Mediation fails

St. Johns ed board, teachers stalemated

By RON KARLE
Editor

A three-hour session between the St. Johns Education Association and the board of education Monday night ended in another stalemate despite the efforts of a state-appointed mediator.

The main issue of contention is salary with class size, insurance and workshop grants also among the major problems. "We're down to brass tacks now," said Supt. Earl Lancaster. "Unless a settlement is reached, fact-finding is the next step as prescribed by law."

If a fact-finder is called in he will listen to both sides and then will submit his recommendations as to what should be done. His conclusions are not binding, however.

"Either side can request it," said Lancaster, "but I'm not sure we are going to ask for it." Charles Agerstrand, president of the SJEA, said his group does not plan to ask for fact finding. "Fact-finding takes a good two weeks," said Agerstrand. "I think we can settle without it."

As of Tuesday morning, however, no further meetings had been scheduled between the teachers and the board of education.

It appeared the assistance of a mediator was a one-shot attempt at settlement and that he probably would not be brought back.

"I am disappointed at the outcome of the mediation talks," said Agerstrand. "I would like to say that we are still willing to meet with the board at any time to resolve our differences."

The board has not indicated that it would not meet at any-

time with the teachers. Agerstrand said a meeting of the teachers association is set for Thursday night "to get some real firm direction" from the members.

"We probably would not vote to strike on Thursday," he added. Agerstrand indicated that the teachers would probably determine whether they would withhold their services if agreement is not reached in time for Monday's scheduled school opening or if they would work without a contract as negotiations progressed.

"A strike situation for school teachers is a different can of worms," said Agerstrand. "You don't talk about the word strike too soon."

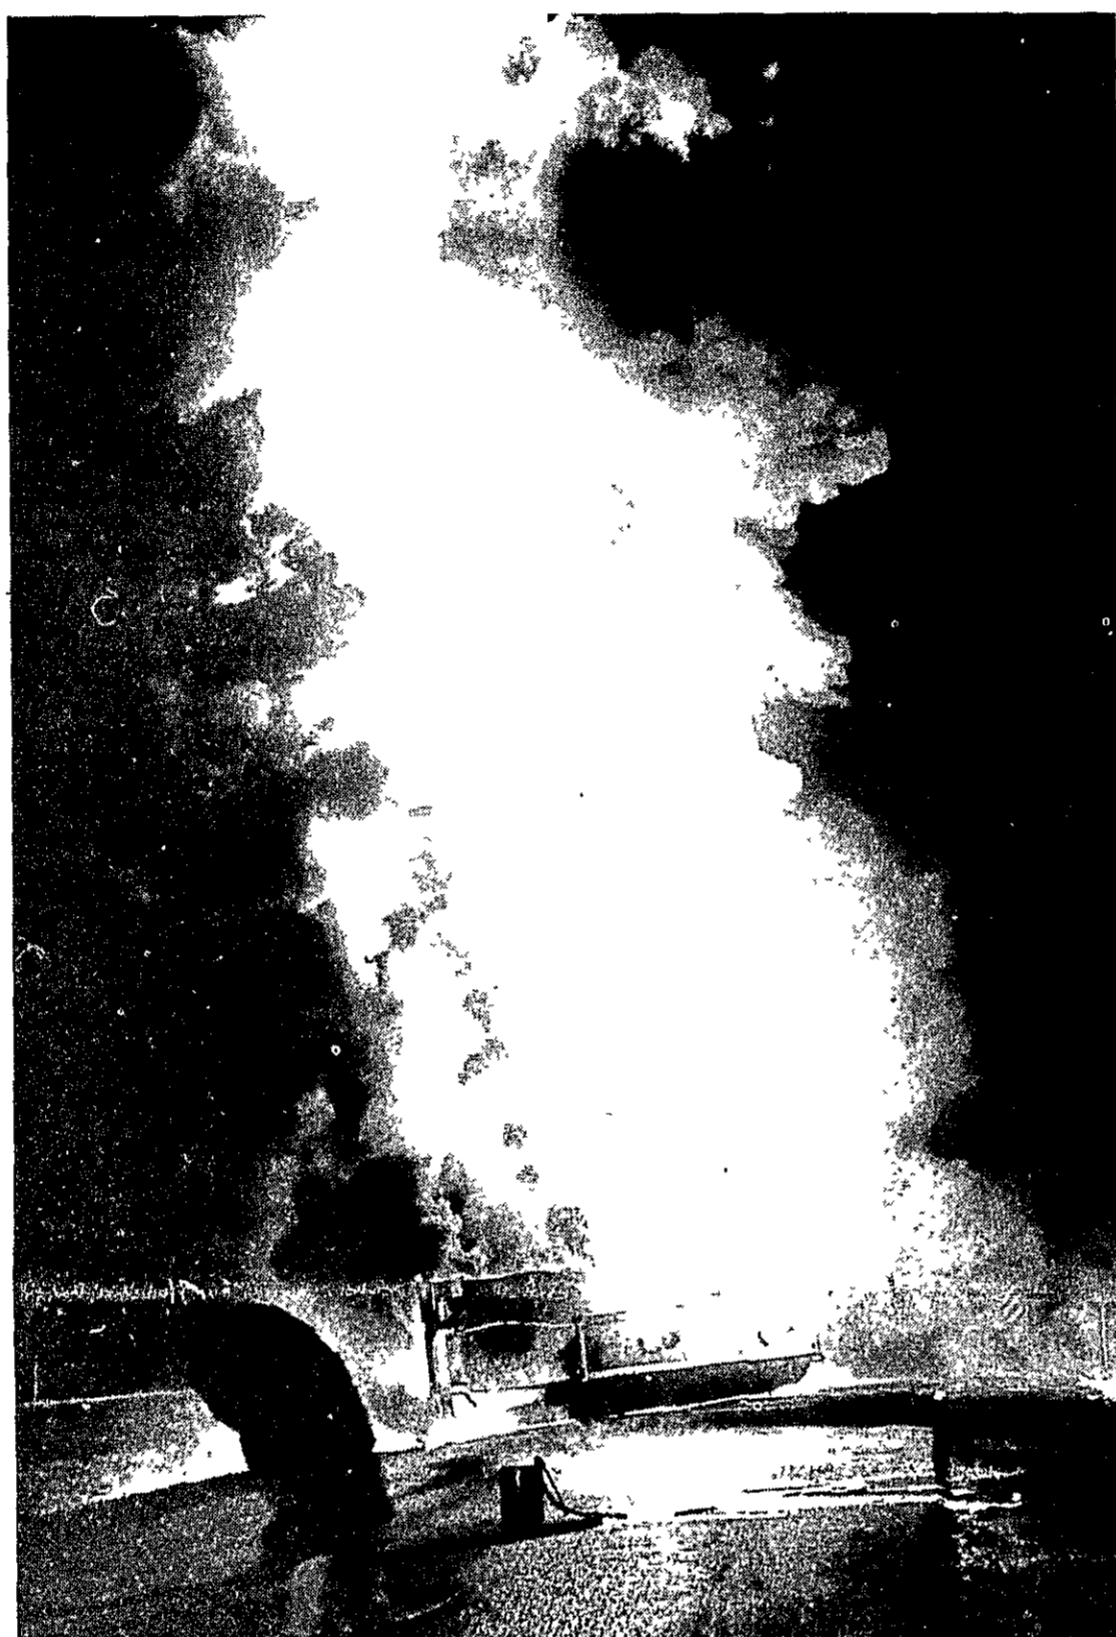

When the two sides met Monday, the school board had offered a starting salary of \$7,420 while the teachers had asked for \$7,600.

Monday night the board countered with \$7,500 and the teachers responded with a request for \$7,575.

Earlier, the teachers had sought a provision for sabbatical leaves which the board countered with an offer of \$5,000 to be used for teacher workshops. The teachers countered this by dropping their request for sabbaticals but asking that \$20,000 be granted for workshops.

Also unresolved are class sizes in grades one through six and details of an insurance package.

"I think the public should know these things," said Lancaster. "If there's a groundswell (in the community) to give these people these things, then we'll give them. It's a democratic process."

FLAMES LIGHT THE EVENING SKIES

A tanker rig overturned and burst into flames Friday night on U. S. 27, three miles north of St. Johns. The flames, visible for miles seared the highway and tied up traffic for more than two hours. The area was rocked with explosions but the driver, James H. Edlund, 29, of Muskegon, jumped to safety and was not injured. Edlund notified the St. Johns Fire Department which responded to quell the fire. The flames damaged the road so badly that all traffic was directed to use the southbound lane.

Commission votes for traffic signal at U.S. 27-Sturgis

By RON KARLE
Editor

The St. Johns City Commission Monday night decided to "straddle the red tape" and put the wheels in motion for a traffic signal at the intersection of U.S. 27 and Sturgis Street.

After the reading of a four-page study from the State Highway Department concerning the intersection and three other points, the commission unanimously voted to put the traffic light in.

Turning down a suggestion of yet another meeting with highway officials, Commissioner James Grost got the support of the commission for the signal. The intersection came into the public eye more than two months ago when a 12-year-old boy was struck by an auto while riding his bicycle and killed at the corner.

Shortly after the accident, a neighborhood group called People Who Care formed and took their fight for a traffic signal to the city commission and on to the head of the State Highway Department in Lansing.

Key movers in the group were Mrs. Sharon Rochon, Mrs. Jan Bensing and Mrs. Carol Maples, wife of Paul Maples, city attorney.

"I'm stunned and very pleased," said Mrs. Maples after the commission acted in favor of the proposal.

