8. Proposed final stabilization method: Sod Seed/Mulch Hydroseed Other _____

9. Does this project include any work within or disruption of a 100-year floodplain or wetland? Yes No

If Yes, please contact the Michigan Department of Environmental Quality (MDEQ) for permitting.

General Conditions and Responsibilities:

- Issuance of the Soil Erosion and Sedimentation Control Permit does not waive the necessity of obtaining other federal, state, and local permits that may be required.
- This application must include a site plan.
- This application serves as written consent for the Clinton County Community Development office to enter onto the site for the purpose of inspection.
- If a change in ownership of the property occurs prior to the closure of the permit, a Permit Transfer to the new owner is required. If the permit is not transferred, the original permittee will remain the responsible party for any fines, fees, or enforcement action.
- Call for inspection before construction begins to schedule the initial inspection.
- Temporary soil erosion and sedimentation control measures must remain until permanent stabilization measures are in place.
- All disturbed areas must be seeded/sodded no more than 5 days after final grade is established.
- Notify within one week after completing the permitted activity or one week prior to the expiration date - whichever comes first.

Statement of Understanding and Agreement:

My (our) signatures below certify that the information provided on this application is accurate, that I (we) have read, understand, and will comply with the "General Conditions and Responsibilities" as outlined in this application, as well as the requirements of Part 91 and its corresponding rules, the Clinton County Soil Erosion and Sedimentation Control Ordinance, and applicable local ordinances.

Both, the landowner and designated agent's signatures are required.

Landowner's Signature: _____ **Date:** _____

Designated Agent's Signature: _____ **Date:** _____

For Administrative Use Only

Stipulations:

Additional Stipulations/Comments:

Install silt fence per plan.

Install stone access drive.

Clean/sweep streets daily.

Protect catch basins as needed.

Determination of Review:

Approved (Project requires permit/does not qualify for Exemption/Waiver.)

Exempt (Earth change is not within 500 feet of any lake, stream, or drain AND disturbs less than one acre of land.)

Special Exemption/Waiver
