Commission may ask fire chief to resign

ST JOHNS -- Sparks flew again Monday night between St Johns City Commissioners and local volunteer firemen during the commission's regular meeting.

This time a report by Mayor Robert Wood on his meeting with firemen triggered discussion which led to a motion by Commissioner Roy Ebert that Fire Chief Clare Maier be asked to resign.

EBERT'S ACTION came as an amendment to a motion by Commissioner John Hannah who moved for acceptance of wage increases for firemen as recommended by City Manager Harvey Weatherwax. Another provision of Hannah's motion stipulated that the money come from the fire building fund.

At this point, Ebert offered his amendment asking for Chief Maier's resignation. This drew comment from volunteer fireman Ray Kentfield who

stated if such action was taken "all the firemen will resign."
Heated discussion followed between Maier and the commissioners. Ebert pointed out the fire chief had "defied direct orders from the city commission and failed to negotiate wages for the other firemen at the proper time." The incidents where Maier allegedly defied commission orders regarding a decision that the firemen's 4th of July event would no longer be held in the city park grounds.

COMMISSIONER JAMES GROST told Maier "many of us don't think you've communicated between the firemen and us... you've been divisive and have driven a further wedge between the two groups."

Finally, Ebert moved to have the motion tabled with the provision a meeting be set up between the commission and the firemen's wage committee. This action gained a 3-2 passage with Mayor Robert Wood and Commissioner Jeanne Rand dissenting.

Another major item on Monday night's agenda was the annexation petition by Willard Searles to have a 153 acre tract of land formerly known as

the Sullivan farm become part of the city. Doug Austin, legal counsel for Searles, explained de-annexation from Bingham Township has been approved pending annexation to St Johns.

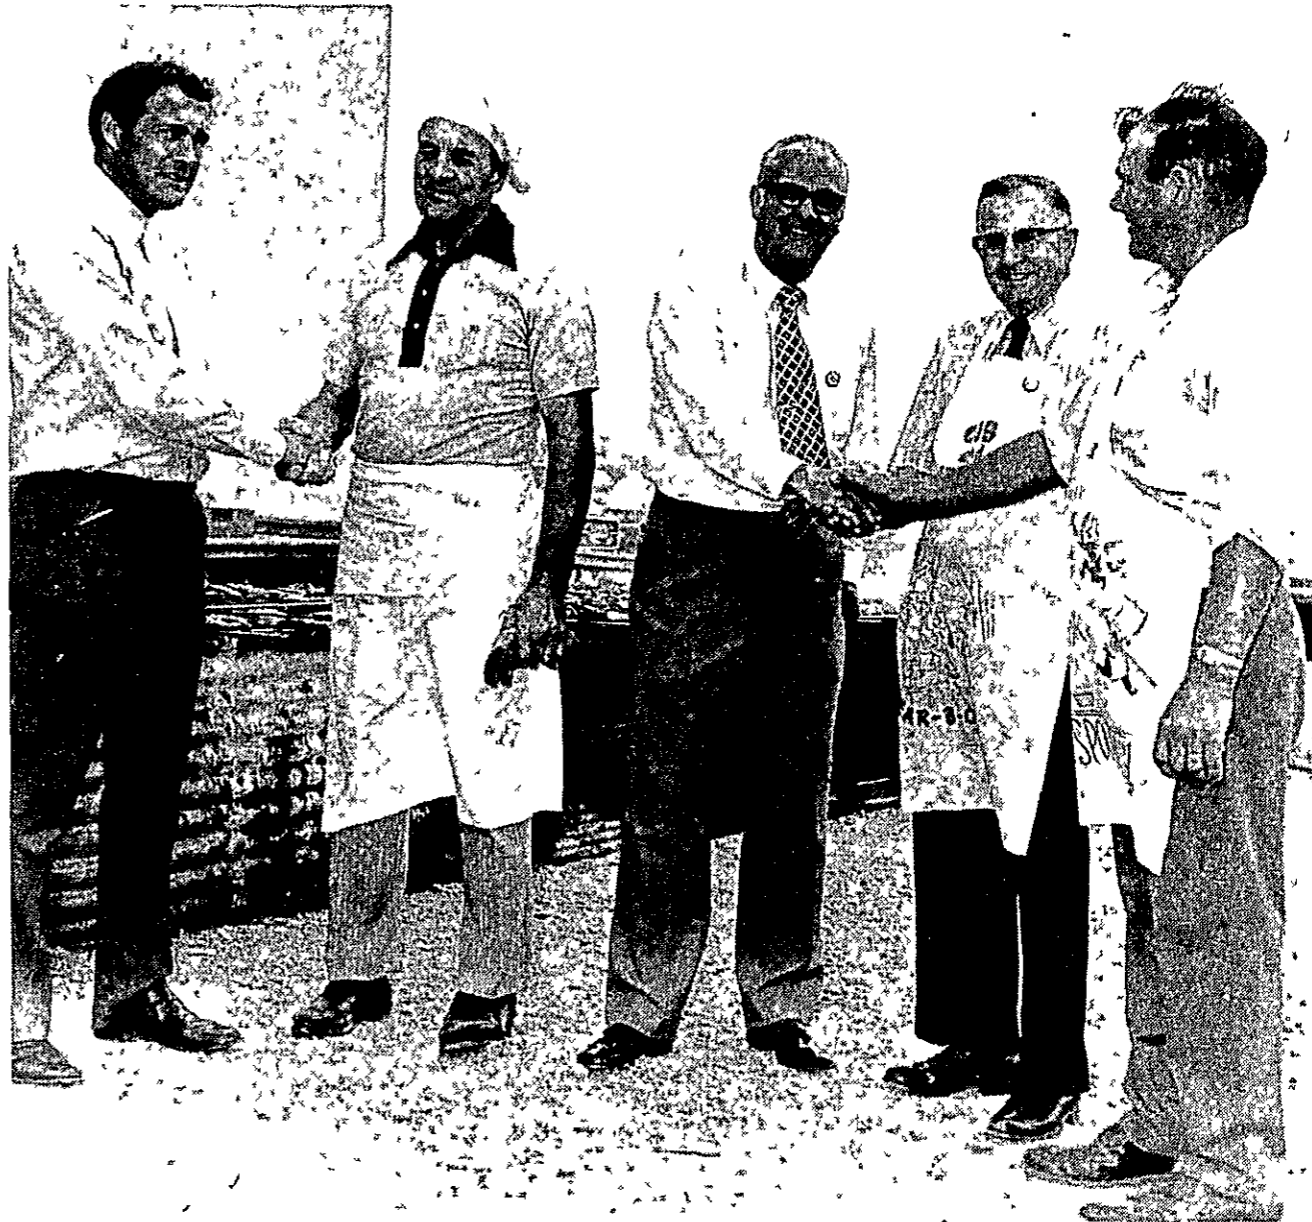

City Manager Weatherwax recommended the commission reach an agreement with Searles on storm and sanitary sewer for the development before any further action is taken. Commissioner Hannah moved City Attorney Paul Maples and Searles' attorney draw up such an agreement for presentation at the next commission meeting. The motion gained unanimous approval.

OTHER ACTION by the commission included:

-a change in October meeting dates from Monday to Tuesday because of two legal holidays.

-a permanent traffic order placing a stop sign on Morton St at Sickle St.

The city manager was given permission to seek approval of the Municipal Finance Commission for the city to enter a land contract to acquire the Matthew Dairy property on Walker St for use as a parking lot.

CONGRESSMAN VISITS

Extending a hearty welcome to 10th District Congressman Elford Cederberg is Clinton County Register of Deeds Willard Krebel and Ronald Spitzley (right) while Cederberg's liaison aide Ronald Stolz of Alma (left) receives a similar gesture from County Clerk Ernest Carter. The action took place Sunday afternoon at the St Johns VFW Hall during the Clinton County Republican Chicken Barbecue. Other Republican notables attending were State Senator William Ballenger, State Representative R Douglas Trezise and State Representative Dale Warner.

Ditmer is banquet MC

ST JOHNS -- Arrangements for the St Johns Area Chamber of Commerce awards banquet advanced another step this week with announcement by Chairman Bill Patton that Robert Ditmer will serve as master of ceremonies for the event.

Ditmer, owner and manager of radio station WRBJ in St Johns has been a long time Chamber of Commerce member and has assisted at different times as emcee for chamber events. He served as the evening's host during last year's award banquet at which time 2 area residents were cited for chamber and civic activities. Bernard Feldpausch was recognized as outstanding chamber member while Jack Downing received honors as the outstanding citizen of the community.

THE SAME two awards will be presented at this year's gathering, slated for Oct 17 at Daley's Restaurant. Nominations for the honors are now being accepted and can be phoned or delivered to the Chamber of Commerce office, 117 E Walker, 224-7248 in St Johns.

Other award presentations scheduled for the evening will be past president honors to the oldest living person having served in the organization's top office. Last year these honors went to Lee DeWitt and Clarence Ebert. The Chamber is also seeking names of candidates for this honor.

Other special awards or presidential certificates will be presented as part of the evening's activities.

Principal speaker for the event will be Gus Ganakas, head basketball coach at Michigan State University. Ganakas' appearance was confirmed two weeks ago. He is a popular after dinner speaker throughout the Michigan area and provides a broad base of humor to public gatherings of many kinds.

The dinner will begin at 7:15 pm with a 45 minute social hour preceding.

Dem picnic

DEWITT -- The Democratic Party of Clinton County will hold a meet-the-candidates picnic at the residence of Richard Warren, 1220 Sandhill Drive, DeWitt on Sunday, September 17 beginning at 2 pm. Just take Herbison Road west of US-27 and follow the sign.

Frank Kelley Jr., son of the Democratic US Senatorial nominee Frank Kelley Sr., will be featured speaker. Others slated to speak are Bennie Graves and Jim Brignall, Congressional candidates from the Tenth and Third Congressional Districts respectively. Several other state legislative and local Democratic candidates will be on hand.

PLENTY OF food, drinks and music will be provided. The public is invited to attend.

Planning commission declines approval of re-zoning change

ST JOHNS-- Plans for a new Kroger store and a senior citizens housing complex remain uncertain following last week's action by the St Johns Planning Commission to decline approval of re-zoning changes necessary for both projects.

Bobenal Investments Co of Alma owns Southgate Shopping Plaza on the city's southside and seeks to purchase

adjointing land for construction of a new \$1 million Kroger store. One section of the land now owned by Wolverine Stockyards is zoned R-1 residential and Bobenal has requested a change to commercial.

A LARGE AND VOCAL contingent of property owners near Southgate Shopping Plaza attending the planning commission meeting to express disapproval of Bobenal's expansion plans. Mrs. Annette White, a resident of Hampshire Dr, presented a petition signed by about 60 property owners who are opposed to the re-zoning request.

Al Fortino, a Bobenal representative, then presented a revised plan which outlined construction of 12 townhouse apartment units in the area between the residential housing and the proposed store site.

"They would act as a screen between the commercial and residential areas and built simultaneously with the center," Fortino explained. He also added the apartments would block off the Elm St right-of-way which cuts through the land from Hampshire Dr to the shopping plaza. "Purpose of the buildings is the prevent traffic from entering the center from Elm St," stressed the Alma attorney, "and it would virtually dead end the street."

FORTINO'S POINT regarding Elm St was given in response to a comment from Mel Westland, a property owner in the area. He said "the reason I'm here is a concern for traffic... we're 7 or 8 years away from relocation of US-27... Elm St is the only way it can go and then I'm up in arms."

Fortino further commented he had no intention of routing traffic from the shopping center out through Elm St and expressed confidence that US-27 could handle it.

The added burden on city sewers that the new store could bring was also

major concern among local residents. Howard Gentry told the audience his "basement is flooded with sewage every time it rains". He suggested the city "take care of the problems we got then talk about expanding."

Phil Bayes, a city planner from the Grand Rapids firm of Williams and Works, presented an engineer study of the area which stated there were sufficient sewer facilities to handle the new store. He noted the question of townhouses was not mentioned when the study was made.

FINALLY, after much discussion the commission voted to disapprove the original re-zoning request asking for the area southwest of the present Kroger store to be commercial. No request had been filed on the townhouse plan. Also included in the motion upon suggestion by Charles Coletta was a provision that a professional planner be hired to study the best use for this land in question. Planning Commission Chairman James Moore set a special study session for this purpose on Thursday evening, September 21. Moore said "I feel we owe both Mr. Fortino and residents of this area a sound plan."

The rezoning of 7.5 acres of land on the city's northside south of the bowling alley from commercial to multi-dwelling was tabled for 2 weeks until further engineering studies are made. Bayes did give a report stating "easements necessary to reach main sewer lines should be the only difficulty". However, the commission felt in view of concern expressed by residents in the area that more information was needed on sewer capacity.

FACT finder

Are you concerned about getting the straight facts on a question which arises but don't know where to find the answer?

We'll find the facts for questions submitted by our readers. Just drop us a line at FACT FINDER, Clinton County News ST JOHNS 48879.

Q -- There's a dip on East Baldwin Street just west of the corner of Baldwin and Morton. The bottom keeps dropping out. What does the City of St Johns plan to do? VS, ST JOHNS

A -- Sit back and wait. That's all that can be done until the stretch settles. DPW superintendent Charles Bensing and his crews will keep filling the dip with processed gravel until it's completely packed. Reason for drop off is a sewer lateral and water main in the same ditch under the road.

Q -- The National News media said the price of a loaf of bread will increase 3 cents because the farmers are getting 11% more for his bushel of wheat. There was only 2.4 cents worth of wheat in a loaf of bread, now it is going to be 2.7 cents. Why does bread have to increase 3 cents? LT, Route 3, ST JOHNS

A -- Bread dough has been rising a long time. Now it looks like the price will too. Russell Kisor, president of Schafer Bakeries Inc in Lansing, said his company needs an increase of about 2¢ a loaf. Reason is flour has gone up \$1 a hundred weight. They have filed their profit picture with the price board to justify a claim. "I think something should be done," sighed Kisor, "or a lot of bakers are going to go broke."

Q -- How come you can't walk from the south end of St Johns to downtown without keeping on the sidewalk. Why doesn't the city enforce property owners to put down sidewalks? AS, ST JOHNS

A -- City hall's not trying to sidestep the sidewalk issue. We know we need 'em admitted a spokesman, but roads, curb and gutter and sewer must take a precedent. There hasn't been a special assessment for sidewalks since '68 and it doesn't like they'll be one in the near future. You're not the only ones trudging in roads, it's a common problem north, south, east and west.

Q -- What ever happened to the St Johns Big Brother organization? JS, FOWLER

A -- A man never stands so tall as when he stoops to help a boy. But the problem for the St Johns Big Brothers is they don't have enough men for the number of boys wanting to join the program. Bertoldi founded the organization 3 years back and is still looking for community volunteers. Just drop him a note at 601 S Traver in St Johns and he'll be in touch.

Q -- When I as a taxpayer voted "yes" for a new water plant in St Johns I did it with the assumption soft water would be provided. Our water is so hard you could crack it with a hammer. What gives? DK, ST JOHNS

A -- Somebody's all wet! The official ballot for the special election in January 1964 did not state a provision for soft water. The \$850,000 project is for the purpose of "improving elevated storage facilities, a water treatment plant, additional transmission mains, new wells and main, etc." Because a lime sludge is left over after water processing, water will not soften.

Ovid-Elsie voters approve 1-mill

ELSIÉ--The Ovid-Elsie Area School District officials gained voter approval on a one mill levy for the purpose of the construction of a bus maintenance garage.

The millage request passed by a 419-295 margin in the election which was held last Saturday.

The proposal was defeated in the June 4 election by one vote and at that time school officials discovered that confusion existed on the proposal. Voters thought it was for a building to house buses when actually the plan was to construct a structure where vehicle maintenance and repair could be performed.

