City, county feel gasoline shortage pinch

By Laurie Kipp
County News Reporter

CLINTON COUNTY -- The problem of finding gasoline in Clinton County is becoming increasingly apparent, as last week's shortage in the area testifies. At least 11 gas stations in the

county were completely out, while many others had only premium left. The shortage is not only affecting the average driver, but also city and county agencies. The city of St. Johns is really feeling the pinch, according to information supplied by treasurer Eugene Simon.

The city requested bids for a period of 1 year, but the longest bids received were for 3 months. Public protection agencies such as the police and fire department are given 1st priority, followed by the Dept. of Public Works.

USAGE and public service by the DPW is down one-third as compared to May due to the shortage. This is why many of the branches felled during the recent windstorms are still on the ground.

Services such as these are slowed up, according to Simon, because the city can't run the trucks. And, the city can only count on obtaining gas from their contract with Leonard Fuels until Aug. 31. Obtaining diesel fuel is no problem, he said.

Herb Brown of the Clinton Area Ambulance Service said they haven't had problems finding fuel "yet," and added that "hopefully we won't."

SUPPLIED BY the St. Johns Oil Company, Brown said they hope to be high on any priority lists because of the public service nature of their agency.

Clinton County Sheriff Anthony Hufnagel termed their problems "serious" because the department's storage facility has a hole in it. They are unable at this time to store as large quantities as usual.

The department has been forced to fill up at local bulk dealers, which costs more, he said. They were getting gasoline from the Gulf Oil Company in Detroit, but they won't deliver less than 2000 gallons a month, and currently there is no place to store it.

"We called all over Michigan," he stated, "trying to get a new tank, but the soonest we can get one is 2 to 3 weeks."

LOCAL DEALERS are maintaining 500 gallon tanks for the department, but all county offices are drawing from the same tanks.

"It's a thorn in our side," he added. "We're tearing our hair out trying to keep ourselves in gas."

St. Johns Public School Superintendent Earl Lancaster reports no problems, "yet". The system recently requested bids, but Lancaster is skeptical about the outcome. He noted that he's heard rumors that many agencies requesting bids aren't receiving any responses. They used approximately 200,000 gallons of gas last year.

JAY HEBNER of the County Road Commission said they haven't been hurt yet, but added that deliveries have been a couple of days late sometimes.

"We don't dare let the tank get down too far, and hope they get here before we run out," he noted.

"The Gulf agent said it will be worse in August," Hebner said. "All we can do is take his word for it."

DeWitt names interim mayor and councilman

DeWITT -- In a special meeting of the DeWitt City Council last Wednesday, Lawrence Keck was appointed by the 4 remaining members of the council to serve as interim mayor.

DeWitt's former mayor, Raymond DeWitt, mayor pro-tem, Robert Ballard and councilman Stanley Tenney were recalled by DeWitt voters June 26.

Frederick (Bill) Shaver, also on the recall ballot was retained by voters. If Shaver had been recalled, the council would not have been able to constitute a quorum, whereby the governor would have had to appoint interim councilmen.

However, with the quorum, the council chose to appoint Keck mayor, a position he held previously. He decided not to run for re-election during the November election.

Mayor Keck appointed Keith Blizzard to fill 1 of the vacated council seats and appointed Shaver as mayor pro-tem in the 1st session of the council since the recall Monday evening.

Blizzard is a former councilman and

was appointed to the budget committee, a committee he had served on when he was a city councilman.

Gary Gillespie, who has been serving on the budget committee was named chairman of that committee. Shaver was also added to the budget committee.

A new mayor, mayor pro-tem and councilman will be elected at a special election Aug. 21.

Voters not registered have until July 20 to do so at the city hall.

Candidates have until July 17 at 5 pm to file petitions. Petitions may be obtained from Dorothy Keck, city clerk, and must contain 31 names.

The newly elected officials' terms (mayor and 2 councilmen) will expire in November, 1974. The mayor pro-tem is appointed by the mayor with council's approval. Shaver's term also expires in 1974.

Existing terms on the council held by Gary Gillespie, Ronald Mull and Wayne Wilcox expire in 1976.

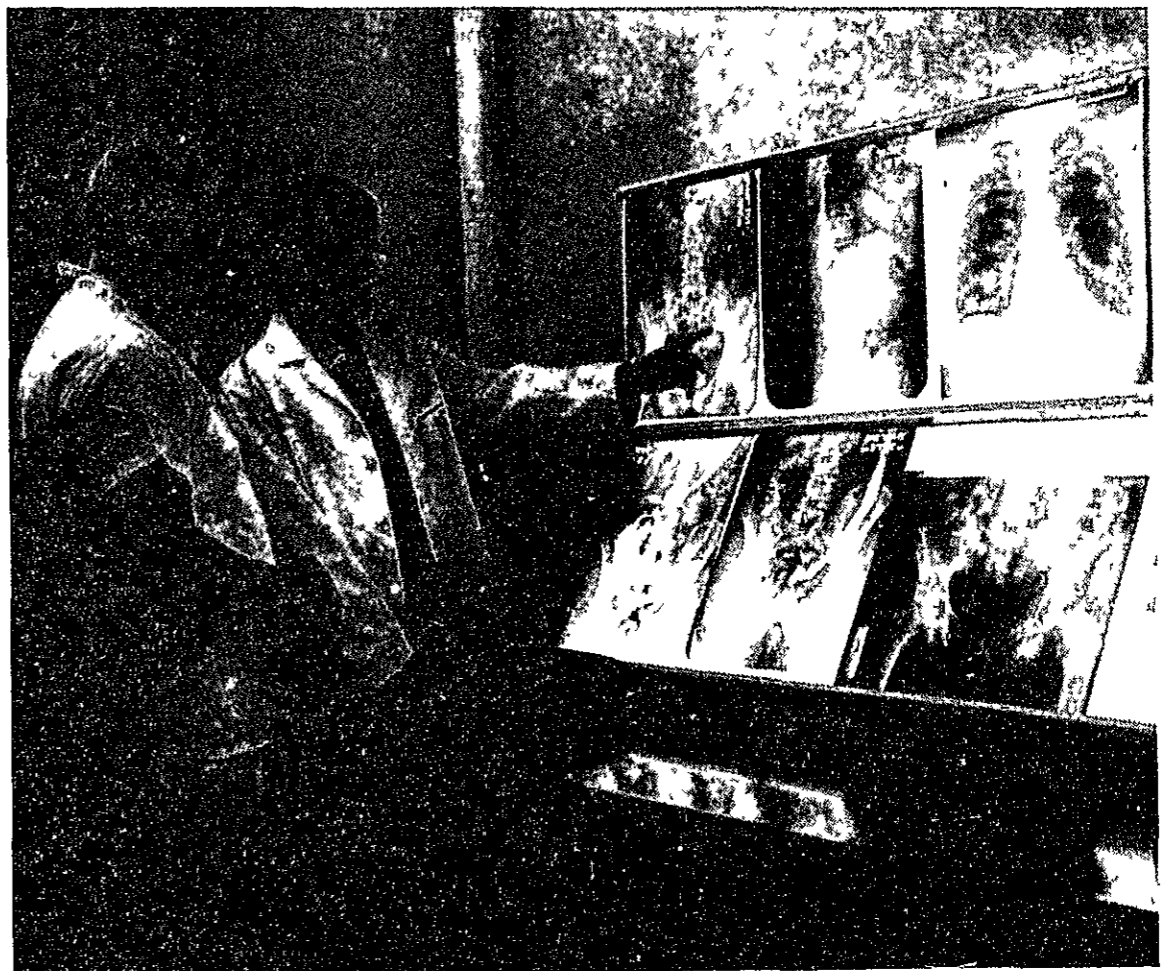

St. Johns schools appoint principals

ST JOHNS -- Two promotions recently were announced by St. Johns Public School Superintendent Earl Lancaster. Affected schools will be Riley and East Ward Elementaries.

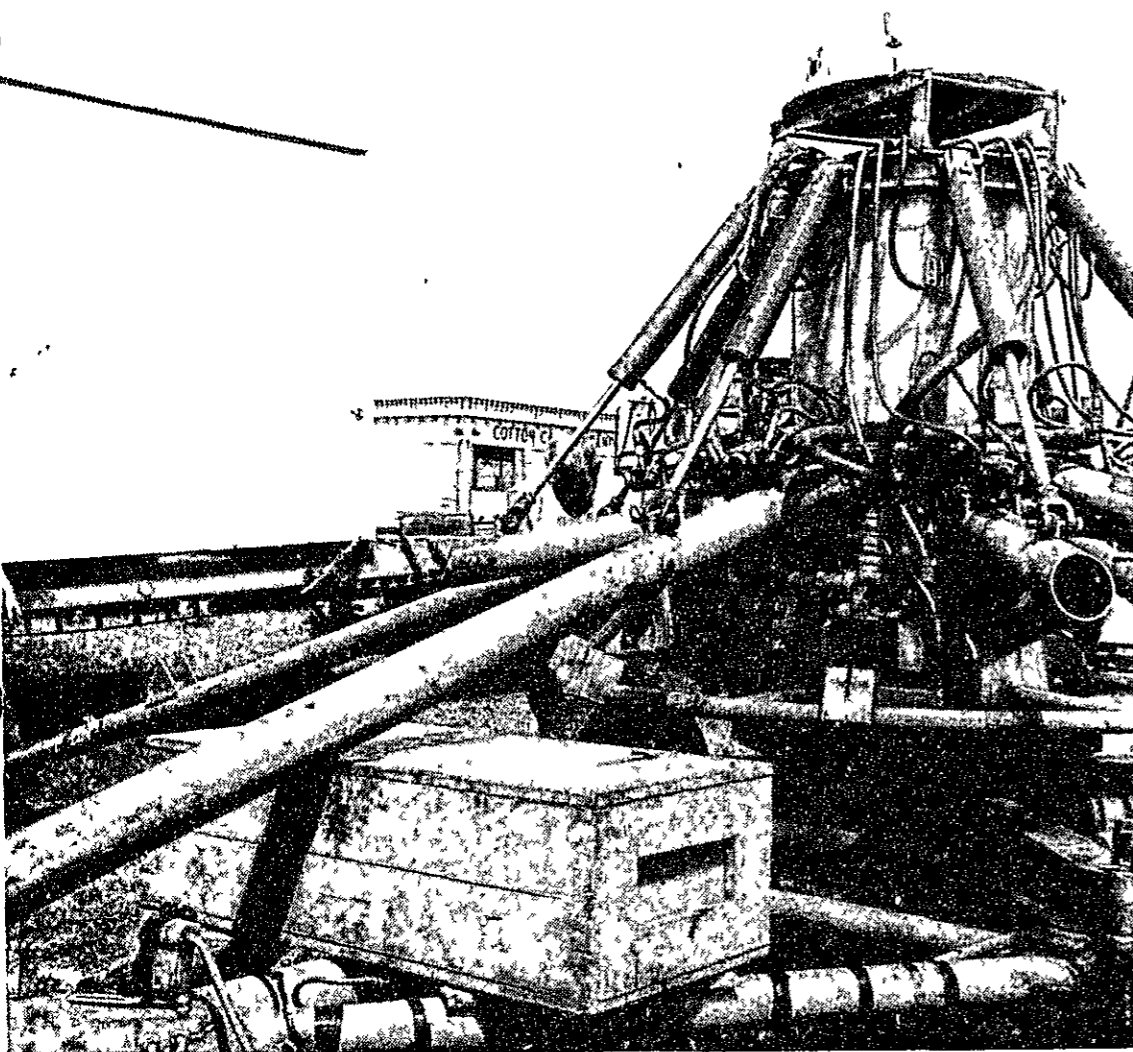

Ralph Conine, Owosso, has been selected the new principal at Riley School. He has been employed by the school system for 8 years, most

recently as head elementary counselor for 3 years. Prior to that time he taught elementary grades for 5 years.

Ethel Huot, principal at Swegles School for 23 years, will also assume duties of principal of East Ward Elementary, replacing the previous teaching-principal.

