Duguay disclaims involvement in firm's 'fold-up'

Clinton County Prosecuting Atty. Roland J. Duguay disclaims any responsibility or involvement in the "folding up" of the Rapid Reading Co., Inc., brought to public attention along with Duguay in last Friday's "Action Line" column in the Detroit Free Press.

"I have never received one cent of attorney fees, salary or pay of any kind for anything I did for Rapid Reading, Inc., which was limited to giving them advice for the first seven months of its operation," Duguay said in a letter to members of the Clinton-Gratiot Bar Assn., Clinton County Board of Supervisors, and area law enforcement officers.

"Thereafter, I had no power, authority, control or any means to do anything over the remaining officers and directors." Duguay said he hoped his letter would clear up the situation, but if it didn't he would resign. "It is not my wish to quit," he said, "but the office is that of chief law enforcement officer for the county. As such, it should

never be held by anyone if there is the slightest question of integrity. . . .

"IF THIS MATTER becomes cleared, I hope to continue, at least to the end of the year when my term ends automatically. If, however, this matter is not cleared, and if any question of integrity exists, then I should not remain as your prosecuting attorney, and my resignation will then be made available upon request of Judge (Leo) Corkin or the county board of supervisors."

Rapid Reading, Inc., apparently folded about a year ago, and a Troy resident wrote "Action Line" that he had paid \$189 for a 24-week speed reading course. Two thirds of the way through the course, he said, the company folded and just disappeared. "I sure haven't tripled my reading speed like the company promised," R.M. of Troy wrote Action Line. "I think I deserve a refund."

Action Line reported the consumer protection division of the

attorney general's office was looking into the complaint and others, about the company. Official documents, they report, listed Duguay as the president, founder and registered agent of Rapid Reading. They said postal mail inspectors want to talk to him about the company.

Duguay said he did help organize Rapid Reading, Inc., "for purposes of incorporation," but that he resigned about a year ago.

"I was made officer and director on a temporary basis primarily for purposes of having the legally required number for incorporation," he said. "My law office was used as resident office only because they then had no determined location in the Detroit area where it would limit its operation."

"I did have enough faith in that business so that I invested a share, and I became a 20 per cent stockholder. The legal fees for incorporation were to come from operations after the business had a chance to get a start."

"After seven months of that operation, and while the company had all of its bills paid currently and appeared to have bright hope for the future, I then resigned as an officer, director and as their resident agent. This was an amicable break that I had made because I was going to move to St. Johns to take over the prosecutor's office."

"I could neither give them any further time nor would my law office be further available to be used as its resident office. My resignation was in June of 1967. . . .

"Thereafter, I had no power, authority, control or any means to do anything over the remaining officers and directors. I did urge them several times to elect new officers and this was even accomplished once, but they apparently never followed up to legally file this with State of Michigan records."

"Even though the management ability of some of the remaining officers and directors could be questioned today based on second questioning, there was never a question of their honesty, sincerity or desire to have the business flourish or to continue. Nor did I ever have any reason to question any business practices conducted by the company. All of that company's problems stemmed strictly from lack of money or working capital."

4 in area earn all-A's at MSU

Four Clinton County students are on the list of all-A students reported at Michigan State University for the summer term.

They are Earl D. Bice of Bath, a student in industrial administration; Sharon L. Boros of Bath in nursing; William F. Houska of Elsie in anthropology; and Kathy L. Bashore of St. Johns in home economics.

The students will be guests of honor at a dinner in late October, hosted by MSU President John Hannah, and their names will also be placed on an honor roll.

Houghton Funeral Home affiliates with Osgood's

OVID — David L. Houghton Wednesday announced the association of his Ovid funeral service business with the Osgood Funeral Homes, Inc., of St. Johns.

Houghton said he plans to be active in his new capacity as a member of the board of directors of the combined firms and as a funeral director in his Ovid business. He emphasized that "there will be no change in the quality of service offered to the Clinton-Shiawassee county line area."

Robert Sirls of the Osgood Funeral Homes, Inc., praised the past record of the Houghton Funeral Home and said he is looking forward to the association and the opportunity to continue the service to the Ovid area.

In the merger, John Workman, a long-time Houghton employee, has been appointed as resident licensee manager of the Ovid funeral home, and the Workmans will continue to make their home in the funeral home apartment, according to Houghton.

"This seems the ideal way to better conserve my health and to bring to my funeral home the type of people and management who would serve our families as we have over the past 32 years," Houghton said.

"We are sure we have concluded an arrangement which will be mutually beneficial to the Ovid community and our new associates."

"THE NEW AFFILIATION will allow the people of our trade area to call upon a group of seven directors with a total of more than 150 years of licensed experience, a larger, more complete set of motor equipment, and four fine funeral home facilities that span the width of Clinton County."

"This decision on my part," Houghton continued, "will give us the size to serve you as well, and we will be small enough to continue the personal, individual service that has been our best public relations over the years."

"In this day of larger and larger business in all fields, we have by this affiliation assured our people of a funeral service business in Ovid serving all the east Clinton and west Shiawassee counties area."

24th traffic fatality recorded

Clinton County's 24th automobile traffic fatality of the year was recorded last Wednesday evening when Daniel Charles Sillman, 21, of St. Johns, was killed in a one-car accident on M-21 west of St. Johns.

Paul D. Jopke, 18, also of St. Johns, was injured and was admitted to Clinton Memorial Hospital.

Clinton County sheriff's officers still have the accident under investigation. It has not been determined who was driving, although the car is registered to Paul Jopke Sr. of St. Johns.

The eastbound automobile went 400 feet off the north side of the highway and rolled at least three times before coming to a halt on its side in a driveway. Mr Sillman was thrown out of the car. He was dead on arrival at Clinton Memorial Hospital.

The accident happened about 8 p.m. just east of Lowell Road. Obituary information in detail appears on Page 7-A. Mr Sillman was a U.S. Army veteran and had served in Germany.

How does it feel?

Shot down over Viet Nam

By MRS SHIRLEY KARBER News Staff Writer

How does it feel to be shot down in a helicopter over Viet Nam? "There are too many things on your mind to be frightened," reports Terry Estes, son of Mr and Mrs Herbert D. Estes of St. Johns. "Your nerves and actions are there and alert, but your mind and heart are back home with your family."

Estes was stationed with an assault helicopter company in an airborne unit with a four-man crew in Viet Nam. Their main function was to insert infantrymen into Viet Cong positions.

On Estes' last mission Sept. 7 at 12:45 p.m. the 'copter was assigned to lay down a smoke screen as protection for troops.

"We had completed four runs over the nepa palm (trees and ground cover) and were on the fifth and last pass. You could hear bullets hitting the plane on every pass, ping, ping, ping, but on the last pass we were hit with 50 caliber fire, and the aircraft caught fire. We were at an altitude of about 60 feet and tried to land the ship, but it crashed on its left side and burst into flame."

"MY CLOTHING and shoes were soaked in fuel. With help from the other crew members, we all four escaped through the plane's sky window."

"We got 30 yards away when the whole thing exploded and there was a complete loss of the aircraft."

So in a matter of two months and three days Terry had been shot down for the fifth time. This time he wasn't so lucky, he received a broken arm, lacerations, and shrapnel in the right knee.

Estes is home now to recuperate in a body cast to the waist,

and his right arm also is in a cast.

When asked why they hadn't given up the mission sooner with all the hits they had suffered to the aircraft, Estes replied "You just don't give up when those guys down below need help."

Because of the seriousness of his wounds, Estes was returned to the United States and Walter Reed Army Hospital in Washington. His parents visited him a week ago last weekend, and he was then allowed to return home with them. He is presently recovering in St. Johns.

Terry Estes recuperates at home of parents in St. Johns.

Youth in music theme for Morning Musicals

The St. Johns Morning Musical opened the club year last Thursday, Sept. 26, with a coffee hour at the home of Mrs Robert Dittmer.

The new president is Mrs Eldon LeBlond. Mrs Winchell Brown explained the program theme for the year, "The ABC's of Music."

The program will consist of the explanation and musical illustrations of a variety of musical terms as they would occur in the alphabet.

The program of the day dealt with youth in music, emphasizing young musicians of grade school and junior high.

The saxophonist was Alex MacKinnon, who played Harry Mancini's "Rollin River," and John Eldridge finished with a rendition of Dancla's "5th Air Valse."

The next meeting will be at the home of Mrs Duane Davis Oct. 10.

String orchestra teacher hired

The St. Johns School District has hired a new string orchestra teacher, ending debate and discussion about whether the seven-year school program would be dropped this year.

Margaret Hawn, a graduate of the University of New Mexico in strings, was hired last Friday. She is near completion of a master's degree in music theory from the University of Indiana.

Talk of dropping the string orchestra program has been widespread since a teacher hired for the job at the beginning of the year resigned after three days because of family illness.

Because it has been difficult to hire and hold good string teachers, the school board considered dropping the course, which involved some 40 students in the upper seven grades at the start of this year.

There's a great difference between growing old and LIVING to an advanced age.

HIRING A FULL staff of teachers has been somewhat a problem for the St. Johns district this year. The district still needs a speech correctionist and a girl's physical education teacher, although they do have a substitute handling the latter job on a temporary basis.

The board may take some action next month to set up a citizens committee to study curriculum. About 30 persons would be named to the committee.

The board discussed the possibility of 25-mile-per-hour speed limit signs in the vicinity of the Eureka School instead of the present 40-mph signs.

24th FATALITY RECORDED IN THIS CRASH

This is the smashed convertible in which Daniel C. Sillman, 21, of St. Johns was killed last Wednesday night in a one-car accident on M-21 west of St. Johns. The car rolled over several times and came to rest in this position.

Hunt attacker of girl in Lansing, Bath area

County, township and DeWitt city law enforcement agencies joined state police last Thursday evening in a Bath Township manhunt for a man who kidnapped a 19-year-old Lansing woman, beat and robbed her and attempted to rape her.

The all-night search failed to turn up the assailant. Prosecutor Roland Duguay said his office would charge the man, when he is found, with armed robbery and attempted rape, while Lansing Police would probably charge kidnapping and assault.

The crime first took place in Lansing. Mary Hulbert, 19, of Lansing got into her parked and locked car near Eastern High School after attending night classes and was struck on the head by a weapon she thought was a gun. The attack took place in the car.

The man demanded money of her, but when she said she didn't have any she was struck three more times. The assailant then climbed into the front seat and drove her car to Drumheller Road a quarter-mile from Park Lake Road in Bath Township where the car became stuck.

He reportedly attempted to attack the girl there but was repelled. While he was out of the car, Bath Police Chief Gaylord David pulled up to check out the car and found the victim. She was taken to Sparrow Hospital where more than 20 stitches were needed to close scalp wounds.