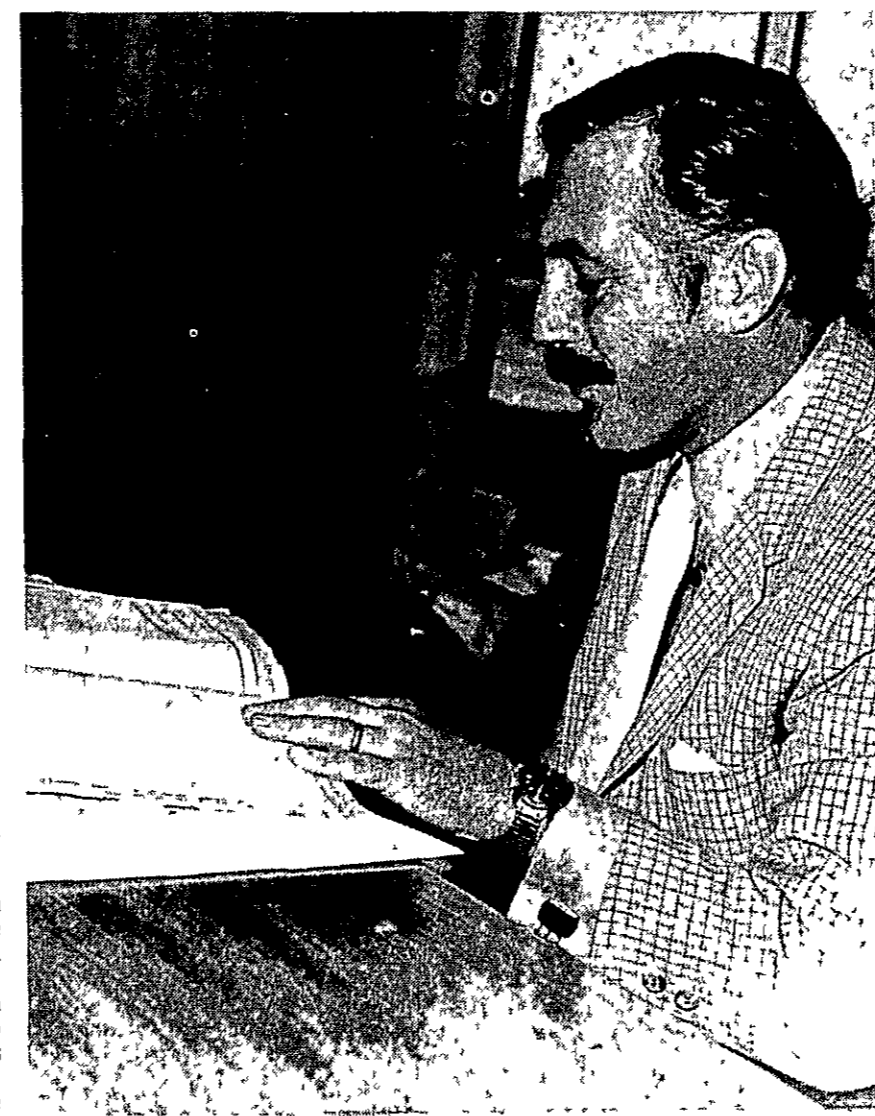

THE BOARD will discuss the plans at their Tuesday meeting and construction bids will be let out later in the week.

Plans include the construction of a level building 50 x 120. "We are interested in a steel relocatable type building" said Don Kenney, school superintendent. He indicated that bids would be asked on just the shell with plumbing and electrical placed on alternate bids. "It is possible that the industrial arts department of the school could do the interior" said Kenney. type building" said Don Kenney, school superintendent. He indicated that bids would be asked on just the shell with plumbing and electrical placed on alternate bids. "It is possible that the industrial arts department of the school could do the interior" said Kenney.

The building will include classroom space for power mechanics and a lab area for an agriculture mechanics department.

Kenney said that the building will be built in the northeast corner of the athletic field, close to the main building so students can get to their other classes easily. Plans also call for a concession stand and lavatories which can be used during events at the athletic field.

KENNEY FELT that if everything goes well the building could possibly be ready for use by the second semester.

Don Kenney, Ovid-Elsie School superintendent, looks over various construction plans before he submitted them to the school board Tuesday evening. Approval of a bus maintenance building was gained at the polls Saturday by a margin of 419-295.

Lansing Community College has local off-campus location

Beginning Fall Term 1972 Lansing Community College courses in Mason, Holt, St Johns, Grand Ledge, Charlotte, Eaton Rapids, and Portland.

The College recently completed the arrangements through the superintendents of the area school districts following a public sampling by area, which indicated a demand for the courses. Residents in the College service area responded to the College questionnaire, and as a result certain courses will now be offered.

The first class meeting is Sept 28, or as scheduled. Classes will terminate on Dec 15. Interested persons may register and pay their course fees during the first scheduled class meeting. It will not be necessary to visit the down-town College Campus to register.

The College believes that the neighborhood locations can save some students time and money. For example; the mother who must pay for a baby-sitter during the time required to travel to and from class, and the older

person who has no private means of transportation will be aided by this program. Off campus instruction will also help the student who must drive a long distance to and from class in the winter time.

In addition to the limited offerings in the off-campus locations, LCC will offer many new courses at the downtown campus. Children's literature for Parents and Grandparents, How Reading is Taught in the Elementary Schools, Practical English, Mathematics Laboratory, Consumer's Insurance, and Small Business Management to mention a few. Community enrichment courses for the student's personal fulfillment and others designed to give the student an opportunity to earn credit toward his degree are included.

Questions may be directed to the College by calling the Admissions Office at 373-7160.

Re-zoning

CONTINUED FROM PAGE 1

During the discussion, City Commissioner Roy Ebert said "I'm opposed to housing of any kind because of the way out city sewers are over-taxed."

THE SENIOR CITIZENS housing is being proposed by Carmen Tranchell Inc, a non-profit organization seeking low income dwellings for the elderly. The proposal is for construction of about 100 cottage-type apartments with federal rent subsidy available to the prospective elderly tenants.

The study session set by Planning Commission Chairman James Moore for Sept 22 is expected to draw further objection to these two re-zoning requests. In both cases, the problem of city sewers is expected to dominate the conversation between the developers, local property owners and planning commission members. Final action on the re-zoning requests must come from the city commission.

November ballot lists five proposals

The ballot in November's general election will contain 5 state proposals.

These include two proposals for constitutional amendments, two proposals for initiation of legislation and 1 proposal for a referendum as required under 1972 Public Act 231.

The first question asking for a constitutional amendment is Proposal C which seeks to limit property tax for school, county and township purposes and to provide that the legislature shall establish a state tax program for support of schools.

THE PROPOSED AMENDMENT WOULD:

- (1) ban a property tax for general school operation purposes;
- (2) limit the property tax to allocated

amounts for specified county, township and school purposes, the total not to exceed 26 mills;

(3) require the legislature to establish a tax program for raising and

distributing funds for public elementary and secondary schools;

(4) require the legislature to provide for distributing supplemental funds based on local need for specified purposes.

PROPOSAL D asks voters to remove a state constitutional ban against the graduated income tax. This proposed amendment would enable the legislature to impose a flat rate or graduated state income tax and to enact laws to permit local units to levy a flat rate or graduated income tax.

Proposal A seeks to change Michigan to daylight saving time from the last Sunday in April until the last Sunday in October of each year.

Probably the hottest of the five state questions is Proposal B which would allow abortions under certain conditions. This proposed law would allow a licensed medical or osteopathic

physician to perform an abortion at the request of the patient, if (1) the period of gestation has not exceeded 20 weeks, and (2) if the procedure is performed in a licensed hospital or other facility approved by the Department of Public Health.

A FINAL proposal on the November ballot would allow the state to borrow \$266 million for tuition payments and bonuses to Vietnam and other veterans. Approval of this proposal would allow the state to issue general obligation bonds to secure the money needed under this program. Repayment of the bonds would be made from the state's general fund.

MRS JAMES THALISON

Couple travel north after wedding rite

WESTPHALIA -- St Mary's Church in Westphalia was the setting for the Saturday, Sept 9 double ring ceremony which united in marriage Ann Elizabeth Lenneman and James Clare Thalison. Rev James Schmitt performed the 1:30 pm service before an altar decorated with yellow and white gladiolus.

Parents of the couple are Mr and Mrs Edward Lenneman Jr, Grange Road, Portland and Mr and Mrs Frank Thalison of 338 North Jefferson, Ionia.

The bride, escorted to the altar by her parents, selected a gown of silk organza over taffeta featuring an empire-style waistline with imported lace trimming the bodice, stand-up collar, the full Bishop sleeves, cuffs and the edge of her detachable cathedral-length train. Her Juliet style headpiece was trimmed with matching lace and secured her short veil and she carried a bouquet of white mums and yellow roses. A gold cross and chain which had belonged to her great-grandmother was worn by the bride.

Matron of honor was Mrs Dan Barnes of Westphalia and serving as bridesmaids were Julie Spitzley, West-

phalia; Mrs Jerry Zander of Ionia and Mary Lenneman of Portland, who was a junior bridesmaid. The attendants wore identical gowns of silk organza over taffeta styled with a light blue bodice and a deep blue and green flowered skirt which was accented at the waistline with a moss green ribbon. They carried a bouquet of white mums, yellow carnations and blue bachelor buttons.

Best man was John Thalison, the groom's brother, and assisting as groomsmen were Thomas Beckhorn and Philip Miller. Seating the guests were ushers Gary Lenneman, brother of the bride and Joe Thalison, brother of the groom.

The couple greeted 350 guests at the reception which was held at 5:30 pm at the church hall.

Special guests at the wedding and reception were Mrs Rita Freund and Mrs Eva Gale.

After a wedding trip in Northern Michigan the couple will make their home at 6086 1/2 Westphalia Street, Westphalia.

The bride is a 1971 graduate of Pewamo-Westphalia High School and the groom attended Ionia High School.

MR AND MRS LEON WILLIAMS

Celebrate anniversary

ELSIE -- Mr and Mrs Leon Williams of 8804 Allen Rd will celebrate their 50th anniversary Sunday Sept 24 from 2 to 5 pm at the American Legion Hall in Elsie.

Their children, Mr and Mrs Glenn Williams, Mr and Mrs Richard Sturgis, Mr and Mrs Kaye D Potter will be the hosts, assisted by the couples 11 grandchildren.

Leon Williams and the former Ruth Partlow were married by Rev J M Blank

on Sept 21, 1922 at her home near Chapin. Their attendants were Clare Batchelor of Owosso, Clifford Partlow (deceased), a sister, Hazel Williams Ballantine and Pauline Schlaack Gamble of San Bernardino, Calif.

Mr and Mrs Williams have lived at their farm estate which became a Centennial Farm in 1964.

Relatives and friends are invited, to call on them at the above date. They request that there be no gifts.

Celebrate anniversary

FOWLER -- Mr and Mrs Vernon Benjamin of Fowler, will be honored at an open house, held at St Paul Lutheran Parish Hall, Sunday, Sept 17 from 2:30 to 5 pm.

The event is in honor of their silver wedding anniversary and is being

hosted by their children, Carol and Judy of Lansing, Mr and Mrs Tom Feldpausch of Fowler, Brian and Lorrie at home.

Relatives and friends of the couple are cordially invited to attend.

It is requested there be no gifts.

Five generations gathered recently for this photo. Pictured are from left, Mrs Clara Garber of Palmetto, Fla, great-great-grandmother; Mrs Richard Rowley of Laingsburg, mother; great-grandfather, Leo Ballingar of Barryton, grandfather, Dean Ballingar of St Johns and baby Crystal Mae Rowley.

Honey Karber now Mrs W V Charvat

Rev William Hankerd, pastor of St Joseph Catholic Church, performed the double ring service, Aug 18, which united in marriage Honey Jane Karber, daughter of Mr and Mrs Gerald Karber of St Johns, and William Vincent Charvat, son of Mr and Mrs Robert Charvat of Grosse Pointe Woods.

The bride and groom were escorted to the altar by their parents where bouquets of white snapdragons and baby mums were placed for the 7 pm ceremony. Mrs Herman Smith served as organist and William Acton played guitar and sang, "The Lord's Prayer," in French and "We've Only Just Begun."

The bride selected a white traditional gown designed with a fitted bodice and long sleeves in rose point lace. Her bouffant skirt of silk

organza ended in a chapel-length train, and her three tiered veil was secured to a fitted headpiece encrusted with seed pearls. She carried a white cascade bouquet of mixed flowers centered with a detachable white orchid corsage.

Angela Karber served her sister as maid of honor and bridesmaids were Janice Charvat, sister of the groom, and Linda Karber, cousin of the bride from Tucson, Ariz. The attendants wore identical full-length gowns of snow white with long sheer sleeves ending in wide cuffs.

Wide brimmed picture hats completed their ensemble and each carried a hand bouquet of pink rosebuds, purple status and white baby's breath.

John Charvat served his brother as best man and groomsmen were Andy

Anderla, of Albion, and Dennis Hurley, of Grosse Pointe Woods. Jerry Good and Keith Harter, both of St Johns, seated the guests.

Mr and Mrs Ted Good, aunt and uncle of the bride, hosted the champagne buffet supper for 200 guests in the social hall immediately after the service. A three tiered cake decorated with fresh flowers adorned the cake table and a water fountain with fresh floating gardenias served as the focal point of the dance area.

Guests of honor present included the bride's grandparents, Mr and Mrs Gerald Good and Mr and Mrs Joe Karber and the groom's grandmothers, Mrs Alma Larson and Mrs Irene Charvat, also the couples great great aunts, Mrs Emma Hafele, Mrs Alvada Hefty, and Mrs Helen Lynch. The newlyweds honeymooned in the Pocono Mountains of Pa, and are now residing at Homestead Estates in Mt Pleasant where they are members of the junior class at Central Michigan University.

MRS GARY WEBER

Thelen-Weber vows repeated

FOWLER -- Shirley Dora Thelen became the bride of Gary James Weber Saturday, Sept 9 in a double ring service held at Holy Trinity Church. Rev Albert Schmitt officiated at the 2 pm ceremony.

The bride is the daughter of Mr and Mrs Urban J Thelen of Walker Road, St Johns and the groom's parents are Mr and Mrs Robert Weber of Hinmann Road, Fowler.

The bride, given in marriage by her father, approached the altar in an A-line full-length gown styled with long sleeves and a high Chantilly lace collar. Chantilly lace covered the bodice and extended in panels down the front of the skirt. Lace appliques trimmed the sleeves and cuffs and a chapel-length train was attached. A headpiece of matching lace secured her shoulder-length veil and she carried a bouquet of red roses with white carnations and red and white streamers.

Maid of honor was the bride's sister, Jane Thelen of Fowler and assisting as bridesmaids were Joanne Pohl, Portland; Ann Schneider, Portland; and Marilyn Weber, Fowler, sister of the groom. Flower girl was Gina Harr of Westphalia, niece of the bride. The attendants wore floor-length gowns featuring an empire-style waistline, long sheer sleeves, stand-up collar and a 6 inch ruffle at the hemline. Small flowers trimmed the collar, cuffs and the front of the bodice. The skirt of the gowns worn by the maid of honor and flower girl were orchid and the attendants' lavender. The bodice of each gown was off-white. They wore matching headpieces which secured their waist-length veils and carried pompon bouquets of purple, orchid and lavender mums with pink star flowers.

Best man was Bruce Weber, Fowler, the groom's brother and serving as groomsmen were Robert Thelen, Fowler, brother of the bride; Michael Klein and William Klein, both of Fowler. Seating the guests were ushers Paul Harr, Westphalia, brother-in-law of the bride, and Dan Schaefer of Fowler.

The couple greeted guests at a 5 pm reception which was held at the church hall. Special guests were Mrs Theresa Thelen, grandmother of the groom; Albert Fedewa, grandfather of the bride and Mrs Catherine Weber, grandmother of the groom.

For travel on their wedding trip to Maine and the East Coast the new Mrs Weber chose a maroon ribbed knit sweater with long sleeves and a matching maroon and white print skirt.

Upon return the couple will make their home on Jason Road, Portland.

The couple are both 1970 graduates of Fowler High School.

Bloodmobile set for Ovid

Just suppose--you had just been rushed to the hospital from a car accident in which you had lost a huge amount of blood and the doctor says, "sorry we can't help you we don't have a supply of blood"

Or just suppose--you or one of your loved ones needed a life-saving operation and the hospital refused to do it because they didn't have a blood supply.

This doesn't happen, but it could if it were not for the many people who take time out of their busy day to stop and give a pint of that precious life-giving substance so that your hospital does have a blood supply.

The Red Cross Bloodmobile will be in the Ovid-Elsie area on Thursday, Sept 14 from noon to six o'clock at the Ovid Memorial Building.

If you have never given, try it, you'll like it! It gives you such a good feeling to know you have helped in such a personal way.

1972 Redwings are "small but quick"

ST JOHNS - "Small but quick" is how St. Johns Coach Ernie Becker describes the 1972 Redwings football squad.

"Our drawback will be size," he explains while adding "it's the smallest team I've ever coached."

BECKER REPORTS having good speed at most positions, especially in the backfield. He says "quickness of the offense" will be the Redwings strong point this fall.

Six of the Redwings' 8 games this season are on home turf with the Mt. Pleasant Oilers coming to town Friday night for the opener. A change in state athletic classification drops St. Johns back into Class B but several of their football rivals remain in Class A. For this reason, Becker calls the Redwings 1972 schedule "the roughest ever" at St. Johns.