Charles Pollard and Dr. James Grost inspect x-rays at Clinton Memorial Hospital during Pollard's 8 weeks as an extern at the hospital. The program he is participating in is designed to give 1st and 2d year medical students first hand knowledge of the activity of a medical practice in the community. (See story page 3A)

Hydraulic pumps, hoses, steel and wire occupy this man's time as he erects one of the many carnival rides which arrived in St. Johns over the weekend. Part of the July 4 celebration in St. Johns, the carnival will be here through Saturday and a Wednesday fireworks display highlighted July 4 activities that day. Another fireworks display is scheduled for dusk Saturday.

Football player treatment questions arises again

By Jim Edwards
County News Editor

ST JOHNS -- Once again, the reluctance of St. Johns medical doctors to offer their services at football games while Dr. A.N. Saunders, a chiropractor, is on the sidelines faced the St. Johns School Board.

The subject came up last year when

the medical doctors said they could not practice on the field while Dr. Saunders was also on the field.

At the time the school board handled the situation by instituting a policy defining Dr. Saunders as a trainer who would not go on the field to perform any type of physical treatment.

Such treatment would be handled by a medical doctor present at the game.

However, school officials were told by St. Johns doctors that arrangement was no longer satisfactory to them and unless Dr. Saunders was removed from the sidelines, they could no longer offer their medical services at the game.

WITH 1 DISSENTING vote, the school board voted last Wednesday to continue with the existing policy and instructed school officials to seek other doctors to attend the games if the St. Johns medical doctors withdraw their services. Voting against the measure was Fred Meyer. Raymond Parr, chairman of the board, did not vote due to his position in the community as a pharmacist and his professional relationships with the parties involved.

Several St. Johns residents were present at the meeting to express their support for Dr. Saunders.

One, a former St. Johns High School football player, said in his conversations with college level trainers, he was told training practices and techniques used by Dr. Saunders were "as good or better" as those used by college trainers.

It was also explained that Dr. Saunders has attended numerous clinics and schools to update his training practices. Earl Lancaster, superintendent, said, "As a trainer, I think Dr. Saunders is as good as they come. That's why we tried to convince the doctors that he was a trainer, not a doctor."

Members of the audience expressed their disagreement with the positions taken by the doctors and 1 board member, Wendell Waggoner said he was beginning to think "we've got a bunch of kids in this town."

ONE MEMBER of the audience said to the board, "You as a board should think of all the people of the community and not just 1 profession."

Lancaster did emphasize the other services provided by the doctors and said, although at the time there is a disagreement concerning this situation, the medical doctors have been extremely cooperative in other areas such as establishing a physical program in the schools now being used as an example in other school districts.

He also explained the doctors provide free physicals for all St. Johns High School athletes.

When contacted about the board's decision to continue with the existing policy, a spokesman for the local doctors said, "We're still interested in the health and primary welfare of the athletes in the student body."

"We will no longer, however, be able to work at the football games with him (Dr. Saunders) there, because it violates the state medical ethics which prohibit working with chiropractors."

Dr. Grost said the state athletic association recommends a physician be present at games and it is the league policy to have a physician at the game.

"IT'S A GOOD POLICY," he said, "and we regret that we cannot continue."

Dr. Grost added the doctors will continue their participation in other health programs.

Carland resident dies following crash

CARLAND (C) -- Frank M. Downey, 4064 Carland Rd., was dead on arrival at Owosso Memorial Hospital following a 3-vehicle crash on Hollister Rd at Mead Rd, just south of Elsie on June 26.

Dr. Charles E. Black, pathologist at hospital, reported that actual cause of death was heart failure just prior to accident.

Downey attempted to make a left turn from Hollister onto Mead Rd,

according to Owosso State Police, and turned in front of a car driven by Everett A. Reynolds, 18, of 7803 Welter Rd, Ovid. Reynolds was taken to Owosso Memorial Hospital and later transferred to McLaren Hospital, Flint, where he is listed in serious condition with possible head injuries.

Joanne M. Galecka, 18, 3860 N Hollister Rd, Ovid, sustained minor injuries and was taken to Owosso Memorial Hospital. She was alone in the 3d vehicle involved.

Motorcycle, truck mishap fatal

DEWITT TWP -- A Livonia man was fatally injured Monday when the motorcycle he was driving was struck by a pickup truck at the intersection of Lake Rd and US-27.

At the scene of the accident was E. Purvis, 19, of Livonia. DeWitt Police reports indicate that the

truck, driven by Alvin F. Neuhardt, 50, 204 S 8th Ave, Lansing, was heading north on US-27. Neuhardt apparently made a left turn in front of Purvis, who was traveling south. Neuhardt was not injured.

No tickets have been issued pending further investigation.

GenTel adds equipment to St Johns facility

ST JOHNS -- General Telephone Company employees are busy installing additional line and terminal equipment in the St Johns central office, according to W. J. Langeland, district manager.

The installation of the equipment is necessary at this time in order to keep pace with the steady growth of the St Johns exchange. The St Johns area has averaged 8 new customers per month for the last 12

months, Langeland said. Another factor according to Langeland, is the increasing demand on the part of customers for private line service, and the companies urban up grading program for the years 1973 and 1974. One of the goals of General Telephone is to provide one and two party service to all customers in the urban area, Langeland said.

Due to changes that are

being made with the installation of the new equipment, Langeland recommends that to assure completion of local calls

The cost of the project is approximately \$95,000 and the company has an estimated in service date of August, this year.

ST JOHNS -- St Johns Police apprehended an adult and juvenile involved in a larceny from an automobile at Bee's Chevrolet Olds June 21.

Marietta Chamber, 30, 5261 Watson Rd, Elsie, was arraigned in District Court on a charge of simple larceny and a petition was filed in Probate Court on the juvenile.

Breaks in, changes mind

ST JOHNS -- Terry Keith Lovegrove, 19, 1210 S US-27, entered a plea of guilty in Circuit Court Monday on a charge of attempted larceny. He is to be sentenced July 9.

St Johns Police report he broke into the Clark Service Station at 910 S US-27 June 16, but did not take anything from the premises.

Four sentenced in Circuit Court

CLINTON COUNTY -- Four area men were sentenced June 25 in Circuit Court. Richard L Creyts, 19, of Lansing, was sentenced to 2 years probation, with the 1st 60 days in jail, \$193 restitution and costs of \$100 after being found guilty of unarmed robbery.

Thomas J Kulhanek, 39, Chesaning, was found guilty of writing a check under \$50 on non-sufficient funds. He was sentenced to 1 year probation, \$25 restitution and \$50 oversight fees.

James Garland, 19, Norwood Apts, DeWitt, was found guilty of larceny in a building. He received 2 years probation and is to spend the 1st 60 days in county jail with credit for 30 days served.

Charles A Lorraine, 18, 2151 W Cutler Rd, DeWitt, was found guilty of possession of phencyclidine. He received 2 years probation and 1 year at Camp Pugsley.

Arraigned on June 25 were Gary A Coleman, 21, 2800 N East St, Lansing, who

pleaded guilty to possession of phencyclidine. He will be sentenced July 9. A lesser count, possession of marijuana, is to be dropped in District Court.

William O Clements, 24, Crystal, stood mute to charges of unlawfully driving away an automobile.

Terry Lovegrove pleaded guilty to a charge of attempted larceny. He will be sentenced July 9.

A bench warrant was issued for Alexander Kolody, 19, of Detroit, who did not appear for arraignment. He is charged with violation of the controlled substance act.

Pleads not guilty to 2 driving violations

ST JOHNS -- John M. James, 24, 2397 S Shepard Rd, Mt Pleasant, was arrested July 1 at 11:30 pm for driving under the influence and violation of a restricted drivers license. Police report the driving

under the influence charge is the 3d such offense by Jones.

He was released on \$1000 bond for the driving under the influence charge and \$100 bond for the violation of the restricted license charge.

He entered a plea of not guilty to both charges.

Bath residents complain about township roads

BATH TWP -- A small number of local residents were on hand at Monday night's Bath Township meeting to complain about the condition of township roads, blaming the County Road Commission for not giving them their money's worth.

One resident commented, "All we get is hearsay from the Road Commission."

Trustee Richard Bragdon, as well as Supervisor Roy VanSickle came to the defense of the commission.

"I THINK Jay Hebner is making a real effort to get something accomplished," Bragdon stated.

Clerk June Burnett added that she was told by the road commission that they are working on places named in the contracts now.

Another resident complained about the weeds growing at the corner of Park Lake and Webster Rds. "You can't see anything," she stated.

Other residents and members of the board agreed with her. VanSickle said

that in past years members of the community got together and cut the weeds themselves. He noted that these are primary roads, and will eventually be taken care of by the Road Commission.

VANSICKLE SAID he would contact the county and see what they can do. Richard Hawkins, another local resident, said he thinks the answer is for the township to take care of the matter themselves.

"Maybe nobody's ever taken them (Road Commission) to court," he said. VanSickle then noted that the money Bath Twp paid to the county is for building roads only, not maintaining

them. He said that, in comparison to other townships in the county, he feels Bath has gotten their fair share of county monies used for maintenance.

"THERE ARE NO answers," he said. "We'll just have to keep squeaking the wheel and hope for some grease."

Trustee Daniel Carleton asked VanSickle to find out the cost of fixing the Park Lake corner and other secondary roads in the township.

Hawkins asked why the township isn't cutting weeds on secondary roads if the county won't pay for it. VanSickle replied that he will check and find out the costs.

Work begins on Maple River dam

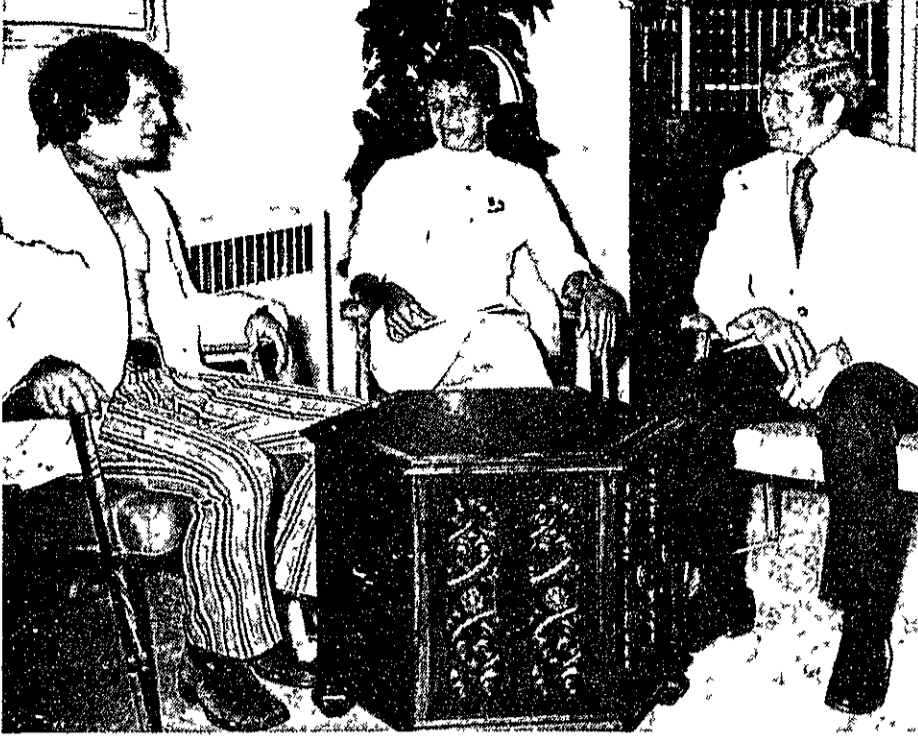

ST JOHNS -- Robert Richter from Sears, Michigan, the contractor on the Sleepy Hollow multiple-purpose structure began work this week on the dam, a part of the Maple River Watershed Project.

This flood prevention and recreation structure in Clinton County has a drainage area of 11.1 square miles. The recreation pool will contain approximately 3836 acre feet and will have a surface area of 412 acres. The principal spillway will have a high flow capacity of 283 cfs and the emergency spillway has a 2 percent chance of operation. The compacted earth fill dam

will be approximately 1,080 feet in length with a maximum fill height of 27 feet and will require approximately 37,000 cubic yards of compacted fill material. The principal spillway will be a reinforced drop inlet with a 12 by 4 foot riser, a 48 inch diameter concrete pipe conduit with cradle and cutoff collars, and a reinforced concrete impact type of stilling basin. For drawdown purposes, a reinforced concrete wet well with a 24 inch slide gate will be attached to the riser. A 30 inch inlet conduit with a reinforced concrete inlet structure located at the fill will

deliver the water to the gate. It is expected that 139 days will be required to construct this dam. Engineering layout is under the supervision of Jack Elder, project supervisor of the Soil Conservation Service.