Lansing detectives and state police are investigating. State troopers, Bath and DeWitt Township police, DeWitt city police and Clinton County sheriff's officers were in on the man-hunt.

Transfer to St. Johns appealed

The Fowler School Board is appealing the transfer of property owned by Stephen Simmon on Kinley Road in Bengal Township from the Fowler to the St. Johns School District.

The Fowler Board is seeking to reverse the decision of the Clinton County Intermediate School District, but the St. Johns school board has decided to fight Fowler's appeal.

They noted the St. Johns school bus already passed by the corner of Simmons' farm. They said last Wednesday they didn't want to "steal" property from another district, but as long as Simmons had requested the transfer they were going to back him up.

Two other recent transfers of property to the St. Johns district from Fowler met no opposition. That was property on Tait Road owned by Lawrence Sturgis and property on Francis Road owned by Paul Pung.

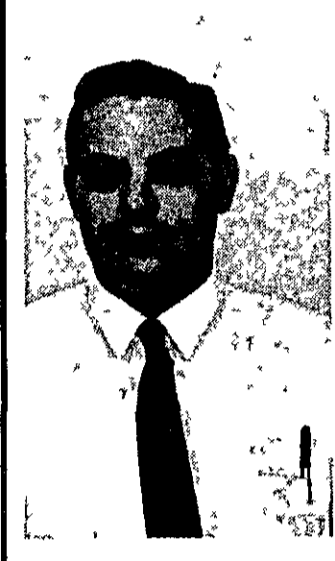

Suellen Baker, daughter of Mr and Mrs Owen Baker of R-2, DeWitt, completed studies for a master's degree at the University of Washington this summer and is now teaching English at Shorecrest High School in Seattle, Wash. . . .

North Bengal By Mrs Wm. Ernst

On Sunday they were all guests of Mrs Watamaker's son, Mr and Mrs Clark Jeffers and family of Milford where they celebrated all the birthdays of the family that were in September.

Mr and Mrs Marvin Everts and Mr and Mrs William Ernst and Maxine were Sunday visitors of Mr and Mrs Fred W. Pasch and Mr and Mrs J.D. Bancroft.

Red heart sale this week

The Hospital Auxiliary will have a "Red Heart" sale this Thursday and Friday, Oct. 3 and 4. Canisters have been placed in the stores and in the local factories.

The auxiliary would like to finish paying for two heart monitors they placed in the hospital. They still owe about \$1,000. These units are both in operation and the hospital would like to have a third unit someday.

The white canisters have also been placed in Fowler, and cards can be purchased as memorials at the funeral homes or by calling Mrs Robert Conn.

Plan fire prevention clean-up

The St. Johns Independent Insurance Agents Assn. will pay the removal costs if city residents will only do the cleaning out of their homes for Fire Prevention Week next week.

The association, made up of the McKenzie Agency, Allaby Insurance and the Warren Agency, is working in cooperation with the City of St. Johns to pick up trash and rubbish removed from basements, attics, garages and other places around the home.

"All residents are asked for their cooperation in this project to prevent fires," the association said this week.

All fire hazard materials should be cleaned up and placed at the curb by Oct. 9 for special pick-up by city crews. Fire Prevention and Clean-Up Week in St. Johns is Oct. 6-12.

P-W studies building needs

PEWAMO-WESTPHALIA—The Pewamo-Westphalia Board of Education met with the former building and steering committees last week to discuss future plans for expanding the school plant.

It was almost two years ago when the P-W Board of Education asked for the assistance of approximately 50 people including interested citizens and teachers of the district to make a comprehensive study of the school program and building needs.

Committees were formed and their studies were finalized with reports and recommendations presented to the board in May of last year.

With the defeat of two operating millage issues in June and August last year, the building recommendations were tabled until operating millage was provided for.

As the school district is still plagued with the problems of increased enrollments and the resulting need for additional space, the board is again turning to the citizens committee for advice.

After hearing the reports and numerous suggestions by the committee members, it was suggested that the faculty would work with the respective members of the former study committee to review and update the former recommendations.

Another meeting is set for Monday evening, Oct. 7.

Allen to hike length of district

Richard Allen, Republican candidate for state representative, will attempt to walk from one end of the 88th District to the other this weekend.

Allen, son of the incumbent representative, said he intends to start in Coleman near the northern end of the district at noon on Friday. He hopes to arrive in Grand Ledge near the southern end of the 88th by noon Monday.

Allen's plans are to walk down Coleman Road in Midland County, along Alger Road in Gratiot, Wright Road in Clinton and M-100 in Eaton County.

This would fulfill a promise made before the primary to walk from one end of the district to the other on a three-day weekend. The total distance is about 100 miles.

The pledge was made in the Grand Ledge and northern Midland County areas where many feel that the unusual length of the district robs them of fair representation.

"ALTHOUGH I'VE had some second thoughts about it since," Allen said, "I said if I won the primary I would make this hike for the following reasons, partly silly, partly serious:

"1) To celebrate; 2) to demonstrate the energy and determination with which I intend to fulfill this position; 3) to meet people; 4) to emphasize that the 100 miles from one end of the district to the other makes it one of the longest, most unfairly shaped districts in the state."

FARMER'S CO-OP ELEVATOR FOWLER

Putting-you-firsts:

(A quick tour of some of the thoughtful new features the 1969 Chevrolets offer that other cars in Chevrolet's field don't.)

Headlight washers

You push the windshield washer knob and hold it, and your headlights come clean.

Fluid is diverted to two jet nozzles at each light lens. (Outer lights only on duals.)

The spray removes up to 80% of accumulated dirt.

The feature is standard on 1969 Corvettes. It comes with the hidden headlights available on Camaro, Caprice and Kingswood Estate Wagons. It is available on all other models except Corvair.

Heated glass

In a moment your rear window will self-defrost.

Because we've built onto it a network of tiny ceramic strips capable of heating the entire surface.

Fog and frost disappear quickly and quietly. You just flick a switch.

The heated rear window is available on the 1969 Caprice Coupe and Impala Custom Coupe.

Pushbutton tire chains

You press a button on the instrument panel and the rear tires get a shot of "liquid tire chain."

You spin your wheels once, wait a moment, and you're off—with traction you wouldn't believe possible on slick ice, or packed snow.

Available on all 1969 big Chevrolets.

Steering wheel lock

When you own a car as desirable as the 1969 Chevrolet, you don't take chances.

When you leave it, you lock it. Not just the doors. You lock the ignition, steering wheel and transmission lever, too.

Our new lock on the steering column takes care of all that.

Standard on all 1969 Chevrolets, Chevelles, Chevy Novas, Camaros and Corvettes.

Power steering plus

The 1969 Caprice, Impala and Camaro are available with a new type of power steering.

Variable-ratio power steering.

What it does is give you faster steering with fewer turns of the wheel.

Variable-ratio power steering is particularly helpful in short, full turns.

And parking becomes unbelievably easy. You'll see.

Walk-in wagons

The tailgate swings open like a door on most of our 1969 station wagons.

Which in itself is no big deal. But wait, there's more.

We've built a concealed step into the rear bumper.

You simply step up, over, and in.

(The way we build our wagons, you can do it without bumping your head, and without acrobatics.)

Walk into a wagon soon at your Chevrolet dealer's.

Marilyn Fabus, Louis Kucher wed Sept. 14

St. Cyril's Catholic Church in Bannister was the scene Sept. 14 at 5 p.m. when Miss Marilyn Fabus, daughter of Mr and Mrs Andrew Fabus, became the bride of Louis Kucher, son of Mr and Mrs Paul Kuchar, in a double ring ceremony performed by Rev Edward Koneczka.

The bride was given in marriage by her father, and they walked to an altar decorated with bouquets of white mums and pompons. Music was played by Mrs Earl Slagh, who accompanied Joe Beno.

The bride's gown was an empire A-line of organza with detachable wattleau train of exquisite peau d'ange lace and pearl, and lace graced the bodice, sleeves and train.

Oil and gas lease rights to 583,300 acres of land in 24 northern Lower Peninsula counties went on the auction block in Lansing this month. They went to bidders for a record \$1,120,000. Previous high was \$310,812 in 1962. Enthusiasm in the sale was touched off by a recent wildcat strike in Presque Isle County... Revenue from the sale goes into the state's general fund except for money from lands purchased through the game and fish protection fund (hunting and fishing license fees). This money goes back to the game and fish fund. What bidders were buying, actually, was the eligibility to develop holdings on the lands. The state retains mineral rights and producers will be required to pay rentals and royalties.

Star Mothers discuss plans for Christmas trees

The Blue Star Mothers met Tuesday, Sept. 24, and discussed needs of the veterans' hospitals were discussed. Ten members had attended a district meeting in Greenville that day, where the hospital chairman reported that women are being accepted in Battle Creek now.

More yarn is needed for the mittens that are made every year for Christmas. Plans are also being formulated for the boys in service.

Pauline Powers told of sending her boy in Viet Nam a small Christmas tree (the folding kind) last year, and it was the only one received in his company. All the boys enjoyed it. So she was asked to be chairman of this project, which will include the trimmings, goodies, etc.

These will be sent to our boys in Viet Nam, or to those serving on ships. The mothers wish it were possible to send one to every boy from this area, and hope there will be some way possible for them to do this.

The next meeting will be Oct. 8 in the American Legion Hall.

2nd school aid payments sent

State Rep. Lester Allen (R-Ithaca), last week announced the amounts of the second of six yearly state school aid payments for schools in the 88th district.

Under the newly revised school aid formula passed by the Legislature this year, aid payments were increased across the board. To bring more equity into the aid formula, districts with lower valuation were given larger increases.

Here is a list of payments made Oct. 1 to schools in the 88th district:

Fowler public schools, \$23,620; Pewamo-Westphalia, \$31,020; Grand Ledge \$287,460; Ashley \$34,920; Fulton Schools \$68,330; Riverdale Elementary \$29,540; Summer Elementary \$7,160; Arcada (6) \$1,020; Shepard \$104,610; Ovid-Elsie \$131,480; St. Johns \$178,360; Alma Public Schools \$148,290; Breckenridge \$83,540; Ithaca Public Schools \$103,380; St. Louis \$113,070; Arcada Twp. Dist. Sch. \$3,290; Seville Township School \$2,590; and Coleman \$1,120.

The amounts to be sent in the next two payments will depend upon present enrollment which will be reported by the districts to the state on the fourth Friday following Labor Day, which was Sept. 27. The other factor which will determine the coming payments will be the new state equalized valuation based on data from the district.

Rep. Allen said state officials have indicated they hope to make the next school aid payment by Dec. 1.

David Mack of Ovid rides Ibn Tobruk

Ovid youths have good season

OVID—Two Ovid youngsters have concluded a successful season showing horses in local, state and national competition.

