

Clinton County

now offers a *FREE*

Sharps Program!

It's easy, just:

1) Pick up a container at a participating pharmacy (**Locations listed on back**)

2) Drop-off full containers at Granger's Disposal Center located at 16500 - Driveway #9 Wood Rd, Lansing.

This program provides the best option to safely handle home generated sharps, which can include needles, syringes with needles, intravenous tubing with needles attached, lancets, etc. Improper disposal of sharps is a health and safety threat from "stick" injuries which may transport blood borne pathogens.

Free containers are provided that are designed to be leak-resistant, and are made of rigid, thick-walled plastic with a special label.

This program is the best option available to minimize risks!