It is estimated it will be 1.5 to 3 years for the lake to fill when the dam is completed. It will provide flood storage which will benefit the flood plain downstream from the structure. This is a cooperative project between the Michigan Department of Natural Resources and the US Soil Conservation Service; Inter-County Drainage Board; and the Gratiot, Clinton, and Shiawassee Soil Conservation Districts.

Debra Woodhams, Frank Morris wed in California

REDWOOD CITY, CALIF. — Debra Kay Woodhams, daughter of Mr and Mrs Alvin E. Woodhams, 609 W Park St, St Johns, and Frank Morris of Lansing, son of Mr

and Mrs Robert Drakos, Dearborn Heights, exchanged wedding vows June 16 at the home of Mr and Mrs Russell Smith.

The Rev Kenneth Stemper performed the double ring ceremony on the lawn at the bride's aunt and uncle's residence. Mrs Sheryl Bunchman arranged the yellow and white mums and daisies, providing a garden atmosphere.

The bride wore a long white polyester gown, styled with short sleeves and an empire waistline, and trimmed with yellow daisies. Her fingertip veil was secured by a crown of yellow daisies, and she carried a bouquet of yellow and white mums centered with daisies. Her bouquet featured a detachable corsage.

Colleen Woodhams of St Johns was her sister's only attendant. She was attired in a white empire style gown similar to the bride's, with pink rosebuds, and carried a bouquet of pink and white carnations. Her headpiece and veil were also pink.

Mrs Woodhams wore a white floor length dress with yellow roses, and had a white gardenia corsage. Mrs Marilyn Sabowitz made the gowns and veils for members of the wedding party.

Richard Rauch of Redwood City was the groom's best man. A reception was held for the couple's 50 guests immediately following the ceremony at the Smith home. Kim Smith, Sheila Orweller and Mrs Sandy Dillengess assisted with the serving.

For her going away outfit, the bride selected a purple and white street length dress with matching vest, and wore the corsage from her bridal bouquet.

The newlyweds are now at home at 721 Cedar St, Redwood City, Calif.

The bride is a 1971 graduate of St Johns High School and attended Lansing Business University.

Safety belts, when you think about it, it's a nice way to say I love you.

Smith-Ahrens vows spoken June 30

WACOUSTA -- The Evelyn Smith, daughter of marriage, of Kathlene Mrs Arlene Smith, 9450

Looking Glass Brook Rd, and Frederick Robert Ahrens, son of Mr and Mrs Robert H. Ahrens, 218 Smith St, Rives Junction, was solemnized June 30 at Emmanuel First Lutheran Church, Lansing.

The bride was escorted to the altar by her brother, Kenneth E. Smith, of Lansing. The Rev Karl F. Krauss performed the double ring ceremony before an altar graced with white and yellow flowers.

Karen Motchek, cousin of the bride, provided organ music. The bridal gown was made by the bride's aunt, and featured an empire waist, satin skirt, lace bodice and Juliet sleeves. Her elbow length veil was attached to a jeweled rose petal headpiece and she carried a white Bible covered with yellow roses.

Kay Motchek, aunt of the bride from Lansing, was her dily attendant. She wore a floral chiffon gown and carried a yellow rose.

Larry Hendershot, Jackson, served as best man while Quentin Nichols of Mulliken and Mike Bickford, Rives Junction, seated the guests.

A reception was held in the church parlors following the ceremony for the couple's 200 guests. Serving were Janice Nichols, Diane Enness, Nancy Dennis and Colleen Miller.

Special guests present were Mr and Mrs Edward Motchek and Mrs Lucy Bridinger, both grandparents of the bride from Lansing; and Mr and Mrs Ed Blasky of Florida, and Mr and Mrs Archie Ahrens, grandparents of the groom.

Following a wedding trip to Fort Meyers Beach, Fla, the newlyweds will make their home in Grand Ledge.

The bride is a 1972 graduate of Grand Ledge High School. The groom graduated from Northwest High School, Jackson, in 1968.

Mr and Mrs Michael White honeymoon in Poconos

FOWLER — Mary Ann Schrauben, daughter of Mr and Mrs Mark Schrauben, and Michael Albert White, son of Mr and Mrs Arthur D White, 2540 Vernor Rd, Lapeer, were married June 16 at Most Holy Trinity Church.

The Rev Fr Albert I Koenigsnecht, uncle of the bride, performed the double ring ceremony before an altar graced with a variety of pastel flowers. Dave Ferland provided wedding music.

The bride chose a satin gown with lace appliques and pearl trim for her wedding, featuring a cathedral train. Her floor length veil was trimmed in lace, and she carried a bouquet of red miniature roses and lilies of the valley.

Jane Schrauben was maid of honor. Her other attendants were Delores, Patti, and Linda Schrauben. Tammy White served as flower girl.

The attendants wore rainbow colored gowns of

yellow, green, blue, pink, and lavender. Each carried a basket of colored daisies.

Mrs Schrauben wore a pastel pink floor length gown for her daughter's marriage, while Mrs White selected a pastel blue ensemble with a flowered floor length skirt.

Bud Kashuboski attended the groom as best man, assisted by Don White, Pat White and Larry Schrauben. Tommy White was ring bearer.

A reception was held at Holy Trinity Hall later in the afternoon for the couple's 200 guests. Serving were Rita Simon, Rose Klein and Diane Koenigsnecht.

Special guests present included the Fr Albert Koenigsnecht, Regina Schrauben, Lyle and Donna Heir, and Peg and Bill Ainsley.

For her going away outfit, the new Mrs White chose a print pastel dress. The newlyweds will reside in Spartan Village, East Lansing, following a wedding trip to Cove Haven in the Pocono Mountains, Pennsylvania.

Both are graduates of Michigan State University, the groom in 1970 and the bride in 1973.

Elsie carnival a success

ELSIE (c) -- Elsie's carnival, held June 21-23 at Elsie Athletic Field, was a success, with the weather cooperating and providing ideal conditions for the contests, exhibits, arts and crafts, parade and display of fireworks.

One of the happiest visitors was Charles Langham of St Johns, who won the half of beef.

The Elsie Lions Club and Elsie Improvement Association sponsored the carnival, with Sehls Northern Shows supplying rides and games. Several local groups provided entertainment and food stands.

Gospel Lads to be featured at Duplain rally

The Gospel Lads Quartet, originally from Southern California and now with the Revival Fires ministry, will be appearing in person and conducting a Rally on July 18 at 7:30 pm at the Duplain Church of Christ located at 5665 East Colony Road according to Jack Schwark director of local arrangements.

The Gospel Lads are a regular feature on the Revival Fires TV program now viewed coast to coast on more than 132 TV stations. The program is viewed in this area on Channel 5 on Sundays at 8:00 am.

The Lads are touring out of Joplin, Missouri, the international headquarters of the Revival Fires ministry, and are making appearances throughout the US and in the Holy Land and Greece.

The Lads have produced many LP stereo albums and have recently done two 1 hour TV Specials.

They have worked with such well-known public figures as Art Linkletter, Paul Anderson -- called the World's Strongest Man, Stuart Hamblen -- author of "This Ole House" and other favorite songs, and former Miss America -- Vonda Kay Van Dyke.

The Gospel Lads will be on hand for the one night only and will present a concert of Gospel and sacred songs with special emphasis upon the many different styles and sounds of Gospel music.

The annual program planning meeting of the Bannister United Methodist Sunday School was held at the church Tuesday evening. The new minister Reverend Miriam DeMint was present for the first time with the group.

Mrs Raymond Stewart, materials chairman, checked with each teacher about the amount and satisfaction with what he is using. Also suggestions were made and a list to be made of new classes after promotion.

Mrs David Green gave the treasurer's report. Seven young people are going to Church Camp and the Sunday School is paying half of the cost.

It was suggested that Bible School be held the week after school is out. An evaluation of the past week's Bible School was given with a good report on it.

The annual Church and Sunday School picnic will be July 29 at Dale and Wanda Randolph's pool.

Teachers and substitute teachers were named for every class. It was hoped that every teacher would let her substitute know in advance if she cannot be present.

Other suggestions and discussion were: Encourage each class to keep in touch with absentees and the sick, promotion Sunday, first Sunday in September, Encourage Bible bringing and using by all, support and take part in Key 73, bulletin boards for all and prayer partners. Prayers by Mrs Robert Valentine, Mrs Ray Peck and Rev DeMint.

Mr and Mrs Glen Valentine and family of Atlanta, Georgia were recent house guests of the Robert Valentine family and the Walter Miller family. Also Mr and Mrs Dale Stone of Lakewood, California were visiting relatives in this area.

Area to receive more in Revenue Sharing funds

A new state revenue sharing plan that is based on a choice of either "tax effort" or "tax burden" will provide local units of government in the 30th Senatorial District with \$1,197,339 more in 1973-74 than in the present fiscal year, State Senator William S. Ballenger (R-Delta Twp.) announced recently.

"The bill allocates \$213.6 million for cities, villages, and townships throughout Michigan, plus an additional \$49.2 million for the 83 counties' share of the revenue sharing funds. This is a 15.3% increase for the counties over the present fiscal year."

Ballenger said the measure, which has been passed by the Senate and sent to the Governor for his signature, recognizes both the tax burden of local units of government and the tax effort they are making as basic components of the new revenue sharing formula.

THE 32-YEAR-OLD lawmaker pointed out that a "grandfather clause" in the bill provides that no local unit will be paid less than \$17 per capita if it is levying less than one mill; \$18.50 if it levies more than one mill but less than 2 mills;

\$19.50 if it levies more than 2 mills but less than 3 mills; or \$20.50 per capita for over 3 mills.

"In effect, the new bill rewards local taxing efforts," he noted.

Ballenger said the new revenue sharing formula will provide 21 cities and 28 villages in the 30th Senatorial District with a total of \$474,089 more than they received during the current year.

"It should be emphasized that all units of government - cities, villages, townships, and counties - will receive more in 1973-74 under the new bill than they have in 1972-73," he said.

UNDER THE NEW FORMULA, the 6 counties in the 30th Senatorial District will receive the following total amounts during 1973-74 which will in turn be divided among townships, cities, villages, and the counties themselves:

Clinton	\$1,244,016
Eaton	1,841,326
Montcalm	961,881

New law takes effect concerning special education

Public Act 198 (1971), the Mandatory Special Education Act, was passed by the Michigan Legislature and signed by the Governor late in 1971. In bill form (HB 4475), it was supported by the State Board of Education. This Act became

law on July 1, 1973. The Act has three major provisions. (1), the Act establishes the right of handicapped persons from birth to 25 years of age, to equal educational opportunity within the Michigan public schools. (2), the Act establishes

procedures for accountability in the delivery of programs and services of those handicapped persons.

(3), the Act requires a system of state and intermediate school district plans for the delivery of services.

(This law requires local and intermediate school districts to provide an educational program and/or service to any handicapped person who desires an equal educational opportunity.) To help enact such services locally, the Clinton County Intermediate Dist

said, "Help us, help you. Any person who knows of a handicapped person between the ages of 0 to 25 years, should notify the Intermediate Office (224-2923), so educational services can be planned for that person."

Open Letter from VAN W. HOAG

Dear friends,

It deserves emphasis that the time, the place, the character of the funeral service, the merchandise used, the cemetery selected - these are decisions of the family of the deceased. The funeral director acts only as a representative of the family.

The clergyman should be consulted in matters that concern him before any decisions are made.

Respectfully,

Van W. Hoag

Civil Service has employment openings

The State Department of Civil Service is currently accepting applications and scheduling examinations for a number of positions according to State Representative Stanley M. Powell (R-Ionia).

Representative Powell said that the Department was accepting applications for an indefinite period of time for the positions of child care worker 05, attendant nurse 03, and computer programmers 09 and 10 and would be scheduling examinations once a month as the number of applicants warrants.

Applications for the position of weights and measures inspector 07 are being accepted until 5 pm July 2, with a written test scheduled for Aug. 4.