Bill Mack of the Golden Stallion Farms at Ovid, showing Little Lady, a purebred Arabian mare, won firsts at shows in Ovid, Owosso, Dearborn, and at the New York All-Arabian show at Syracuse.

Highlight of the season was the Syracuse show where he won firsts in Arabian maiden mares and western pleasure mares and geldings. Top horses from the entire United States were shown at this show.

He also won firsts at the Clinton County 4-H Fair in western

pleasure, western horsemanship and the championship at western horsemanship. Following this at the State 4-H Show, he won firsts at Arabian mares, western horsemanship 14 and under, and top 10 in fitting and showmanship and top 10 in western pleasure. He also won the reserve championship in the championship class western horsemanship.

DAVID MACK, showing Ibn Tobruk, purebred Arabian stallion, had wins at Ovid and at the Michigan All-Arabian Show. Highlights of his season were the Michigan all-Arab win and seconds at the Buckeye Sweepstakes at Columbus, Ohio, where he placed over Pett Jean, 1966 national champion, and a second at Syracuse where he placed over Alharin, 1967 reserve national champion.

The boys had many other placings, generally riding against adults in open age classes. Bill has garnered 57 ribbons and

David has 39 to his credit. Most of the placings were in stiff national competition at Class A shows.

Mr and Mrs Archie Hutchison of Ridge Road spent the past weekend at Columbus, Ohio visiting her brother and family, Mr and Mrs Frank Levandowski.

Mrs Charles Bradshaw was a Sunday dinner guest of her son and wife, Mr and Mrs Keith Slipper of Ashley. In the afternoon they went to the Veterans' Hospital at Saginaw to visit Charles Bradshaw who has been confined there for nearly two weeks. They performed surgery on Monday and again the following Friday on his hand. His address is 3rd Floor B. Veterans' Hospital Saginaw. He would appreciate hearing from his friends.

We're one-fifth Rambler, and all the rest is new.

There was a time when all we made were Ramblers. And, those Ramblers made our image. With the predictable result that we got a reputation for building dependable, little cars that were high on economy and low on sex appeal.

We still make the Rambler. It's a smarter buy than it ever was. But it's no Javelin. When American Motors can build a hot, sporty car that out-sports the other sporty cars, that's news.

So far, more than 45,000 sporty-car drivers have decided that the Javelin is a better car for the money.

The Ambassador SST 4-door sedan is our luxury car. It comes with standard air-conditioning, standard V-8, standard auto-

matic transmission, optional velour seats, a long, long wheelbase, for an elegant limousine ride, and an astonishingly low price for the package.

We also make the Rebel. The Rebel is the family car that dared to cross the treacherous Baja peninsula. Most of the specially equipped cars that start this trip never finish. The Rebel did.

But, if anything changes our image, it will be the AMX, our two-seater sports car. The AMX, specially equipped and modified, has set 106 American, national and international speed records.

At this point, it looks like our image will never survive.

Redwings sharp at Waverly, home for Hastings this Friday

The St. Johns Redwings were impressive Friday night in rolling to a solid 41-16 victory over Waverly to set the stage for this week's showdown battle with Hastings, co-leader in the Central.

The Redwings' victory was their second straight in three starts and their second against no losses in the West Central Conference.

Hastings, who comes to St. Johns this Friday night, dumped previously unbeaten Alma 25-6 last week and is tied with St. Johns for the league lead.

Redwing fans got a few jitters in the first minutes of the Waverly game when the Warriors scored a safety on St. Johns, but it wasn't long before the Redwings were rolling. They scored two touchdowns in the first quarter, one each in the second and third and topped it off with a pair in the final 12 minutes.

Waverly's safety came with just over three minutes gone in the game. St. Johns forced Waverly to punt, and Steve Thrall's booming kick bounced right and was downed within inches of the goal. Chuck Romig was caught in the end zone by a swarm of Waverly linemen on the first play, and St. Johns was behind.

The deficit didn't last too much longer. St. Johns intercepted a partially blocked pass but after making one first down punted to Waverly. Waverly got one first down, too, but when Thrall tried to punt again, St. Johns end Jon Berkhausen blocked it on the 15 yard line and Jeff Silm picked it up and lugged it in for a touchdown. He then added the extra point with a kick.

That was with 1:41 left in the first quarter. The Redwings quickly forced Waverly to punt again, and then fullback Mike Green shot through a big hole opened in the Waverly line at the St. Johns 41 and was gone—59 yards for a touchdown. Silm added the PAT and it was 14-2 when the quarter ended 11 seconds later.

After another exchange of punts, St. Johns' deep safety Terry Maier picked off a Mark Tomlinson pass and returned it 26 yards to the Waverly 26 to set up another TD. It took 10 plays, but quarterback Tim Durner finally poked it in for the touchdown from about a foot outside the goal. Silm's kick made it 21-2, and that's how the half ended just over 2 minutes later.

Waverly came to life in the second half, but St. Johns was still not to be outdone. The Redwings did the first scoring, using up five minutes in going 68 yards for a touchdown. Halfback Chuck Green had the big play, a beautiful 42-yard change-of-pace sweep around left end to the Waverly 9. Brother Mike Green put on the final touch with a run around right end for the touchdown, sprung by a crisp block from Mike Silm's kick missed, and the score was 27-2.

But Waverly's offense was anxious, and they chewed out four first downs enroute to their first touchdown of the night with 40 seconds left in the third quarter. Fullback Mike Yatchak got the TD from five yards out and then ran for the extra point. When the quarter ended the score was 27-9.

St. Johns was not done yet. Chuck Green circled left end for 38 yards on an identical play to his first-half run, getting the ball down to the Waverly 37. Mike Green and Chuck Romig worked it to the 32, and then Durner hit end Dave Gaffney with a pass that Gaffney ran in for a touchdown from 17 yards out. Silm poked the ball between the unright for the extra point.

Dave Feldpausch's interception of a Tomlinson pass temporarily interrupted Waverly's second and last TD drive. But after St. Johns punted the ball back, Waverly moved again with a 23-yard pass, an 18-yard run to the 10 and three smashes into the line, Kurt Hilldorf, a former St. Johns product who moved to the Waverly district just before the season started, scored the Warriors touchdown from the

three yard line with 59 seconds left in the game. Tomlinson passed to Jim Culver for the extra point.

ST. JOHNS WANTED the last word and they did. On the first play after the kickoff, halfback Scott Bennett switched to quarterback, went to the right on a rollout and passed to Jeff Silm, who legged it the last 35 yards to complete a 62-yard

scoring play. Silm kicked the extra point to end the scoring with 34 seconds left.

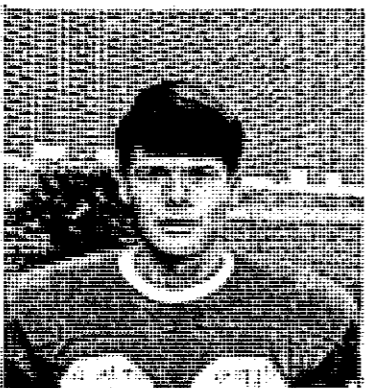

The Redwings' ground game was solid, and quarterback Durner engineered the ball effectively on the ground most of the way. Between him and Bennett, they threw only five times, completing two passes for 96 yards and two touchdowns. St. Johns intercepted three of Tomlinson's passes as Waverly

was able to complete only three of 10 aerials for 33 yards.

The Wings' front line drew praise from Coach Jeff Smith for its part in paying the way for St. Johns' 241 yards in rushing and for its defensive play. As a result, Waverly had only one advantage over St. Johns all night—they had no penalty yardage walked off against them, while the Redwings drew 30 yards.

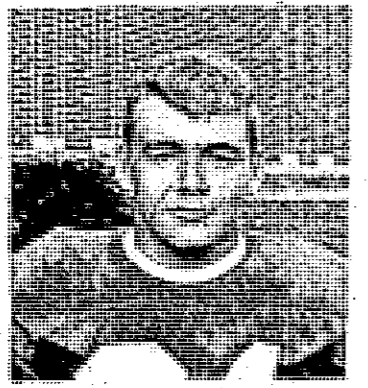

There's so much traffic here, somebody's likely to get run down. A St. Johns ball carrier does get caught in heavy traffic by Waverly's Joe Phillips (85) and Jim Culver (80) during Friday night's game in Lansing. Everybody tries to get in on the action. Other players identifiable are St. Johns' Bob Smith (12), Scott Bennett (33), Dave Paksi (61), Mike Keilen (32) and Russ Hicks (65). St. Johns won the game 41-16.

BACKFIELD MAN OF THE WEEK

Quarterback - halfback Terry Maier sparked the St. Johns defense against Waverly, coming up with a timely interception and providing other good pass defense. Maier calls the defensive assignment for the Redwings.

LINEMAN OF THE WEEK

End Jon Berkhausen draws this honor for the second week in a row for his superb blocking on end sweeps and downfield. Coach Jeff Smith reports, Berkhausen also came up with seven defensive tackles.

About salmon: Cohos are concentrating at their mother streams with fishing activity shifting to these waters from the big lake. Hook and line catches of 5-6 pound chinook jacks in the Muskegon area are encouraging. "They're right on schedule" say biologists who see another spectacular salmon fishery for 1970 with 50 pounders providing the fun. The chinook is the big "king" salmon of the West Coast.

Portland man's tie-breaker wins him \$20

The tie-breaker score was pressed into service by the judges again last week in determining the winner in the Clinton County News' weekly football contest.

Mike Lehman of 11211 Charlotte Highway, Portland, emerged the winner after first tying with three other people with four selections wrong in the contest. The runners-up, also with four wrong, were Gordon Simons of 230 Harriett Street, Lansing; Donald G. Isbell of 701 Church Street, St. Johns; and Jeanett Bellinger of North US-27, R-3, St. Johns.

The total score of the Notre Dame-Purdue tie-breaker game was 59 points. Lehman's tie-breaker score was 42, but that was closer than 35, 36 and 14 points suggested by the other runners-up.

A check for \$20 was mailed to Lehman Monday. He had been wrong only four times—picking Saranac over Montabella, Chesaning over St. Louis (that ended in a tie), Alma over Hastings and DeWitt over St. Patrick's.

Russ Hicks (65), Larry Zuker (41) and another unidentified St. Johns lineman zero in on Waverly end Joe Phillips (with ball) and drop him for short yardage despite efforts of Warriors to block the red tide.

PP&K registration deadline Oct. 4

Only a few days remain in which St. Johns area boys can register for the Punt, Pass and Kick competition open to boys 8 through 13. Eighteen handsome trophies will be awarded during the local competition, sponsored by Egan Ford Sales, Inc. and St. Johns Jaycees. Gold trophies will go to the first-place winners of each age group; silver to second place and bronze for third.

Michigan's urban sprawl is a demanding thing to the Department's Recreational Services Division. During the year, more than 100 suburban communities received on-site services from Division personnel. Division's job is to help establish facilities for leisure-time enjoyment by young and old.