Although she indicated that she wasn't confident of the outcome going into the meeting, Mrs. Maples added, "It proves that when you get people together you can get something done."

"I think everyone will be very pleased if they put it in," she said. "I think most residents of St. Johns wanted it."

"I'm glad we accomplished something," said Mrs. Maples, "because so many people told us 'I'm for you but you're not going to get it.'"

When asked if this meant the end of People Who Care, she said, "No, not at all."

She said the group is working on a bicycle safety program for spring and fall with school officials.

She also indicated the group would stay together to work for the rerouting of U.S. 27 around St. Johns which she termed the "ultimate goal."

In addition to supporting a traffic light at the intersection, the commission also favored highway department recommendations calling for the prohibiting of left turns from southbound U.S. 27 onto eastbound Sturgis to eliminate a predicted lock-up of opposing left turn movements.

The driveway into the Southgate Shopping Center will also have to be moved to the extreme western property line which will mean relocation of a fire hydrant.

The commission also adopted three other recommendations from the highway department:

—A stop and go signal at the intersection of M 21 and Oakland and the addition of a center lane for left turns. Also, it was recommended that several trees be cut down to insure proper visibility.

—Extend slower speed limits on U.S. 27 toward the city limits. This is expected to be completed within 30 days.

—A change of the school flasher type sign at the intersection of U.S. 27 and Baldwin to a disappearing legend "speed limit 30 m.p.h. sign," for the protection of children attending Swegles School.

County merchants salute Clinton's farm families

Business and professional people of Clinton County are sending more fine values your way again this week, but with a special eye to items of particular interest to rural and farming families.

As a salute to rural folks and the special contribution they make to our lives, Clinton County merchants participating in a Bazaar of Values for the second week are offering five pages of special values in Section B.

In addition, Clinton County feed and grain dealers are willing and eager to give professional help and assistance in finding the right rations for the best results.

And farm dealers in Clinton County will be happy to assist you with any problems which may develop. You can consult with them any time with confidence that they will do their best for you which includes providing free information and estimates as part of their service.

Merchants from St. Johns, DeWitt, Fowler, Westphalia, DeWitt Township and Eureka are participating in this eighth-week Bazaar of Values. During

the time, the Clinton County News, acting as a messenger for these outstanding merchants and their special values, will give away \$200.

A \$100 cash prize will be given away in the final week, \$20 a week for the three weeks before that and \$10 for the first four weeks.

All entries will be good for the full eight weeks. And, of course, you may deposit as many as you wish to increase your chances of winning.

Just write your name, address, and phone number on any sales slip, cash register tape, charge slip receipt or any business form from any business displaying the Ba-

zaar of Values poster. Or you may use the free coupon in Section B.

Bring or mail these entries to the Clinton County News, 120 E. Walker St., St. Johns 48879.

Tickets will be drawn each week and a photo of the winner will be published in the News. Just before the official opening of the Bazaar of Values, leading Clinton County merchants, their entire staffs and families met for a dinner and clinic to review selling practices so they could serve their local customer even better.

Merchants participating in the Bazaar of Values are: Antes Cleaners, Becker Dept. Store, Becker Furniture, Beck & Hyde Farm Marina, Beck's Farm Market, Bee's Chevrolet, Benson Plumbing & Heating, E. F. Boron Co., Berk's Old Schoolhouse Furn., Boughton Elevator, Capitol Savings & Loan, Central National Bank, Clinton National Bank, D & C Store, Inc., DeWitt Pharmacy,

Clinton County Commission approves airport authority

By TIM YOUNKMAN
News Staff Writer

It took two ballots Monday morning for the Clinton County Board of Commissioners to take action, but after it was all over, they endorsed a proposed Tri-County airport authority.

By a vote of 7-4, the commissioners decided to approve Clinton County's participation in the authority, thus opening doors to a possible referendum vote by citizens in November.

The confusion on balloting occurred after Commissioner Robert Montgomery, supported by Commissioner Roy F. (Jack) Andrews, moved to approve the county's admission into the Tri-County authority.

After several minutes of discussion, Andrews called for the question which was immediately challenged by Commissioner Andrew Cobb.

Cobb called for a vote to determine whether or not the commissioners should vote on the proposal or table it.

By an 8-3 vote, the commissioners decided to vote on the plan.

When the final balloting on the authority took place, four commissioners issued "no" votes. They were Cobb, Maurice Gove, William Hufnagel and Claude Underhill.

Commissioners approving the authority were Gerald Shepard, Walter Nobis, Rex Sirrine, Duane Chamberlain, Montgomery, Andrews and Gerald L. Lankford.

The commission noted that several petitions were being circulated to place the question before the voters in the general election in November.

The petitions were to be filed no later than Sept. 14 to be validated.

Gove, who voted against the proposal, told the commissioners that he liked "the concept of the authority."

"I think, that I was of the opinion that we'd have hearings... to explain this to the people to get an indication of how the public thinks before we vote on it," he said.

Montgomery told the board that action was necessary.

"If we pass it, we'll pass it for the people to express their thinking. There should be a great deal of dissemination on this subject," Montgomery said.

When asked about the petitioners, Montgomery said "there is no question that there are enough signatures."

Approximately 610 signatures will be required to place the question on the November ballot.

In other action the board: —Appointed Gerald Shepard to another term as Clinton County's representative on the Capitol

Area Economic Opportunity Commission.

The commission currently receives \$1 million in public funds thus requiring elected public officials on the board of directors.

The question of a landfill for Watertown brought out an unusually large number of people to Monday's meeting of the county commission.

Watertown Township 'demonstrates' against landfill project

A packed courthouse meeting room was the scene of a demonstration—Clinton County style—by citizens of Watertown Township, scheduled site of a new sanitary landfill project.

Herman Openlander, township supervisor, told the board that the township board and planning commission had voted "100 percent to turn down the landfill."

"This is only a big benefit to a certain metropolitan area," he said.

He said that he could bring more than 500 people with "banners and signs" to demonstrate their dissatisfaction with the county board on approving the landfill site.

About 35 township residents ventured into the county seat headquarters to show their anger.

"Local government is in jeopardy," he said. "There has been a gradual erosion in the local government."

Commissioner Roy F. (Jack) Andrews told the citizens that he had consulted with the Tri-County Regional Planning Commission experts before casting his yes vote.

He said one of his reasons was the short-term commitment. The landfill, operated by Vector Construction Company, will run for five to seven years and then be used as a golf course-recreational complex.

He said that it was very hard to find a suitable location for a landfill site without local citizens being upset.

Andrews said that in fact the surrounding area land would eventually appreciate in value.

Progress in DeWitt

Considerable progress in teacher contract negotiations at DeWitt was reported Monday by a spokesman for the Michigan Education Association.

"It looks good," said Howard O. Ward, an MEA negotiator. "We're down to 11 issues."

Last week the Board of Education and the teacher's association were reported to be apart on 11 points.

"We were going to mediation," said Ward, "but I don't think we're going to need it now."

He said negotiations were in the second round of counter proposals and "with any kind of luck we are going to get them worked out."

"The only sticky spots are binding arbitration and the agency shop clause," he said. "We're not really far apart on anything else," he said.

"We're not that far apart on a (salary) package," he added. "We think we can settle that." Another meeting was scheduled for Monday night.

"Several board members have participated in the negotiations which I consider to be a real good sign," said Ward. "It shows they care."

Schools in the DeWitt district are scheduled to open next week.

Tentative agreement at Fowler

Tentative agreement reportedly has been reached between the Fowler Education Association and the board of education. Although neither party has yet officially approved the new agreement, ratification meetings are set for the first week in September, according to Walter Steward, chief negotiator for the FEA.

Details of the contract will be announced later, said Steward.

ANOTHER "DREAM HOUSE"

Another house construction project by St. Johns high school students was started Thursday as city, school and business officials broke ground during ceremonies at 406 W. Sickles. Checking over the plans at the ceremony are from left Tom Hundley, city clerk, Milo Rowell, of Borons, Oliver Gillespie, contractor, Ken Lashaway, high school industrial arts director, Ken Munger, advisory committee and Ed Schmitt, electrical contractor. Plans call for the completion of the project by next spring.

Here's how textbook Dump ruling affects St. Johns

Editor's Note: Here is a run-down on the recent State Supreme Court ruling ordering free textbooks and supplies for public school students as it affects St. Johns. It was prepared by Earl Lancaster, superintendent of schools.

1. All textbooks, workbooks, Weekly Readers and other periodicals used in classrooms will be furnished by the school. All books and equipment which are lost or destroyed must be paid for by the student.
2. Students will be furnished pencils, paper, crayons and other material used in required and elective courses. Rules for the issuance of these supplies will be formulated and will be available as soon as possible.
- NOTE: Since the directive concerning pencils, paper, crayons, etc., was received by school officials on August 19th, only eight working days prior to the opening of school, it has been impossible to obtain these supplies immediately. Therefore, the Board of Education at its meeting Monday evening asked the indulgence of parents in asking them to cooperate by supplying their school children with pencils, paper, etc., for the opening weeks. As soon as the supplies arrive they will be furnished all students.
3. Although State guidelines call for the furnishing of Band instruments, it is felt that this is not an immediate problem. All of the students now enrolled in the Junior and Senior Bands have their own instruments and will proceed with them.
4. Students will continue to be

responsible for purchasing gym suits, gym shoes, socks, football shoes, etc., and will pay for testing such as National Merit and College Entrance, lunches, club dues, yearbooks, caps and gowns, invitations, and insurance for interscholastic athletic insurance.