"Every team we face this season will outweigh us by about 20 to 40 pounds," Becker says. However, he notes the 13 returning lettermen gives him an experienced crew which should improve upon last fall's record of 4-5. The 1971 Redwings finished with a 3-3 mark in the West Central Conference. Among the non-conference wins was an upset victory over traditional rival Ovid-Elsie.

HEADING THE list of returning veterans are 3

players who will serve as tri-captains of the 1972 team. Senior tailback Bruce Cameron is expected to handle the bulk of ball-carrying chores. He stands 5-foot-7 and weighs 140 pounds. Joining him in the backfield will be senior upback Gary Mankey, 5-foot-8 and 155 pounds.

The third team captain and largest is senior tackle Bruce Irish. He stands an even 6-foot and weighs about 185 pounds.

Other returning lettermen in the Redwings backfield are: junior swingback George Rosner, 5-foot-11 and 165 pounds; senior tailback Bob Hunter, 5-foot-8 and 150 pounds; senior quarterback/end Cary Rappuhn, 5-foot-10 and 155 pounds; and senior swingback Steve Flegel, 5-foot-6 and 130 pounds.

THE LINEMEN returning this fall who won letters last season include: senior tackle Randy Devereaux, 6-foot-1 and 180 pounds; senior end Jim Hebel, 6-foot and 160 pounds; senior guard Jerry Smith, 5-foot-8 and 150 pounds; senior guard Rich Riley, 5-foot-7 and 140 pounds; senior center Marv Pettit, 5-foot-9 and 160 pounds; and senior center Mark Crosby, 5-foot-9 and 155 pounds.

Other team members are: junior quarterback Jim Lynch, 5-foot-11 and 155 pounds; sophomore quar-

terback Kevin Knight, 5-foot-9 and 150 pounds; junior tailback Mark Barz, 5-foot-7 and 130 pounds; junior upback Russ Waggoner, 5-foot-6 and 150 pounds; junior upback Marty Brewbaker, 5-foot-10 and 145 pounds; junior swingback John Hayes, 5-foot-5 and 120 pounds; senior center Dave Harger, 5-foot-10 and 200 pounds; junior center Ray Whitford, 5-foot-7 and 130 pounds; junior guard Dick Parker, 5-foot-10 and 140 pounds; junior guard Brian Downing, 5-foot-8 and 150 pounds; junior guard Chris Slamka, 5-foot-8 and 155 pounds; junior tackle Gilbert Martinez, 5-foot-8 and 160 pounds; and junior tackle Ray Schueller, 5-foot-9 and 170 pounds.

Also on the squad are: junior tackle Brent Coffman, 5-foot-10 and 170 pounds; junior tackle Chris Halfman, 5-foot-11 and 150 pounds; junior end Wayne

Flermoen, 5-foot-11 and 150 pounds; junior end Chris Richards, 5-foot-10 and 140 pounds; senior end Alan Weatherwax, 5-foot-10 and 135 pounds; junior end Gary Thelen, 5-foot-7 and 120 pounds; and junior end Mike Lynch, 5-foot-11 and 150 pounds.

ASSISTING COACH Becker with the varsity will be line coach Joe Gonzales. This is his 3rd year in this post and his fourth year at St. Johns. He is a language teacher at the high school and a graduate of Michigan State University.

Also working with the varsity and junior varsity squads will be Dick Vitek who is working on a bachelor's degree in vocational education at Michigan State University. He worked with the freshmen squad last season and spent two years coaching at St. Joseph.

1972 ST. JOHNS REDWINGS

The St. Johns Redwings open the 1972 season at home Friday night against Mt. Pleasant, a powerful Class A squad. Team members include: (kneeling) Dave Miller, Mark Barz, Steve Flegel, John Hayes, Raymond Whitford, Bruce Cameron, Jerry Smith, Rich Riley, Jim Lynch, Gilbert Martinez, Chris Slamka; (2nd row) Gary Mankey, Cary Rappuhn, Brian Downing, Kevin Knight, Gary Thelen, Mark Crosby, Bob Hunter, Marv Pettit, Marty Brewbaker, Ray Schueller; (3rd row) Chris Halfman, Jim Hebel, Randy Devereaux, Bruce Irish, Brent Coffman, Dick Parker, David Hargeff, Wayne Flermoen, George Rosner and Mike Lynch. O-E Marauders seek 3rd conference crown

Ovid-Elsie has compiled a 16-2 mark during the past two seasons while bringing home the Mid-Michigan "B" Conference title twice.

The outlook for this fall is again excellent for the Marauders. Coach Mark O'Donnell calls his returning players "the best prospects in 20 years of coaching."

O'Donnell has the facts to back up this glowing tribute to his gridiron charges. Among the 16 returning lettermen are 13 boys who were regulars last season including 3 who were named all-league.

The 3 all-leaguers and likely all-state candidates

this fall are running back Gary Groom and defensive tackles Lyn Stewart and Rob Nethaway.

Groom is regarded as a good broken field runner and excellent pass receiver. He topped area scorers last fall and his 6-foot-1 190-pounds also makes him a rugged linebacker on defense.

Stewart and Nethaway will once again provide the pillars of strength to O'Donnell's overpowering defense. Both stand 6-foot-3 while Stewart weighs 245 and Nethaway tips the scales at 265. Nethaway is the only junior among the returning lettermen.

However, a new youngster on this year's squad earns the "big man" title. Charles Thelen carries 279 pounds on his 6-foot-3 frame and O'Donnell gives him a good shot at the starting center slot. It's his first year out for football but coaches report he's progressing rapidly.

Joining Groom in the backfield are quarterbacks Tom Kirinovic and Dan Egbert. Kirinovic was selected to the all-league second team last year and guided the offense all season. O'Donnell describes him as a fine option signal caller who can run and pass well. Egbert also gained ex-

perience at quarterback last season and is termed an excellent passer.

A new face in the O-E backfield will be Rick Staples who played regular both ways as a tackle last fall. The rugged 5-foot-11 190-pounder has been switched to fullback and is reportedly doing a bang up job.

Other starting defensive players back are: Dan Egbert, a 6-foot-2 180-pound linebacker; Randy Loynes, a 6-foot-3 200-pound middle guard regarded tops in the league but hampered by an operation last season; Richard McCreery, a 6-foot-2 170-pound deep safety with great speed; and Dave Winkler, a 6-foot 170-pound defensive end.

Other returning lettermen include: Randy Cross, a 6-foot 185-pound center; Frank Enos a 5-foot-10 170-pound guard; Doug Keck, a 6-foot 170-pound guard; Jim Kelly, a 5-foot-4 120-pound halfback; Robin Leslie, a 5-foot-9 150-pound end; Ralph Lockwood, a 5-foot-6 140-pound guard; and Dale Miller, a 5-foot-8 150-pound back.

Assisting O'Donnell with the varsity this season will be line coach Russ Pope and backfield coach Bob Foreback. Joe Thering will handle the junior varsity with the assistance of Tom Bartol. Working with the freshman is Bill Furstenu and his assistant, Tom Hughey.

Fowler seeks scoring punch

FWOLVER-Fowler Head Coach Steve Spicer rates the development of a more potent offense as his major task this season.

The Eagles have 15 lettermen returning from last

season's squad which compiled a 3-5 overall record and finished 5th in the Central Michigan Athletic Conference. Fowler opens the season Friday at home against Portland St

Patrick's.

"DEFENSE IS our strong suit," reports Spicer, "and our biggest job this year is to improve our offense. We must become more con-

sistent to be successful."

The Fowler coach calls this fall's race for the Central Michigan Athletic Conference crown a real scramble with Pottersville being a slight favorite. He

feels his Eagles have the potential to improve upon last year's finish by declining to rate them as a title contender.

A look at Fowler's returning players indicates Coach Spicer may have a darkhorse in the conference race. Among the 15 lettermen from last season, all were starters except one.

The 9 senior letter winners include: end Tony Thelen, 6-foot-1 and 175 pounds; quarterback Scott Spicer, 5-foot-8 and 160 pounds; defensive halfback Pat Thelen, 5-foot-8 and 140 pounds; guard Randy Simon, 5-foot-7 and 150 pounds; end Mel Pohl, 6-foot and 175 pounds; fullback Larry Halfman, 5-foot-10 and 185 pounds; guard Dave Osborne, 5-foot-10 and 175 pounds; tackle Neil Simon, 5-foot-10 and 160 pounds; and linebacker Rich Epkey, 5-foot-7 and 150 pounds.

JUNIORS AMONG the returning lettermen include: halfback Bob MacKinnon, 5-foot-8 and 155 pounds; defensive end Bill Feldpausch, 6-foot and 170 pounds; defensive end Frank Koenigsnecht, 5-foot-4 and 120 pounds; center Dave Halfman, 5-foot-11 and 210 pounds; tackle Glen Thelen, 6-foot-2 and 215 pounds; and Ken Halfman, 6-foot-1 and 175 pounds.

The Eagles 1972 schedule is: Sept 15 - Portland St Patrick's (H); Sept 22 - Webberville (A); Sept 29 - Olivet (H); Oct 6 - Lansingburg (A); Oct 13 - Pottersville (A); Oct 20 - DeWitt (Homecoming); Oct 27 - Pottersville (A); Nov 3 - Bellevue (Parents' Night); and Nov 10 - Springport (A).

DeWitt makes bid for 4th CMAC title

DeWITT -- The DeWitt Panthers feature a squad this fall which has the potential to repeat as champions of the Central Michigan Athletic Conference. Last season the Panthers shared the crown with Pottsville and were also title winners during the two previous years.

Head Coach Tom Isanhart reports "our problems right now are backfield depth and linebackers." He explains DeWitt lost 6 good backs through graduation and also 7 starters on defense.

A QUICK assessment of the CMAC race will develop Friday night as DeWitt hosts Pottsville in a clash among defending champions.

Heading the list of 15 returning lettermen is senior tackle Gary Bouts, an all-state and all-conference selection last fall. The 6-foot 200-pound Bouts doubles as a linebacker on defense.

Three other Panthers on the 1972 squad to earn all-conference honors last fall include: defensive back Tom Ashley, a four-year starter; offensive guard Chris McNeilly, a 6-foot and 160

pounds; and halfback Dave Shooltz, 5-foot-6 and 157 pounds.

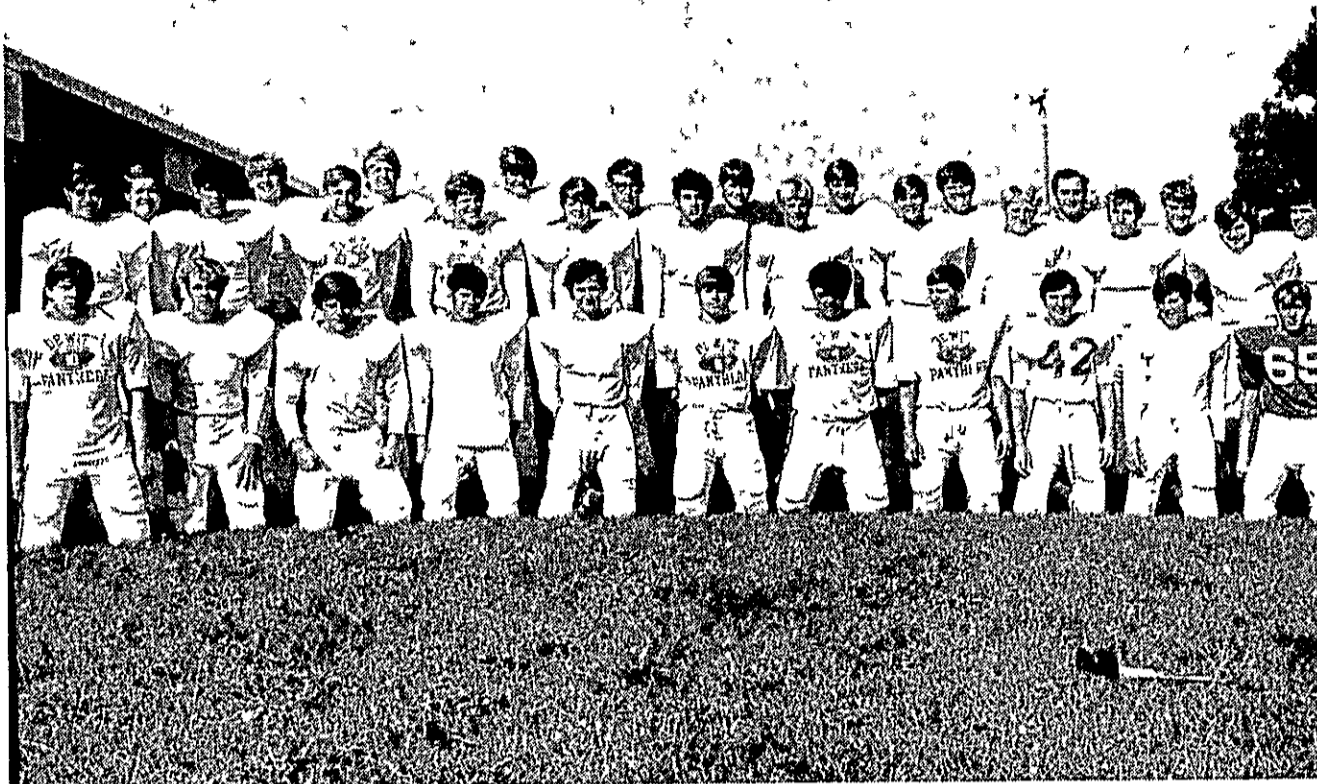

ANOTHER LETTERMEN, regarded highly by Isanhart is fullback Rich Albertson, 5-foot-10 and 204 pounds, who also runs the sprints during track season.

Other top defensive prospects among the returning lettermen are linemen Murray Brockway, Joe Cavanaugh and Jerry Marriott plus defensive back Randy Lankford.

Three juniors up from the junior varsity expected to see much action this season are quarterback Rick Moody, halfback Ron VanDeusen and lineman Mike Mull.

Assisting Isanhart with the Panthers this season will be Frank Deak.

A SCHEDULE of varsity games at DeWitt this fall includes: Sept 15 - Pottsville (H); Sept 22 - Pottsville (A); Sept 29 - Pottsville (A); Oct 6 - Bellevue (Homecoming); Oct 13 - Springport (H); Oct 20 - Webberville (H); Oct 27 - Olivet (A); and Nov 10 - Laingsburg (A).

1972 DeWitt Panthers

The DeWitt Panthers open the 1972 season at home Friday night against Pottsville. Last season the two teams were co-champs of the Central Michigan Athletic Conference. Team members include: (kneeling) Dave Pratt, Mike Mull, Jeff Pratt, Al Brown, Doug Black, Duane Shooltz, Joe Cavanaugh, Randy Lankford, Robert Rice, Mike Krohn, Tom Couling; (2nd row) Paul Simon, Bruce Brown, Steve Ruble, Tom Kirchen, Randy Berkimer, Randy Pitts, Rod Shepard, Jack Lenneman, Rich Albertson, Don Strait, Steve Dalman; (3rd row) Douglas Ely, Kent Wolfe, Rich Moody, Ron VanDeusen, Murray Brockway, Mark Colby, Tim Marriott, Jerry Marriott, Tom Ashley, Chris McNeilly and Gary Bouts.

Defense remains question for Bath Bees

BATH--Defense is the big question in Coach Ron Skorich's mind at Bath but "Fighting Bees" look strong on offense with all-league quarterback Fritz Ordiway at the helm.

Last season Bath finished third in the Ingham County League with a 6-3 overall record. Only 6 lettermen are returning this fall.

OUR OFFENSE will feature a very strong running attack and the line will

be very fast and experienced," reports Skorich. However, he adds that "because of the limited size of our squad, we face a major rebuilding job on defense." He explains "we'll be moving many of our experienced boys on defense around until we find the right combination."

Bath is a team with 3 juniors among the 6 returning letter winners. Ordiway, 6-foot-4 and 195 pounds, won all-league honors last season as a

sophomore. His coach rates him an excellent quarterback both in running and passing.

Joining Ordiway in the backfield is senior halfback Jeff Smith, 5-foot-8 and 160 pounds, who is also regarded as a fine runner.

Anchoring an experienced offensive line are 2 big junior tackles who are beginning their 3rd year on varsity: Brian Brook stands 5-foot-8 and weighs 190 pounds while Rod Adams stands an even 6-foot and weighs 190 pounds.

THE 2 SENIOR lettermen are ends Mark Reblin, 5-foot-7 and 160 pounds, and Don Henry, 6-foot and 190 pounds.