Every boy has a great chance with so many trophies awarded. Roger Beebe, competition director, pointed out. "But registrations close Friday evening, Oct. 4th. Registrations cannot be accepted later because we must get ready for the big competition on Oct. 12 at the city park athletic field."

Headquarters for registration, where all boys 8 through 13 can enter PP&K through Oct. 4, is at Egan Ford Sales, Inc. Registrants must be accompanied by a parent or guardian. There is no charge and no special equipment is needed. Each boy, upon registering, receives a free PP&K lapel pin and a tips booklet written by Bart Starr of the Green Bay Packers, Billy Loth-

ridge of the Atlanta Falcons and St. Louis's Jim Bakken.

DURING THE competition boys will compete only against boys their own age in the three football skills. There is no body contact and participation in no way affects a boy's amateur standing.

Winners in the St. Johns competition go on to zone and then, possibly, district, area, division and national contests. Suitable trophies and runner-up certificates are awarded at each level of competition.

Mrs Townsend 91 next Thursday

Mrs Theodore Townsend, who will be 91 this Oct. 10, has been a crossword puzzle enthusiast for many years. She has recently found a new challenge to her ability in Margaret Farrer of the New York Times, of whom she says, "Her puzzles are impossible to complete, but I try anyway."

Mrs Townsend lives at 402 E. Higham and does all her own housework, except the windows on the outside. And with the help of her neighbors, she does her own shopping and has a small garden.

She comes from Iowa, moving here to Michigan at the age of 5. She's lived in Clinton County for 71 years, and has visited Albuquerque, N.M., several times.

She now has three daughters living in Michigan with 15 grandchildren, 26 great grandchildren, and one great great grandchild. She comments "Life has been good to me; I'm not going to complain about anything."

Her husband, Theodore Townsend, who passed away several years ago, was well known in the

community as a school teacher, a county school commissioner for 18 years and a city manager for 27 years.

Named as chairmen of campaign committees in their respective areas were John Rademacher, Fowler; Mrs S.K. Thingstad, Watertown Township; Ed Rose, Eagle Township; Mrs Wayne Loomis, Bath; Willie Taber, Ovid; and Albert Abshagen, Maple Rapids.

Eight team captains to handle solicitation in the Chest's professional division were named by Leon A. Brewbaker, division chairman. The eight include:

Dr James M. Grosz, medical physicians; Dr Henry A. Burkhardt, dentists; Mrs Donna Love, Clinton Memorial Hospital; Dr Larry W. Bader, osteopathic physicians; Paul A. Maples, attorneys; Rev Harold Homer and Rev Joseph Lablak, clergymen; and Leon A. Brewbaker, miscellaneous professional.

Clinton County's quota for the annual drive is \$28,683 and is part of a \$1,933,868 goal set for the United Community Chest campaign in the Greater Lansing area. The Clinton and Ingham Chests merged in June of this year and this October's campaign is their first joint effort.

A total of 57 agencies will benefit from the campaign. Ink White of St. Johns is general chairman of the Clinton County drive.

Meet the presidents

Perrin-Palmer Community Club outlines busy year

Mrs Maridell Nelson, president of the Perrin-Palmer Community Club this year, says the big project of the group will be to encourage a closer family, school and teacher relationship.

This will involve the encouragement of parents to have a deeper and closer contact with what their children are doing at school and in their free time after school.

Mrs Nelson feels there would be less trouble with teenagers if parents took a more active interest in their children at the grade school level.

To achieve this, the club will hold its first meeting Oct. 15. It will be a parent-teacher coffee hour at Perrin-Palmer, with open discussions of parent-student interests.

They are also planning a Christmas program, with a get-acquainted mixer, and a new idea for this year will be a sixth grade memorial project.

There are 271 students enrolled this year at Perrin-Palmer and all parents are members of the club.

Along with Mrs Nelson as president, members have elected Mrs Betty Sanford as vice president, Mrs Marilyn Wood as secretary, and Mrs Connie Kinney as treasurer.

Double-parking teen drivers 'Rapids' target

MAPLE RAPIDS—Teenagers who park double — particularly in the business district where it blocks traffic after school — will be the special target of police officers for the next few weeks.

Village councilmen last week directed Maple Rapids' three part-time officers to speak with the offending teens and their parents. If that doesn't work and the offenses continue, arrests will be made.

Maple Rapids will work with the Michigan Municipal League on a proposed highway count on village streets. Councilmen also met last week asked for more information from Vernon Foss of West Main Street concerning Foss' request for raising rabbits before granting permission. A check of village ordinances is also being made.

Eight members of the Maple Rapids Blue Star Mothers journeyed to Grand Rapids to host a bingo party for the veterans at the Facility Hospital. Clothing, magazines, lap robes, and puzzles as well as dozens of home-made cookies were distributed among the residents.

The mothers toured the grounds and visited the occupational therapy room, where beautiful items were on display and being made by the patients.

Those attending besides the hospital chairman, Mrs Vera Corson, were Dr Norma Elson, Mrs Gale Foersch, Mrs Bele Schmidt, Mrs Marjorie Rumsey, Velma Bancroft, Mrs Ervin Upham and Mrs Grace Upton.

Mrs Minnie Nunemaker, Maple Rapids librarian announced several new books this week as follows, Lincoln Library World Atlas, International Edition — this is a contemporary atlas of the world, with latest and most authentic geographical and statistical information. There are two new creative sports books, one on football and one on basketball. Each volume is designed to teach the beginner, the average and the advanced player, the history, skills and rules of the particular sport.

The book, History of Rocketry and Space Travel, exhaustively researched by very qualified authorities, is the most recent one volume History of Man's efforts to explore space, from his earliest curiosity in this area of universal wonderment, highly readable and documented with over 12 pages of bibliography, this volume will serve for many years as a standard reference for those interested in background, the problems and the future of space exploration. Outstanding illustrations appeal to the casual reader and advanced student.

Carefully chosen charts, drawings and illustrations, many never before released, add to the reader's understanding of the advances in technology. This volume provides a much needed historical perspective of man's dream of space exploration.

The library received the book of freedom, Our American Heritage, as a gift from Mrs Wilbur Bancroft, local postmaster.

This will be of interest to all scouts—boys and girls—history and government students and everyone who is proud to be an American.

Eisenhower; Beyond Our Selves, by Catherine Marshall; John Doe, Disciple, by Peter Marshall, and edited by Catherine Marshall; The Tower of Babel, by Morris L. Clinton, area communities share in higher gas tax funds

Clinton area cities and villages and Clinton County as a governmental unit all shared in the benefits of an increase in state gasoline tax and license plate fees revenue during the highway department's fiscal year that ended in June.

Statewide, receipts were up 9.6 per cent, due in part to a hike for 6 to 7 cents a gallon in the state gas tax effective last Jan. 1.

Extension study groups' officers tour newspaper

Secretaries of home economics study groups throughout Clinton County were guests of the Clinton County News and the Greenville Daily News last Thursday when the ladies toured both newspaper plants.

The tour followed the processing of news and advertising copy at the County News during the morning hours and after lunch resumed at Greenville, where the final printing stages of the paper are carried out.

The tour was designed to better acquaint the Extension study group officers with the workings and problems of newspapers.

Making the tour were Mrs. Wayne Peck, Mrs. Carl Light, Mrs. Jeter Keener, Mrs. Bruce Mehney, Mrs. Lloyd Ford, Mrs. Lloyd Harris, Mrs. Dennis Kentfield and Mrs. Jack Hudson.

They were accompanied by Mrs. Helen Meach, Extension home economist.

The fisher does not fish. The 12-pound animal is a tree-loving creature whose favorite prey is the porcupine.

Clinton County was paid \$814,555 during the 1967-68 fiscal year, compared to \$749,627 in the previous year. Here's how area cities and villages compared:

Ashley \$8,444 in 1967-68, up from \$7,831 the year before; Carson City \$17,776, up from \$16,348; DeWitt \$17,306, up from \$15,862; Eagle \$2,461, up from \$2,293; East Lansing \$311,072, up from \$283,582; Elsie \$12,960, up from \$11,764;

Fowler \$11,962, up from \$10,974; Grand Ledge \$50,630, up from \$43,728; Hubbardston \$10,426, up from \$9,721 in 1966-67; Laingsburg \$16,852, up from \$15,536; Lansing \$1,468,383, up from \$1,337,678; Lyons \$14,045,

up from \$13,039; Maple Rapids \$9,141, up from \$8,376; Muir \$9,549, up from \$8,795; Ovid \$19,068, up from \$17,424; Pewamo \$9,136, up from \$8,484; Portland \$45,080, up from \$40,545; St. Johns \$67,878, up from \$61,080; and Westphalia \$9,271, up from \$8,363 in 1966-67.

Payments in the 1968-69 year will likely also increase because of another revenue-producing part of the "good roads" tax package enacted by the Legislature last year. That will be the restoration of motor vehicle weight taxes to the pre-depression level; the increase takes effect Oct. 1 and Nov. 15 when new commercial and passenger car plates are placed on sale.

Teachers call 'time out' for annual conference

Schools throughout Clinton County will be closed this Friday as teachers in a five-county area undergo an intensive instruction session of their own.

The event is the annual Region 8 teachers conference of the Michigan Education Assn. The annual two-day program has been compressed into a single day for 1968—this Friday, Oct. 4. Teachers will be present from Ingham, Eaton, Livingston, Clinton and Shiawassee counties.

The annual banquet will feature Bud Guest, famed WJR radio humorist and sidewalk philosopher. The banquet will be held at the Everett High School cafeteria in Lansing.

The abbreviated Lansing meeting of the MEA Region Eight members will be marked by an even greater effort to condense the latest information about new teaching techniques. Special emphasis will be given to the age-

old problems of "reading, writing, and 'rithmetic" as well as the newer and more sophisticated teaching methods in the sciences, the development of inter-group understanding, and an analysis of how the Soviet Union handles the problem of exceptional children.

ON THE SUBJECT of school organization, there'll be a special section devoted to the middle school, a new concept involving the educational process. Another section will take up the non-graded elementary school concept.

The Region Eight conference will also discuss subjects of a controversial nature, such as the teaching of sex education in the elementary classroom. Resource people for this topic include: Erma Hill of the Ingham County Health Department; Rev. Hugh Banninga of the Episcopal Church of St. Johns; Chandler

Nauts, principal of Holt High School; and Barbara Miller of the Okemos school system.

The customary conservation and biology workshop will be held at Higgins Lake. Chairman for this special section is John Hunt of the Everett Elementary School, Lansing.

Even the weather will be included in the intensive one-day MEA conference. A special weather program will be held at East Lansing's McDonald Middle School, featuring Robert Babb, meteorologist for the U.S. Weather Bureau at Capitol City Airport.

