March 8, 2016

To the Honorable Chairman and
Members of the Clinton County
Board of Commissioners

Dear Board of Commissioners:

In accordance with the provisions of Chapter 2, Section 31, of the Michigan Drain Code, which is Act 40 of the Public Acts of 1956, as amended, I respectfully submit my Annual Report for the Clinton County Drain Commissioner's office for the year ending December 31, 2016.

This report summarizes the activities of this office for 2016 and provides financial information for each of the active drain accounts for our county drains. It also includes comparative historical data that may be of interest to readers of this report.

Our staff had remained extremely stable since I became Drain Commissioner in 2005. That changed when Brian Lawless retired in May after nearly 24 years of dedicated service. We did not hire a direct replacement to fill his Construction Inspector position but instead filled our long vacant Engineering Technician position. Dean Morton joined our staff in July, and we are thrilled to have him here. He will take on some of the duties that Brian handled and will provide needed help with various software packages we use in the office and the field. We are excited with the new perspective and the skill set he brings to our staff.

With no major flooding rainfall events in 2016, we spent much of the year progressing on the five petitions that were filed in 2015. In addition, we received a petition as a result of the 2015 flooding for a new drain to be called the Riverside Drain in Watertown Township. This petition follows the establishment of a new drainage district resulting from 2015 flooding. As of this writing we have two petitioned projects under construction.

Even though the number of petitions were down last year, we were busy with several larger maintenance projects and continued work on the previous year's petitions. Maintenance of our existing drains continues to be the focus of most of our work. By statute, we are able to expend up to \$5,000 per mile per year for maintenance work. This can be exceeded in an emergency or by a resolution from the affected township. Last year I requested and received five township resolutions that allowed me to exceed the statutory spending limit to complete needed maintenance all at once rather than spreading the work over multiple years.

A good share of my time in 2016 was spent on the Looking Glass River. Previously I had understood this to be a natural watercourse that was never established as a county or intercounty drain. There existed some records in our files pertaining to Looking Glass River Intercounty Drainage Board meetings; however, it was very unclear as to what this board was responsible for. In the summer of 2015, the drainage board again met to discuss and take the

necessary steps to determine the established route and course and the drainage district that the board has jurisdiction for, if anything. The board chose to move forward with a legal review of the records in Ionia, Clinton, Shiawassee, Livingston, and Ingham counties as well as the records at the Michigan Department of Agriculture and Rural Development in an effort to answer numerous questions. After significant review and research over the next several months the conclusion was reached that the Looking Glass River exists as an intercounty drain from the line between DeWitt and Olive Townships upstream to the north line of Livingston County covering a distance of approximately 35.5 miles.

In 2016 the Looking Glass Drainage Board chose to move forward with maintenance in the form of removal of dead and fallen trees and log jams from a stretch of the river in Shiawassee County. Two contracts were let to complete work upstream and downstream of M-52. Work began on Contract 2 in December but progress was slowed by very high water levels. The drainage board has borrowed funds to pay for the work. The drainage district boundary will be revised in 2017 using current topographic and parcel boundary records to more accurately define the area of land benefiting from the intercounty drain portion of the river. The expenses for the work undertaken by the drainage board will be assessed to the district and is expected to be spread over two years beginning in 2017.

We continue to work with and educate contractors who may have been less familiar with the work of our office. This is important to be sure we have qualified contractors available to work on drains in the coming years. We are always looking to utilize local contractors, as supporting Clinton County businesses is important to me.

We've made advancements in identifying the amount of infrastructure we manage. We continue to work towards building and growing our asset database to better utilize our asset management software. I expect to see much improvement in the ability to specifically document our maintenance activities which will aid in the planning and budgeting of future work.

Our office purchased a replacement for our tile video inspection camera system. With cross-training, we have two employees capable of operating the system which affords us some flexibility in the operation of the equipment. To help offset the expense of the new camera system, some of our old and unneeded equipment was sold using an online auction site.

For each drain we assess for maintenance we hold a day of review of apportionments. Last year we mailed out over 6,200 day of review notices to landowners for the 60 drains we assessed for maintenance. This is rather unique to Clinton County as most drain commissioners just carry over previous apportionment percentages and therefore, per the Drain Code, are not required to notify landowners of assessments prior to their appearance on winter tax bills. We have been successful by providing estimated dollar amounts and apportionment percentages in the notices and giving landowners the opportunity to question and contest their apportionments prior to their appearance on the tax bill.

Last year the number of drains and the total amount of drain assessments decreased significantly from 2015. This is in part due to delays in getting petitioned construction projects underway and to 13 multi-year drain assessments being paid off last year. Numbers will most certainly increase again in 2017 as we have several petition projects for which construction is expected to begin.

2016 Summary

The following bullet points offer a brief summary of 2016 Drain Commissioner's office activity:

- Performed general maintenance work or inspections on 325 drains.
- Cleaned out 24.69 miles of open drains.
- Performed major right of way clearing work on 6.73 miles of drains.
- Replaced 2.45 miles of enclosed tile drain.
- Assessed a total of \$920,711 to 82 drainage districts.
- Progressed with engineering and design work on petitions for the #658 Miller & Foster Drain, #477 Faiver & Branch Drain, #950 Carter-Burke Drain, #068 Wilderness Drive Drain, and the #956 Timber Ridge Drain.
- Received one new petition for the #087 Riverside Drain which is a new drain.
- Provided petitions for landowner circulation on the #585 John Voltz Drain and the #929 William M. Smith Drain.
- Provided Applications to Lay Out and Establish a Drainage District for two new drains to be known as the Looking Glass Brook Drain and the Herbison & Wright Drain.
- Held Board of Determination meetings on two drains, the #956 Timber Ridge Drain and the #087 Riverside Drain.
- Reviewed or inspected 68 site plans or subdivisions/condominiums.
- Performed herbicide applications on 22 drainage systems totaling over 18 miles.
- Secured financing for 39 maintenance or reconstruction projects totaling \$767,000.
- Processed 1,012 drain orders totaling \$1,978,464.
- Received five township resolutions to allow us to exceed the statutory spending limit for maintenance.

After my 11th year as Drain Commissioner and my 31st year working in the Drain Office it's clear that I'm blessed with a wonderful and dedicated staff that provides outstanding service and makes my job less difficult. I sincerely appreciate my staff of Jon Morrison, my Deputy and staff Engineer; Lynn Cech, Administrative Aide; Cheri Theis, Drain Accounting Specialist; David Seeger, Maintenance Worker; and Dean Morton, Engineering Technician. As always, we strive to make dealing with the drain office a positive experience. I also thank the Board of Commissioners, the Road Commission staff, local units of government, and the county residents for their continued support.

Sincerely,

Phil Hanses
Drain Commissioner