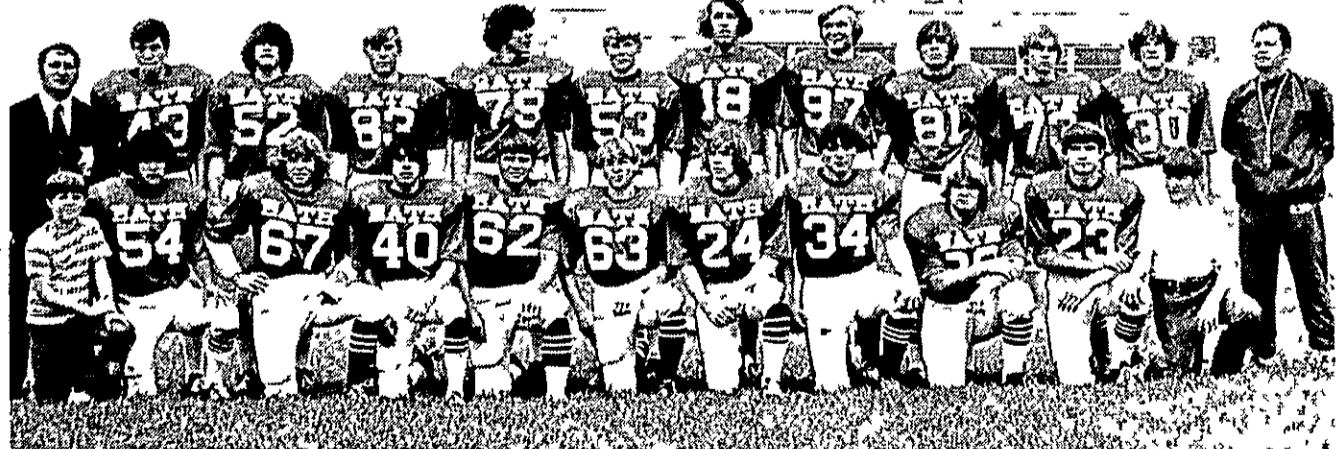

Assisting Skorich with the coaching duties is Mel Comeau.

A schedule of games includes: Sept 15 - Carson City-Crystal (A); Sept 22 - Perry (A); Sept 29 - Leslie (H); Oct 6 - Pinckney (A); Oct 13 - Dansville (H); Oct 20 - Stockbridge (H); Oct 27 - Williamston (A); Nov 3 - Fowlerville (H).

P-W rates among title contenders

PEWAMO—Coach William Parks of Pewamo-Westphalia feels his Pirates are definitely contenders for the Central Michigan

Athletic Conference crown this fall. Friday night the Pirates open the 1972 season at Laingsburg. "We'll be competitive and definitely toward the top," remarks the P-W Coach. He calls Potterville "the team to beat" while adding that "DeWitt is also tough."

Last season the Pirates finished 3rd in the league with a 5-2 mark behind Potterville and DeWitt. Marks reports "we lost a great deal of our defense but our backfield is back entirely."

Among the 10 returning letter winners are 2 Pirates who earned all-conference recognition last season. They are senior guards Tom Davarn, 6-foot-1 and 173 pounds, and Charles Bengel, 5-foot-10 and 205 pounds.

Other veterans on the squad include: quarterback/end Roy Piggott, 6-foot-1 and 165 pounds; tackle Mike Miller, 6-foot-4 and 231 pounds; quarterback Doug Walter, 5-foot-10 and 165 pounds; fullback Gerard Fedewa, 5-foot-9 and 165 pounds; guard Dan Thelen, 5-foot-9 and 157 pounds; end Gary Lenneman, 6-foot-2 and 170 pounds; halfback/end Tom Fedewa, 5-foot-11 and 170 pounds; and halfback Dan Fedewa, 5-foot-9 and 167 pounds. All the P-W lettermen are seniors.

Doug Rearick will serve as the assistant varsity coach while Harry Peacock is the junior varsity mentor.

A schedule of P-W games this fall includes: Sept 15-Laingsburg (A); Sept 22-Potterville (A); Sept 29-DeWitt (H); Oct 6-Portland St Patrick's (A); Oct 13-Belleuve (Homecoming); Oct 20-Springport (A); Oct 27-Fowler (H); Nov 3-Webberville (A); and Nov 10-Olivet (H)

FOWLER TOURNEY RUNNERUPS

The St Johns Jaycees earned runnerup spot in the Fowler Jaycees Invitational Slow-Pitch Softball Tournament. Their only defeat in 5 games was an 8-4 loss to the champs, Vince and Paul's, during a 12 inning contest. Team members include: (front) Clark Berkousen, Tom Studer, Mike Brown, Bob Andrews, Rich Snyder; (back) Clyde Wier, Larry Slade, Jim Dallman, John Haruska and Jerry Paksi. Not pictured are: Dave Needham, Barry Dean, Hub Waite, Dave Humenik, Wayne Banner, Dale Couroy, John Swanchara, John Welch and Jon Berkousen.

Leon Nurenberg wins softball MVP award

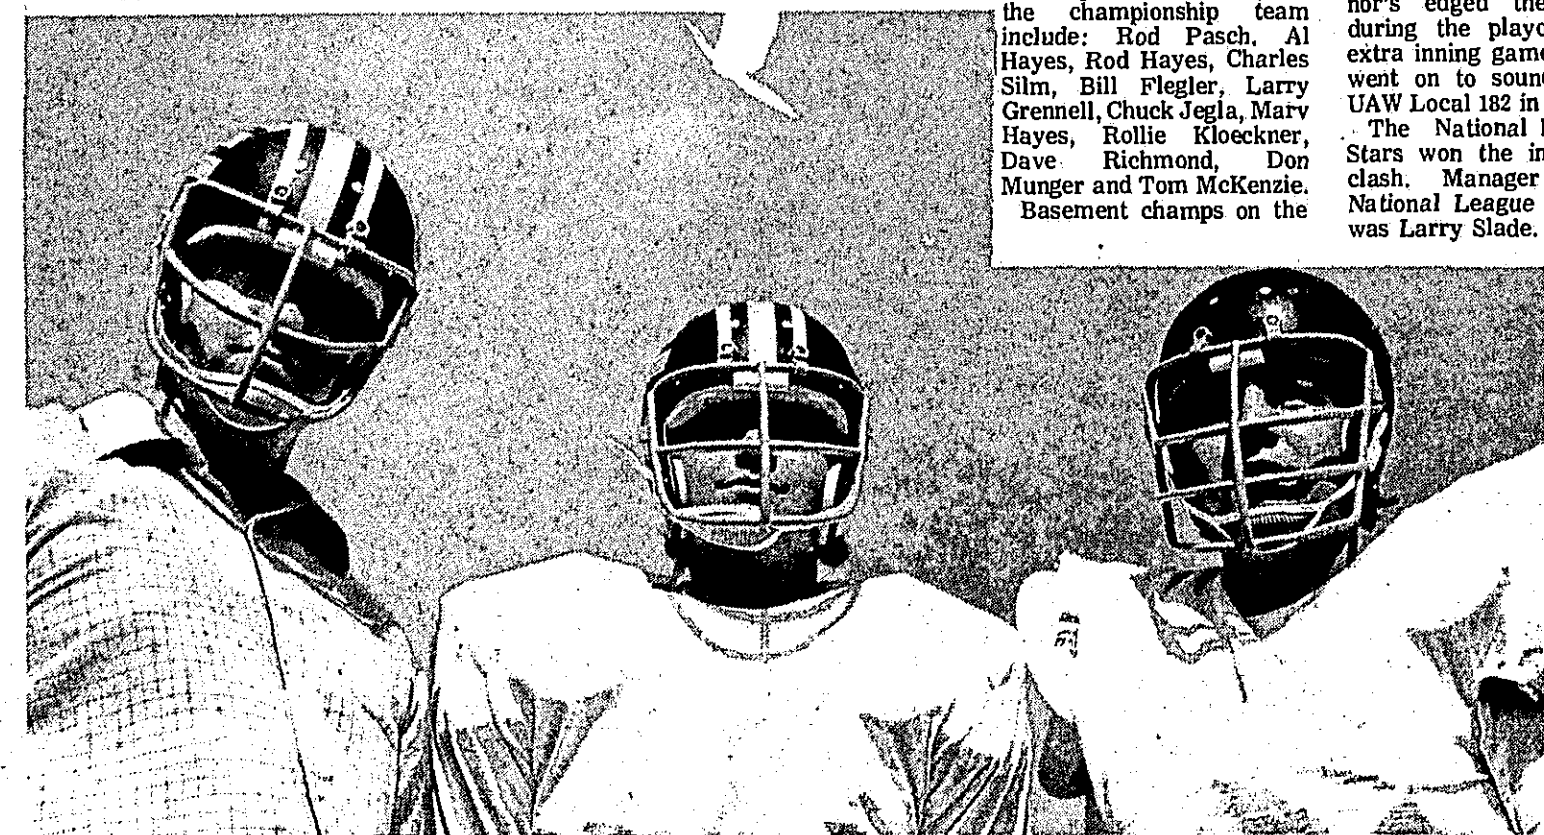

FOWLER—Officials of the Fowler Jaycees Invitational Slow-Pitch Softball Tournament announce Leon Nurenberg of Fowler has been named the event's most valuable player. He was a member of Vince and Paul's, the tournament champions. Honored as the best outfielder was Bob Andrews, a member of the second place St Johns Jaycees. The best infielder award was

presented to Duane Witter of Carson City's Lamplight Inn. St Johns Jaycees won second spot in the 24-team double elimination tourney by blasting O'Connor's Dairy 20-4 in the final game. Earlier the Jaycees dropped into the losers bracket after an 8-4 loss to Vince and Paul's in 12 innings. Vince and Paul's captured the crown with an 8-4 win over previously undefeated O'Connor's.

FOWLER TOURNEY CHAMPS

Vince and Paul's captured the Fowler Jaycees Invitational Slow-Pitch Softball Tournament crown while compiling a perfect 4-0 mark during the 2 week event. Members of the Fowler-based team include: (front) Alan Weber, Ralph Goerge, Duane Weber, Mike McKean, Gary Weber; (back) James Koentgsknecht, LeRoy Goerge, Phil Schmitt, Bill Braun, Leon Nurenberg and Ken Halfmann. Not pictured are: Harry Goerge, George Goerge, John Wieber and Jerry Fox.

Spearheading the Ovid-Elsie football squad this fall will be three players who earned first team berths on the Mid-Michigan "B" All-Conference lineup. On the left is Lynn Webster, a 6-foot-3 245-pound defensive tackle who is currently on light duty with a minor knee injury. Gary Groom (center) was top scorer in the area last fall as his 6-foot 190-pound frame ripped off long yardage against the opposition's defenders. Rob Nethaway is the youngest and largest of O-E's BIG THREE. He stands 6-foot-3 and weighs 265-pounds.

275 players enjoy St Johns softball

ST. JOHNS—Officials of the St Johns Slow-Pitch Softball League report 275 players participated in the program this season.

The championship was earned by O'Connor's Dairy. The squad is coached by Mel Sehlke and Tim O'Connor is team sponsor. Members of the championship team include: Rod Pasch, Al Hayes, Rod Hayes, Charles Silm, Bill Flegler, Larry Grennell, Chuck Jegla, Marv Hayes, Rollie Klockner, Dave Richmond, Don Munger and Tom McKenzie. Basement champs on the

merits of a winless season is Beck's Fruit Farm managed by Joe Gavenda.

Dry Dock Lounge managed by Terry Nobis won the American League while Manager Larry Slade directed the St Johns Jaycees to top spot in the National League. O'Connor's edged the Jaycees during the playoffs in an extra inning game and then went on to soundly defeat UAW Local 182 in the finals. The National League All-Stars won the inter-league clash. Manager of the National League All-Stars was Larry Slade.

ST JOHNS SOFTBALL CHAMPS

St Johns Mayor Robert Wood presents the championship trophy to members of a squad sponsored by O'Connor's Dairy. Team members include: (kneeling) Rod Pasch, Al Hayes, Tim O'Connor (sponsor), Mel Sehlke (Manager), Rod Hayes and Charles Silm; (back) Bill Flegler, Larry Grennell, Marv Hayes, Rollie Klockner, Chuck Jegla, Dave Richmond, Don Munger and Tom McKenzie.

Indian Guides seek St Johns members

ST JOHNS -- Next week has been proclaimed Indian Guides Week and St Johns will learn about this activity as new members are being sought. As part of the Mich-I-Lan Federation centered at the Lansing YMCA, four St Johns tribes will become active for the second year.

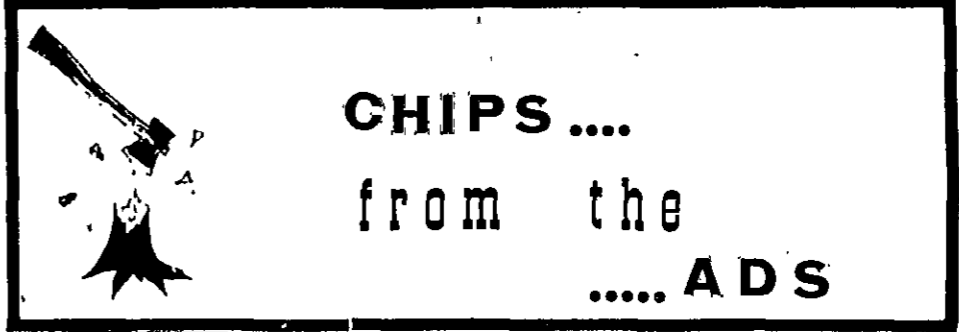

Indian Guides provides for boys from about Kindergarten to second grade levels a program to participate with their Dads in an exciting and educational "Indian Theme" organization right in their own neighborhoods. Feathers and tribal dress are worn to "Fun" meetings where songs and games, Indian crafts and other nature activities are carried out with Dads and Sons as "Big and Little Braves". Community events and special camp-outs are also enjoyed by boys and Dads alike.

THIS WILL be the week for new Braves to sign up for one of the existing tribes which are the Sioux, Chipewewa, Huron and Apache. Bob Niemi, Assistant Federation Chief, indicated that there is a good chance one or more new tribes will be started up this Fall in St Johns. For more information call Bob at 224-2879. And watch for announcements and events during Indian Guide week coming up!

One foreign visitor's warmest American memory might easily be you.

Clinton County 4-H Agent John Alysworth presents a trophy to Bob Darling (left) and Charles Bracey who jointly purchased the Grand Champion steer at this year's livestock auction. The steer was raised by Randy Davis. Darling is manager of Federal Land Bank and Bracey manages the Production Credit Association in St Johns.

Gordon S. Matter, St. Johns District construction and maintenance supervisor for General Telephone recently completed a course on data fundamentals at the company Plant Training Center in Owosso.

The objective of the course is to provide an understanding of "data sets," specialized telephone instruments for transmitting information in the form of "bits" from one business machine to another. Data sets enable one machine to "talk" to another by converting signals or pulses from business machines into tones which are suitable for transmission over telephone facilities and converting them back to "machine talk"

at the receiving end. Graduated from St. Johns High School, Matter was employed by Gen Tel in 1953 and worked as lineman, combinationman, testman and chief combinationman before promotion to his present job in 1971. During this period he was granted a leave of absence to serve two years in the US Army.

Gordon and his wife Janette live on South Williams Road with their children Eric, Kurt, Jill and Amy.

subject to Federal emissions certification.

"Any year in which the big Ford, our bread-and-butter car, and our pickup trucks are new just has to be a banner year," said Bruce Fowler, of the dealership. "Ford dealers will lead from a position of strength in '73. We have national marketplace leaders in Pinto, Torino, Thunderbird and Mustang, and will have a great opportunity to continue breaking sales records with the new hardware coming our way," Fowler said.

ST JOHNS -- A Laingsburg man has been appointed assistant manager of the Valley Farms office of Clinton National Bank and Trust Co of St Johns.

Don Beavers, a CNB&T employee since May 1971, has been named to fill the vacancy created by the resignation of Duane Miller. Vice President and personnel Director Gayle Desprez indicated the appointment is effective immediately.

New impact-absorbing bumper systems are standard on all 1973 Ford Division cars. The front bumper is designed to prevent significant damage to safety-related lighting, exhaust, cooling, fuel and latching systems in five-mile-per-hour front-end barrier collisions. The rear bumper offers protection in two-and-one-half-mile-per-hour impacts.

The Ford Division cars also have new exhaust emission control devices to improve control of oxides of nitrogen (NOx).

BEAVERS, in recent months, has been working as a loan teller in the St Johns

DON BEAVERS

office as part of a management training program. His previous assignment with CNB&T include teller work in the Laingsburg and Elsie offices. Before joining CNB&T he worked briefly with East Lansing State Bank.