Fire destroyed an average of more than a half million dollars of farm property a day in 1966, according to the Insurance Information Institute. Farm fire losses last year reached a record high of \$195 million.

REV. HUGH BANNINGA

Rev. Hugh Banninga, rector of St. John's Episcopal Church in St. Johns, was one of the resource people selected for a discussion of the teaching of sex education in the elementary classroom for Friday's Region 8 teacher's conference of the Michigan Education Assn.

Beginning in January, an older person who goes to the hospital under medicare will be responsible for the first \$44 of his hospital bill, Roger W. Seamon, social security district manager, said. The \$4 increase from the present \$40 deductible results from a provision in the law requiring an annual review of the deductible amount. The first such review the law provided was to be made in 1968.

The law specifies that if this annual review shows that hospital costs have changed significantly, the hospital deductible amount must be adjusted for the following year. Necessary increases in the deductible amount are to be made in \$4 steps to avoid small annual changes.

Following the formula in the law, and figuring the ratio of in-patient hospital costs under medicare in 1966 with those in 1967, the deductible amount for 1969 worked out to \$44.

The results of the annual review of the in-patient hospital deductible also apply to the dollar amounts a medicare beneficiary pays toward a hospital stay of more than 60 days.

News of Clinton County Farm Bureau activities

County F B annual meeting Oct. 8

In a special message to all Farm Bureau members placed in the mail this week, President Lee Ormston reminded them of the importance in taking an active part in Farm Bureau's Annual policy making session. His message was a part of the official notice of the meeting which must be mailed to all members as a requisite of the by-laws.

Attend to the organization's business meeting following a meal served by The Farm Bureau Women's Committee at 7:30 p.m. Oct. 8 at Smith Hall in St. Johns. Rev. Harold Homer will offer the invocation as the anticipated crowd of over 300 persons meet to discuss and act on a full slate of resolutions on local, state and national issues. They'll also elect directors for three districts and one at-large member to the county board. Delegates to

the state annual meeting will be elected. The county is entitled to representation by 11 persons at

the state meeting in November, and five will be named from the membership at large.

THERE ARE THREE recommended by-law changes being presented by the board of directors. They allow for The Young Farmer Committee to be represented on the board by one of its members, for the name of Farm Bureau Young People to be changed to Young Farmer Committee and request that county board members and delegates to the Michigan Farm Bureau annual meeting be allowed to hold office of county supervisor. Prior to this time no county elected official can be seated on the county board nor serve as Michigan Farm Bureau delegate.

are urged to take an active part in this meeting. Dinner tickets are on sale at the county office, from members of the board and from community group secretaries. There will be a limited number available at the door.

The winner of the Farm Bureau queen contest sponsored by the Young Farmers will be named and after being crowned county queen will vie for state honors which will include a trip to the American Farm Bureau Convention in Kansas City in December. Awards will be presented to the outstanding FFA student and 4-H member in the county, and the scholarship winners to the Camp Kett Citizenship Seminar will be introduced. They are Miss Jane Thelen, daughter of Mr and Mrs Urban Thelen of Fowler, and George Thelen, son of Mr and Mrs Gerald Thelen of Fowler.

STATE OF MICHIGAN

Executive Office - Lansing

PROCLAMATION COOPERATIVE FIDELITY

Farm cooperative make significant contributions to the economic prosperity of our state and communities. They are a strong asset in assisting farmers to meet the challenges of changing times, so that they support and encourage self-reliance and the individual initiative so important to our American private enterprise system.

Through cooperative action farmers have been able to meet challenges to their economic survival. A pooling of resources and know-how through purchasing and sales cooperatives has allowed farmers to retain control of most of their resources.

In Michigan, these 240 cooperative farm service organizations contribute to the economic welfare of their farmer-members through 750 service outlets. Equally important is their contribution to the general welfare of the communities in which they serve. They are often the largest single employers and taxpayers in the rural communities.

WHEREFORE, I, George Romney, Governor of the State of Michigan, do hereby proclaim the month of October, 1968, as

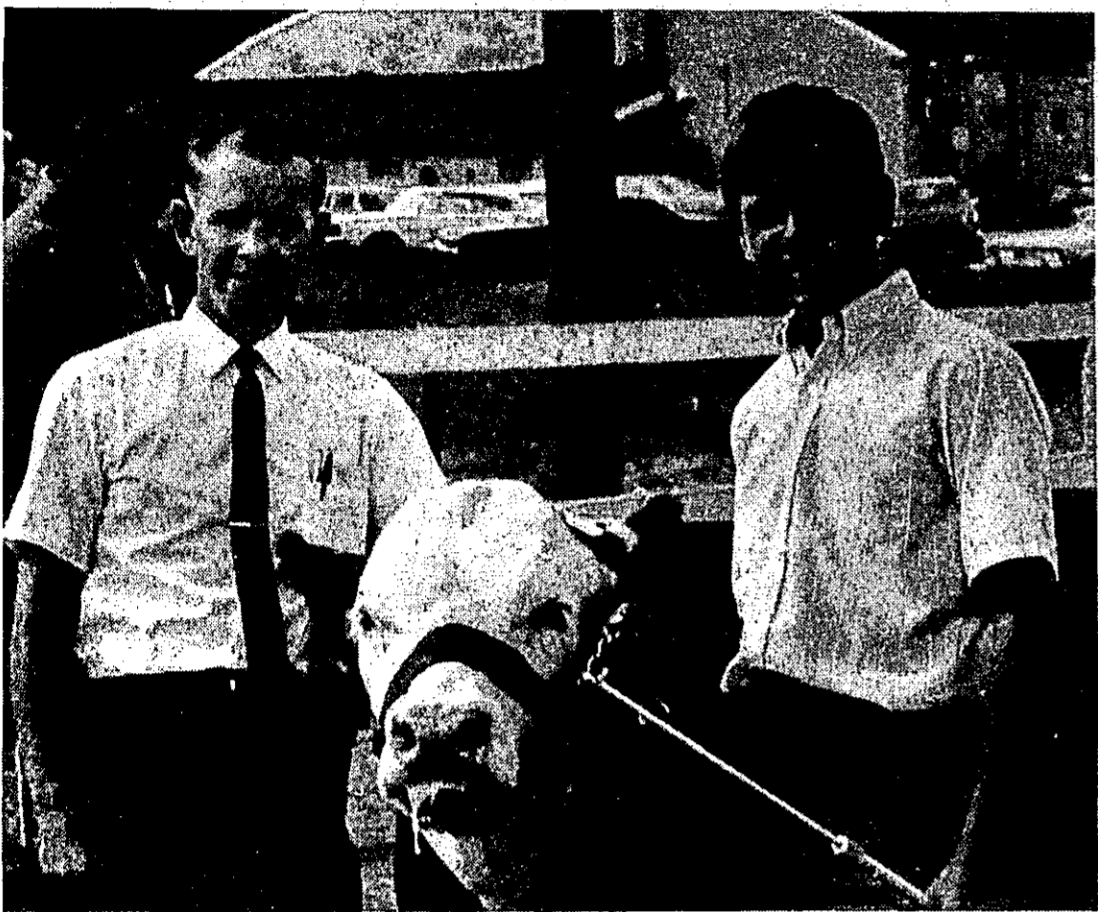

COOPERATIVE MONTH

In Michigan, and urge recognition of the importance of the farmer cooperative movement in this State.

Given under my hand and the Great Seal of the State of Michigan, this eleventh day of September in the year of our Lord one thousand nine hundred sixty-eight and of the Commonwealth one hundred thirty-second.

Graduated income tax on ballot

One of the five proposals on the ballot in the general election Nov. 5 will permit the voters to decide whether Michigan's Constitution should be changed to permit a graduated income tax. Michigan's present Constitution provides for a flat rate income tax and prohibits a graduated tax.

Michigan's income tax of 2.6 per cent of individuals and 5.6 per cent on corporations is a flat rate tax. However, in reality, it is highly graduated. A truly flat rate income tax would result if there were no exemptions whatever. As exemptions are made such a tax becomes graduated in effect.

Michigan's income tax on individuals allows an exemption of \$1,200 per person, which is double the exemption permitted in the federal income tax. In addition to this exemption, there are property tax credits involved, and also tax credits tend a graduation effect to the income tax.

On the other hand, most states with income taxes have graduated rates. The real question is whether the entire tax structure is balanced and equitable, and also how the tax law is written. In any event, the final decision whether to make it possible to move Michigan from the flat rate income tax to a graduated rate is up to the voters Nov. 5.

Records expanding

The year 1969 is expected to be a big year of growth for the Farm Bureau farm records service. The electronic farm records service will be open to all members desiring to enroll for the 1969 record keeping year. The records service has been designed to meet the farm record requirements asked for by members. A complete, accurate, low-cost and simple record - keeping system is offered.

And it is available at an attractive price. Cost of the basic service program is from \$55 to \$65 per year. The fee may be paid annually or quarterly as desired. All records are kept in strict confidence with the individual member.

Good farm records are an essential part of today's successful farm operation. Records are just as important as capital, machinery, labor and land. Further details and enrollment information can be obtained from the county Farm Bureau office or the Market Development Division, Michigan Farm Bureau.

The Insurance Information Institute reports that there were 15 catastrophes in the United States in 1966 which caused \$1 million or more each in insured property losses. The greatest damage was done by tornadoes and winds which struck Kansas in June, causing in one day \$58 million in insured losses.

Policy development meetings numerous

Members of county Farm Bureau policy development committees throughout the state have met twice in the past month on the district level to discuss issues and come to a clearer understanding of the facts behind

the issues in order that they might be better equipped to present policy making resolutions to members at the county annual meetings.

Members of the Clinton County policy development committee include James Becker, Bengal, chairman; Stanley Baird, DeWitt Township; William Brook, Bath Township; Harmon Cropsey, Watertown township; Andrew Cobb, Duplain Township; and Neil Harte, Olive Township.

Among the resource persons on hand to discuss the legislative issues at a meeting at the Farm Bureau Center in Lansing several weeks ago were Jack Lynn, legislative director of the American Farm Bureau Federation, Allison Green, state treasurer, talking about Michigan financial picture, and Roy Spencer, who discussed his proposal (H-4095) "A New Approach to School Finance and Property Tax Reduction." There were progress reports on Farm Bureau marketing programs, (MACMA and Farm Bureau Services).

To date three local sessions of the county policy development committee have taken place with all members spending extra time in research to gain facts before presenting the slate of resolutions to the members Oct. 8 at county annual. Community groups, the county board and the policy development committee have all contributed to the more than dozen resolutions to be presented.

Heed stilbestrol recommendations, specialist warns

"If a little is good, a little more is better."

