN ADDITION to this honor, Donald Walker, Extension agent for 4-H Club work, has been chosen as one of two chaperones to accompany the state delegation to Chicago.

Jean, a junior at Rodney B. Wilson High School, has been in 4-H work for seven years and has taken projects in foods, dairy, clothing, knitting, family management and poultry. She plans to take up medical technology when she goes to college.

HER 4-H activities have included being recreation leader, secretary of the Happy Hustlers and the Horse Club, vice president and president of the club, reporting news items, doing demonstrations on TV, being on the set-up committee for the county 4-H Fair, and being poultry assistant superintendent and superintendent and style review superintendent at the fair.

Leadership activities include being Service Club committee chairman and attending or helping at the district junior leadership school, the county junior leadership school, state Service Club workshop and the Service Club ice cream social.

COUNTY awards have included dress revue pins, pins for home economics, poultry and junior leadership, style revue certificate, home economics judging award, trips to Coldwater, Yankee Springs, Traverse City and Detroit and attendance at the state 4-H Show for six years.

She is also active in church, community and school events.

ORMSBY is an eight-year 4-H member. He is a 1964 graduate of Ovid High School and is now enrolled at Michigan State University in an agriculture course of study.

DEAN ORMSBY

JEAN SCHAEFER

He is active in the Methodist

Church and Youth Fellowship activities, has been president of his high school class and graduated sixth in a class of 72 this June.

MISS Schaefer's trip to the 4-H Congress is being sponsored by Hetsdorf & Nelson Farms, Inc. of Kirkland, Wash. Ormsby will be sponsored by Republic Steel Corp. of Cleveland, Ohio.

4-H Agent Walker said the sponsoring businesses pay for the travel, room and board expenses of the 4-Hers attending the Congress.

List 4-H trip award winners

Winners of county 4-H trip awards for their outstanding work on summer projects were announced this week by Donald Walker, Clinton County Extension agent for 4-H work.

Seven trips have been scheduled, starting Feb. 5 of next year and running through Sept. 12. Walker said the trips are planned to recognize members who show outstanding achievement in project and other 4-H work.

CLINTON County makes more 4-H trip awards than any other county in the state, Walker said.

Persons taking the trips pay part of the costs themselves and the rest is paid by the 4-H clubs.

The first trip for which awards have been made will be to Traverse City Feb. 5, 6 and 7. This is the oldest of the award trips, Walker said, and is used as a leadership training session. The base, however, is a winter snow

camp, and most of the weekend's activities will be out-of-doors.

CHOSEN to make that trip are: Kathleen Acre, Betty Arthur, DeLores Bauer, Barbara Bottum, Linda Bunce, Linda Davis, Kay Fineout, Brenda Fiegler, Pat Fox, Dee Ann Gill, Kathy Hopp, Linda Ketchum, Helen Mueller;

Carolyn Plaza, Mary Kay Pohl, Dorine Slep, Christie Smazel, Joan Smith, Mary Stewart, Jill Tabor, Joan Thelen, Betty Thornton, Rita Washburn, Aaron Bishop, Larry Blizzard, Don Borton, Ken Eldridge, Robert Harte, Dale Heldeman, David Johnson;

NORMAN Love, Keith Mayers, David Peck, Don Randolph, Jeff Stewart, Jim Temple, Patrick Thelen, Ronald Thornton, Tom Tyler, Don Ward, Paul Wesseler and Jack Westmoreland.

On Feb. 20 to 23, Lorraine Anderson, Dean McMillen and Ned Upton will go to Chicago. This trip is planned for older 4-H members. It will consist of tours of Chicago, including probably a stage play. They will stay at the Conrad Hilton Hotel.