Beavers is a 1968 graduate of Laingsburg High School and completed two years of liberal arts and business studies at Lansing Community College where he was president of the student government during 1969-70. In addition he has completed two study courses in banking offered through the American Institute of Banking training program.

He and his wife, Maureen reside at 6705 N Woodbury Road in Laingsburg. Beavers is the son of Mr and Mrs Edward Beavers, also of Laingsburg.

Radial-ply, steel-belted tires are standard on Thunderbird and optional on all other car lines. Forged aluminum wheels are optional on Pinto, Maverick and Mustang.

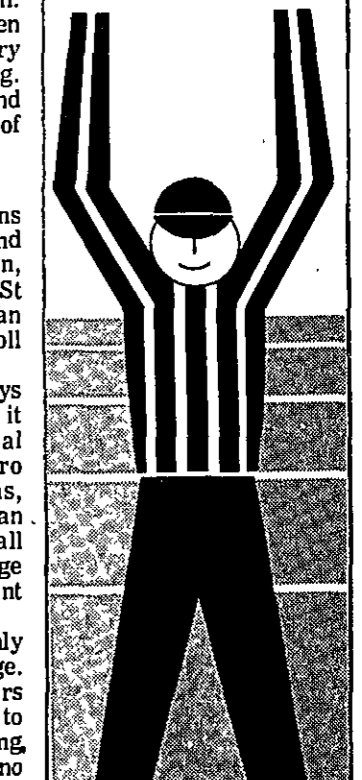

An anti-theft alarm system, is optional on the Ford and Thunderbird; a new spare tire lock is available on all models; and an inside hood-latch release is standard on Ford, Thunderbird and Torino.

One less model in the Ford car line reduces the total division car models to 39.

The Ford car features a new grille, new sheet metal below the windows on all models, and all four-door Fords have new "greenhouses" with increased headroom.

Other Ford standard equipment improvements include a new, more convenient instrument panel, a glove box three times larger than in 1972, additional sound insulation and improved window weather-stripping for an especially quiet ride, windshield washers on the wiper arms, and a spare tire extractor in station wagons. All 1973 Fords include power front disc brakes.

ST JOHNS -- Registrations for the 1972 Punt, Pass and Kick Competition, cosponsored locally by the St Johns Jaycees and Egan Ford Sales continue to roll in.

The contest is for boys ages eight through 13 and it winds up with final eliminations at the NFL Pro Bowl Game in Dallas, Texas, January 21, 1973. If you can kick, pass or punt a football and meet the age requirements, you will want to compete.

Participants compete only against boys their own age. Any boy, 8 through 13 years of age may register to compete at a participating Ford Dealer. There is no entrance fee and no body contact during competition. No special equipment is needed and participation does not impair a boy's amateur standing.

Scoring is based on accuracy and range with one point added for every foot of punting, passing and kicking distance and a point subtracted for every foot off a center line.

Boys, accompanied by a parent or guardian, may register for PP&K at Egan Ford Sales Inc, 200 W Higham, St Johns.

An all-new Ford car, significant improvements in other car lines, and new Ford pickup trucks with the most extensive changes in six years highlight Ford Division products for 1973. Cars will make their debut at Egan Ford Sales in St Johns on Friday, Sept 22, and trucks Friday, Sept 29. Availability of all vehicles is

DEAR EDITOR:

Because of the intense interest in the proposed legislation to change our present laws concerning the life of unborn children, we would like to inform the nurses in your area that there is a group of concerned nurses (R.N.'s, L.P.N.'s, S.N.'s, and Grads.) who have become associated and incorporated to assure the life and civil rights of unborn children.

We, NATAL, would like all Michigan nurses to know they are welcome to join us. We serve to educate the public through the use of medical and scientific facts about the biological, physiological, and psychological development of the unborn child, and the realities of abortion.

Nurses can now voice their concern through Nurses Associated To Assure Life, and NATAL needs all concerned nurses.

Mrs. Barbara L. Martin, R.N.

Clinton County Department of Social Services hosted an open house last Thursday at new facilities located on East State Street in St Johns. On hand to greet guests were from left, Ray C Osborn, board member; Warren Coffman, chairman of the board; Myrtle Salisbury, supervisor and Roger Shutes, director. The new facility offers the department 3600 square feet of floor space for 12 offices and 3 administrative offices.

Clinton County 4-H'ers who raised livestock for this year's auction hosted the local buyers at a steak fry last week. Shown above is St Johns attorney Tim Green and Rita Kissane receiving steaks from 4-H Adult Leader Orvest Davis. Miss Kissane's animal was purchased by Green during the sale held last month.

Westphalia Jaycees hold hunting safety clinic

WESTPHALIA—The Westphalia Jaycees will be sponsoring a Hunter Safety Clinic on September 16 at 8 a.m. This will be held at the Pewamo-Westphalia Gun Club.

Anyone between the ages of 11-16 years that has not had a previous hunting license or has not completed the course can register at either Thelen's Hardware or the Town and Country Food Store in Westphalia. Further information can be obtained by calling 587-3163.

Middlebury

Middlebury United Methodist Women are sponsoring a rummage sale in the Bates Bldg. in Ovid. Sept 12 through Sept 16. They will also have a bake sale at the same location on Saturday morning, Sept 16.

Mr and Mrs Ralph Haviland of Detroit spent the weekend with Mr and Mrs Robert Knight and daughter. They were joined there by Mr and Mrs Greg Lill and John of Wheaton, Ill and Cindy Lill of Arizona.

The Middlebury United Methodist Women met recently in the dining room of the Church with Thora Austin, Letha Furnish and Ethel Mulder as hostesses. The meeting was called to order by president, Helen Hubbard and opened with prayer. Routine reports were read and accepted. Leota Gardner, chairman announced the rummage sale would be held in the Bates Bldg. in Ovid, Sept 12 through Sept 16 with a baked goods sale to be held at the same location on Saturday am, Sept 16. She also said that workers were still needed for some of the days.

Florence Garber read a letter from the boy in Brazil whom the Society helps support, telling of his progress in school. Rita Whitmyer had a letter concerning an itinerant missionary and she will contact the District to see if we might get her to come to our church. The Craig dinner will be served at the church on Sept 8 with Rita Whitmyer, Grace Putnam, Ilien VanDyne and Loreta Warren in charge. A tentative date of Wednesday Oct 11 was set for the public supper or smorgasbord.

Meetings announced were Officers Training at Bancroft on October 10 and District meeting in Owosso on Oct 16. Officers elected for the coming year are President, Helen Hubbard; vice-president, Letha Furnish; secretary, Esther Semans; treasurer, Elizabeth Putnam; area chairmen as follows: Christian social relation, Margaret Potter; membership, Gladys Warren; missionary education, Rita Whitmyer; spiritual growth, Ilien VanDyne; local church activities, Loreta Warren; program materials, Dorothy Jordan. Madge Craig conducted a devotional period and the program was in charge of Leota Gardner who used as her topic three different interpretations of the 23rd Psalm.

The meeting was dismissed with the Mizpah benediction after which the hostesses served refreshments.

There will be a family night reception at the Middlebury Church Friday evening, Sept 15 to honor newly-weds, Mr and Mrs Harold Warren with Elizabeth Putnam, Grace Putnam, Ruby Mulder and Ethel Mulder as hostesses. Cooperative supper at 7:30 pm. Bring your own table service, sandwiches and passing dishes. Everyone is cordially invited to attend.

Mrs Kaye Potter has returned to her home following surgery performed recently at Owosso Memorial Hospital.

Open Letter
from VAN W. HOAG

Dear friends,

It deserves emphasis that the time, the place, the character of the funeral service, the merchandise used, the cemetery selected - these are decisions of the family of the deceased. The funeral director acts only as a representative of the family.

The clergyman should be consulted in matters that concern him before any decisions are made.

Respectfully,
Van W. Hoag

Intermediate district hires 3 people for new positions

ST. JOHNS - The appointment of 3 staff members to fill newly-created positions is helping the

Clinton County Intermediate School District adequately cover the district to provide needed services.

That's what Larry Schwartzkopf program director, says about the newcomers to the special education staff.

Joining the district are Janice Maier, Type C Consultant for the mentally handicapped; Mary Sloan,

school social worker, and Bonita Matthies, special education teacher of trainable students. Schwartzkopf maintains last year's staff was spread too thin. "They were not able to work with all students in the 6 districts served who needed special help in learning skills and/or adjustment skills," he relates.

THE TYPE C consultant's responsibility is working with children identified as mentally handicapped but who are integrated into the regular classroom," he explains. "She takes them out of the classroom to tutor them" Schwartzkopf adds, "and counsels teachers on how to work with a child with special work materials."

Social worker Mary Sloan is concerned with students having difficulty in personal and social adjustment in school. She works with the school staff and parents. To achieve her goal, Schwartzkopf states she can go to outside agencies and may work directly with the student.

Until the district's new special education school is opened this month, Bonita Matthies is visiting trainable students in their homes. The increased enrollment necessitated the hiring of an additional teacher in that area.

Schwartzkopf himself is new to the staff filling an existing position. Others who have joined the district for the first time are Kathy Dosh, speech therapist in the Ovid-Elsie area and Margie Harbut and Robert Woodman, special education teachers of trainable students.

Larry Schwartzkopf, new special education director for the Clinton Intermediate School District goes over fall scheduling with from left Kathy Dosh, speech therapist, Janice Maier, Type C consultant for mentally handicapped and Mary Sloan, school social worker.

Joining the Clinton County Intermediate School District staff are from left Margie Harbut, Robert Woodman and Bonita Matthies. All are special education teachers of trainable students.

Walk-A-Thon a success

Church youngsters paid \$890 for taking walk

By LEE PETERS

ST JOHNS -- Young people from the Pilgrim United Methodist Church got paid

over \$890 for taking a walk Saturday.

The 29 young people from the rural St Johns Church spent the greater part of the

day walking the roads between their two churches to earn funds for the Caravan Program in the church.

CARAVAN, A Christian program for boys and girls from first grade through eighth, is based on an Indian theme and stresses 4 areas of development in the youth - spiritual, mental, social and physical. The group meets regularly at Pilgrim United Methodist Church at the corner of Grove and Parks Roads each Sunday evening from 6 until 7:30 pm.

The Walk-A-Thon opened the year's activities and began at the West Pilgrim Church at Parks and Grove Roads and ended at the East Church. The young people accompanied by their guides traveled east on Parks road to County Farm Road south to Taft to the East Church. Here after refreshments and a check off as to miles walked so far they began a 2 mile course south to Yallup Road, west to the old railroad right-of-way and north to Taft Road and back to the church. Several of the young people walked this course 4 times which gave them a total of 3 miles walked. Totally over 300 miles were walked by the entire group.

FUNDS WERE raised by each child soliciting sponsors for his or herself at so much per mile. Rates ranged from 10¢ to \$1. One child was sponsored at \$3 per mile up to 4 miles. Competition was keen and the area around each church, around the children's homes and even parts of St Johns were canvassed by members of Caravan in search of pledges. Pledge sheets were turned into the Caravan staff at the beginning of the Walk-A-Thon and records were set up for each participant.

At approximately 2:30 pm the last participants finished their course and final figures were totaled. Over \$890 had been earned by the young people, an average of \$30 per child. Brent Sheen accumulated the highest amount with a total of \$190 earned and Rick Cortright was second with \$143. Top among the girls was Dawn Cortright with Vanessa Jaquish finishing second.

At 12 noon the entire group had a Weiner roast at the Erna Sperry farm on South US-27. Staff for the Caravan program is Rev Brian Sheen, minister; Mrs Alden Knight, director; Mrs Joyce Marten, co-ordinator; Mrs Robert

Twenty-nine young people from Pilgrim United Methodist Church earned over \$890.00 at a Walk-A-Thon Saturday. The money will be used to promote youth activities in the church.

Nancy Wells
Week

Like so many others on our list of honored citizens, Mrs Richard Wells has distinguished herself behind the scenes by working on community needs of both personal and public nature. Perhaps only her closest friends know fully her concern for the needs of others and her enthusiasm for these unheralded efforts is as great, if not greater, than that displayed on projects of community-wide awareness. We are pleased to recognize another concerned citizen; one who makes our community a more cheerful place in which to live.

Back Through

the Years

From the Clinton County News files of 1971, 1962, 1947

Tribute to 4-H'ers

It's been said many times before but it deserves repeating--Clinton County has a 4-H program equal to any in the state. This year they've had several youngsters win state honors.

Many people merit commendation for this fine work with the youth in Clinton County but nobody to whom we've talked will dispute the fact John Aylsworth is the prime mover. He spends long hours in his job as County 4-H Agent and now it's paying off in fine accomplishments by local youngsters.

An example of what 4-H can achieve in teaching youth the rewards of hard work was displayed last week at a banquet held for buyers at this year's livestock auction. Among those attending were several of the county's most prominent citizens and youngsters who will achieve similar distinction in future years.

John and all participants in Clinton County 4-H deserve a resounding tribute for a worthwhile endeavor. Molding youth into solid, responsible citizens is a work that will reap future benefits for both the 4-H'ers and those members of society who'll become associated with these young people.

Negotiable spirit

There is seldom a move labeled "progress" that doesn't adversely affect at least a few people. So it is important that individuals and communities get into a compromising mood when instances of "progress" and "expansion" are to be confronted.

We would dislike to see the proposed shopping center expansion on S.US-27 in St Johns get to a knock-down, drag-out affair. Those most directly involved are not that kind of people and certainly differences can be worked out.

Home owners near a commercially zoned area should be concerned about expansion proposals. And such items as buffers and traffic patterns should be thoroughly discussed for the ultimate benefit of the residential area.

We would hope that reasonable approaches to the problems and differences of opinion can be the result of negotiations.

Good, bad and ugly

Last week we spent every evening glued in front of the television set watching the Olympics. It was a GOOD feeling to observe young athletes put forth a supreme effort toward capturing world honor for themselves and their country.

What makes the Olympics mean so much in our mind is the dedication and years of hard work which brings these youngsters to Munich. Their reward is not the vast sums paid professional athletes nor is this a future goal toward which many Olympic participants aspire. The Olympic athlete's reward comes through the inner satisfaction of giving one's all in something he enjoys doing and does well. This is what is GOOD in life.

Another side of the Olympics in Munich reflects the BAD. This aspect came with the apparent politics and injustice in rulings by the officials. One American boxer lost a bout stopped when his opponent was declared to injured to continue. An American swimmer lost a hard-earned medal because he was taking a medicine prescribed by his doctor. Two American sprinters saw four years of hard work go down the drain when a confusion on times kept them from even competing.

All these aspects glare out as what can be BAD and overshadow the real purpose of amateur world competition.

Finally, the serene atmosphere of an event founded on goodwill and fellowship among all nations was shattered by wanton murder and terrorism. It's an UGLY thing that happened. Perhaps UGLY is a poor description but it seems close enough a label for describing action which was beyond words or belief.

It was with great pride and assurance of a more harmonious world in the future that we watched the Olympics the first week. We don't have that now.

AGE PROBLEM

WARREN E DOBSON

I've read a lot in bygone years,
And I have travelled some
I've satisfied some doubts and fears
For many moons to come;
My inventory up to date
Should be adequate--and yet,
I own a rather nasty trait
I'm too prone to forget.

If I could catalogue my mind,
And re-arrange its files
So names and faces I could find
It would be cause for smiles;
For memory courses I'm too old
I recall with regret
The things I know I must be told,
Because I still forget.

The many folks I've come to know
For whom I've great respect,
I love to meet--at times I go
My lapses to correct;
At introductions oft I fail
It gets me in a sweat
The times I mess up this detail
The names that I forget.

When judgment day is close at hand,
My time for trial has come,
Will the Judge know and understand
When I am stricken dumb?
When all my past comes in review
My final test is met
Will he remember every clue
Or manage to forget?

"If It Fitz . . . Mother has a problem

Editor, Lapeer County Press

By Jim Fitzgerald

The evening the kids found out about their mother, I tried to explain the situation to them this way:

"Everyone has some little thing they can't help worrying about. I don't mean a big thing, like the war or health or paying bills. But something little. Like I always worry on Saturday nights that I forgot and set the alarm clock by mistake and it'll wake me up on Sunday morning when the law allows me to sleep in. I keep waking up and checking, to make sure it's not set. I lose sleep Saturday nights worrying about losing sleep Sunday mornings."

"Your mother worries about someone taking her salad."

We were at the fancy Steering Wheel restaurant in Detroit. It was the first time the kids had been in a place which presented so many threats to their mother's salad. At home, all Pat has to worry about is the cats. But hovering around the Steering Wheel diners are dozens of waiters, waitresses, stewards and water boys. Not to mention a wedding party whose white clothing made my nervous wife embrace her lettuce.