Also being sought are applications for the position of school principal 14 (deaf, blind) and school principal 15 (deaf, blind) which will be accepted until July 9, with an oral appraisal conducted upon notification.

Applications and further information about the job opportunities may be obtained at all Michigan Employment Security Commission offices; the Michigan Department of Civil Service Lansing office, 320 S. Walnut or the Detroit office, Executive Plaza Building, 1200 6th Street, Room 318, Detroit, Michigan 48226; or from the office of most county clerks.

The jobs and their corresponding salaries are listed below:

- Child Care Worker 05 hourly salary \$3.84 to \$4.48.
- Attendant Nurse 03 hourly salary \$3.42 to \$3.96.
- Computer Programmer 09 annual salary \$11,525 to \$14,031.
- Computer Programmer 10 annual salary \$12,486 to \$15,252.
- Weights and Measures Inspector 07 annual salary \$8,560 to \$10,711.
- School Principal 14 (deaf, blind) annual salary \$17,434 to \$21,861.
- School Principal 15 (deaf, blind) annual salary \$18,875 to \$23,854.

This is Maridell Nelson Week

When it comes to participation in civic events Maridell would be hard to beat. She has worked in a broad number of organizations ranging from the various Girl Scout levels to school activities to hospital groups. Women's Club and Morning Musicals have also felt her willing efforts and she was in the organizing of St Johns First Nighters and the Teen Center. For all of the twenty years she has lived in St. Johns she has displayed a willingness to join in on community affairs and her spirit has set a fine example for those who work with her. We are pleased to honor and thank Maridell Nelson by naming her as our citizen of the week.

Keep it going

Let's keep it going, folks.

We're talking of the Job-O-Youth program which provides summer employment for area students. Run by young people for young people, it needs the support of the adult portion of the community to continue to be a success.

Initially, response to the program by residents has been enthusiastic. The many who signed up for summer were matched by the many hiring young people.

However, as with any program of this type, the enthusiasm cannot be allowed to diminish.

The enthusiasm of the workers is still right "up there" and we hope the same will continue to be true by those providing the jobs.

The Job-O-Youth program is similar to those initiated in other communities and some have been on a much larger scale. In many instances, after the programs experience a good start, lack of participation by those hiring workers led to the demise of summer work for many young people.

We encourage the businesses and residents of St Johns to continue their support of our Job-O-Youth organizations so it cannot be said that ours died due to lack of interest.

Do a job for young people -- call Job-O-Youth.

JE

88th District Report by Stanley Powell State Representative

In this final week of our State's fiscal year our action on the budget is far from completion. Agreement on the school aid formula is one of the big stumbling blocks retarding our progress. By the time you read this we will be approaching the beginning of the new fiscal year on July 1st. At this juncture, it appears impossible that the budget will be even near completion by the deadline. Even if the Legislature should manage to adopt a total budget before the new fiscal year, unless some drastic cuts are made from the way it is presently shaping up, it will be over \$119 million above the Governor's recommendations and would most likely mean a veto of some of the major bills or at least line item vetoes to pare down the totals.

DRINKING DRIVERS

The severe and growing problem of drinking drivers is being attacked at present, with both House passage of a bill to assist law enforcement officers in apprehending the drinking driver, and a special assault by Governor Milliken on the problem.

The bill passed by the House last week, which also had the Governor's support, prohibits a person from transporting or possessing alcohol in the passenger compartment of a vehicle which is open, uncapped or upon which the seal is broken.

Present law prohibits a person from consuming alcoholic beverages on a public highway, but in order to enforce the law police officers must actually observe the alcohol being consumed, which makes enforcement almost impossible. The Department of State Police, which supports this bill, says that the prohibition of the transporting of open containers of alcoholic beverages would aid them in enforcing existing statutes dealing with drinking while driving.

In a speech last week detailing an eight-point program to solve highway problems, Governor Milliken singled out the drinking driver as one of the state's major highway safety problems. In addition to support of the alcohol transportation bill, the Governor also urged support for legislation which would require drivers involved in accidents which have caused personal injury to submit to blood-alcohol content tests when the arresting officer has reasonable belief that alcohol was a contributing factor in the accident.

Also included in the program announced by the Governor were local efforts to help provide protection for pedestrians; passage of SB 572 to give vehicle check lanes

personnel authority to initiate a follow-up program for enforcing the correction of mechanical deficiencies detected in the check lanes; and completion of an inventory of road hazards and obstructions for both the state highway and county road systems.

HOUSE AMENDS MARRIED WOMEN'S PROPERTY ACT

Also adopted by the House last week a bill to allow a married woman with her own income to enter into, and be responsible for her contracts without requiring her husband's co-signature on any such contract.

A present act was an effort to grant married women the use, management and enjoyment of their own income and, when passed, was a departure from the common law under which the assets or earnings of a married woman were the property of her husband. At that time the law did not go so far as to allow a married woman to enter into contracts in her own name, although a single woman in the same financial circumstances could make such a contract.

This bill would remove the last vestige of a married woman's dependency on her husband in relation to the use of her own earnings. However, when the income of a married woman is not satisfactory for approval of the contract without another person's signature as surety or guarantor, there is nothing in this act that would prevent a lender from requiring a co-signature for that reason.

STATE SUPREME COURT DECIDES TWO MAJOR ISSUES

The Michigan Supreme Court, last week, issued rulings on two major issues -- no-fault insurance and abortions.

On no-fault insurance, the high court ruled that the state's no-fault insurance law was enacted constitutionally and cleared the way for it to be put into effect October 1.

The Supreme Court ruling had been requested by the State Senate and Governor Milliken, using the Constitutional provision that allows the Governor or the Legislature to ask the court to rule whether or not a law is constitutional before it takes effect.

Although the court's opinion upheld the procedure used to enact the no-fault insurance law in Michigan, the seven justices did not undertake to answer larger and more serious questions about constitutionality.

Opponents of the law have argued that the law violated both the state and federal Constitutions by denying

equal protection under the law and due process of law. Supporters call the no-fault law the best in the country and say it provides the most extensive benefits to automobile accident victims of no-fault law enacted in the country.

ABORTIONS

The high court also ruled that persons performing abortions are subject to prosecution if the child could have survived birth at the time of the operation.

After Michigan voters decided against liberalizing the state's abortion law at the polls last November, the U S Supreme Court overturned the Michigan law dealing with the first three months of pregnancy leaving abortions during that period of time a matter between the woman and her physician.

The State Supreme Court ruling this week decided that Michigan's law prohibiting abortions except in cases where the mother's life is in danger, can be applied to the second three months of pregnancy.

After the third month of pregnancy has passed, the court said "any physician may not cause a miscarriage after viability except where necessary, in his medical judgment, to preserve the life or health of the mother".

The court defined "viability" as a child whose heart is beating, who is experiencing electronically measurable brain waves, who is so far developed and matured as to be capable of surviving the trauma of birth with the aid of the usual medical care and facilities available in the community.

The court, however, said it is the prosecution's responsibility to prove viability in order to obtain a conviction for an abortion.

Liaison visits Clinton County

Congressman Elford A. Cederberg's liaison man, Ronald W. Stolz, will be visiting Clinton County in order to offer the citizens of the Tenth District an opportunity to bring difficulties they might have with the Federal government to his attention.

Stolz will be at the Court-house in St Johns Monday, July 9, from 1 pm to 2 pm.

Cederberg reminds those who might have problems with a Federal agency, to bring along any documents that might help to identify his case to Mr Stolz.

Back Through the Years

From the Clinton County News files of 1972, 1963, 1948

ONE YEAR AGO
July 5, 1972

Central National Bank of St Johns was named as paying agent for the \$750,000.00 bond issue for Clinton County Board of County Road Commissioners Motor Vehicle Highway Fund Notes which was bid on June 12, 1972.

The board of directors of Clinton National Bank has approved a semi-annual dividend payment totaling \$58,560 to all stockholders of record as of June 15, 1972. The dividend amounting to one dollar per share, will be paid as of July 1, 1972.

Rademacher Construction Company of St Johns was awarded a \$119,000 contract to construct an office building for the Clinton County Intermediate School District during a bid opening held Thursday evening.

Fire protection contracts between four Clinton County townships and the City of St Johns expired July 1 but a 30 day "grace period" remains in effect until August 1.

The 1970 Census of Housing counted 14,100 housing units in Clinton County and 13,298 households had at least one television set according to the Bureau of the Census, US Department of Commerce. The figures are from the first report for Michigan which presents detailed statistics on housing for each county.

25 YEARS AGO
July 1, 1948

John S. Barnes, who has served 24 years as sheriff of Clinton County told the Republican News' Wednesday he would not be a candidate for the office at September primary.

The Farmers' Mutual Insurance Co let a contract Wednesday for the erection of a new office building at the corner of Spring and East State streets. Granger Brothers, of Lansing were successful bidders on the job at their figure of \$66,530.56.

Dr. B.C. Hall, 89, well-known Pompeii physician and surgeon passed away at his office there at 3:20 pm Wednesday, a few minutes after he suffered a sudden heart attack. He was treating a patient at the time the fatal attack occurred.

Raymond C. Workman, maintenance superintendent for the Clinton County Road Commission, has resigned his position to accept a job as inspector of airport maintenance and construction for the State Board of Aeronautics. Ray has been employed by the road commission here for the past 25 years and is well known throughout the county.

TEN YEARS AGO
July 4, 1963

John T. (Jack) Bracey, well-known Ovid dairy farmer, left his native England to come to Canada in 1919. He hadn't seen any of his family since that time till Monday, June 24, when he met his brother, Charles who had just arrived from Australia at the Lansing bus station.

Veteran's Memorial pool at the City Park, a popular spot during last week's heat wave, is dry this holiday week while repairmen caulk seams which have been losing water as fast as it was piped in.

Last week's headline news concerned freezing weather which had caused serious damage to Clinton County crops. This week's principal topic of conversation was sweltering heat.

Discouraging, isn't it?

The St Johns City commission in its regular meeting Tuesday night

agreed to extend the ban on lawn sprinkling for another 30 days. Continued lack of rain and increased demands on the water supply occasioned by last weeks heat wave have made the shortage of water even more serious than it was when the ban was ordered a month ago.

The Red Cross Bloodmobile will be in St Johns Tuesday, July 16, and volunteer workers already are campaigning in an effort to reach a goal of 200 pints.

Price complaint office open Saturdays

Persons noticing price increases they believe may be in violation of the price freeze now have a place they can complain. Thomas A. Cardoza, District Director of the Internal Revenue Service, announced recently that personnel of the Economic Stabilization Program will be available to answer telephone inquiries every Saturday from 9 am - 1 pm.

The purpose, Cardoza noted, is to accommodate concerned citizens who have questions or complaints about price increases which have occurred during the 60-day freeze. The number to call is (313) 226-7650.

To assure receiving prompt attention of a complaint, the caller should be able to give the name and address of the suspected violator, the item which has been increased and the pre-freeze and current prices.

TODAY'S Real Estate

by HANK FURMAN

If you decide to buy an older house, make certain it is in good condition. Check to see what is in need of repair or replacement. Check roof, walls, ceilings and floors. Remember, there are certain advantages to buying existing homes. The price of land, labor, and materials has increased steadily through the years, and an older home can perhaps provide you with more for your money. Weigh this against possible repairs that will be needed. Don't disregard the possibility, however, of purchasing a newly constructed house and the advantages it offers!

Take advantage of the knowledge and experience of the friendly staff at FURMAN REALTY CO, 1515 North U.S. 27, 224-3236; they can often prevent you from making a costly mistake. "If It Fitz . . .

The hungry children

Editor, Lapeer County Press

" By Jim Fitzgerald

In your heart you know he's right. Barry Goldwater of all the stubborn people, threw in the towel on national TV the other day. After 35 years of doing his bit for this country, he said, he now has mornings when he doesn't see much use in getting out of bed. He admitted saying to himself: "Oh well, what the hell can you do?"

I know the feeling. I think more and more Americans are knowing the feeling, what the hell CAN you do?

Goldwater is mostly right, off by a little. Watergate, he sees, the scandal, doing terrible damage to his beloved Republican party. He feels betrayed by people he trusted. He's like a devoted Boy Scout who has suddenly learned his scoutmaster is a pervert.

There's a lot more than Watergate bugging me (excuse that, please). The world is jammed with terrible problems that defy solution. There's ecology and inflation racism.