LATER in the spring, on April 23, 24 and 25, the annual trip to Yankee Springs state recreation area on Gun Lake west of Hastings is planned. Making that trip will be the following 4-H'ers:

Diana Bashore, Lisa Davis, Janet Faught, Carol Flegler, Kathy Gallagher, Bobbie Hergruth, Judy Hoppes, Sandra McQueen, Karen Pung, Kathy Schaefer, Mary Ann Schrauben, Margaret Thornton.

Nick DeVault, Jim Ernst, Bruce Harden, David Harper, Joe Kellen, William Payne, Richard Randolph, Douglas Robinson and Eddie Wood.

A ONE-DAY trip to Detroit is planned in May for 16 14-year-old 4-H girls. This was a new trip last year and is designed to help the girls get acquainted with big-city living. Making the trip will be:

Joan Ashley, Janet Botimer, Helen Feldpausch, Charlene Flak, Sharon Greene, Janeth

Harte, Carol Hodges, Judy Kramer, Kathy MacDonald, Carol Ormsby, Jill Reeves, Judy Rivest, Ginger Simpson, Linda Spouta, Lexa Swatman, and Kristine Wryick.

FIFTEEN youngsters have been chosen for the Michigan 4-H Club Week trip to Michigan State University July 12-16. Emphasis at the 4-H program there will be on career exploration and world understanding. Making the trip will be:

Jean Benson, Diane Evtits, Sonja Goschnick, Barbara Hess, Mary Jo Hungerford, Carol Lewis Joyce Plunkett, Betty Wadell, Mike Borton, Larry Brya, Mike DeVault, Rex Ferguson, Scott Matteson, Gordon Shipley and Douglas Witt.

THE MOST-sought-after 4-H trip award is the late-summer, week-long trip to Canada. It's the top county award for the most outstanding 4-H members, Walker said. All 10-year 4-H members also automatically get to take it. Going next year between Aug. 22 and 28 will be:

Patricia Heibek, Jean Schaefer, Jim Rivest, Dennis Whitlock, and 10-year members David Acre, Jack Anderson, Mervin

Hallead, Robert Harden, David Jones, Ronald Phinney, Brian Waltz, Gary Steinhardt and Robert Vitek. Steinhardt has already taken the trip once.

THE Barry County trip Sept. 11 and 12 next year will again be to the Barry 4-H camp. The camp features a heated swimming pool. Making the trip next September will be:

Mary Ashley, Karen Avery, Jean Baker, Sue Ann Bosko, Janet Bitzer, Cynthia Davis, Kathy Davis, Linda Devereaux, Janet Eaton, Carrie Henretty, Connie Hoppes, Judy Irish;

Debra Locher, Martha Mihaly, Janet Myers, Vickie Payne, Jean Peterson, Carol Pitchford, Beverly Rademacher, Peggy Rummell, Marlene Snyder, Julia Sylvestri, Shirley Thelen, Suzanne Willett, Joyce Wohlfert;

BRET Ballinger, Douglas Dubay, Bill French, Byron Green, Richard Hauser, Danny Haviland, Scott Heibek, Tom Hungerford, Eddie Johnson, Greg Lounds, David McCarrick;

Peter Motz, Douglas Parks, Neil Rossow, Walter Sevanski, Ricky Smith, Ronald Strouse, and Tom VanZee.

Clinton youths Sell 20 Holsteins to foreign buyer

Clinton youths sold 20 Registered Holsteins to a foreign buyer because of her outstanding record in the 4-H poultry project. Ormsby's handicraft project record was specifically cited.

The selection process included first being recommended by the county, then by the 13-county Extension district. They were interviewed at the state 4-H Show. They were chosen as the most outstanding member in the state in their particular project area.

Walker, as one of the adult chaperones, will assist with the program at the 4-H Club Congress. Chosen to go with him on the chaperone job for the state delegation was Anne Field, Eaton County home demonstration agent.

Yet entire colleges are devoted to teaching effective communications. A nearby example is the College of Communications Arts on the campus of Michigan State University. In this college, there are 75 skilled persons employed in teaching people how to talk better. They deal in journalism, advertising, broadcasting and speech. This college and others like it over the country, are tangible recognition of the tremendous cost we pay when we fail to communicate.