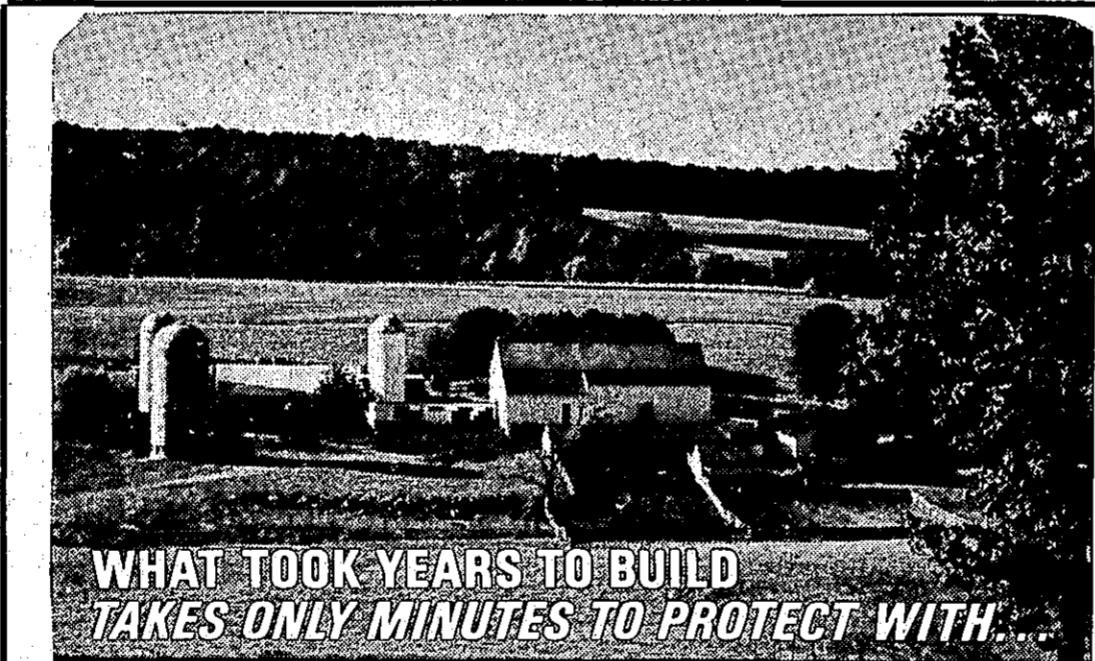

This may be true with some things, but not when it comes to stilbestrol implants, warns a Michigan State University animal husbandry researcher.

"Implantation of young suckling beef steer calves with 12 milligrams of stilbestrol will increase weaning weights about 20 to 50 pounds," reports Dr Terry Greathouse.

At current prices, this means a return of about \$6 for a 15-cent investment, he says.

"We haven't found any bad effects at the 12-milligram level, but don't try to improve on recommendations, Greathouse states.

Also, make sure to allow enough time for the implant to get out of the calves' systems before weaning. "A good rule-of-thumb is to implant 12 milligrams of stilbestrol four months before selling the calf crop," Greathouse suggests.

The human brain weighs only three pounds—yet it handles its huge traffic of messages so well that an electronic computer designed to perform as well would occupy a space as big as a skyscraper.

THE WORLD'S STRONGEST MAN

The day little Jimmie admired my muscles I was the strongest man in the whole world. And so I remained until the next morning when I got into an argument with that big kid in the next block. Then a humiliating retreat seemed preferable to a bloody nose.

Life hasn't changed much since I've grown up. Sometimes on Sunday I am so confident of my human might that I glibly pass up the spiritual resources my neighbors are finding in church. And by Monday I'm wondering where to turn for help in some insurmountable difficulty.

Experience is forever teaching me that my own self-confidence is mostly self-delusion. The men I admire seem absolutely honest about their own limitations, and absolutely certain about God's strength.

One Sunday as I sat in a pew and watched others receiving Communion this thought struck me:

THINK ON THESE THINGS

A devotional message written each week by a pastor of a Clinton County church.

This week as we "think on these things which are true," in follow up to the truth about God, we must next consider the truth about Jesus Christ, Who is He? A man? A God? He came from the bosom of the Father to the bosom of a woman. He put on humanity that we might put on divinity. He became the Son of man that we might become sons of God. He came from heaven, where cold winds never blow, frosts never chill the air, and flowers never fade; where no one is every sick; where there are no undertakers and no graveyards, for no one ever dies, and no one is ever buried. He was born contrary to the laws of nature. He lived in poverty and was reared in obscurity. Only once did He cross the boundary of His homeland, and that in His childhood. He had no formal education. He had no wealth, nor influence; His relatives were inconspicuous and unimportant. In infancy He startled a King; in boyhood He puzzled the doctors; in manhood He ruled the course of nature. He walked upon the billows and hushed the sea to sleep. He never wrote a book, yet all the libraries cannot hold the books that have been written about Him. He never wrote a song, yet He has been the theme of more songs than all other subjects combined. He never founded a college, yet all the schools together can't boast of as many students as those who study His life. He never practiced medicine, yet he healed more broken bodies and broken hearts than all the doctors that ever lived. Great men have come and gone but He lives on. Herod could not kill Him; Satan could not seduce Him; Death could not hold and destroy Him; the grave could not keep Him. He was rich yet for our sakes He became poor. He was born in a borrowed barn, and buried in a borrowed tomb. He rode another man's ass, fished from another man's boat. He had no place to lay His head. Between Him and every other person in the world there is no possible term of comparison. Alexander, Caesar, Charlemagne, and Napoleon have founded empires. But on what—upon force! Jesus Christ founded His empire upon love; and at this very minute millions of men would die for Him. If Christ is the wisdom of God and the power of God in the experience of those who trust and love Him, there needs no further argument of His Divinity! May we all think on these things.

A kid's got a right to some privacy too.

If your kid's been hiding out lately when he gets on the phone, take the hint. There are probably some things he'd rather discuss without an audience around. And he's entitled. After all, asking a girl out at his age is hard enough. But when the whole family's listening in, a guy could freeze. Help loosen young Don Juan's tongue. Call your General Telephone business office and get him an extension phone. Then he can have his tête-à-têtes without feeling self-conscious. When a kid feels you don't want to listen in on all his private conversations, he's more apt to tell you about them. An extension phone gives him that choice.

Extension phones by General Telephone.

O-E students favor Nixon-Agnew team

By FRAN FOWLER
Ovid-Elsie High

OVID-ELSIE (c) — The O-E Journalism Club, on behalf of Scholastic Roto Magazine, recently took a poll to see who the students of Ovid-Elsie would choose for President if it were left up to them.

It was a very close race, but the Nixon-Agnew team won by 27 votes over Humphrey and Muskie. George Wallace received 75 votes, Ted Kennedy had 11 and Sen. Eugene McCarthy got 9. Ronald Reagan had only one vote, as did President Johnson.

Pat Paulsen made a good showing with 48 votes, and "man's best friend," Snoopy (Peanuts comic strip character) received 9 votes.

Ovid-Elsie students were greeted on the first morning of school by 11 new teachers and

two student teachers. New additions are Mr Barlow, Spanish; Mrs Blsken, home economics; Mr Duva, physical education and applied earth science; Mr Gleason, social studies; Mr Iseler, chorus; Mr Oberlin, government; Miss Peapples, library; Miss Pohl, English; Mr Schrader, chemistry and physics; Mr Shetry, mechanics; and Miss Yan Pelt, art.

The student teachers are Mrs Misunas, physical education, and Mr Scott, agriculture.

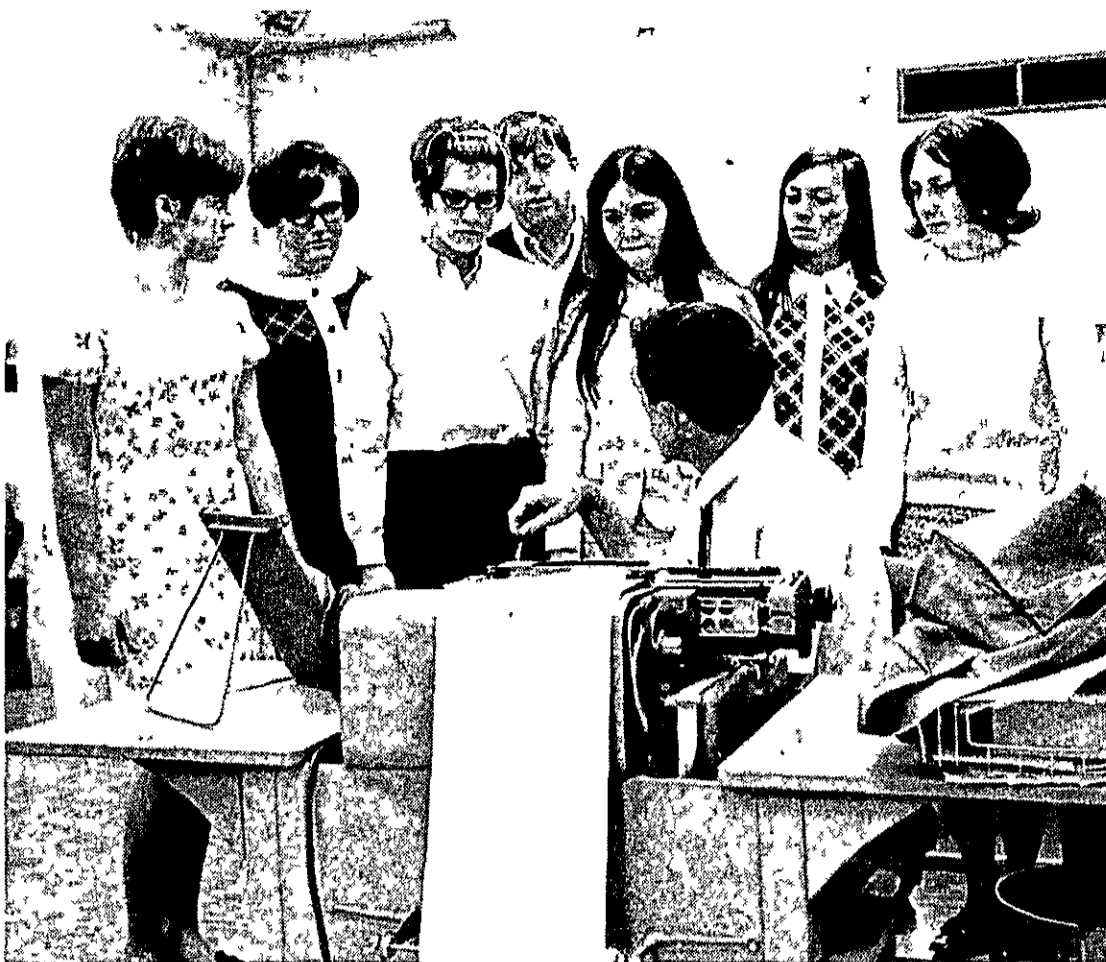

THE 1988 LEGENDS arrived last week at O-E. They were distributed at the "Yearbook Dance" on Saturday. Everyone agrees they are the best ever.