At the completion of the meal, Pat went to the restroom, thus giving me a chance to explain her conduct to the children. It had been quite a dinner . . .

6 courses: appetizers, soup, salad, stuffed pancakes, the main course, sherbert and coffee. Notice that salad was number 3. The idea is to eat one course at a time, with the waiter removing the remains of the previous course before bringing the next one.

Pat's problem is that she wants to keep

her salad throughout the entire dinner and she is afraid the hired help doesn't understand this. At some point in her early childhood she was badly scarred by a grumpy waitress. Little Pat's chopped garden with French dressing disappeared half eaten, and then the prime rib never materialized. She went to bed hungry that night and had nightmares about sneaky waiters, stolen Roquefort and starving children in China. She awoke shook but determined. She vowed to never again part with her salad until after dessert.

At the Steering Wheel that night, every time a restaurant employee neared our table, Pat's arm encircled her salad and she automatically said those now familiar words: "I'd like to keep my salad, please."

Before that long meal was over, everyone in the restaurant knew Pat wanted to keep her salad. When the piano player asked for requests, Pat requested that she be allowed to keep her salad. And he sang it for her.

The doorman went into the middle of the boulevard and warned traffic to keep moving and stay away from Pat's salad.

The bartender became so concerned he tried to call a policeman to stand guard. But you can never find a policeman when you need one in Detroit.

Anyway, that's how it went. And I was glad when Pat went to the ladies room, so I could explain her phobia to the kids.

They looked at her with more understanding when she returned to the table and took her salad out of her purse and resumed eating it.

A PERSONAL LOOK AT THE NEWS

Between the lines

with Jim Edwards

This election year is a perfect time to witness the versatility of the English language.

For instance: One party's "perilous practices" are the other party's "sound, practical and far-reaching platform policies."

One candidate may be "innovative and versatile," while the other candidate is labeled "inconsistent."

"Groundless charges" by Candidate A, when worded by Candidate B suddenly turn in to "hard hitting, honest criticism of the current administration."

"I'LL STAND on my record," really means "I'd rather not answer that question."

"Aggressive, hard hitting programs," described by the opposition turn into "dangerous and careless practices."

A candidate described as "unqualified and lacking depth" is the other party's candidate praised as "his own man and the people's choice."

The "rash and irrational actions" of one describes the "aggressive and direct

measures" of the man in the other party.

"A question of priorities" statement by one could be "stalling" by another.

"INCONSISTENCY" is one man describes the other as "willing to change and responsive to the needs of the nation."

On the other hand, the "stubborn" office holder or candidate is described by his own party as "unwavering in his principles."

"I'm taking the campaign to the people," probably really means, "the party support is going to another candidate."

"Veiled in secrecy" screamed by one party describes their own "closely guarded facts, necessary to the national security."

Decisions influenced by "cronies and cohorts" by the bad guys are decisions for the good guys after "hours of consultation with top flight advisors."

"CONSORTING with the enemy" is the description used by those who describe their own action as "meaningful and valuable exchanges of ideas."

"Responding to the wishes of the people" on one hand is described on the other hand as "fanning the fuels of dissent."

ASK THE GOVERNOR

by William G. Milliken

QUESTION:

I notice that one of the methods you have chosen to stimulate our economy has been to increase our export-import trade. Isn't Michigan in a bad position for exporting, being centrally located in the US. Who can we trade with besides Canada?

ANSWER:

While Canada is our biggest trading partner, Michigan does a substantial export business with Europe and Pacific ports in Japan

and Australia. Our state currently ranks second in the nation in the export of manufactured goods, and third in the export of vegetables.

Although it may seem difficult to believe, the all-water route between Detroit and most northern European ports via the St Lawrence Seaway is shorter than the cross-Atlantic distance to the same port from New York or Baltimore. Thus, Michigan is in a strategic location for export-import trade with all parts of the world.

If Michigan citizens vote this coming Nov 7 to reduce property taxes through a proposed Constitutional prohibition against the use of such taxes for basic school operating revenue, the 1973 Legislature will be required, in the first 6 months of next year, to make some complex and momentous decisions.

The ballot proposal that resulted from a successful petition drive conducted by the Michigan Education Association, with the support of Governor Milliken, would charge the Legislature with enacting both a new program of general state taxation and a new method of distributing funds for the support of public K-12 education.

(If a companion ballot question, permitting the levy of a graduated income tax is also approved by the voters, the Legislature will have greater leeway in producing a tax program.)

It can be tentatively assumed at this time, in the absence of any realistic alternative proposals, that the Legislature will turn to the state personal income tax (whether at an increased flat rate or in a new graduated form) and to a "value-added" tax on business (whether singly or combined with a state corporate income tax increase) to replace the revenue lost to schools through property tax reduction.

It can also be tentatively assumed that the new tax program will replace lost school revenues in an equal

or only slightly greater amount.

THIS WILL MEAN that practically all funds for supporting schools will be collected at the state level -- roughly \$1.235 billion in "replacement" revenue, plus an approximately equal amount that the state would normally have budgeted for a 1973-74 State School Aid bill.

Once the state has taken care of its obligation to pay the full employer's share for school employees' retirement and social security (which will predictably run well over \$250 million for 1973-74), perhaps \$2.2 billion will be available for allocation to the individual school districts.

In meeting its Constitutional mandate to enact a new method of distributing funds "to assure equal and quality educational opportunity," the 1973 Legislature will have to make several major decisions and numerous related corollary decisions -- the essence of which could be outlined as follows:

I-A. Should funds for general education (excluding special, compensatory and vocational education, etc.) be distributed on a statewide basis of equal dollars per pupil?

I-B. Should funds for general education be distributed, instead, on a basis that strives for equity in "program" or professional - pupil ratio? If so:

1. How should intermediate districts be funded? By the existing budgetary process, except with 100% state funding in place of the present formula? Or by some other method?

2. How should vocational education be funded? By the existing "added cost" (Continued on page 3B)

An ounce of prevention

By Jose J. Llinas, MD
Director of Community
Mental Health Clinton,
Eaton and Ingham

We mentioned last week some of the objections a New York physician had lined up against legalization of marihuana. As I suspected, it did not gain much support with youth, and some of our drug abuse staff people felt discouraged about our stance.

No matter. Most of the expertise many people have about marihuana has to do with their personal use, which to me is just as ludicrous as feeling that you are an expert on cigarette effects and dangers out of the fact that you smoke two packs a day.

"BUT DOCTOR," they clamor, "how can you speak about marihuana with such authority, if you have never tried it."

Easy. I know about delirium tremens, though I have never been unfortunate enough to suffer it. And I even know a good deal about pregnancy, though the actual experience of the situation has always eluded me.

WE DON'T KNOW YET. I have to agree that youthful and, unfortunately, not so youthful users of marihuana know something about the immediate effects of the drug.

I will even go so far as to admit that further research, throughout the next few years, may indeed prove that marihuana indulgence is the safest and most harmless pleasure activity in the world.

BUT, YOU SEE, that is not the case now. And so long as there are serious doubts, why take the risk?

Another point that Dr Moser makes, and I think he is right, is that while the majority of persons who use marihuana do so only a short time, and then stop without noting any personality changes, some chronic users, however, either because of the drug itself or because of their involvement in the so called "drug scene" - or both - lose their ability to cope with reality, to endure frustrations, to concentrate or learn, to carry out realistic goals, and to communicate effectively.

MEDICAL REPORT
The National Institute of Mental Health's report on Marihuana and Health pointed out that the alkaloid's use has increased in the last few years, and it is very widespread. It is said to be as high as 90% in some groups of high school students.

There was one positive thing the report had to say about the physical effects of marihuana, and it is that it decreases pressure inside the eyes, so that it may be useful in the treatment of glaucoma.

AT THE SAME time, it is known that acute marihuana intoxication causes a defect in intellectual performance and motor skills, so that operating a motor vehicle under the influence is a serious hazard, both to the driver and to innocent others who may come his way.

While recommending reduced penalties, the report hedged on the matter of

possible legalization of the drug.

It should be pointed out that problems would not end with a substance like marihuana being legal; some difficulties may be solved, to the liking of many of our young people; but many other new dilemmas would come out, to the regret of the rest of us.

THE OUNCE OF PREVENTION

"It is increasingly apparent," Dr Bertram S. Brown, our top government psychiatrist states, "that any satisfactory answer to the question of health and marihuana must take into account such multiple factors as the context and purpose of the use, the age, sex, and physical and psychological characteristics of the user, variations in the marihuana used, dosage, frequency and method of use and other factors." This is medical double talk for "look before you leap!"

method (total cost of approved programs, minus the pupil's basic educational allowance)? By the pupil-ratio "unit" method or some equivalent system of "weighted membership?" Or in some other way?

3. How should special education for handicapped pupils be funded? Through the added-cost approach? Through a pupil-ratio unit or weighted membership system? In some other way?

4. How should compensatory education be funded? Through a continuation of the present system of providing \$200 per underachieving pupil? Through a pupil-ratio unit or weighted membership system? In some other way?

II-B. Should all or a major portion of the 4-1/2 mills allocated for intermediate districts, and for vocational, special and compensatory education be levied instead of intermediate districts? Or by both local and intermediate districts? IF SO:

1. How should the state meet its Constitutional

mandate to "equalize" such millage? If all districts are to be guaranteed the same return on comparable levies, at what level should such a guarantee be made?

2. How should the state meet its companion mandate to distribute supplementary funds for these purposes? If the equalization process addresses itself to differences in wealth among districts, should the distribution of supplemental funds address itself to differences in need?

III. How should the state meet its Constitutional mandate to "equalize" the optional 6 mills that any district would be permitted to levy through a vote of its electorate? By guaranteeing each district the same \$30 per-mill per-pupil return: a \$30,000 SEV district receives? Through some other approach? What restrictions, if any, should be placed on the use of this optional millage?

THIS OUTLINE COVERS only the basic questions that must be answered if the November 7 ballot proposal concerning property-tax reduction and school-financing is approved. Other related questions which would then beyond doubt be deliberated by the Legislature next year include the following.

What changes, if any, in existing restrictions and regulations should be made when full state funding of transportation begins? Should state assistance of any form be given to equalize debt-retirement millage, or otherwise help with the cost of school buildings? What provision should or can be made for districts that have incurred substantial deficits? Could overall economics be achieved in Michigan moved to a full-funded retirement system for school employees?

None of the issues that could confront the 1973 Legislature has an easy solution. For many of the waiting questions, tentative answers merely raise more questions. It is often said (and quite accurately) that school-financing reform is a field that has no experts, only a few specialists.

But if the citizens of Michigan mandate property-tax reduction at the polls in November, the issues must and will be resolved, and the questions answered. The first 6 months of 1973 would then see more major changes in our way of supporting public K-12 education than have been made in the last 50 years.

LETTERS TO THE EDITOR

Abortion

Letter to the Editor:

Regarding a recent article concerning abortion law change that appeared in your paper, I feel that the author neglected a few important details that should be probed into more deeply. For example, no mention was made of the fact that an innocent life is destroyed by abortion. This should be a basis for any discussion of the topic, since it is common scientific knowledge that life begins at the moment of conception.

The author mentions some key issues of this change as being "women's privacy and equal protection" while failing to say anything about the legal rights of the child. Actually a contradiction in our laws exists concerning this problem. There have been numerous instances where the law has recognized the child as a person before birth. For example, a child can sue for injuries prior to birth, in 1969 the US Court of Appeals granted a child Social Security benefits before birth, and a child can have a guardian appointed or may be an executor before birth. Furthermore, The Declaration of Independence says "... that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these rights are life..." Also, the 14th Amendment to the US Constitution states "nor shall any state deprive any person of life, liberty, or property without due process of law..." Are we to believe

that the coming November abortion referendum vote is to be considered "due process"? It seems ironic that laws demand an end to capital punishment of the guilty for being extreme or cruel punishment, but yet there are those trying to pass laws that would amount to capital punishment for the innocent!

The author mentioned supplying religious leaders "with factual information especially on the beneficial results of abortion reform in New York." I wonder how many of them would consider the several dead women and the fact that more babies have been killed by New York abortionists than Americans killed in the Vietnam War a beneficial result. The word reform means to make better, not worse!

Other facts that your readers should be aware of are the bad effects to the mother from abortion. Studies conducted in Japan where abortions have been legal for over 22 years indicate that an average of 29% of the women interviewed suffered some form of physical abnormality as a result of the operation. These include sterility, habitual spontaneous miscarriage, increase in tubal pregnancies and menstrual irregularities. These figures have also been reported in surveys in other countries.

Those that say they wouldn't have an abortion themselves, but don't feel they should impose their morality on someone else should realize that we are

imposing our morality on people every day with laws that are needed for an orderly society i.e. thou shalt not kill, thou shalt not steal, etc. It's usually a question of what morality the public is willing to accept.

I won't deny that there are many human problems that need solving, and that abortion seems to be an easy answer for some, but I can't believe that there is so little love left in our country, a land of such material plenty, that people would choose death rather than life as a solution. If any of your readers are now considering an abortion, they should know that there are other alternatives. Pregnancy and family life counseling service is available from a 24 hour telephone number 372-1561 in Lansing. This agency will give understanding, practical and moral advice and confidential referral to doctors, homes, counselors, and adoption agencies.

There is much more to be said about this issue and so I urge your readers to get fully informed. A good book for this purpose is "Handbook on Abortion" by Dr and Mrs J C Wilke. It can be found in our local library and also some of our local bookstores.

Ag in Action

Success in the effort to control inflation is basic to virtually every other problem facing our nation. Too much time and effort has been placed on trying to correct the problem through "make-do" controls rather than directly attacking the real cause.

William J. Kuhfuss, president of the American Farm Bureau Federation, said, "We have repeatedly informed the Administration that the root cause of inflation and high prices is excess government spending and that sound fiscal policies would make unnecessary the temporary and politically expedient measures now being promoted in an effort to deal with the symptoms of inflation rather than its cause."

Every American should be concerned about our country's fiscal policy. It is predicted that government spending will jump to a new peak of \$250 billion in fiscal 1973, which ends next June 30. Spending climbed to \$233 billion last year, from \$211 billion the year before. There is doubt among some fiscal observers that the budget can be held within the \$250 billion mark since the Administration estimates of spending were based on a five per cent increase in Social Security benefits. Congress passed an increase of twenty per cent in benefits.

Kuhfuss also points out, "Farmers have made an outstanding contribution toward combating inflationary pressures through their amazing increase in productivity. Labor productivity per man hour

gained 11 per cent for crops and eight per cent for animals in 1971 over 1970. This represents new gains in productivity over record increases in the past 20 years, and is several times greater than the gain in productivity in US manufacturing during the same period."

Economic Stabilization

Questions and Answers

Q. Are movie ticket prices exempt from controls? A. No. Although producers and distributors of motion pictures are exempt under the Economic Stabilization program, exhibitors or theatres not exempt under the small business exemption are subject to controls.

A. No. The failure of a tenant to give timely notice of intent to vacate in the face of an announced rent increase does not, in itself, constitute entering into a lease.

Q. Does a manufacturer take productivity gains into account only in cases where a price increase is based on increased labor costs?

A. No. Productivity gains should be taken into account in calculating all price increases, not just those based on increased labor costs.

Q. Can a manufacturing firm increase prices on the basis of anticipated cost increases?

A. No. In general, a manufacturer can raise the price of an item over the base price level only to reflect allowable cost increases incurred since the last price increase on the item or since Jan. 1, 1971, whichever was later. In addition, the firm must continue to incur those costs, reduce them to reflect productivity gains and must not increase its profit margin over that which prevailed during the base period. However, increased costs which a price category I firm expects to incur in the future may form the basis of a request to the Price Commission for a price increase if 1) the increased costs will actually be incurred within 30 days of the request, 2) both the amount of the cost increases and their direct effect on the production costs are accurately foreseeable, and 3) after the effective date, the requested price increase will only be reflected, if necessary, in an insignificant quantity of the product, whose production was not subject to increased costs.

Hunting licenses available

LANSING -- Michigan's 1972 big and small game licenses will be in the hands of 3,000 local dealers throughout the state this week, reports the Department of Natural Resources.

In winding up its last shipments of the licenses, the DNR points out that this year's hunting fees stand unchanged from last season as follows: Resident - Small Game - \$5; Deer (Firearm) - \$7.50; Deer (Archery) - \$7.50; Bear - \$5.10; Sportsman's - \$18.50; Senior Deer (Firearm) - \$1; Senior Deer (Archery) - \$1; Non-Resident - Small Game - \$25; Deer (Firearm) - \$40; Deer (Archery) - \$20; Bear - \$25.10.