FARMERS are basically no different than anyone else, except they are doing a better job of production than any other industry. The farmer's average work day is more than 10 hours long. If he is a dairy farmer—it is longer—over 12 hours. With this effort, they are producing more food at lower consumer cost than anywhere else in the world. Unfortunately, being farmers, they don't talk about it much.

Say plow planting reduces soil loss

Plow-planting—a type of minimum tillage—reduces soil from erosion to 60 per cent of that from conventionally tilled land, a pair of Michigan State University soil scientists reported; this week in Bucharest, Romania.

same on the two watersheds. Savings were in tillage costs. During each of these three years, there was sufficient rainfall to cause runoff and erosion during the first six weeks after planting.

"The one year we saw differences in yields was in 1962 when rains weren't sufficient to cause erosion," they noted. "At that time, the area under minimum tillage yielded significantly higher than the area under conventional tillage."

Dr. R.L. Cook, department chairman, and A.E. Erickson told the Eighth Congress of International Societies of Soil Scientists that "plow-plant" refers to moldboard plowing and immediate planting without subsequent tillage. Conventional tillage includes two diskings and two harrowings after plowing.

TO SHOW THE advantages of the plow plant system in reducing soil loss, the soil scientists cited four years of research at MSU in which the two tillage systems were compared.

"During a very intensive June storm in 1960, we lost 32,000 pounds of soil per acre on our conventionally tilled plots and only 4,000 pounds per acre on those subjected to minimum tillage," the scientists related.

"We reversed the plots two years later to find out if the difference in soil loss was due to differences in soil characteristics on the two sets of plots. Results showed that the greatest soil loss was again from the conventionally tilled watershed, proving that the method of tillage was the major influence on the extent of erosion."

COOK AND Erickson noted that in three of four years in the study, yields were approximately the

Man never amounted to much until he learned to talk. Now there are those who claim he will never amount to much until he learns to keep still. There is truth here, for it takes most of us only two or three years to learn to talk in the first place and up to 60 years to learn when not to.

But THIS very ability, looked upon as an asset by some, could be the most dangerous trait which farmers possess. Farmers are doing one of the greatest production jobs the world has ever known—but what good is a good thing if nobody hears about it?

To survive as independent individuals, farmers must learn to "talk" better. As only 7 per cent of the total US population, farmers must learn to tell their story in an adequate manner to the other 93 per cent that live in cities.

THE PENALTY for not doing this could be the loss of the American farmer's most precious possession—freedom to farm as he wishes.

Fortunes are spent each year by labor and industry in improving their communications techniques. Matched against them are pennies and dimes representing agriculture.

A Good Way to Worm Cattle
Your cattle will grow and gain more efficiently when you knock out profit-robbing worms. Safe, palatable Purina Cattle and Sheep Wormer Concentrate can do the job. A recent cattle feeding demonstration showed that every dollar invested in Cattle and Sheep Wormer Concentrate returned \$6 to \$8 in extra beef produced.

Just add this pelleted Health Aid to your regular ration as directed, or ask us to mix Cattle and Sheep Wormer Concentrate with your feed.

It always pays to worm cattle. Do it safely, easily with Purina Cattle and Sheep Wormer Concentrate mixed with the feed. Ask for it at our store.

Notices of General Election in Clinton County

Check corn harvest losses

Field losses in corn harvest can be easily determined, George R. McQueen, Extension agent for Clinton County, reminds farmers that ear corn losses and shelled corn losses must be determined in a different way.

For ear corn losses, with 40 inch rows, one full-sized ear for every 133 feet of row is equivalent to a loss of one bushel an acre.