But most of all, there are hungry children. A few hours before writing this, I saw the NBC TV show called "Sins of the Fathers." It was about the thousands of fatherless children left behind when U.S. soldiers finally escaped Vietnam.

After looking at the incredibly sad faces of those kids, I couldn't write a funny column if Bob Hope loaned me his battalion of joke writers. And I couldn't write anything indignant about the Watergate mess, either.

After all, if this nation can allow its youngsters to starve, why should anyone be

shocked that many of our law-and order politicians are lousy crooks?

And those poor kids in Vietnam ARE our responsibility. They were fathered -- and deserted -- by U.S. soldiers. The soldiers were there, lonely and hungry for sex, because they were drafted to fight an unjust, immoral war that was none of their business.

Now the war scene has changed. The battle is in Cambodia and our warriors are strictly airborne. Their bombs don't kill, they maim. They're dropping on the backs of pregnant peasants, just kill them. So, as the TV announcer said, there will be no more American-Vietnamese children born to misery. Isn't that marvelous?

But what about the 25,000 half-American kids born before the killing became completely push-button? I hope you saw them on TV. They are living under unbelievably horrible conditions, packed into orphanages or abandoned in alleys. They are bloated and they have running sores and they sleep a lot because they have no energy. Their eyes are sad and bewildered.

There is no love for these children. The Vietnamese are racists and they scorn racially-mixed youngsters, particularly if the father was a Negro. Long before they are old enough to learn why, the children experience the cruelty of bigotry.

These children are doomed. Things will get no better for them, the man on TV said, because not enough people really care.

In your heart, you know he's right. What the hell can you do?

By Laurie Kipp

It's personal

Ah, the fashion industry -- what con artists. They have everyone ensnared in some form or other. Those who claim they pay no attention to current trends seem to be the ones who follow its dictates most closely. I, too, confess to being caught up in its ridiculousness.

Although I no longer buy fashion magazines, if there's one around I'll read it. Beginning with Women's Wear Daily from New York City, and filtering down to less stringent publications for both men and women, someone sitting in an office somewhere is deciding how the rest of the country will cover their bodies.

Fortunately, pants for women are now acceptable almost everywhere. For this I bless those lycoons since slacks are much more practical and comfortable. I do have a beef with shoe styles, however. Over the years I've worn flats with skinny, pointed toes, spike heel monsters, that shorten women's calf muscles (sometimes permanently), flat shoes with no arch at all, and the latest wrinkle-platform shoes.

A lot of physicians across the country have pleaded with people not to buy them because of the damage they can cause. In fact, I recently saw a girl seriously hurt her foot dancing with those

things on. But, here I sit typing this in my platform shoes. We are a nation of sheep.

Remember the huge, mushrooming hairstyles for women? In order to style one of those things a lot of ratting was required (beauticians were always careful to call it "teasing") which split ends and left hair feeling and looking a lot like straw. Hallelujah, these too have bitten the dust, but I've got my fingers crossed they don't return someday.

Along with dictating clothing styles, the fashion industry has succeeded in making us all believers in the stereotypes they have devised to coincide with particular styles -- people in bluejeans and workshirts (particularly if their hairstyle is unorthodox) are hippies; men in snappy business suits are executive types of some sort; those in dark suits are conservative undertaker-types; men who smoke, pipes and wear blazers are playboys; women with neat hairstyles and short skirts are secretaries, and housewives who "don't read glamour magazines are frumpy. Ridiculous, but we believe it.

The women's movement has begun protesting these things and I, too, am struggling to rid myself of stupid behavior and thought

patterns indoctrinated in me by the fashion industry. It's a hard thing to do, for both men and women, but the results could hardly be anything but beneficial.

Medicare rolled back

The monthly premium for Medicare Medical Insurance, scheduled to be increased in July, has been rolled back in keeping with President Nixon's 60 day price freeze policy, according to Roger W. Seamon, Social Security District Manager in Lansing, Michigan.

"The higher amount will continue to be charged until the premium record for each beneficiary can be corrected," Seamon said.

"Refunds in full, will be made at a later date. This also applies to railroad retirement beneficiaries and civil service annuitants who pay premiums for medical insurance under Medicare."

Medicare Medical Insurance helps pay for doctor bills and many other medical expenses of almost everyone 65 or over and disabled people under 65 who have been eligible for monthly social security disability payments for 2 years or more.

View from the Senate

By SEN. WILLIAM S. BALLENGER

Climaxing a fight led by 6 Senators -- all of us Republicans -- the State Senate earlier this week put what may be the final blast on a proposed new State Capitol.

By a vote of 18-10, after 2 hours of debate, the Senate eliminated from a capital outlay bill provisions for appropriating \$4 million for the start-up of construction on a proposed new Capitol 2 blocks west of the existing structure.

Left in the bill was an appropriation of \$6 million for 3 proposed office buildings and a central cooling facility.

As a co-sponsor of the controversial amendment, I feel that the elimination of the appropriation for the proposed Capitol at this time was a victory for Michigan taxpayers who, had that portion of the bill not been stricken, faced the prospect of shelling out at least \$100 million -- and probably much more -- in the next few years for a new Capitol, which most people in my 30th Senatorial District oppose vehemently.

After the appropriation was removed from the bill, which had been reported out by the Senate Appropriations Committee, the rest of the measure was passed, given immediate effect, and sent over to the House of Representatives. I'm not sure whether the House will restore the provision for a new Capitol, but, if they do, we'll have to fight the battle all over again.

I don't argue that a new Capitol won't ever be needed some day -- perhaps in the 21st century -- but there are cogent reasons why one should not be built at this time.

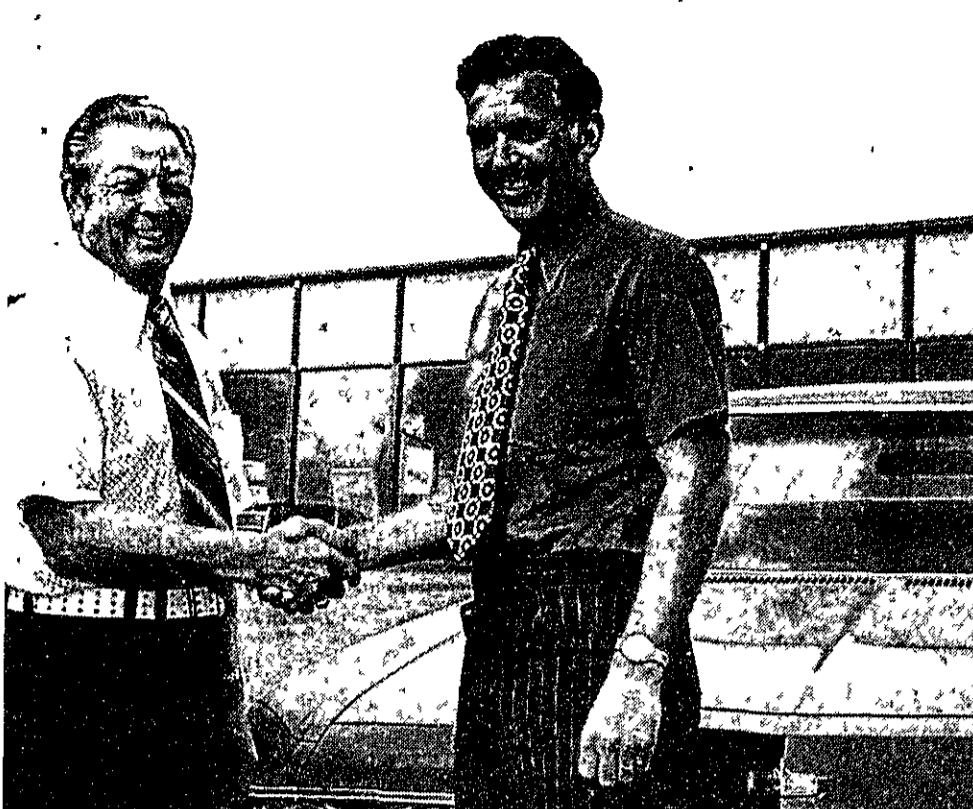

In the first place, we just finished an extensive remodeling program on the present Capitol which has cost several million dollars, and most legislators for the first time in history have adequate and comfortable quarters. It would be folly to follow up this expenditure with an even greater outlay of taxpayers' money for a new Capitol.

Even more compelling, I feel, is the fact that Michigan has many more pressing needs than a new Capitol. I feel very strongly that

the Legislature must establish spending priorities which place a premium on programs like Special Education and environmental and consumer protection rather than massive outlays on a plush new Taj Mahal for lawmakers.

I don't object to appropriations for the construction of new office buildings. Our state government is bursting at the seams all over Lansing and environs, and it's plainly inconvenient for the public to have to go from one end of Lansing to the other to conduct state business. But we can provide sufficient new office space in an area in close proximity to the Capitol at far less cost than the \$100 million-plus it would cost to build a new Capitol.

I feel that the Senate's action Tuesday will rebound to the benefit of Michigan people for many years to come, and I applaud those 17 Senators who balked at the construction of a new "dreamhouse" at a time when there are so many more important places to put the taxpayers' money at this time.

The annual National Golf Day, sponsored by the PGA and the Chevrolet Division of General Motors, received a local boost this year when Bee's Chevrolet sweetened the pot with a drawing for free use of a 1973 Chevrolet for two weeks. Bee's general sales manager, Red Devereaux, left, extends congratulations to Lyle French, winner of the drawing who will have use of the auto for the two-week period. National Golf Day is an event where golfers across the nation enter a tournament to compare their scores with those carded by professional members of the PGA. Proceeds from the day are channeled into various charitable organizations across the country.

O-E Board approves new contract for Supt Kenney

A new 3-year contract for Superintendent Don Kenney was approved by the Ovid-Elsie School Board at a special meeting held June 25. Terms of the contract run from July 1, 1973 to June 30, 1976.

In other action the board approved moving the boundary of East Elementary School on Mabitt Rd 69 feet to the north of the present bench mark, and relinquish 69 feet to the south. This will be done providing Holy Family Church assumes all costs involved.

Agriculture in Action Happy Birthday, America

Most American people -- 78 percent of them, according to a recent national survey, "feel good" about farmers. They don't feel so good about government spending. In fact, this same survey, conducted by Leo J. Shapiro and Associates of Chicago, indicates that 86 percent of the respondents believe that government should cut its spending.

This survey, like many others, shows that consumers believe what agricultural spokesmen have been telling them for a long time -- that farmers and ranchers are victims of inflation -- not the cause, and certainly not the beneficiaries.

The recently imposed food price freeze may have sounded good to the American consumer at first, but he would be the last to want the results of a controlled agriculture -- food shortages, black markets and rationing. A traditionally productive agriculture has been good to him and he'd hate to lose that part of our American way of life.

Because of the great accomplishments in agriculture and food production, 95 percent of the American people have been liberated from a life sentence of scratching the soil for a grubby existence -- which is the life-style in so many areas of the world. A free and productive agriculture has released 95 percent of the American people and put them in libraries, in laboratories to win Nobel prizes, in pulpits, behind musical instruments, and in the classrooms to make America the best educated nation in the world.

It has set them free to put on a doctor's gown to conquer polio and tuberculosis, and in spaceships to explore the moon. Whether America will be able to maintain this kind of "liberation" will depend a great deal on how free of restraints agriculture will be allowed to remain.

What price a vote?

REP DOUGLAS TREIZE
87th District

From time to time I've wondered what price some legislators place on their vote. Last week, during the battle over this year's school-aid appropriation, we got a clue to the prevailing market condition.

If you have been following the rush of activity on this legislation, you will recall that a coalition of Republicans and suburban Democrats defeated a plan proposed by the Democrat leadership which would have raised the school-aid appropriation to a point \$50 million over what we felt could be supported.

Our concern was -- and still is -- that we will jeopardize the recent tax reductions by over-spending our income and require the enactment of new tax increases next year. It is my personal opinion that the main reason for the attitude of the Democrat leaders is purely political. They want a Republican governor to have to request a tax increase next year at a time when he must face re-election.

The coalition which defeated the increased spending school plan was held together by the fact that low tax rate districts, such as Detroit, would receive

proportionately more money while those which tax themselves at a high rate would get comparatively little benefit. Some 43 school districts in the state levy more than 30 mills for schools and the 10 Democrats who represent most of those districts felt they could not support the plan of their party leaders.