5. All fees formerly collected for Laboratory courses, Art, Homemaking, Drafting, etc., will not be collected. In Industrial Arts materials will be furnished for the basic course requirements. If a student wishes to exceed those requirements, he may be charged for the material for that project.

6. Some rentals will still be in effect. Swim suits rental will cost the student \$1.50 per year and coversalls for Auto Mechanics II will cost \$2.00 per year. A 50 cent deposit for locks will be collected from all Physical Ed students in both the Junior and Senior High Schools which will be refunded at the end of the year providing the lock is returned.

A lock will be required on hall lockers in the Junior High and will be sold to the student for \$1.

7. All students in grades 8 through 12 who have valid credit slips for books turned in last spring will be refunded their money. The refunds will be made at the School Book Store before and after school in the period between September 14th and 30th.

The eighth graders will receive refunds at Rodney Wilson, and 9th through 12th graders at the High School.

Some of the dissatisfaction with the plan centers on the fact that the site is in the southern end of the county and would not benefit the entire county.

"It's a mystery to me how you gentlemen could come to the conclusion that this would benefit Clinton County as a whole," said Leon Clark, president of the Watertown planning commission.

Although commissioners listened to the complaints, no formal action was taken. In other zoning action the board:

—Denied a request by Emil DeSander of DeWitt Township to rezone 34.8 acres along Turner Road to be used as a trailer park complex.

In denying the request commissioners cited the extreme closeness of the site to the Capital City Airport flight path, emphasizing noise, pollution and possible danger to residents.

The vote was 6-5.

—Approved a plan by Fedewa Builders Inc. to rezone 120 acres on Wright Road south of Price Road, partly residential-subdivision with an industrial zone in the middle. The commissioners voted 6-5 to allow the rezoning.

St. Johns bandmen at clinic

Students from St. Johns High School were among nearly 2,000 high school bandmen who invaded the Michigan State University campus for week-long marching band clinics Aug. 17-Sept. 5.

Bands from 20 Michigan schools are polishing their skills in preparation for marching appearances at this fall's football games and for concert performances.

While on the Michigan State campus, Aug. 24-29, the high school musicians will receive 12 hours of training each day, under the leadership of their own directors.

Assisting will be members of the MSU music department and other specialists.

Following each clinic will be a Saturday morning marching show on Old College Field, each of which is open to the public at no charge.

Sponsoring the clinics for the seventh year are MSU's Department of Music and Cap and Gown-Cultural Activities.

Salaries up

This year starting salaries for Michigan State University graduates with bachelor's degrees were up generally two to five per cent over last year, according to MSU Placement Director John Shingleton.

clerk, and Herbert Maier, executive director.

Mrs. Lawrence reported that the tri-county group's balance, as of Dec. 31, 1969, was \$14,516 for all programs.

She told the commissioners that the group was \$62,975 in the red on May 1, 1969 when the tri-county agency began an abbreviated fiscal year of eight months.

The new fiscal year for the planning commission will be Jan. 1 through Dec. 31.

"At this point, we are still in a position of an equity rather than a deficit," she said when asked about the financial stability of the group as of Aug. 1.

Part of the reason for the financial improvement was that estimates have been above actual expenses for projects and plans, according to Maier.

Not one project went over budget since the turn of the year, he said.

The audit report came into sharp criticism by board Chairman Walter Nobis.

"If some citizen out here in the county asks me about something in the audit, I couldn't do it," Nobis explained concerning the difficulty in reading and translating the audit figures.

Mrs. Lawrence indicated that the style and format of the audit could be questioned and revised next year by the independent auditors.

"If we do not like the format then we can give them complaints," she said. "Sometimes they are just not aware of these problems," she added.

Another criticism, offered by Lankford, expressed dissatisfaction with the numbering and code process used to describe the projects. He indicated that each number should have a short explanation of the project to inform the reader as to the specific areas covered by the figures.

The planning commission requested the 8-month year to realign its offices with other agencies and to clarify some of the bookkeeping confusion.

—Approved the rental of a Savin #220 copying machine at a cost of \$50 per month.

Approved the repair and sealcoating of the drives and parking lots at the courthouse, social services building and children's home at a cost of \$1,200.

BOND SIGNING

Pewamo-Westphalia school officials wore happy smiles last week when Central National Bank closed the district's \$800,000 bond issue. Voters recently approved the issue for an addition to the elementary school and remodeling of the high school. HIGHWAY COLLISION

A collision last Wednesday at the corner of U.S. 27 and M 21 slammed this pickup truck on its side and flooded the intersection with gasoline. The driver, Herman H. Rosebrock, 56, of Metamora, Ohio, was not injured. The driver of the other vehicle, Lloyd B. Upham, 16, of St. Johns, suffered minor injuries but did not require hospitalization. The St. Johns Fire Department washed the intersection free of gasoline to avoid the danger of fire. Police said the collision occurred when Rosebrock attempted a left turn from U.S. 27 and Upham's station wagon collided with the pickup truck.

Commission bans tape recorder, then reverses decision

By TIM YOUNKMAN
News Staff Writer

After voting to ban tape recorders from commission meetings Monday, the Clinton County Board of Commissioners reversed itself to allow WREJ radio newsman Ray James to record the proceedings.

By a 10-1 vote, the commissioners approved a resolution to prohibit the "presence and/or use of electronic recording devices at official meetings of the County Board of Commissioners... except with the approval of two-thirds of the members present."

Casting the one negative vote was Commissioner Roy F. (Jack) Andrews.

Tempers flared during the afternoon session when Commissioner Gerald L. Lankford moved to direct the chairman to remove the tape recorder from the room by enforcing the resolution.

When asked to remove the device, James said he "would have to decline."

Chairman Walter Nobis immediately called for a legal ruling by County Prosecutor Patrick Kelly.

Robert Dittmer, president of the radio station, asked the chairman if he would read a letter placed before him during the noon recess.

Nobis declined to discuss the letter since it was not part of the regular agenda.

After a one-half hour meeting with Kelly, Lankford, who sponsored the original resolution banning the tape recorder, moved to allow taping of the session by the radio station. The motion was approved, 7-4.

Kelly indicated that a further study of the situation would be necessary.

The question according to radio station spokesmen, will come up again at the next meeting set for Sept. 8.

In voting against the restrictions, Andrews said that he felt the board could have used some other way of handling the question.

"This was taking away a little of the freedom of the media," he said.

"I couldn't vote yes. In my own judgment it takes away some freedom and I felt I had to voice my opinion," he said.

James described the resolution as "an attempt to try to suppress coverage of the meetings."

This is a violation of the first and fourth amendments," he added.

Gerald Shepard, who voted to restrict the use of the tape recorders, said the biggest reason for his vote was the fear of news mismanagement.

"They can cut the tape off at the wrong place," he said indicating that it would be possible to produce statements out of context.

"However, a two-thirds vote would allow the use of a tape recorder," he added.

No penalty was spelled out in the resolution and no one seemed to know what could be done if the person refused to remove the recorder.

In his written request Dittmer said he was requesting the use of the tape recorder by his staff "at all meetings of the Commission."

"I am sure that the Commission will agree that our newsmen have been cooperative and fair in past news reporting of the commission action and will continue to keep the public informed of your deliberations, actions and decisions which affect the area," he said.

"I would remind you that a tape recorder is to a radio news reporter, what a camera is to a newspaper or television reporter," he added.

In this month's Republican primary election, Dittmer defeated incumbent commissioner Rex Sirrine and is unopposed for the seat in the November election.

CLINTON RESIDENTS HURT

This Cessna 210 single-engine craft plunged to the ground shortly after take-off Aug. 16 at Watervliet near Benton Harbor. Injured were the pilot Charles Dickenson, 67, of St. Johns, Max Miller, 56, and his wife Pauline, 57, of Ovid. Dickenson was returned home this week after being hospitalized at South Haven for eye surgery. Miller and his wife remain hospitalized at Watervliet Community Hospital, but expect to return later this week. The accident took place during a dawn patrol exercise when the plane apparently stalled about 50 feet in the air. (Photo courtesy of the Benton Harbor News-Palladium).

State Ed Board clarifies S.C. free textbook ruling

Free books, pencils, paper and crayons are among items students need for class work that must be provided by the schools under a new policy guideline of the Michigan State Board of Education.

Basically, the policy says that all materials used as part of the school curriculum in required or elective classes must be free to students.

As soon as cost estimates are available, the board will seek state appropriations from the Legislature to help ease the financial burden on school districts.

Earlier, school superintendents from Clinton County estimated the cost of just textbooks alone at more than \$100,000.

The board said, however, that school districts may continue to charge fees for extracurricular activities when such activities carry no academic credit.

Acting Supt. of Public Instruction, Dr. John W. Porter, said an example might be where members of a football team participating only in interscholastic and extracurricular sports could be required to furnish their own football shoes, but the school could not charge for band instruments if credit toward graduation is given for band.

The board policy statement grew out of a July 17 ruling of the Michigan Supreme Court.

In a case brought by parents in Ann Arbor, the high court said that general student fees were illegal and also ruled that books and school supplies, being essential to school, must be provided without charge to the student or his parents under the Michigan Constitution.

After consulting with the state attorney general and numerous school authorities, the State Board of Education published its guidelines to help define responsibilities of the state's more than 600 districts.

Among the items covered by the State Board of Education policy statement:

No student should be denied even extracurricular activities because of family financial hardship.

Schools do not have to furnish free food or clothing offered in required or elective classes.

Charges for damage or loss of school property may be imposed if the books or other materials have been provided free, and reasonable, refundable deposits may be required from those able to pay.

Adult education courses not leading to a high school diploma, and summer school classes not part of an extended school year, may charge fees.