The O-E Marching Marauder Band has been very busy so far this year, and they will continue at a rapid pace until the end of the football season. The band marches both at pre-game shows

and during the half. Rick Warren is the drum major for this year. The six majorettes are Sue McCreery, Phyllis Stewart, Jan Mitchulka, Rosella Howard, Sue Besko, and Chris Wortman.

The Future Teachers held their installation of officers and the initiation of new members Sept. 26. Eighteen new members were welcomed into the club. This year's president is Juva Lea Wilkins.

A new organization has been formed at O-E. It is the drill team consisting of 18 girls. They worked during this past summer to get the money for their new uniforms. They will be performing at pep-rallies, at basketball games, and hopefully during a halftime show with the band. Shelley Hall and Verl Nicholson are the co-captains. Mrs Boone is the sponsor.

TEEN WRITERS HEAR OF NEWSPAPER PRODUCTION

Twenty-seven new members of the Fulton FFA had their initiation Sept. 24. All the boys had to wear lipstick, curlers in their hair, feed sack dresses,

neckties, one nylon and one barn boot.

Another informal initiation was held that night. The boys will become official members Oct. 12, their next formal meeting.

The Varsity Club met Sept. 23 and elected these new officers: Ed Reaume, president; Bill Priest, vice president; and Vikki Hogle, secretary-treasurer.

On Wednesday Sept. 25, a U.S. Navy recruiter spoke to students interested in a Naval career.

James Maycock from United Electronics Institute, Grand Rapids spoke on Sept. 26. Anyone

interested in the field of electronics was encouraged to talk to him.

A representative of Olivet College, Phillip L. Ball, encouraged anyone interested in a small liberal arts college to apply to Olivet.

Advertising... makes wheels go 'round!

Every day, in great cities and small villages, housewives make out their daily shopping lists from ads in their home-town newspapers.

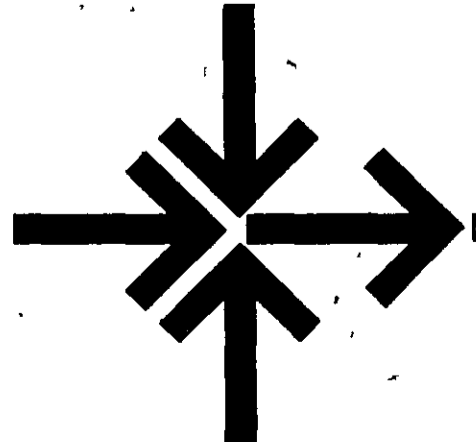

No hoopla, no hallyhoo. The kids have gone to school, the father to work. The mother of the family—the one responsible for spending most of the family's money—sits down at her kitchen table and carefully decides where she can get the best buys. The information is all there, in the newspaper. The bargain prices, the descriptions, stay there while she makes up her mind, at leisure. Perhaps she will even fold the ad and put it in her purse, if there is any question in her mind about the price or the product.

Advertising is a service which people want. After the New York newspaper strike of 1957, women interviewed in one study said they missed ads most of all features in the newspaper.

Advertising makes the wheels go 'round in our economy. Following the Minneapolis newspaper strike in 1962, economists of the Federal Reserve Bank's Ninth District estimated that the area had lost \$58,000,000 in sales.

Advertising makes newspaper wheels go 'round, too. Before the advent of mass advertising, newspapers—always very expensive to produce—had to depend on political parties for support. It has been advertising, honest advertising furnishing a needed service to millions of consumers, that has strengthened the economic base of the American press.

True sportsmen up in arms over coho 'sportsmen'

By JACK W. CORBIN
Publisher
Hart (Mich.) Journal

We have spent the past several days reading newspaper articles, hearing television reports, and listening to some people, all in regard to the recent controversy between the Conservation Department and some so-called "sportsmen" regarding the coho situation on the Bear Creek and Platte River.

They are complaining because the Conservation Department will not allow them to buy fish at the site of the weirs where the fish are being taken for the eggs needed to keep the salmon program going.

It is a sad situation when a limited number of "sportsmen" can lounge up a program such as the Conservation Department has had in operation for the salmon introduction in Michigan.

Bear Creek, Platte situations rile West Michigan publisher

could be jumped across in about three good jumps.

The Department has kept the salmon program for the fishermen as much as has been possible. They have not allowed any commercial fishing in Lake Michigan.

are visible in the streams, the "sportsmen" are up in arms.

Following this line of reasoning by the "sportsmen", perhaps the Department should open the deer season during the mid-winter months while the deer are yarded up in droves in relatively small areas so that the hunter who has spent his five bucks for a deer license can be guaranteed of killing a deer.

'IF IT FITZ . . .'
Another record for Denny?
By JIM FITZGERALD

The game was over but Eddie was still staring intently onto the field, mumbling to himself.

But the Tigers, finally snarling, made a real fan of Eddie this year. He has, in fact, become one of those all-out nuts who can tell you what Norm Cash eats for breakfast the morning after he's struck out three times.

Eddie arrived for the Baltimore game well prepared. He was wearing his Al Kalline glove and his Tiger cap and he carried a well-sharpened Tiger pencil.

"You keep score," he told me, handing over the scorebook and pencil. I wrote in each player's name and was half-way through the first inning before Eddie checked to see if I was doing it correctly.

All of which was embarrassing enough but the kicker was that I had to wear Eddie's mitt and watch out for foul balls.

Fortunately, no ball came that close. I escaped Eddie's scorn. And nuts to all those Tiger fans who kept giving me strange looks.

WATERVILLE, Minn., ADVANCE: "The rise in crime can be stopped only by justice which deals swiftly and surely; convincing justice which means quick arrest, prompt prosecution and substantial punishment equal to the crime . . . Each generation has the duty, not to help himself to whatever he can get, but to extend the freedoms of the Bill of Rights so that they may continue as the core of our American heritage."

Fire prevention

Last year in the United States, 12,200 persons lost their lives in fires. Thousands more were injured. Property damage resulting from fire reached a staggering \$1.7 billion. With care, a huge portion of this shameful waste could have been avoided.

During the week of Oct. 6 to 12, all of us will be asked to redouble our efforts to cut down on this enormous toll of life, limb and property; to check our homes and places of business against hazards which might at some unexpected moment burn us out and threaten our very persons; to remind ourselves that fires can indeed be avoided through the exercise of care.

As T. Lawrence Jones, president of the American Insurance Assn., reminds us, Fire Prevention Week is "not just another crusade to be taken lightly." It was conceived, and is repeated at this time every year, as a deadly serious reminder to all Americans that fire prevention is a relatively simple task, but one which must be kept in mind at all time.

How simple it is, for example, to put that cigarette—or match—out before discarding it, rather than tossing it carelessly away, perhaps to kindle a fire with consequences you will never forget.

How simple to clean out that kitchen stove, rather than taking the risk of a badly charred room or gutted home which can be the result of an accumulation of grease.

Fire Prevention Week is a time to think of these things; to throw out old newspapers and other unneeded collections of combustible materials; to check—or have a serviceman check—electrical appliances and wiring and heating equipment. It is a time to pledge ourselves to making fire prevention a year-round job.

That is the message Fire Prevention Week seeks to convey.

Nobody's business

According to the Constitution, a census is supposed to be taken every 10 years. The original idea was to find out how many people lived in the United States. There was no intention to probe into their private affairs. Now the Census Bureau is going far beyond this and wants the answers to such questions as: whether you have a home freezer, if you have been married before, how many people use your bathroom or kitchen and many other things that are really nobody's business.

The next census is due in 1970. Legislation that deserves unanimous support has been introduced to prohibit the federal government from using this occasion as a means of invading the privacy of American citizens. After all, the purpose of the census is to count people—not the number of gold fillings in their teeth.

RAMBLIN' WITH RINK

Picture the photographer

By LOWELL G. RINKER

Being a news photographer is not the glamorous job that a lot of people think it is or what I used to think it was before I got actively involved in it.

There's always pressure to come up with some different way of telling the same thing so that when people see a picture of a check presentation in the paper they know they haven't seen it before. This can be a real challenge, and it's hard to come up with something fresh when the same sort of situation appears so often.

Besides being a jack-of-all-trades sort of guy, the weekly newspaper editor also has to be on duty 25 hours a day. If a photographer desires to learn of bad accidents and of bad fires at all times of the day, he can expect to get calls once in a while in the middle of the night (physicians undoubtedly know what I mean).

Getting up at 2:30 a.m. to drive eight or 10 miles to an auto accident is not very glamorous, and it's even less glamorous when you get back home and find you can't get back to sleep.

PHOTOGRAPHING AUTO accidents is not an enjoyable job, but it's one that we do willingly because of its news value and more importantly because of its educational value. It has long been our feeling—and we're not alone among newspaper people—that accident pictures are

BEST WAY TO SEE IT LIKE IT IS!

News photography's not a bad job. There are unpleasant things about it, but so there are with any job. There's a challenge about it that makes it satisfying.

MICHIGAN MIRROR

Jury duty more likely

BY ELMER E. WHITE (Michigan Press Assn.)

A new system for selecting citizens for jury duty goes into effect next year. More people will be called to serve, but the length of service is cut from three months to a maximum of 30 days.

Prospective jurors are presently selected by township supervisors and city aldermen from property tax rolls. They serve for \$15 per day. The selection method was designed when Michigan was primarily an agricultural state and is not conducive to present modes of living, charges Lee C. Dramis, a Lansing lawyer who played a leading role in rewriting the jury law.

Workingmen find it difficult to support their families on \$15 a day, and many ask to be excused for economic reasons. Persons who do not own real estate are automatically eliminated. This excludes about 80 per cent of the men and 60 per cent of the women in urbanized counties, Dramis said.

As a result, juries are now composed mainly of retired persons, housewives and persons with little or no regular demands on their time.

THE NEW LAW specifies that voter registration lists be used instead of property tax roles. A special jury board, appointed by the governor, will make the selection rather than supervisors and aldermen. A special mathematical formula will insure names being picked at random.

Exemptions under the new law are few: physical or mental disability, persons over 70, police officers and lawyers, citizens who do not understand the English language. The presiding judge may make other excep-

tions, but excusals are expected only rarely under the new system, Dramis contends.

New jurors will be selected by the jury board in May of each year. If lawyers agree, six-member juries may be used for civil cases. In the past, 12-member juries were required for all circuit court cases. Six-member juries will be used for both civil and criminal cases in the new district courts which replace the present justice court system Jan. 1.

A special provision in the new law makes an employer who fires a person because of his absence for jury duty guilty of a misdemeanor.