But never underestimate the resourcefulness of the clever politician. The Democrat leaders used the simple expedient of adding \$5 million to the cost of the bill and doing it out to the high-millage districts. The price paid those 10 Democrat legislators was enough to buy their support so they caved in and supported the bill.

Thus, we are left with a school-aid bill which will reward those schools which tax themselves the least and those which tax themselves the most but will leave the rest of us -- in the range of 20 to 30 mills are left holding the bag.

This process of "sweetening the pot" is not a new legislative tactic. During the whole consideration of school support legislation, a lot of carrots were held out to try and buy

votes for a different philosophy. Frankly, there were plans proposed which would have brought more state money into many of our districts. Some of them were tempting.

But my overriding consideration was that people do not want to pay more taxes and, in fact, want to pay less. And, they will pay less in their total tax bills if we let the full tax reduction program enacted earlier this year take effect.

We won't realize the benefit of that program until early next year when we all make out our state income tax returns and either get credit for a part of our property tax payments or get a cash refund for those payments. We will also start, on January 1, 1974, taking higher individual income tax exemptions and therefore have a smaller portion of our paychecks deducted for state income taxes.

And, until that time comes, and all of us get to feel the effect of the new tax structure, I don't intend to "sell" my vote for any program that will increase taxes even though it may bring more state money into my district.

I place too high a value on my vote for that.

"Clare 62 miles; 100 kilometers." That's the type of information that motorists traveling US-27 between Lansing and Grayling will be seeing soon on distance signs along the highway.

The State Highway Commission, in an experiment, has authorized placing 23 signs giving distances both in miles and kilometers. It is an early step in preparing the public for what is expected to be nationwide conversion from the imperial to the metric system of measurement within the next 10 years.

TWENTY-ONE of the dual markers will replace existing signs along the 137 miles (220 kilometers) of US-27 between Lansing and the intersection with I-75 south of Grayling.

Two special signs will be erected on M-90 near the Crosswell-Lexington High School in Sanilac County. Science students at the school have been studying the metric system and the planned nationwide conversion and made the first request to the Department of State Highways to put up dual markers along a state highway.

The new signs are expected to be in place by the end of the summer. About 92% of the world's population now uses the metric system or is committed to conversion. It measures length, area and volume in meters, capacity in liters and mass and weight in grams.

You'll be traveling miles and kilometers

A KILOMETER is approximately five-eighths of a mile. Conversion from miles to kilometers is made by multiplying the number of miles by 1.61.

Condition bike and mind

By WILLIAM LASHER
Extension Agriculture Agent

Avoid tragedy this summer by encouraging your youngsters to heed bicycle safety precautions.

More than 90 per cent of all bicycle accidents involve children between five and fourteen years old. Bicycle accidents occur at about the same rate in rural and urban areas, but country bike riders tend to have more serious accidents.

Keep bikes in good condition. Make sure the wheels are aligned and the horn or bell works. Headlights should be visible from 500 feet (about the length of a city block). If you must ride at dusk or in darkness, always use lights.

Inflate tires according to pressure specified on the tires. A hard tire slips on wet surfaces. A soft tire is easily punctured.

Adjust the seat height so your toes can touch the ground on both sides of the bike at once. Adjust handlebars so your knee doesn't hit when the pedal is in its highest position and you're making a sharp turn.

If handle grips don't fit tightly, glue them on.

Grease or oil moving parts at least once a year.

If only the rear wheel is equipped with a brake, it must be in condition to skid on dry pavement.

Ride single file and allow

only as many riders as the bike is built to carry.

When possible use bike paths. If you must bicycle in the road, ride to the far right. Keep an eye out for opening doors or parked cars and watch driveways. Use a rear view mirror to be aware of moving cars behind you. Ride defensively.

Bicycle riders must obey stop signs, red lights, caution and yield signs and all other traffic signs.

Walk your bike across busy streets. And remember, the bicycle is the smallest vehicle on the road.

In an argument with a car, the cyclist takes the brunt of the bruising.

USDA begins to release 1973 farm program payments

The US Department of Agriculture will begin releasing 1973 farm program payments after July 1. This announcement was made by Dorn Diehl, State Executive Director of the Michigan Agricultural Stabilization and Conservation Committee.

Diehl noted that over 71,000 Michigan farmers are enrolled in the 1973 program. These producers had indicated intentions to 'set-aside about 290,000 acres from crop production this year. Payments will be made only to those producers who fulfill their intentions.

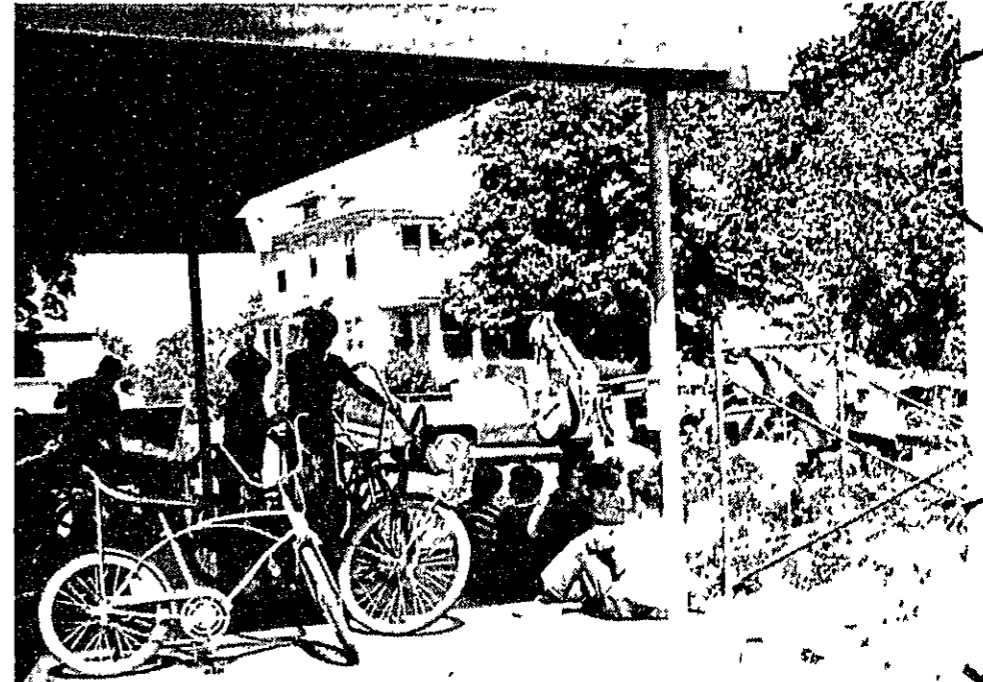

To qualify for 1973 payments, those farmers who enrolled by the March 16 deadline, have only until

July 2 to notify their respective county ASCS office that they have complied with all program requirements. Last year thousands of dollars were lost when program participants failed to contact their ASCS offices and furnish the necessary report of compliance by the deadline date. The earlier a producer certifies, the earlier he may expect his payment.

The information he reports is recorded on a data sheet which is then forwarded to New Orleans where the payment is actually determined by a computer. The payment drafts are then printed and returned to County ASCS offices for distribution.

Diehl emphasized that these payments are to reimburse farmers for the cost of idling productive crop acres and maintaining that acreage in a satisfactory conserving manner. He also noted that even after payments are made, the farmer must continue to fulfill program requirements through the program year.

County ASCS offices, as they did in prior years, will continue to make a certain number of farm control checks to establish that program requirements have not been violated.

Fowler Little players watch as the action progresses toward lighting of their field. Lights, illuminating the baseball diamond for night play, were installed last week.

Michigan offers scenic fun

Sand dunes, scenic Lake Michigan shorelines, and thick forest are the lure at 2 western Michigan state parks, but Muskegon State Park has the edge in everything except fame and size, according to Automobile Club of Michigan.

Muskegon has many similarities with D. H. Day State Park near Empire, 149 miles north, but the former has nearly 3 times as many campsites so there may be a better chance of getting accommodations there.

Muskegon State Park is 4 miles west of North Muskegon on M-213. Its 1125 acres include 3 miles of sandy beach on Lake Michigan, 2 miles of Muskegon Lake frontage and 3/4 of a mile on Muskegon channel.

Campers have 346 sites at 2 locations to choose from. One is located at the north end of the park in a heavily wooded area along the Lake Michigan shoreline. This campground has 242 sites with modern facilities, bathroom and a parkstore.

The other site is 3 miles south in a tract of Jack Pine growth along the channel leading into Muskegon Lake. There are 104 modern sites here with fair privacy and adequate but spotty shade. Swimmers must go to the day use beach on nearby Lake Michigan.

From the crest of some of the higher dunes, distant views over the tops of tall trees also afford a wide, sweeping view of Lake Michigan.

A BOAT launching site at Snug Harbor, on Lake Muskegon, provides access to the lakes and channel. Picnic sites also are available.

The park has many well-marked foot trails which make the interior interesting because of the different stands of trees covering the ancient sand dunes.

Fishing in Muskegon Lake is excellent for large and small mouth bass, bluegills, perch, pike and walleyes.

Muskegon State Park's attendance last year was 465,579, making it seventh among the 32 parks in the Michigan Department of Natural Resources Region III, which covers the southern half of the Lower Peninsula. Its counterpart, D. H. Day State Park, with only 130 campsites, exceeded Muskegon's attendance by more than 110,692.

Besides camping, other attractions in Muskegon include the Hackley Art Gallery, the Muskegon County Historical Museum and Deer Park, on US-31 north of Muskegon.

THE SEAWAY FESTIVAL in Muskegon, now in progress, continues through July 8.

If Muskegon State Park should be full, other state

parks in the vicinity include P. J. Hoffmaster, on Lake Michigan between Grand Haven and Muskegon, miles west of US-31 Pontaluna Road, 333 sites; Grand Haven State Park, mile southwest of Grand Haven on US-31, 172 sites; Holland State Park, 7 miles west of Holland, 342 sites; and Silver Lake State Park, 8 miles southwest of Hart, 250 sites.

Campground problems prompt ban on visitors

LANSING -- The Department of Natural Resources this week announced that a ban on non-camping visitors will be imposed this summer in 5 state park campgrounds where overcrowding has led to rowdiness, vandalism and other undesirable occurrences.

The ban's intent is to maintain tranquility in these areas, to protect registered campers from noise and harassment and, make their stay as pleasant as possible, says DNR Parks Division Chief O. J. Scherschligt.

"We realize that a total ban on visitors is a somewhat drastic measure," Scherschligt said, "but the safety and welfare of registered campers and adjacent property owners is ample justification for it."

The visitor ban, which comes from the DNR in a director's order, will take effect prior to the Fourth of July, and will cover: Lake Macatawa Campground in Ottawa County's

Holland State Park; Proud Lake Campground in Oakland County; Silver Lake Campground in Oceana County; Ludington Campground in Mason County and South Higgins Lake Campground in Roscommon County.

In addition to the ban on visitors, the director's order specifies that alcoholic beverages be banned in Silver Lake State Park, and that chain link fencing to control access be installed where necessary in the five areas.

Scherchligt notes that although problems in the five campgrounds have been especially rampant this spring—particularly during the Memorial Day weekend—these areas have been plagued with similar difficulties for the past few summers.

"We simply cannot allow these conditions to persist," he declared.

The special restrictions will be in effect through Labor Day.

CLINTON COUNTY 4-H'ERS TOPS IN HORTICULTURE

Clinton County 4-H Members won top honors in the State 4-H Horticulture judging contest June 22, during the State 4-H Exploration Day Program. In the Senior Division Steve VanVleet of St Johns and Green Acres 4-H Club won 1st place over 15 contestants with a score of 165.8 out of a possible 200. He will now have the honor of going to Oklahoma November 25 to judge in the National Contest during the NJHA Conference. The top four contestants including Steve are Nancy Hothem of Cass County, Penn Peirine of Ingham County and Marcia Browsers of Marquette county.

Other Clinton County 4-H'ers in the Senior Division included Kathy Valentine Olive 4-H Projects 6th, Kim Howe of Olive 4-H Projects 11th, and Rose Oberlin of Elsie 4 Corners 12th.