As a means of providing examples of what schools may not (not) make charges for, the Board cited: pencils, paper, crayons, regular and supplemental textbooks, band instruments, Weekly Readers or other periodicals if required in the classroom, towels, locks, lockers, shop materials, drafting supplies, home economics materials, workbooks, materials in science classes, book rental, educational trips required for class and vocational or special education.

The board said school districts may charge for: class or organizational dues; admission fees to athletic contests, dances or plays; student activity cards on a voluntary basis; dues for such "external" tests as National Merit or college entrance exams; damage or loss of school-owned materials; club dues; lunch; yearbooks; football shoes; gym shoes; swimming suits; bus transportation for non-resident students; sponsored trips, unless they are a class assignment; shots or vaccinations; caps and gowns, and insurance fees for interscholastic athletics in accordance with present statutes.

Soil award won by News

The Clinton County News day at a summer meeting of state presented its third consecutive soil districts held at Alpena Community College.

The award, which was the fifth of its type to be given the paper in the last six years, was a second place plaque recognizing the publication of the annual report of Clinton County Soil Conservation District. Another second place award was received in 1964 with the other three being first place recognitions.

First place winner this year was Greenville Daily News. Clinton County News has received first place the last two years.

Theme of this year's second place entry was ecology, a subject which came in for much discussion during the one-day session of Michigan Soil Districts.

Ithaca sets Fall Festival

The Ithaca Chamber of Commerce four-day Fall Festival will be highlighted by the Fall Festival Parade put on by the Ithaca Jaycees Saturday, Aug. 29.

This year's parade has a new look and new emphasis. In addition to the numerous outside attractions, local participation will come from most of the local merchants. Organizations from throughout the county also are constructing floats and the Jaycees expect the 1970 parade to be larger than all others.

Helping construct the floats for merchants are local youth groups who volunteered their time for those too busy to construct entries.

IT'S JUST GOOD BUSINESS TO JOIN THE UAW

The Rt. Rev. Bernard J. Sheil Catholic Bishop once said: "If a Non-Union worker in a partially organized industry is receiving a good income, it is quite probably because his Non-Union employer, in order to keep the Union out, meets, or nearly meets, the higher wage and hours standard of Union establishments. Clearly such Non-Union employees are eating the fruits of others' sacrifices. The workers in the Union shops perhaps risked their jobs to get their Union recognized, and pay monthly dues to keep it going. It is a categorical injustice for Non-Union employees, enjoying the common benefits, to refuse to carry their share of the common burden."

Bug-In set for Ithaca

Show buggies and competition dune buggies from throughout the state will invade Ithaca Sunday, Aug. 30 for the second Ithaca Jaycee Bug In.

Dubbed "Ithaca Re-visited," the Bug-In offers an extra attraction for both spectators and participants.

In addition to the regular timed races over a twisting, turning course for off-road competition buggies, fiberglass show buggies will also have the opportunity to run in timed competition.

The off-road vehicles will be competing in the trials of the Gratiot Historical Village while the show buggies will be running on an oval track right in front of the grandstand.

Show judging will begin at 10 a.m. Entry fees are \$1 for Midwest Off-Road Enthusiast (MORE) members and \$3 for non-members. The Ithaca Jaycees and MORE are co-sponsoring the event.

The auto cross timed competition begins at noon. Entry fee is \$3 for MORE members and \$5 for non-members. Trophies will be awarded for first and second places in each class.

Registration begins at 9 a.m.

Annual DAV fund drive next month

Disabled American Veterans Chapter 64 is planning its annual Clinton County Forget-Me-Not drive for next month.

The drive will be held in St. Johns Friday and Saturday, Sept. 11-12 and in Ovid Friday, Sept. 18.

Funds raised are used for needy disabled veterans in Clinton County.

The theme again this year is "Give a little for those who gave a lot—get a DAV forget-me-not."

MRS. EUGENE LELAND RADEMACHER

Sandra Bell weds Eugene Rademacher

St. Joseph's Catholic Church in Battle Creek was the scene of the Friday, Aug. 14 double ring service uniting in marriage Sandra Kay Bell and Eugene Leland Rademacher. Father Norbert Wheeler performed the 8 p.m. ceremony before an altar decorated with bouquets of gladiolus and fern.

The bride is the daughter of Mr. and Mrs. Buearl L. Bell of 350 Lakeshore Drive, Battle Creek and the groom is the son of Mr. and Mrs. Norman Rademacher of 110 North Kibbee Street, St. Johns.

The bride was given in marriage by her father and chose a white organza gown featuring short puff sleeves, a neckline banded with daisies and a large bow at the empire waistline. Daisies trimmed the sleeves and the waistline. A daisy band headpiece secured her floor-length veil which was accented with scattered daisies and she carried a bouquet of yellow roses and white daisies with gold and blue long streamers.

Kathleen A. Parks of Detroit served as maid of honor and was assisted by bridesmaids, Colleen Casey and Kathleen A. Boyd of Detroit, Janet K. Raber of Battle Creek, Kay A. Rademacher of St. Johns, both sisters of the groom. Renee Becker, niece of the groom and Tina Bell, cousin of the bride were flower girls. The attendants wore white empire-style gowns accented by navy, yellow and white daisies. Yellow and blue ribbon accented the empire waistline and the back of the gown. Their headpieces were wreaths of daisies and they carried bouquets of daisies and

baby breath with yellow streamers.

Daniel L. Rademacher, brother of the groom was best man and serving as groomsmen were Don Rademacher, brother of the groom, Jim Leonard, friend of the groom, Tom Brandell, cousin of the groom, Gregg Bell, brother of the bride and Mike Kevern, friend of the groom. Serving as ushers were Jim Kreaason, friend of the groom and Michael Tungate, cousin of the bride.

The couple greeted 200 guests at the reception which was held at Sheraton Motor Inn in Battle Creek immediately following the ceremony.

For their wedding trip to Cape Cod, Mass. the new Mrs. Rademacher chose a pale blue voile dress with navy accessories for travel. Upon return the couple will reside at Goldsworth Valley Apartments U-7, Western Michigan University, Kalamazoo.

The bride is a 1967 graduate of Lakeview High School in Battle Creek and is a senior at Western Michigan University. The groom is a graduate of Rodney B. Wilson High School and is also a senior at WMU.

Sparkless Carpets
Carpeting containing fine strands of stainless steel as part of the backing and pile does not build up static electricity that can cause dangerous or unpleasant sparking. Nickel stainless steel is used because it will not rust when carpets are cleaned.

MR. & MRS. DANNY LEE GILBERT

Penny Foland bride of Danny Gilbert

Penny Lou Foland became the bride of Danny Lee Gilbert in the First Methodist Church in St. Johns on July 18. Rev. Charles VanLente performed the double ring 5 p.m. ceremony before an altar decorated with white gladiolus.

The bride is the daughter of Mr. and Mrs. Donald East of Route 1, St. Johns and Mr. and Mrs. Eddie Foland of Pompeii. The groom is the son of Mr. and Mrs. John J. Gilbert of Route 1, Ithaca.

The bride was given in marriage by her father and entered the altar wearing a floor-length gown of silk organza fashioned with an empire waistline. The yoke and stand-up collar were Chantilly lace and lace also accented the cuffs of the long belted sleeves of the gown. A Juliet cap trimmed in seed pearls secured her illusion veil and sweeping train, which was also

edged in matching Chantilly lace and she carried a cascade bouquet of large white gladiolus accented with green ivy and tiny pink and orchid rose buds.

Bonnie Speidel of Route 2, St. Johns was maid of honor and serving as bridesmaids were Linda Devereaux of St. Johns, Janet Foland, St. Johns, sister-in-law of the bride, and Rose Mitosinka of St. Johns, Debbie Gilbert, sister of the groom was junior bridesmaid and Shelly Hall, cousin of the bride, was flower girl. The attendants wore orchid gowns of taffeta and silk organza featuring full double puff sleeves, empire waistlines and a high neckline. They wore orchid colonial picture hats and carried white lace baskets of pink and white carnations, accented with ivy.

John Gilbert, brother of the groom, was best man and serving as groomsmen were Rick Gilbert, brother of the groom, Wayne Baig, brother of the groom, Craig House and Gary Bast, brother of the bride. Bobby Hallobaugh, cousin of the groom, was ring bearer. Seating the guests were Danny Foland, Jesse Villarreal, Ken Monroe and Larry Croftchik. The new Mr. and Mrs. Gilbert greeted 400 guests at the reception immediately following the ceremony which was held in the VFW Hall.

Special guests at the wedding and reception were Mr. and Mrs. Floyd Peckell of Maple Rapids, Hazel Foland of St. Johns and Mr. and Mrs. Isadore Bast of St. Johns, grandparents of the bride and grandparents of the groom, Mr. and Mrs. Frank Hall-abbough of Ithaca and Mr. and Mrs. John T. Gilbert of Florida.

For their wedding trip to the Western States the bride chose for travel a deep plum crepe dress with matching shoes.

Upon return the couple will reside at 254 Luce Road, Ithaca. The bride is a 1969 graduate of Rodney B. Wilson High School and the groom is a 1966 graduate of Ithaca High School.

Apple packs

Apples in bags, boxes and baskets are receiving the attention of Michigan State University packaging experts. The Agricultural Experiment Station scientists are surveying methods of apple packaging in use throughout the nation's apple industry. After the survey, the experts will try to develop new packaging methods which will increase storage life, reduce shipping damage and provide greater marketability for Michigan apples.

ANNOUNCING . . .

Renee's School of Dance will be opening soon.