The state's "all-purpose" sportsman's license for residents again carries the privileges of firearm and archery deer licenses, bear license, small game license, and trapping license (except for beaver and otter). It also covers all types of angling action for 1973.

Michigan's senior \$1 deer licenses, one for the firearm season and the other for bow and arrow hunting, cover residents who have reached the age of 65.

Printing problems have forced a delay in the DNR's distribution of 1972 big and small game hunting rules to license dealers. However, this week the DNR will mail each of those dealers an instruction sheet for their counters which will provide deer license buyers with guidelines for filling out applications for antlerless deer permits.

Hunters have until October 1 to get their permit requests in the mail to the DNR. They may pick up application forms for those requests when they buy their 1972 firearm deer licenses.

The only antlerless area that applicants will find on the Upper Peninsula's map for this season is the southern part of Menominee County (Area 12) below Highway US-2. Its antlerless quota stands conservatively at 640 animals, with 800 party permits available to groups of 4 hunters.

Some 23,000 permits are offered for the northern Lower Peninsula, where the antlerless quota has been cut in half from last season, down to less than 5,000 animals.

Some 19,000 permits are being offered for the southern Lower Peninsula in hopes of taking about 4,200 antlerless deer in that part of the state.

Overall, about 43,000 antlerless deer hunting permits are open to application through October 1, as against some 89,000 last fall. Those permits are distributed among 37 of Michigan's 98 permanent deer management areas.

The remaining 61 areas will be limited to bucks-only hunting during the 1972 firearm deer season.

QUESTION: I thought the new law on transporting oversize mobile and modular homes restricted their movement to daylight hours. We saw one on the highway long after dark last week. P.C., Grand Rapids.

ANSWER: True. But emergencies bring exceptions. So in an effort to provide essential replacement housing for people mandated by Storm Agnes damage, the State Highway Commission has temporarily relaxed the regulations to permit transporting these units 24 hours a day. Nighttime movement requires that escort vehicles precede and follow these housing units. Movement is still prohibited on weekends because of heavy traffic.

QUESTION: A state police officer stopped me the other day because the rear view mirror on my motorcycle was at such an angle that it did not provide a view of "traffic to the rear." Does our law say it has to be in a certain place, or at a certain angle? J.F., Lansing

ANSWER: Motor Vehicle Code of Michigan has a section that says required equipment must be in "proper condition and adjustment" to serve the purpose for which it was designed. Failure to comply earns a misdemeanor charge.

QUESTION: Wouldn't it be safer for bicyclists to ride facing traffic - it is very difficult for drivers to know what to expect from a cyclist who can't see that a car is coming up behind him? M.G., Haslett

ANSWER: May be, but any person riding a bicycle on a public street or highway - except on high-speed, limited-access highways - has the same rights and responsibilities as does the driver of any motor vehicle. Bicycles are prohibited on limited-access highways, such as the interstate system. Within a municipality, check your local ordinance for bike riding regulations.

QUESTION: How does one move slow-moving traffic out of the passing lane on an expressway since you aren't supposed to pass on the right? N.P., Lansing

ANSWER: Frequently, flashing headlights on and off will attract the attention of the slower driver who is then expected to move over. Drivers are permitted to pass on the right on expressways which have marked (painted) lanes.

QUESTION: After being stopped for a safety check and given 21 days to have the car fixed, and you can't have it fixed in that time, what do you do? D.W., Bath

ANSWER: If you are in a driver-check lane, and are caught with a previous defect still uncorrected, a citation will be issued. The State Police do consent to an extension period, for cause, if you contact the post and make the request.

QUESTION: When passing cars on our interstate highways, what's the "rule of thumb" for how far you're out front before you cut back in the right lane of traffic? R.B., Caro.

ANSWER: Our driver education teacher advises that both head lights of the passed vehicle should be visible in your rear view mirror before completing the passing maneuver. Of course if that car has headlights that are covered when not lighted, then you'll have to use that covering for a guide.

QUESTION: Michigan just got a new point ten law that sets the level of blood alcohol concentration at plus .10% for being considered under the influence of alcohol. So what's the reason we've got a bill proposed that would establish plus .10% blood alcohol level as conclusive evidence of guilt? P.T.L., Saginaw

ANSWER: If the legislature enacts this provision, an individual would be considered intoxicated if his blood alcohol level were found to exceed .10%. This is unlike the present situation where the individual is presumed to be intoxicated; and "further" evidence must be provided for conviction.

Two other technicalities which the national level safety professionals are suggesting are - that the evidence of the defendant's refusal to submit to the chemical test be admissible in criminal proceedings for the alcohol offense; and that a dead, unconscious, or otherwise incapable person shall be deemed not to have withdrawn his consent for a chemical test as provided in the implied consent section of our code.

Elsie
MRS. NEVA KEYS
Ph. 682-4301

The September meeting of the Elsie United Women's Society of the Elsie United Methodist Church was held Wednesday evening at the country home of Mrs Lyle Dunham.
The program was in charge of Rev David Litchfield and the youth who attended summer church camps.
Each group discussed their activities at camp including crafts, hikes, sports (volley ball, basketball, swimming, canoeing) discussion groups, vespers, chapel and communion.
Aren Whitaker, Debbie Litchfield, Kathy Williams and Karen Green attended elementary camp at Lake Michigan, Pentwater area. Rev Litchfield was assistant dean at this camp.
Julie Conklin and Cindy Hehrer attended Wesley Woods Camp and Ted Geiger and Charles Green attended Lake Louise.
Rev Litchfield said there were three ways the Women's Society could help with the camping program. These were: 1 - Urge children to attend camp; 2 - Help as counselors, etc., or help find workers to assist at camp; and 3 - Work as a society or individual to pay the church's apportionments so that money will be available to help the camping program.
During the business meeting, presided over by president, Mrs Duane Green, it was voted to send \$10 to Jo's Telephone Operation and to purchase 8 or 10 insulated coffee servers.
The following announcements were made: invitation to the 90th birthday Open House for Ralph Woodard on Sept 10 at the church; Sept 27, District Fall Rally at Clare with Dr Bethel Fleming as speaker; Oct 11, Bazaar; Oct 19, Officers' Workshop at Bannister, from 10:00 am to 2:30 pm; and World Banks will be due at the regular November 1st meeting.
During the election of officers, Mrs Duane Green was reelected as president for the new year. Others are: vice president, Mrs Donald Whitaker; secretary, Mrs Emerson Dunham; and treasurer, Mrs Harold Hehrer. The various secretaries of the departments are: Missionary Education, Mrs Alpha Grubaugh; Spiritual Growth, Mrs David Litchfield; Christian Social Relations, Mrs Howard Peltier; Campus Ministry, Mrs William Furstenau; Membership Cultivation, Mrs Andrew Cobb; Program Materials, Mrs Charles Kridner. Also, Remembrance, Mrs Lewis Walling and Mrs Verne Tweedie; local church activities, Mrs Lyle Dunham, Mrs Leonard Burdick, Mrs Howard Whitaker and Mrs Robert Justice; and nominations, Mrs Vera Hibbler, Mrs Ethel Stull and Mrs Merle Green.
The October meeting will be held at the home of Mrs Andrew Cobb on Wednesday, Oct 4 at eight o'clock in the evening.
Refreshments were served by Mrs Merle Green, Mrs Philip West and Mrs Emerson Dunham.
Mr and Mrs Sidney Keys of Elsie, Mrs Dorothy Kaspar and Mrs Margaret Edwards of St Johns and Donald Willard of Ovid spent the Labor Day weekend continuing another area in their "See Michigan First" travels.
This time they chose the "thumb" area with perfect sunny days and cool evenings. Restaurants open for service were scarce but "The Pines" east of Owosso was ready with breakfast for those who traveled by planes, automobiles, campers and motorcycles.
Driving on Interstate 75 from Flint to Detroit was a new experience to some of the party and also the huge Saanen-designed General Motors Technical Center surrounded by beautiful lawns, flowers, shrubbery and decorative high fences near Madison Heights.
Then, I-94 took them along St. Clair Shores and Selfridge Field to the Anchor Bay area where they drove from New Baltimore to Algonac. Crossing by ferry

to Harsen's Island, a quiet resort area for many years, they made stops at San Souci and the old Idlewild Hotel, where they watched the Great Lakes and foreign freighters, yachts, sailboats and Coast Guard patrol boats between US and Walpole Island, Canada.
Before leaving Algonac, they had dinner at Sid's-by-the-Sea where the guests could enjoy organ and piano music. Through the huge glass-enclosed dining rooms they viewed the other guests who arrived by motorboats and yachts of all sizes as they docked at the harbor.
After spending the night on the Black River near Port Huron, they began one of the most scenic shoreline drives in Michigan following M-25 along Lake Huron, the top of the thumb and Sebawaing on Saginaw Bay.
At Harbor Beach, the Frank Murphy Memorial Museum and Birthplace of this famous Michiganian, was of special interest to Mrs Kaspar as she had been his nurse for a long time before his death.
Huron City, a restored lumbering town with museums and historical displays, and Grindstone City with its fine harbor and marina facilities were among the points of interest as they rounded the tip of the thumb.
They arrived in Fairgrove on Labor Day where the annual Michigan Bean Festival was being held. Very much in evidence at the

close of the day were the decorated floats, crowds of people and the enormous tents with steam and smoke hovering overhead from the huge containers of free bean soup offered every year on Labor Day.
After a late dinner in Flint, the travelers completed their 500-mile trip by driving many side roads to avoid the traffic jams of the freeways in order to make a safe return home.
Dewey Saylor underwent major surgery at the Carson City Hospital Thursday.
Lyle Flegel is undergoing treatment and tests at the Carson City Hospital.
Mr and Mrs Ivan Estes of Tucson, Ariz. visited their cousins, Mr and Mrs Sidney Keys Wednesday. Mrs Estes is the former Charlotte Keys. They also called on Mr and Mrs R C Conklin and Mr and Mrs Lewis Walling of Elsie.
Nine members of the Elsie High School Class of 1952 and their wives and husbands and the class sponsor Mrs Thelma Rule and her husband Everett Rule enjoyed an evening of dining, dancing and reminiscing at "Dines" in Lansing Saturday, Sept 2 to celebrate the 20th anniversary of the class.
Out-of-state members present were Mrs Jean Fitch Ham of Millbrook, N.Y. and Mrs Vicky Santrucek Wellington and her husband Roy Wellington of Granville, Ohio. Others from this area were: Mr and Mrs Al Mitchell, Mr and Mrs Robert

Houska, Miss Erna Vincent, Mr and Mrs Jerry Horak and Mr and Mrs Don Hinkley, all of Elsie, Mr and Mrs Tony Sovis of Ovid and Mr and Mrs Lynn Peltier of Lansing.
Mrs Rule surprised the group at dinner with a beautiful cake she decorated in blue and gold, the class colors.
Letters from John Somers of Bradenton, Fla. and Mrs Marilee (Talley) Nagel of Erie, Pa. were read and many snapshots and pictures of past reunions and school activities were enjoyed especially the kindergarten group picture brought by Miss Vincent.
They have already started plans to celebrate their 25th reunion for 1977 with the hope that more class members may be able to attend.

'72 fall harvest: Clinton farmers must 'wait and see'

By LEE PETERS
News Staff Writer

ST. JOHNS — Clinton County farmers say they'll "wait and see" before any predications are made on success or failure of '72 fall crops.

With harvest time coming, they have a new friend on their side even if Mother Nature isn't. Bill Lasher, 29, has joined veteran F. Earl Haas as agricultural agent for the cooperative extension service.

LASHER'S BEEN ON the job since Aug. 15 even though the Michigan State University Board of Trustees must give approval before it's official. He is getting acquainted with Clinton area farmers and surveying the crop situation.

"Crop potential this year is much better than last year at this time," he feels, "but a predicament as to the outcome can't be made yet." A 1966 MSU graduate Lasher has learned from experience that "when it's safely in the bin that's when you can evaluate."

Before his college graduation in agricultural education, the Lapeer County native was a Peace Corps volunteer in Guatemala in Central America. Most recently, he was vocational agriculture teacher at Owosso for 5 years and 1 at Millington.

A MAJOR PROBLEM down on the farm is too much rain. It made corn and beans grow but along with them came a bumper crop of weeds. Lasher states what

fields need now is good "warm growing weather." Crops are not ripening on schedule making them immature for this time of year, he adds.

But bad weather isn't the only element farmers are up against.

Southern Corn Leaf Blight has struck at various areas

in Clinton County. Warm, wet humid weather has been an ideal growing condition for the fungus Helminthosporium maydis to thrive.

Blight can have many detrimental effects. It attacks and kills leaves with the crop maturing too early. It can enter the ear stalk and attack the cob or damage

grain at the ear tip. A serious result can be lodging because of stalk rots.

FARMERS SHOULD check their fields for southern corn leaf blight. It usually attacks the lower leaves first. Lesions range from minute specks to spots 1/2 inch wide and 1-1/2 in-

ches long. They are oblong parallel-sided and grayish-tan to tan. Occasionally they may have a dark brown to purplish margin.

"In most fields I have seen the lower two to three leaves are nearly completely blasted (entirely brown, dry and brittle with the leaf totally covered with lesions)," Lasher reports. Lesions can be found on all leaves from the root to tassel with the upper leaves having progressively fewer lesions the higher they are on the plant. Usually all leaves will show lesions with the top-most leaves having fewer in number and smaller with less damage evident.

ANOTHER AREA of concern in areas of Clinton's 60,000 acres of corn is northern corn rootworm. The rootworm adults are uniform yellow to green in color and are feeding on corn tassels. The ears will not fill adequately, explains Lasher, and next year's corn crop can be damaged.

He tells why. Lodging of corn will be caused by destruction of roots by corn rootworm larvae. Stalks tilt right from soil level and often curve up or goose-neck near their bases, reveals Lasher. Farmers should check their fields now to see if they have the adult northern corn rootworm and in what numbers, he advises. By doing so, steps can be taken to prevent damage by applying insecticide at planting time.

FIELD BEANS totaling 20,000 acres have wet problems because of recent rains. In addition to an immaturity for this time of

Bill Lasher, new extension agricultural agent in Clinton County looks over a crop of field beans. Not only are they immature for this state of the growing season, but many are being overcome by weeds and have drowned out in several areas. Lasher says heavy August rains are the cause.

year," Lasher points out, "many spots have been completely drowned out. With much more wet weather we'll be harvesting them in the mud."

The county's 25,000 acres of soybeans look good right now, says Lasher, who replaced George McQueen. With no early fall frosts, Lasher is optimistic soybeans along with corn and field beans will be harvested successfully.

Shepardsville

By LUCILLE SPENCER, Correspondent

The Ovid-Duplain Library Club held its first meeting of the new club year on Friday, Sept. 8 at the Shepardsville United Methodist Church with a potluck luncheon at 12:30 pm. Hostesses for the day were Mrs. John Bracey and her committee. There were 25 members present.

The Collect and Pledge of Allegiance were repeated in unison. The president, Mrs. Charles Palen Jr gave as the aims of the Women's Clubs of the country were three; to show reverence, accept responsibility, and to show respect for our country.

Mrs. Glen Parks, program chairman for the day, introduced Rev. Brian Sheen, pastor of the Pilgrim United Methodist Church, who gave a very interesting talk on his travels in South Africa. He was born in England, his parents moving to South Africa when he was just a small child. He was educated in the United States.

His topic was "This Africa of Ours." There are 18 million people in South

Africa. He showed several pictures of Johannesburg, which is a very modern city. The buses are electric powered, there is no activity whatever during the weekend. There are just two seasons, nine months of so-called summer and three months of cooler weather. Also included in his pictures were the Congo Caves.

Included also were pictures of the native dancers, and of the animals in their native habitat, the Kruger Nation Forest. The impala is the national animal of South Africa. A friend of Rev. Sheen's nicknamed it Chevrolet. There is no TV in South Africa but beads do tell a message. He showed a picture of a young man wearing a lot of beads around his neck and one around his head. The message conveyed was that he had been working in the mines for six months and was now looking for a wife.

He also spoke of how the missionaries are changing the lives of the people in the remote sections of South Africa.

Rev. Sheen was presented a gift from the club.

During the business meeting that followed, the president announced that the club has cards, stationery and napkins for sale. Mrs. Glen Parks gave a brief review of the program for the year, Mrs. Charles Miller and Mrs. Clarence Mead are to be on the Good Cheer Committee for the year.

The October meeting will be at the home of Mrs. Charles Walker and members were asked not to bring any dessert. All were asked to save a few pennies to pay for their dessert which will be served at the end of a short mystery trip.