TO DETERMINE shelled corn losses, make a square frame 40 inches by 40 inches inside measurements. Lay it on the ground in a number of locations on the corn field, preferably centering over a row. Avoid an area where an ear has been run over and a great deal of corn has been shelled on the ground as a result.

Every 20 kernels of corn within this 40 inch by 40 inch square area is equivalent to a loss of one bushel an acre.

IN BOTH instances take the measurements in a number of locations in the fields and then average the answers. If field losses are running high, be sure and use the harvesting manual and check all of the adjustments the agent advises.

said time and place being hereby appointed for the examination and adjustment of all claims and demands against said deceased.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing, in the Clinton County News, a newspaper printed and circulated in said County.

Bubble blowing is a good sport!

Not every boy and girl can blow gum bubbles and not every mother wishes that her offspring could. For gum is one of the most next-to-impossible ingredients to get off the face, clothing or elsewhere. Jim Viers, son of Mr and Mrs James Viers of 3017 Maple Rapids Road, and Lowell Boyce, son of Mr and Mrs James R. Boyce of 705 N. Oakland Street, rate themselves as real good bubble-blowers. The boys

were a little nervous performing for the camera but managed a demonstration. Top, left to right, Lowell blows a tiny bubble, nice and neat; Jim manages double bubble, and twin thrown in on the side. Bottom: left, Lowell blows a big one, but then things begin to go awry and Jim ends up with a bursted bubble and a pretty messy, sticky finish.

Math methods, new in concept, cited for PTA

ELSIE— New methods have revolutionized the teaching of every mathematics subject from the simplest to the most complex. This was realized by a large representation of the Elsie PTA as they listened to Victor J. Whittemore of Grand Rapids on Monday night at Elsie High School.

Whittemore was a school teacher and superintendent for 25 years at Big Rapids. The past 13 years he has been associated with Field Enterprises Educational Corp. He is a graduate of Michigan State University and had graduate work at the University of Michigan.

MODERN MATH for Your Child as introduced by Mr Whittemore left the parents with a determination to learn more

about the subject as they are to be faced soon with such terms as set theory, the binary, or base 2 system, quinary and duodecimal.

Up to this time, only the decimal system, based on the number 10, has been used but with the rapid strides that science and physics have been making in the past decade, it will be necessary to develop math to match the progress.

IN THIS age of electronic computers and the space programing, knowledge of other numeration systems must be understood, Whittemore said.

He suggested that parents send for the pamphlet, FS 5.Q29:29047 *Modern Math and Your Child,* to further understand the new math concept. It may be secured by sending 20 cents and the number of the pamphlet to the following address: US Government Printing Office, Supt. of Documents, Washington, D. C.

Mrs A. W. Cobb, who introduced the speaker, said that within

the Elsie High School faculty, the new math has been probed under the direction of Ronald Temple.

She also stated that a series of meetings are being planned to continue the study and help parents familiarize themselves with the new methods of teaching.

A SERIES of vocal selections by the Elsie High School chorus of 30 members preceded the program with John W. Beery as director and Jennifer Keys as accompanist. They led the entire group in singing the National Anthem.

George Keck announced that open houses at elementary and high schools of the Elsie area will feature November's program. Dates will be announced later.

Mrs Gene Stouffer and Mrs Harold Hehrer, first grade room mothers, assisted by several other mothers, served refreshments.

Mrs Mae McClintock, Mrs Nora Early and their sister, Mrs Cora Randall, spent a week with the latter's son, Lawrence, at his cottage near Indian River.

Mrs Patrick Foran underwent treatment at the Sparrow Hospital and has returned home.

Name census crew leader

Eleanor L. Thornton of Elsie has been named a crew leader for the 1964 census of agriculture. She'll supervise a team of census enumerators who will visit all farms in Clinton County to collect official census questionnaires from farm operators.

Enumeration of all farms in the county will take place in November and early December. The crew leader will recruit and train the enumerators, schedule their work, review the accuracy of completed forms and conduct difficult interviews.