RENEE MAHANEY

Enrollments will be taken Monday Aug. 31 from 1:00 p.m. to 6:00 p.m. at 102 1/2 North Clinton (next to the Carol Ann Shop).

Children who are learning to dance are also learning a host of other things such as self-discipline, teamwork, development of self-confidence, and acquiring poise. They are molding well-developed bodies and experience a wonderful sense of accomplishment while doing so.

Youngsters such as these are getting something out of life and in time, will give much to it. Our goal is to develop in our students complete control over the body and to overcome and prevent faulty physical habits, thus acquiring beauty and posture with freedom and ease of carriage.

Every student, whether it be for pleasure, exercise, or preparation for a career, should have a well-rounded training. We therefore encourage study of more than one type of dancing.

Choose from any of the following: * Ballet (Cecchetti Method) * Tap * Acrobatics * Toe * Jazz * Baton and introducing this year: Modern Dancing

IN MEMORIAM

WALKER-In loving memory of our Mother, Mrs. Amelia Walker, who passed away 1 year ago, August 30, 1969. They say time heals all sorrow, And helps us to forget, But time so far has only proved, How much we miss her yet; God gave strength to fight it, Courage to heal the blow of her sudden passing, But what it has meant to lose her, No one will ever know.

UP SHE GOES

Charles Carroll of Carroll Construction starts to place the new 85' elevator leg at Westphalia Milling Co. The elevator will be used to transfer grain into the new continuous flow dryer. According to Del Thelen a partner in the firm the new facilities along with two new 16,000 lb. grain tanks will give area farmers even better grinding and storage service.

Gene and Bill Higgins of St. Johns proudly display part of one days catch of Coho salmon. Fishing 10 miles out of Ludington Saturday and Sunday their party landed a total of 24 coho and four steelhead trout. Their outfit including the Starcraft boat with 120 hp Mercury, depth meter and downrigger fishing gear and the Wolverine Camper are from Beck and Hyde Farmarina.

This is Ron Karle's last paper. He leaves the News to become editor of the MSU Alumni magazine. So now, as promised, we have to admit that after listening to us make fun of his pool shooting ability, he challenged us. . . and wiped us out two games. We hate to see him go for two reasons. . . he's one helluva editor and he owes us a lunch.

Back Home Dept.-A few weeks ago we threw some names at you. Friends of ours from the Eastern U.P. Now you might think that our friends are "different" but keep in mind when we first migrated across the Straits we thought people here heard the beat of a different drum.

The U.P. has more "characters" or, if you will, nuts, per square mile than any other area on earth. The Wilcox boys are prime examples. We were fortunate enough to count the middle three as good friends. Dave, Tom and Max. Their Mama was a school teacher and their Dad was a logger and a saw mill operator. (Last we heard "Skinny" and his Mrs. had retired and are now owners of a California gold mine.)

The one event that stands out in our mind and we can relate without fear of a libel suit or imprisonment is the night we stole the out-house. The occupied out-house.

It was Halloween, of course. And what better sport for four would be delinquents is there than tipping over out-houses on Halloween? Especially when Uncle Woody Wilcox announced he and his trusty rock-salt loaded shot gun were standing guard and anyone attempting,

Well, it was an operation the Green Beret would be proud of. Max and Tom belted across the moonlit yard, reconitered the garage, sheds, house and bushes. Back they snaked with the knowledge Uncle Woody was indeed on watch. . . In the little house . . . with the shotgun. . . and worst of all, he knew we were there.

What to do? He wasn't playing the game. He was inside. He wasn't going to give us a chance that wasn't fair. What to do?

What we did was get the rope and the skid. We ran, screaming like Banshees with 50 feet of rope between us. Round the little house and around and around. The house was secured, tied up like a Christmas package with a very irate Uncle Woody inside unable to do anything but threaten us with sure and instant death upon his release.

Photography, electrical science, small engine, insects and weather will be among several other areas offering programs and activities.

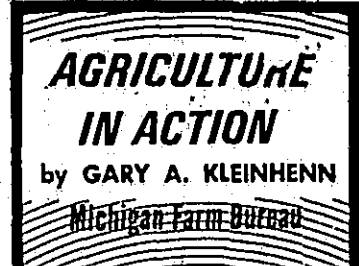

You need not be a 4-H member to attend 4-H Youth Exploration Days. All interested young persons are invited to attend this event. Contact the 4-H Youth office at the county Cooperative Extension Service office for more information.

The County 4-H Gun Shoot Contest was held Saturday under the direction of Jack Schwark, Gun Safety leader in the Spring Valley 4-H Club. The winners were as follows: 12-13 year division—Jeff Hazle, Bengal Community, 14-15 year division—Stuart Hazle, Bengal Community Club and Judy Schwark, Spring Valley and 16 and over division David Schwark, Spring Valley 4-H Club. There were 19 contestants in the contest and each was required to shoot 10 shots standing and 10 shots in a prone position. Stuart Hazle, Judy and David Schwark will represent the county at the State 4-H Youth Exploration Days Gun Shoot Contest on Aug. 26 at MSU.

WINNING FLOAT

The Green Clover Community Club, of DeWitt, took first place honors in the 4-H float parade last week. The theme of the float was "4-H achievement is a giant step."

Color it gray

Before color television, programs were in black and white. But the fact is, with black and white television there are no really true colors of black or of white, rather there are many combinations of grays. Some are lighter, others are darker which contribute to an illusion of just the two colors.

The illusion is like many people who fall to look beneath the surface. They only see in black and white, a right and a wrong, two valued thoughts of one good side and one bad side. The gray area is missed altogether. They fail to see that rarely is any one thing all good or all bad, but usually a mixture of both.

As an example, it is not completely true that "a rose is a rose is a rose." Now take the "white" subject of milk.

Milk can be cream colored or chocolate. Maybe you drink dairy cows' milk, but is your table ever adorned with the milks of buffalo, camel, goat, horse, reindeer or sheep? It depends on where you live.

It is buttermilk, chocolate, concentrated, condensed, dried, fermented, filled, malted, modified, protective, or reconstituted?

Like roses, it is not completely true that milk is milk is milk.

Nature's most perfect food is a beverage of diversification. And so are the problems of society.

We need to see through the illusions drawn around the issues of society such as taxation, education, natural resources, conservation. The objective is to create better people and communities through the questioning, interest and support of citizens.

But the maltreatment given to issues through words can be atrocious.

It is easier to generalize than to be specific, to emotionalize than to maintain calm and a questioning mind.

It is hard work striving to be understood and to understand. Then too, complexities of subjects contribute to communication breakdown. And there are those who don't wish to clearly communicate for social, economic or political reasons. Generalizations are dangerous. To assume that talker and listener are hearing the same message in truth may be as wrong as black and white are opposites.

Tailor-made cow feeding for the '70s

Advancements in the feeding of dairy cows, including new ways to feed those that produce more milk, are predicted for the 1970s by Dr. C. A. Lassiter, Michigan State University dairy expert.

These new feeding concepts are needed as herds increase in size and are placed in loose housing arrangements where less attention is paid to the individual cow, he says.

"We cannot use current feed rations and rates and expect 17,000 to 20,000 pounds of milk per cow under such conditions," says Lassiter. "The nutritional requirements of a cow milking 125 pounds a day are different than those of a cow producing 80 pounds daily. We must find a way to meet these needs."

State Crop Report

By MICHIGAN CROP REPORTING SERVICE

CROP COMMENTS FOR WEEK ENDING AUG. 15

Hot dry weather resulted in depleted moisture supplies throughout most of the State. About 75 per cent of the reporter's considered moisture supplies to be short while the balance thought supplies were adequate.

Almost six days were considered suitable for field work throughout the State.

Wheat harvest is virtually complete. As of Aug. 1, a crop of 22,600,000 bushels was forecast for Michigan at 40 bushels per acre, yield tied the record set in 1968.

Oat harvest continued to make good progress and is three-quarters complete. This is about normal progress for Aug. 15.

Almost 40 per cent of the corn crop has reached the dough stage or beyond. In recent years, for this date, only about 20 per cent of the crop is this far advanced.

Michigan farmers are expecting to harvest bumper crops of corn and soybeans, according to the Michigan Crop Reporting Service.

As of Aug. 1, corn production is estimated to be 13 per cent larger than the 1969 crop while soybean production should increase 18 per cent over last season's crop.

Compared with a year earlier, larger crops are also expected for oats, rye, sugar beets and late summer potatoes. The dry field bean crop is expected to be eight per cent smaller than the 1969 crop.

Extended rainfall during July slowed wheat and hay harvest and some loss of these crops was experienced.

Corn and soybeans as well as hay have experienced very good vegetative growth and development.

Only the northern Lower Peninsula and Upper Peninsula have experienced a decline in moisture supplies and crops in these areas have not fared quite as well.

A corn crop of 105,868,000 bushels is now forecast. If realized, the 1970 crop will be a new record; 13 per cent greater than the 1969 crop and eight per cent above the old record reached in 1959. About 60 per cent of the crop had reached the silked stage by Aug. 1.

SOYBEANS: The first production forecast of the season calls for a record high production of 13,910,000 bushels. Yield at 26

Education loans set for farm children

Sen. Philip A. Hart (D-Mich.) has announced that the Michigan Rural Rehabilitation Corporation has received federal approval to establish an educational loan program.

"The program will provide loans of up to \$1,000 a year at six per cent interest to children of families which receive some income from farming," Hart said.

The amount of an individual loan will depend on the degree of need of the applicant," he explained.