North Bengal

By Mrs. William Ernst

On Sunday evening Sept. 3 Mr. and Mrs. William S. Ernst and son, Ron and Maxine Ernst were among the guests entertained at the home of Mr. and Mrs. Roy VanLiew of rural Lansing. Music formed the evening's entertainment.

Lasher points to the Northern corn rootworm adult.

The pests are feeding on the corn tassel causing the ear to fill improperly.

4-H CHATTER

By JOHN AYLSWORTH

Ninety-one 4-H members, fair livestock buyers and their spouses enjoyed a steak supper Wednesday evening at Smith Hall at the annual Fair Livestock Sale Buyers Appreciation dinner. The 4-H youth served as hosts and became better acquainted with the different fair sale purchasers.

Total dollars of the Fair Livestock Sale showed \$14,831.69 received from the sale amounted to the highest in the six years of operation. A breakdown shows 27 head of steers averaging 1056 pounds, or a total of 28,503 pounds of beef, sold for \$13,746.16. The price paid for the Champion Steer by Production Credit and Federal Land Bank was 72 cents which was a record high for our sale. The Reserve Champion Steer sold for a record high of 52 cents by the St. Johns Cooperative. Without the Champion and Reserve Champion steers the steers average 1044 pounds at 47 cents per pound.

The eight head of sheep amounted to 805 pounds for a total of \$389.00. The Champion Lamb purchased by Michigan Livestock Exchange sold for a record high of 90 cents per pound. The 8 head of market pigs weighed 1547 pounds and sold for \$696.53. The Champion Market Pig purchased by the Clinton National Bank and Trust Company brought a record high of 85 cents a pound.

Plans are being made for 1973 as the 4-H members look for purchasing of steers, sheep and market hogs for the next 4-H Fair Livestock Show and Sale. In order to stimulate more interest in market sheep and hogs by the 4-H youth the St. Johns Cooperative is offering to provide help in securing animals next spring and will finance the animal cost and feed cost till the Fair Sale in August. More details will be

discussed with leaders on this program later but any youth interested in participating in the program should contact the Extension Office so we know how many youth might be involved with this new program.

Additional results from the State 4-H Dairy Show August 22-24 at Michigan State University not listed last week include Clinton County dairy members winning second place in County Herd. The class consists of three different animals owned by three different 4-H members. In Junior Dairy Showmanship, Karen Green of Brush and Halter 4-H Club placed 2nd and Amy Striz of Scattered Southeast placed 6th. In the intermediate class of Dairy Showmanship, Jeanne Striz of Scattered Southeast placed 4th. In the Senior Division Dairy Showmanship Charles Green of Brush and Halter placed 1st and Susan Striz of Scattered Southeast placed 6th. During the mock dairy sale held on August 22 Clinton County tied for 3rd place.

A letter was received this week from Bernard Heisner, Extension Field Dairyman, congratulating the Clinton County 4-H dairy members on the fine showing Clinton County had in dairy judging teams and mock sale event.

The State 4-H Dairy Show exhibitors will be holding a get-together and steak supper on Saturday, Sept 23, 7:00 pm at Parkers Park on east Pratt Rd for exhibitors and families.

Clinton County 4-H horse club entries made an excellent showing at the State 4-H Horse Show Aug 24 at Michigan State University. There 349 entries from 63 Michigan counties participating; this year an Olympic-style award system was used with the winners receiving gold, silver and bronze medals for first, second and third place in

each class. Marilee Gorman of Glackmore Riders received a gold medal for 1st place in Western Pleasure for members 16 years old with horses 5 years or older. Marilee was Grand Champion in Western Pleasure for members 16 years and older. She also won a silver medal for second place in Fitting and Showmanship in Western for members 16 years of age.

Leslie Himes of We Hah Kay Asta received a silver medal for second place in Stock Seat Equitation for members 17 years of age and horses 5 years or older and a bronze medal for 3rd place in Western Pleasure for members 17 years of age.

Julie Chant of Spats and Spurs won a silver medal for second place in Working Hunter over fences for ponies between 52-58 inches in height.

The Teen Leaders voted to donate \$300 toward purchase of additional bleachers for the Fairgrounds area. They hope other clubs will donate additional funds for other bleacher purchases needed at the Fair. The Teen Leaders also voted to have a hayride on Saturday, Oct 14 and will hold an election of officers at that time. Place and time of the hayride will be set up later. Twenty Teen Leaders plan to attend the Michigan State-Georgia Tech. football game at East Lansing on Saturday, Sept 23. The September glass collection project completed two years of recycling with approximately 375,000 pounds of glass recycled into new products. Four Teen Leaders plan to attend the Teen Leadership Workshop at Camp Keitt on Oct 31-Nov 1.

The home economist

The youngsters are back to school and Fall activities are underway. The Cooperative Extension Service established to serve you is in gear too! We have a great program planned - and it's packed full with studies and events to help every homemaker make the best of what she has, to evaluate new ideas, products and situations, and to L E A R N. "Cheese" is the first topic when women from Clinton, Gratiot and Shiawassee counties meet at 1:00 pm in Smith Hall, St Johns on September 20. Sponsored cooperatively by the Extension Service and Herbruck's of St Johns, this is a program open to the public at no charge.

Professor Alvin Rippen from the Food Science Department, Michigan State University is the featured speaker. He plans a look-and-taste program, bringing with him some eight different kinds of cheese. Have you ever eaten Chocolate Cheese? Here is your chance. And there will be other "specialties" as well as some of the better known ones.

Mrs Bailey, representing Herbruck's will also have some "tasters" and she will discuss some of the things you should know about imported Cheese, aging processes and so on. If you are not sure of the difference between Colby and Cheddar, and how to best use them, now is the time to learn.

A variety of cheeses and cheese books will go to several especially lucky women attending the

program, while everyone will go home with a collection of recipes.

At Tea-time, you will enjoy at least six taste-treats featuring Cheese and a delicious dairy-punch. These refreshments are being furnished by Extension women from the three county area.

Don't Miss It! You'll learn and enjoy yourselves.

If you would like to know about all of the other programs we're planning for the year, call or write: Cooperative Extension Office, 1003 S Oakland St, St Johns - 224-3288.

We will put you on our mailing list. It's FREE. You'll get all the news first-hand. Be in the KNOW! - Call or Write Today.

Local girl wins at state show

EAST LANSING -- Marilee K Gorman, daughter of Mr and Mrs Daniel L Gorman, 6401 Herbison Road, DeWitt, was a dual winner at the 1972 State 4-H Horse Show, Aug 24, at Michigan State University.

Miss Gorman, a sophomore at DeWitt High School, took champion honors in Section Three - stock seat equitation and pleasure classes. She was one of some 400 riders competing in this year's state show. Each had to qualify first at the county level.

Section Three is open to stock horses shown under western equipment.

Here's a 'cool' horse barn

ST JOHNS -- Want an inexpensive horse barn, build a pole-type structure and keep it cool, dry and draft-free.

"A horse shelter does not have to be heated, says William Lasher, Extension Agricultural Agent.

The cold horse barn is the least expensive and the easiest to maintain. Because the facility is cold, the horses will develop a thick winter coat, and you won't have to worry about taking the animal in and out of cold weather.

LASHER RECOMMENDS a pole-type structure. It is inexpensive and easy to build. Set treated poles into the ground, use a minimum of framing, put up trusses to support the roof and cover with either steel or aluminum siding. Detailed plans are available through the Clinton County Cooperative Extension office.

Horse stalls should be lined with treated planks to height of about four feet. Above this, steel mesh can be used so the owner can examine his horse from outside the stall.

To assure daily exercise tie stalls can be used. If you can not exercise the animal daily, says Lasher, you should build a box stall at least 10x10 feet; 12x12 feet is even better. Foaling stalls should be 12x14 feet or larger. Ceilings should be at least eight feet high.

A heated tack room will keep the rider warm in winter. A small electric heater in an insulated tack room provides adequate heat at low cost. An electric infrared heater mounted above the work alley can provide some warmth for those working with the horses.

YOU CAN build a warm, heated structure for a horse, but these are expensive

warns Lasher. With these, you should maintain a temperature of about 50 degrees during the cold season and provide ventilation fans to remove moisture produced by the horses.

To conserve heat and eliminate condensation on walls and ceilings the entire warmed facility must be

insulated. When you start putting a dollar value on heat, ventilation and insulation, the construction costs start getting out of line.

"Remember that horses like to chew on soft wood. Either keep this wood out of reach of the horse or use treated wood that will keep them from chewing on it," adds Lasher.

Private lands open for public hunting

Over 2,000 farms in Michigan with over 100,000 acres are open for 1972 public hunting. Arthur Rowley, Chairman of the Michigan State Agricultural Stabilization and Conservation Service (ASCS) Committee, announces that, again, farm lands throughout Michigan will provide areas without charge for public hunting.

Rowley further states that the majority of these farms is in the lower one-third of the State in the best pheasant and rabbit areas. Any hunters wishing a list of these farms may contact their local county ASCS office or the Michigan State ASCS Office and obtain a list which shows the location by town, range and section. The only requirements for the hunting privilege is that each person will be provided a self-addressed post card questionnaire by the land owner so that the US Department of Agriculture may have an appraisal of the recreational value.

All hunters should contact the land owner and respect any rules and regulations he might have pertaining to his particular farm.

Lighthouses warn sailors and attract sightseers

Michigan waters and 3,000 miles of freshwater shoreline, longest in the world, are watched over by 75 lighthouses. They warn sailors of danger with their lights while attracting tourists with their beauty. Fifty lighthouses are on shore or close enough offshore to be seen by the motorist. Thirty of these are in the Lower Peninsula. Some lighthouses can be approached only by winding dirt roads and sometimes the surrounding area is restricted. Some have been decommissioned and are now owned by the state or private individuals. Some still in service can be visited. Others are not open to the public. A few are museums. But all can be viewed, at least from a distance, and photographed. Eighteen of the 29 lighthouses still manned on the entire Great Lakes are in Michigan. The rest are automated, and probably the time is not far off when all stations will be automatically controlled. Of the 280 lighthouses still manned in the US, 10 per cent are on the Great Lakes with six per cent in Michigan waters. Each lighthouse is unique, with its own signal pattern recognized instantly by

mariners. The first lighthouse in Michigan was Fort Gratiot, just north of Port Huron's Blue Water Bridge. The present tower, of brick, was built in 1861. The tower is 86 feet high and displays a flashing green light visible for 17 miles. Located about two miles off the top of the Thumb, where Lake Huron and Saginaw Bay converge, is Port Austin Reef Lighthouse which warns of a dangerous reef. It may be seen on clear days. There also is an abandoned lighthouse at the northwest corner of Big Charity Island, about 12 miles off Caseville, also visible on good days. Just north of Alpena is the Old Presque Isle Lighthouse, dating from 1838. Privately owned, it is now a museum and open to the public. A few miles north is a more recent Presque Isle Lighthouse, still in use. Built in 1871, its circular, metal staircase to the top may be climbed by visitors who obtain permission from Coast Guard personnel in the attached house. The old Mackinac Point Lighthouse, built in 1892, lost out when the Mackinac Bridge was completed. The lighthouse was decommissioned in 1957 and turned over to the state. It is now a

museum, part of the Fort Michilimackinac complex. Two miles west is the McGulpin Point Lighthouse, predecessor to the Mackinac Point Lighthouse, privately owned. On the western shoreline is the Mission Pointe Lighthouse, about 15 miles north of Traverse City. Now a public park, it is situated on the 45th parallel, equidistant between the equator and the north pole. Among Michigan's tallest lighthouses are Big and Little Sable, south of the Lake Michigan town of Pentwater. Oddly, Little Sable is the taller and also claims the distinction of being the last kerosene-powered light on the Great Lakes, being electrified in 1954. Big Sable was commissioned in 1867, seven years before its nearby companion. Point Betsie Light, north of Frankfort on M-22, was built in 1858, and shipwrecks visible in the waters nearby testify to its need. It is a favorite subject with artists and photographers. You'll need a boat to see three of Michigan's most spectacular lighthouses. They are Stannard Rock, lying 23 miles southeast of Manitow Island in Lake Superior, farther from shore than any other American

lighthouse; Spectacle Reef Lighthouse, 10 1/2 miles from Bois Blanc Island in Lake Huron, the best specimen of monolithic stone masonry in the US; and Rock of Ages Light, about three miles off the west end of Isle Royale in Lake Superior, the most powerful on the entire Great Lakes. Lighthouses in the Upper Peninsula include Mackinac Island Light; Point Iroquois Light at Bay Mills; Marquette Light; Big Bay Point Light, a short distance northwest of Marquette; Menominee Pierhead Light; and Manistique Light. The immediate Detroit area has two lighthouses, both on Belle Isle. The Belle Isle Light, at the southeastern tip of the island, was the only Belle Isle Light for navigation between 1882 and 1930 when the Livingstone Memorial Lighthouse was built on reclaimed land facing Lake St. Clair. The only marble lighthouse in the country, it also is the only one dedicated to an individual. It honors William Livingstone, for nearly a quarter of a century president of the Lake Carriers Association. This generation is turning to the higher things—the higher cost of living in particular.

Orchestra students attend Blue Lake

Rosa May Leonard and Scott Younglove were among nearly 2,000 young musicians who attended Blue Lake Fine Arts Camp this past summer. Now in its seventh year, the camp offers programs for junior and senior high school students. A full music program is offered at the camp including classroom subjects such as music appreciation and music theory. On each Sunday during the camp season, students perform in concerts and a full schedule of faculty-staff recitals are held throughout the week. In addition to their musical study, students take courses in other areas of the arts including drama, art, and dance. Both Rosa May and Scott play the violin and are members of the St Johns High School Orchestra. Rosa received a scholarship from Marshall Music Co in Lansing and Scott received a scholarship from the high school orchestra. The students attended camp for a four week period.

Pheasant brood up 20 per cent

LANSING -- Southern Michigan pheasant hunters this fall should score their highest harvest since 1966, if they can take advantage of the birds' upswing in numbers from last season. This summer's pheasant brood survey by some 600 rural mail carriers indicates that the birds' over-all population has climbed 20 per cent since last season when hunters took an estimated 423,000 ringnecks in Lower Michigan. The latest brood counts, recorded by mail carriers while they traveled some 400,000 miles along their regular delivery routes, point to improvements in pheasant numbers in all major areas of the birds' primary southern range. Final returns from the 1972 brood survey show that the birds made their biggest gains, averaging about 30 per cent higher than last year, in Branch, Van Buren, Kalamazoo, and Calhoun counties of southwestern Michigan. More good news for hunters this fall comes from mail carriers in Ottawa County, the state's top area for pheasant production, where the birds were seen coming through the summer in relatively high numbers measuring up to last year's levels. Elsewhere in western Michigan, Allegan County holds a better supply of pheasants than a year ago. In the southeastern part of the state, this fall's promising outlook reflects some solid increases among

pheasants in Hillsdale County, and another good crop of birds comparable to last year in Lenawee County. This summer's mail carrier counts are also generally encouraging for the south-central part of Michigan's farm-belt, where improved pheasant hunting prospects stand out in Ingham, Eaton, and Shiawassee counties. Southern Michigan's Thumb Area, the state's prime pheasant country in the 1940s and early '50s, showed a slight improvement from last year in brood sightings. However, its production of birds still remains well below the level of other areas which make up Michigan's major pheasant range. The bulk of the Thumb Area's pheasants are making their home in St Clair County, judging from latest brood survey returns. This fall's pheasant hunting possibilities remain relatively slim in the fringe area of the birds' range which covers Gladwin, Isabella, Mecosta, Midland, and Newago counties.

Under the plan the residency test is met if the parent or legal guardian of a minor student or a student who has reached his majority has been employed as a migrant worker in Michigan for a minimum of two months each year for three of the past five years. Residency is also established if they have worked for three months each year of any two of the past five years prior to the date of proposed enrollment.

New special provisions for migrants

EAST LANSING -- Sons and daughters of migrant workers are now eligible to acquire Michigan residency for enrollment purposes at Michigan State University thus reducing tuition costs this fall.

SINK SMALL saucers or tinfoil pans about 3 to 4 inches in diameter into the ground so that the pan edge is even with the soil surface. Half-fill each container with beer, and let stand. In a short while, slugs will be attracted by the sugar content of the beer, then killed by its alcohol. For best results, place the pans in the evening. One four-inch pie tin will draw slugs from about five square feet of garden area, the agent says. The pest, which eats holes in plant leaves and fruit, can be detected by its trail, a shiny film from a slime it secretes as it moves. Slugs live best in moisture. To control them, water well once a week, then allow the soil to dry to about 1/4 inch deep. If drying the soil doesn't prevent slug damage, use the beer treatment.