ALL RURAL boxholders will be sent census questionnaires by the United States Department of Commerce shortly after Nov. 5. Those required to fill out the forms should do so and then hold the questionnaires until the census enumerator comes to collect them.

The enumerator will help answer any questions on the form that may have proved troublesome.

Book Shelf

By Elizabeth Millman

A set of 10 books each containing 30 color plates portraying a theme that played a major role in the life and work of a great artist has been purchased for the Library. The plates were selected on the basis of their artistic value, their historical meaning and their importance in the life and work of the artist. The books also contain much material about the artist and comments on each painting.

The books are "Children by Renoir"; "Portraits by Van Gogh"; "Dancers by Degas"; "Enchantment by Matisse"; "Paris by Utrillo"; "Landscapes by Sisley"; "Figures by Picasso"; "Nudes by Renoir"; "Tahiti by Gauguin"; and "Paintings by Poussin."

A TRAVEL book of Europe, entitled "Immortal Europe," will delight those who have traveled on that continent or make a pleasant arm-chair trip for those who have not. Europe, with its romantic towns of the Middle Ages, colorful costumes, Greek Temples, Roman arenas, ancient castles

and medieval churches, is shown in this book in a series of beautiful photographs. You can journey through the Europe of the 20th century along routes that are thousands of years old.

Saul Bellow, well known for his novels, "The Adventures of Augie March," and "Henderson, the Rain King," has just published his latest work, "Herzog." This is the characterization of a man of our time. The author recreates the world of Herzog, scholar, teacher, and man in search of the significance of his life. He writes letters unceasingly to friends and relatives and thus reveals himself. It is a tragicomic world he lives in.

"MANIFEST Destiny" by Russell Laman is a story of Kansas during the 1880's. The hero of the story comes to Kansas to build up his lost fortune, lost in the markets of the East. Here he finds that drought and severe cold result in poor crops. His and his sons' efforts to make their place in Kansas gradually bear fruit and they better the land and make their own destiny.

"Two Thirds of a Coconut Tree" by H. Allen Smith is a rollicking account of life in Tahiti. It is an informative and hilarious answer to the question

Car leaves road, woman injured

A DeWitt woman was hospitalized for several days last week following a one-car crash in Olive Township Wednesday.

Mrs Retta Irene Heil, 70, of R-1, DeWitt, suffered a fractured finger and was hospitalized at Clinton Memorial Hospital for X-rays and treatment.

She was going west on Chadwick Road a quarter mile east of Williams Road last Wednesday when her car left the road and hit a tree. She told Deputy Sheriff Fred Corson she lost control when she looked at something in a field.

Big headache

Americans gulped 16 billion aspirin pills in 1963, reports the American Medical Assn. Sales of aspirin accounted for \$360 million of the \$413 million spent on non-prescription drugs last year.

"What is Tahiti really like?" in spite of his humorous approach the author has really captured some of the unique, beautiful atmosphere of the real Tahiti in this amusing book.

Merrihew School

The fifth through the eighth grade made outlines about Johnny Appleseed.

The seventh and eighth graders wrote history letters about Columbus.

The upper grades made pictures with charcoal pencils, the lower grades made pictures with tempera paints and paper plate people.

Pupil's pictures will be taken on Oct. 30.

Several of the upper grade children are going on a trip to Grand Rapids.

Glenn Perry made his first visit early in October. He told a story.

Gourds, pumpkins, popcorn, and bittersweet were brought by some of the children of the school.

David, Barbara, and Debbie had birthdays. David brought cupcakes for treat.

The Mother's Club met Oct. 15 and served dinner. They discussed the demonstration party that will be held Oct. 29 at 7:30 p.m. at the Merrihew school.

Plans for the Halloween party are being made. Barbara Harte, Karen Cornell and Rosalie Presocki are on the foods committee. Scott Helbeck, Pat Courser and Bill Montague are in charge of games.