Loans can be used for any type of continuing education program, Hart said. Applications should be sent to: Mr. Nyly Katz, Executive Director, Michigan Rural Rehabilitation Corporation, 150 1/2 West Michigan Ave., Marshall, Mich 49068.

Hart praised the initiative of the corporation's board of directors "in finding a creative way to help the children of farm families."

The corporation was founded in 1933 to help rehabilitate poor farm families. These activities were assumed by the Farmers Home Administration in 1947.

However, the corporation, by keeping administrative expenses to a minimum and by reinvesting its unused funds, built savings of about \$900,000.

Last December, the board of directors, headed by Floyd Mattheissen, of Benton Harbor, president, voted to investigate ways "to put the money to good use."

Cities are absorbing about one million acres of new land each year but only about 200,000 acres of this land is farmland of the better grades.

WINTER WHEAT prospects declined slightly during the month. A crop of 22,600,000 bushels is now forecast, 10 per cent less than a year ago.

Harvest has been slowed by the excess moisture and as of Aug. 3 was running about five per cent behind the normal harvest progress.

AN OAT crop of 28,379,000 bushels is now forecast, nine per cent above the 1969 crop. Considerable lodging is present, however despite this adversity, the estimated yield of 59 bushels ties the record set in 1968.

ALL HAY production is forecast at 3,183,000 tons, one per cent below the crop a year ago. Rains have hampered harvest and reduced quality.

DRY BEANS: Heavy rains in the major producing areas caused loss of acreage during the month which could not be replanted. As of Aug. 1, acres for harvest is estimated to be 624,000 acres, compared with the 637,000 estimated as of July 1. Coupled with a yield of 1,200

pounds per acre, production is now forecast at 7,488,000 bags. This is a decrease of eight per cent from the 1969 crop of 8,119,000 bags.

SOYBEANS: The first production forecast of the season calls for a record high production of 13,910,000 bushels. Yield at 26

Education loans set for farm children

The board came up with the idea of the educational loan program, and last week the Farmers Home Administration, which must approve any major expenditure, gave the plan its approval.

ORDNANCE NO. 87

AN ORDNANCE REGULATING THE RUNNING AT LARGE OF DOGS, PROVIDING FOR THE REMOVAL OF SUCH DOGS AND PENALTIES TO THE OWNERS THEREOF.

Section 1. It shall be unlawful for the owner of any female dog to permit said dog to go beyond the premises of the owner when she is in heat, unless such female dog is held properly in leash.

Section 2. It shall be unlawful for the owner of any dog to permit said dog to go beyond the premises of said owner, when said dog is known to be of an ugly disposition or has shown a tendency to destroy property or habitually trespass—in a damaging way on the property of others, unless said dog is held properly in leash.

Section 3. It shall be unlawful for any owner to allow any dog to stray beyond his premises unless under reasonable control of some person or accompanied by his owner or custodian.

Section 4. It shall be unlawful for any person, firm or corporation to own, keep, possess, or have charge of any dog which by loud and frequent barking, howling or yelping becomes a nuisance in the neighborhood in which said dog is kept.

Section 5. It shall be lawful for any person and shall be the duty of each and every police officer of the Village of Ovid or the County of Clinton Dog Warden to seize and deliver unto the County Dog Warden, any dog running at large in violation of Sections 1, 2 or 3 of this ordinance.

Section 6. The Clinton County Dog Warden shall pick up all dogs under the provisions of this Ordinance and shall serve notice in writing upon the owner or owners of such dog, if such owner be known. Any dog so impounded may be redeemed by the owner within five (5) days of the receipt of said summons by the County Dog Warden or the date of said notice upon the payment of \$5.00 impounding fee and the further sum of One (\$1.00) Dollar for each day or part of day such dog is in the custody of the County Dog Warden. If not so claimed, such dog shall be disposed of as directed by the County Dog Warden. Section 7. On the written and sworn complaint to any District Judge of the County of Clinton on a violation of this Ordinance, said Judge shall issue a summons to the person, firm or corporation, owning, possessing, harboring or having charge of said dog, to appear and show cause before the District Court why said dog shall not be killed. Said summons and hearing shall follow the procedures of the Dog Law of the State of Michigan concerning dogs found worrying livestock or killing sheep. Upon such hearing, the District Judge may order the dog killed or confined upon the premises of the owner or custodian or otherwise disposed of.

Boon in disguise

That time-worn phrase, "Moment of Truth," has come home to roost with a vengeance so far as the U.S. transportation system is concerned.

The dismal failure of public regulatory policies rooted in hopelessly archaic transportation concepts has been revealed beyond denial.

For years, the railroads have presented the strongest possible case on behalf of updated tax and regulatory policies and the development of what they have termed a balanced transportation system that envisioned competitive equality, multimodal transportation companies and other innovations in keeping with the changing technology of transportation.

Now, the chips are down. Mr. James A. Schulz, vice-president of the Association of American Railroads, puts the transportation issue facing the nation in a very few words: "The country has got to have railroads. So you either have nationalization or Government participation and help."

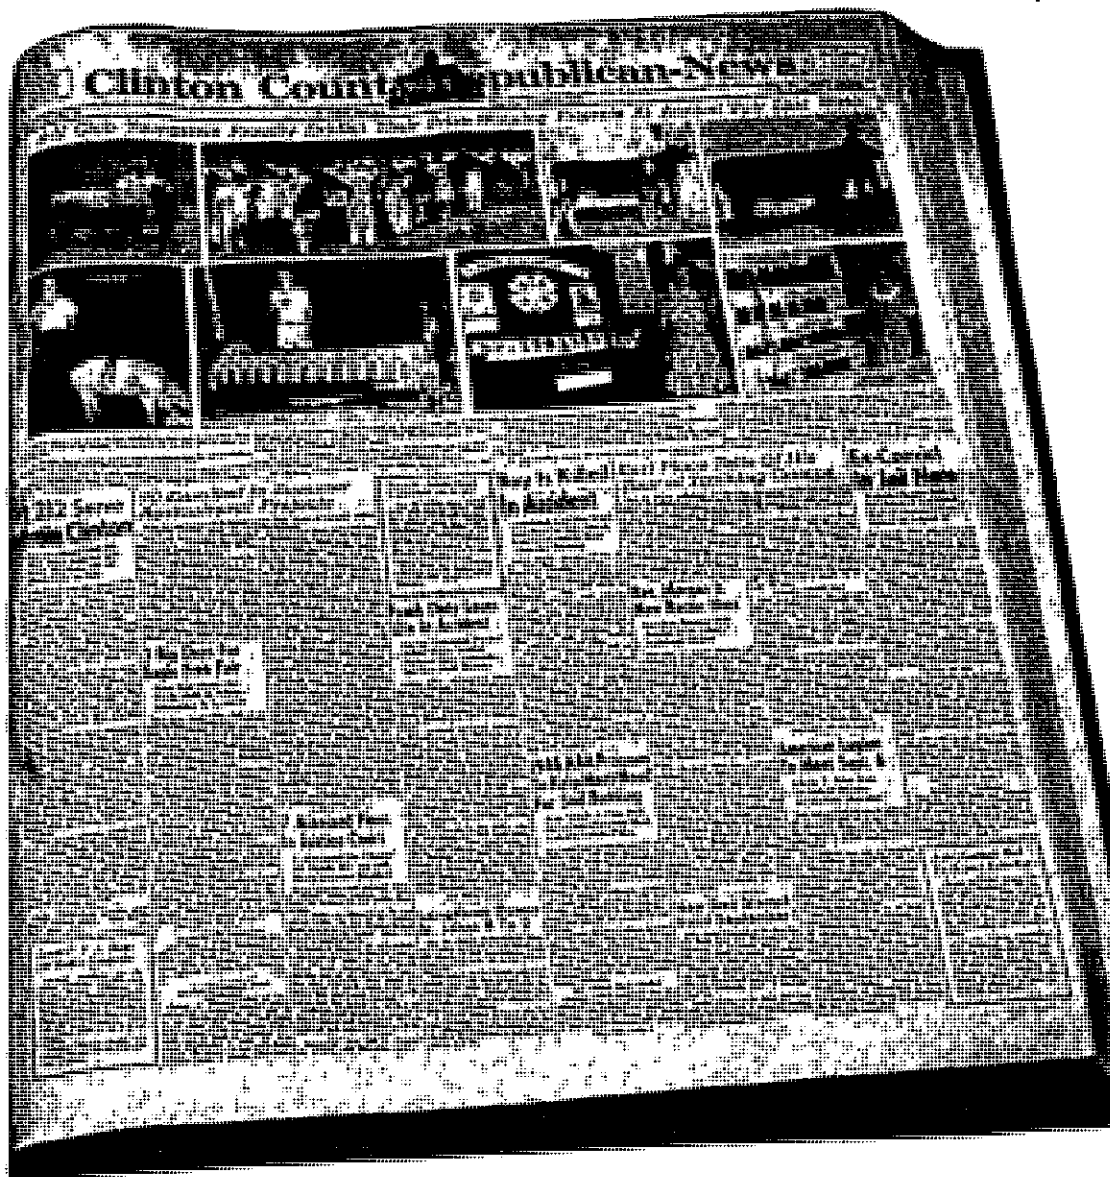

Those who favor nationalization—government takeover—of the railroads as an easy solution to current transport problems seem ready to jump from the frying pan into the fire.

According to Time Magazine, costs of nationalization are currently estimated at \$60 billion—merely to buy the railroads.

And, since government management of business-type enterprises is far from impressive, that would only be the beginning.

In reality, the present situation of the railroads may prove to be a boon. The rails, in spite of many handicaps, have gone ahead with enormous investments in modernization programs and technological innovation.