In the Junior Division Clinton County placed 1st and 2nd with Denise Cerry St Johns and Nimble Fingers and Gerilyn Faivor St Johns and Green Acres 4-H Club. Each of them will receive a gift certificate from the Joseph Harris Seed Com-

pany later this fall. There were 20 contestants in this division. Other Clinton County 4-H members included Brenda Bancroft Nimble Fingers 6th, Sherri Harle Green Acres 9th, and Leslie Vermeersch Green Acres 17th. The Horticulture members were coached by Mrs Ray Peck, leader of the Elsie 4 Corners 4-H Club. Anabel practiced what she taught as she won a prize in the Landscape Option in identifying Ornamentals during 4-H in Action Day at MSU.

The June 4-H Glass Project totalled 15120# bringing the grand total of glass bottles recycled to date since the project started October 1970 to 488,700#. The July 7th, collection should bring this project to over the 1/2 million pounds of glass recycled instead of going into a dump or landfill. The July glass collection day will be handled by the Green Acres 4-H Club, August collection, by Elsie Pom Pon Girls; September collection by the Fowler Jr Class and October collection by Charles Gang 4-H Club. Any group whether 4-H or not who would like to handle the glass collection project for one month should contact

the County Extension Office. The groups receive all the money from that month's glass collection.

Harry Moldenhauer, St Johns, and a member of the Nimble Fingers 4-H Club was selected as the State 4-H Entomology winner during the interviews at 4-H Exploration Day Program. Our congratulations go to Harry on this honor.

The Livestock 4-H'ers had a very successful workshop and meeting Thursday evening at the Dale Kuenzli Farm. Three Michigan State University Students, (Nancy Dible, Mary Heath and Barbara Vincent,) served as resource persons for the evening with Nancy handling beef cattle, Mary with sheep and Barbara with swine. The evening was spent on how to show the youth and adults how to prepare their animal for show and then how to show the animal. The group then attended the Barn Theater where they saw slides on Livestock Conformation of the Animal 10-15 years ago and the Modern Type of Animal. (Beef, and Swine) the market men would like to have.

4-H Dairy Members and

Leaders are reminded of the County 4-H Dairy Workshop to be held Tuesday July 10th, 7:00 pm at the Green Meadow Farm at Elsie. Members will learn how to clip and prepare the dairy animal for show, how to show the animal as well as to judge several classes of dairy animals. This year 4-H'ers will be able to take a maximum of 4 animals to the State 4-H Dairy Show at MSU, August 20-22.

The Prairie 4-H Members elected new officers for the summer season. They are as follows: Armond Smith, president; Janet Miller, vice president; Cindy Exelby, secretary; and Roger Sosebee, treasurer. Ideas for a club float at the fair will be discussed at their July 11th meeting as well as plans for the Club Family Picnic. The members voted to have 25 cent dues for each member. Reports were given on different project meetings.

The Swingin Bingham 4-H members discussed the club food meetings for July 11 and 18th. The cooking members stayed for their food meeting. Demonstrations were given by the older members on the correct ways to measure flour, sugar (brown & white) and baking soda with younger members learning to use correct methods of using measurements. The next meeting is scheduled for July 16th.

Sending up "weather" balloons to determine wind direction and speed was one of several activities to local 4-H members during the recent 4-H Youth Action Day at Michigan State University. Participating from Clinton County are (front, from left) Leslie Vermerth, Debbie Thelen and Betty Fedewa, (rear, from left) Gerilyn Faivor and Kim Howe.

4,000 youth in action at MSU

EAST LANSING -- Depicting the theme "A New Day, a New Way," 4,000 Michigan young people turned out Saturday, June 23, to present a 4-H Youth Action Day at Michigan State University.

The young people, representatives from Michigan's 5,000 4-H clubs, filled the MSU Spartan Stadium concourse with exhibits, demonstration booths, talent stages and workshop areas, and several hundred non 4-H'ers came to see the action.

"Our purpose was to tell the 4-H story to the general public and provide an opportunity for 4-H members,

leaders, agents and other youth development workers to exchange ideas," said one of the 4-H youth coordinators.

While some of the young people were demonstrating motorcycle trail riding techniques, others were sending up weather balloons, pinning insects, making radio tapes, demonstrating first aid techniques, preparing a T.V. show, practicing judo, performing gymnastics on horseback, manipulating a robot, and teaching horse foot care. The 116 different "action-learning" booths included just about everything.

The young food and

nutrition experts made ice cream, showed how to prepare meals from soup to nuts for under \$5, challenged bystanders to test their skill at milking a cow and a goat, and handed out goodies.

Those involved in the creative arts put on miniconcerts in contemporary music, folk singing, pop music, and instrumental combos. Several of the dance participants choreographed their own ballet, modern interpretative movement and tap and soft shoe dances.

Workshops were also held for those who wished to become involved and "learn-by-doing", the 4-H

philosophy. Included were: making mod crafts, cartooning, arranging flowers, sketching and drawing, generating electricity, making color title slides and practicing safety principles.

For those who liked the unusual, the 4-H'ers presented such ideas as "How to Deal with Problem Parents," "It's Not all the Doctor," and "How People Lived 100 Years Ago."

General Motors presented its live science-in-action demonstrations, "Previews of Progress," and Smokey the Bear visited with the younger attendants.

The "Action Day" was the climax of the 4-H'ers annual 4-H Exploration Days, a three-day event designed to teach 4-H members and leaders new skills. Several of the skills demonstrated during Action Day were those the 4-H'ers had learned during the Exploration Days program.

Bald Mountain offers rugged outdoor fun

There's a state park in populous Oakland County which offers camping, fishing and some of the most rugged outdoor life anywhere, yet is only 33 miles away from all of metropolitan Detroit's finest attractions, according to Automobile Club of Michigan.

The park, Bald Mountain Recreation Area, is seven miles north of Pontiac, east of M-24.

The ruggedness comes because much of the park's 3,024 acres is undeveloped and two campgrounds with 40 campsites each have fewer conveniences than some state parks. At Bald Mountain, facilities are primitive—hand pumps, box toilets, no electricity.

But to compensate, there is pristine wilderness—picturesque lakes, streams, dense woods, and scenic hills. The winding roads make pleasant driving. Wild flowers and a mixture of hardwoods and conifers color the hillsides.

A number of lakes are secluded, and dense borders make access difficult except at prepared entry points.

Fishing is mainly for stream trout, black bass, panfish and pike.

There are boat launching sites at Chamberlain and Graham Lakes.

Camping is at two outpost camps. One is Lone Pine campground on Graham Lake. The other is the Cherry Ridge campground near the park headquarters. Two frontier cabins are available for group use.

The many hiking trails make the park ideal for nature study and for day use by youth groups.

The park had an attendance of 421,737 in 1972, making it one of the most popular across the southern Lower Peninsula.

At various distances from the park are most of metropolitan Detroit's tourist attractions.

Just a short ride, in Bloomfield Hills, is a cultural center known as the Cranbrook Institutions. Its 300 acres include the Cranbrook Art Academy, the Cranbrook Institute of Science and a museum with ever changing exhibits.

At nearby Rochester, there is the Meadow Brook Festival which runs nightly through the summer; and tours of Meadow Brook Hall on campus of Oakland University, the former home of Alfred G. Wilson, who donated the land to the university. There also is an attraction called Rochester Junction, a string of refurbished railroad coaches which offer displays of oldtime railroading and other memorabilia.

The Detroit Zoo, one of the country's finest, is in Royal Oak, about 10 miles from downtown Detroit. It pioneered in the display of animals in natural settings.

Detroit also offers many plant tours, including automotive plants in Detroit, Dearborn and the GM Technical Center in Warren.

In downtown Detroit there is the Detroit Institute of Arts which has a national reputation as one of the country's great art museums. Nearby is the Detroit Historical Museum, which offers a living presentation of Detroit and Michigan history.

Two branches of the Detroit Historical Museum, in outlying areas, are the Dossin Great Lakes Museum on Belle Isle, one of the finest maritime museums on the Great Lakes or in the country, and Fort Wayne Military Museum, on the Detroit River south of the metropolitan area.

A Detroit tradition for a half century has been the boat trips to Bob-Lo Island in the Detroit River, 18 miles south of downtown. Two boats, the Columbia and Ste Claire, make daily trips until Labor Day.

Detroit also offers a wide variety of professional sports, with the Detroit Tigers the baseball summer attraction.

In suburban Dearborn is Greenfield Village, an outdoor museum of Americana founded by Henry Ford and considered one of the country's top travel attractions, along with its indoor counterpart, Henry Ford Museum.

All these and camping, too!

Senate bill provides \$5 million tuition grants

LANSING -- State Senator William S. Ballenger (R-Delta Twp.) Joined with other Senate Education Committee members June 21 in approving a bill to provide \$5 million in tuition grants, chiefly for community college students.

The grants would be up to \$500 per year and would be limited to students demonstrating severe financial need, Ballenger said.

Ballenger said that although the new type of grants would not be limited by law to community college students, the bulk of the funds would probably go to such students.

"At present," Ballenger noted, "about 50% of all beginning college students in Michigan enroll in community colleges, yet only about 2% of our state scholarship and tuition grant funds go to such students.

"This is because our State Competitive Scholarship Program requires students to demonstrate an academic ability as well as financial need while our Tuition Grant Program serves only those students interested in attending private institutions and without sufficient resources of their own to meet the high cost at such schools," he said. "There is a clear need for a new grant program to reach low-income students who are not necessarily of superior academic ability, particularly in our community colleges."

Duplain Church of Christ recently completed a week long Daily Vacation Bible School on the theme "We Look To Jesus." Mrs Neil Hall was the director assisted by Mrs Joe Bancroft and Mrs Dennis Flegel. Average attendance for the school was 201, missions totaled \$112.00 for the weekly offering and the closing program was presented Sunday morning during the Bible School hour.

Sunday, June 24th, the Duplain Church of Christ held its annual Sunday School picnic at the Dale Randolph home near Eureka. A potluck dinner was held at 1:30 pm followed by swimming, games and airplane rides, with 120 attending.

Shépardsville News

There will be no more coffee hours between church and church school until September.

Mrs Wilma Swender has returned home and is much improved from recent surgery at Sparrow Hospital.

There will be Church School during July but none during the month of August. Vacation Bible School will be held the week of July 16-20. Time 7 to 8:30. Classes for Kindergartners through Senior high. Volunteers are needed for most of the classes.

Bath Charter Township Minutes

May 7, 1973
The following is a synopsis of the Bath Charter Township Board's regular monthly meeting of May 7, 1973. Meeting called to order at 8:00 pm by Supervisor Van Sickle. Pledge of allegiance was given and invocation given by Deputy Clerk Leiby.

Board members present were Supervisor Van Sickle, Deputy Clerk Leiby, Treasurer Woodruff and Trustees, Bragdon, Carleton, Morrill and Snider.

Minutes of the April 16, 1973 meeting were read by Deputy Clerk and accepted as read. Also minutes of the Planning Commission meeting of April 23, 1973 were read.

Letters from Clinton County Zoning Administration to Mr Edward Haid, 7640 Cutler Rd, Bath and Mr Dunham of 12790 Upton Rd, Bath were read advising of junk cars that each must remove from their properties within 30 days.

Police and Fire Commission meeting held April 26, 1973 and letter was presented to the Board requesting that the Township levy the 1 mill that was voted for some time ago and levy same until the time expires for fire equipment. Trustee Morrill commented about charging for fires. The Attorney General issued an opinion that townships cannot charge for fire runs. Supervisor Van Sickle will check into the legality of our charging for fire runs caused by negligence. Trustee Morrill stated the Commission also discussed the matter of the MR 7 Radar unit for the police department. Cost of the unit is \$2,185 cash with a possible 5 or 10 per cent discount. A two year warranty on parts and labor and the company will provide a loaner if needed during repairs. Treasurer Woodruff moved that Chief Steffes be authorized to purchase the MR 7 Radar unit on a ninety (90) day trial at a price of \$214.86 and, if satisfactory, complete the purchase with the trial price to apply to the final price. Seconded by Trustee Bragdon. Carried.