THREE "VITAL" areas will receive concerted attention by the Michigan Congress of Parents and Teachers Assn. this year, according to the organization's president, A. B. Halst. The areas are sex education; crime prevention; and the relationships between student, parent, teacher, school administrators and school board.

During a 1967 survey among Michigan families, these three subjects were rated "critical." The organization hopes that each of the 2,000 local units will devote several meetings to the topics, and then build upon local interest with specific programs.

"If all the PTA units across the state will concentrate on these three major subjects, the PTA in Michigan can unite for effective study and positive action," Halst declared.

Many positive programs have been fostered in the past, but seldom has the organization aimed strongly at specific subjects. To help its 360,000 mem-

bers organize plans of action, the group sponsored nine "program planning clinics" during August. About 400 officers attended the sessions.

MOST PEOPLE seldom need the services of a notary public, but proper notarization of documents can avoid serious complications when legal transactions are made. Buying and selling agreements, transfer of property, publication of legal notices, and many other affairs must have signatures notarized. The notary public's responsibility is to verify the validity of the signature. Failure to do so may result in a costly court suit.

The importance of a notary public is in sharp contrast to the minimal requirements for the appointment. For many years now, applicants need only be 21 years of age, a resident of the county from which they apply, and be endorsed by a circuit judge, state senator or representative. A \$2 filing fee is charged by the state, \$1 by the county clerk, and \$8 to \$14 for bonding.

The governor makes the appointment, and only his office can revoke a commission. There are currently about 100,000 notaries public in Michigan. Complaints regarding improper notarization and overcharging of fees are frequent, according to the secretary of state's office which processes applications. Seldom are commissions cancelled.

Efforts to establish higher qualifications have been unsuccessful. New legislation has been introduced, but it has not received serious attention from lawmakers.

The "Low Down"

From the Congressional Record

By Joe Crump

Rep. Robert H. Michel (Ill.) " . . . Last winter the country witnessed the outrages at Columbia and Northwestern Universities, and during that period I raised the question here on the floor of the House as to whether or not other college administrators around the nation were prepared to resist this type of anarchy on their own campuses? . . .

"One of the most candid and straightforward statements of policy along this line was outlined by the president of St. Louis University, the Rev Paul C. Rehnert, S. J., in the summer issue of the St. Louis University magazine, and I include his statement in the Record at this point. . . ." (The condensed statement follows):

It would be foolhardy to ignore the incidents of student violence that have racked various campuses around the nation and abroad. . . .

Thus, officials of St. Louis University have drawn up and made public a statement of policy and procedure regarding demonstrations and sit-ins.

POLICY

Each student or student group has the right to express disagreement on a particular subject or to submit proposals for consideration, providing this right is exercised in an orderly fashion.

However, the kind of conduct which restrains either the freedom of expression or the freedom of movement of others who may not agree or which is disruptive of university operations in any way is simply unacceptable in an intelligent community and a democratic society.

Proper and reasonable channels of communication do exist within the university. Reasonable men and women will continue to use such channels as they have in the past.

PROCEDURES

1. Any individual or any

group participating in such a disruptive demonstration or sit-in will be given five minutes to disperse.

2. If the response to the above statement of policy and the first procedure is negative, the following steps will be taken:

(A) The police of the City of St. Louis will be called in.

Any university person participating in such a disruptive demonstration or sit-in will be charged, arrested and prosecuted at minimum for disturbing the peace.

Any person from outside the university who is participating in such a disruptive demonstration or sit-in will be charged, arrested and prosecuted at minimum for trespassing on private property.

(B) Any university student who participates in such a disruptive demonstration or sit-in is automatically suspended from the university. Each suspended student will appear before the University Committee on Student Discipline for final decision in his case.

It bears repeating that we are extremely pleased with the general attitude of our students, and we're not going to let the irrational actions of a small minority in other institutions affect our attitude toward our students.

A GRASSROOTS COMMENT

The St. Louis University's procedure is easily understood and reduces debate to a minimum. Hillsdale (Mich.) College, among others, has a similar program.

Ode to October

By W.E. DOBSON

October's magic once again
Paints nature with new glow,
And carpets all the woods 'n dells,
With cover soft as snow.

The summer with its torrid breath,
Gives still a backward look,
And footballs fill the air again,
While scholars "hit the book."

The seeds we planted in the spring
Are grown now and declare
Their place in Autumn harvest
With its air conditioned air.

October bids us to take stock
Of wintry days ahead,
Again to live, 'n love, 'n learn,
'Ere Autumn days are fled.

There are other days of glory,
Other times we can reverse,
But it's hard to beat October
For a glorious time of year!

Elsie

By Mrs Neva Keys

Skit proves entertaining at Elsie Church

The Women's Society of Christian Service opened its 1968-69 series of programs at the Elsie United Methodist Church recently with president, Mrs Gene Stouffer in charge. This year the theme "The Now Prophets". During the business session, there was a question raised as to rules concerning rental use of Fellowship Hall. These were set by the official church board and individual circles of the Women's Society. A skit "Those Wonderful Years" was presented with Mrs Duane Green as narrator, Mrs

Gordon Showers as song leader with Mrs Stouffer at the piano, and Mrs Whitaker, Mrs Dunham, Mrs Ralph Stull and Sharon Dunham assisting as characters in the skit. The skit depicted the changes that have taken place in the Methodist, Evangelical and United Brethren Churches from 1762-1968. It showed the development and growth of the churches. The usual differing of opinions were brought out. Such names as Cope, Wesley, Albright and Asbury (the first bishop to be consecrated in America) were mentioned and the roles they had in the organization of the church. Daniel Freeman in 1804 was the first Methodist preacher, who came to Michigan. The historical background of these years was brought out and some of the many songs written and sung during those significant years were mentioned, some of which the ladies sang. One was a solo by Sharon Dunham "Lorena". There followed the years that women started having more rights,

leading to women church organizations being formed. Significant, because it has been during our lifetime, was the year 1939 when the Methodist Episcopal Church, the M.E. Church South and the Methodist Protestant churches merged. It was then, the W.M.S. was formed. All this culminated another important date, Tuesday, April 23, 1968 when the United Methodist Church came into being, a union of what had been five churches into one church, with a membership of 11,000,000 members. Mrs Charles Kridner was in charge of devotional service. At the close of the program a social hour followed with Mrs Howard Peltier, Mrs G.W. Bennett and Mrs Ruby Parks in charge. The Harvest Festival of the Women's Society of Christian Service, originally scheduled for Oct. 30, conflicted with the Ovid-Elsie Band Novorgasbord, was changed to Nov. 13. Thirty two Kappa Phi Sorority members from Central Michigan University recently held a three

day retreat at the Bannister United Methodist Church and participated in the Sunday Morning service. Patricia Dunay of Bannister was a member of the group. On Christian Education Day, church school teachers of the Elsie United Methodist Church were given special recognition for their efforts to this most important task. The first fall coffee hour was held following the service. Mrs Anna Dunay attended a dinner and reception honoring Mildred Sinlayson, Grand Representative of Scotland and Michigan at the Star of Zion OES Chapter No. 398 in Detroit recently. Mrs Alex-Dunay and daughter, Patricia attended a baby shower last Sunday afternoon honoring Mrs Ronald Egress of DeWitt in the home of Mrs Frank Stasa at Rainbow Lake. Patricia Dunay has returned to her studies at Central Michigan University, starting practice teaching at Shepherd High School last Monday.

BETTER IDEA OPTIONS...make the going great

You'll enjoy Ford's better ideas every mile you drive in your favorite model. With over 270 better idea options to choose from, you can tailor your car to your own personal taste. Shown here are just a few of many, many available.

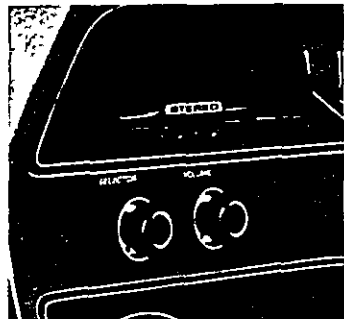

Some better ideas provide a luxurious comfort that means arriving refreshed—like **SelectAire Conditioner**. Cools in summer, heats in winter, dehumidifies comfortably, and helps filter out dust and pollen.

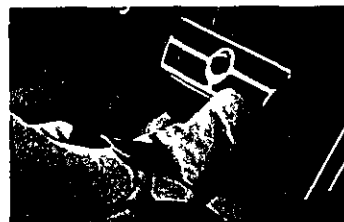

Tilt-Away Steering Wheel (Thunderbird, Mustang). As you leave, wheel swings out of way. You can adjust wheel to most comfortable driving position. **Tilt Steering**, 7-position adjustment, available on Ford. New **Rim-Blow Steering Wheel** has built-in, full-circle horn switch.

AM/FM Stereo Radio, Stereo-Sonic Tape/AM Radio System. The stereo radio (shown below) has five push buttons for preselecting five AM and five FM stations. Or choose the Stereo-Sonic Tape/AM Radio System. Simply insert a cartridge and play over 70 minutes of your favorite music without interruption. Balanced speakers reproduce superb stereo sound. Also available—push-button AM radio. All sound systems fully transistorized for instant warm-up, trouble-free operation.

For added stopping ease, there are **Power Front Disc Brakes**, with power drum-type rear brakes. They provide controllable, straighter stops, are less affected by moisture and heat.

Automatic Speed Control (Ford, Thunderbird), a better idea for freeway driving. Preset speed. Cruise with foot off accelerator. Mustang version is called **Fingertip Speed Control**.

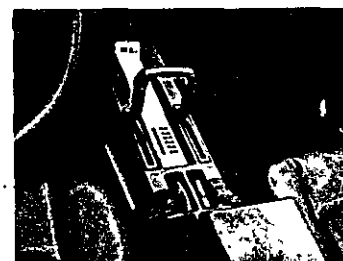

While cruising, the front seat passenger can relax, even take a nap, if you specify the optional **Reclining Seat**. Especially restful on long trips.

With the **Convenience Group**, you can "stay on top of it" at a glance. Warning lights on the instrument panel remind you to fasten "seat belts," that there's a "door ajar," alert you when

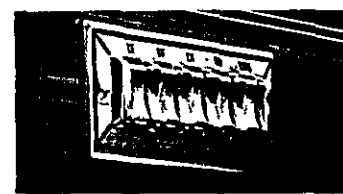

you need more "fuel" and signal when the "front lights" are still turned on.

Another convenience is Ford's better idea **SelectShift Cruise-O-Matic**, the two-way transmission. It's an automatic, or a manual. Ideal for trailer towing. Illustrated is the U-bar floor-mounted **SelectShift** handle on Ford XL.

Raise or lower windows at push of switch with **Power Windows**. Controls at each side window, master control at driver's window. Handy during sudden rains, or when driving alone. So are **Power Door Locks**.