They are ready to assume their rightful place in the transportation scheme of things; and, at last, events are forcing a new look at public attitudes and policies that should have been scrapped two or three generations ago.

St. Johns teachers ok contract, DeWitt Ox Roast, food rationing

One Year Ago

AUG. 27, 1969

With less than two weeks remaining before the school doors opened in St. Johns, the teachers ratified a contract for a closed shop and salary increases aimed at encouraging teachers to seek advanced degrees.

Former Ovid police chief Edward Robinson, who was fired by the village council, said he would appear at a regular meeting to seek a public explanation of charges which led to his dismissal.

Residents of the Fulton school district rejected a 4.83 mill proposal for construction of a new middle school. Unofficial returns showed 223 in favor with 366 opposed.

Members of the Clinton County Soil Conservation District received outstanding recognition during a two-day gathering of districts throughout Michigan.

Damage estimates reached \$500,000 as a result of a warehouse fire which ripped through a DeWitt township storage company. State Police indicated thieves were responsible for the blaze at the Capitol Moving and Storage Co., 212 Sheridan Road.

10 Years Ago

AUG. 25, 1969

The Village of DeWitt was to be the capital of Clinton County when weeks of work and planning climaxed in the 12th annual DeWitt Ox Roast. The event is a community project to raise money to equip and maintain the DeWitt Memorial Building which was erected in honor of all war veterans and to provide community recre-

ational activities.

About 70 St. Johns High School students were preparing to leave for their annual week at the National Music Camp at Interlochen. It was to be the seventh year the band had attended.

An expanded curriculum for the 1969-70 school year at Elsie High School, announced by Supl. Earl Seybert Jr., included a greater variety in commercial courses, improved science and shop programs and two years of foreign languages.

Editorial: "A quick look at the Democratic platform is enough to freeze the blood of those who abhorred the New Deal. And it isn't very reassuring to those who were lukewarm to the various 'deals' in the past.

"Whether Kennedy will try carry out the platform to the letter—if he were to be elected—is probably open to question. But his acceptance speech in Los Angeles certainly savors of radical liberalism."

The then new Plaza Sales Mart in Southgate Plaza, adjoining the Kroger store on S. U.S. 27 scheduled its grand opening. Ribbon-cutting ceremonies with the chamber of commerce and city officials would officially open the store Aug. 25.

25 Years Ago

AUG. 30, 1945

With the 12 men who left for induction Aug. 30, a total of 2,212 men entered the armed services from Clinton County during the preceding 56 months, according to the local draft board. The first group to leave Clinton County were three volunteers who were sent to Saginaw for induction Nov. 26, 1940.

Five more red stamps in the War Ration Book Four were good for the purchase of

rationed meats, fats, fish and dairy products. The new stamps, L1, M1, N1, P1 and Q1, were being validated for the usual four month period, Sept. 1 through Dec. 31.

The annual installation of officers was to be conducted at a meeting of the Edwin T. Stiles Post No. 163 of the American Legion Sept. 6 in St. Johns. The officers installed were Commander, Dr. L. O. Martin of DeWitt; first vice-commander, Charles Lynam; second vice-commander, Clarence Strauser; adjutant, James Brill of DeWitt; finance officer, Rex Sirrine; chaplain, Jack Weaverling; and sergeant-at-arms Donald Smith.

Editorial: "...Up to the time hostilities ceased in Europe, men in the German government had such control over men in government that the destruction of freedom reduced people to the level of vassals. Citizens the world over are stunned by the reports of torture and suffering in this war at the hands of men in government. It has been proven that men in government abuse the privilege of extensive power over their fellow men. The only way to end this struggle between freedom and government, that has made history colorful with the constant spilling of blood, is to remove the opportunity for men to gain personal power in government. The founders of our government struck upon an idea to safeguard the men out of government from the ambitions of men seeking power in government. They limited the men in government to the preservation of the rights and property of the men out of government..."

This week at the movies: "Gentle Annie," starring James Craig, Donna Reed and Marjorie Main. "Without Love," starring Spencer Tracy and Katharine Hepburn advertised as being "together again in their best M-G-M picture!"

Letters to the editor

Resident knocks 'so what' attitude

To the Editor:

It seems with all the discussion on pollution, beautifying the highways, cleaning junk cars and rubbish from local back yards, that something should be done about supplying DeWitt Township residents, (and I'm sure many other adjoining townships) with a dump in which to dispose of any collected trash, etc.

We already pay \$3 monthly for garbage removal, but this does not cover anything else.

One day this week, I went to the only dump we have at our disposal in Lansing Township, and was told it would cost me \$5 to dump a bed springs and a disassembled water heater. Obviously, this was to dis-

courage the use of this dump. My only alternative was to drive many more miles, through the city of Lansing, to Aurelius Rd. in Holt. Now Really! Aren't we encouraging our residents to dump along the roads and gulleys?

What happens to the taxes—ranging from \$400 to \$600—we pay annually in our district, for our modest homes?

If our local government is really interested in keeping America Beautiful and fighting pollution, why don't they start with a solution to our problems? Anyone have any ideas, other than a SO WHAT attitude?

Mrs. Richard VanDeusen DeWitt

A sense of community

By RON KARLE, Editor

The first time I was ever in St. Johns was the day I applied for the job of editor of the Clinton County News. I even had to check the map, in fact, just to make sure where it was.

Now, more than a year later, I find it difficult to believe that everybody doesn't know about St. Johns and Clinton County.

It's not a big place; there are no riots, there is little crime nor are there many stories of that sort which make national or even state-wide headlines.

There is, however, an undefinable sense of community; something I can't quite nail down.

I guess you could say that people seem to pull together more out here—or at least it's more noticeable—for the benefit of the community.

Things like Jack Downing and the Jaycees with their programs for the Little League, or listen to Ed Schmitt talk about the Boys Club. How about guys like Ron Huard and Jim Leon and their organization working

for the betterment of the community. And look at the movement caused by a group of housewives, saddened and angered at the death of a young boy on the highway.

These are just a few, some of the more obvious.

Then there are the others that frankly I didn't understand when I first came to St. Johns because I had never seen anything like it in Detroit.

The gals in those white dresses selling blue daisies on the street corners, the Exchange Club selling toothbrushes on those same corners and the guys from the DAV with their Forget-me-nots.

There's the Red Cross gals and the Blue Star mothers getting up every month in the middle of the night to do what they think they can as Clinton County's young men go off to fight in a war some may consider immoral.

It's small town stuff. But I'm wondering if some

of the brothers and sisters down there where it's supposed to be happening couldn't use a little bit of this.

And with it, bring us a little more awareness and understanding of their thing.

Because where it's isn't here or there, but somewhere in between.

Perhaps in my year here I've moved a little closer to better understanding of the total human condition.

Like I told a man once, where I'm from we understand asphalt conservation. Now I know a little about soil conservation.

He didn't chuckle, either, and maybe when he does it'll be a little movement to where it's got to happen.

Anyway, this week I'll be leaving the Clinton County News and taking with me a little more sense of community for which I thank all of you.

But especially Ron Huard, a guy who's got it all together.

'IF IT FITZ . . .'

Basement is cleaned

By JIM FITZGERALD

Our basement was finally cleaned, thanks to Sheila, Steve, Mary, Maureen, Danny, Bill Jean, Mary Lou, Jack, Tom, Michael, Jim, David, John, Tommy, Billy, Tony, Linda, Gertrude, Florence and Aunt Madeline.

(I told them if they would shut up I'd put their names in 40 newspapers. The power of the press is a magnificent thing.) Credit for the shiny basement should also go to Kiwanis International.

It was Kiwanis that declared Aug. 9 as Family Reunion Day. The idea was to "dramatize the family as the keystone of the nation's strength and morality."

"That sounds like a good day to drink a lot of beer and gin," I told my wife. "Let's invite my relatives to town. They can do it better than anyone."

Thus, weeks before the reunion date, one of the most monumental tasks in history got underway. My wife began cleaning out the basement.

When a husband's relatives are coming, it is always necessary for his wife to clean the basement. It doesn't matter

that the party is upstairs. You never know when our 1st floor might collapse and my mother and aunts and my sisters will tumble into the basement, landing in a pile of dirty laundry. They'll see that the Christmas decorations haven't been put away yet. They'll see that our son has hung a tether ball from a cobweb. They'll see what the cats do when their litter box isn't cleaned in three months. They'll see that the last thing my wife threw away was a 1932 Sears catalog.

The kids had a toy sale, making themselves independently wealthy off neighborhood youngsters who eagerly paid for the right to transfer junk from our basement to theirs.

Everything else was backed into boxes, boxes, boxes. The basement was as cluttered as ever, but now the clutter was packaged. When I pointed this out, my wife had a triumphant answer.

"Goodwill is going to pick up those boxes the day before the reunion," she said. "Please put them on the back porch."

Well, I got two boxes to the porch before my back broke.

After some domestic chit-chat, it was agreed that the Goodwill man could go into the basement for the rest of the boxes. Son Eddie was assigned to tell the Goodwill man this. But Eddie forgot. Only the 2 boxes on the porch were taken.

When my wife returned home to this tragic news, she first cried. Then she snarled. Then, so help me, she jumped into the car and went in pursuit of the Goodwill truck. She caught it as it was backing town. She told the driver her sad story, about all the relatives coming and how her mother-in-law mustn't see those boxes of junk.

But the Goodwill man wasn't so full of goodwill. He refused to return. The boxes were still there when my relatives invaded.

And, believe it or not, everyone had a good time anyway. Even my wife, although she got a little bruised throwing herself in front of the basement door when my brother-in-law headed that way (one of the kids had told him the boxes were full of beer).