Trustee Morrill asked Chief Steffes to advise the Board of the change in dispatch. Chief Steffes stated that we are transferring our dispatching from the State Police to the County. It is felt that we will get better service and calls will be recorded by the county. Also, both police cars are on the county frequency but only Car 1 is on the State Police frequency. Also, Chief Steffes will be able with the new radio and dispatch system to monitor all police calls at his home on a 24-hour basis. We are not always advised of calls to the State Police. The new system costs a little less and should improve our public relations.

Supervisor Van Sickle read a letter from the Department of Public Works, Clinton County regarding sums expended on Bath Sewer Project. Trustee Carleton moved that we pay the portion of bills totaling \$2,332.61 which requires immediate attention, seconded by Trustee Snider. Carried.

Supervisor Van Sickle advised that there is a difference of opinion between our Engineer and DeWitt's Engineer regarding the cost of our share of the enlarging the DeWitt sewage treatment plant. We had agreed to pay DeWitt for enlarging their plant and it was estimated the cost to be

about \$48,000. We paid \$6,000 last year leaving a balance of \$42,000 on that basis. Since then the cost has increased. We owe between \$21,000 and \$27,000 and this amount should have been paid at the close of our tax books. However, until these two engineers agree on a total figure, we really do not know what to pay them.

The matter of roads and our future plans for expenditures on them for rebuilding and repair. Moved by Trustee Carleton to allow approximately \$54,000 per year on a three-year plan for the Road Committee to work with and set up a yearly program to cover both rebuild and repair. Seconded by Trustee Bragdon. Carried. It was noted the Committee is doing a good job and the Board hopes they will continue to do so.

Definite locations of interchanges on the I-69 expressway in Bath Township were requested. The county Road Commission has decided to program the extension of Webster Road. Based on that the State Highway is definitely recommending an interchange on Webster Road. No time limit actually stated regarding the extension of Webster Road. There is also to be an interchange on Upton Road near M-78.

Deputy Clerk Leiby moved that vouchers #8681 through #8716 be approved for payment. Seconded by Treasurer Woodruff. Roll call vote 7 yes votes. Carried.

Meeting adjourned at 9:10 pm.
Respectfully submitted,
Ellen Leiby, Deputy Clerk

Meeting adjourned at 9:30 pm.
Respectfully submitted,
June Burnett, Clerk

The following is a synopsis of the Bath Charter Township Board's regular mid-monthly meeting of June 18, 1973.

The meeting was called to order at 8:00 pm. Pledge of allegiance was given and invocation was said by Clerk June Burnett. Board members present: Supervisor Van Sickle, Clerk Burnett, Treasurer Woodruff, Trustees Bragdon, Carleton, Morrill and Snider.

Minutes of the June 4, 1973 meeting were read by the Clerk and accepted.

Letter from Veryl Smith to the Township Board requesting permission for fireworks again this year at the Legion hall on Clark Rd., Bath on July 1.

Thirteen letters from the Clinton County Zoning Administration to various Bath residents regarding the removal of junk cars were presented. Also a letter from Mid-Michigan Health Department regarding a trailer being lived in on Ann Drive, Bath, which is not in conformity with zoning regulations; and a letter from the same department regarding a house on Park Lake road discharging raw sewage on ground surface, rubbish and part of a junk car in yard, no window screens and many plumbing violations.

Moved by Treasurer Woodruff to pay the Michigan Townships Association dues of \$230, Seconded by Trustee Carleton. Carried.

Moved by Clerk Burnett to approve request for fireworks subject to checking to determine if a proper Certificate of Insurance has been obtained. Seconded by Trustee Snider. Carried.

Moved by Trustee Carleton to enter into the contract with DeWitt Public Library with a 3 months cancellation notice if it should be desired. Seconded by Clerk Burnett. Carried.

Question posed by Mr Fish (Mel's Bait Shop, Park Lake) - of the audience relative to an article published in the State Journal regarding a statement made by Supervisor Van Sickle of raw sewage floating in Park Lake. Discussion followed. Mr Fish stated his business has dropped so that he has had to close and he has requested the health department to test the water for pollution.

The matter of the smoking ban was again brought up. Moved by Treasurer Woodruff that when the Board meetings exceed 60 minutes a 10 minute recess will be declared on an automatic basis. Seconded by Trustee Carleton. Motion amended to permit smoking outside the meeting room only. The dissenting vote - Mr Bragdon. Motion Carried.

Moved by Clerk Burnett to approve vouchers #8803 through #8826 for payment. Seconded by Treasurer Woodruff. Roll call vote 7 yes votes.

Meeting adjourned at 9:00 pm.
Respectfully submitted,
June Burnett, Clerk

May 21, 1973
The following is a synopsis of the Bath Charter Township Board's regular mid-monthly meeting of May 21, 1973.

The meeting was called to order at 8:00 pm. Pledge of allegiance was given and invocation was said by Trustee Carleton.

Board members present: Supervisor Van Sickle, Clerk Burnett, Treasurer Woodruff, Trustees Bragdon, Carleton, Morrill and Snider.

Minutes of the May 7, 1973 meeting were read by the Clerk and accepted as corrected. The minutes of the Bath Ambulance Committee meeting held May 15, 1973 were read.

The matter of fire runs and charging for same was discussed. We charge for violations of Fire Ordinance and not for regular fire runs. Attorney Berardo advised that we may charge for violations. We currently have three fire runs awaiting our action inasmuch as each of the three was in violation of the Bath Charter Township Fire Ordinance. Robert Schram, 16954 Newton Rd; George Carter, 9286 E M-78 and Dean Evans, 5902 Clark Rd. Moved by Trustee Snider to bill the above for the fine of \$75.00 each. Seconded by Trustee Bragdon. Carried.

It was mentioned to the audience that the Ordinance setting forth the requirements for proper utensils to burn in be enforced to save on unnecessary fire runs. It was suggested a notice of this be enclosed in the tax statements.

A letter was received from CAPACOG regarding the "911 Emergency Dialing System" requesting our opinion and interest regarding such a system in the Lansing metropolitan area with a 1975 starting date. Moved by Treasurer Woodruff to notify CAPACOG that we are in favor of the "911" concept subject to the cost involved. Seconded by Trustee Snider. Carried.

Moved by Trustee Snider that the Township contribute \$200 to the Park Lake Improvement League for weed control in Park Lake. Seconded by Treasurer Woodruff. The treatment last year was very successful. Motion carried.

Moved by Trustee Woodruff that the Township continue its regular contribution of \$200 to the township softball league groups for equipment. The Lions Club is to administer the leagues this year. Seconded by Clerk Burnett. Carried.

Moved by Trustee Snider to authorize the Clerk to purchase a new typewriter, for the office. Seconded by Treasurer Woodruff. Roll call vote 7 yes votes.

Bannister

The Rural Bible Mission conducted Vacation Bible School at the Bannister United Methodist Church this past week. The director was Thomas Thorn of Prattville, Alabama. There were approximately 60 children attending. Special awards for learning the most Bible verses went to Russell Schlarf, Cathy Schlarf, Sandy Schlarf, Wendy Green, Tammy Bashore, LeeAnn Nixon and David Hinkley. Russell Schlarf won the scholarship to Christian Youth Training Camp at Gull Lake for learning 60 different verses of the Bible. Teachers for the week were Mrs John Schlarf, Mrs Robert Valentine, Mrs David Green, Mrs Ralph Nixon, Cathy Ensign, Karen Liberton, Mrs Mildred Bradley, Mrs King Terrell, and Mrs William Bashore. A program was presented for the parents on Friday evening with each class participating. Mrs Ruby

Stewart helped each day with the refreshments which were furnished by members of the Women's Society of the Church. Mr and Mrs Ray Peck were hosts to the director, Tom Thorn, for the week of Bible School.

Mrs Ray Peck, Vice President of the Bannister United Methodist Women, conducted the business meeting of the group this past week. It was voted to give our \$25.00 mission money for June to the Rural Bible Mission for their continuing work with children. Discussion was held and tabled concerning recognition for young men of the Church about to be married. It has been a policy to give the young women a shower of groceries before their wedding and a gift to the boys. This will be decided at the next meeting. For the program of the evening, Mrs Robert Valentine explained the worship setting using the 23rd Psalm as scripture. She

also had a short Bible Drill for the women. Mrs Wayne Peck gave the lesson from the book "I've Got To Talk To Somebody, God". A short discussion followed. Refreshments were served by Mrs Isabel Albaugh, Mrs Ada Pontious and Mrs Alice Casler.

Rev Merium DeMint is the new pastor at the Ashley and Bannister United Methodist Churches. Rev DeMint introduced himself and told a little about her introduction into the ministry during the worship service at Bannister Sunday morning. Special music for the morning was a song by Miss Brenda Miller accompanied on the piano by her mother, Mrs Walter Miller.

XTRA LOW DISCOUNT

Saving at Kroger is like a sensible diet.

Stick to it and it pays off.

Your doctor's sensible diet is slow, but sure. And the "new you" is quite a payoff.

Low Everyday Discount Prices. The payoff is saving you can count on - and count up in dollars and cents.

Saving at Kroger is a lot like that diet. You save a lot on your total food order, week after week with Kroger's Xtra

Stick with Kroger week after week. The savings make a lot of sense.

X What are Bonus Bargains?

When you see an "X" next to an item in Kroger's ads or stores, it means a Bonus Bargain, good for a limited time and made possible by a special purchase or a manufacturer's allowance or a favorable market condition.

Memorial 31

IN LOVING MEMORY OF our daughter, Penny (Crowell) Thompson, who passed away July 2, 1971. Do not ask us if we miss her.

For there's such a vacant place, Off' we think we hear her footsteps Or we see her smiling face, For she left us borken hearted.

Friends may think the wound is healed, But they so little know the sorrow That is in our hearts concealed.

Sadly missed, Mom & Dad 10-1-p-31

CROWELL — Broken is the family circle, Our dear one is passed away Passed from earth and earthly darkness.

Into a bright and perfect day. But we all must cease to languish O'er the grave of she we love.

Strive to be prepared to meet Him in the better world above. Sadly missed by her brothers, sister and families. 10-1-p-31

Dairy products: a unique pricing system

Two federal legislative acts of 3 and 4 decades ago uniquely influence how much the dairyman receives and how much the consumer pays for milk and other dairy products, explains Michigan State University Agricultural Economist Glynn McBride.

The Agricultural Marketing Act of 1937 and the Agricultural Act of 1949 set guidelines for the Secretary of Agriculture to use in establishing minimum prices to producers.

Before the beginning of the marketing year, the secretary announces the price farmers will receive for milk sold to processors during the coming year. If processors can't sell their products on the open market after they've paid farmers the established price, a government corporation called the Commodity Credit Corporation (CCC) will buy their surplus in the form of cheddar cheese, butter and nonfat dry milk powder. The system is a price support program to assure the dairy industry a market and the

consumer a supply.

The amount the Commodity Credit Corporation will pay for dairy products depends, to some degree, upon changes in consumer preferences. Americans are tending to use less high-butterfat products and more low-butterfat items such as cheese and nonfat powder. With big jumps in consumer demands for cheese, the CCC increased its purchase price for that item.

The Agricultural Act of 1949 established the method whereby dairy producers receive close to parity prices while consumers are assured an adequate supply.

What are "close to parity" prices? Parity is achieved when the prices a farmer receives and the prices he

pays have the same relationship to each other as they had during an established base period. (The established base period is a period in the past in which the relationship of prices received and prices paid is considered satisfactory.)

For example, if the prices paid by the farmer are the same as they were during the base period, but the prices he receives are 25 percent less than during the base period, he is said to receive 75 percent of parity.

The Agricultural Act of 1949 provides that the farmer will receive 75 to 90 percent of parity, depending on what level will assure the consumer an adequate supply.

The Agricultural Marketing Act of 1937 allows the Secretary of Agriculture to establish such prices for fluid milk which he feels would assure "a sufficient quantity of pure and wholesome milk and be in the public interest."

Prices farmers pay include feed, seed, fertilizer, farm machinery, interest, taxes and employee wages.

Although prices consumers pay for milk products aren't determined by the Secretary of Agriculture, they are influenced. During the past 8 years, average retail prices of all dairy products (except cheese) have not risen as much as the prices of all foods.

Do the unique pricing forces in the dairy industry make price trends for dairy products different from those of other foods? McBride reports that trends have been similar, with dairy product price increases somewhat less than for other foods.