Onward and Upward and do come again, relatives. Just give us time to wash the roof.

The Easter Message - - a year round comfort

By REV. HUGH BANNINGA

One event that is common in all of our lives is death.

We all know that sooner or later we must die physically. But this fact doesn't bother us as much as the death of someone we love.

When someone we love dies, it always comes as a shock to us and then we are saddened, because the loss makes an empty spot in our lives. We know that in the future that loved one will no longer be around to give us the joy of their love and companionship. This is especially true when the loved one dies before having reached old age.

We always wonder why a man or woman dies in the prime of life. We wonder why a little boy or girl dies when all of life was still before them.

We always ask the question "Why?" "Why was our father or mother taken from us when we were children?" "Why was my son or daughter taken from me so abruptly?" "WHY?" "WHY?" "WHY?"

One way of answering this question is to say that the wisdom of God is greater than ours. He knows what He is doing, even if you and I do not.

Another way of answering this question is to raise another question—"What possible good reason could God have had in mind when He let His Son hang on a Cross to experience an agonizing death in Palestine some 1900 years ago?"

When a younger person dies a physical death, there is the

temptation for those who were close to him to die spiritually—to curse God and blame Him for the loved-one's death—to see God as an unjust monster.

From this kind of attitude comes the eventual, literal experience of the "death of God" Himself.

There was a young woman who suffered greatly from her son's death. She confessed that when the terrible news came, she quit living. On her son's next birthday she decided to spend the whole day at the cemetery. On her way she stopped at a florist to buy a wreath. When she went in, the florist was fussing with a dried-up plant. He was plucking dried leaves from a shriveled stalk. As he continued to pick the dead leaves, the woman finally snapped, "Why fuss with that thing? It's dead!"

The florist looked up and said gently, "You're wrong. Part of this plant has died,

but the rest is healthy tissue. See this green stalk here? The plant will live for many years yet and it will bear pretty flowers and a lot of seed."

The florist paused for a moment and then said, "You know, people are like plants. Some will lose a daughter, or a husband or a son and they will let the part that is gone shrivel them too.

Others will watch the shriveled part drop off and go right on growing, just as God intended them to grow."

When the woman went out of the florist's shop, she went to the cemetery, as she had planned, but she only stayed for a few minutes. Then she left and began living normally again.

For those who are Christians and still in their pilgrimage in this present life, the writer, St. Paul, speaks words of comfort and wisdom in the 8th chapter of his letter to the Romans.

He says that Christians are the sons of God and that God's glory awaits them. He says that it is God's love for us and our love of Christ that sustains us in all of the sufferings of this present time.

He tells us that the "Good News" is the fact that Christ died and rose again.

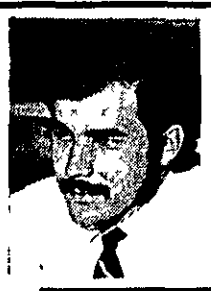

This is the Easter message. It says that physical death is not the end, but the stepping stone to life eternal. God showed us that the Crucifixion was followed by the Resurrection, Good Friday was followed by Easter.

"Could he take some extra sessions of character building?"

'Freedom' fighter

By TIM YOUNKMAN

In all of the confusion of a world at war, or near war, a bad footnote to history was written Sunday.

The news dispatch from Fort Pierce, Fla. told of a young 20-year-old soldier, who was killed in action in Indochina defending the "Integrity" of the U.S. and preserving "freedom" for millions. He was denied burial in a cemetery because he was black. It is a relatively minor incident to the millions of Americans involved in their daily routines.

To the young man's family and friends and to most black people in our nation, it points to the inequality of our white Christian society.

Here was a man who was not as lucky as others in eluding the draft due to deferments, but who put his life on the line with a distant hope that by fighting now, he might live a better life later.

There was a slight flicker of hope left when a white woman donated a burial plot to the dead soldier's family in Hillcrest Memorial Gardens.

Cemetery officials refused to allow the military burial for the black soldier in the all-white cemetery strictly on a racial basis.

Army officials were outraged and legal procedures were set in motion to obtain the dead soldier's rights.

Most of us would agree that this is an example of pushing

racial prejudice to its limits. What we must not forget is that these things are still happening in our own country.

We expect all young men, white and black, to take up arms, be shipped thousands of miles away to defend the freedom of other peoples in other lands when these same freedoms cannot be guaranteed in their own country.

The young, restless militant groups have started reversing this race hate threatening the tranquility of Mr. Average Citizen and further polarizing the racial groups.

We have legislated freedom and fairness on local, state and national levels, but laws have not altered the battle lines for long. Laws cannot dictate feelings that man should relate to other men.

Our Christian ethics have dictated togetherness and brother love for 2,000 years. It seems very few have listened.

We have, in this incident, a family in mourning wishing only for a chance to gain some peace and rest. Yet they remain tortured and captive in a land they don't control and feelings they didn't create.

Somewhere in our background we learned about peace and love toward others especially those in trouble. It's about time we practiced this philosophy—our future may depend on it.

Deadlines

Because we haven't heard of a newspaper that suddenly materializes with all news, advertising copy and pictures in place and in A-1 condition, it becomes necessary for the Clinton County News to impose deadlines to insure a smooth flow of copy so that as much material as possible may be printed in proper form. Toward this end, these deadlines are now in effect:

- Display advertising.....Monday noon.
- Classified advertising.....Monday noon.
- Letters to the editor.....Thursday, 5 p.m.
- News for farm pages.....Thursday noon.
- Wedding stories, pictures.....Thursday noon.
- Other contributed pictures.....Monday noon.
- Church and fine arts items.....Thursday, 5 p.m.
- Regular columns.....Friday, 9 a.m.
- Sports page items.....Monday, 5 p.m.
- Teen activities page items.....Thursday, 5 p.m.
- Other contributed items.....Monday, 5 p.m.

Earlier submission of news items is greatly appreciated, with the result that more attention can be given to them. Items will be accepted after the deadline, but will be used ONLY if time and space are available.

Requests for pictures to be taken by the County News staff should be made as soon as possible and never less than 24 hours before the picture time.

TEMPE, Ariz., NEWS: "The Doves. Ah, they are so strange! Nothing is more anathema to young people today than the military. Yet Army-Navy stores are doing a brisk business selling military apparel to them! College students . . . (?) . . . and hippies are becoming a growing clientele for surplus military gear outlets, reports The Wall Street Journal. So great is the demand that genuine military surplus has become scarce, and many stores are stocking 'imitation surplus' made in—(where else?)—Japan!"

Busy Capitol

By REP. WILLIAM S. BALLENGER

Drug abuse, Parochialism, fast time, and politics are ripe in the land of the State Capitol this week.

That is to say those are the subjects causing the most comment in Lansing during these August "dog days" when most legislators interrupt campaign work in their home districts to return to their Lansing offices to take care of the needs of their constituents and participate in interim committee hearings on a wide variety of subjects.

Actually, lawmakers are not directly involved with the first three subjects presently, but every one of these issues undoubtedly will affect future sessions of the Legislature.

Interest in drug abuse, which was strong during the session earlier this year, has been heightened by the spectacle at Goose Lake near Jackson two weeks ago in which there were reports that drugs were openly hawked to many of the 200,000 youngsters in attendance.

While law enforcement officials made many arrests outside the grounds, they recognized the magnitude of the problem within the grounds was too great for their limited number to cope with. So they used the event as an opportunity to get a good line on pushers.

Since the rock festival ended, public reaction has been extremely unfavorable and state and county officials are working through the courts in an effort to avoid permitting such a degrading event to occur again in Michigan.

Officials have emphasized that there is no objection to youngsters gathering to enjoy their favorite music. The objection is to the heavy use of drugs and open indulgence in other illicit activities.

A legislative hearing into the rock festival held earlier this week in the Capitol is expected to result in proposed legislation designed to prevent such events from happening again.

On another front, the long argued issue of Parochialism now is before two of Michigan's top courts.

The State Supreme Court has called for briefs on the constitutionality of the \$22 million appropriation made to Parochial schools in the State School Aid bill. Effectiveness of the Parochial portion of the measure was predicated on a favorable ruling by the Supreme Court that such grants to church-related schools are constitutional.

Meanwhile, the State Court of Appeals is hearing preliminary arguments on the validity of anti-Parochial petitions to determine whether the issue should be submitted to a vote of the people in the November 3 election.

Earlier Atty. Gen. Frank Kelley ruled the request for a referendum on the issue was faulty because wording of the proposed constitutional amendment was not included on petitions circulated by the anti-Parochial group. The Appeals Court, however,

overruled the Attorney General and said it would make a decision soon on whether the people will be permitted to decide the issue for themselves. In November.

The perennial squabble over "fast time" is before the State Supreme Court again, this time over the issue of whether another vote should be taken in November.

Earlier, the Court of Appeals had overruled elections officials who said petitions for such a vote were filed too late in violation of a constitutional provision that petitions must be filed by 10 days before the start of a legislative session.

But the issue was taken to the Supreme Court, which will review the lower court ruling and determine whether "fast time backers," primarily commercial interests in the metropolitan areas, can force another statewide vote on the issue, which was narrowly turned down in the 1968 general election.

In the meantime, lawmakers are attending meetings, appearing in fairs and carnivals, and "pressing the flesh"—shaking hands with prospective voters—back home in their campaigns for re-election.

In the next few weeks, the news media—printed and electronic—will be filled with charges and countercharges by those seeking election. It will be up to the voter to decide on Nov. 3 what the next Legislature and state administration will look like.
